2015 7th International Conference on Games and Virtual Worlds for Serious Applications (VS-Games 2015)

Skovde, Sweden
16 – 18 September 2015
## Table of Contents

A Study on the Collective Perceived Representation of a Real Urban Area through the Usage of an Engaging Framework, based on a 3D Virtual Environment and OpenStreetMap Data .......................................................... 1
*Marco Alessi, Stefania Castelli, Valentina Chetta, Enza Giangreco, Stefano Pino, Davide Storelli, Angelo Corallo, Laura Fortunato, and Andrea Gentile*

The Active Instructor: Benefits and Barriers to Instructor-Led Serious Gaming ........................................ 8
*Anna-Sofia and Alklind Taylor*

A Game-based Training Approach to Enhance Human Hand Motor Learning and Control Abilities .......................................................... 16
*Ali Asadipour, Kurt Debattista, and Alan Chalmers*

Classification of Affective Data to Evaluate the Level Design in a Role-playing Videogame .......................................................... 22
*Fabrizio Balducci, Costantino Grana, and Rita Cucchiara*

LiverDefense: Using a Tower Defense Game as a Customisable Research Tool ........................................ 30
*Julia Brich, Katja Rogers, Julian Frommel, Martin Weidhaas, Adrian Bruckner, Sarah Mirabile, Tamara Dorn, Valentin Riemer, Claudia Schrader, and Michael Weber*

Generation of Variable Human Faces from 3D Scan Dataset .......................................................... 38
*Igor Chalas, Zuzana Ferkova, Katarina Furmanova, Jiri Sochor, and Barbora Kozliková*

Experience Surveillance Suite for Unity 3D .......................................................... 46
*Alexiei Dingli, Andreas Giordimaina, and Hector P. Martinez*

Project Sanitarium - Gaming TB: A serious Game for a Serious Problem ........................................ 52
*Iain Donald, Karen Meyer, John Brengman, Stephen Gillespie, and Ruth Bowness*

Towards a Construction and Validation of a Serious Game Product Quality Model ........................................ 60
*Lilia García-Mundo, Marcela Genero, and Mario Piattini*

Augmenting Technology Trees: Automation and Tool Support .......................................................... 68
*Teemu J. Heinimaki and Tapio Elomaa*

Enhancing User Engagement in Immersive Games through Multisensory Cues ........................................ 76
*Ernst Kruijff, Alexander Marquardt, Christina Trepkowski, Jonas Schild, and Andre Hinkenjann*

Fractal Nature - Generating Realistic Terrains for Games .......................................................... 84
*Adrian Cristea and Fotis Liarokapis*

Puppet Narrator: Utilizing Motion Sensing Technology in Storytelling for Young Children .......................................................... 92
*Hui Liang, Jian Chang, Ismail K. Kazmi, Jian J. Zhang, and Peifeng Jiao*

A Literature Review of Gamification Design Frameworks .......................................................... 100
*Alberto Mora, Daniel Riera, Carina Gonzalez, and Joan Arnedo-Moreno*

Communication and Knowledge Sharing in an Immersive Learning Game ........................................ 108
*David Panzoli, Catherine Pons-Lelardeux, and Pierre Lagarrigue*
A Feasibility Study for Gamification in Transport Maintenance: Requirements to Implement Gamification in Heterogeneous Organizations

Vinutha Magal Shreenath, Maksims Kornevs, Jayanth Raghothama, and Sebastiaan Meijer

Mapping between Pedagogical Design Strategies and Serious Game Narratives

Frederik Van Broeckhoven, Joachim Vlieghe, and Olga De Troyer

A Systematic Mapping Study on Gamified Software Quality

Juan Vargas-Enriquez, Lilia Garcia-Mundo, Marcela Genero, and Mario Piattini

The Effect of Prior Gaming Experience in Motor Imagery Training for Brain-Computer Interfaces: A Pilot Study

Athanasios Vourvopoulos, Fotis Liarokapis, and Mon-Chu Chen

Accessible Game Culture Using Inclusive Game Design: Participating in a Visual Culture that You Cannot See

Ulf Wilhelmsson, Henrik Engstrom, Jenny Brusk, and Per-Anders Ostblad

Sort Attack: Visualization and Gamification of Sorting Algorithm Learning

Alfa R. Yohannis and Yulius D. Prabowo

Your Answer Will Make an Impression: Using Quiz Game Mechanics for the Collection of Visitor Data at an Exhibition

Maria Guadalupe Alvarez Diaz, Ulf Wilhelmsson, Mikael Lebram, and Marcus Toftedahl

Enhancing Immersion with Contextualized Scenarios: Role-playing in Prehospital Care Training

Per Backlund, Henrik Engstrom, Mikael Johannesson, Mikael Lebram, Magnus Andersson Hagiwara, and Hanna Maurin Soderholm

Proposal for Non-contact Analysis of Multimodal Inputs to Measure Stress Level in Serious Games

Fernando Bevilacqua, Per Backlund, and Henrik Engstrom

Continuous Collision Detection Using Tetrahedral Structures

Jan Cejka

Drink & Drive: A Serious but Fun Game on Alcohol-Induced Impairments in Road Traffic

Frank Gaibler, Simon Faber, Sarah Edelhofer, and Sebastian von Mammen

Junk-Food Destroyer: Helping Adolescents with Down Syndrome to Understand Healthy Eating through Serious Game

Paul D. Hatzigiannakoglou

Distinction of Intrinsic and Extrinsic Stress in an Exercise Game by Combining Multiple Physiological Indices

Yoshimasa Ohmoto, Seiji Takeda, and Toyoaki Nishida
