2015 24th Wireless and Optical Communication Conference (WOCC 2015)

Taipei, Taiwan
23-24 October 2015
2015 24th Wireless and Optical Communication Conference (WOCC)

Multi-Antenna Communications

Optimal linear Precoding Scheme for Multibeam Satellite Systems Based on Partial Channel Information
Song Gaojun (Nanchang Hangkong university, P.R. China), Hu Baohua (Nanchang Hangkong University, P.R. China), Zhang Xiaolin (Nanchang Hangkong University, P.R. China) ........................................ 1

Spectrum Sharing

Weighted Reliability Cooperative Spectrum Sensing Algorithm
Zhihua Bao (Nantong University, P.R. China), Danyan Ni (Nantong University, P.R. China), Shibing Zhang (Nantong University, P.R. China) .......................................................................................... 5

Social Network

Predicting Personality Traits of Chinese Users Based on Facebook Wall Posts
Kuei-Hsiang Peng (National Tsing Hua University, Taiwan), Li-Heng Liou (National Tsing Hua University, Taiwan), Cheng-Shang Chang (National Tsing Hua University, Taiwan), Duan-Shin Lee (National Tsing Hua University, Taiwan) ...................................................................................................... 9

Fiber-Wireless Communication Systems and Modules

Design of Voltage Controlled Oscillator for Fiber Lasers Application in Microwave Generation
Wen Cheng Lai (National Taiwan University of Science and Technology, Taiwan) ........................................... 15

Optical Networks

Virtual-Topology Design for Mixed-Line-Rate Optical WDM Networks under Multi-Hour Traffic
Der-Rong Din (National ChangHua University of Education, Taiwan), Guan-Bin Jhang (National Changhua University of Education, Taiwan) .......................................................... 19

Multi-Antenna Communications

Superimposed Channel Training Algorithm for Time-Varying MIMO Relay Systems
Choo Chiong (Curtin University, Australia), Yue Rong (Curtin University, Australia), Yong Xiang (Deakin University, Australia) ........................................................................................................... 24

Transceiver Optimization for Interference MIMO Relay Systems Using the Structure of Relay Matrix
Khoa Nguyen (Curtin University, Australia), Yue Rong (Curtin University, Australia), Nordholm Sven (Curtin University of Technology, Australia) .................................................................................. 29
Integrated Optics and Sillicon Photonics

Influences of Cladding Index and Cladding Thickness on the Bandwidth of Terahertz Pipe Waveguide
Yu-Kun Wang (National Yunlin University of Science and Technology, Taiwan), Chih-Hsien Lai (National Yunlin University of Science and Technology, Taiwan), Yi-Siang Yeh (National Yunlin University of Science and Technology, Taiwan) ................................................................. 34

Fiber-Wireless Communication Systems and Modules

Integration of Multiple Automotive Radar Modules Based on Fiber-Wireless Network
Jau-Jr Lin (National Changhua University of Education, Taiwan) ....................................................... 36

New Trends

The Design of Big Data Analytics for Testing & Measurement and Traffic Flow on an Experimental 4G/LTE Network
Bao-Shuh Lin (National Chiao Tung University, Taiwan), Li-Ping Tung (National Chiao Tung University, Taiwan), I-Ching Hsieh (National Chiao Tung University, Taiwan), Shu-Yuan Chou (National Chiao Tung University, Taiwan) ........................................................................... 40

Optical Networks

Design of a Multicast Optical Ethernet Switch Based on SOA Technology
Yuh Jiuh Cheng (Chunghwa Telecom Labs & Chunghwa Telecom Company, Taiwan), Yhi Shiau (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Shu-Ying Cheng (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan) ................................................................. 45

Analysis and Demonstrate of G/EPON Coexisting with NG-PON
Feng-Ming Hsu (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Hai-Lin Wang (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Yin-Hsun Huang (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Ho-Chun Lin (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Tsung-Mou Chen (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan), Rong-Ruey Lee (Telecommunication Laboratories, Chunghwa Telecom Co., Ltd., Taiwan) ................................................................. 50

Optical Fiber Communication System

An Iterative SSBI Reduction DSP for Spectral Efficiency Enhancement in a Multiband DDO-OFDM system
Kai-Ming Feng (National Tsing Hua University, Taiwan), Jhih-Heng Yan (National Tsing Hua University, Taiwan), You-Wei Chen (National Tsing Hua University, Taiwan), Bing-Chang Tsai (National Tsing Hua University, Taiwan) ........................................................................... 53
Spectrum Sharing

Power Control and Beamforming Design for Receivers with Inter-Cell Interference Cancellation in Heterogeneous Networks
Yi-Yao Lan (National Taiwan University, Taiwan), Wen-Hao Chiang (National Taiwan University, Taiwan), I-Wei Lai (Chang Gung University, Taiwan), Tzi-Dar Chiueh (National Taiwan University, Taiwan) ................................................................. 58

Multicarrier Communication

A Novel Timing Synchronization Method for U-OFDM-Based Visible Light Communication
Du Zhiyuan (University of Science and Technology Beijing, P.R. China), Xian Zhou (University of Science and Technology Beijing, P.R. China), Ke Ping Long (University of Science and Technology Beijing, P.R. China) .............................................................................................................. 63

Applications

Quickest Change Detection via Fault Tolerant Decision Fusion for Multiple Power Quality Events
Shih-Tang Su (Academia Sinica, Taiwan), Cheng-Guan Hou (National Taiwan University of Science and Technology, Taiwan), Shih-Chun Lin (National Taiwan University of Science and Technology, Taiwan), Chan-Nan Lu (National Sun Yat-sen University, Taiwan), Wei-Ho Chung (Academia Sinica, Taiwan) ............................................................................................................. 67

Fiber-Wireless Communication Systems and Modules

A Bidirectional 60-GHz/30-GHz/15-GHz Wireless-over-Fiber Transmission System
Chung-Yi Li (National Taipei University of Technology, Taiwan), Hai-Han Lu (National Taipei University of Technology, Taiwan), Peng-Chun Peng (National Taipei University of Technology, Taiwan), Ting-Chien Lu (National Taipei University of Technology, Taiwan), Bo-Rui Chen (National Taipei University of Technology, Taiwan), Dai-Hua Lin (National Taipei University of Technology, Taiwan) ........................................................................................................ 72

Integrated Optics and Sillicon Photonics

Fabrication of Microtoroid Resonators on LiNbO3
Tzyy-Jiann Wang (National Taipei University of Technology, Taiwan), Po-Ting Chen (National Taipei University of Technology, Taiwan), Wen-Chieh Hsiao (National Taipei University of Technology, Taiwan), Ying-Che Lin (National Taipei University of Technology, Taiwan), Huan Niu (National Tsing Hua University, Taiwan) ........................................................................................................... 78

Multicarrier Communication

Iterative Decoding of Precoded Multichannel System with PAPR Reduction
Tsung-Sheng Tang (National Taiwan University, Taiwan), Chung-Pi Lee (National Taiwan University, Taiwan), Hsuan-Jung Su (National Taiwan University, Taiwan) ................................................................. 82
Resource Allocation

Efficient Mode Selection for D2D Communication: An Interference Upper Bound Approach
Yao-Ting Chang (National Cheng Kung University, Taiwan), Kuang-Hao (Stanley) Liu (National Cheng Kung University, Taiwan) ................................................................. 87

An On-Demand QoE Resource Allocation Algorithm for Multi-flow LTE eMBMS
Hsiang-Yun Meng (National Taiwan University, Taiwan), Ching-Chun Chou (National Taiwan University, Taiwan), Rafael Kaliski (National Taiwan University, Taiwan), Hung-Yu Wei (National Taiwan University, Taiwan) ........................................................................ 93

Multi-Antenna Communications

An Improved Relative Channel Reciprocity Calibration Method in TDD Massive MIMO Systems
Qiang Liu (Tsinghua University, P.R. China), Xin Su (Tsinghua University, P.R. China), Jie Zeng (Tsinghua University, P.R. China), Hui Gao (Beijing University of Posts and Telecommunications, P.R. China), Tiejun Lv (Beijing University of Posts and Telecommunications, P.R. China), Xibin Xu (Tsinghua University, P.R. China), Chiyang Xiao (Tsinghua University, P.R. China) ........................................................................ 98

Resource Allocation

Admission Control Strategy in LTE-A and WLAN Integrated Network
Jie Zeng (Tsinghua University, P.R. China), Rongrong Xing (Beijing University of Posts and Telecommunications, P.R. China), Xin Su (Tsinghua University, P.R. China), Hui Gao (Beijing University of Posts and Telecommunications, P.R. China), Tiejun Lv (Beijing University of Posts and Telecommunications, P.R. China), Xibin Xu (Tsinghua University, P.R. China) ....................... 103

Optical Networks

Evaluations for Transponder Configuration in CD-ROADM Optical Networks using Intra-Node-Contention-Free RWA Algorithm
Min Zhu (Southeast University, P.R. China), Dongpeng Wang (Southeast University, P.R. China), Jiao Zhang (Southeast University, P.R. China), Yu Zheng (Southeast University, P.R. China), Hehong Fan (Southeast University, P.R. China), Xiaoan Sun (Southeast University, P.R. China), Junmin Wu (State Grid Electric Power Research Institute, P.R. China), Zhang Xiaojian (EPRI, P.R. China), Gang Zhang (State Grid Electric Power Research Institute, P.R. China), Peng Wu (China Electric Power Research Institute, P.R. China) .............................................. 108

Multicarrier Communication

Application of Shielding Textile Materials in Electric Vehicles
Marek Neruda (Czech Technical University in Prague, Czech Republic), Lukas Vojtech (Czech Technical University Prague, Czech Republic), Matej Rohlik (Czech Technical University in Prague & Faculty of Electrical Engineering, Czech Republic), Jiri Hajek (Czech Technical University in Prague, Czech Republic), Radek Holý (Czech Technical University in Prague, Czech Republic), Marek Kalika (Czech Technical University in Prague, Czech Republic) ......................... 113
New Trends

*Energy Detector Based Spectrum Sensing by Adaptive Threshold for Low SNR in CR Networks*
Manobendu Sarker (University of Asia Pacific, Bangladesh) .......................................................... 118

Multi-Antenna Communications

*Performance of Relay with Multi-Layered STBC Uplink Wireless Communication for Multiple Access Channel*
M M Kamruzzaman (Shenzhen University, P.R. China), Wenqi He (Shenzhen University, P.R. China), Xiang Peng (Shenzhen University, P.R. China) .................................................. 123

New Trends

*A Power Allocation Algorithm to Maximize Capacity in a Full-Duplex Multi-Carrier System*
Cheng Feng (Peking University, P.R. China), Chang Liu (Peking University, P.R. China), Yongchao Xin (Peking University & Intel, P.R. China), Meng Ma (Peking University, P.R. China), Bingli Jiao (Peking University, P.R. China) ........................................................................ 128

*Cross-Layer Error Recovery Scheme for Data Transmission over 4G Wireless Networks*
Wen-Chih Yang (National Chiao Tung University, Taiwan), Ming-Dao Chen (National Chiao Tung University, Taiwan), Hsu-Feng Hsiao (National Chiao Tung University, Taiwan) ...................... 133

Resource Allocation

*A Field-tested QoS Scheduler for Diverse Traffic Flows over Mobile Networks*
Sheng-Chia Tseng (National Central University, Taiwan), Chih-Wei Huang (National Central University, Taiwan), Tung-Lung Lu (Research Assist, Taiwan), Chiu-Ti Chiang (National Central University, Taiwan), Wen-Hsin Wei (Institute for Information Industry, Taiwan) ................ 138

Multicarrier Communication

*Analysis of Channel Estimation in Mobile Communication Systems with Users Moving at Various Speeds*
Cheng Feng (Peking University, P.R. China), Yingyang Chen (Peking University, P.R. China), Hongyu Cui (Peking University, P.R. China), Meng Ma (Peking University, P.R. China), Bingli Jiao (Peking University, P.R. China) ................................................................. 143

*Energy-Aware Subchannel Assignment in OFDMA System with Proportional Rate Constraints*
Su Fong Chien (MIMOS Berhad, Malaysia), Mau-Luen Tham (MIMOS Berhad, Malaysia), Tiew On Ting (Xi'an Jiaotong-Liverpool University, P.R. China), Kyeong Soo Kim (Xi'an Jiaotong-Liverpool University, P.R. China) ........................................................................ 149

Data Analytics

*Modelling Item Sequences by Overlapped Markov Embeddings*
Cheng-Hsuan Tsai (National Taiwan University, Taiwan), Yen-Chieh Lien (National Taiwan University, Taiwan) ...................................................................................................... 154
Deep Belief Networks for Predicting Corporate Defaults
Shu-Hao Yeh (University of Taipei, Taiwan), Chuan-Ju Wang (University of Taipei, Taiwan),
Ming-Feng Tsai (National Chengchi University, Taiwan) ................................................................. 159

Applications

Applying Internet of Things for Personalized Healthcare in Smart Homes
Soumya Kanti Datta (EURECOM, France), Christian Bonnet (Institut Eurecom, France), Amelie
Gyra (Insight, France), Rui Pedro Ferreira da Costa (EURECOM, France), Karima Boudaoud
(University of Nice Sophia Antipolis, France) .................................................................................. 164

Data Analytics

Contextual Restaurant Recommendation Utilizing Implicit Feedback
Wei-Ti Kuo (National Taiwan University, Taiwan), Yu-Chun Wang (National Taiwan University,
Taiwan), Richard Tzong-Han Tsai (National Central University, Taiwan), Jane Hsu (National
Taiwan University, Taiwan) .............................................................................................................. 170

Social Network

Towards an Efficient Platform for Social Big Data Analytics
Jenq-Haur Wang (National Taipei University of Technology, Taiwan), Kuan-Ting Chen
(National Taipei University of Technology, Taiwan) ............................................................................ 175

New Trends

Utility Based Resource Allocation Algorithm with Carrier Aggregation on Unlicensed Band
Jiahui Liu (Beijing University of Post and Telecommunication, P.R. China), Xiaofeng Tao
(Beijing University of Posts and Telecommunications, P.R. China), Xiang Zhou (Beijing
University of Post and Telecommunication, P.R. China), Qimei Cui (Beijing University of Posts
and Telecommunications, P.R. China) .................................................................................................. 180

Social Network

Mining Location-based Social Networks for Criminal Activity Prediction
Yu-Yueh Huang (NTU, Taiwan), Cheng-Te Li (Academia Sinica, Taiwan), Sk Jeng (National
Taiwan University, Taiwan) ............................................................................................................... 185

Spectrum Sharing

Adaptive Signature Waveforms Design for Cognitive Radio System
Wei-Chin Li (National Taiwan University, Taiwan), Jui-Lin Yen (National Taiwan University,
Taiwan), Hsuan-Jung Su (National Taiwan University, Taiwan) ......................................................... 190
Applications

Prospect Theoretic User Satisfaction in Wireless Communications Networks
Chia-Han Lee (Academia Sinica, Taiwan) ............................................................... 195

New Trends

A Novel Feature Selection Method for Nearest Neighbor Search in Binary Embedding Codes
Chih-Yi Chiu (National Chiayi University, Taiwan), Yu-Cyuan Liou (National Chiayi University, Taiwan) ............................................................... 201

Resource Allocation

An Atomic Routing Game for Multi-class Communication Networks with Quality of Service Requirements
Chia-Hung Wang (Fujian University of Technology, P.R. China), Chia-Jung Lee (Fujian University of Technology, P.R. China), Mu-En Wu (Soochow University, Taiwan), Wei-Ho Chung (Academia Sinica, Taiwan) ............................................................... 206
