International Conference on Sustainable Energy and Environmental Engineering (SEEE 2015)

Advances in Engineering Research Volume 14

Bangkok, Thailand
25 – 26 October 2015

Editor:

P. Shaw

ISBN: 978-1-5108-1482-0
TABLE OF CONTENTS

SUSTAINABLE ENERGY AND ENERGY CONVERSION

DYNAMIC AGC UNITS’ DISPATCHING BASED ON LOSS SENSITIVITY IDENTIFICATION WITH THE CONSIDERATION OF WIND ENERGY ................................................................. 1
Shuang Zhang, Jingyi Zhang, Xuehong Yang, Hongqiang Li, Feng Gao, Chao Lu

THE COMPETITIVE ADVANTAGE OF DEVELOPING OFFSHORE WIND ENERGY IN CHINA ......................................................... 5
Ru Liu, Yanjun Liu, Long Li

WIND SPEED FORECASTING USING LSSVM MODEL BASED ON A NOVEL OPTIMIZATION ALGORITHM ................................................................. 8
Yang Bai, Jianyan Tian, Fang Wang, Wei Gao, Shengqiang Yang, Xiaoyang Liu

THERMOELECTRIC GENERATION USING INDUSTRIAL GRADE LOW-COST MATERIALS ........................................................ 12
K. P. V. B. Kobbekadawa, N. D. Subasinghe

DETERMINATION OF THE CRITICAL WIND SPEED AND STABILITY OF THE BUNDLED PHASE AT GALLOPING OVERHEAD LINES ................................................................. 16
Maratkali Dzhamanbayev, Nurmakhan Tokenov

IMPACTS OF INTEGRATION OF WIND AND SOLAR PV IN A TYPICAL POWER NETWORK ....................................................... 21
Swarna Ksv, Arangarajan Vinayagam, Sui Yang Khoo, Alex Stojcevski

GENETIC ALGORITHM BASED MODELING OF DOUBLY-FED WIND FARMS ................................................................. 26
Yujia Gu, Yinfeng Wang, Xiaotao Li, Bei Tian, Feng Gao, Chao Lu

TIDAL FIELD NUMERICAL SIMULATION OF HULUSHAN BAY ......................................................................................... 31
Yuchi Niu, Jianguo Lin, Lei Liu

THE SOLUTION FOR VARIATION OF RENEWABLE ENERGY GENERATION ......................................................................................... 35
Weizheng Kong, Yunqi Zhao, Lin Liu, Lu Xing, Dong Zhang

STUDY ON THE EFFECT OF BELT VELOCITY ON THE DUST EMISSION FOR COAL TRANSIT SPOT IN FOSSIL POWER PLANTS ................................................................................ 38
Musong Liu, Yuchun Li, Zhaojin Xu, Lei Ma, Mengxin Mi

CONVERSION OF SOLID WASTE-TO-ENERGY (WTE) IN THAILAND ......................................................................................... 42
Siriporn Boonpa, Alice Sharp

THE DESIGN AND IMPLEMENTATION OF FAMILY ENERGY MANAGEMENT SYSTEM ......................................................................................... 46
Luhua Zhang, Wei Song, Hengchun Ding, Zhonglin Yi, Ruiming Yuan

THE HEAT LOSS TEST AND CALCULATION OF 240T/H CIRCULATING FLUIDIZED BED BOILERS ......................................................................................... 49
Songsong Zhang, Guoli Qi, Jian Guan, Chao Liu, Zhao Liu

TRANSESTERIFICATION OF WASTE COOKING OIL TO BIODIESEL OVER CALCINED HYDROXY SODALITE (HS) CATALYST: A PRELIMINARY INVESTIGATION ......................................................................................... 52
Chabisha P. Makgaba, Michael O. Duramola

VALUATION OF ENVIRONMENTAL EXTERNALITIES IN CHINA’S COAL-FIRED POWER GENERATION: A LATENT CLASS APPROACH ......................................................................................... 57
Qiong Cai, Xiaoli Zhao, Yanan Hu, Kaiyan Luo

PRESSURE REGULATOR OPTIMIZATION IN LPG FUEL INJECTION SYSTEMS ......................................................................................... 62
M. Akif Ceviz, Alirzica Kaleli

POWER ENERGY SYSTEMS AND ENERGY CONSERVATION TECHNOLOGY

SIMULATION AND RESEARCH OF DRIVING MOTOR SPEED CONTROL SYSTEM FOR ELECTRIC VEHICLE ................................................................. 65
Jiandong Guo, Longlong Song, Pei Zheng

RESEARCH ON THE EFFECTS OF THE STRUCTURE OF AIR INLETS AND OUTLETS OF PORCELAINOUS PTC HEATER ......................................................................................... 70
Kan Wang, Ming Li, Kexin Zhang, Zhuoxian Gao, Quan Li, Jupeng Zhang, Boyuan Zhang

PERFORMANCE MONITORING OF THE GAS-STEAM COMBINED CYCLE UNIT IN MULTI-ENERGY POWER GRID ......................................................................................... 73
Xiang Wan, Niansu Hu, Pengfei Han, Shiqi Li

POWER QUALITY IMPACTS IN A TYPICAL MICROGRID ......................................................................................... 77
Arangarajan Vinayagam, Asma Aziz, K. S. V. Swarna, Suiyang Khoo, Alex Stojcevski
RESEARCH ON ANTI-GALLOPING METHOD FOR 6×1520 MM2 LARGE CROSS SECTION
CONDUCTORS ................................................................. 83
Bin Liu, Kuanjun Zhu, Cuolan Liu, Xinmin Li, Jiajun Si
RELIABILITY AND ECONOMIC COMPARISON OF ULTRA-LONG-DISTANCE
TRANSMISSION MODE ................................................................. 87
Huaixin Wang, Aiyou Chen, Jian Wang, Yongyi Zhao
RESEARCH ON POWER SHORT-TERM PREDICTION OF THE PHOTOVOLTAIC SYSTEM
BASED ON GREY RELATIONAL ANALYSIS AND QUANTUM PARTICLE SWARM
OPTIMIZATION ................................................................. 91
Qingwu Gong, Jiazhi Lei, Haining Zhang, Yang Lei, Si Tan
RESEARCH AND DESIGN ON THE ON-LINE MONITORING FOR RAINWATER LEAKAGE
OF FLOORS ON SUBSTATION ROOFS ................................................................. 96
Xin Tang, Gang Chen, Bin Hu, Jinping Zhang, Bin Chen, Shuai Lu
SELF TUNING CONTROLLER FOR REDUCING CYCLE TO CYCLE VARIATIONS IN SI
ENGINE ................................................................. 99
Ali Za Kaleli, M. Akif Ceviz, Köksal Erentürk
A FUZZY CONTROLLED INCREMENTAL CONDUCTANCE METHOD FOR Z-SOURCE PV
INVERTER MPPT ................................................................. 103
Jingwei Zhang, Honghua Wang, Chengliang Wang, Wei Han, Zhebei Wang, Rong Sun
EXPERIMENTAL STUDY ON BEARING CAPACITY OF STRAIGHT WELDED PIPE USED IN
TRANSMISSION TOWERS WITH WELD DEFECT ................................................................. 108
Jianjun Liu
HUMAN-CENTRED PRODUCT ARCHITECTURE FROM UPPA TO SAPAD ................................................................. 112
Fei Hu, Xi Zhang, Keisichi Sato, S. Teeravarunyou, Hao Lin
THREE DIMENSIONAL INTERFACE FINITE ELEMENT DERIVATION AND APPLICATION ................................................................. 116
Wenshan Lin
RESEARCH OF EVALUATION SYSTEM FOR THE INVESTMENT AND OPERATIONAL
EFFICIENCY OF DISTRIBUTION NETWORK ................................................................. 121
Fangpeng Zheng, Yongjun Wang, Chunxue Li, Ming Zeng
LINGUISTIC FUZZY ROUGH SETS FOR MULTI CRITERIA GROUP DECISION MAKING ................................................................. 125
Hai Wang, Zeshui Xu
RESEARCH ON KNOWLEDGE MODELING FOR BONDED REPAIR OF COMPOSITE
AIRCRAFT COMPONENT ................................................................. 130
Qiang He, Wenfeng Yang, Qingru Tang
WATER RESOURCE, WASTE TREATMENT AND ENVIRONMENTAL PROTECTION
ENGINEERING
PREDICTION OF GROUNDWATER LEVEL FOR SUSTAINABLE WATER MANAGEMENT IN
AN ARID BASIN USING DATA-DRIVEN MODELS ................................................................. 134
Mutao Huang, Yong Tian
RESEARCH ON THE APPLICATION OF WATER RESOURCES RATIONAL ALLOCATION OF
WATER RESOURCES IN GUIZHOU MOUNTAINOUS AREA ................................................................. 138
Min Liu
SUSTAINABLE WATER REALLOCATION PLANNING FOR SEMI-ARID PARKLAND IN
LOESS PLATEAU ................................................................. 142
Binyi Liu, Nan Wang
STUDY ON THE KINETICS OF WATER DECOMPOSITION BY ZRMNFE MICRO POWDER ................................................................. 146
Yong Yao, Zhiyong Huang, Jiangfeng Song
THE EFFECT OF INITIAL PH ON PISTACHIO PROCESSING INDUSTRIAL WASTEWATER
PRE-TREATMENT BY ELECTROCOAGULATION METHOD ................................................................. 151
Serkan Bayar, Alper Erdem Yilmaz, Zuhal Köksal, Recep Boncukcuoglu, Baybars Ali Fil, Murat Tolga Yilmaz
RISK PREDICTION ANALYSIS OF OIL SPILL FOR THE CHANNEL OF CHANGXING ISLAND ................................................................. 155
Lei Liu, Jianguo Lin, Yuchi Niu
EXPERIMENTALLY TESTING THE POLYETHYLENE PIPES UPON BEING STRAINED WITH
THE SQUEEZE – OFF TOOL ................................................................. 159
Eugen Avrigean, Adrian Marius Pascu, Valentin Stefan Oleksik
A STUDY ON AGGRESSIVENESS OF KCL TO STEEL MATERIAL IN HIGH TEMPERATURE
IN BIOMASS BOILERS ................................................................. 164
Hongliang Zhang, Yuchun Li, Wei Wang, Lei Ma, Liu Chen
SOIL AND LIVING ENVIRONMENT

THE CHARACTERISTICS AND THE DOMINANT FACTOR OF FRACTURE DEVELOPMENT OF THE LOWER SILURIAN LONGMAXI FORMATION BLACK SHALE IN SANGZHI .......................................................... 176
Xiaolin Jin, Chenglong Zhang, Chengdong Mao, Xufeng Li

SOIL VAPOR EXTRACTION REMOVAL OF SEMI VOLATILE ORGANIC COMPOUNDS IN SOIL: A PILOT-SCALE STUDY .......................................................... 180
Chi Zhang, Xiao Chen, Yingyu Tan, Yijian Feng, Zhong Zhong

SEISMIC LANDSLIDE HAZARD IDENTIFICATION AND ASSESSMENT BASED ON BP NEURAL NETWORK .......................................................... 183
Jinsheng Fan, Weidong Li, Xinjian Shan

RESEARCH ON THE MASS DESTRUCTION IN LANDSCAPE ENVIRONMENT .......................................................... 186
Yao Li, Yonggang An, Wenwu Chen, Chang Zhao

TRANSMISSION ELECTRON MICROSCOPIC ANALYSIS OF GEOPOLYMER MADE OF FUSED SLAGS .......................................................... 189
Yootaek Kim, Kyongwoo Lee

IMPROVEMENT AND ANALYSIS OF THE WINTER THERMAL ENVIRONMENT OF RURAL CIVILIAN DWELLINGS IN NORTHWESTERN AREA OF CHINA .......................................................... 193
Yiyun Zhu, Lu Bai, Guochen Sang, Qin Zhao, Qun Zhang
