GRASPING POSITION ESTIMATION FOR PROSTHETIC HAND .................................................. 87  
Rong Wang, Xiaogang Duan, Hua Deng

STUDY ON THE SOUND FIELD DISTRIBUTION IN THE INTERCITY HIGH-SPEED RAILWAY COACHES .......................................................................................................................... 91  
Weijie Bai, Liu Yan, Xiaopai Zhang, Xiaojuan Zhang, Changbin Zhang

STUDY ON THE ACOUSTIC CHARACTERISTICS OF DIFFERENT CAVITY THICKNESS AND THE STRUCTURE OF DIFFERENT ABSORPTION MATERIALS ........................................... 95  
Qingbin Zhao, Liu Yan, Xiaopai Zhang, Xiaojuan Zhang, Changbin Zhang

PARALLEL COMPUTING METHOD FOR THE NON-LINEAR MODEL OF DISPLACEMENT MEASUREMENT ............................................................................................................................. 99  
Yize Chai, Jinchun Hu, Longmin Chen, Shengwu Du

DISCUSSION ON MEASUREMENT AND OPTIMAL MANAGEMENT TECHNOLOGY OF FOREST BASED ON VISUAL IDENTITY .................................................................................. 104  
Rui Pan, Jiadong Ma

A WEIGHT ESTIMATION METHOD FOR PROSTHETIC HAND .................................................. 107  
Bei Yang, Xiaogang Duan, Hua Deng

STEADY-STATE KALMAN ESTIMATOR FOR DESCRIPTOR SYSTEMS WITH COLORED NOISE ................................................................................................................................. 112  
Yan Xu, Guosheng Zhang

RESEARCH ON TOWER CRANE STRUCTURE DAMAGE DETECTION BASED ON ARX MODEL ................................................................................................................................. 116  
Shengchun Wang, Ye Zhang, Peiwei Ni, Yan Tian

THE RESEARCH OF POSITIONING MEASUREMENT BASED ON SENSOR SIGNAL STRENGTH ................................................................................................................................. 121  
Mack Jianhua Du, Roger Liu

FORCE ESTIMATION FOR PROSTHETIC HANDS USING SURFACE ELECTROMYOGRAPHY ................................................................. 124  
Xiaobao Deng, Xiaogang Duan, Hua Deng

ANALYSIS OF EFFECTS ON DYNAMIC ALIGNMENT PRECISION OF WARSHIP COMBAT SYSTEM CAUSED BY ITS ATTITUDE .................................................................................... 127  
Ziheng Zhou, Jianjun Zhao, Deyi Sang, Libin Yang

DISCUSSION ON THE MEASURING METHOD OF THE ELECTRIC RESISTANCE OF SCREEN CLOTHES-SHOES .............................................................................................. 133  
Hongyun Yu, Rui Li, Weijian Pan, Libin Cui, Cheng Ye, Miao Qian, Wenxian Li

LITERATURE REVIEW ON LIGHTNING PROTECTION OF WIND TURBINE BLADES .................................................................................. 136  
Ruifeng Wang, Xiaojun Fu, Feng Xiao

COMPOSITE PERMEABILITY MODEL OF SHALE MATRIX WITH THE EFFECT OF ADSORPTION ................................................................................................................................. 139  
Cheng Cao, Tiantai Li, Bojiang Fan

WIRELESS GRAPHENE NANOWIRES QCM ETHANOL VAPOR SENSOR NETWORK BASED ON ZIGBEE PROTOCOL .............................................................................................. 144  
Jiapeng Liu, Yang Lu, Xiaohua Wang, Ding Qian, Rujiao Cheng, Dongli Zhu

TEST THEORIES AND ITS APPLICATION

A STUDY ON THE PERFORMANCE TEST OF WEIGHT SENSOR SYSTEM FOR AGENT MONITORING OF GASEOUS EXTINGUISHING SYSTEM ............................................................................ 148  
Sungho Hong, Moonsoo Choi, Dongsuk Kim, Jihyun Kwark, Goseop Roh

AN EXPERIMENTAL STUDY ON THE CAPABILITY TEST OF A GAS LEAKAGE CHECKER FOR EXTINGUISHING AGENT VESSELS .................................................................... 152  
Jihyun Kwark, Sungho Hong, Moonsoo Choi, Dongsuk Kim, Goseop Roh

DEVELOPMENT OF DATA INTEGRITY TESTING TOOL FOR MISSION-CRITICAL SYSTEMS ................................................................................................................................. 155  
Bup-Ki Min, Yong-Jun Park, Yongjin Seo, Hyeon Soo Kim

STRUCTURAL OPTIMIZATION OF BACKHOE HYDRAULIC EXCAVATOR WORKING ATTACHMENT BASED ON TESTED DANGEROUS CONDITIONS ........................................... 159  
Yuan Wang, Xiaoping Pang, Jin Chen, Xingtong Gu

TESTING METHODS RESEARCH AND DESIGN FOR NIPS ANTI-EVASION ATTACK .............................................................................. 163  
Xuan Li, Jian Gu, Qian Li

USE OF AUTOMATION IN SENSOR READOUT ASIC CHIP CHARACTERIZATION TO IMPROVE TEST YIELD, COVERAGE AND MAN-HOUR REDUCTION .................................................................................. 167  
Noor Shelida Salleh, Siti Noor Harun, Tan Kong Yew
TEST AND ANALYSIS OF HIGH VOLTAGE AND HIGH FREQUENCY CAPACITORS
CONCERNING FREQUENCY CHARACTERISTICS ............................................................... 171
Heisik Kim, Seoyeon Won, Daeseong Hwang, Kyeongjin Lee

RESEARCH ON SKIN TEXTURE CLASSIFICATION BY GRAY LEVEL CO-OCCURRENCE
MATRIX AND THE BP NEURAL NETWORK ................................................................ 173
Qiaohua Liu, Tianhua Chen, Xiaoyi Wang, Jiping Xu, Li Wang, Yinmao Dong, Hong Meng

A CFD MODEL OF A HEADBOX FOR INJECTING DILUTION WATER AT DIFFERENT
LOCATIONS ALONG A STEP DIFFUSION TUBE ....................................................... 177
Jinsong Zeng, Huang Huang, Yucheng Feng, Ya Dai, Kuoyan Ma
