# TABLE OF CONTENTS

## ACADEMIC KEYNOTE

**THE SHAPES OF THINGS TO COME**  
Sharon C. Glotzer  

## PACKING OF GRANULAR AND GRANULAR FLUID SYSTEMS

**ASSESSING THE IMPACT OF PARTICLE BREAKAGE ON BED PACKING BEHAVIOR**  
Benjamin Tiemens  

**MULTIPHYSICS SIMULATIONS OF RIGID AND DEFORMABLE DISCRETE BODIES**  
Mathew Purvance  

**GRANULAR MATERIALS NEAR JAMMING**  
Robert Behringer  

## AGGLOMERATION, CLUSTERING AND ATTRITION

**FOCUS OF SOME SCALE-UP ISSUES FOR GAS-SOLID FLOWS WITH GROUP B PARTICLES**  
Benjamin Amblard  

**BUILDING A BRIDGE BETWEEN THE PARTICLE SCALE AND THE BULK SCALE PROPERTIES**  
Kerry D. Johanson  

**MODELING FOR FORMULATION DEVELOPMENT, SCALE-UP AND CONTROL OF AGGLOMERATION PROCESSES**  
Paul Mort  

## BEST PRACTICES IN PARTICLE SCIENCE AND TECHNOLOGY

**MODEL DEVELOPMENT FOR PARTICLE AND TABLET COATING**  
Carl R. Wassgren  

**PREDICTION OF PARTICLE INTERACTIONS IN A SPRAY DRYER USING DRYNETICS™**  
Matthew Walter  

**NOVEL CLEAN ENERGY TECHNOLOGIES UTILIZING HIGH-TEMPERATURE HIGH-PRESSURE FLUIDIZED BED REACTORS**  
Raghubir P. Gupta, A. Kataria, B. Turk  

**IN-LINE 3-DIMENSIONAL IMAGE ANALYSIS OF PARTICULATE POWDERS AND SLURRIES**  
Phillip Plantz  

## APPLICATIONS OF NANOPARTICLE TECHNOLOGY

**SILICON NANOCRYSTALS FOR BIOLOGICAL IMAGING**  
Brian A. Korgel  

**CAPILLARY TORQUE ON A ROLLING PARTICLE IN THE PRESENCE OF A THIN LIQUID FILM**  
Jeffrey Marshall  

**MODELING AND VALIDATION OF THE COHESION REDUCTION OF FINE POWDERS VIA SURFACE MODIFICATION**  
Rajesh N. Dave  

**ENGINEERED PARTICLE SYSTEMS FOR INHALED DRUG DELIVERY**  
Benjamin Maynor
POSTER SESSION

ELECTROSTATIC CHARGING AND ENTRAINMENT BEHAVIORS OF BINARY AND QUATERNARY PARTICULATE SYSTEMS IN FLUIDIZED BEDS ................................................................. 116
   Xiaozhou Helios Zhou

CONTACT NETWORK STATISTICS DURING VIBRATION OF DISK PACKINGS ......................................................... 117
   Mark R. Kanner, Carl Schreck, Corey S. O'Hern, Mark D. Shattuck

INCORPORATING ROUGHNESS MEASUREMENTS IN DEM SIMULATIONS OF COHESIVE PARTICLE FLUIDIZATION .......................................................... 118
   Peiyuan Liu

VIBRATIONS OF JAMMED DISK PACKINGS WITH HERTZIAN INTERACTIONS ........................................ 119
   Carl Schreck

COMPUTED TOMOGRAPHY STUDY OF INTERNAL STRUCTURE OF 3D GRANULAR PACKING BASED ON SHAPE ................................................................. 120
   Kieran Murphy, Heinrich Jaeger

NUMERICAL SIMULATIONS OF FLUIDIZED SUSPENSIONS OF COHESIVE PARTICLES WITH SIZE DISTRIBUTIONS ................................................................. 121
   Ali Ozel, Yile Gu, Stefan Radl, Sankaran Sundaresan

SHEAR THICKENING OF CHEMICAL MECHANICAL POLISHING SLURRIES .................................................. 122
   Anastasia Krasovsky

KEPLERIAN ORBITS IN FREELY FALLING CHARGED GRAINS ........................................................................ 123
   Victor Lee

A PARTICLE SEGREGATION STUDY USING GPU-ACCELERATED DEM SIMULATIONS WITH ELASTIC TANGENTIAL FRICITION .................................................. 124
   Austin Isner, Paul B. Umbanhowar, Julio M. Ottino, Richard M. Lueptow

SUBSURFACE X-RAY VISUALIZATION OF THREE-DIMENSIONAL GRANULAR TUMBLER FLOW AND MIXING ........................................................................ 125
   Zafir Zaman, Paul B. Umbanhowar, Julio M. Ottino, Richard M. Lueptow

INDUSTRY KEYNOTE

AN INDUSTRIAL PERSPECTIVE ON PROBLEMS FACING THE PARTICLE TECHNOLOGY COMMUNITY ................................................................. 126
   Karl Jacob

PARTICLE COHESION I

CONTROLLING PARTICLE SEGREGATION: IMPLICATIONS OF PARTICLE COHESION, PROPERTIES, AND FLOW PERTURBATIONS ................................................................. 146
   Joseph J. McCarthy

SHEAR FLOW OF WET, FLEXIBLE FIBERS USING THE DISCRETE ELEMENT METHOD ................................. 165
   Jennifer Sinclair Curtis, C. Wassgren, B. Hancock, B. Ketterhagen

PARTICLE COHESION II

WET GRANULAR FLOWS AND STRUCTURES ......................................................................................... 182
   Arshad Kudrolli

ELECTROSTATIC CHARGING DURING GRANULAR FLOW .................................................................. 183
   Daniel J. Lacks

PARTICLES INTERACTIONS RESULTING IN ELECTROSTATIC CHARGE GENERATION IN GAS-SOLID FLUIDIZED BEDS ............................................................. 208
   Poupak Mehrani

SCALE UP CHALLENGES & SOLUTIONS

SCALE-UP OF AGITATED DRYING: EFFECT OF SHEAR STRESS AND HYDROSTATIC PRESSURE ON API POWDER PROPERTIES .................................................. 209
   Brenda Remy
OPEN QUESTIONS IN MODELING COLLISION, COALESCENCE AND BREAKAGE PROCESSES

R. Bertrum Diemer

THE IMPORTANCE OF FLUID-PARTICLE INTERACTIONS FOR FLUIDIZED SYSTEMS MODELING

Peter Blaser
