# TABLE OF CONTENTS

## PART 1

**STRUCTURAL HEALTH MONITORING: FROM STRUCTURES TO SYSTEMS-OF-SYSTEMS?** ........................................ 1  
Keith Worden, Elizabeth J. Cross, Nikolaos Dervilis, Evangelos Papatheou, Ifigeneia Antoniadou

**FAULT TOLERANT CONTROL OF UNSTABLE LPV SYSTEMS SUBJECT TO ACTUATOR SATURATIONS USING VIRTUAL ACTUATORS?** .................................................. 18  
Damiano Rotondo, Jean-Christophe Ponsart, Didier Theilliol, Fatiha Nejjari, Vicenç Puig

**FURTHER DEVELOPMENT ON THE LPV FAULT TOLERANT CONTROL FOR VEHICLE DYNAMICS** ........................................ 24  
S. Fergani, O. Seriame, L. Dugard, P. Gaspar

**PREDICTIVE FAULT TOLERANT CONTROL FOR LPV SYSTEMS USING MODEL REFERENCE** ........................................ 30  
Juan M. Acevedo-Valle, Vicenç Puig, Sebastian Tornil-Sin, Marcio Witzak, Damiano Rotondo

**ROBUST RECONFIGURABLE CONTROL FOR IN-WHEEL ELECTRIC VEHICLES** ........................................ 36  
Péter Gaspar, József Bokor, András Mihály, Zoltán Szabó, Timea Fülöp, Ferenc Szauter

**AN LPV FAULT TOLERANT CONTROL FOR SEMI-ACTIVE SUSPENSION - SCHEDULED BY FAULT ESTIMATION?** ........................................ 42  
M. Q. Nguyen, O. Sename, L. Dugard

**FINITE-HORIZON DISTRIBUTED H\(\infty\) FAULT ESTIMATION FOR TIME-VARYING SYSTEMS IN SENSOR NETWORKS: A KREIN-SPACE APPROACH?** ........................................ 48  
Bo Shen, Zidong Wang, Hongli Dong, Sijing Zhang

**FAULT-TOLERANT DISTRIBUTED LOAD/FREQUENCY COORDINATION STRATEGIES FOR MULTI-AREA POWER MICROGRIDS** ........................................ 54  
Francesco Tedesco, Alessandro Casavola

**OPTIMAL TOPOLOGY FOR DISTRIBUTED FAULT DETECTION OF LARGE-SCALE SYSTEMS?** ........................................ 60  
Francesca Boem, Riccardo M. G. Ferrari, Thomas Parisini, Marios M. Polycarpou

**DISTRIBUTED ADAPTIVE FAULT-TOLERANT CONTROL OF UNCERTAIN MULTI-AGENT SYSTEMS** ........................................ 66  
Mohsen Khalili, Xiaodong Zhang, Marios Polycarpou, Thomas Parisini, Yongcan Cao

**STRUCTURAL APPROACH FOR DISTRIBUTED FAULT DETECTION AND ISOLATION** ........................................ 72  
Hamed Khorasgani, Daniel Jung, Gautam Biswas

**PREDICTION OF THE WAFER QUALITY WITH RESPECT TO THE PRODUCTION EQUIPMENTS DATA?** ........................................ 78  
Mariam Melhem, Bouchra Ananou, Mohand Djeziri, Mustapha Ouladsine, Jacque Pinaton

**REMAINING USEFUL LIFE ESTIMATION FOR NOISE DEGRADATION TRENDS** ........................................ 85  
Thi-Bich-Lien Nguyen, Mohand Djeziri, Bouchra Ananou, Mustapha Ouladsine, Jacques Pinaton

**PROGNOSIS BASED ON MULTI-BRANCH HIDDEN SEMI-MARKOV MODELS: A CASE STUDY** ........................................ 91  
T. T. Le, C. Berenguer, F. Chatelain

**GENERALIZED PROGNOSTICS ALGORITHM USING KALMAN SMOOTHER** ........................................ 97  
Eric Bechhoefer, Rune Schlanbusch

**TREATMENT OF ACCUMULATIVE VARIABLES IN DATA-DRIVEN PROGNOSTICS OF LEAD-ACID BATTERIES** ........................................ 105  
Erik Frisk, Mattias Krysander

**APPLICATION OF FACTORIZATION AND GAP METRIC TECHNIQUES TO FAULT DETECTION AND ISOLATION PART I: A FACTORIZATION TECHNIQUE BASED FDI FRAMEWORK** ........................................ 113  
S. X. Ding

**APPLICATION OF FACTORIZATION AND GAP METRIC TECHNIQUES TO FAULT DETECTION AND ISOLATION PART II: GAP METRIC TECHNIQUE AIDED FDI PERFORMANCE ANALYSIS** ........................................ 119  
S. X. Ding

**PI ROBUST FAULT DETECTION OBSERVER FOR A CLASS OF UNCERTAIN SWITCHED SYSTEMS USING LMIS?** ........................................ 125  
Ahmad Farhat, Damien Koenig
Robust Fault Detection and Isolation for Uncertain Switched Systems under Asynchronous Switching with Adaptive Threshold?

Muhammad Taskeen Raza, Abdul Qayyum Khan, Ghalam Mustafa, Muhammad Abid

Robust Fault Detection and Diagnosis for Multiple-Model Systems with Uncertainties?

Shanyi Zhao, Biao Huang, Xiaoli Luan, Yanyan Yin, Fei Liu

A Comprehensive Diagnosis of Hybrid Systems for Discrete and Parametric Faults Using Hybrid I/O Automata

Guo Zhou, Guantang Bo, Wenchao Peng

Stochastic Hybrid System Actuator Fault Diagnosis by Adaptive Estimation?

Qinghua Zhong

Structural Diagnosability Analysis of Switched Systems

Sebastian Proll, Fabian Jarmolowicz, Jan Lunze

Fault Detection and Isolation for a Multi-Cellular Converter Based on Sliding Mode Observer

H. Meziane, C. Labarre, S. Lefteriu, M. Defoort, M. Djemai

Towards Active Diagnosis of Hybrid Systems Leveraging Multimodel Identification and a Markov Decision Process

Florian De Mortain, Audine Subias, Louise Trave-Massuyes, Vincent De Flaugergues

Semi-Pleynary Talk Diagnostic & Health Management of Fuel Cell Systems – A State of the Art

Alessandro Giua

Diagnosis and Diagnosability of Discrete Event Systems Using Petri Nets

Alessandro Giua

Actuators Additive Fault-Tolerant Control for Combat Aircraft?

Adrien Drouot, Hassan Nouara, Laurent Goerge, Pascal Piot

Health Monitoring for the Flight Control EMAS

Michel Todeschi, Laura Baxerres

Combined Geometric and Neural Network Approach to Generic Fault Diagnosis in Satellite Reaction Wheels

P. Baldi, M. Blanke, P. Castaldi, N. Minno, S. Simani

An Extended U-D Algorithm with Multiple Forgetting Factors for RLS Estimation of Model Parameters

G. Hardier

Dynamic Surface Fault Tolerant Tracking Control Design for UAV with Transient Performance?

Moshu Qian, Bin Jiang, Hugh Hongtao Liu, Ningyan Lu

Sensor Placement for Leak Location in Water Distribution Networks Using the Leak Signature Space

Myrna V. Casillas, Luis E. Garza-Castaneda, Vicenç Puig

Leak Localization in Water Distribution Networks Using Pressure Residuals and Classifiers

Lise Ferrandez-Gamot, Pierre Busson, Joaquim Blesa, Sebastian Tornil-Sin, Vicenç Puig, Eric Daviella, Adrià Soldevila

Assessment of a Leak Localization Algorithm in Water Networks under Demand Uncertainty?

Pep Cugueró-Escotet, Joaquim Blesa, Ramon Perez, Miquel A. Cugueró-Escotet, Gerard Sanz

Frequency-Model-Based Obstruction Detection and Location in a Pipeline by Output Error Minimization

Ignacio Rubio Scola, Gildas Besancon, Didier Georges

Global Supervision System for Pipelines Using Nonlinear Redundancy Relations?

Lizeth Torres, Cristina Verde, Alonso Villanueva

A RBF Neural Network Based MPPT Method for Variable Speed Wind Turbine System

Shanzhi Li, Haoping Wang, Yang Tian, Abdel Aitouche

Fault Detection and Isolation in DFIG Driven by a Wind Turbine

Houcine Chafouk, Hakim Ouessaaad

Input-to-State Stability Condition for Passive Fault-Tolerant Control of Wave and Wind Energy Converters

Horst Schulte, Eckhard Gauterin
ON THE COMPUTATIONAL FEASIBILITY OF ABDUCTIVE DIAGNOSIS FOR PRACTICAL APPLICATIONS............................................................................................................................... 410
   Roxane Koitiz, Franz Wotawa

FAULT DETECTION WITH QUALITATIVE MODELS REDUCED BY TENSOR DECOMPOSITION METHODS............................................................................................................................... 416
   Thorsten Müller, Kai Kruppa, Gerwald Lichtenberg, Nicolas Réhault

REASONING UNDER UNCERTAINTY FOR KNOWLEDGE-BASED FAULT DIAGNOSIS: A COMPARATIVE STUDY ............................................................................................................................... 422
   K. Verbeek, B. De Schutter, R. Babuska

LEARNING DIAGNOSIS MODELS USING VARIABLE-FIDELITY COMPONENT MODEL LIBRARIES? ............................................................................................................................... 428
   Alexander Feldman, Gregory Provan, Rui Abreu, Johan De Kleer

ROBUST NEURAL-NETWORK-BASED FAULT DETECTION WITH SEQUENTIAL D-OPTIMUM BOUNDED-ERROR INPUT DESIGN............................................................................................................................... 434
   Anna Akielaszek-Witczak, Beata Mrugalska, Vicenç Puig, Magdalena K. Wyrwicka

ROBUST FAULT DETECTION AND ISOLATION APPLIED TO INDOOR LOCALIZATION ............................................................................................................................... 440
   Mohamed-Hédi Amri, Didier Aubry, Yasmina Becis, Nacim Ramdani

DISTRIBUTED FAULT DETECTION USING RELATIVE INFORMATION IN LINEAR MULTI-AGENT NETWORKS? ............................................................................................................................... 446
   Daniel Silvestre, Paulo Rosa, João P. Hespanha, Carlos Silvestre

AUXILIARY SIGNAL DESIGN FOR ACTIVE FAULT DETECTION BASED ON SET-MEMBERSHIP? ............................................................................................................................... 452
   Shouchao Zhai, Wei Wang, Hao Ye

QUANTITATIVE EVALUATION OF PANDORA TEMPORAL FAULT TREES VIA PETRI NETS ............................................................................................................................... 458
   Sohag Kabir, Martin Walker, Yianiris Papadopoulou

DELAYED MAINTENANCE MODEL FOR DETERIORATING TRACK USING COLORED PETRI NETS ............................................................................................................................... 464
   Hui Shang, Christophe Berenguer

MODULAR FAULT DIAGNOSIS IN DISCRETE-EVENT SYSTEMS WITH A CPN DIAGNOser ............................................................................................................................... 470
   Yannick Pencole, Romain Pichard, Pierre Fernbach

PREDICTIVE FAULT-TOLERANT CONTROL FOR A BATTERY ASSEMBLY SYSTEM ............................................................................................................................... 476
   Lothar Seybold, Marcin Witczak, Pawel Majdzik, Ralf Stetter

THE IMPORTANCE OF PHYSICAL SYSTEM MODELLING TO INDUSTRY: SYSTEM MODELS THAT COULD HAVE PREVENTED SOME COSTLY MISTAKES ............................................................................................................................... 484
   Donald Margolis

ACTIVE FAULT TOLERANT DECENTRALIZED CONTROL STRATEGY FOR AN AUTONOMOUS 2WS4WD ELECTRICAL VEHICLE PATH TRACKING ............................................................................................................................... 492
   A. Haddad, A. Aitouche, F. Coccquempot

FAULT-TOLERANT CONTROL FOR DISCRETE LINEAR SYSTEMS WITH CONSIDERATION OF ACTUATOR SATURATION AND PERFORMANCE DEGRADATION? ............................................................................................................................... 499
   Z. Wang, M. Rodrigues, D. Theilliol, Y. Shen

ADAPTIVE GENERALIZED POLICY ITERATION IN ACTIVE FAULT DETECTION AND CONTROL? ............................................................................................................................... 505
   Ivo Puncochaf, Jan Skach, Miroslav Simandl

FTC STRUCTURES WITH VIRTUAL ACTUATORS AND DYNAMIC OUTPUT CONTROLLERS ............................................................................................................................... 511
   D. Krokavec, A. Filasová, V. Serbák

INTEGRATED FAULT ESTIMATION AND FAULT TOLERANT CONTROL: A JOINT DESIGN ............................................................................................................................... 517
   Daoliang Tan, Ron J. Patton

HANDLING PARAMETRIC AND NON-PARAMETRIC ADDITIVE FAULTS IN LTV SYSTEMS ............................................................................................................................... 523
   Michele Basseville, Qinghua Zhang

MULTIPLE OSCILLATIONS DETECTION IN CONTROL LOOPS BY USING THE DFT AND RALEIGH DISTRIBUTION? ............................................................................................................................... 529
   Kangkang Zhang, Biao Huang, Guoli Ji

A VARIATIONAL BAYESIAN ROBUST LINEAR DYNAMIC SYSTEM APPROACH FOR DYNAMIC PROCESS MODELLING AND FAULT DETECTION ............................................................................................................................... 535
   Jinlin Zhu Zhiqiang Ge, Zhihuan Song

DIAGNOSIS OF WING ICING THROUGH LIFT AND DRAG COEFFICIENT CHANGE DETECTION FOR SMALL ............................................................................................................................... 541
   Unmanned Aircraft, Kim Lynge Sorensen, Mogens Blanke, Tor Arne Johansen

DIAGNOSIS OF CO POLLUTION IN HTPEM FUEL CELL USING STATISTICAL CHANGE DETECTION ............................................................................................................................... 547
   Christian Jeppesen, Mogens Blanke, Fan Zhou, Søren Juhl Andersen
SHAFT MISALIGNMENT DETECTION BY THERMAL IMAGING OF SUPPORT BEARINGS ........................................... 554
A. R. Mohanty, S. Fatima

VIBRATION-BASED FAULT DETECTION OF MESHING SHAFTS .............................................................................. 560
Victor Girondin, Hervé Morel, Jean-Philippe Cassar, Komi Midzodzi Pekpe

AUTOREGRESSIVE MODEL-BASED BOILING DETECTION IN A LIQUID METAL FAST BREEDER REACTOR ............. 566
Issa Cherif Geraldo, Tanmoy Bose, Komi Midzodzi Pekpe, Jean-Philippe Cassar, Amiya Rajan Mohanty, Kevin Paumel

MULTIVARIATE PROCESSING OF ACCELEROMETRIC CONDITION INDICATORS? .................................................. 571
Giovanni Jacazio, Giuorgi Mihaylov, Franco Pellerey

MODELLING HYDRAULIC PITCH ACTUATOR FOR WIND TURBINE SIMULATION UNDER HEALTHY AND FAULTY CONDITIONS? ..................................................................................................................... 577
Laurent Rakoto, Julien Schorsch, Michel Kinnaert

FAULT DETECTION USING RANDOM FOREST SIMILARITY DISTANCE ........................................................................ 583
Luca Puggini, John Doyle, Sean McLoone

DESIGN OF ROBUST FAULT DETECTION SCHEME FOR PENCILLIN FERMENTATION PROCESS .................................................... 589
Abdul Rehman Khan, Abdul Qayyum Khan, Muhammad Taskeen Raza, Muhammad Abid, Ghulam Mustafa

COMPLEX BATCH PROCESSES QUALITY PREDICTION USING NON-GAUSSIAN DISSIMILARITY MEASURE BASED JUST-IN-TIME LEARNING MODEL? .................................................................................................................. 595
Xiuxin Zhang, Yuan Li, Feng Lv

A PLUG-AND-PLAY FAULT DIAGNOSIS APPROACH FOR LARGE-SCALE SYSTEMS? .................................................. 601
Francesca Boem, Stefano Rivero, Giancarlo Ferrari-Trecate, Thomas Parisini

NONLINEAR PROCESS FAULT DIAGNOSIS USING KERNEL SLOW FEATURE DISCRIMINANT ANALYSIS ................................................................. 607
Hanyuan Zhang, Xuemin Tian, Lianfang Cai

DIRECTIONAL KPLS FOR FAULT DETECTION .................................................................................................................. 613
Yunpeng Fan, Rongrong Sun, Yingwei Zhang

SPARSE CONTRIBUTION PLOT FOR FAULT DIAGNOSIS OF MULTIMODAL CHEMICAL PROCESSES? .............................. 619
Chao Ning, Maoxin Chen, Donghua Zhou

DATA-DRIVEN APPROACH OF KPI MONITORING AND PREDICTION WITH APPLICATION TO WASTEWATER TREATMENT PROCESS .......................................................................................................................... 627
M. Krueger, H. Luo, S. X. Ding, S. Dominic, S. Yin

DATA-DRIVEN MULTIMODE FAULT DETECTION FOR WIND ENERGY CONVERSION SYSTEMS .................................................. 633
Adel Haghani, Minjia Krueger, Torsten Jentsch, Steven X. Ding, Peter Engel

FUTURE CHALLENGES FOR CIVIL AIRCRAFT SYSTEMS: HOW TO COMBINE SAFETY, SIMPLICITY, VIRTUALITY AND AGILITY? .......................................................................................................................... 639
Michel Comes

FAULT ISOLATION AND QUANTIFICATION FROM GAUSSIAN RESIDUALS WITH APPLICATION TO STRUCTURAL DAMAGE QUANTIFICATION? ................................................................. 640
Michael Döhler, Laurent Mevel

LAMB WAVE BASED DAMAGE DETECTION AND LOCALIZATION USING TWO RING-SHAPED ARRANGEMENT OF PIEZO TRANSDUCERS ........................................................................................................... 646
Pablo R. Souza, Euripides G. O. Nobrega

DAMAGE TYPE CLASSIFICATION BASED ON STRUCTURES NONLINEAR DYNAMICAL SIGNATURE ........................................... 652
Myriam Bakir, Marc Rebillat, Nazih Mechbal

ADAPTIVE STRATEGY TO DAMAGE-TOLERANT ACTIVE CONTROL .................................................................................. 658
Nazih Mechbal, Euripides G. O. Nobrega

A MODAL H CONTINUOUS TIME BAYESIAN NETWORK CLASSIFIER INFLUENCING PROBABILISTIC BOUNDARY .......................... 664
Helöi F. G. Genari, Nazih Mechbal, Gérard Coffignal, Euripides G. O. Nobrega

FAULT DETECTION AND DIAGNOSIS IN A BAYESIAN NETWORK CLASSIFIER APPLICATING GENERALIZED CONTINUOUS TIME BAYESIAN NETWORKS TO A RELIABILITY CASE STUDY .................................................................................................................. 676
Daniele Codetta-Raiteri

USING BAYESIAN NETWORKS TO EVALUATE THE TRUSTWORTHINESS OF ‘2 OUT OF 3’ DECISION FUSION MECHANISMS IN MULTI-SENSOR APPLICATIONS .................................................................................. 682
Francesco Flammini, Stefano Marrone, Nicola Mazzocca, Roberto Nardone, Valeria Viittorini
PART 2

ADAPTIVE AND ROBUST FAULT-TOLERANT TRACKING CONTROL OF CONTACT FORCE OF PANTOGRAPH-CATENARY FOR HIGH-SPEED TRAINS ................................................................. Kang-K Zhang, Zehui Mao, Bing Jiang, Xing-Gang Yan ................................................................. 740

SEQUENTIAL MONITORING OF SCADA SYSTEMS AGAINST CYBER/PHYSICAL ATTACKS? .................................................. 754
Van Long Do, Lionel Fillatre, Igor Nikiforov

ACTIVE GLR DETECTOR FOR RESILIENT LQG CONTROLLER IN NETWORKED CONTROL SYSTEMS .................................................. 760
Yuan Tao, Youqing Wang

RELIABLE H∞ CONTROL FOR AN UNCERTAIN NONLINEAR DISCRETE-TIME SYSTEM WITH MULTIPLE INTERMITTENT SENSOR FAULTS? ................................................................. 766
F. Loete, Q. Zhang, M. Sorine

EXPERIMENTAL EVALUATION OF THE INVERSE SCATTERING METHOD FOR ELECTRICAL CABLE FAULT DIAGNOSIS ................................................................. 772
Henri-Jean Marais, George Van Schoor, Kenneth R. Uren

AN ENERGY-BASED APPROACH TO CONDITION MONITORING OF INDUSTRIAL PROCESSES ................................................................................................................................. 778
Cen Guo, Fan Yang, Weijun Yu

DETERMINING THE PROPAGATION PATH OF A DISTURBANCE IN MULTI-RATE SYSTEMS? ................................................................................................................................. 784
Inês M. Cecílio, James R. Ottewill, Nina F. Thornhill

PEMFC AGING MODELING FOR PROGNOSTICS AND HEALTH ASSESSMENT? ................................................................. 790
Marine Jouin, Rafael Gouriveau, Daniel Hissel, Marie Cécile Péra, Nouredine Zerhouni

PROGNOSIS AND DIFFUSION PROCESS: A CASE STUDY? ................................................................................................................................. 796
H. Ghamlouch, M. Fouladirad, A. Grail

EMBEDDED EVENT DETECTION FOR SELF-AWARE AND SAFER ASSETS ................................................................................................................................. 802
Vassilios Katsouros, Christos Koulamas, Apostolos P. Fournaris, Christos Emmanouilidis

HEALTH CHECKUP INDICATORS-BASED SAFETY CRITERIA FOR OPERATING SEQUENCES RANKING OF CRITICAL SYSTEMS ................................................................................................................................. 808
M-F. Bouaziz, P. Marangé, A. Voisin, J-F. Pétin

AN INTUITIVE DIAGNOSTIC MODEL FOR GAS ANALYZERS BASED ON SELF-ORGANIZING MAPS ................................................................................................................................. 814
Subanatarajan Subbiah, Sascha Rosbach, Henning Von-Hoersten, Simone Turrin

DISTRIBUTED ADAPTIVE ESTIMATION SCHEME FOR ISOLATION OF SENSOR FAULTS IN MULTI-ZONE HVAC SYSTEMS ................................................. 1146
Panayiotis M. Papadopoulos, Vasso Reppa, Marios M. Polycarpou, Christos G. Papayioutou
FAULT-TOLERANT COOPERATIVE CONTROL OF MULTIPLE WHEELED MOBILE ROBOTS UNDER ACTUATOR FAULTS ................................................................. 1152
Mohamed A. Kamel, Youmin Zhang, Xiong Yu
IMM-BASED SENSOR FAULT DETECTION AND IDENTIFICATION FOR A DRIVE-BY-WIRE VEHICLE ........................................................................ 1158
Vincent Judalet, Sébastien Glaser, Dominique Gruyer, Said Mammari
FAULT-TOLERANT CONTROL OF FOUR-WHEEL INDEPENDENTLY ACTUATED ELECTRIC VEHICLES WITH ACTIVE STEERING SYSTEMS? .................................................................................. 1165
Hui Jing, Rongrong Wang, Mohammed Chadli, Chuan Hu, Fengjun Yan, Cong Li
ROBUST OUTPUT-FEEDBACK BASED FAULT-TOLERANT CONTROL OF ACTIVE SUSPENSION WITH FINITE-FREQUENCY CONSTRAINT? .................................................................................. 1173
Hui Jing, Rongrong Wang, Hamid Reza Karimi, Mohammed Chadli, Chuan Hu, Fengjun Yan
FAULT-TOLERANT CONTROL OF FWIA ELECTRIC GROUND VEHICLES WITH DIFFERENTIAL DRIVE ASSISTED STEERING ........................................................................ 1180
Chuan Hu, Hui Jing, Rongrong Wang, Fengjun Yan, Cong Li, Nan Chen
DESIGN OF LOW CONFLICT CRUISE CONTROL FOR SAFETY CRITICAL VEHICLE INTERACTIONS ........................................................................ 1186
Balázs Németh, Péter Gaspar
SECURE VEHICLE LOCALIZATION AND CRUISE CONTROL FOR CONNECTED VEHICLES ................................................................. 1192
Baisravan Homchaudhuri, Pierluigi Pisu, Ümit Özgüner
PROCESS FAULT DETECTION METHOD BASED ON TIME STRUCTURE INDEPENDENT COMPONENT ANALYSIS AND ONE-CLASS SUPPORT VECTOR MACHINE ........................................................................ 1198
Lianfang Cai, Xuemin Tian, Hanyuan Zhang
COMPARISON OF DIFFERENT OPTIMIZATION METHODS WITH SUPPORT VECTO MACHINE FOR BLAST FURNACE MULTI-FAULT CLASSIFICATION ......................................................................... 1204
Ruqiao An Chunjie Yang, Zhe Zhou, Lin Wang, Yijun Pan
ACTUATOR FAULT DIAGNOSIS IN A HEAT EXCHANGER BASED ON CLASSIFIERS - A COMPARATIVE STUDY
Juan C. Tudón-Martínez, Ruben Morales-Menendez

1210

A METHOD OF LEAKAGE LOCATION IN WATER DISTRIBUTION NETWORKS USING ARTIFICIAL NEURO-FUZZY SYSTEM
D. Wachla, P. Przybicka, W. Moczulski

1216

TREND-BASED DYNAMIC CLASSIFICATION FOR ON-LINE DIAGNOSIS OF TIME-VARYING DYNAMIC SYSTEMS
Nathalie A. Barbosa, Louise Travé-Massuyès, Victor H. Grisales

1224

ISOLATION PERSPECTIVE
Arne Wahlgren, Björn Matthias, Hao Ding

1232

FAULT DIAGNOSIS FOR DISCRETE-TIME DESCRIPTOR LINEAR SYSTEMS
G.-L. Osorio-Gordillo, M. Darouach, C.-M. Astorga-Zaragoza, L. Boutat-Baddas

1238

ROBUST SIMULTANEOUS FAULT DETECTION AND CONTROL APPROACH FOR TIME-DELAY SYSTEMS
H. Soltani, S. Bel Hadi Ali Naoui, A. Atouche, R. El Harabi, M. N. Abdelkrim

1244

MODEL REFERENCE TRACKING CONTROL FOR UNCERTAIN TAKAGI-SUGENO SYSTEMS SUBJECT TO SENSOR FAULTS
Sabrina Aouaouda, Mohammed Chaddi

1250

FAULT TOLERANT CONTROL FOR UNCERTAIN FUZZY BILINEAR MODELS
D. Saoudi, M. Chadli, N. B. Braiek

1256

INTEGRATED FAULT DETECTION FOR TWO-DIMENSIONAL DISCRETE SYSTEMS WITH TIME-VARYING DELAYS
Dong Zhao, Youqing Wang

1262

STRICt RESIDUAL DIStINGUISHABILITY OF CONTINUOUS-TIME SWITCHED LINEAR SYSTEMS WITH DISTURBANCES?
K. M. D. Matchon, K. M. Pekpe, J-P. Cassar, S. De Blèvre

1268

QUANTITATIVE ISOLABILITY ANALYSIS OF DIFFERENT FAULT MODES
Daniel Jung, Erik Frisk, Mattias Krysander

1275

FAULTY PLANT RECONFIGURATION BY MEASUREMENT FEEDBACK: SENSOR LOCATION
Arvo Kaldmäe, Úlle Kotta, Alexey Shumsky, Alexey Zhirabok

1283

ANALYSIS OF FAULT ISOLATION ASSUMPTIONS WHEN COMPARING MODEL-BASED DESIGN APPROACHES OF DIAGNOSIS SYSTEMS
Daniel Jung, Hamed Khorasgani, Erik Frisk, Mattias Krysander, Gautam Biswas

1289

DIAGNOSING MULTIPLE FAULTS WITH THE DYNAMIC BINARY MATRIX
Michal Bartys

1297

CONSTRAINED INFORMATION PATTERN RECONFIGURATION IN FAULT TOLERANT CONTROL OF DISTRIBUTED SYSTEMS
Michal Bartys

1303

AUTOMATIC ALLOCATION OF SAFETY REQUIREMENTS TO COMPONENTS OF A SOFTWARE PRODUCT LINE
André L. De Oliveira, Yiannis Papadopoulos, Luís S. Azevedo, David Parker, Rosana T. V. Braga, Paulo C. Masiero, Ibrahim Habli, Tim Kelly

1309

AVAILABILITY ANALYSIS OF SYSTEMS USING RANDOM SET THEORY
Y. Hou, M. Sallak, W. Schön

1315

ARCHITECTURES FOR INTEGRATING FUNCTIONAL SAFETY INTO MODULAR PROCESS PLANTS
Annett Pfeffer, Leon Urbas

1321

PROGnosis OF SYSTEMS WITH STOCHASTIC INPUTS
Radouane Ouladsine, Rachid Outbib

1327

THE REQUIREMENTS FOR A NEW LAYER IN THE INDUSTRIAL SAFETY SYSTEMS
Jan M. Koscielny, Michal Bartys

1333

CORRELATION AND DEPENDENCY IN MULTIVARIATE PROCESS RISK ASSESSMENT
Seyed Javad Hashemi, Salim Ahmed, Faisal I. Khan

1339

FAULT—TOLERANT CONTROL OF AN OFFSHORE WIND FARM VIA FUZZY MODELLING AND IDENTIFICATION
S. Simani, S. Farsoni, P. Castaldi

1345

ACTIVE FAULT—TOLERANT CONTROL OF OFFSHORE WIND FARM INSTALLATIONS
S. Simani, S. Farsoni, P. Castaldi, N. Mimmo

1351
FAULT DIAGNOSIS AND FAULT TOLERANT CONTROL WITH APPLICATION ON A WIND TURBINE LOW SPEED SHAFT ENCODER................................................................. 1357
Peter Fogh Odgaard, Hector Sanchez, Teresa Escobet, Vicenç Puig

HEALTH-AWARE MODEL PREDICTIVE CONTROL OF WIND TURBINES USING FATIGUE PROGNOSIS................................................................. 1363
Hector Sanchez, Teresa Escobet, Vicenç Puig, Peter Fogh Odgaard

ACTIVE FAULT TOLERANT CONTROL IN A WIND FARM WITH DECREASED POWER GENERATION DUE TO BLADE EROSION/DEBRIS BUILD-UP................................................................. 1369
Hamed Badhi, Yuanmin Zhang, Henry Hong

HARDWARE-IN-THE-LOOP TEST-BED FOR BENCHMARKING OF FAULT TOLERANT CONTROL SCHEMES FOR WIND TURBINES................................................................. 1375
Horst Schulte, Sören Georg

MULTIPLE COMPONENT ANALYSIS AND ITS APPLICATION IN PROCESS MONITORING WITH PRIOR FAULT DATA ................................................................. 1383
Xiaogang Deng, XueMin Tian

SENSOR FAULT DETECTION AND ISOLATION OF AN INDUSTRIAL GAS TURBINE USING PARTIAL KERNEL PCA ................................................................. 1389
Mania Navi, Mohammad Reza Davoodi, Nader Meskin

A FAULT DETECTION INDEX USING PRINCIPAL COMPONENT ANALYSIS AND MAHALANOBIS DISTANCE................................................................. 1397
I. Jaffel, O. Taouali, M. Faouzi Harkat, H. Messaoud

FAULT DETECTION AND ISOLATION USING INTERVAL PRINCIPAL COMPONENT ANALYSIS METHODS................................................................. 1402
Tarek Ait Izem, Wafa Bougheloum, Mohamed Faouzi Harkat, Messaoud Djeghaba

NEURONAL PRINCIPAL COMPONENT ANALYSIS FOR NONLINEAR TIME-VARYING PROCESSES MONITORING................................................................. 1408
C. Chakour, M-F. Harkat, M. Djeghaba

STUDY ON SMALL MULTIPlicative FAULT DETECTION USING CANONICAL CORRELATION ANALYSIS WITH THE LOCAL APPROACH................................................................. 1414
Zhiwen Chen, Kai Zhang, Steven X. Ding, Xu Yang, Zhangming He, ZhiKun Hu

MODAL STRUCTURE IMBALANCE FAULT DETECTION FOR ROTATING MACHINES................................................................. 1420
Brendan Smith, Qing Zhao

SYMBOLIC ANALYSIS OF HILBERT-HUANG SPECTRUM OF VIBRATION DATA FOR CONDITION MONITORING OF ROTATING MACHINES?................................................................. 1426
Dheeraj Singh, Qing Zhao

ALTERNATOR ROTOR INTER-TURN SHORT-CIRCUIT IDENTIFICATION USING FEM BASED LEARNING ................................................................. 1432
Alexandre Bacchus, Melisande Biet, Ludovic Macaire, Abdelmounaim Tounzi, Yvonnick Le Menach

CHANGE DETECTION BASED ON ENTROPY INDICES WITH APPLICATION TO BEARING FAULTS................................................................. 1438
Boštjan Dolenc, Pavle Baškoki, Damir Juricic

VIBRATION-BASED FAULT DIAGNOSIS APPROACH FOR PERMANENT MAGNET SYNCHRONOUS MOTORS................................................................. 1444
K. Alameh, N. Cité, G. Hoblos, G. Barakat

OFF-THE-GRID COMPRESSIVE SENSING FOR BROKEN-ROTOR-BAR FAULT DETECTION IN SQUIRREL-CAGE INDUCTION MOTORS................................................................. 1451
Dehong Liu, Dingguo Lu

PROCESS DISTURBANCE CAUSE & EFFECT ANALYSIS USING BAYESIAN NETWORKS................................................................. 1457
David Leng, Nina F. Thornhill

STRUCTURAL ANALYSIS BASED FAULT DETECTION AND ISOLATION APPLIED FOR A LITHIUM-ION BATTERY PACK................................................................. 1465
Zhentong Liu, Hongwen He, Qadeer Ahmed, Giorgio Rizzoni

STRUCTURAL ANALYSIS FOR DIAGNOSABILITY AND RECONFIGURABILITY, WITH APPLICATION TO ELECTRIC VEHICLE DRIVE SYSTEM................................................................. 1471
Jiyu Zhang, Giorgio Rizzoni

MODEL-BASED FAULT DIAGNOSIS OF AN AUTOMATED MANUAL TRANSMISSION SHIFTING ACTUATOR................................................................. 1479
Qi Chen, Qadeer Ahmed, Giorgio Rizzoni, Erik Frisk, Hua Zhai

STRUCTURAL DETECTABILITY ANALYSIS OF A DISTRIBUTED SENSOR FAULT DIAGNOSIS SCHEME FOR A CLASS OF NONLINEAR SYSTEMS?................................................................. 1485
Vasso Reppa, Sorin Olaru, Marios M. Polycarpou
DESIGN OF CONTROL SYSTEM INSTRUMENTATION USING RELIABILITY CRITERIA

First A. Zine-Eddine Meguetta, Second B. Blaise Conrad, Third C. Mireille Bayart

Author Index
