6th International Conference on Green Intelligent Transportation System and Safety (GITSS 2015)

Procedia Engineering Volume 137

Beijing, China
2 - 6 July 2015

Editors:

Wuhong Wang
Klaus Bengler
Geert Wets

Yongjun Shen
Xiaobei Jiang

ISBN: 978-1-5108-2079-1
TABLE OF CONTENTS

STUDY ON SIMULATION OPTIMIZATION OF DYNAMIC TRAFFIC SIGNAL BASED ON COMPLEX NETWORKS ................................................................. 1
Shu-Bin Li, Yang Li, Bai-Bai Fu, Wen-Xiu Dang

GREEN INTELLIGENT TRANSPORTATION SYSTEM AND SAFETY ......................................................... 11
Wuhong Wang, Klaus Bengler, Geert Wets, Yongjun Shen, Xiaoei Jiang

A SIMPLIFIED CAR-FOLLOWING MODEL BASED ON THE ARTIFICIAL POTENTIAL FIELD .............. 13
Chenggang Li, Xiaoei Jiang, Wuhong Wang, Qian Cheng, Yongjun Shen

MULTILEVEL COMPREHENSIVE EVALUATION OF THE RAILWAY SERVICE QUALITY ....................... 21
Laura Eboli, Yanbing Fu, Gabriella Mazzulla

DYNAMICS IN MODE CHOICE DECISIONS: A CASE STUDY IN NANJING, CHINA ............................... 31
Ling Ding, Ning Zhang

PAVEMENT PERFORMANCE PREDICTION METHODS AND MAINTENANCE COST BASED ON THE STRUCTURE LOAD ................................................ 41
Yang Yong-Hong, Jiang Yuan-Hao, Wang Xuan-Cang

EVALUATING DISRUPTION IN RAIL TRANSIT NETWORK: A CASE STUDY OF BEIJING SUBWAY .......... 49
Haodong Yin, Baoming Han, Dewei Li, Ying Wang

TRAFFIC FLOW FORECASTING BY A LEAST SQUARES SUPPORT VECTOR MACHINE WITH A FRUIT FLY OPTIMIZATION ALGORITHM ........................................ 59
Yaliang Cong, Jianwei Wang, Xiaolei Li

STUDY ON USERS EQUILIBRIUM MODEL WITH DISTANCE CONSTRAINT OF ELECTRIC VEHICLES .......... 69
Da Wu, Ya Li, Jian Lu, Qingchao Liu

CLASSIFICATION METHOD OF ENERGY EFFICIENCY AND CO2 EMISSION INTENSITY OF COMMERCIAL TRUCKS IN CHINA'S ROAD TRANSPORT ........................................................................... 75
Jingjing Tian, Dongbo Yang, Hongwei Zhang, Li Liu

RESEARCH ON SELECTION OF NEW PUBLIC TRANSIT SYSTEM BASED ON LOW CARBON ECONOMY PERSPECTIVE ........................................ 85
Li Weiwei, Dai Yue, Ling Xiaojing

A NOVEL METHOD FOR ESTIMATION OF DYNAMIC OD FLOW .............................................................. 94
Li Ying, Jianga Zha, Wang Huiyan, Lei Zhenyu

THE STRUCTURE OPTIMIZATION ANALYSIS OF ELECTRIC VEHICLE IN SMALL OFFSET REAR END COLLISION ............................................................... 103
Zeng Biqiang, Liu Xiaodong, Zhang Yanjun

EMISSIONS OF CHINESE NEW ENERGY VEHICLE AND THE DEVELOPMENT RECOMMENDATIONS ........................................................................ 109
Ying Liu, Jian Wang, Luyang Gong

MPSO-BASED MODEL OF TRAIN OPERATION ADJUSTMENT ................................................................. 114
Lanxia Zhang, Yong Qin, Xuelei Meng, Li Wang, Tao Zhu

RESEARCH ON SUBJECTIVE FEASIBILITY EVALUATION OF CONGESTION PRICING ..................... 124
Wenjun Zhang, Yi Zhao, Ya Li, Jian Lu, Yongfeng Ma

AN EVALUATING METHOD OF PUBLIC TRANSIT ACCESSIBILITY FOR URBAN AREAS BASED ON GIS .......................................................................... 132
Chen Yan-Yan, Wei Pan-Yi, Lai Jian-Hui, Feng Guo-Chen, Li Xin, Gong Yi

DEVELOPMENT OF VEHICLE DELAY AND QUEUE LENGTH MODELS FOR ADAPTIVE TRAFFIC CONTROL AT SIGNALIZED ROUNDABOUT ................................................................. 141
Yiming Bie, Chengyuanc Mao, Menglin Yang

OPTIMIZATION OF URBAN SINGLE-LINE METRO TIMETABLE FOR TOTAL PASSENGER TRAVEL TIME UNDER DYNAMIC PASSENGER DEMAND ........................................................................ 151
Pan Shang, Ruimin Li, Liya Yang

DEVELOPMENT OF A PREDICTION METHOD FOR DRIVER'S PROPENSITY ............................................. 161
Jinglei Zhang, Xiaoyuan Wang, Cuicui Yu, Zhenshe Liu, Haibo Wang

A QUANTITATIVE MODEL OF CONFLICT RISK DEGREE AT NON-SIGNALIZED INTERSECTIONS ........................................................................ 171
Wei Yin, Qingxuan Zou, Chenghuo Lv, Zhizhong Wu, Guishan Tan

AN APPROXIMATION ALGORITHM FOR THE MINIMUM VERTEX COVER PROBLEM ..................... 180
Jingrong Chen, Lei Kou, Xiaochuan Cui
THE EVOLUTION ANALYSIS OF GUANGZHOU SUBWAY NETWORK BY COMPLEX NETWORK THEORY ................................................................. 186
Li Zhu, Jinlong Luo

REAL-TIME ROAD CONGESTION DETECTION BASED ON IMAGE TEXTURE ANALYSIS ................................................................. 196
Li Wei, DAI Hong-Ying

PASSENGER TRANSPORTATION STRUCTURE OPTIMIZATION MODEL BASED ON USER OPTIMUM ................................................................. 202
Yanli Ma, Yue Gao

COMPUTATION-BASED DYNAMIC DRIVING SIMULATION FOR EVALUATION OF MOUNTAIN ROADS WITH COMPLEX SHAPES: A CASE STUDY ................................................................. 210
Hai-Bo Shu, Yi-Ming Shao, Wei Liu, Jin Xu

CONSISTENCY OF CALCULATION RESULTS OF TWO TYPICAL VEHICLE COLLISION MODELS ................................................................. 220
Jian Zhang, Chao Liang, Shengwu Yu, Ruijun Liu, Jingui Gao

INTERVAL COMPREHENSIVE EVALUATION MODEL FOR TRAFFIC SAFETY OF THE EXPRESSWAY BASED ON THE CLOSENESS COEFFICIENT ................................................................. 225
Hu Qi-Zhou, Zhang Ai-Ping

VEHICLE CONTROL STRATEGIES ANALYSIS BASED ON PID AND FUZZY LOGIC CONTROL ................................................................. 234
Hui-Min Li, Xiao-Bo Wang, Shang-Bin Song, Hao Li

SIMULATION ANALYSIS OF DOUBLE ROAD TRAIN ADAPTABLEITY OF HIGHWAY IN CHINA ................................................................. 244
Hao Zhang, Hong-Wei Zhang, Jia-Qi Yang

ROUTE CHOICE BEHAVIOR ANALYSIS WITH UNEXPECTED DELAY INFORMATION ................................................................. 252
Yao Yu, Xi-Zhao Zhou

CASCADEING FAILURE OF URBAN WEIGHTED PUBLIC TRANSIT NETWORK UNDER SINGLE STATION HAPPENING EMERGENCY ................................................................. 259
Lin Zhang, Bai-Bai Fu, Yun-Xuan Li

SQUARE ROOT CUBATURE KALMAN FILTER-KALMAN FILTER ALGORITHM FOR INTELLIGENT VEHICLE POSITION ESTIMATE ................................................................. 267
Jianmin Duan, Hui Shi, Dan Liu, Hongxiao Yu

CONTINUOUS TRANSPORTATION NETWORK DESIGN PROBLEM BASED ON BI-LEVEL PROGRAMMING MODEL ................................................................. 277
Zhichen Sun

BUS DWELL TIME PREDICTION BASED ON KNN ................................................................. 283
Jianxia Xin, Shuyan Chen

THE EFFECTS OF STOP-AND-GO WAVE ON THE IMMEDIATE FOLLOWER AND CHANGE IN DRIVER CHARACTERISTICS ................................................................. 289
Jianjun Wang, Rui Chai, Xiaoqing Xue

A MODEL TO RESEARCH OFF-STREET PARKING ACROSS THE TRAVEL TIME BASED ON THE IMPACT OF NON-MOTORIZED TRAFFIC AND OTHER FACTORS ................................................................. 299
Shejun Deng, Xiaofei Ye

RESEARCH ON TRAFFIC WAVE CHARACTERISTICS OF BUS IN AND OUT OF STOP ON URBAN EXPRESSWAY ................................................................. 309
Fengchun Han, Yan Han, Muting Ma, Dan Zhao

DRIVERS’ INFORMATION BEHAVIOR ANALYSIS WITH ATIS EQUIPMENT: A CASE STUDY OF KUNMING IN CHINA ................................................................. 315
Yongming Pu, Xiaofeng Ji, Chuan Feng

CAPABILITY COORDINATION IN AUTOMOBILE LOGISTICS SERVICE SUPPLY CHAIN BASED ON RELIABILITY ................................................................. 325
Meiling He, Junping Xie, Xiaohui Wu, Qifan Hu, Yu Dai

OPTIMIZATION OF SIGNAL TIMING AT CRITICAL INTERSECTIONS FOR EVACUATION ................................................................. 334
Xing Zhao, Ming-Jie Feng, Hui-Ying Li, Teng Zhang

THE EMPIRICAL RESEARCH ON INFORMATION BEHAVIOR CHARACTERISTICS AND SATISFACTION OF DRIVERS BASED ON SMART PHONE ................................................................. 343
Hongzhu Ruan, Xiaofeng Ji, Chuan Feng

RESEARCH ON CAPACITY MODEL FOR LARGE SIGNALIZED ROUNDABOUTS ................................................................. 352
Wei Cheng, Xiaoqing Zhu, Xianmin Song

THE THEORY OF PLANNED BEHAVIOR AND COMPETITIVE DRIVING IN CHINA ................................................................. 362
Pengfei Li, Jianjun Shi, Xiaoming Liu, Haizhong Wang
RESEARCH ON GENERATING FOR TRAIN PATHS IN TRAFFIC INTERRUPTION CONDITIONS ON CHINA RAILWAY NETWORK
Zhao Xiao-Gang, Du Yan-Ping, Zhu Ai-Hua, Zhang Yuan, Wang Xiao-Hui
772
CURRENT SITUATION AND ANALYSIS OF PARKING PROBLEM IN BEIJING
Wang Yan-Ling, Wang Xin, Zhang Ming-Chuo
777
A TRAVEL MODE CHOICE MODEL USING INDIVIDUAL GROUPING BASED ON CLUSTER ANALYSIS
Ling Ding, Ning Zhang
786
TRAVEL BEHAVIOR OF MORNING COMMUTE WITH STAGGERED WORK HOURS
Tingting Zhu, Jiancheng Long
796
A METHOD OF GRADING SUBWAY STATIONS
Yan Wei, Shan Lin, Rui Chu, Qing Tian, Weiwei Fei
806
TAXI POSITIONING IN THE NEW AGE OF INTERNET AND INDUSTRIAL DEVELOPMENT RESEARCH
Han-Ru Li
811
STRUCTURAL EQUATION MODELING FOR PEDESTRIANS' PERCEPTION IN INTEGRATED TRANSPORT HUBS
Jibiao Zhou, Yanyong Guo, Sheng Dong, Li Zhao, Renfa Yang
817
A TEMPORAL-SPATIAL COLLISION WARNING METHOD AT NON-SIGNALIZED INTERSECTION
Jianqun Wang, Xiaqing Xue, Rui Chai, Ning Cao
827
ANALYSIS ON THE PRINCIPLES OF CONGESTION CHARGING POLICY AND STUDY ON THE DECISION-MAKING MODEL
Yue-Jun Liu, Ming-Zheng Sun, Ling Zhou, Lu Lu
836
RESEARCH ON RISK ASSESSMENT TECHNOLOGY OF THE MAJOR HAZARD IN HARBOR ENGINEERING
Hou Zhi-Qiang, Zeng Ya-Mei
843
MULTI-MODE CHOICE BEHAVIOR FOR PASSENGER IN COMPREHENSIVE TRANSPORTATION CORRIDOR
Xiaowei Li, Xiaoyan Tian, Xiaodong Li
849
RESEARCH ON CAMPUS BIKE PATH PLANNING SCHEME EVALUATION BASED ON TOPSIS METHOD: WEI'SHUI CAMPUS BIKE PATH PLANNING AS AN EXAMPLE
Jianyou Zhao, Zhongquan Fang
858
WHICH ONE IS MORE ATTRACTIVE TO TRAVELER, TAXI OR TAILORED TAXI? AN EMPIRICAL STUDY IN CHINA
Yujie Zhang, Hongwei Guo, Cheng Li, Wuhong Wang, Xiaobei Jiang, Yang Liu
867
