7th International Conference on Structural Health Monitoring of Intelligent Infrastructure (SHMII 2015)

Torino, Italy
1-3 July 2015

Volume 1 of 3

Editor:

Alessandro De Stefano

ISBN: 978-1-5108-2107-1
## TABLE OF CONTENTS

### VOLUME 1

#### KEYNOTE LECTURES

<table>
<thead>
<tr>
<th>Title</th>
<th>Author(s)</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>IDENTIFICATION OF INPUTS IN THE TIME DOMAIN</td>
<td>D. Bernal</td>
<td>1</td>
</tr>
<tr>
<td>VERY DENSE ARRAYS OF SENSORS FOR RELIABLE AND ACCURATE DAMAGE IDENTIFICATION</td>
<td>B. Glisic</td>
<td>17</td>
</tr>
<tr>
<td>APPLICATIONS OF COMPUTER VISION IN STRUCTURAL HEALTH MONITORING</td>
<td>S. Dyke</td>
<td>27</td>
</tr>
<tr>
<td>MONITORING THE STRUCTURAL HEALTH OF MAIN CABLES OF SUSPENSION BRIDGES</td>
<td>R. Betti</td>
<td>37</td>
</tr>
<tr>
<td>A STRATEGIC FRAMEWORK TO EXTEND SHM INTO BRIDGE PRESERVATION - TOWARDS SUSTAINABLE TRANSPORTATION NETWORK</td>
<td>G. Chen</td>
<td>46</td>
</tr>
<tr>
<td>THEORY OF IMPACT TESTING FOR STRUCTURAL IDENTIFICATION WITH LONG-GAUGE STRAIN SENSING TECHNOLOGY</td>
<td>J. Zhang</td>
<td>66</td>
</tr>
<tr>
<td>STRUCTURAL HEALTH MONITORING: A TOOL FOR MANAGING RISKS IN SUB-STANDARD CONDITIONS</td>
<td>C. Modena</td>
<td>90</td>
</tr>
<tr>
<td>DEALING WITH UNCERTAINTY IN THE MONITORING AND SIMULATION OF DYNAMICALLY EVOLVING SYSTEMS</td>
<td>E. N. Chatzi</td>
<td>100</td>
</tr>
<tr>
<td>RAPID, FEASIBLE AND TECHNICALLY SOUND STRUCTURAL HEALTH MONITORING TO FACILITATE RESILIENCY OF TALL BUILDINGS</td>
<td>M. Celebi</td>
<td>110</td>
</tr>
</tbody>
</table>

#### REGULAR SESSIONS

**RS1 – SENSORS AND SENSOR SYSTEMS**

**SUB-TOPIC 1: FIBER OPTICS & WIRELESS SYSTEMS**

<table>
<thead>
<tr>
<th>Title</th>
<th>Author(s)</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVALUATION OF THE RESPONSE TIME OF FAST FIBRE OPTIC HIGH TEMPERATURE SENSORS FOR STRUCTURAL MONITORING OF STRUCTURES SUBMITTED TO FIRE</td>
<td>P. Rinaudo</td>
<td>114</td>
</tr>
<tr>
<td>TEST AND CALIBRATION OF 20 FBG BASED STRAIN TRANSDUCERS</td>
<td>F. Klug</td>
<td>124</td>
</tr>
<tr>
<td>DISTRIBUTED FIBER OPTIC SENSORS IN CONCRETE OF A NUCLEAR CONTAINMENT</td>
<td>F. Martinot</td>
<td>135</td>
</tr>
<tr>
<td>FIBER OPTIC ACOUSTO-ULTRASOUND CONDITION MONITORING SYSTEM FOR ADVANCED STRUCTURES</td>
<td>E. A. Mendoza</td>
<td>145</td>
</tr>
<tr>
<td>USAGE OF MEMS CAPACITIVE ACCELERATION SENSORS FOR BRIDGE STRUCTURAL MONITORING SYSTEMS</td>
<td>M. Dumont</td>
<td>157</td>
</tr>
<tr>
<td>A COMPARATIVE REVIEW OF WIRELESS SENSOR NODES FOR STRUCTURAL HEALTH MONITORING</td>
<td>K. Dragos</td>
<td>170</td>
</tr>
<tr>
<td>WIRELESS SENSOR NETWORK FOR STRUCTURAL MONITORING: A LABORATORY TRIAL</td>
<td>D. Hester</td>
<td>180</td>
</tr>
<tr>
<td>WIRELESS COMMUNICATION: FROM A GPS SENSOR TO A CREDIT-CARD Sized COMPUTER</td>
<td>F. Casciati</td>
<td>190</td>
</tr>
<tr>
<td>WIRELESS SENSOR NETWORK FOR SHM SYSTEM OF ORDINARY BUILDINGS IN SEISMIC HAZARD ZONES</td>
<td>D. Isidori</td>
<td>200</td>
</tr>
</tbody>
</table>

**SUB-TOPIC 2: REMOTE SENSING, SENSOR SYSTEMS, OPTIMIZATION AND DATA ANALYSIS**

<table>
<thead>
<tr>
<th>Title</th>
<th>Author(s)</th>

NUMERICAL AND EXPERIMENTAL CHARACTERIZATIONS OF 3D MEMS ACOUSTIC EMISSION SENSORS ........................................................................................................................................................................219  
D. Ozevin

CRACK DETECTION IN STEEL GIRDERS OF BRIDGES USING A BINARY SENSOR ........................................................................................................................................................................229  
F. Raeisi

RESEARCH PROGRESS ON SMART AGGREGATE-BASED MONITORING METHOD OF CONCRETE STRUCTURES IN HITSGS ........................................................................................................................................................................237  
T. Liu

VERIFICATION OF STRAIN VISUALIZATION SHEET WITH AIM OF FIELD APPLICATION ........................................................................................................................................................................244  
M. Omachi

STRUCTURAL OUT-PLANE DISPLACEMENT MONITORING METHOD BASED ON DIGITAL IMAGE PROCESSING TECHNIQUES ........................................................................................................................................................................252  
W. Lu

DETECTION OF STEEL FATIGUE CRACKS WITH STRAIN SENSING SHEETS BASED ON LARGE AREA ELECTRONICS ........................................................................................................................................................................259  
Y. Yao

OPTIMAL SENSOR PLACEMENT FOR MONITORING STRUCTURAL VULNERABLE SCENARIOS ........................................................................................................................................................................269  
W. Yang

PARALLEL DYNAMIC POST PROCESSING AND ANALYSIS OF RECORDED SENSOR DATA IN REAL TIME WITH CLOUD COMPUTING ........................................................................................................................................................................279  
M. Krüger

SIMULATING SENSOR ATTRIBUTES TO QUANTIFY THE UTILITY OF MONITORING SYSTEMS ........................................................................................................................................................................289  
P. Olney

THE ROLE OF STANDARDIZATION IN ESTABLISHING NEW MONITORING TECHNOLOGIES - EXAMPLE FIBRE-OPTIC SENSORS ........................................................................................................................................................................299  
W. B. Habel

DESIGN AND SUPPLY OF A CONDITION MONITORING SYSTEM FOR CORROSION AND STRAY CURRENT MONITORING ON THE CITYRINGEN METRO PROJECT IN COPENHAGEN ........................................................................................................................................................................309  
T. Gooderham

PRESENTING A UNIFIED FRAMEWORK FOR GENERIC SENSOR DATA STORAGE, SYNCHRONIZATION AND POST PROCESSING INDEPENDENT OF SENSOR TYPE AND DIMENSIONALITY ........................................................................................................................................................................319  
E. Price

RS2 – MONITORING, MAINTENANCE AND LIFECYCLE

SUB-TOPIC 1: DAMAGE DETECTION HEALTH MONITORING

DAMAGE DETECTION IN WIND TURBINE BLADES BASED ON TIME SERIES CORRELATIONS ........................................................................................................................................................................328  
S. Hoell

ANALYSIS OF FATIGUE INDUCED CRACK PROPAGATION IN A WIND TURBINE BLADE USING ACOUSTIC EMISSION ........................................................................................................................................................................338  
J. J. Tang

MODEL-INDEPENDENT SPATIAL-WAVENUMBER FILTER FOR DAMAGE IMAGING OF AIRCRAFT COMPOSITES ........................................................................................................................................................................346  
L. Qiu

HEALTH MONITORING SYSTEM OF SUBMERGED FLOATING TUNNEL Prototype IN QIANDAO LAKE ........................................................................................................................................................................356  
Y. Q. Xiang

AUTOMATED SHM: SAFETY ASSURANCE AND LIFE-CYCLE ASSESSMENT OF LONG-SPAN BRIDGES AND SPECIAL BUILDINGS ........................................................................................................................................................................366  
K. Islami

ACCURATE PREDICTION OF ACOUSTIC SENSOR SPACING FOR LEAK DETECTION AND LOCALIZATION ........................................................................................................................................................................376  
D. Ozevin

SUPPORT VECTOR MACHINE STATISTICAL TECHNIQUE FOR RELIABLE DAMAGE DETECTION IN SHM CONTEXT ........................................................................................................................................................................386  
M. El Mountassir

UNDESIRABLE EFFECTS OF OPERATIONAL AND ENVIRONMENTAL CHANGE VARIATIONS ON GUIDED-WAVES STRUCTURAL HEALTH MONITORING: WHAT ARE THE REMEDIES? ........................................................................................................................................................................395  
D. Ozevin

APPLICATION OF OPTICAL FIBER SENSOR TECHNOLOGIES FOR MONITORING THE PERFORMANCE OF SOIL NAIL BARS EMBEDDED IN CONCRETE ........................................................................................................................................................................405  
C. Y. Hong
SUB-TOPIC 2: CONDITION MONITORING FOR MODERN AND ANCIENT STRUCTURES

SEISMIC MONITORING OF THE CATHEDRAL OF ORVIETO: COMBINING SATELLITE INSAR WITH IN-SITU TECHNIQUES ................................................................................................................................. 415
G. De Canio

STATISTICAL CONDITION ASSESSMENT OF A CABLE STAYED BRIDGE USING GPS STRUCTURAL HEALTH MONITORING DATA ........................................................................................................... 426
H. V. Le

TRANSVERSE TEMPERATURE DIFFERENCE OF STEEL GIRDER IN A LONG-SPAN SUSPENSION BRIDGE .................................................................................................................................................. 436
Y. Xiao

FLEXURAL BEHAVIOUR OF RC SLABS STRENGTHENED WITH EXTERNALLY BONDED CFRP ................................................................................................................................. 445
W. Ibrahim

SHM AND EVALUATION OF A CONTINUOUS REINFORCED CONCRETE PAVEMENT .......................................................................................................................... 452
F. Carrion

SEQUENTIAL SAMPLING METHOD FOR SURROGATE MODELLING OF TIME-CONSUMING FINITE ELEMENT ANALYSIS .............................................................................................. 461
S. S. Jin

MONITORING SYSTEM FOR SHEAR CAPACITY ASSESSMENT .......................................................................................................................... 472
A. Strauss

ANALYSIS OF THE DYNAMIC PROPERTIES OF TWO INSTRUMENTED BUILDINGS IN MEXICO DURING A MODERATE SEISMIC EVENT ......................................................................................... 481
J. Camargo

SUB-TOPIC 3: SMART MATERIALS AND TECHNOLOGIES FOR MONITORING

INVITED LECTURE. NOVEL SPARSE AND LOW-RANK METHODS FOR MONITORING, IDENTIFICATION AND DAMAGE DETECTION OF STRUCTURES .................................................................................................................. 491
S. Nagarajaiah

NUMERICAL SIMULATION RESEARCH FOR CONCRETE SEISMIC STRESS MONITORING BY USING SMART AGGREGATES ......................................................................................................................... 501
H. B. Zhang

EXPERIMENTAL RESEARCH ON CONCRETE SEISMIC STRESS MONITORING BY USING SMART AGGREGATES ................................................................................................................................. 511
S. Hou

INNOVATIVE, BIO-INSPIRED, METAHEURISTIC METHODS TARGETED TO SHM DIAGNOSTIC GOALS ................................................................................................................................. 519
L. Elia

LIDAR, PHOTOGRAMMETRY AND BIM RECONSTRUCTIONS FOR STRUCTURAL ASSESSMENT AND REPAIR ......................................................................................................................... 528
D. Huston

THE USE OF BUILDING INFORMATION MODELLING FOR STRUCTURAL HEALTH MONITORING - FULL SYSTEM INTEGRATION FROM DESIGN TO OPERATION ................................................................................. 538
J. Kuckartz

SUB-TOPIC 4: STRUCTURAL IDENTIFICATION AND LIFECYCLE ASSESSMENT

SOURCES AND FORMS OF MODELLING UNCERTAINTIES FOR STRUCTURAL IDENTIFICATION ................................................................................................................................. 547
R. Pasquier

IDENTIFICATION OF BRIDGE MODE SHAPES USING A PASSING VEHICLE .......................................................................................................................... 557
E. J. Obrien

HIGHER ORDER STATISTICAL FREQUENCY DOMAIN DECOMPOSITION FOR OPERATIONAL MODAL ANALYSIS ................................................................................................................................. 565
G. M. Nita

AN IMPROVED METHOD FOR DETECTION OF STIFFNESS AND MASS CHANGES SEPARATELY WITH OUTPUT-ONLY VIBRATION DATA ......................................................................................... 575
M. Gál

SHM OF GOLDEN HORN METRO CROSSING BRIDGE IN ISTANBUL - INITIAL ASSESSMENT PERMANENT MONITORING AND DATA ANALYSIS ................................................................................................................................. 585
P. Furtner

ANALYSIS OF STEEL BRIDGE’S RESPONSE ASSUMING DEGRADATION SCENARIOS FOR STRUCTURAL HEALTH MONITORING ........................................................................................................... 595
D. Galicia Garcia

SERVICE LIFE PREDICTION OF STEEL BRIDGES USING MEASURED STRAIN DATA .......................................................................................................................... 603
A. R. Rahai
SUB-TOPIC 5: MONITORING AND MAINTENANCE, BRIDGES AND INFRASTRUCTURE

NEED FOR AN ADEQUATE SEISMIC MONITORING OF SEISMICALLY ISOLATED BUILDINGS TO ENSURE SAFETY DURING THEIR LIFE .................................................................609
A. Martelli

ABOUT MAINTENANCE OF BRIDGE IN JR EAST .................................................................................................................................621
D. Izumi

TECHNICAL AND ECONOMIC FEASIBILITY OF STRUCTURAL INTEGRITY MONITORING FOR FATIGUE LIFE PREDICTION OF ORTHOTROPIC BRIDGE DECKS .................................................................626
W. H. A. Peelen

MONITORING OF THE LONGEST INTEGRAL BRIDGE IN AUSTRIA WITH FLEXIBLE ABUTMENTS ..............................................................................................................636
T. Mack

USING ELECTRICAL RESISTANCE NETWORKS TO ENHANCE PERFORMANCE ASSESSMENT OF WATER DISTRIBUTION NETWORKS .......................................................................647
G. Moser

ANALYSIS OF MULTIVARIATE SHM DATA OF A CABLE-STAYED BRIDGE CONSIDERING OPERATIONAL AND ENVIRONMENTAL EFFECTS .........................................................................657
I. U. Khan

STRUCTURAL RESPONSE ANALYSIS OF LONG-SPAN CABLE-STAYED BRIDGE BASED ON LONG-TERM MONITORING DATA ........................................................................................................667
R. Boroschek

SEISMIC TESTING OF THE FLEXIARCH BRIDGE SYSTEM .................................................................................................................................677
C. McCracken

EXPERIENCES OF SHM APPLICATION OF LONG SPAN BRIDGES IN JIANGSU .........................................................................................................................686
Y. Zhang

RS3 – VIBRATIONAL IDENTIFICATION AND TESTING

OUTPUT-ONLY IDENTIFICATION OF BASE EXCITED STRUCTURES USING SUBSPACE METHODS WITH ASYMMETRIC PARTITIONS ............................................................................................................700
C. Priori

A NEW METHOD OF OPTIMAL SENSOR PLACEMENT TECHNIQUES FOR MODAL IDENTIFICATION OF FLEXIBLE STRUCTURES ..............................................................................................................710
L. L. Lu

EARLY DAMAGE LOCALIZATION OF STEEL STRUCTURES BASED ON CHANGES OF MODAL AMPLITUDE .........................................................................................................................................................720
Y. Miyamari

ROBUST OPTIMAL SENSOR PLACEMENT FOR OPERATIONAL MODAL ANALYSIS BASED ON MAXIMUM EXPECTED UTILITY ........................................................................................................728
B. Li

SYSTEM IDENTIFICATION PROCEDURES FOR NONLINEAR RESPONSE OF BUCKLING RESTRAINT BRACES .........................................................................................................................................................738
Y. Zhang

DYNAMIC TESTING ON THE NEW TICINO BRIDGE OF THE A4 HIGHWAY .................................................................................................................................746
G. Busca

INTEGRATED SOFTWARE TOOL FOR DYNAMIC FEATURE EXTRACTION .................................................................................................................................756
Z. Y. Wu

INFLUENCE OF MEASUREMENT AND MODEL ERRORS IN OPTIMAL SENSOR PLACEMENT FOR SHM PURPOSES .................................................................................................................................766
L. Simonini

VIBRATION CONTROL OF MULTI-STOREY REINFORCEMENT CONCRETE FRAME INFILLED WITH A DRY STACK PANEL .................................................................................................................................776
H. J. Liu

DEFLECTION IDENTIFICATION OF THE TIED ARCH BRIDGE FROM LONG-GAUGE STRAIN .................................................................................................................................784
Q. Q. Zhang

THE CHARACTERISTICS OF LOW-FREQUENCY PROPAGATION WAVE MODES IN TUNNEL STRUCTURE .................................................................................................................................793
B. Zhou

ESTIMATING OVERALL BUILDING RESPONSES USING RECORDS FROM TWO SEISMOGRAPHS .................................................................................................................................803
K. Okada

A BAYESIAN PROBABILISTIC APPROACH FOR FINITE ELEMENT MODEL UPDATING UTILIZING VIBRATION DATA MEASURED IN AN EXISTING STEEL TRUSS BRIDGE .................................................................................................................................813
S. Mustafa

DATA PROCESSING EFFECTS OF ACCELERATION RECORD ON MODAL IDENTIFICATION OF A CONTINUOUS GIRDER BRIDGE .................................................................................................................................823
W. Zhang

BRIDGE STRUCTURE STIFFNESS EVOLUTIONARY ASSESSMENT BASED ON MONITORING INFORMATION .................................................................................................................................832
L. Y. Zhang
# Dynamic Monitoring of the Pasternak Footbridge Using MEMS-Based Sensing System

P. Gambarelli

# Identification of Tensile Forces in Tie Rods with Unknown Boundary Conditions

A. Belleri

# Damage Localization in a Multistorey Building Under Seismic Excitation

M. P. Limongelli

---

# Vibration-Based Damage Detection of Bridges Under Multidirectional Input Motion

H. Célak

# Structural Damage Estimation of Cracked Concrete Beams

M. Ruiz-Sandoval

# Damage Detection and Performance Evaluation of SFRP-Retrofitted Multi-Storey Timber Buildings

S. S. Mahini

### RS4 – NDE and Local Observations

- **Defect Detection in a Large Concrete Structure Caisson by Estimating the Reflection Waves**
  - M. Abe
  - Y. Xu

- **Reducing the Uncertainty on the Structural Behaviour of Existing Structures Through Data Interpretation**
  - Y. Reuland

- **Numerical Study on Delamination Detection in I-Section GFRP Beam with Ultrasonic-Optic Technique**
  - Z. Y. Wu

---

### RS5 – Monitoring for Active, Semi-Active, Hybrid, Passive Control

- **Active Vibration Control of a Cantilever Beam via Distributed Optical Fiber Sensor**
  - A. Minardo

- **Entropy and Energy Based Optimal Sensor Placement Through Genetic Algorithm**
  - G. Lomiento

- **Vibration Based Seismic Performance Assessment of the Yokohama Bay Bridge During the 2011 Tohoku Earthquake Sequence**
  - E. Yamaguchi

---

### RS6 – Weigh-in-Motion and Related Monitoring Actions

- **Traffic and Temperature Monitoring for Structural Health Monitoring of Bridges**
  - I. Ferreras-Alcover

- **Estimation of Axle Loads by Strain Measurement of Transverse Stiffeners**
  - R. Friedl

- **Variation in Wheel Forces Due to Random Pavement Roughness Regarding a Measurement Based Detection of Vehicle Weights**
  - M. Lydon

- **A Novel Approach for Axle Detection in Bridge Weigh-in-Motion Systems**
  - W. Lienhart

---

### RS7 – Monitoring for Geotechnics and Early Warning

- **Long Term Monitoring of Reinforced Earth Structures Using Distributed Fiber Optic Sensing**
  - F. Moser

- **Continuous Monitoring of a Large Concrete Arch Dam Using Fibre Bragg Grating Sensors**
  - W. Lienhart

- **Identification of Ground Motion Features of Far Field Seismic Waves: Early Warning for High Tech Facility**
  - C. T. Chen
SEGMENT-BASED EARLY DEFORMATION MONITORING IN LARGE UNDERGROUND CAVERNS ............................................. 1026
X. Lyu

WIRELESS SENSOR NETWORK APPLICATION IN URBAN METRO SHIELD TUNNEL ............................................. 1035
F. Wang

RS8 – RISK ANALYSIS, MONITORING AND INTERDISCIPLINARY STRATEGIES FOR SUSTAINABLE AND RESILIENT INFRASTRUCTURES AND URBAN SYSTEMS

USE OF TEMPERATURE MONITORING TO ESTIMATE FIRE LOADS IN TUNNEL FIRES A CASE STUDY ON THE VIRGOLO TUNNEL ......................................................................................................................... 1041
P. Rinaudo

DROP LEAK DETECTION IN SOIL BASED ON DISTRIBUTED TEMPERATURE SENSING OF BOTDA .................................................. 1051
S. Li

A TOOL FOR THE MANAGEMENT OF ALPINE ROAD NETWORKS IN THE WAKE OF NATURAL AND MAN-MADE DISASTERS ...................................................................................................................... 1061
M. Bassani

SEISMIC PERFORMANCE ASSESSMENT OF A TALL BUILDING BASED ON REAL-TIME MONITORING ............................................. 1071
K. Kaynardag

IMPLICATIONS OF LOAD RATING BRIDGES IN VIRGINIA WITH LIMITED DESIGN OR AS-BUILT DETAILS .......................................................................................................................... 1081
D. K. Harris

A NEW STRUCTURAL HEALTH MONITORING METHOD BASED ON MULTI-MODELS THROUGH MODEL SAMPLING .................................................................................................................. 1091
P. J. Li

SHAKING TABLE TESTS ON A FULL-SCALE JOINT COVER FOR GENERATION IV SEISMICALLY ISOLATED NUCLEAR PLANT ............................................................................................................. 1101
G. De Canio

SYSTEM-WIDE ASSESSMENT OF VULNERABILITY OF BRIDGES TO SCOUR UNDER EXTREME FLOOD EVENTS ......................................................................................................................... 1112
D. Huston

RS9 – APPLICATIONS AND CASE STUDIES

APPLICATION OF THE BAYESIAN INFERENCE IN THE STABILITY MONITORING OF A HISTORICAL MASONRY STRUCTURE .............................................................................................................. 1122
B. Peng

NUMERICAL SIMULATION OF LOCAL EXCITATION METHOD (LEM) TO DETECT SMALL DEFECT OF STRUCTURE FOR STRUCTURAL HEALTH MONITORING .............................................................................. 1130
L. R. Zhou

MODEL UPDATING OF A LARGE RIGID-CONTINUOUS CONCRETE BRIDGE USING RESPONSE SURFACE METHOD AND RADIAL BASIS FUNCTIONS ......................................................................................... 1140
J. Carretero Perez

STRUCTURAL HEALTH MONITORING OF A HIGHWAY BRIDGE WITH USING FULL FIBER OPTIC SYSTEM, “PUENTE EL BELTRÁN”, P.P. 118+500 AUTOPISTA GUADALAJARA-COLIMA (MÉXICO) ........................................................................................................ 1149
T. Oshima

STEREOVISION-BASED DETECTION OF SURFACE FLAWS ON PIERS OF YIQIAO BRIDGE AT HANGZHOU BAY ................................................................................................................................ 1159
B. Shan

STRAIN MONITORING USING EMBEDDED DISTRIBUTED FIBRE OPTIC SENSORS IN A SPRAYED CONCRETE TUNNEL LINING DURING THE EXCAVATION OF CROSS-PASSAGES ......................................................................................... 1168
N. De Battista

A HYDRAULIC MONITORING SYSTEM ON A BRIDGE OVER RIVER ESINO, ITALY .......................................................................................................................... 1178
A. Cigada

STRUCTURAL HEALTH MONITORING OF THE INDIAN RIVER INLET BRIDGE: RESULTS FROM CONTROLLED LOAD TESTS CONDUCTED OVER THE FIRST TWO YEARS OF SERVICE ............................................... 1188
M. Chajes

IN-SERVICE MONITORING OF US202/NJ23 HIGHWAY OVERPASS: FOUR-YEAR OVERVIEW .......................................................................................................................... 1196
B. Glisic

STRUCTURAL HEALTH MONITORING OF A CABLE-STAYED BRIDGE: USING TILTMETER DATA TO DETERMINE EDGE GIRDER DEFLECTIONS ................................................................................................. 1206
H. Shenton

STRUCTURAL MONITORING OF THE COLUMNS AT THE CATHEDRAL OF ORVIETO .......................................................................................................................... 1216
G. De Canio

VIBRATION-BASED SHM OF ORDINARY BUILDINGS: DETECTION AND QUANTIFICATION OF STRUCTURAL DAMAGE ..................................................................................................................... 1229
A. Pierdicca

BUILDING MONITORING DURING THE PARTIAL IMPLOSION STAGE .......................................................................................................................... 1241
J. Garces
