eTELEMED 2016

The Eighth International Conference on eHealth, Telemedicine, and Social Medicine

DIGITAL HEALTHY LIVING 2016
A Multidisciplinary View on Digital Support for Healthy Living and Self-management for Health

MATH 2016
The International Symposium on Mobile and Assistive Technology for Healthcare

April 24 - 28, 2016
Venice, Italy

eTELEMED 2016 Editors

Marike Hettinga, Windesheim University of Applied Sciences, the Netherlands
Alma Leora Culén, University of Oslo, Norway
Lisette Van Gemert-Pijnen, University of Twente - Enschede, the Netherlands
Anne G. Ekeland, Norwegian Centre for Integrated Care and Telemedicine / University Hospital of North Norway | University of Tromsø, Norway
Trine Bergmo, University Hospital of North Norway, Norway
Paolo Perego, Politecnico di Milano, Italy
Maurizio Caon, University of Applied Sciences and Arts Western Switzerland, Switzerland
Cristiana Degano, Gruppo SIGLA S.r.l., Italia
Piero Giacomelli, Spac SPA, Italy
Kari Dyb, Norwegian Centre for Integrated Care and Telemedicine / University Hospital of North Norway | University of Tromsø, Norway
# TABLE OF CONTENTS

## ETELEMED 1: SOCIO PERSPECTIVES IN TELEMEDICINE I

1. **Supporting eHealth Innovations: an Insurer’s Perspective**
   - Ruud Janssen, Sikke Visser, Elles Gyaltsen-Lohuis, Marike Hettinga
   - Page 1

2. **Promoting Patient Voices on the Internet**
   - Marianne Vibeke Trondsen, Line Lundvoll Warth, Kari Dyb, Torsten Risør, Hege Kristin Andreassen
   - Page 5

3. **Online Information about Cancer Patient Pathways (CPP) in Norway**
   - Heidi Gilstad
   - Page 7

4. **Designing in Rural Highland Contexts: Exploring the Role of Technology in Facilitating Human Connections**
   - Tara French, Jeroen Blom, Sneha Raman
   - Page 13

## ETELEMED 2: SOCIO PERSPECTIVES IN TELEMEDICINE II

1. **Patient-Centred Healthcare Team**
   - Trine S Bergmo, Birgitte Aabotsvik, Monika Eriksen, Elisabeth Kollnes, Marte F Larsen, Hege Mathisen, Anne Grethe Olsen, Johanne Aassen, Monika Dalbak, Grete Jakobsen, Torunn I Johansen, Staan Kristoffersen, Veronica Sørensen, Stine Haustreis
   - Page 19

2. **Interaction Space: Older Adults and In-Home Systems**
   - Jeroen Blom, Tara French, Gemma Teal
   - Page 25

3. **Co-creation of an Innovation Network: Engagement and User Involvement in Digital Care Services**
   - Torbjørg Treeland Meum, Etty Ragnhild Nilsen
   - Page 32

4. **Assessing Electronic Health Records: Are Basic Assumptions in “Health Technology Assessment” Useful?**
   - Anne Granstrøm Ekeland
   - Page 36

## ETELEMED 3: PREVENTATIVE AND EMERGENCY HEALTH SYSTEMS

1. **Denk je zelf! Developing a Personalised Virtual Coach for Emotional Eaters using Personas**
   - Aranka Dol, Olga Kulyk, Hugo Velthuijsen, Lisette Van Gemert-Pijnen, Tatjana Van Strien
   - Page 42

2. **Identifying Important Components for a Successful Life Style Change using an Online Complex e-health Intervention in General Practice – a Qualitative Interview Study**
   - Carl J. Brandt, Jane Clemensen, Jesper Bo Nielsen, Jens Søndergaard
   - Page 48

## ETELEMED 4: TELEMEDICINE/EHEALTH SERVICES

1. **Feasibility of a Second Iteration Wrist and Hand Supported Training System for Selfadministered Training at Home in Chronic Stroke**
   - Sharon M Nijenhuis, Gerdienke B Prange-Lasonder, Farshid Amirabdollahian, Jaap H Buurke, Johan S Rietman
   - Page 51

2. **A Renewed Framework for the Evaluation of Telemedicine**
   - Stephanie Maria Jansen - Kosterink, Miriam Vollenbroek - Hutten, Hermie Hermens
   - Page 57

3. **The Analysis of Youngster with Fever by Using Instantaneous Pulse Rate Variability**
   - Po Hsun Huang, Chia-Chi Chang, Tzu-Chien Hsiao
   - Page 63

4. **Planning for Sustainability: Multiple Technologies for Different Care Models**
   - Anthony Glascock, Rene Burke, Sherri Portnoy, Shaleea Shields
   - Page 68

## ETELEMED 5: EHEALTH TECHNOLOGY AND DEVICES

1. **Automated Nursing Agent: A Software Agent for At-Home Elderly Care**
   - Amir Hossein Faghih Dinevari, Osmar Zaiane
   - Page 77

2. **A Compact Dual-Band Antenna for Wearable e-Health Devices**
   - Husder Raud, Casey White, Hussain Al-Rizzo, Ayman Isaac, Ali Hammoodi
   - Page 82
Proposal for A KINECT-Based Auscultation Practice System
Yoshitoshi Murata, Kazuhiro Yoshida, Natsuko Miura, Yoshihito Endo

ETELEMED 6: TELEMEDICINE/EHEALTH APPLICATIONS

Co-creating with Stakeholders: Ideating eHealth Applications to Support Antibiotic Stewardship in Hospitals
Maarten Van Limburg, Hans Osselaer, Jobke Wentzel, Lisette Van Gemert-Pijnen

The Grid, Classification of eHealth Applications Towards a Better (re)Design and Evaluation
Saskia Akkersdijk, Saskia Kelders, Lisette Van Gemert-Pijnen, Annemarie Braakman

Smartphone-Based Collaborative System for Wounds Tracking
Francis Faux, Rémi Bastide, Nathalie Souf, Rita Zgheib

A Short-Term Assessment of Cardiac Output by Using Instantaneous Pulse Rate Variability
Pei Chen Lin, Chia Chi Chang, Hung Yi Hsu, Tsu Chien Hsiao

Telemonitoring Protocol for Prevention and Comorbidity Screening, in Paediatric Patients with Cystic Fibrosis and/or Diabetes, by HVR index
Irene Tagliente, Fabrizio Margia, Riccardo Schiaffini, Antonella Lorubio, Marcello Chinali, Fabio Majo, Sergio Bella

ETELEMED 7: PERSONALIZED EHEALTH

Combining Personal Health Records and Relevant External Data Sources: A Way for Achieving New Outcomes for Personal Healthcare
Juha Puustjärvi, Leena Puustjärvi

Big Data for Personalized and Persuasive Coaching via Self-monitoring Technology
Lisette Van Gemert-Pijnen, Floor Sieverink, Liseth Siemons, Annemarie Braakman-Jansen

Wearable Recognition System for Emotional States Using Physiological Devices
Ali Mehmood Khan, Michael Lawo

ETELEMED 8: EHEALTH DATA RECORDS

Attribute-Based Authenticated Access for Secure Sharing of Healthcare Records in Collaborative Environments
Mohamed Abomhara, Huihui Yang

Fuzzy One-Decision Making Model with Fuzzified Outcomes in the Treatment of Necrotizing Fasciitis
Elisabeth Rakus-Andersson, Janusz Frey

The Value of Clinical Information Models and Terminology for Sharing Clinical Information
Rune Pedersen, Conceição Granja, Luis Marco Ruis

Three Levels of Access Control to Personal Health Records in a Healthcare Cloud
Gabriel Sanchez Bautista, Ning Zhang

ETELEMED 9: EHEALTH SYSTEMS AND COMMUNICATIONS

Evaluation of a Context-Specific Communication System Based on Smartphones: A Field Study of Use and Nurses' expectations
Trine S. Bergmo, Elin Johnsen, Monika A. Johansen, Tejre Solvoll

Designing User Interfaces for Personal Health Assessment Questionnaires: A Report from a Pilot Study
Conceição Granja, Kari Dyb, Stein Roald Bolle, Gunnar Harvigsen

Core Archetypes: The Means to Build Confidence Around the Power of Structured EPR Systems?
Gro-Hilde Ulriksen, Rune Pedersen

Concept Testing Toward a Patient-Validated Information Architecture
Tore Høgås, Torsten Risør, Marianne Trondsen, Line Lundvoll Warth, Kari Dyb, Hege Andreassen
ETELEMED 10: EHEALTH INFORMATION PROCESSING

Investigating Factors Determining the Use of the Clinical Care Module by Nurses Through the UTAUT Model ............................................................... 186
  Munyaradzi Zhou, Marlien Herselman, Alfred Coleman

An Integrated and Collaborative eHealth System for the Mental Health Services ......................................................... 192
  Claudio Dario, Gerardo Favaretto, Claudio Saccavini, Silvia Mancin, Giulia Pellizzon

ETELEMED 11: LARGE-SCALE COST-EFFECTIVE EHEALTH SYSTEMS

Barriers to Deploying Diabetes Self-management mHealth Services in the Chinese Market ........................................ 195
  Ying Li, Xiaolian Duan, Daidi Zhong, Jianming Qu

Results of the Australian CSIRO National Multi-site Trial of At-home Telemonitoring for the Management of Chronic Disease ............................................................................................................. 200
  Branko Celler, Marlien Varnfield, Jane Li, Rajiv Jayasena, Ross Sparks, Surya Nepal, Leila Alem, Julian Jang-Jaccard, Simon McBride

Distributed Case Management in the Public Health Area ........................................................................................................... 202
  Octavian Purcarea, Philip Cummings, Doina Patrubani, Cristian Taslitchi

DIGITAL HEALTHY LIVING 1: ASSISTIVE TECHNOLOGIES

MoodLine and MoodMap: Designing a Mood Function for a Mobile Application with and for Young Patients ........................................................................................................... 214
  Maja Van Der Velden, Margaret Machniak Sommervold

Re-establishing Interaction Through Design of Alternative Interfaces .................................................................................. 220
  Suhas Govind Joshi

ICT Platform for Cognitive Stimulation: Technological Description and Evaluation of Effectiveness and Impact of the Practice in Alzheimer’s Disease Patients ........................................................................ 230
  Andrea Caroppo, Alessandro Leone, Pietro Siciliano, Daniele Sancarlo, Grazia D’Onofrio, Antonio Greco

Sense-Making in Complex Healthcare Domains: The Role of Technology in Every Day Lives of Youth Suffering from ME/CFS .................................................................................. 236
  Jorun Borsting, Alma Leora Culén

DIGITAL HEALTHY LIVING 2: HEALTH-ORIENTED INTERACTION DESIGN

Do it Yourself: Supporting Patient Self-management in Clinical Practice .................................................................................. 243
  Veronica Janssen, Roderik Kraaijenhagen

Performing Telecare: Recognizing New Nursing Care Practices ................................................................................ 247
  Annemarie Van Hout, Ruud Janssen, Marike Hettinga

Smartphone-based Optical System for Blood Coagulation Self-monitoring .............................................................. 251
  Ramji Sitaraman Lakshmanan

Technology for Transition: Needs and Preferences of Young Patients ........................................................................ 257
  Margaret Machniak Sommervold, Maja Van Der Velden

MATH 1: MOBILE AND ASSISTIVE TECHNOLOGY FOR HEALTHCARE I

Textile Performance Assessment for Smart T-Shirt Development .............................................................................................. 263
  Paolo Perego, Giuseppe Andreoni, Marco Tarabini

A System for Real Time Monitoring of Users’ Postural Attitudes .................................................................................. 269
  Alessandro De Gloria, Alberto Cavallio, Alessio Robaldo, Flavio Ansovini

iCARE: Telematic Platform for the Improvement of Home Care Services for Pediatric Palliative Care ........................................ 272
  Luca Bianconi, Cristiana Degano, Matteo Toma, Luca Manfredini, Federica Penco, Sandro Dallorso, Paolo Petralia, Riccardo Berta
Development of Smart Garments and Accessories to Support Behaviour Change in Teen-agers:
Considerations on the Use of Interactive Virtual Prototyping
Maria Renata Guarneri, Politecnico Di Milano

A Graph Framework for Multimodal Medical Information Processing
Georgios Drakopoulos, Vasileios Megalooikonomou

Designing a Mobile Serious Game to Promote Healthy Lifestyles
Stefano Carrino, Maurizio Caon, Ian Dunwell, Dalia Morosini, Elena Mugellini

An Environmental and Wearable System Supporting Monitoring Services at Home for Elderly People
Giuseppe Andreoni, Marco Bocciolone, Paolo Perego, Marco Tarabini, Lucia Pigini, Gabriele Bovi, Valerio Gower, Claudia Panzarino, Maurizio Ferrarin

Author Index
