2015 Fifth International Conference on e-Learning (ECONF 2015)

Manama, Bahrain
18 – 20 October 2015
2015 Fifth International Conference on e-Learning

ECONF 2015

Table of Contents

Message from General Chair..............................................................................................................xii
Message from Program Chair ............................................................................................................xiv
Conference Organization ..................................................................................................................xvi
Program Committee .......................................................................................................................xvii
Acknowledgement ..........................................................................................................................xx
Sponsors........................................................................................................................................xxi

Track 1: Intelligence and Reasoning

A New Learning Cognitive Architecture Using a Statistical Function and Genetic Algorithms: An Intelligent New e-Learning Model .................................................................1
  Jorge Manuel Pires and Manuel Pérez Cota

Electronic Brainstorming and the Effect to Development Systematic Thinking Skills for First Medium Students in Computer .................................................................9
  Mahmood Abdul Salam Alhafidh and Islam Kalid Albasso

Autonomous Learning among ESL Students at Al-Buraimi University College in the Sultanate of Oman: A Case Study .................................................................20
  Yahia A. M. Alkhoudary

Communicating Secret Information without Secret Messages in Wireless Sensor Networks .................................................................29
  Naya Nagy, Marius Nagy, and Selim G. Akl

ElectroLab: Electronic Laboratory System .........................................................................................35
  Sahar A. El Rahman

Track 2: Simulation and Modeling

Evaluation of a Numerical Model Using COMSOL Multi-physics Package .......................................42
  Adil Abdelwahab Sharawi, El-Amin Hamoda, and Abdelrahman Ali Karrar

Interactive Design Modules for Logic Design Course ....................................................................47
  Abd Elrazig and A. E. Suliman
Security Measures in a Keyless Quantum Communication Protocol ........................................53
   Alla Altalib, Yomna Al-Ibrahim, Zahra Almahfoudh, Marius Nagy, and Naya Nagy

Using Haptic Technology for Education in Chemistry ..............................................................58
   Shaykhah S. Aldosari and Davide Marocco

An Algorithm for Human Modeling in Information Technology Multimedia Using
Human Biometrics Found in Golden Ratio, Vitruvian Man and Neufert .................................65
   Evon Abu-Taieh

Track 3: Creating and Designing e-Learning

Discussing the Online Learning Premises ............................................................................74
   Anssi Mattila and Minna Mattila

Syllabus Design for Multimedia Art and Engineering Education – Problem
Oriented Approach ................................................................................................................78
   Joanna Napieralska, Jozef Modelski, and Wladyslaw Skarbek

An Evaluation of an Integrated e-Portfolio Model: The Case of Bahrain
Teachers’ College ..................................................................................................................86
   Nina Abdul Razzak

Programming Unplugged: Bridging CS Unplugged Activities Gap for Learning
Key Programming Concepts ................................................................................................97
   Reem A. Alamer, Wejdan A. Al-Doweesh, Hend S. Al-Khalifa,
   and Muna S. Al-Razgan

The Effect of Using a Developed Spoken Social Networking Website
on Instructional Technology Students Attitudes and Habits in Egypt ................................104
   Hussein M. Abdelfatah

The Use of E-Learning System in Learning about Architecture: Obstacles
and Opportunities .............................................................................................................117
   Bhzad Sidawi

The Impact of e-Books on the Printed Books: e-Books Popularity, Growth
and Future .........................................................................................................................125
   Zakaria Issa Saleh and Ahmad Shaher Mashhur

A Multi-criteria Decision Making Model for Software Selection to Build
E-Portfolio ..........................................................................................................................131
   Rania Zaini and Ebtehal Quqandi

The Use of QR Codes and Mobile Technology in the Blended Learning
Approach .........................................................................................................................135
   Belkacem Kouninef, Ghizlene Merad, and Mohamed Djelti
**Track 4: Web 2.0 Distance Learning**

A Web-Based Course and Instructor Online Evaluation System ..........................................................144

* Sahar A. El Rahman

Investigate the Utilisation of Web 2.0 Applications: A Case Study of a Marketing Teacher and His Web-Enhanced Course Building on E-Learning Concepts at One University in KSA ..................................................................................................................153

* Osamah Abdulwahab Dawood Almaghlouth

Twitter Scheduler System as e-Learning Tool ..................................................................................161

* Ali Al Soufi, Aysha Obead, Sara Althawadi, and Zanab Al Hayki

Test of Information Technology (IT) - Self Efficacy and Online Learning Interaction Components on Student Retention: A Study of Synchronous Learning Environment ..................................................................................................................165

* El-Nour Mubarak M. A. Omar, Azhari Abdulrahim, A. Drewish, Yasir M. Saeed, and Yuseria Mohammed Abdalbagi

Altitudinal Factors Affecting the Adoption of Internet Banking Services among Small and Medium Enterprises in Yemen .............................................................................................................................................174

* Nabil Hussein Al-Fahim, Wan Jamaliah, and Adewale Abideen

**Track 5: Educational Management: Courses and Strategies**

Education Dynamics: A Systems Thinking Perspective ........................................................................188

* Luay Assidmi

Effect of Security and Trust on Email Usage Case Study at University of Bahrain ..............................................................195

* Resala A. AlAdraj and Mike Joy

Effectiveness of M-Learning in Blended Learning-Design of Prototype Framework for AOU Bahrain ...........................................................................................................................201

* Sarmad Mohammad

The Effectiveness of the Flipped Classroom in Higher Education ..................................................................................207

* Samia Elazab and Mohamed Alazab

The Future Educator Skills in the Digitization Era: Effects of Technological Development on Higher Education ........................................................................................................................................212

* Anssi Mattila

Efficient Method for Face Recognition and Its Role in Supporting E-Learning Systems ........................................................................................................................................................................216

* Walaa M. Abd-Elhafiez, Mohamed Heshmat, and Seham Elaw

Private Open Source Social Networking Media for Education ..................................................................................220

* Eddy Nini
Trends of the Academic Staff to Use Electronic Attendance in the College
of Applied Science, Ibri .................................................................225
    Saad Mamoun Abdel Rahman and Omeira Nasser Al Hatali

e-Learning Capital Budgeting Decision Models: A Comparative Analytical Study .................................................................231
    Amr Mohamed and Mohamed Kamal

Track 6: Web of Things and Big Data
An Extractive Malayalam Document Summarization Based on Graph Theoretic Approach .................................................................237
    Ajmal E. B and Rosna P. Haroon

Framework for Data Mining of Big Data Using Probabilistic Grammars .................................................................241
    Aljoharah Algwaiz, Reda Ammar, and Sanguthevar Rajasekaran

Hyperspectral Imaging Classification Using ISODATA Algorithm: Big Data Challenge .................................................................247
    Sahar A. El Rahman

IoT Smartphone Controlled Secure Submission of e-Assessments .................................................................251
    Mohammed Ghazal and Yasmina Al Khalil

An IoT Smart Queue Management System with Real-Time Queue Tracking .................................................................257
    Mohammed Ghazal, Rania Hamouda, and Samr Ali

Building a Secure Decentralized Energy System with Remote Monitoring Using Mobile Agents .................................................................263
    H. M. Eldegwi, M. B. Badawy, and Hamdy M. Kelash

Improve Sustainability of Decentralized Energy Using Product Service System Based on ICT .................................................................269
    Hossam Eldegwi, M. B. Badawy, and Hamdy M. Kelash

Mining and Exploration of Credit Cards Data in UAE .................................................................275
    Sarween Zaza and Mostafa Al-Emran

Resilience Mobile Cloud Computing: Features, Applications and Challenges .................................................................280
    Lo’ai Tawalbeh, Norah Alassaf, Waseem Bakheder, and Alaa Tawalbeh

ROBODEM Remote Monitoring System Using Web/Mobile Applications .................................................................285
    Tasneem M. Yousif, Aysha K. Alharam, Wael Elmedany, Abeer A. Al Khalaf, and Zainab Fardan

Track 7: e-Delivery in Different Contexts
The Impact of Game Shows on Students' Academic Performance .................................................................290
    Manijeh Mistry and Mariam Al-Anan
The Impact of SNS in Higher Education: A Case Study of Using WhatsApp in the University of Bahrain

Alauddin Al-Omary, Wael M. El-Medany, and Khalil Jasim Ebrahim Isa

The Integration of Social Media in the Delivery of Unit Materials: A Comparative Examination of the Experience of Macquarie University and Qatar University

Andrew Mazen Dahdal and Nazzal Mansour Ismail Kisswani

A Flexible Distance Education Delivery Model: Design and Implementation at King Faisal University

Mosleh Al-Adhaileh and Abdullah Al Fridan

Experiential Learning Spaces for Enterprise Resource Planning Courses in Business Schools

Umar Ruhi and Pouria Ghatrenabi

The Challenges and the Opportunities of Teaching the Introductory Computer Programming Course: Case Study

Mohamed Osman Hegazi and Mohammad Alhawarat

University Students’ Attitudes toward E-Tests

Nisrine N. Adada, Ahmad A. Shatila, and Hadla S. Tabsh

Track 8: Special Subjects and Approaches in e-Learning

Challenges Facing the Implementation of e-Learning at University of Gezira According to View of Staff Members

Fadlelmoula Abd Alla Idris and Yasin Babeker Osman

ITQAN: A Mobile Based Assistant for Mastering Quran Memorization

Entesar Almosallam, Monerah M. Alawadh, Rawan S. Alhasani, Sarah M. Almansour, Wejdan A. Altamimi, and Yasmeen R. Altujjar

Virtual Learning Environments for Higher Learning Institutions in Developing Countries

Mmatshuene Anna Segooa and Billy M. Kalema

E-Textbook: Usage and Perceptions at University of Bahrain, CHS

Rabab A. Wahab and Sameera Al-Alaiwat

The Effectiveness of Using WebQuest on Enhancing EFL Reading Comprehension Skills and Cultural Awareness of Experimental Secondary School Students

Amira Desouky Ali

An Analytical Study of the Scientific Researchs at the University of Bahrain

Amira H. Abdulrazzaq, Mayyadah Al-Ani, and Leqa’a Faisal
Track 9: Online Assessment

Architecture for Integrating Real Objects with Virtual Academic Communities ................................................385
V. Jhorman Andres Villanueva, F. Jack Daniels Marquez, A. Zeida Maria Solarte, and Alexander Garcia Dávalos

Association of Student's Position in a Classroom and Student's Academic Performance Using ANOVA ........................................................392
Amr Mohamed and Mohamed Kamal

Overview of Open Book-Open Web Exam over Blackboard under E-Learning System ........................................396
Khaled Mohanna and Ayyub Patel

Student's Attitudes towards Online Assignment Submission at College of Health Sciences, University of Bahrain ..................................................403
Rabab A. Wahab and Sameera Al-Alaïwat

Impact of a Formative e-Assessment on Learning Outcomes: A Pilot Study on a Social and Behavioural Sciences Course, College of Health Sciences, University of Bahrain ..................................................408
Fatema Ali and Achamma George

Track 10: Regional Paper Track

A Proposed Model of a Virtual Learning Resources Center for the Visually Impaired Based on International Standards .........................................413
Mohamed Shaltout and Nada Nasser Alhenaki

A Proposed Model to Assure Quality Control of Designing and Production of Field Researches and Studies in eLearning .........................................424
Hamdy Ahmed Abdelaziz

A Suggestive Vision of an Electronic Training Program for the Development of Teachers' Skills in Activating Their Students' Electronic Volunteerism through Food and Nutrition Unit Activities .........................................449
Mohamed Shaltout and Ebtesam Abdulrahman Algeafes

Interactive Simulation in Teaching Science Labs (Reality and Expectations) .........................................458
Ahmed Humeid Albadri

The Effect of Electronic Educational Infographic Design on the Development of Skills in Dealing with the Lighting in Photography by the Postgraduate Students .........................................465
Mohamed Shaltout and Sara Omar Albarrak

The Standards of Intelligent Collaborative e-Learning of e-Courses Based on Web .........................................486
Emad Badie Khairy Kamel
Administrative Empowerment and Its Degree of Availability for Heads of Academic Departments at Private Colleges and Universities in Saudi Arabia .................................494
Mohammed Ziyad M. Aldogailbi

From a Dilapidated Blackboard to Creative Flash Videos: The Case of Training Teachers of Schools in Hebron .................................................................507
Mohammad Moreb and Nabil Jondi

The Moodle Application Constraints among Students in Social Work at Sultan Qaboos University ..........................................................................................514
Emad Farouk Mohamed Saleh

A Proposal to Build and Design an Educational Software Program to Teach the Basic Skills of Arabic Calligraphy .........................................................534
Saad Mamoun, Abdel Rahman, Saad Eldin, and Abd Elhamid

The Effectiveness of the Education College Programs at Al-Aqsa University in Develop Efficiencies Students in E-Learning ................................................539
Hasan R. Mahdi and Ashraf A. El-Hinawi

The Impact of Interactive Board to Promote Leader Talented the Case of Batterjee`s Scholarship Students ..............................................................................551
Adel Batterjee, Ikhlas Ashria, and Haider Al- Gadi

E-Learning Supporting System (ELS) in Nahda University in Upper Egypt: Case Study .................................................................................................571
Samia El-Azab and Khaled Aboelfadl

Author Index ........................................................................................................594
