2015 IEEE 9th International Conference on Standardization and Innovation in Information Technology (SIIT 2015)

Sunnyvale, California, USA  
7 – 9 October 2015
# Table of Contents

IEEE's Humanitarian Open Source: A path to Open Standards and Interoperability  
*Alfredo Herrera (University of Ottawa, Canada)*  
*Thomas Prowse (n2one inc., Canada)* ................................................................. 1

The evolving role of standardisation in technological innovation: the case of photovoltaics  
*Jae-Yun Ho (University of Cambridge, UK)*  
*Eoin O’Sullivan (University of Cambridge, UK)* .................................................. 5

Internet of Things and Business Models: Empirical Illustrations of How the Business Model Concept Helps Us to Understand Strategic Implications of Internet of Things Investments  
*Pelle Högnelid (Lund University, Sweden)*  
*Thomas Kalling (Lund University, Sweden)* .......................................................... 13

Perilous Deviations from FRAND Harmony—Operational Pitfalls of the 2015 IEEE Patent Policy  
*Ron Katznelson (Bi-Level Technologies, USA)* ..................................................... 20

Diversity in Standards Development: A Response to Katznelson  
*Gil Ohana (Cisco Systems, USA)* ............................................................................. 30

Standardization in the ICT: towards ever closer union between SSOs and Patent offices?  
*Olga Kokoulina (University of Copenhagen, Denmark)* ........................................ 37

Government Intervention in Technology Innovation System in the Catching-up Context: Case of TD-LTE Technology Innovation in China  
*Guanyu Liu (University of Manchester, UK)*  
*Ping Gao (University of Manchester, UK)* ............................................................. 45

Private Standards as Means of Technology Transfer: Empirical Evidence from the International Featured Standard  
*Axel Mangelsdorf (Technical University Berlin, Germany)* ..................................... 54

Engagement in ICT Standardization: Pushing the Patents or Questing for Knowledge?  
*Cesare A.F. Riillo (STATEC, Luxembourg)*  
*Ivana Mijatovic (University of Belgrade, Serbia)* .................................................. 60

A Modular Approach to Standards Education  
*Michael B. Spring (University of Pittsburgh, USA)* ............................................... 67

Analysis of Early-Stage Proposals in Standardization: A Case Study of SEP-Candidate Proposals in oneM2M Release 1  
*Toru Yamada (NEC Corporation, Japan)*  
*Masahiro Serizawa (NEC Corporation, Japan)* ..................................................... 73
