PARTNERSHIP MODEL: THE PANACEA TO SUSTAINABLE DEVELOPMENT IN THE NIGER DELTA REGION OF NIGERIA ............................................................................................................. 294
G. Okiyi

CORPORATE GOVERNANCE AND RESPONSIBILITY THROUGH PARTNERSHIPS ............................................. 295
D. Flemming

BLOCK 1 - UPSTREAM

RFP1 - INTELLIGENT OIL FIELDS .................................................................................................................. 302
P. Kapteijn, D. Boutte

RFP2 - BREAKTHROUGH TECHNOLOGIES FOR ULTRA DEEP WATER DEVELOPMENT ......................... 303

RFP3 - NEW TECHNOLOGIES IN EXTRA HEAVY CRUDE OIL AND NATURAL BITUMEN FIELD DEVELOPMENT .......................................................................................................................... 316
D. Boone, G. Bunio

F1 – WEST AFRICA DEEP WATER EXPLORATION

BP ANGOLA, THE GROWTH AND DEVELOPMENT OF A MAJOR NEW PROFIT CENTRE .................................. 317
B. Schrader

BENGUELA BELIZE - LOBITO TOMBOCO DEVELOPMENT, BLOCK 14: ANGOLA'S NEXT DEEPWATER HUB ................................................................................................................................. 325
W. Higgs, F. Domingos, R. Isaac, R. Redwine, P. Benoit

OPTIMAL HORIZONTAL WELLBORE PLACEMENT USING NEW DRILLING TECHNOLOGY IN THE NIGER DELTA - BONGA FIELD CASE STUDY ......................................................................... 337
S. Falodun, M. Kellas, K. Ehrunmwunsee

PETROBRAS IN NIGERIA: A SUCCESS CASE .............................................................................................. 346
S. Awad, R. Ferreira

DOWNHOLE MONITORING AND FLOW CONTROL IN DEEP-OFFSHORE WELLS - THE GIRASSOL AND JASMIN FIELDS EXPERIENCE ...................................................................................................... 353
E. Barber, D. Cäue

NEW TECHNOLOGIES FOR FIELD DEVELOPMENT IN 3000 METERS OF WATER DEPTH .......................... 359
J. Salies

ADVANCEMENTS IN ULTRA DEEP WATER COMPLETIONS BY USE OF VACUUM INSULATED TUBING ................................................................. 370
J. Nowinka, M. Gonzalez, R. Hensley
THERMAL INSULATED FLUID HELPS ENSURE FLOW IN WEST AFRICA DEEPWATER LOCATIONS
J. Cotton, D. Garrett, D. Poole, D. Huynh, F. Conde ................................................................. 371

PROCEDURE MONITORING OF THE PIPELINE INTERNAL INSPECTION ROBOT - G.I.R.I.N.O.
B. Figueiredo, N. Robinson, S. Reis, R. Ferreira, A. Santos, P. Fanta ................................. 373

EXPLORATION TO PRODUCTION: A NEAR DECADE OF SUCCESS IN BLOCK 14, ANGOLA
D. Kennedy, H. Carvalho, N. Pacavira .................................................................................. 374

MEETING THE CHALLENGE OF SUBSEA FIELD DEVELOPMENT OFFSHORE NIGERIA, THE OKWORI OIL FIELD CASE

QUANTITATIVE LITHOSEISMIC CHARACTERIZATION FOR RESERVOIR MODELING OF ANGOLA DEEP WATER CASE
F. Cunha, S. Nguyen, O. Voutay, P. Neff .................................................................................. 383

F2 – EMERGING TECH FOR DRILLING CHALLENGES

APPLICATION OF AZIMUTH DENSITY IMAGING OF LWD IN STRUCTURE INTERPRETATION
J. Zhao ........................................................................................................................................ 385

UNIQUE BIT PERFORMANCE PREDICTOR USING SPECIFIC ENERGY COEFFICIENTS AS A FUNCTION OF CONFINED COMPRESSIVE STRENGTH IMPACTS DRILLING PERFORMANCE
H. Caicedo, W. Calhoun, R. Ewy ............................................................................................... 386

IMPLEMENTATION OF A NEW RISK BASED WELL COLLISION AVOIDANCE METHOD
G. McNair, S. Lance, R. Watson, J. Codling ............................................................................ 412

NEW DRILLING TECHNOLOGIES AS DRILLING-WITH-CASING (DWC) REQUIRE NEW SOLUTIONS FOR TUBULAR'S CONNECTIONS
G. Carcagno, N. Santi .............................................................................................................. 433

MANAGED PRESSURE DRILLING IMPROVES DRILLING EFFICIENCY, ECONOMICS, RECOVERABLES AND ENHANCES WELLSITE HSE
T. Fuller ...................................................................................................................................... 444

FIRST LATERAL-FLOW-CONTROLLED MAXIMUM RESERVOIR CONTACT (MRC) WELL IN SAUDI ARABIA: DRILLING & COMPLETION, CHALLENGES & ACHIEVEMENTS: CASE STUDY
O. Al-Faraj, F. Al-Nughaimish, N. Al-Faleg, U. Al-Otaibi .................................................... 445

IMPROVING GAS AND GAS CONDENSATE WELL CONSTRUCTION IN THE ARCTIC REGIONS
A. Frolov, A. Ryabokon, S. Nadikta, A. Klyasov ..................................................................... 459

CHARACTERIZING CEMENT SHEATH PROPERTIES FOR ZONAL ISOLATION
M. Tellisi, P. Pantillo, K. Ravi .................................................................................................. 460

APPLICATIONS FOR FORMATION TESTING WHILE DRILLING IN THE MIDDLE EAST
R. Deady, D. Seifert, S. Kellet, S. Al-Dossari .......................................................................... 465

NEW CONCEPT TO EVALUATE RHEOLOGICAL BEHAVIOUR FOR DEEP HARD ROCK DRILLING INTO HOTTER AND MORE PRESSURED FORMATIONS AND PERFORMANCE OF MISCELLOUS GAS INJECTION
N. Benayad, N. Haddoum-Kherfellah ...................................................................................... 475

F3 – EXP & DEV OF NATURALLY FRACTURED RESERVOIRS

DEVELOPMENT OF A LARGE CARBONATE RESERVOIR WITH NATURAL FRACUURES
N. Al-Afaleg, T. Pham ............................................................................................................. 496

FLUID TYPE IDENTIFICATION IN FRACTURED RESERVOIR
B. Wei, C. Zhang, J. Cai ............................................................................................................ 497

FRACTURED RESERVOIR MANAGEMENT - RECENT PROGRESS AND PROMISING PERSPECTIVES
B. Bourbiaux, R. Basquet, A. Lange, L. Hu ............................................................................. 504
HOW WILL THE NATURALLY FRACTURED RESERVOIRS OF THE WORLD AGE? (WITH A SPECIAL FOCUS ON CARBONATES SINCE THAT IS WHERE MOST OF THE RESERVES LIE) ................................................................. 516

W. Wright

SIMULATION STUDY OF SECONDARY WATER AND GAS INJECTION IN A TYPICAL IRANIAN NATURALLY FRACTURED CARBONATE OIL RESERVOIR .................................................................................................................. 517

V. Sajjadi, A. Emadi, E. Khaghani

SEISMICALLY DRIVEN FRACTURED RESERVOIR CHARACTERIZATION ................................................................. 528

A. Ounes, G. Robinson, A. Zellou, D. Bulough, U. Avaktingi

SOLVING THE PROBLEMS OF HC RESERVES PRODUCTION BY APPLYING SIDE-VIEW SEISMIC LOCATION TECHNOLOGY (SVSL) TO MONITOR THE RESERVOIR FRACTURING .............................................................................................................................. 541

O. Kaznetsov, Y. Kuryanov, I. Chirkin, B. Melchouk

RESEARCH ON CHEMICAL SHALLOW PROFILE MODIFICATION MODE OF FRONTAL FACIES RESERVOIR OF DAQING OILFIELD OF CHINA .............................................................................................................................. 542

AN INVESTIGATION OF THE INITIAL AND EXPLOITATION CONDITIONS OF THE SUPER GIANT AKAL OFFSHORE NATURALLY FRACTURED RESERVOIR .............................................................................................................................. 547

A. Leon, F. Samaniego, H. Ley, J. Guevara, F. Ascencio, A. Galindo, F. Rodriguez, J. Sanchez

COMBINING OLD AND NEW TECHNIQUES FOR FRACTURING CHARACTERIZATION ................................................................. 573

A. Afanasenkov, E. Kozlov, V. Nozbin, N. Baransky

FRACTURE OPENING - KEY TO WELL PRODUCTIVITY IN NATURALLY FRACTURED RESERVOIRS ................................................................................................................................. 574

Y. Du, L. Guan, H. Liang

FORMATION EVALUATION IN DEZFUL EMBayment of IRAN USING OIL-BASE-MUD IMAGING TECHNIQUES .............................................................................................................................. 584

M. Akbar, A. Nazaraghaie, Z. Movahed, Z. Safarankanlou

SARVAK RESERVOIR CHARACTERIZATION AND ITS PORE GEOMETRY ANALYSIS WITH EMPHASIS TO ROLE OF BUOYANCY FORCE IN OIL PRODUCTION; KUPAL OILFIELD, SW IRAN .............................................................................................................................. 585

M. Homaiie, B. Alizadeh, B. Morady

DISCRETE FRACTURE NETWORK MODEL- A CASE HISTORY, DOROZSMA FIELD, SE-HUNGARY ................................................................................................................................. 594

T. Vincze, J. Komlosi, P. Zavacszi, J. Moffat, T. Doe

A NEW METHODOLOGY TO ESTIMATE FRACTURE INTENSITY INDEX FOR NATURALLY FRACTURED RESERVOIRS .............................................................................................................................. 604

S. Gomez, E. Hurtado, H. Vega

CHARACTERIZING SPARSELY FRACTURED RESERVOIRS THROUGH STRUCTURAL PARAMETERS, TIME-LAPSE 3-D SEISMIC AND PRODUCTION DATA .............................................................................................................................. 605

M. Zadehui, C. Krujsdijik

SEISMIC ACQUISITION AND PROCESSING IN BLOCK 0, OFFSHORE CABINDA, ANGOLA - CONTINUOUS EVOLUTION IN TECHNOLOGY AND APPLICATIONS .............................................................................................................................. 606

R. Cupich, E. Davidson, H. Hisio, D. Dalley

USING SEISMIC TO MEET THE WORLD'S HUNGER FOR ENERGY: CHALLENGES AND OPPORTUNITIES .............................................................................................................................. 612

K. Al-Yahya

REDUCING E&P RISK AND COST IN DEEP WATER BASINS WITH INNOVATIONS IN SEISMIC ACQUISITION TECHNOLOGY .............................................................................................................................. 613

M. Nessim, M. Egan, C. Beasley

CHALLENGES IN SEISMIC EXPLORATION: 3D SEISMIC - STILL NOT TRUE 3D .............................................................................................................................. 622

S. Strandenes, P. Reksnes, A. Long

THE USE OF DEEP SEISMIC SOUNDING DATA FOR HYDROCARBON POTENTIAL PREDICTION .............................................................................................................................. 627

N. Baransky, G. Krasopevtseva

S-MODE PROPAGATION -IMPORTANT FACTOR IN RESERVOIR CHARACTERISATION ................................. 628

H. Jedrzejeowska, K. Zulawinska

THE APPLICATION OF THIN & POOR RESERVOIR PREDICTED TECHNOLOGY TO THE PUNAN OILFIELD .............................................................................................................................. 629

H. Xu, J. Wang, C. Wang, J. Lou, J. Hou, Z. Wang

THE POSSIBILITY OF OPTIMIZATION OF PRODUCTION WELLS LOCATION BY USING NEW TOOLS FOR STATICS CORRECTION AND RESERVOIR CHARACTERIZATION .............................................................................................................................. 630

A. Afanasenkov, N. Baransky, V. Vinkovis, V. Nozbin, T. Mylayrova
USE OF MODEL BASED K-L FILTERING TO IMPROVE SEISMIC IMAGING OF THE DEVONIAN JAUF RESERVOIR, EASTERN SAUDI ARABIA ................................................................. 631
  D. Cook, C. Tsai

PETROGRAPHIC, PETROPHYSICS AND SEISMIC INTEGRATION: AN APPROACH TO DELINEATION OF DIAGENETIC TRAP, RESHADAT OIL FIELD IN THE PERSIAN GULF .......... 640
  A. Bashari

F5 – INCREASING YIELD FROM FIELDS

UNCERTAINTY ASSESSMENTS IN HYDROCARBON FORECASTS FOR MATURE FIELDS ............... 648
  D. Guerillot

ROLE OF CHEMICAL IOR/EOR METHODS IN THE 21ST CENTURY ............................................. 660
  I. Lakatos

VOLUME 2

"RESOURCES VALUATION PLAN", FROM RESOURCES TO RESERVES OR PROMOTING TECHNOLOGY TO MAXIMISE HYDROCARBON PRODUCTION AND RECOVERY .............................. 673
  P. Clovin, A. Goulais, M. Magueruez, I. Potapieff

INFILL DRILLING-LESSONS LEARNT IN THE PAST 20 YEARS ....................................................... 679
  L. Guan, Y. Du, Z. Wang

IMPROVED OIL RECOVERY: STATUS AND OPPORTUNITIES ............................................................. 691
  L. Surguchev, E. Manrique, V. Alvarado

IMPROVED OIL RECOVERY TECHNOLOGY IN CHINA: STATUS & OUTLOOK ............................. 708
  P. Shen, J. Song, B. Zhu

NCS TECHNOLOGY AND APPLICATION FOR AFRICA ....................................................................... 715
  J. Skogen

MATURE FIELD REVITALIZATION USING HORIZONTAL WELLS - CASE STUDY HASSI MESSAOUD OIL FIELD, ALGERIA .......................................................... 716
  A. Karim

GEL TREATMENT OF INJECTORS: MECHANISM, SIMULATION, AND FIELD PRACTICE ............ 717
  K. Fedorov, Y. Pavlov, V. Andreev, N. Khaitetdinov, Y. Kotenev

DRIVING VALUE THROUGHOUT THE UPSTREAM LIFE CYCLE .................................................... 718
  A. Coullaut, H. Kisker

RISK MINIMIZATION IN A FULLY STOCHASTIC DEVELOPMENT PLAN ON A MARGINAL FIELD OFFSHORE ANGOLA ................................................................................. 719
  T. Graf, H. Henrion, J. Fernandes, R. Bellavance

THREE COMPANIES IN LATIN AMERICA COLLABORATE TO EXECUTE AN INTEGRATED APPROACH TO ACHIEVE OPERATING EXCELLENCE ........................................ 731
  L. Bacigalupo, N. Navarrete, H. Borja

MICROBIAL DEGRADATION INFLUENCES ON HEAVY OIL CHARACTERS AND MEOR TEST ......................................................................................................................... 732
  T. Zhang, X. Chen, G. Lan, Z. Jiang

BLOCK 2 - DOWNSTREAM

RFP4 - DOWNSTREAM SUPPLY CHAIN OPTIMIZATION .................................................................. 739
  M. Gainsborough

RFP5 - CATALYTIC DISTILLATION .................................................................................................. 747
  G. Harmsen

RFP6 - NON-CONVENTIONAL ROUTES TO PETROCHEMICALS FROM NATURAL GAS - THE FUTURE .............................................................................................................. 759
  A. Holmen

F6 – LATEST IMPROVEMENTS IN REFINING BY CAT DEV

DEVELOPMENT AND COMMERCIAL APPLICATION OF CATALYSTS FOR RESID HYDROTREATING TECHNOLOGY (RHT) .................................................................................. 760
  L. Dai, C. Niu, Q. Yang, X. Liu, H. Nie, Y. Shi, D. Li
NOVEL CATALYSTS DESIGN FOR SELECTIVE CONVERSION OF ALKANES UNDER MILD CONDITIONS
V. Akhmedov, S. Al-Khowaiter .................................................................................................................. 770

LEVERAGING FCCU BENEFITS WITH CATALYST AND ADDITIVES
G. Ganesh, D. Jain ...................................................................................................................................... 781

PETROSA’S CONVERSION OF OLEFINS TO DISTILLATE (COD) RESEARCH PROGRAM
C. Knottenbelt, J. Ntshabele .................................................................................................................. 794

HYDROCRAKING CATALYST SELECTION
G. Yeh, W. Al-Naeem, A. Al-Abdulal .................................................................................................. 801

NEW GENERATION OF ISOCRACKING CATALYSTS
H. K. Timken, J. Mayer, A. Dahlberg, M. Habib, T. Muesen .................................................................... 813

VANADIUM OXIDE SUPPORTED ON KIESELGUHR, MCM-41 AND GAMMA-ALUMINA FOR
OXIDATIVE DEHYDROGENATION OF PROPANE INTO PROPENE

PERSPECTIVE CATALYSTS FOR MODERNIZING FCC AND CATALYTIC REFORMING
PROCESSES TO IMPROVE OPERATION AND PRODUCTS ENVIRONMENTAL QUALITY
M. Levinbuk, E. Kozyukov, V. Khavkin, V. Kapustin, A. Lebedev .......................................................... 829

AN INTEGRATED APPROACH FOR OIL INDUSTRY THROUGH HEAVY OIL CONVERSION,
HYDROGEN PRODUCTION, CO2 SEQUESTRION AND ENHANCED OIL RECOVERY

COMMERCIAL APPLICATION OF A NOVEL CATALYST FOR THE FIRST-STAGE
HYDROGENATION OF PYROLYSIS GASOLINE
Z. Xie, Z. Liu, W. Yang, H. Zong, R. Wang .......................................................................................... 838

ROLE OF FCC CATALYST IN CHINESE TRANSPORTATION FUELS PRODUCTION
H. Tian, J. Long ........................................................................................................................................ 844

MIP PROCESS FOR CLEAN GASOLINE AND PROPYLENE
J. Long, J. Zhang, Y. Xu .......................................................................................................................... 854

F7 – INNOVATIVE WAYS OF INCREASING EFFICIENCY

OPTIMIZATION EXPERIENCES IN REFINERY COOLING TOWER WATER SYSTEMS -
LESSONS LEARNED
A. Jaffer .................................................................................................................................................... 869

ENERGY SAVING IN REFINERY PLANTS AND ITS ENVIRONMENTAL IMPACT
M. Masri .................................................................................................................................................... 870

SEA COOLING WATER NEW TREATMENT PROCESS
G. Ganesh, S. Chaudhuri, V. Kathin ....................................................................................................... 875

PROVISION OF HIGH EFFICIENCY UTILITY BOILERS IN BPCL REFINERY, MUMBAI,
INDIA - A CASE STUDY
P. Padmanabhan, P. Amin ....................................................................................................................... 883

THE REFINERY OF THE FUTURE
A. Krishna .................................................................................................................................................. 892

PILOT - A SOFTWARE FOR DESIGNING ENERGY EFFICIENT SYSTEMS IN REFINERIES
AND PETROCHEMICAL INDUSTRIES
M. Panjeshahi ........................................................................................................................................... 897

HOW TO OPTIMIZE THE DOWNSTREAM REFINERY SECTOR IN LATIN AMERICA FOR
ITS FUTURE VIABILITY?
M. Moyana, M. Bria ................................................................................................................................... 917

IMPROVED BOILER FEED WATER TREATMENT PROGRAMME
V. Kathin, S. Pal, S. Chaudhuri ................................................................................................................. 928
CHEMICAL CHARACTERIZATION OF RESIDUE STREAM SAMPLES OBTAINED THROUGH MOLECULAR DISTILLATION FROM BRAZILIAN VACUUM RESIDUES ................................................................. 933
P. Shatie, C. Vasconcelos, C. Batistella, M. Maciel, R. Filho, A. Gomes, L. Medina, R. Kunert

UNDERSTANDING OPERATIONAL RISK IN PETROLEUM DOWNSTREAM: A REVIEW OF BEST PRACTICES TO REDUCE OPERATIONAL RISK ............................................................ 934
A. Patel

ENERGY OPTIMIZATION IN OIL REFINERY - CASE STUDY: CATALYTIC REFORMING UNIT .......................................................................................... 935
O. Ocie

ELEVATED TEMPERATURE EMBRITTLEMENT IN CAST 20CR32NI1NB ALLOY .......................................................... 946
J. Teixeira, G. Donato, L. Junior, C. Eckstein

HYDROGEN PURIFICATION IN HYDROPROCESSING .......................................................................................................................... 960
Y. Mehra, A. Al-Abdulal

F8 – MEETING THE GROWING HYDRO DEMAND IN REFINING

COST EFFECTIVE PRODUCTION OF NEAR-PURE HYDROGEN .......................................................................................................................... 971
E. Sprunt, J. Stevens, P. Atanassova, J. Shen, J. Rovner

NEW DEVELOPMENTS IN STEAM REFORMER DESIGN .......................................................................................................................................................................................... 979
Z. Abdin, S. Barendregt

NEW APPROACHES TO HYDROCRACKING TECHNOLOGIES .................................................................................................................................................. 985
Q. Peng, M. Guan

MEETING THE GROWING HYDROGEN DEMAND IN OIL REFINING ......................................................................................................................... 998
J. Alves

DEVELOPMENT OF IGCC TECHNOLOGY TAKING THE PARTIAL OXIDATION PROCESS AS A CORE .......................................................................................................................... 1009
D. Jiang, Z. Xiao, X. Yu

THE CANADIAN CLEAN POWER COALITION: INDUSTRY/GOVERNMENT PARTNERSHIP PROGRAM TO PRODUCE POWER AND HYDROGEN FROM COAL AND COKE WHILE CAPTURING, UTILIZING AND SEQUESTERING CO2 .......................................................................................................................................................................................................................................................... 1010
D. Plessis, R. Stobbs, P. Clark, J. Dinning

MULTI-FEED HDT REACTOR HIGH PERFORMANCE OPERATION .......................................................................................................................... 1011
E. Toledo, R. Filho

THERMODYNAMICS STUDY OF REFORMER IN HYDROGEN PLANTS BY MINIMIZATION OF FREE GIBBS ENERGY .......................................................................................................................... 1019
M. Torabi, M. Goharrokhi, K. Dehghani

IMPACT ON HYDROGEN CONSUMPTION OF DIFFERENT HYDROTREATING TECHNOLOGIES AND BRAZILIAN CRUDE OILS .......................................................................................................................... 1020
D. Belato, D. Monteiro, J. Duncan, C. Monteiro

F9 – C4 CHEMISTRY FOR FUELS AND PETROCHEMISTRY

MOL TEMPO 99 EVO - DEVELOPMENT AND PRODUCTION OF A PREMIUM GRADE ENVIRONMENTALLY FRIENDLY ULSG USING HIGH QUALITY ISOPARAFFINS AND OXYGENATES .......................................................................................................................... 1026
A. Hollo, L. Szirmai, G. Szalmas, J. Magyar

THE CHANGING WORLD OF C4 AND C5 REFINING .......................................................................................................................................................................................... 1036
J. Townsend

ADVANCES AND PROSPECTS OF ISOBUTANE ALKYLATION ON SOLID CATALYSTS .......................................................................................................................... 1045
J. Lercher, R. Olindo, C. Sievers

OPPORTUNITIES FOR PROPYlene PRODUCTION FROM C4+ METATHESIS IN DEVELOPING COUNTRIES .......................................................................................................................... 1060
M. Sugaya

RECENT ADVANCES IN THE OXIDATIVE ACTIVATION OF ISOBUTANE .......................................................................................................................... 1061
V. Corberan, Y. Vislovslyk

PETROBRAS MTBE UNIT RETROFIT TO ISOCTANE PRODUCTION .......................................................................................................................... 1062

PRODUCTION OF HIGH OCTANE ISOCTANE FOR AUTOMOBILE FUEL VIA DIMERIZATION OF BUTYLENES AND HYDROGENATION PROCESSES .......................................................................................................................... 1073
Z. Jin, W. Yang, Z. Xie
SYNTHESIS AND CHARACTERIZATION OF HIGHLY EFFICIENT TUNGSTEN SUBSTITUTED SBA-15 CATALYSTS FOR OLEFIN METATHESIS .......................................................... 1079
Y. Wang, W. Yang, Z. Xie

MATHEMATICAL MODEL AND EXPERIMENTAL TESTING OF A TWO-ZONE FLUIDIZED BED REACTOR FOR THE OXIDATION OF BUTANE TO MALEIC ANHYDRIDE .................................................. 1082
J. Gascon, C. Telliez, J. Herguido, H. Jakobsen, M. Menendez

LABORATORY STUDY OF FACTORS IMPACTING ON ISOBUTANE YIELD IN FCC .......................................................... 1096
U. Sedran, F. Passamonti, G. Puente

STEAMCRACKING OF NAPHTHA OVER ZSM-5 ZEOLITES MODIFIED BY BOTH CALCIUM AND MAGNESIUM CATIONS ............................................................................................................................... 1097
Y. Ji, Y. Yang

THE REGULARITIES OF ISOBUTANE DEHYDROGENATION WITH CO2 ON OXIDE CATALYSTS ............................................................................................................................... 1101
A. Mammadov, A. Aljodai, I. Ahmed

SULPHUR AND TRACE ELEMENTS IN FUELS BY ED-P-XRFS ............................................................................................................................... 1102
J. Shannon, M. Julsing

F10 – ADVANCES IN OLEFIN PRODUCTION

MEETING OLEFINS DEMAND IN A NOVEL FCC TECHNOLOGY ............................................................................................................................... 1104
H. Redhwi, T. Ino, Y. Fujiyama, K. Kleemeier, C. Dean, M. Al-Nemer, M. Abul-Hamayel, A. Maadhah

CLEAN FUELS AND PETROCHEMICALS AT SASOL VIA SUPERFLEXTM ............................................................................................................................... 1112
C. Eng, S. Heidenreich, S. Swart, F. Moeller

TECHNOLOGIES FOR FILLING THE PROPYLENE GAP ............................................................................................................................... 1123
J. Andersen

BITUMEN-DERIVED HEAVY GAS OILS AS FEEDSTOCK FOR PETROCHEMICALS ............................................................................................................................... 1142
P. Clark, D. Plessis, M. Oballa, C. Lareschen

PRODUCTION OF OLEFINS AND AROMATICS FROM ALBERTA’S OIL SANDS PLANTS ............................................................................................................................... 1153
D. Plessis, P. Clark

ADVANCES IN FCCU TECHNOLOGY FOR THE PRODUCTION OF OLEFINs ............................................................................................................................... 1168
D. Lawler, W. Letzsch, F. Dhaidan

MECHANISTIC MODELING OF THE PYROLYSIS OF N-HEPTANE: DEVELOPMENT OF A CHEMICAL COMPILER ............................................................................................................................... 1184
K. Latinwo, O. Bello, T. Afolabi, D. Aribike

TECHNICAL DEVELOPMENT IN THE PRODUCTION OF LIGHT OLEFINS BY USING METHANOL ............................................................................................................................... 1185
H. Liu, Z. Xie

USING CERAMIC ROD IN REACTOR PYROLYSIS FOR STEAM CRACKING HYDROCARBONS ............................................................................................................................... 1191
R. Karimzadeh, J. Towfighi, H. Zimmerman

PRODUCTION OF PROPYLENE FROM C4 OLEFINS BY CATALYTIC CRACKING - THE EFFECT OF ZSM-5 ZEOLITE CRYSTAL SIZES ............................................................................................................................... 1199
J. Teng, G. Zhao, Z. Xie, Q. Chen

CATALYTIC PYROLYSIS OF HEAVY OILS FOR LIGHT OLEFIN PRODUCTION ............................................................................................................................... 1202
X. Meng, C. Xu, J. Gao

PETROCHEMICALS INDUSTRY (OLEFINS AND AROMATICS): OPPORTUNITIES AND CHALLENGES IN INDONESIA FOR 2007 ............................................................................................................................... 1203
S. Armansyah

METHANE CONVERSION TO HIGHER HYDROCARBONS BY ELECTRICAL PLASMA: EXPERIMENTAL STUDIES ............................................................................................................................... 1204
M. Khodagholi, N. Matin, T. Hadjighasemi

THE SIGNIFICANCE OF UPGRADING CONSUMPTION OF HYDROCARBON SOURCES AS PETROCHEMICALS FEED ............................................................................................................................... 1205
M. Peyvandi

DOUBLE RISER FCC - AN OPPORTUNITY FOR THE PETROCHEMICAL INDUSTRY ............................................................................................................................... 1206
A. Pinho, J. Ramox, J. Castillero, P. Neto

REDUCING FCC GASOLINE OLEFIN AND ENHANCING PROPYLENE YIELD WITH FDFCC PROCESS ............................................................................................................................... 1207
F. Meng, L. Wang, H. Tang
BLOCK 3: NATURAL GAS & RENEWABLES

NATURAL GAS AND ALTERNATIVE TECHNOLOGIES AS TOOLS FOR A NEW US GAS SECURITY STRATEGY .......................................................... M. Kenderdine 1214

RFP7 - NATURAL GAS SUPPLY AND DEMAND: GETTING THE BALANCE RIGHT ........................................ P. Sauquet 1233

RFP8 - COAL BED METHANE PRODUCTION & CO2 STORAGE: THE WIN-WIN ASSOCIATION? .......................................................... J. Gatens, W. Gunter 1241

RFP9 - GAS TO LIQUIDS: A PROVEN ROUTE FOR MONETIZING GAS? .......................................................... G. Courvaras 1252

F11 – NATURAL GAS & AFRICA – A GROWING ROLE & IMPACT

THE ANGOLA LNG PROJECT .............................................................................................................. A. Orafo, C. Miller 1253

FLOATING GAS TO LIQUIDS - A SOLUTION TO OFFSHORE STRANDED GAS ........................................ W. Hatton, J. Holmes 1254

AFRICA IN THE FUTURE ATLANTIC & MEDITERRANEAN MARKETS ................................................. J. Privey 1261

RAISING FINANCE FOR AFRICAN GAS-RELATED PROJECTS: LESSONS FROM NIGERIA ............... V. Eromosele 1263

STRATEGY OF ENERGY INFRASTRUCTURES DEVELOPMENT: CASE OF ALGERIA ...................... M. Hanouti, A. Ainouche 1271

TRANS SAHARAN GAS PIPELINE PROJECT: A VEHICLE FOR PROGRESS AND SUSTAINED DEVELOPMENT .................................................. A. Ainouche 1274

F12 – RENEWABLES – STATUS & EXPECTED IMPACT

CRITICAL ENERGY ISSUES AND CHALLENGES IN EMERGING SCENARIO OF NEW WORLD ENERGY ORDER - A RADICAL TRANSITION FROM CARBON ENERGY TO SUSTAINABLE RENEWABLE ENERGY PORTFOLIO ...................... J. Giri 1278

BIOFUELS: BIO-DIESEL & BIO-ETHANOL .......................................................................................... S. Reimelt 1279

ALGERIA AND THE PROMOTION OF THE RENEWABLE ENERGIES ................................................. B. Malek, A. Ainouche 1280

BIO FUELS AS BLENDING COMPONENTS FOR TRANSPORTATION FUELS ........................................ S. Bansal, N. Raje, R. Malhotra 1285

SOLAR POWER: READY FOR TAKE-OFF? .......................................................................................... G. Cochevelou 1295

RENEWABLE HYDROGEN ENERGY SYSTEMS .................................................................................. I. Hexeberg, E. Hagen 1307

RENEWABLES AS AN ALTERNATIVE ENERGY SOURCE TO OIL ..................................................... A. Otunyo 1315

ALTERNATIVE FUELS FOR SUSTAINABLE MOBILITY ........................................................................ U. Balfanz 1316

HOW TO SAVE THE WORLD: A ROADMAP TO MAXIMIZING THE SOCIAL BENEFITS OF R&D SPENDING FOR CLEANER TRANSPORTATION FUELS ......................................................................... A. Alharthi, M. Alfehaid 1317

F13 – SUPPLYING THE NATURAL GAS DEMAND – A GLOBAL CHALLENGE

IMPACT ON GLOBAL LNG MARKETS OF BALANCING THE NORTH AMERICAN NATURAL GAS MARKET .................................................................................................................. L. Schell 1318
CHALLENGES FACING THE LIBERALIZATION OF THE EUROPEAN GAS MARKETS: A SELLER'S PERSPECTIVE ................................................................. Abdelhakim Ainouche, Abdelkrim Ainouche

MEETING NATURAL GAS DEMAND: GLOBAL AND REGIONAL CHALLENGES ................................................................. Abdelkrim Ainouche

VOLUME 3

RASGAS AND THE STATE OF QATAR - DEVELOPING THE LNG SUPPLY CHAIN ................................................................. 1343 J. Wolahan

GLOBAL NATURAL GAS DEMAND IS SET TO CONTINUE INCREASING ................................................................. 1346 P. Lindberg

MARKET DEVELOPMENT ANALYSIS FOR THE BRAZILIAN GAS DISTRIBUTION CASE: CNG ANTICIPATING PIPELINE NETWORK GAS SUPPLY ................................................................. 1357 L. Poli, S. Cheroto, J. Hijjar, N. Brasil

OIL AND GAS EXPLORATION AND DEVELOPMENT IN TARIM BASIN AND THE RESOURCE OF WEST-TO-EAST PIPELINE PROJECT ................................................................. 1367 L.-D. Sun, W.-J. Song, T.-W. Jiang

NATURAL GAS TRANSPORTATION, NGH OR LNG ................................................................. 1376 J. Javanmardi, K. Nasrifar, M. Moshfeghian, H. Najibi

REALIZING THE POTENTIALS OF AFRICA'S GAS RESERVES AND MEETING GLOBAL ENERGY DEMAND: CHALLENGES AND OPPORTUNITIES ................................................................. 1390 S. Igbatayo, P. Imoudu

THE RESERVE POTENTIAL AND THE PROSPECT OF COAL BED METHANE (CMB) IN WESTERN GUIZHOU AND EASTERN YUNNAN OF CHINA ................................................................. 1402 Y. Chen, C. Guo, W. Dou

AN OPTION FOR GAS-TO-LIQUIDS (GTL) TECHNOLOGY IN SARIR OIL FIELD OF LIBYA ................................................................. 1411 I. Ahmad, R. Mansour, A. Gerrard

VIRTUAL GAS DISTRIBUTION INVESTMENTS AND THE RISE OF BRAZILIAN NATURAL GAS MARKET ................................................................. 1412 A. Da Silva Filho, E. Dos Santos

SHIPPING COMPRESSED NATURAL GAS FROM NORTH SEA REGION TO POLISH GAS MARKET ................................................................. 1413 A. Piwowarski, S. Trzop

THE LARGE GENESIS - SPECIAL NATURAL GAS DEPOSIT IN DEEP VOLCANO AND NON-TYPICAL SEDIMENTARY ROCKS IN SONGLAO BASIN OF CHINA ................................................................. 1414 Z. Min-Zhi, W. Cheng, J. Hong-Qi, Y. Dan, S. Xian-Da, M. Qing-Yun, S. Guang-Zheng

F14 – EVOLUTION OF THE LNG MARKET – BETWEEN CONSTRAINTS & REWARDS

NEW LNG RECEIVING TERMINAL CONCEPTS ................................................................. 1423 B. Ertl, C. Durr, D. Coyle, I. Mohammed, S. Huang

CHALLENGES AND OPPORTUNITY IS FOR LNG SUPPLY IN DEVELOPING MARKETS – INDIAN PERSPECTIVE ................................................................. 1440 S. Sharma

THE GLOBAL LNG INDUSTRY - CHANGED MARKET DYNAMICS ................................................................. 1449 D. Small

ALGERIAN LNG – A CENTRAL ROLE IN THE NEW INTERNATIONAL SCENE ................................................................. 1460 A. Benhamadi, A. Ainouche, K. Aissaoui

CHEVRON - TURNING PARTNERSHIP INTO ENERGY ................................................................. 1466 A. Setters

OFFSHORE CONCRETE LNG IMPORT TERMINALS ................................................................. 1471 S. Bredahl

EVOLUTION OF THE LNG MARKET AND ITS COMPETITION WITH GTL ................................................................. 1484 Abdelhakim Ainouche, Abdelkrim Ainouche, N. Tiab

THE FUTURE OF LNG BUSINESS - REALITY AND PERSPECTIVES ................................................................. 1489 B. Abdelaziz
BLOCK 4 – MANAGING THE INDUSTRY

RFP10 – SHAPING THE FUTURE THROUGH R&D?
O. Appert

RFP11 - KNOWLEDGE MANAGEMENT
A. Rostand

KNOWLEDGE MANAGEMENT IN BP’S E&P SEGMENT – THE KEY TO BUSINESS SUCCESS:
BEST IN CLASS AND BEYOND
M. Bowman

RFP12 - WATER MANAGEMENT
C. Guimaraes

RFP12 - WATER MANAGEMENT
P. Hardisty

F16 – REVENUE TRANSPARENCY

TRANSPARENCY INITIATIVES: STRATEGIES FOR ENERGY COMPANIES IN WEST AFRICA
M. Enfield

TRANSPARENCY - A KEY TO BUSINESS SUCCESS
L. Varro, G. Masonyi

REVENUE TRANSPARENCY, NATIONAL SOVEREIGNTY AND AUTHORITATIVE GOVERNMENT: ANY WAY OUT OF THE DILEMMA?
B. Nwete

DESIGNING PETROLEUM CONTRACTS AND EMERGING PRINCIPLES OF INTERNATIONAL LAW
S. Brabant, H. Smith

REVENUE TRANSPARENCY AND THE EXTRACTIVE INDUSTRIES TRANSPARENCY INITIATIVE
A. D’Intignano, M. Levitsky

VALUING OIL AND GAS FIELD PROJECTS WITH REAL OPTIONS
P. Jansen

TRANSPARENCY AND DEBT COST REDUCTION - THE PETROBRAS CASE
R. Freitas

"PRESTIGE" FUEL RECOVERY AT 4000 METERS WATER DEPTH
C. Berenguer, A. Del Corral, R. Paez, J. Sparrowe, J. Moro, R. Hernan

F17 – HSE ASPECTS OF MARINE TRANSPORTATION

HSE ASPECTS OF MARINE TRANSPORTATION IN THE GULF AREA
K. Helal

SAFE TRANSPORTATION SYSTEMS
P. Markides

NATURAL GAS AND SHIPPING - DEVELOPMENT OF TRANSPORT CONCEPTS
T. Staalstrom, H. Madsen

THE MIDDLE EAST TRANSPORTATION FUELS: CURRENT DEVELOPMENT AND FUTURE CHALLENGES
U. Alghamdi

EMERGING TRENDS IN HSE COMPETENCE DEVELOPMENT IN SHELL PETROLEUM DEVELOPMENT COMPANY OF NIGERIA LIMITED (SPDC)
V.-C. Nwafor

GEOCHEMISTRY OF ZN AND NI AND THE SEDIMENTATION RATE IN THE BAY OF GORGAN, ADJACENT TO THE CASPIAN SEA
A. Talebi, A. Karbassi, A. Amirnejad

IMPACT OF OIL SPILLS ON MOSQUITO BIOLOGY IN THE UTOROGU FIELD OF THE WESTERN NIGER DELTA
C. Ozumba, J. Udonsi
EFFECTIVE INFORMATION MANAGEMENT IN ENVIRONMENTAL IMPACT ASSESSMENT OF LARGE PIPELINE PROJECTS IN REMOTE ENVIRONMENTS: CASE STUDIES AND SUCCESSES ................................................................. 1626
D. Kerr, R. Wyngaarden

DEVELOPMENT OF AUTOMATIZED COATING OPERATIONS ON CORRODED SURFACES ...................... 1627
B. Abreu

ANALYZING OIL POLLUTION OF SHIPS BALLAST WATER IN THE IRANIAN SHORES OF THE CASPIAN SEA AT BANDAR ANZALI REGION ................................................................. 1628
A. Ghorbaninedjad, M. Emtyazjoo

HSE Q CHALLENGES & OPPORTUNITIES .............................................................................................. 1644
E. Roayaei

F18 – TECH OPTIONS TO ADDRESS GREENHOUSE GAS EMISSIONS

ADDRESSING GREEN HOUSE GAS EMISSIONS THROUGH CO-GENERATION TECHNOLOGY .............................................................................................................................. 1645
M. Dashash, R. Mahfoudhi

GREENHOUSE GAS MANAGEMENT THROUGH FLARING REDUCTION .................................................. 1652
J. Shinn, J. Grant, A. Peterhans

ADVANCING GLOBAL CONSISTENCY IN ESTIMATING GREENHOUSE GAS EMISSIONS FROM OIL AND GAS INDUSTRY OPERATIONS ........................................... 1658

GHG EMISSIONS FROM ROAD TRANSPORT: A EUROPEAN PERSPECTIVE ........................................ 1669
J.-F. Larive

WIN-WIN: ENHANCED OIL RECOVERY AND CO2 STORAGE AT ENCANA’S WEYBURN OILFIELD ................................................................................................................................. 1683
G. Protti

CARBON DIOXIDE CAPTURE AND GEOLOGICAL STORAGE: CONTRIBUTING TO CLIMATE CHANGE SOLUTIONS ................................................................................................. 1690
H. Kheshgi, T. Stileman, F. Cappelen, S. Crookshank, A. Heilbrunn, A. Lee, T. Mikus, W. Robson, B. Senior

THE IMPACT OF ABANDON HARD-COAL MINES PROCESSES IN THE SILESIAN COAL BASIN (POLAND) ON GREENHOUSE GASES POLLUTION ........................................ 1698
S. Nagy, S. Rychlicki, J. Siemek

CONTRIBUTION OF THE ALGERIAN EXPERIENCE IN THE REDUCTION OF GREENHOUSE GAS EMISSIONS .......................................................................................................................... 1710
A. Ainouche, B. Malek

THE CANADIAN CLEAN POWER COALITION: INDUSTRY/GOVERNMENT PARTNERSHIP PROGRAM TO PRODUCE POWER AND HYDROGEN FROM COAL AND COKE WHILE CAPTURING, UTILIZING AND SEQUESTERING CO2 .......................................................................................................................... 1713
D. Plessis, R. Stobbs, P. Clark, J. Dinning

TECHNOLOGY OPTIONS TO REDUCE GREENHOUSE GAS EMISSIONS IN LATIN AMERICA AND THE CARIBBEAN .............................................................................................................. 1714
M. Moyano, V. Schmall, I. Saetre, A. Lee, J. Martin, J. Bocanegra, L. Velasco

CO2 CAPTURE PROJECT - RESULTS PHASE 1 AND UPDATE .................................................................. 1726
L. Eide

BEST PRACTICES FOR GREENHOUSE GAS REDUCTION IN EXPLORATION AND PRODUCTION ACTIVITIES .................................................................................................................. 1733
R. Sherman

GAS TO LIQUIDS LIFE CYCLE ASSESSMENT SYNTHESIS REPORT ......................................................... 1734
F. Goede

PETROBRAS TECHNOLOGICAL DEVELOPMENT FOR CLIMATE CHANGE MITIGATION ........................ 1735

F19 – SUSTAINABILITY REPORTING INITIATIVES

INTERNATIONAL STANDARDS AND THE TRIPLE BOTTOM LINE: THE CONTRIBUTION OF ISO ................................................................................................................................. 1741
A. Bryden

BP’S APPROACH TO SUSTAINABILITY REPORTING – DEFINING OUR PATH ........................................ 1747
B. Doyle
CORPORATE SUSTAINABILITY REPORTING – EFFECTIVE DISCLOSURE FOR THE FUTURE ........................................................................................................................................ 1759
D. Shirley, G. Molenkamp

PETROBRAS EXPERIENCE AND THE GLOBALLY RESPONSIBLE LEADERSHIP COALITION ........................................................................................................................................ 1771
M. Filho, I. Braga, C. Bouchet, V. Smith

IMPACT OF SUSTAINABILITY MEASURES ON HALLIBURTON ........................................................................................................................................ 1782
P. Cook, R. Sherman

CHALLENGES FOR THE FINANCIAL SECTOR - THE LIMITS OF TRANSPARENCY ........................................................................................................................................ 1783
R. Burrett

PAST AND FUTURE FRAMEWORKS FOR SUSTAINABILITY REGIMES ........................................................................................................................................ 1784
M. Dorsey

SUSTAINABLE DEVELOPMENT AND THE REGULATION/DEREGULATION OF THE NIGERIAN PETROLEUM SECTOR: ISSUES AND CHALLENGES ........................................................................................................................................ 1785
A. Amadasun

NEW SET OF INTERNATIONAL STANDARDS FOR THE OIL AND GAS SECTOR, DELIVERED BY ISO/TC 67 ........................................................................................................................................ 1786
A. Samne, N. Reeve

THE EUROPEAN NETWORK TRENDS - QHSE AND CSR ISSUES: IDENTIFIED CHALLENGES AND RESPONSES INITIATED ........................................................................................................................................ 1787
O. Flagstad, N. Clewes, S. Selmer-Olsen

IMPLEMENTING SUSTAINABILITY - A CONTRACTORS PERSPECTIVE ........................................................................................................................................ 1790
K. Saugier

OFFSETTING CORPORATE IMPACT ON BIODIVERSITY ........................................................................................................................................ 1791
A. Blundell, R. Gullison, J. Hardner, T. Burkey

F20 – THE ROLD OF BUSINESS IN ZONES OF CONFLICT THROUGH STAKEHOLDER INVOLVEMENT

REDUCING THE CONFLICT OF E&P OPERATIONS IN THE AMAZONIAN BASIN THROUGH INDIGENOUS PEOPLES INVOLVEMENT ........................................................................................................................................ 1792
M. Moyano

PRACTICAL OPTIONS FOR GETTING THE ABOVE-GROUND ISSUES RIGHT: LESSONS LEARNED FROM WORKING IN ZONES OF CONFLICT ........................................................................................................................................ 1802
L. Zandviliet

NIGER DELTA COASTAL DEVELOPMENT INITIATIVE ........................................................................................................................................ 1808
B. Knight

THE CASE FOR TRANSPARENCY: HOW THE EXTRACTIVE INDUSTRIES TRANSPARENCY INITIATIVE (EITI) CAN HELP REDUCE CONFLICT ........................................................................................................................................ 1823
B. Mellor

PLENARY SESSIONS & KEYNOTES

CLOSING ADDRESS 29.09.2005 ........................................................................................................................................ 1832
E. Roeren

BUILDING TRUST IN ZONES OF CONFLICT: “WHERE PRINCIPLES AND PRACTICE MEET TO CREATE SUCCESS” ........................................................................................................................................ 1836
J. Shaw, E. Mendez, A. Zamora

CLOSING REMARKS FOR CLOSING CEREMONY OF THE 18TH WORLD PETROLEUM CONGRESS ........................................................................................................................................ 1844
M. Mjekula

DEWHURST LECTURE ........................................................................................................................................ 1846
L. Browne

CORPORATE GOVERNANCE – THE FACTORS THAT INFLUENCE THE IMAGE OF THE INDUSTRY ........................................................................................................................................ 1854
E. Reiten

SHAPING THE ENERGY FUTURE: THE ROLE OF SAUDI ARABIA ........................................................................................................................................ 1857
H. Al-Naimi

OPEC-IEA COOPERATION AND THE INTERNATIONAL OIL MARKET OUTLOOK ........................................................................................................................................ 1862
Shihab-Eldin
OPENING CEREMONY
H. Desiderio Da Costa

OPENING SPEECH
E. Roren

SPEECH BY MINISTER OF MINERALS AND ENERGY, MRS LINDIWE HENDRICKS AT 18TH WORLD PETROLEUM CONGRESS – OPENING CEREMONY
L. Hendricks

ADDRESS OF THE PRESIDENT OF SOUTH AFRICA, THABO MBeki, AT THE OPENING CEREMONY OF THE 18TH WORLD PETROLEUM CONGRESS: NORTHGATE, JOHANNESBURG
T. Mbeki

SPEECH BY MR AYANDA MJEKULA - CHAIRPERSON FOR THE SOUTH AFRICAN NATIONAL COMMITTEE FOR WPC
A. Mjekula

LIBYA'S SPEECH
F. Shatwan

THE AFRICAN PERSPECTIVE
P. Davies

THE AFRICAN PERSPECTIVE
M. Meziane

PLENARY 2: THE GLOBAL OIL PERSPECTIVE
R. Tilleret

DELIVERING THE PROMISE OF NATURAL GAS IN THE 21ST CENTURY
J. Gass

SUSTAINABILITY OF SUPPLY?
J. Van Der Veer

SPECIAL YOUTH SESSION

CHINA OFFSHORE OIL INDUSTRY ON THE RISE
S. Zhou

CURRENT STATUS AND PROSPECTS OF ONSHORE OIL-GAS EXPLORATION AND DEVELOPMENT IN CHINA
C. Jia

PETROLEUM REFINING & PETROCHEMICAL TECHNOLOGIES IN CHINA
J. Wang

STATUS QUO, PAST AND FUTURE OF CHINA'S OIL IMPORT & EXPORT
L. Hui

CHINESE PETROLEUM INDUSTRY APPROACHING SUSTAINABLE DEVELOPMENT
Y. Wu

PIPELINE MANAGEMENT IN THE 21ST CENTURY
C. Szilassy

NEW DEVELOPMENTS IN HYDROGEN PERMEATION MEASUREMENTS AND CORROSION MONITORING IN PETROLEUM INDUSTRY
H. Ponte, A. Maul, P. Silva

THE ECONOMICS OF EXPLORATION ON THE NORWEGIAN CONTINENTAL SHELF
M. Kvaal, B. Henriksen, T. Sorenes

LIVING A PHILOSOPHY - COALBED METHANE DEVELOPMENT IN CANADA
W. Gourley

AN ELEMENT BASED CONSERVATIVE SCHEME USING UNSTRUCTURED GRIDS FOR RESERVOIR SIMULATION
J. Cordazzo, C. Maliska, A. Silva, F. Hurtado

GLOBAL AND REGIONAL PROSPECTIVE OF NATURAL GAS EXPLORATION & DEVELOPMENT
S. Lone

NEW TECHNOLOGY FOR SUSTAINABLE PETROLEUM INDUSTRY WASTE DISPOSAL
L. Maurovic, D. Karasalihovic, S. Koscak

SCIENTIFIC PLANNING AND INNOVATIVE THINKING HSE MANAGEMENT OF WEPP BY REFERRING TO INTERNATIONAL PRACTICE
J. Changliang

Author Index
