Welcome Message from the Chairs of WICSA, QoSA and CBSE

Conference Organization

Joint Program Committee of WICSA, QoSA and CBSE 2016

Performance Analysis

Estimating Response Time Percentiles of Cloud-Based Tiered Web Applications in Presence of VM Failures

Olivia Das and Arindam Das

Using Performance Models for Planning the Redeployment to Infrastructure-as-a-Service Environments: A Case Study

Sebastian Lehrig and Steffen Becker

Retargetable Communication for Distributed Programs

Oren Freiberg, Jens Palsberg, and Mahdi Eslamimehr

Modeling for Quality 1

AQAF: An Architecture Quality Assurance Framework for Systems Modeled in AADL

Andreas Johnsen, Kristina Lundqvist, Kaj Hänninen, Paul Pettersson, and Martin Torelm

Modeling the Failure Pathology of Software Components

João M. Franco, Frederico Cerveira, Raul Barbosa, and Mário Zenha-Rela

Design Decisions 2

Considering Not-Quantified Quality Attributes in an Automated Design Space Exploration

Axel Busch and Anne Koziolek
Working Session: Modeling for Quality 2
An Architecture-Aware Approach to Hierarchical Online Failure Prediction ........................................60
Teerat Pitakrat, Dusăn Okanović, André Van Hoorn, and Lars Grunske

Cloud Computing
Fuzzy Self-Learning Controllers for Elasticity Management in Dynamic Cloud Architectures .................................................................70
Pooyan Jamshidi, Amir Sharifloo, Claus Pahl, Hamid Arabnejad, Andreas Metzger, and Giovani Estrada

Software Components Deployability 1
Considering Transient Effects of Self-Adaptations in Model-Driven Performance Analyses ..................................................................................................................80
Christian Stier and Anne Koziolek

Working Session: Software Components Deployability 2
Analysing Evolution of Work and Load ........................................................................................................................90
Gunnar Brataas, Erlend Stav, and Sebastian Lehrig

Internet of Things
Energy-Aware Adaptive Techniques for Information Diffusion in Ungoverned Peer-to-Peer Networks ........................................................................................................96
Lorenzo Pagliari, Raffaela Mirandola, Diego Perez-Palacin, and Catia Trubiani

Working Session: Software Ecosystems and Variability
Optimization of Deployment Topologies for Distributed Enterprise Applications ...................................106
Felix Willnecker and Helmut Krcmar

Author Index ..........................................................................................................................116
