Message from the General Chair

Message from the Program Co-Chairs

Message from the WETICE 2016 Co-Editors

WETICE Conference: The First 25 Years

by Sumitra M. Reddy and Y.V. (Ramana) Reddy

Conference Organizers

Steering Committee

ACEC 2016 Track Organization

AROSA 2016 Track Organization

CDCGM 2016 Track Organization

CoMetS 2016 Track Organization

CPS 2016 Track Organization

CSP 2016 Track Organization

FISA 2016 Track Organization

FVSBS 2016 Track Organization

VSC 2016 Track Organization

Web2Touch 2016 Track Organization
ACEC 2016: Adaptive Computing (and Agents) for Enhanced Collaboration

Giacomo Cabri and M. Brian Blake

Towards an Integrated Platform for Adaptive Socio-technical Systems for Smart Spaces

Giacomo Cabri, Massimo Cossentino, Enrico Denti, Paolo Giorgini, Ambra Molesini, Monica Mordonini, Michele Tomaiuolo, and Luca Sabatucci

Towards a Distributed Worker-Job Matching Architecture for Crowdsourcing

Julian Jarrett and M. Brian Blake

AROSA 2016: Adaptive and Reconfigurable Service-Oriented and Component-Based Applications and Architectures

Arosa Track Report

Slim Kallel, Khalil Drira, and Mohamed Jmaiel

A Bigraphical Modeling Methodology for Multi-scale Reconfigurable Systems

Amal Gassara and Ismael Bouassida Rodriguez

Towards an Autonomic Outsourcing to the Cloud Decision

Mouna Rekik, Khouloud Boukadi, and Hanène Ben-Abdallah

Adapting Security Policy at Runtime for Connected Autonomous Vehicles

Hassan Loulou, Sebastien Saudrais, Hassan Soubra, and Cherif Larouci

On Capturing and Quantifying Social Qualities in Business Processes

Zakaria Maamar, Hakim Hacid, Emir Ugljanin, and Mohamed Sellami

A Two-Step Clustering Approach for Improving Educational Process Model Discovery

Hanane Ariouat, Awatef Hicheur Cairns, Kamel Barkaoui, Jacky Akoka, and Nasser Khelifa

A Refinement-Based Approach for Proving Distributed Algorithms on Evolving Graphs

Faten Fakhfakh, Mohamed Tounsi, Ahmed Hadj Kacem, and Mohamed Mosbah

Semantic Run-Time Models for Self-Adaptive Systems: A Case Study

Francesco Poggi, Davide Rossi, Paolo Ciancarini, and Luca Bompani

Multiple Software Product Lines for Service Oriented Architecture

Akram Kamoun, Mohamed Hadj Kacem, and Ahmed Hadj Kacem

An Avatar-Based Adaptation Workflow for the Web of Things

Mehdi Terdjimi, Lionel Médini, Michael Mrissa, and Nicolas Le Sommer
Energy-Aware Service Orchestration Based on Temporal Reconfigurable Architecture

Emna Hosni and Zaki Brahmi

Towards Accurate Medical Data in Mobile Health Applications

Lamia Ben Amor and Imene Lahyani

**CDCGM 2016: Convergence of Distributed Clouds, Grids and Their Management**

Track Chair’s Report: Convergence of Distributed Clouds, Grids, and Their Management CDCGM 2016

Fabrizio Messina, Rao Mikkilineni, and Giovanni Morana

Parallelizing DBSCaN Algorithm Using MPI

Ilias K. Savvas and Dimitrios Tselios

Per-Service Security SLA: A New Model for Security Management in Clouds

Valentina Casola, Alessandra De Benedictis, Jolanda Modic, Massimiliano Rak, and Umberto Villano

Agent Technology, Superrecursive Algorithms, and DNA as a Tool for Distributed Clouds and Grids

Mark Burgin and Rao Mikkilineni

Evaluation of Traffic-Aware VM Placement Policies in Distributed Cloud Using CloudSim

Raja Benali, Hana Teyeb, Ali Balma, Samir Tata, and Nejib Ben Hadj-Alouane

ASSDN: A Framework for Adaptive Strategies for Software-Defined Networking

Giovanni Cammarata, Antonella Di Stefano, Giovanni Morana, and Daniele Zito

Towards an Infrastructure to Support Big Data for a Smart City Project

Eliza Gomes, M.A.R. Dantas, Douglas D.J. de Macedo, Carlos De Rolt, Marcelo Luiz Brocardo, and Luca Foschini

A New QoC-Based Approach for Resource Allocation in Distributed Systems

André D’Amato, Mario Dantas, and Douglas D.J. de Macedo

**CoMetS 2016: Collaborative Modeling & Simulation**

Andrea D’Ambrogio, Gregory Zacharewicz, and Daniele Gianni

Volunteer Computing Approach for the Collaborative Simulation of Electrophysiological Models

Joel Castro, Violeta Monasterio, and Jesús Carro
A BPMN-Based Automated Approach for the Analysis of Healthcare Processes
G. Antonacci, A. Calabrese, A. D'Ambrogio, A. Giglio, B. Intrigila, and N. Levialdi Ghiron

Developing an Enterprise Operating System (EOS) - Requirements and Architecture
Joseph Rahme Youssef, Gregory Zacharewicz, and David Chen

Physics Engine Threading Design and Object-Scalability in Virtual Simulation
Sean C. Mondesire, Douglas B. Maxwell, and Jonathan Stevens

Scaling of Distributed Multi-simulations on Multi-core Clusters
Cherifa Dad, Stephane Vialle, Mathieu Caujolle, Jean-Philippe Tavella, and Michel Ianotto

Integrating SysML with Simulation Environments (Simulink) by Model Transformation Approach
Bassim Chabibi, Abdelilah Douche, Adil Anwar, and Mahmoud Nassar

CPS 2016: Capacity-Driven Processes and Services for Cyber Physical Society
CPS 2016 Track Report: Capacity-Driven Processes and Services for Cyber Physical Society
Zhangbing Zhou

BPMN4CPS: A BPMN Extension for Modeling Cyber-Physical Systems
Imen Graja, Slim Kallel, Nawal Guermouche, and Ahmed Hadj Kacem

CSP 2016: Collaborative Software Processes
Collaborative Software Processes: Summary and Preface (Track Report)
Yassine Jamoussi and Bernard Coulette

Off-Line DVFS Integration in MDE-Based Design Space Exploration Framework for MP2SoC Systems
Manel Ammar, Mouna Bahlouti, Maxime Pelcat, Karol Desnos, and Mohamed Abid

A Metamodel for MDE Process Model-Products Relationships
Ibrahima Fall and Samba Diaw

FISA 2016: Future Internet Services and Applications
Track Report of Future Internet Services and Applications (FISA'2016)
Riadh ben Halima, Anderson Santana de Oliveira, and Mohamed Sellami
An Attack Pattern Framework for Monitoring Enterprise Information Systems
Mohammad Ashiqur Rahaman, Cédric Hebert, and Jürgen Frank
Security Requirements in Web Service Composition: Formalization, Integration, and Verification ................................................................. 179
Ilyass El Kassmi and Zahi Jarir

Context Management and Distribution Architecture Using Software-Defined Networking .................................................................................. 185
Madalena Pereira da Silva, Débora Cabral Nazário, M.A.R. Dantas, Alexandre Leopoldo Gonçalves, A.R. Pinto, Guilherme Manerichi, and Bruno Vanelli

FVSBS 2016: Formal Verification of Service-Based Systems
Track Report for Formal Verification of Service Based Systems: FVSBS 2016 ............................................................... 191
Mohamed Graiet and Kais Klia

UML2.0 Formalization and Acme Verification of the Qualitative Properties of Software Architectures ............................................................. 192
Sakka Rouis Taoufik, Bhiri Mohamed Tahar, Knimech Mourad, and Moussa Faouzi

VSC 2016: Validation of Safety Critical Collaboration Systems
VSC Track at WETICE 2016: Summary Report and Preface .......................................................... 198
Andrea Calvagna, Andrea Fornaia, and Emiliano Tramontana

Model Checking to Support Action Controls in the Purchasing Process ................................................................................................. 199
Vittoria Nardone, Domenico Raucci, and Antonella Santone

Making Android Apps Data-Leak-Safe by Data Flow Analysis and Code Injection .................................................................................. 205
Giuseppe Ascia, Vincenzo Catania, Raffaele Di Natale, Andrea Fornaia, Misael Mongiovì, Salvatore Monteleone, Giuseppe Pappalardo, and Emiliano Tramontana

Conformance Testing for Non-deterministic Timed Pushdown Automata with Deadlines ........................................................................... 211
Hana M’Hemdi, Jacques Julliand, Pierre-Alain Masson, and Riadh Robbana

Web2Touch 2016: Evolution and Security of Collaborative Web Knowledge
Web2Touch 2016: Evolution and Security of Collaborative Web Knowledge ................................................................. 214
Olga Nabuco, Rodrigo Bonacin, Mariagrazia Fugini, and Riccardo Martoglia

Intention-Based Information Retrieval of Electronic Health Records ................................................................................................. 217
Julio Cesar Dos Reis, Rodrigo Bonacin, and Edemar Mendes Perciani

Designing a Collaborative Middleware for Semantic and User-Aware Service Composition .................................................................................. 223
Giacomo Cabri, Riccardo Martoglia, and Franco Zambonelli
LODS: A Linked Open Data Based Similarity Measure ................................................................. 229
  Nasredine Cheniki, Abdelkader Belkhir, Yacine Sam, and Nizar Messai

A Model of Provenance Applied to Biodiversity Datasets .......................................................... 235
  Flor K. Amanqui, Tom De Nies, Anastasia Dimou, Ruben Verborgh,
  Erik Mannens, Rik Van De Walle, and Dilvan Moreira

An Ontological Approach for Run-Time Safety Management in Smart Work Environments ................................................................. 241
  Mahsa Teimouri, Mariagrazia Fugini, and Enrico Zio

Increasing Open Government Data Transparency with Spatial Dimension ................................ 247
  Nicoletta Dessì, Gianfranco Garau, Diego Reforgiato Recupero, and Barbara Pes

A Novel Approach for Semantic Web Service Discovery ............................................................. 250
  Randa Hammami, Hatem Bellaaj, and Ahmed Hadj Kacem

Demonstration Papers

Demonstration of a New Computing Model to Manage a Distributed Application and Its Resources Using Turing Oracle Design ................................................................. 253
  Rao Mikkilineni, Giovanni Morana, and Surendra Keshan

Tracking Users’ Actions over Social Media: Application to Facebook ........................................ 255
  Emir Ugljanin, Noura Faci, Mohamed Sellami, and Zakaria Maamar

Quasi Opportunistic Supercomputing for Geospatial Socially Networked Mobile Devices ................................................................. 257
  Ankush Rai, Sakkaravarthi Ramanathan, and R. Jagadeesh Kannan

SmartLoire: A Web Mashup Based Tool for Personalized Touristic Plans Construction ................................................................. 259
  Marwa Boulakbech, Nizar Messai, Yacine Sam, Thomas Devogele, and Laurent Etienne

Hey Malware, I Can Find You! .................................................................................................. 261
  Francesco Mercaldo, Vittoria Nardone, Antonella Santone, and Corrado Aaron Visaggio

Simulation Extension for Cloud Standard OCCIware ................................................................. 263
  Mehdi Ahmed-Nacer and Samir Tata

Managing Service Quality at the Platform and Application Levels with rSLa ................................ 265
  Samir Tata, Mohamed Mohamed, Obinna Anya, Takashi Sakairi, Nagapramod Mandagere, Heiko Ludwig, and Nathalie Baracaldo

Author Index .............................................................................................................................. 267
