22nd Americas Conference on Information Systems (AMCIS 2016)

Surfing the IT Innovation Wave

San Diego, California, USA
11 - 14 August 2016

Volume 1 of 4

ISBN: 978-1-5108-2687-8
# TABLE OF CONTENTS

## VOLUME 1

### ACCOUNTING INFORMATION SYSTEMS

- An SEC 10-K XML Schema Extension .............................................................. 1  
  William Augustine, Sanjay Goel
- How Different Types of IS Assets Account for Synergy-Enabled Value in Multi-Unit Firms: Mapping of Critical Success Factors and Key Performance Indicators .................................................. 8  
  Markus Mandrella, Sebastian Zander, Simon Trang
- Information Systems for Sustainability Reporting - A State of Practice .......................................................... 18  
  Ravi Seetharamanji, Geoff Frost
- Leading Effect of Social Media for Financial Fraud Disclosure: A Text Mining Based Analytics .......................................................... 28  
  Wei Dong, Shaoyi Liao, Yujing Xu, Xiaojian Feng

### ADOPTION AND DIFFUSION OF INFORMATION TECHNOLOGY

- A Framework for Disruptive Innovation Diffusion .......................................................... 38  
  Yi Yang, Wencai Han, Michael Shaw
- A Study on the Relation Between BPM Maturity and Innovation .......................................................... 43  
  Pascal Ravesteyn, Jakobus Smit, Barry McGuinness
- Consumers' Privacy Concerns about Smart Meters .......................................................... 53  
  Mayank Kumar, Jang Bahadur Singh
- Examining Technology Resistance: A Cognitive Load Perspective .......................................................... 63  
  Swadhin Sharma
- Human vs. Algorithmic Recommendations in Big Data and the Role of Ambiguity .......................................................... 73  
  Christoph Pach, Christian Matt, Thomas Hess, Christian Hoerndlein
- Korean and Vietnamese User Loyalty: KakaoTalk Case .......................................................... 83  
  Nguyen Hinh Tanh, Young-Chan Lee
- Technology Adoption vs. Continuous Usage Intention: do Decision Criteria Change when Using a Technology? .......................................................... 93  
  Anna Kupfer, Liliane Ableitner, Samuel Schoeb, Verena Tiefenbeck
- The Hateful Six - Factors Hindering Adoption of Innovation at Small and Medium Sized Enterprises .......................................................... 103  
  Veronika Fries, Christoph Pfleugler, Manuel Wiesche, Helmut Krcmar
- The Role of Organizational Internal Communication on Individuals' Reactions to New Information .......................................................... 113  
  Liette Lapointe, Anne Beaulieu
- Time for a Different Perspective: A Preliminary Investigation of Barriers of Merchants' Adoption of Mobile Payments .......................................................... 114  
  Francisco Liebana Cabanillas, Emma Slade, Yogesh Dwivedi
- Understanding Patient Portal Use Intentions: Enablers and Inhibitors of IT Use .......................................................... 122  
  Murad Moqbel, Fiona Nah, Valerie Bartci, Rosann O'Dell

### ASIA-PACIFIC

- A Comprehensive Literature Review on Big Data in Healthcare .......................................................... 123  
  Jingwei Li, Wei Ding, Hsing Cheng, Ping Chen, Dehai Di, Wei Huang
- Communicating to Practitioners through IS Research: A Descriptive Review .......................................................... 128  
  Nura Jabag, Jinglu Jiang, Donald Maclean, Stephanie Chalmeau, Junyi Yang
- Focusing on Customer Relationship Management in Healthcare Context .......................................................... 138  
  Xian Cheng, Shuayi Liao, Zishan Liu, Mengshen Huang
- How to Address Endogeneity in Partial Least Squares Path Modeling .......................................................... 143  
  Jose Benitez, Jorg Henseler, Jose Roland
- Pricing New Goods in the Presence of Multi-channel Social Learning and Online Fake Reviews in Social Networks .......................................................... 153  
  Qiaozhen Guo, Ying-Ju Chen, Eric Fang, Huigang Liang, Hsing Cheng, Xianjun Geng, Wei Huang
- Social Sentiment and Stock Trading via Mobile Phones .......................................................... 158  
  Kwansoo Kim, Sang-Yong Tom Lee, Robert J. Kauffman
- Strategy for Initial and Appendig Reviews: An Emerging China Phenomenon .......................................................... 168  
  Chiang-Yu Cheng, Wesley Shu, Chia-Sheng Lin
- The Role of Espoused National Cultural Values in Information Disclosure from the Perspective of Dual-calculus .......................................................... 172  
  Yahui Li, Wayne Huong
DEcision Support and Analytics

A Content Analysis of Sports Analytics Resistance ..........................................................177
Cheen Lee

A GIS Decision Support System for Crop Cultivation ......................................................178
Wanlooo Sukta-Ngiam, Joseph Mbega, Samir Chatterjee

An Analytics-based Strategy for College Sports Ticket Sales and Management ..............188
Rudolph Bedelley, Martha Bench, Lakshmi Iyer

An Organizational Perspective On GIS Payoffs for the Public Sector: Is Usage the Missing Link? ..........................................................193
Omer Alruwaiz, Brian Hilton, Thomas Horan, Tammir Bechor

Argument Detection in Online Discussion: A Theory Based Approach .........................203

Big Data Analytics for Supply Chain Innovation ..........................................................213
Mabheza Singh, Anitha Chennamaneni

Big Data Analytics in Health Care Operations ..................................................................214
Richard Steep, Fred Weigel, Andrew Borchers

Big Social Data and GIS: Visualize Predictive Crime ......................................................219

Building a Business Analytics Platform For Enhancing Commercial Beekeepers' Performance ........................................................................229
Ethan Walton, Mark Jacobs, James Wilkes, Joseph Cazier

Chartering Predictive Analytics: A Case Study ...............................................................234
Wallace Chipidza, Jordan George, Hope Koch

Consumers’ Attitude toward Insurance Companies: A Sentiment Analysis of Online Consumer Reviews .............................................................244
Maryam Ghasemaghaei, Seyed Pouyan Ismaili, Ken Deal, Khaled Hassanein

Corpus Periodization Framework to Periodize a Temporally Ordered Text Corpus ........254
Abdulrahim Alsudais, Hovig Tchalian

Data Driven Creation of Sentiment Dictionaries for Corporate Credit Risk Analysis ..........264
Aaron Mengelkamp, Sebastian Wolf, Matthias Schumann

Detecting Communities of Interests in Social Media Platforms using Genetic Algorithms ........................................................................273
Mahyar Sharif Vaghefi, Derek Nazareth

Effect of Business Intelligence and Analytics on Business Performance ........................283
Mohammad Daneshvar Kakhi, Prashant Palvia

Exploring Latent Semantic Analysis in a Big Data(base) ..................................................293
Carla Marcolin, Joao Becker

Geographic Decision Support Systems To Optimize The Placement Of Distributed Energy Resources ..................................................................298
Vivian Sultan, Hind Bitar

Identifying Product Defects from User Complaints: A Probabilistic Defect Model .............303
Xuan Zhang, Zhili Quo, Liqian Tang, Weiqiu Fan, Edward Fox, Gang Wang

Measuring Business Analytics Maturity of Organizations ............................................313
Leehoon Chen, Ravi Nath

Organizational Readiness for Business Intelligence and Analytics Systems Success ........314
Xiaofeng Chen, Liqiang Chen, Deepinder Bajwa

Sports Analytics: Predicting Athletic Performance with a Genetic Algorithm ..................319
Victor Cordes, Lonne Oljeman

Sports Injuries and Prevention Analytics: Conceptual Framework & Research Opportunities ........................................................................329
Gary Wilkerson, Ashish Gupta

The Architecture of a Navigational Support System .......................................................338
Foad Marzoughi, Tiu Arthamari

The Athletic Training Practice-Based Research Network: A National Model for Point-of-Care Sports Injury and Outcomes Documentation to Improve Athlete Health and Wellness ........................................348
Kenneth Lum, Eric Saurer, Tamara Valovich McLeod

The Missing Link - Predictive Models based on Textual and Dynamic Network Data ........358
Kai Heinrich

The Power of Social Media in Supporting Warehouse Location Decisions for Online Retailers Using GIS ........................................................................368
Hasam Lahza, Yaser Alhasawi, Andrew Marx

Towards the Development of CRM Capabilities for Leveraging Big Data Assets â•fi A Conceptual Framework Derived from Literature ..................................................373
Katja Tiefenbacher, Sebastian Olbrich

Word Ambiguity and Search: Implications for Enterprise Performance Management ..........383
David Schuff, Robert St. Louis, Karen Corral, Greg Schymik

Digital Commerce-EBusiness and Ecommerce

A Theory of Two-Zoned Networks for Platform-Mediated Markets ................................392
Zin Li, Benjamin Shao

Adoption of Implicit eWOM in Facebook: An Affect-as-Information Theory Perspective ........................................................................402
Navid Aghakhani, Hossein Touranzar, Mohammad Salehan

Asking the Right Questions in Field Work: Lessons from 3 Case Studies .........................412
Suzana Brown, Alan Mickelson, Faheem Hussain
Big Data in Supply Chain Management - Applications, Challenges and Benefits ................................................................. 422
Changes in Digital Business Model Types - A Longitudinal Study of Technology Startups from the Mobility Sector .................. 432
Gerrit Romme, Andre Hanelt, Bjørn Hildebrandt, Luiz Kolbe
Cloud Service Brokerage: A Systematic Literature Review Using a Software Development Lifecycle ................................................. 442
Victoria Paulson, Vincent Emeakaroha, John Morrison, Theo Lynn
Determining Factors that Lead Students to Study Information Systems using an Alumni Focus Group ........................................ 452
Jeffrey Merhout, Douglas Havelska, T. M. Rajkumar
Digital Capabilities as Driver to Digital Business Performance ................................................................................................. 460
Jose Carlos Fresas Janier, Antonio Carlos Macada, Rafael Brinkhues, Gustavo Montesdrioca
Exploring the Impact of Mobile Product Information Systems on Consumers' Purchase Intention ........................................ 465
Marvin Hegen
Jia Shen
Factors Adoption of Facebook in the Workplace Cameroon ................................................................................................. 480
Wilfried Nzaundora, Jean Robert Kala Kamdjong, Fasso Wamba
Gamification and Brand Engagement on Facebook: An Exploratory Case Study ................................................................. 490
Jama Summers, Amber Young
How Do Consumers Evaluate Value Propositions of Connected Car Services? ............................................................. 500
Martin Mikusz, Tobias Herter

E-GOVERNMENT

Adoption of Two Indian E-Government Systems: Validation of Extended Theory of Planned Behavior (TPB) ........................................ 510
Nripendra Rana, Ramita Lal, Emma Slade
Business-IT Alignment In Municipalities: The Swiss Case ........................................................................................................ 520
Kuang-Wen Chao, David Weibel, Bartholomoaus Wessn, Simon Enkerli, Nicolas Bigler, Martin Topf
Enabling Multichannel Participation Through ICT Adaptations for Participatory Budgeting ............................................ 530
Muhammad Aham, Utahasinkar Sivarajah, Giovanni Allegritti, Michelangelo Secchi, Sofia Antunes
Factors That Constrain Or Inhibit Virtualization In A Government-To-Citizen Electronic Service ........................................ 539
Joshua Ojio, Richard Boaeng
Gamification of e-Government Services: A Discussion of Potential Transformation ................................................................. 549
Karim Al-Yafi, Mazen El-Masri
Gender, Age, and Frequency of Internet Use as Moderators of Citizens' Adoption of Electronic Government ........................................ 558
Michael Williams, Nripendra Rana, Sean Rouleick, Marc Clement
Indonesia's Digital Infrastructures for Nuclear Energy Policy Transparency .............................................................. 568
Akemi Chatfield, Christopher Reddick, Yohanes Anggoro
Structuring Institutionalization of Digitally-Enabled Service Transformation in Public Sector: Does Actor or Structure Matters? .................................................................................................................. 578
Amzin Omar, Ramzi Elhaddad
The Paradox In Cross-Border Health Care: Can Mobile Technology Leapfrogging Make A Difference? ........................................ 585
Wendy Carrier, Jonathan Seddon
Toward Formulating a Digital Diplomacy Maturity Framework: A Theoretical Prospective ........................................ 595
Hamad Almfuneh, Uthayasankar Sivarajah

END-USER INFORMATION SYSTEMS

Behavioral Drivers Behind Shadow IT and Its Outcomes in Terms of Individual Performance ........................................ 605
Gabriela Mallmann, Antonio Carlos Macada
Empowering End-users to Collaboratively Manage and Analyze Evolving Data Models .................................................. 610
Thomas Reichenhofer, Florian Matthies
End-users' Perspective on Digitalization: a Study on Work Order Processing in the German Banking Industry ........................................ 620
Julian Schmidt, Paul Drews, Ingrid Schirmer
Evaluacion de la Calidad del Portal de eGobierno en Mexico ................................................................................................. 630
Juan Gomez Rey, Marcelo Perez Ramos
Factors Leading to Business Process Noncompliance and its Positive and Negative Effects: Empirical Insights from a Case Study ................................................................. 640
Ermeson Andrade, Han Van Der Aa, Henrik Leopold, Steven Alther, Hajo Reijers
How to Sustain User Engagement Over Time: A Research Agenda ................................................................................................. 650
Abdelrasoul Habibipour, Birgitta Bergvall-Kareborn, Anna Stahlbrost
IT Consumerization and New IT Practices: Discriminating, Firefighting and Innovating .................................................. 660
Jie Yan, Sxuan Zhang, Nebogda Milic, Hope Koch, Patrick Curry
Managing Emerging Business Ecosystems - A Knowledge Management Viewpoint ................................................................. 670
Elina Annanpera, Kari Liuukunen, Jouni Markkula
Self-Service Consulting: Conceiving Customer-Operated Digital IT Consulting Services ........................................ 680
Dirk Werth, Phileas Zimmermann, Tobias Greff
Towards a Taxonomy for Shadow IT ......................................................................................................................................... 690
Andreas Kopper, Markus Westner
Towards a Theoretical Framework of Business Process Management through the Lens of Absorptive Capacity and Cognitive Dissonance Theory ................................. 700
Monika Kian, Jon Mendling, Peter Tønnes
Towards Assessing the Value of Digital Self-service Options from a Provider Perspective ................................................................. 705
Florian Baer, Michael Leyer
Understanding Usage of Bring Your Own Device (BYOD): A Complex Adaptive Systems Perspective ................................................. 715
Weian Wang, Hamid Nemati
Using Single or Multiple Personal IT Devices? Exploring the Task Performance in Consumerization of IT ........................................ 720
Chi-Wen Chen

ENTERPRISE SYSTEMS
A Design and Validation of the Issue-based ERP Assessment Model ............................................................................................ 721
Tingting Huang, Akinori Yokota
Adoption of Mobile ERP in Traditional-ERP Organizations: The Effect of Computer Self-Efficacy ....................................................... 731
Mouna Albashrawi, Lavai Motiwalla
Digitization of German Enterprises in the Production Sector - Do They Know How "Digitized" They Are? ........................................ 736
Katja Bley, Christian Leyh, Thomas Schaffer
Effect of Social Networks on Requirements Engineering in Open Source Projects .................................................................................. 746
Deepta Gopal
Examination of Enterprise Resource Planning (ERP) Implementation in a Sub-Saharan African (SSA) Nation: A Panoptic Perspective ........................................................................................................... 751
David Asamoah, Francis Andoh-Baidoo
From Pushing Buttons to Achieving Infusion: The Impacts of Organizational Commitment and Organizational Citizenship Behavior on Infusion.................................................................................. 761
John Muraski
Mindful Routines in the Face of Fraud .................................................................................................................................................. 762
Max Rohde, Gabrielle Peke, David Sandaram
Multidimensional Workload Consolidation for Enterprise Application Service Providers ................................................................. 772
Hendrik Muller, Sascha Bosse
The Business Value of Enterprise Data Models ........................................................................................................................................ 782
Florentina Peels, Roger Bons, Marijn Plomp
The Impact of ERP Assimilation, Process Agility and Business Intelligence Maturity on Innovation Performance ........................................ 792
David Bonner, Ho-Chang Chae
Toward Business Domain-Specific eCollaboration: Requirements for Integrated Virtual Cooperation in Product Costing ........................................................................................................................................... 797
Diana Lueck, Christian Leyh

GLOBAL, INTL AND CROSS CULTURAL ISSUES
Culture, Adoption and Use of Information Technology (IT) by Very Small Businesses (VSB): Proposal of an Analysis Model .................................................................................................................................................. 807
Yann Rival, Yannis Bélle
Fault Detection and Diagnosis for Compliance Monitoring in International Supply Chains ................................................................. 812
Yuxin Wang, Yuji Tian, Andre Teixeira, Joris Hulstijn, Yao-Hua Tan
Geopolitical Factors Impacting ICT4D: Comparing Singapore with Vietnam .............................................................................................................. 822
Tom Stafford, Rhonda Syler
Herding Behavior in Social Media Networks in China ...................................................................................................................... 827
Xuan Tan, Karlene Cousins
How to Keep Brand Fan Page Followers? The Lens of Person Environment Fit Theory ........................................................................ 832
Zhenya Tang, Tao Shi
The Role of Organisational Culture on Knowledge Sharing by Using Knowledge Management Systems in MNCs .................................................. 837
Mahmoud Abdelrahman, K. Nadia Papamichail
Virtuous or Vicious Cycle? Inscribing Diverse Professional Values in Lecture Capture Systems ................................................................. 847
Jenny Leonard, Pavel Albores, Helen Higson

GREEN IS AND SUSTAINABILITY
A Research Framework for Business Sustainability using Information Exchange - A Firm Centric Perspective ........................................ 857
Sandeep Jagani, Steven Wallace, Anand Kunnathur
Configuring Value with Service-Dominant Logic: The Case of Marine Informatics Technology ................................................................. 866
Jiyoon An, Hyunhee Ju, Seung Kyo Shin

VOLUME 2
Decision Support for Group-based Electricity Prices in Smart Grids ........................................................................................................... 875
Nikolai Stein, Christoph Flash
Developing a Conceptual Model to Evaluate Green Suppliers: Decision Making Method using DEMATEL ............................................. 885
Do This, Not That: How Teens Make Decisions About Contradictory Health Information on Social Media ................................................. 895
Kayla Booth, Eileen Trauth
Electronic Integration of CSR Reporting Systems for Stakeholder Responsiveness ................................................................. 905
Stephanie Watts
Information Systems in the Context of Sustainable Mobility Services: A Literature Review and Directions for Future Research ................................................................................................................................. 915
Alfred Benedikt Brendel, Markus Mandrell
Integrating a Method for Achieving Activity-Oriented Sustainability into the Design Science Research Methodology ........................................................................................................................................................................ 925
Benjamin Klor, Friedrich Chasin, Jorg Becker
Modularization of Digital Services for Urban Transportation .................................................................................................................. 935
Maximilian Schreieck, Manuel Wiesche, Helmut Krcmar
Multivariate and Geospatial Analysis of Technology Utilization in US Counties .................................................................................. 945
Avijit Sarkar, James Pick, Jessica Rosales
The Online Coffee Klatch: What Are Tech Women Talking About? ........................................................................................................ 955
Deborah Armstrong, Isbissam Zaza
The Poor Get Poorer and the Rich Get Fiber: Why Free/Low-Cost Internet Might Not Bridge the Digital Divide ............................................ 960
Jordana George, Stacie Petter
Toward User-Based Relocation Information Systems in Station-Based One-Way Car Sharing ........................................................ 965
Alfred Benedikt Brendel, Benjamin Brauer, Bjorn Hildebrandt
Towards a Structurational Model of Green Information Systems .................................................................................................................. 975
Michael Kennedy, Deborah Compeau
Understanding How Organizational Interventions Mitigate the Barriers Women Face in the IT Workplace: A Theoretical Framework .................................................................................................................. 985
Hala Annabi, Sarah Lebovitz
Videos in the Choupal: Knowledge Transfer with Partial Templates ......................................................................................................... 995
Israr Qureshi, Christopher Satter, Babita Bhatt

HEALTHCARE INFORMATICS AND INFORMATION TECH

A Carrot & Stick Intervention for Medication Adherence using Mobile Phone .................................................................................. 1004
Xinying Liu, Upkar Varshney
A Framework for Next Generation iCBT Applications for SAD Patients ................................................................................................... 1014
Joana Monteiro, Pavan Mulpuri, Raj Sharman
A Prototype for Alzheimer's Disease Early Diagnosis to Assist Caregivers and Physicians ........................................................................ 1024
Hind Bitar, Patrick Ward
A Taxonomy for Mobile Health Implementation and Evaluation .................................................................................................................. 1034
Alan Tang, Upkar Varshney
An Information System Approach for Handling Missing Data in Collaborative Medical Research ............................................................. 1044
Yvonick Meuller
Assessing the Business Value of Australia’s National e-health Solution .............................................................................................. 1054
Peter Haddad, Imran Muhammad, Nilmini Wickramasinghe
Assessing the Impact of Nursing Informatics Competencies on Decision Making Satisfaction: Results of a Preliminary Study .......................................................................................................................................................... 1064
Marlene Green, Tim Hardie, Michael Dohan, Joseph Tan
Can HIT Work Alone? A Security and Socio-Economic Perspective of Healthcare Quality ........................................................................... 1074
Shounak Pal, Baidyanath Biswas, Arunabha Mukhopadhay
Capabilities for e-Health Collaboration; a Study of Inter-municipal Networks in Norway ............................................................................ 1084
Niels Garmann-Johnsen, Tom Ekebrokk
Configurational Paths to Quality and Efficiency in Healthcare: Role of Policies, Incentives, Process, and IT Capabilities ........................................................................................................................................................................ 1094
Sagenka Sen, Rohyn Raschke
Critical IS Success Factor Analysis in the Context of a Hospital Merger ......................................................................................................... 1099
Katharina Steininger, Birgit Kempen, Stefan Schiffer, Gustav Pomberger
Developing an mHealth Application for Osteoarthritis Patients .................................................................................................................. 1109
Wonchan Choi, Bengisu Tulu, Hua Zheng, Patricia Franklin
Drivers of Health Information Privacy Concern: A Comparison Study .................................................................................................. 1110
Grace Kenny, Regina Connolly
Electronic Patient Briefing and Informed Consent: Creating Patient Trust and Information Satisfaction through Social Presence and Personalization ........................................................................................................................................... 1120
Okan Aydingul, Kati Spohrer, Armin Heinzl, Michael Konrath
Explaining Spatio-Temporal Dynamics in Carsharing: A Case Study of Amsterdam ..................................................................................... 1125
Konstantin Klemmer, Christoph Willing, Sebastian Wagner, Tobias Brandt
Explaining the Effect of Health Status on Patient Portal Use and Health System Utilization ........................................................................ 1130
Farhan Mushqa, Bengisu Tulu, Diane Strong, Sharon Johnson, John Trudel, Laurence Garber
Exploring Relationship Between Board Certification Exam and Pediatrician's Participation in CMS Incentive Program for Meaningful Use
Dongming Zhang, Ping Wang, Gordon Gao

Exploring the Impact of Third-Party Web Tracking on the Healthcare Providers' Business Value
Anton Ivanov, Raj Sharman

Health Capability Maturity Model: Person-centered Approach in Personal Health Record system
Jinie Pak, Yeong-Tae Song

How Does Quantified Self Run?
Bart Baarslag

How Organizational Path Constitution Prepares Digital Infrastructure Innovation: A Case Study of Integrated Care
Daniel Fursternau, Lauri Wessel, Martin Gersch

How to Predict Mood? Delving Into Features of Smartphone-Based Data
Dennis Becker, Vincent Bremer, Burkhard Funk, Joost Asselbergs, Heleen Riper, Jeroen Rauvaard

Identifying Opportunities to Compromise Medical Environments
Tillmann Neben, Anna-Maria Seeger, Tommi Kramer, Sophie Knugge, Andrew J. White, Georg W. Alpers, Georg W. Alpers

Impact of Health Information Exchange Adoption on Physician's Referral Behavior
Saeede Eftekharzadeh, Gopal, Ramesh

Inhibitors to Working with Hospital Information Systems - A Cross-national Analysis -
Heiko Gewald, Corinna Gewald, Leah Vriesman

Make the Most of Waiting: Theory-Driven Design of a Pre-Psychotherapy Mobile Health Application
Tillmann Neben, Anna-Maria Seeger, Tommi Kramer, Sophie Knugge, Andrew J. White, Georg W. Alpers, Georg W. Alpers

Modeling Health Care Q&A Questions with Ensemble Classification Approaches
Yi-Ling Lin, Cheng-Yu Chang, Chie-Wei Kuo, Te-Ming Chang

Patient Adoption of Smart Cards
Pamella Howell, Raj Sharman, Sanjukta Das, Mohamed Abdelhamid

Patients’ Computer-Mediated Communication Media Uses and Gratifications in Healthcare
R Thambusamy, Prashant Palvia

Physician-Rating Platforms: How Does Your Doctor Feel?
Olga Abramova, Natasha Veltri, Hanna Krausova, Sirima Kiatprasert, Peter Busmann

Privacy Preservation in Releasing Patient Data
Yaoqing Liu, Xiao-Rui Li, Luvai Motiwalia, Wenjun Li, Naid Zhang, Patricia D. Franklin

Reality Video vs. Video Modeling—A Case Study in Patient Education
Wendi Wang

Targeted Strategic Alignment via Real-time Perioperative Performance Dashboards
Jim Ryan, Barbara Doster, Sandra Daily, Carmen Lewis

Technology-Mediated Health Activities: An Exploratory Study on Older Adults
Olayede Adelakun, Peter Kallo, Robert Garcia, Adam Fleischer

Teledentistry Adoption and Sustainability in Extreme Resource Poor Countries
Tamuchin McCreless

The Effect of Adjustment Level on the Relationship Between CDSS and Efficiency
Chien-Ming Lin, Cheng-Chieh Chang, Shih-Chao Chu

The Influence of Privacy Risk on Smartwatch Usage
Claus-Peter Ernst, Alexander Ernst

Understanding the Link between Patient Portal Use and Health System Utilization
Eric Salinas, Bengtu Tula, Sharan Johnsson, Diane Strong, John Trudef, Lawrence Garber

Users Acceptance of Health Behavioral Change Support Systems
Mohammad Al-Ramahi, Insu Park, Jun Liu

HUMAN CAPITAL IN INFORMATION SYSTEMS

CIO Leadership Characteristics and Styles
Ali Ghave, Kathryn Brohman

Crossing Boundaries: Organization Design Parameters Surrounding CDOs and Their Digital Transformation Activities
Anna Hohler, Patricia Klarner, Thomas Hess

Do They Pursue the Same? A Cross-culture Research on Career Anchor of IT/IS Personnel
Christina Chang, Cathy Ning Shen, Birdy Liu

Power, Politics, and Knowledge: Influencing Executive Teams
Jennifer Gerow, Varun Grover, Jason Thatcher

Shared Flow Measurement in IT Teams: An Inductive Approach for Emergent Attributes
Pedro De Moura Jr., Carlo Gabriel Bellini

The Impact of Less Traditional Employee Benefits on the Turnover Intention of State Information Systems Employees
Iblisstam Zaza, Deborah J. Armstrong, Cynthia K. Riemenenschneider

The Power of Who We Are: How Organizational Identity Influences IT Outsourcing Success
Carol McGuire, Kalle Lyytinen
ICTS IN GLOBAL DEVELOPMENT

A Contextualized IT Adoption and Use Model for e-health: The Case of Telemedicine at Black Lion Teaching Hospital, Ethiopia ................................................................. 1510
Getachew Hailemariam, Monica Garfield

A Multidimensional Classification of 55 Enterprise Architecture Frameworks .......................................................... 1520
Eldar Sultanow, Carsten Brockmann, Kai Schroeder, Sean Cox

An Evaluation of Information Systems Students Internship Programs in Developing Countries: A Capability Perspective ................................. 1528
Salihu Danuki, Ayo Quaye

Analyzing the Evolution and Usage of Enterprise Architecture Management Patterns ........................................... 1538
Punya Akeatrat Khosorsirat, Mathews Hander, Florian Matthes

Building a Theory of Socio-technical Fraud ........................................................................................................... 1548
Spyridon Samonas

Business Process Management Practices in a Small Transition Economy: Current Status and Research Opportunities ............................................ 1553
Amila Pilav-Velic, Olivera Marjanovic

Competitive Intelligence Practices in Small Business: A Social Media Analytics Approach ................................ 1563
Yuan Xue, Jie Xiong

Gender and Organizational Citizenship Behavior of Information Technology Users in Poland and Germany ........................................ 1565
Jolanta Kowal, Alicja Kepplerger, Juho Maekisto

Impact of Co-Design and Design Science on Adoption of an ICT Solution in Rural South Africa .......................... 1575
Musa Chemisto, Ulrike Rietv, Carl Jacobs

Innovative Capacity in Small Regional Enterprises in Transition Economies: An Exploratory Study in Poland ............... 1585
Jolanta Kowal, Anna Jasinska-Biliczak, Julee Hafner

IT-enriched "Digitized" Products: Building Blocks and Challenges ........................................................................ 1595
Amara Novales, Martin Mcker, Daniel Simonovnich

Knowledge Sharing Adoption in Saudi Universities’ E-learning Communities ...................................................... 1605
Abdullah Alammar, Daniel Chandran
Interaction Effect of Gender and Neutralization Techniques on Information Security Policy Compliance: An Ethical Perspective .................................................................................................................. 1814

Gontran Bannval, Szu B Shih

Investigating Continuous Security Compliance Behavior: Insights from Information Systems Continuance Model ........................................................................................................... 1824

Jawad Abed, Gurpreet Dhillon, Sevgi Ozkan

IT Governance Framework: One Size Fits All? .................................................................................................................. 1834

Hyew-Joo Kim, Paurin Katerattanakul, SoonGoo Hong

Management of Digital Evidence: Body Worn Camera Use by Law Enforcement Agents .................................................................................................................. 1844

Jaewung Lee, Jingguo Wang, Gerald Cliff, H. RagHAV Ban

Next Generation Aircraft Architecture and Digital Forensic ........................................................................................................... 1845

Dustin Mink, Alice Yasinsac, Kim-Kwang Raymond Choo, William Glisson

Priming Security Behavior: A Study Based on Self-Concept Maintenance Theory .................................................................................................................. 1855

Nic DePaula, Sanjay Goel

Privacy Management Strategies: An Exploratory Cluster Analysis .................................................................................................................. 1860

Nancy Lankton, D. McKnight, John Tripp

Proposing SETA Program Design Based on Employee Motivational Fit .................................................................................................................. 1870

Philip Menard

Relationship Between Knowledge Sharing Security and Organizational Context in the Public and Private Organizations ........................................................................................................... 1875

Azadeh Sarkheyli

Response to the Office of Personnel Management Data Breaches: A Conceptual Exploration .................................................................................................................. 1880

Rat Chen, H. R. Rao, Rohit Valecha

Security Risks Related to Employee "Extra-Role" Creation of an "Online-Persona" .................................................................................................................. 1881

Bobby Booth, Sandra Richardson, Judith Simon

Taxonomy of Malicious Insiders: A Proof of Concept Study .................................................................................................................. 1886

Nan Liang, David Biros, Andy Luse

The Effect of Using WLANs on Data Breaches: The Examination of the Moderating Role of Meaningful-Use Attestation .................................................................................................................. 1896

Dhyayal Din Alsahlman, Insu Park

Top Manager’s Perspectives on Cyberinsurance Risk Management for Reducing Cybersecurity Risks .................................................................................................................. 1901

Min Ogbuji, Dan Kim, Haxan Takabi

Understanding Bring Your Own Device (BYOD) and Employee Information Security Behaviors from A Work-Life Domain Perspective ........................................................................................................... 1902

Mohamed Alatakri, Kathy Ning Shen

Understanding Cyber Security Perceptions Related to Information Risk in a Healthcare Setting .................................................................................................................. 1912

Derek Sedlack

Understanding the Privacy Issue in the Digital Age: An Expert Perspective .................................................................................................................. 1922

Wei Wei, Kwok-Bun Yue

Using Concept Maps to Teach and Assess Critical Thinking in IS Education .................................................................................................................. 1927

Hsia-Ching Chang, Susan Squires, Chen-Ya Wang

What Interrupts Intention to Comply with IS-Security Policy? .................................................................................................................. 1947

Chris Merritt, Gurpreet Dhillon

INTELLIGENCE AND INTELLIGENT SYSTEMS

Impact of Personalized Review Summaries on Buying Decisions: An Experimental Study .................................................................................................................. 1957

Mahesh Budan, Saiji Mathew

Longer is Better? A Case Study of Product Review Helpfulness Prediction .................................................................................................................. 1966

Yin Kang, Lina Zhou

Towards an Architecture for Big Data-Driven Knowledge Management Systems .................................................................................................................. 1976

Thang Le Dinh, Thuang-Cang Phan, Trung Bui

Using Deep Learning for Pulmonary Nodule Detection & Diagnosis .................................................................................................................. 1986

Richard Gruetzemacher, Ashish Gupta

IS AND OPEN RESEARCH AND PRACTICE

"Tinkering for Creativity": An Experiment to Utilize MaKey MaKey Invention Kit as Group Priming to Enhance Collaborative Creativity .................................................................................................................. 1995

Vincent Cho

Dominik Siemon, Beren Plaumann, Arne Regenberg, Yang Yuan, Zheng Liu, Susanne Robra-Bissantz

Catalyzing Knowledge Transfer in Innovation Ecosystems through Contests .................................................................................................................. 2015

Goran Smith, Anders Hjalmarsson, Hakan Burden

OSPM: A Design Methodology for Open Strategic Planning .................................................................................................................. 2025

Atireza Amrollahi, Bruce Rowlands
Shifting Design Capability to Third-Party Developers: An affordance Perspective on Platform Boundary

Resources ........................................................................................................................................................................... 2035

Mohamad Osmani, Vishanth Weerakkody, Nitham Hindi, Kawaljeet Kapoor, Rajab Al-Esmail, Tillal Eldabi
Christopher Califf, Todd Martin

Taking Open Innovation to the Next Level: A Conceptual Model of Social Product Development (SPD) ............................................................ 2045

Kaveh Aharbi, Elizabeth Davidson, Bo Sophia Xiao

The State of SME Knowledge Management - A Multiple Case Study Analysis .................................................................................. 2055
