TABLE OF CONTENTS

VOLUME 1

WAVE PROPAGATION IN FLUIDS, COMPLEX SOLIDS,PIPES AND STRUCTURES

#148 THE ACOUSTIC RESPONSE OF REACTING SPRAYS IN CROSS FLOW MODELS TO FORCED EXCITATIONS .................................................................................................................. 1
  Gruhlke Pascal, Illana Mahiques Enric, Kempf Andreas, Kok Jim B.W., Meisl Jurgen, Kaufmann Peter
#236 STRUCTURAL ACOUSTICS OF SEMI-INFINITE SIMPLY SUPPORTED BAFFLED PLATE USING ANALOGY WITH INFINITE PLATE .......................................................................................... 9
  Bhaduria Jay, Sarkar Abhijit
#237 LOW-FREQUENCY BAND GAPS IN A DOUBLE-SIDED STUBBED COMPOSITE PC PLATE ................................................................................................. 17
  Li Suobin, Chen Tianming, Wang Xiaopeng, Xi Yanhai
#248 ANALYSIS OF PIPE WALL VIBRATION FOR LEAK DETECTION IN FLUID-FILLED PIPING SYSTEMS ........................................................................................................... 25
  Gao Yan, Liu Yayou, Yang Jan, Muggleton Jon M.
#277 WAVE PROPAGATION IN INFINITE PERIODIC STRUCTURES ................................................................................................................................. 32
  McMahon Darryl
#388 USING ACOUSTIC WAVE AS CARRIER SIGNAL TO TRANSMIT INFORMATION FROM DOWNHOLE TO SURFACE IN DRILLING ENGINEERING ........................................................................... 40
  Gao Wenkai, Sheng Limin, Dou Xiurong, Jia Hengtian
#425 LOVE WAVE PROPAGATION ALONG VISCOELASTIC SURFACE LAYER ON ELASTIC HALF-SPACE SUBSTRATE ........................................................................ 46
  Chiba Yuwake, Ethihara Tadasahi, Mizutani Koichi, Watanuki Naoto
#703 TORSIONAL WAVE PROPAGATION OF CNTS VIA DIFFERENT NONLOCAL GRADIENT THEORIES ........................................................................................ 54
  Arda Mustafa, Aydogdu Meera
#712 HYDROELASTIC VIBRATION OF RECTANGULAR PLATE PLACED ON FREE WATER SURFACE ............................................................................................ 62
  Shang Pengfei, Che Chidong, Huang Wude
#730 THEORETICAL AND EXPERIMENTAL STUDY OF SOUND TRANSMISSION BETWEEN CAVITIES THROUGH FLEXIBLE PANEL STRUCTURE ............................................................................. 70
#739 THE VIBRATION REDUCTION PROPERTIES OF PIPE WITH A PERIODIC ARRAY OF DAMPING OSCILLATORS ............................................................................................ 78
  Liu Jiangwei, Yu Dianlong, Wen Jihong, Cui Li
#844 STUDY ON THE MECHANICAL IMPEDANCE CHARACTERISTICS OF BELLOW AIR SPRING ............................................................................................ 83
  Shuai Changgeng, Li Penghui, Zhao Zhenghong
#893 DISPERSION COMPENSATION AND MODE SEPARATION OF LAMB WAVES USING TWO-COMPONENT SIGNALS OF LASER INTERFEROMETER .................................................................. 91
  Xu Yanfeng, Hu Wenxiang
#952 AN OPTIMAL DESIGN OF 1D ACOUSTIC BLACK HOLE WITH DAMPING LAYER FOR PLATE GEOMETRY ........................................................................... 99
  Lee Jae Yeon, Jeon Wonyu
#957 WAVE PROPAGATION IN ELASTIC LAYERS WITH DAMPING .............................................................................................. 103
  Sorokin Sergey, Darula Radoslav

THERMOACoustics AND ORIFICE ACOUSTICS

#118 SOUND GENERATION AND CONTROL OF THERMOACOUSTIC INSTABILITIES BY NANosecond PLASMA DISCHARGES .................................................................................................................. 111
#247 COMPARISON OF GREEN’S FUNCTION RESULTS ON THE PREDICTION OF THERMOACOUSTIC INSTABILITIES IN A GAS TURBINE COMBUSTOR AGAINST EXPERIMENTS .................................................................................................................. 119
  Anadon Javier Crespo, Bigongiari Alessandra, Campa Giovanni
#337 GREEN’S FUNCTION APPROACH TO THE RAPID PREDICTION OF THERMOACOUSTIC INSTABILITIES IN COMBUSTORS ........................................................................... 127
  Bigongiari Alessandra, Heckl Maria, Iraethnic Dimitro
#489 ACOUSTIC SCATTERING BEHAVIOR OF A 2D FLAME WITH HEAT EXCHANGER IN CROSS-FLOW .............................................................................................. 135
  Chen Lin Strohio, Houssem Naseh, Polikje Wolfgang, Tserling Omke Jan, Kornilov Viktor, Arteaga Ines Lopez, de Goeve Philip
#428 NUMERICAL PREDICTION OF THERMOACOUSTIC INSTABILITIES WITH A V-FLAME .............................................................................................. 143
  Na Wei, Efraimsson Gunilla, Boij Susann
#504 PROPAGATION VELOCITY OF INERTIAL WAVES IN CYLINDRICAL SWIRLING FLOW .............................................................................................. 151
  Albayrak Ali, Polikje Wolfgang
#569 AEROACOUSTIC RESPONSE OF AN ARRAY OF TUBES WITH BIAS-FLOW .............................................................................................. 159
  Surendran Aswathy, Boij Susann, Boden Hans, Heckl Maria, Hirschberg Avraham
#594 USE OF HEAT EXCHANGER FOR PASSIVE CONTROL OF COMBUSTION INSTABILITIES ............................................. 167
Surendran Aravady, Mousineh Nasir, Torelling Joan, Heckl Maria

#659 STUDY ON A LOOPED THERMOACOUSTIC PRIME MOVER WITH A COMPLIANCE TUBE .......................... 175
Yang Rui, Jin Tao, Yang Yi, Liu Yangliang, Feng Ye, Tang Ke

#650 AN ANALYTICAL MODEL FOR THE ACOUSTIC IMPEDANCE OF CIRCULAR HOLES OF FINITE LENGTH ... 181
Yang Dong, Mongays Aimee S.

#680 EXPERIMENTAL UNCERTAINTY ANALYSIS OF IMPEDANCE MEASUREMENTS ........................................ 189
Peerling Luck, Boden Hans, Boje Susanne

#775 EFFECT OF VARYING TURBULENCE INTENSITY ON THERMOACOUSTIC INSTABILITY IN A PARTIALLY PREMIXED COMBUSTOR .................................................................................................................. 197
George Nitin Bahu, Unmi Vishnu, Raghunathan Manshakand, Sujith Raman

#780 ANALYSIS OF FLAME INTRINSIC INSTABILITY IN A RESONATOR .................................................................. 205
Mukherjee Nalini, Heckl Maria, Shiriv Victor

#803 NUMERICAL ESTIMATION OF THE ABSORPTION COEFFICIENT OF FLEXIBLE MICRO-PERFORATED PLATES IN AN IMPEDANCE TUBE ...................................................................................................................... 213
Temiz Muttalip Askin, Tournadre Jonathan, Lopez Areanga Ines, Martinez-Lera Paula, Hirschberg Avraham

MODAL & FINITE ELEMENT ANALYSIS FOR ACOUSTICS AND VIBRATION

#49 DISCRETIZATION CONSIDERATIONS IN FINITE ELEMENT MODELLING OF A SIMPLE VEHICLE-TRACK INTERACTION SYSTEM .............................................................................................................................. 221
Yin Shih-Hsun

#128 IN-PLANE VIBRATION OF 2-D CIRCULAR BEAMS USING SPECTRAL - SAMPLING SURFACE METHOD ................................................................................................................................. 228
Jin Guoyong, Ye Tingxai, Xu Weijian, Li Peng, Huang He, Wang Xuereen

#144 FREE VIBRATION ANALYSIS OF FGM BEAM WITH GENERAL BOUNDARY CONDITIONS BY ISOGEOOMETRIC APPROACH ........................................................................................................ 236
Chen Mingjie, Jin Guoyong, Liu Zhigang, Xu Weijian

#175 DYNAMIC ANALYSIS OF THICK FUNCTIONALLY GRADED BEAMS WITH ELASTIC BOUNDARY CONDITIONS USING A HIGHER-ORDER SHEAR DEFORMATION THEORY .................................................. 244
Su Zhu, Jin Guoyong, He Huang, Li Feng

#295 OPTIMIZED LAYOUT OF INTERPHASE SPACER ON TRANSMISSION LINE GALLOPING CONTROL ................. 252
Hao Shuying, Feng Jingjin, Fan Zi, Zhang Kumpeng, Zhang Qichang

#182 MODE LOCALIZATION IN A TWO-SPAN BEAM WITH A STIFF NON-IDEAL INTERMEDIATE SUPPORT .................................................. 258
Bridge Jacqueline

#356 MODAL ANALYSIS OF CONTINUOUS BODY SUBJECTED TO DISPLACEMENT EXCITATION USING COORDINATE TRANSFORMATION ........................................................................................................ 265
Yamada Keisuke, Urushino Hideo

#451 DETERMINATION OF YOUNG’S MODULII AND DAMPING RATIOS OF FLEXIBLE HOSES FROM EXPERIMENTAL MODAL ANALYSIS .................................................................................. 273
Bhagat Alok, Sujatha C.

#542 FREQUENCY-DEPENDANT TRIGONOMETRIC SHAPE FUNCTIONS FOR THIN RECTANGULAR PLATE ELEMENTS ................................................................................................................................. 281
Jayasinghe Supun, Hashemi Seyed M.

#632 INFLUENCE OF MODELING OF CONTACT INTERACTION CONDITIONS ON SPECTRUM OF NATURAL VIBRATION FREQUENCIES OF BLADE ASSEMBLY ...................................................................... 289
Jayasinghe Supun, Hashemi Seyed M., Kruglii Yuri

#587 TOWARDS AN EVALUATION OF STIFFNESS PARAMETERS OF MICRO-BEAMS ............................................ 294
Bashmad Salem

#647 A ROBUST RIGID BODY INTERACTION MODEL FOR FRICTION-INDUCED SOUND SYNTHESIS .................. 302
Imran Muhammad, Yong Jeon Jin

#667 FREQUENCY DOMAIN STRUCTURAL DYNAMIC SIMULATION OF AN ELECTRICAL MACHINE HOUSING ........................................................................................................................................ 307
Gao Leitar, Clappier Marcel, Einbeck Stefan

#683 FINITE ELEMENT MODELLING AND MODAL BASED UPDATING FOR THE DYNAMIC BEHAVIOUR OF A LASER SPOT WELDED STRUCTURE .............................................................................. 315
Rani Muhammad Norshanim Abdul, Ouyang Huajiang, Kasolang Salmiah, Othman Mohd Hakimi, Yunus Mohd Azmi, Mirza Wan

#829 LINEAR VIBRATIONS OF MULTI-WALLED CARBON NANOTUBES .................................................................... 323
Strozzi Matteo, Pellicano Francesco, Barbieri Marco, Zippo Antonio

CLASSICAL AND ADVANCED SIGNAL PROCESSING FOR ACOUSTICS AND VIBRATION

#66 A MULTISTAGE PHASE DIFFERENCE AMPLIFIER INSPIRED BY ORMIA’S COUPLED EAR ................................ 331
Yang Ming, Zhu Xinlei, Zhang Yaqiong, Ti Na, Rao Zhushi
#132 DEVELOPMENT OF A SPEECH ENHANCEMENT DUALMICROPHONE NOISE REDUCTION SYSTEM UTILIZING TMS320C6713 ................................................................. 338
Wu Chao-Min, Chen Zeng-Fan, Liu Ting-An

#206 LOCALIZATION AND CHARACTERIZATION OF SOUND SOURCES USING A BEAMFORMING BASED APPROACH ................................................................. 346
Wang Tiangang, Choy Yatsze

#368 EFFECTS OF STIMULUS INTENSITY ON AUDITORY-EVOKED RESPONSES AND SPONTANEOUS ACTIVITY IN AUDITORY PATHWAY .................................................. 375
Inoue Akimaru, Yoshida Junji

#366 VIBRATION MODE CONTRIBUTION ANALYSIS FOR CONSTRUCTION MACHINES UTILIZING OPERATIONAL TPA ........................................................................... 383
Tanaka Koki, Yoshida Junji, Fukuda Shunsuke, Nakamoto Rie, Fukasawwa Ken

#423 NOISE REDUCTION FOR THE HIROSHIMA PEACE MEMORIAL CEREMONY ................................................................................................................................. 391
Tanaka Daitsuke, Ishimoto Shunsuke

#642 STATISTICAL FAULTS DIAGNOSIS METHOD BY USING HIGHER-ORDER CORRELATION INFORMATION BETWEEN SOUND AND VIBRATION OF ROTATIONAL MACHINE .................................................................................. 396
Orimoto Hisako, Iwata Akira

#838 ESTIMATING THE DISTANCE TO A SOUND SOURCE, USING SINGLE-CHANNEL CROSS-SPECTRAL METHOD BETWEEN OBSERVED AND PSEUDO-OBSERVED WAVES BASED ON PHASE INTERFERENCE .................................................................................................................. 404
Honda Shinya, Shinohara Yoshihiro, Uehle Tetsuji, Nakasako Noboru

#975 ALIGNING AUDIO AND VISUAL CUES WHEN PRESENTING FAST MOVING SOUND SOURCES WITHIN A MULTISENSORY VIRTUAL ENVIRONMENT FACILITY ....................................................................................................................... 412
Drumm Ian, O’Hare John

ACTIVE NOISE AND VIBRATION CONTROL

#167 PRELIMINARY ASSESSMENT OF A WAVE ENERGY CONVERSION PRINCIPLE, USING FULLY ENCLOSED MULTIAxis INERTIAL REACTION MECHANISMS .............................................................................................................. 420
Antoniadis Ioannis, Georgoutsos Vasili, Paradissiotis Andreas, Kanarachos Stratis, Gryllias Konstantinos

#196 ANALYSIS OF MOTION CHARACTERISTICS FOR AIR SPRING RAFT ISOLATION SYSTEM ............................................................................................................. 428
Shi Liang, Bu Wenjun, Xu Wei

#266 EMBEDDED MODEL PREDICTIVE VIBRATION CONTROL ON LOW-END 8-BIT MICROCONTROLLERS VIA AUTOMATIC CODE GENERATION ............................................................................................................ 434
Takacs Gergely, Zometa Pablo, Findeisen Rolf, Rohal-Iliv Boris

#361 VIBRATION SUPPRESSION OF FEED DRIVE SYSTEM FOR MACHINE TOOL USING SHAPING TECHNIQUE ............................................................................................................. 442
Tsai Meng-Shiun, Huang Ying-Chie, Chen Chun-Yu, Liu Chien-Sheng

#378 IMPLEMENTATION OF LAB VIEW SIGNAL PROCESSING PLATFORM FOR ACTIVE NOISE CONTROL IN ACOUSTIC WAVEGUIDE ................................................................................................................. 450
Greshnnakov Pavel, Safin Artur, Bulyaba Maxim, Ermlion Michael, Troshin Andrey, Igolskin Alexander

#392 TRAJECTORY PLANNING METHOD FOR FLEXIBLE ARM MOUNTED ON FLEXIBLE BASE ........................................................................................................................... 457
Abe Akira, Kitayama Hiroshi

#551 ACTIVE ACOUSTIC DOUBLE-PANEL STRUCTURES USING ACTIVE ACOUSTICAL BOUNDARY CONTROL STRATEGY ................................................................................................. 464
Ning Shaowu, Shi Zijiu, Zhang Jie

#763 AN ACTIVE ACOUSTIC METAMATERIAL FOR THE CONTROL OF SOUND TRANSMISSION ................................................................................................................................. 472
Cheer Jordan, McCormick Cameron, Daley Steve

#786 INVESTIGATIONS ON SLAT NOISE REDUCTION TECHNOLOGIES BASED ON PIEZOELECTRIC MATERIAL, PART II: CONTROL SYSTEM DESIGN AND WIND TUNNEL TEST ............................................................................................................. 480
Song Xiaoy, Qia Jinhuo, Ji Hongli, Yu Jinhai, Breaed Cyrille, Sun Yefeng

#787 INVESTIGATIONS ON SLAT NOISE REDUCTION TECHNOLOGIES BASED ON PIEZOELECTRIC MATERIAL, PART I: 2-ELEMENT AIRFOIL WIND TUNNEL TEST MODEL DESIGN .......................................................................................................................... 487
Li Qiang, Sun Yefeng, Breaed Cyrille, Zhang Yingche

#859 VIBRATION CONTROL OF BEAMS AND PLATES WITH HYBRID ACTIVE-PASSIVE CONSTRAINED LAYER DAMPING TREATMENTS ........................................................................... 493
Koh Byungjun, Rustighi Emiliano, Waters Timothy, Mace Brian

#935 VIBRATION SUPPRESSION OF RACK VIA VIBRATION ABSORPTION METHOD ................................................................................................................................. 501
Yan Bo, Zhou Yanlin, Wang Ke, Qiao Zhihong
#973 ACTIVE BOUNDARY CONTROL OF A FLEXIBLE MARINE RISER; COMPARISON BETWEEN RESPONSES CORRESPONDED TO LINEAR AND EXPONENTIAL OCEAN CURRENT PROFILE ........................................506
Bakhtiari-Nejad Firooz, Azimi Arastoo, Nobari Mohammad Reza Herani

#1016 BRIDGE STRUCTURES DYNAMIC ANALYSIS AND VIBRATION CONTROL ........................................514
Bencat Jan, Papan Daniel

CONDITION MONITORING AND VIBRATION TESTING

#704 ROTOR DYNAMICS ANALYSIS AND VIBRATION MEASUREMENT OF THE COMPOSITE FLYWHEEL BEARING SYSTEM FOR ENERGY STORAGE ..................................................522
Dai Xingjian, Zhang Kai, Zhang Xiao-Zhang

#169 ESTIMATION OF CHANGING VIBRATION CONDITIONS OF COMPLICATED MECHANISMS USING VIBRATION CHARACTERISTICS OF START-UPS AND RUN-DOWNS 528
Peter Brancevic, Yifin Li

#278 USING UPDATED MODEL FOR THE CRASH ANALYSIS ..................................................................536
Yunus Mohd Azmi, Hassin Nor Munirah, Ghani Amir Radzi Ab., Rani Muhhamd Norhisham Abdul, Kasolang Salmiah

#307 VIBRATION DATA PRE-PROCESSING TECHNIQUES FOR ROLLING ELEMENT BEARING FAULT DETECTION ........................................................................................................544
Peeters Cedric, Guillaume Patrick, Helsen Jan

#606 NEW CEPSRATIONAL METHODS FOR THE DIAGNOSIS OF GEAR AND BEARING FAULTS UNDER VARIABLE SPEED CONDITIONS .............................................................552
Randall Robert, Smith Wade

#793 ANALYSIS OF WORKING BODY TRACK VIBRATIONS OF A SINGLE BUCKET EXCAVATING EQUIPMENT DURING THE BANK-SLOPING AND DIFFERENTIAL EXCAVATION PROCESSES .......................................................................................................................560
Curduman Laurentiu, Debeleac Carmen, Nastac Silviu

#827 DESIGN OF A VIBRATION AND NOISE TESTING SYSTEM OF ROLLING BEARINGS 566
Zhang Bo, Sun Qiang, Wang Bo

#1008 VIBRATION MEASUREMENT PLAN FOR FEED-WATER PIPING SYSTEM FOR THE APR1400 COMPREHENSIVE VIBRATION ASSESSMENT PROGRAM ..................................................571
Ko Doyoung

FAULT DIAGNOSIS AND PROGNOSIS

#205 COMBUSTION RELATED FAULT DIAGNOSIS OF LARGE DIESEL ENGINE BY ANALYSIS OF IAS BASED ON EEMD.......................................................................................................................577
Wang Shuai, Yang Xiang, Lei Wang

#93 COMPUTER SIMULATION OF FAULTED PLANETARY GEARBOXES USING ANSYS .................................................................................................................................585
Rangel Daniel, Li Zhuang

#250 DISCRIMINATION METHOD FOR SPINDLE VIBRATION ANALYSIS BASED ON EMPIRICAL MODE DECOMPOSITION AND INDEPENDENT COMPONENT ANALYSIS ALGORITHM 593
Tsai Yu-Ting, Huang Jinh H.

#815 ANGLE-ORDER ANALYSIS BASED BEARING FLAW DIAGNOSIS VIA HARDWARE IMPLEMENTED ORDER TRACKING TECHNIQUE ........................................................................601
Wu T. Y., Lai C. H., Liu C. S.

#179 KNOCK INTENSITY DIAGNOSIS BY VIBRATION ANALYSIS USING ENSEMBLE EMPIRICAL MODE DECOMPOSITION ........................................................................................................609
Li Ning, Cai Chilan, Liang Cuiqing

SHIP NOISE AND VIBRATION

#427 MEASUREMENT METHODS FOR THE ASSESSMENT OF NOISE IMPACT OF LARGE VESSELS .................................................................................................................................616
Di Bella Antonio, Fausti Patrizio, Remigi Francesca, Tombolato Andrea

#745 EXPERIMENTAL APPROACH TO IDENTIFY THE CAMOUFLAGED SIGNALS IN STRUCTURE-BORNE NOISE AND AIR-BORNE NOISE ON SHIPS ..................................................................................623
Seo Youngsoo, Choi Taemuk, Kim Jinhyeong, Choi Sungwon, Kweon Jeongil, Cho Changyoung

#767 KEY FACTORS OF A SHIP INTERNAL NOISE PREDICTION PROCEDURE .................................................................................................................................629
Carletto Simone, Tarditi Cesare

#908 SEAFARERS’ WORK EXPOSURE TO TONAL NOISE COMPONENTS ..................................................................................636
Borelli Davide, Gaggero Mauro, Gaggero Tomaso, Rizzuto Enrico, Schenone Corrado

MARINE PROPELLERS AND PROPELLER-SHAFTING SYSTEMS

#194 LATERAL VIBRATIONS OF MARINE PROPULSION SHAFT TAKING INTO ACCOUNT THE SHAFT ALIGNMENT CONDITIONS ........................................................................................................642
Li Zhengmin, He Lin, Xu Wei, He Jiangyang
#289 EXPERIMENTAL RESEARCH ON SHIP SHAFTING POWER FLOW UNDER PROPELLER EXCITING FORCE .................................................................650
Chen Kai, Zhou Xincong, Zhang Cong, Jiang Xinchen, Qin Li, Cai Jujang

#294 ANALYSIS AND ACTIVE CONTROL FOR POWER FLOW OF A SHIP PROPULSION SHAFT .................................................................658
Zhang Cong, Yan Xiping, Zhou Xincong, Chen Kai, Huang Qianwen

#172 AN IMPROVED FOURIER SERIES SOLUTION FOR VIBRATION ANALYSIS OF COUPLED SHAFTING-UNDERWATER STRUCTURE ..........665
Zhang Ranze, Cai Yipeng, Xuan Lingfuan, Zhang Wenping

#75 NUMERICAL ANALYSIS OF ADDED MASS FOR MARINE PROPELLERS USING PANEL METHOD WITH OR WITHOUT CONSIDERATION OF WAKE SHEDDING ..................................................673
Zou Donglin, Jiao Chunxiao, Ta Na, Bao Zhuai

#279 THE ACOUSTIC BEHAVIOR OF A ROTATING BODY ANALYZED THROUGH THE FLOWCS WILLIAMS-HAWKINGS EQUATION ................................681
Iannelli Sandro

UNDERWATER NOISE AND NOISE MAPPING

#821 DETERMINATION OF SHIPS AS NOISE SOURCES AND NOISE MAPPING AT PASSENGER & CRUISE PORT OF PIREAUS .................................................................................................................................689
Kamali Walid, El Moghrabi Yara

#716 EFFECTS OF NOISE GENERATED BY PORT ACTIVITIES INTO THE SURROUNDING AREA OF TRIPOLI PORT, LEBANON ..................................................................................................................697

#216 STATISTICAL, SPECTRAL AND WAVELET FEATURES OF THE AMBIENT NOISE DETECTED IN THE SOUTHERN BALTIC SEA ..................................................................................................................705
Tegowski Jaroslaw, Koza Radomil, Pawlitzka Iwona, Skora Krzysztof, Trzcinska Karolina, Zbrok Jakub

#454 AQUO PROJECT - RESEARCH ON SOLUTIONS FOR THE MITIGATION OF SHIPPING NOISE AND ITS IMPACT ON MARINE FAUNA - SYNTHESIS OF GUIDELINES .............................................................711
Audoly Christian, Roussel Celine, Baudin Eric, Folegot Thomas

#509 STATISTICAL ANALYSIS OF SHIP NOISE RECORDS .................................................................................................................................719
Gaggiorno Tomaso, Gaggiorno Stefano, Rizutto Enrico, Tani Giorgio, Traverso Federico, Trucco Andrea, Villa Diego, Viviani Michele

#673 UNDERWATER NOISE FROM SHIPS - CAUSES AND GENERAL APPROACHES TO NOISE CONTROL ........................................................................726
Spence Jesse, Fischer Ray

NOISE AWARENESS AND SUSTAINABLE EDUCATION IN ACOUSTICS

#70 CHINESE WORD IDENTIFICATION PERFORMANCE OF CHILDREN IN DIFFERENT CLASSROOM ACOUSTICAL ENVIRONMENTS ...........................................................................................................734
Jianxin Peng

#330 THE ACOUSTIC ENVIRONMENT AND ITS CONTROLLING FACTORS IN PRIMARY SCHOOLS IN GREECE ...............................................................................................................................742
Kassomenos Pavlos, Pashalidou Anastasia, Sarantopoulos George

#871 THE NOISEIEST COUNTRY IN THE WORLD .........................................................................................................................................750
Asensio Cesar, de Arcas Guillermo

VOLUME 2

EU PROJECTS ON NOISE MITIGATION MEASURES, MONITORING & RISK PERCEPTION

#518 CONTRIBUTIONS TO END INTERPRETATION AND IMPLEMENTATION FROM THE ITALIAN CASE STUDIES OF EU FUNDED PROJECTS HUSH, NADIA AND QUADMAP ..............................................................................757
Borchi Francesco, Bartalucci Chiara, Carta Giorgi Monica, Governi Lapo, Bellomini Raffaella, Luzzi Sergio, Asdrubali Francesco, D'Alessandro Francesco, Schiavoni Samuele

#588 PARTICIPATION THROUGH KNOWLEDGE SHARING AND TRANSFER: NOISE MONITORING & NOISE RISK PERCEPTION ..................................................................................................................765
Cori Liliana, Coi Alessio, Manzoli Federica, Mezzaluna Lorena, Minichilli Fabrizio, Bianchi Fabrizio

#589 PARTICIPATION THROUGH KNOWLEDGE SHARING AND TRANSFER: STUDENTS PARTICIPATION AND NOISE RISK PERCEPTION ...........................................................................................................772
Manzoli Federica, Cori Liliana, Bianchi Fabrizio, Chetoni Marco, Ascarì Elena, Bibiana Losapio

#604 CORRELATION BETWEEN PERCEIVED AND MEASURED NOISE, WITHIN THE GIOCONDA PROJECT .................................................................................................................................779
Chetoni Marco, Liccari Gaetano, Minichilli Fabrizio, Cori Liliana, Frediani Luca, Bianco Francesco
AN HOLISTIC APPROACH OF ACOUSTICAL DESIGN IN ARCHITECTURE

#404 FUNCTION FOLLOWS FORM. ARCHITECTURAL FORM AND SOUND PROPAGATION .......................................................... 787
O'Connor Mark, Jefferson Keith, D'Aviller, Jorge

#731 INTEGRATED ACOUSTIC DESIGN IN URBAN ARCHITECTURE; THE CASE OF PUBLIC OPEN AIR SPACES .......................................................... 795
Sotiropoulou Alexandra, Triantis Efrosyni, Tzouvadasakis Ioannis, Vlachos George, Kontonikas Konstantinos

#732 INTEGRATED ACOUSTIC DESIGN IN THE ARCHITECTURE OF AUDITORIA .......................................................... 803
Sotiropoulou Alexandra, Kwok Kenson

#749 THE DANCE BETWEEN VISION AND SOUND - WHERE DO WE LOOK WHEN WE LISTEN? .......................... 808
Minors Anne

#971 THE ATHENS RESEARCH CENTRE FOR MUSIC ACOUSTICS AND ARCHITECTURE; INTEGRATED ACOUSTICAL DESIGN OF THE MULTIPURPOSE AUDITORIUM .......................................................... 816
Kousi Maria, Karagiannis Ioannis, Gyiopoulos Stauros, Sotiropoulou Alexandra

#972 ACOUSTICS AND THE ARCHITECTURAL DESIGN OF ROCK AUDITORIA .......................................................... 824
Panos Antonios, Mourit Chrystos, Sotiropoulou Alexandra

RAILWAY GROUND BORNE NOISE AND VIBRATION

#50 AN INVESTIGATION OF NUMERICAL PROCEDURES TO ASSESS THE RAIL-INDUCED NOISE AND VIBRATION RESPONSE OF TALL BUILDINGS .......................................................... 832
Botke Artun, Yazgac Deniz

#299 A STUDY OF GROUNDBORNE VIBRATION GENERATED BY FREIGHT TRAINS .......................................................... 840
Bewes Oliver, Hiller David, Wilkinson Ben, Appleby James, Webb Josette

#301 TRACK DESIGN TO CONTROL RAILWAY INDUCED GROUNDBORNE NOISE AND VIBRATION FROM THE UK'S CROSSRAIL PROJECT .......................................................... 847
Bewes Oliver, Webb Josette, Greer Richard, Cobbing Colin

#382 VIBRATION EMISSION FROM RAILWAY LINES IN TUNNEL - PART 1: CHARACTERIZATION .......................................................... 855
Augis Eric, Villot Michel, Jean Philippe, Bailhache Simon, Gallais Cedric, Roparts Pierre, Guiou-Carter Catherine

#384 VIBRATION EMISSION FROM RAILWAY LINES IN TUNNEL - PART 2: PREDICTION .......................................................... 863
Villot Michel, Augis Eric, Guiou-Carter Catherine, Bailhache Simon, Jean Philippe, Roparts Pierre

#527 A POWER-FLOW BASED INVESTIGATION INTO THE RESPONSE OF TALL BUILDINGS TO GROUND-BORNE VIBRATION .......................................................... 871
Sanitate Giuseppe, Talbot James P

#641 RAILWAY VIBRATION PREDICTION FOR HIGH SPEED TRAINS UTILISING THE PIPE IN PIPE (PIP) SOFTWARE METHODOLOGY TO DETERMINE GROUNDBORNE NOISE LEVELS IN THE VICINITY OF DIFFERENT TUNNEL TYPES .......................................................... 879
Parry Graham, Summers Steve, Mills Ben, Ledbetter Mike, Yates David

#706 THE RELATIONSHIP BETWEEN FLOOR VIBRATION FROM AN UNDERGROUND SOURCE AND AIRBORNE SOUND PRESSURE LEVEL IN THE ROOM .......................................................... 885
Thornely-Taylor Rupert

#709 Ebury Square, London - Building Isolation Case-Study from Sub-Surface Trains .......................................................... 893
Kelly Roger

#956 THE FACTORS ASSOCIATED WITH THE MANAGEMENT OF COMBINED RAIL / WHEEL ROUGHNESS TO CONTROL GROUNDBORNE NOISE AND VIBRATION FROM THE UKS CROSSRAIL PROJECT .......................................................... 901
Methold Rick, Jones Chris, Cobbing Colin, Cronje James

#981 TUNNEL BORING MACHINE VIBRATION IMPACT PREDICTION METHOD BASED ON SURFACE VIBRATION MEASUREMENTS AND TUNNEL TO SURFACE TRANSFER FUNCTION CALCULATION .......................................................... 909
Bigot Alexis, Faroito Giovanni

VEHICLE NOISE, VIBRATION AND HARSHNESS

#12 EXPERIMENTAL TESTING OF DOOR PANEL BOUNDARY CONDITIONS TO DETERMINE NVH VARIABILITY .......................................................... 917
Dowsett Amy, O'Boy Dan, Walsh Stephen, Abolfathi Ali, Fisher Steven

#33 DESIGN OF QUIET PERMANENT MAGNET SYNCHRONOUS ELECTRICAL MOTORS BY OPTIMUM SKEW ANGLE .......................................................... 924
Le Besnerais Jean, Souron Quentin

#45 EXHAUST MOUNT PLACEMENT OPTIMISATION WITH COMPARABLE METHODS .......................................................... 932
Botke Artun, Yagmac Deniz

#58 ACOUSTIC LIGHTWEIGHT NVH PARTS IN EUROPEAN CAR ENGINE BAY AND UNDERBODY APPLICATIONS: A CONSOLIDATED PARADIGM SHIFT .......................................................... 940
Ferrari Leonardo, Cardillo Marco, Caprioli Davide

#63 ASSESSMENT OF NOISE INSIDE A TRAM DURING A RIDE AND AT A STANDSTILL .......................................................... 948
Orczyk Malgorzata, Tomaszewski Franciszek, Czechyra Bartosz, Szymanski Grzegorz M.

AEROACOUSTICS

#55 UNIVERSAL SCALING LAWS ON SOUND GENERATED AERODYNAMICALLY .......................................................... 1130
Sun Bohua

#98 AN EVALUATION OF GRADIENT TERM MODIFICATIONS METHODS FOR LINEARIZED EULER EQUATIONS
Sun Youzhao, Zhong Siyang, Fanhuo Ruo, Zhang Xin, Chen Xiaoxian

#103 DIFFRACTION OF AN ACoustic PLANE WAVE BY TWO STAGGERED HALF-PLANEs IN A MEAN FLOW WITH VELOCITY DISCONTINUITY ................................................................. 1146
Bychkov Oleg, Farzamov George

#114 STUDY ON THE AERODYNAMIC NOISE CHARACTERISTICS OF DIESEL TURBOCHARGER .............................................. 1154
Liu Chen, Cao Yipeng, Liu Yang, Zhang Wenping, Ming Pinguin

#136 MODELLING DIRECTIONAL SOUND RADIATION IN ANTARES BY THE FFOWCS WILLIAMS AND HAWKINGS ANALOGY ................................................................. 1162
Di Stefano Danilo, Rona Audo, Hall Edward, Puigt Guillaume

#161 A COMBINED BOUNDARY INTEGRAL FORMULATION FOR WAVE PROPAGATION IN WEAKLY NON-UNIFORM FLOWS ......................................................................................... 1170
Menounos Penelope, Klages Christina

#305 TOWARDS LARGE AEROACOUSTIC APPLICATIONS THROUGH A HYBRID APPROACH BASED ON THE LINEARIZED EULER EQUATIONS ........................................................ 1178
Legrand Cesar, de Brye Benjamine, Subramaniam Shiram, Ganty Bastien, Dutandi Yves, Bailly Christophe

#313 LATTICE BOLTZMANN BASED AEROACOUSTIC SIMULATION OF TURBOFAN NOISE INSTALLATION EFFECTS ............................................................................................................ 1186
Casalino Damiano, Huyz Andreas

#328 TURBULENCE-CASCADE INTERACTION NOISE USING AN ADVANCED DIGITAL FILTER METHOD ............................................................................................................................... 1194
Gea-Eguigera Fernando, Gill James, Zhang Xin, Node-Langlois Thomas

#336 TURBULENT CORRELATIONS IN HEATED JETS FROM LES FOR RANS-BASED JET NOISE PREDICTION ................................................................................................................ 1202
Rosa Victor, Self Rod, Hario Carlos, Naqavi Iftekhar, Tucker Paul

#413 A VIRTUAL SOURCE METHOD FOR THE PREDICTION OF THE SOUND FIELD AROUND COMPLEX GEOMETRIES ........................................................................................................ 1209
Menounos Penelope, Klages Christina

#519 A HIGH-FREQUENCY CONTINUATION METHOD FOR PROPAGATING INTO THE CONE OF SILENCE .......................................................................................................................... 1217
Venkatesh Balaji Jayanth, Stone Jonathan T, Self Rod

#566 INVESTIGATION OF NOISE GENERATION IN TURBULENT JETS USING LARGE EDDY SIMULATIONS ........................................................................................................................................ 1225
Barbarino Mattia, Bianco Davide

#752 BEM-FMM SIMULATION OF UNIFORM MEAN FLOWS WITH A NEW INTERNAL-POINT ALGORITHM FOR THE CHIEF SPURIOUS SOLUTIONS REMOVAL .................................................................... 1232
Barbarino Mattia, Bianco Davide

#753 A HYBRID APPROACH FOR LAUNCH SYSTEM SCATTERING OF EMPIRICAL CORRELATED SOURCES IN ROCKET NOISE PREDICTION ........................................................................ 1240
Barbarino Mattia, Adamo Francesco, Bianco Davide, Bartoccini Daniele

#968 STUDY OF WAKE CHARACTERISTICS OF CIRCULAR CYLINDER WITH SPIRAL FIN RELATING TO AÉOLIAN TONE ......................................................................................................... 1248
Hayashi Hidechito, Okamura Tetuya, Hamakawa Hiromitsu

SOUND ABSORPTION MATERIALS

#14 ACoustIC PROPERTIES OF AEROGEL ENCAPSULATED BY MACROPOROUS CELLULOSE .......................................................... 1255
Lefebvre Jerome, Genestic Benoit, Chartier Thierry, Lavie Antoine, Leblanc Alexandre

#53 ACoustIC PROPERTIES OF THE POROUS MATERIAL IN A CAR CABIN MODEL ........................................................................... 1262
Liu Zhengqing, Fard Mohammad, Davy John

#78 INVESTIGATION OF ACOUSTIC PERFORMANCE OF COMPRESSED WOOL CARPETS ........................................................................ 1270
Gea-Aguilera Fernando, Gill James, Zhang Xin, Node-Langlois Thomas

#168 IMPROVEMENT OF ACOUSTIC PERFORMANCE OF DOUBLE LAYERED SOUND ABSORPTION SYSTEM WITH HIGH DENSITY POLYESTER ................................................................................. 1275
Yoon Je Won, Jung Kang Seok, Cho Yong Thung

#256 GEAR MATERIAL PHYSICAL PROPERTIES EFFECTS ON VIBROACOUSTIC CHARACTERISTICS OF THE PUMP ................................................................................................................ 1282
Rekadze Pavel, Rodionov Leonid, Riman Olesya

#258 EFFECTS OF PErMEABILITY ON SOUND ABSORPTION AND SOUND INSULATION PERFORMANCE OF ACOUSTIC CEILING PANELS ........................................................................... 1287
Hashizume Kento, Takehoshi Daisuke

#245 SOUND ABSORPTION OF MICROPERFORATED PANEL WITH SYMMETRICAL DISTRIBUTED MEMBRANE-TYPE ACOUSTIC METAMATERIALS .......................................................... 1295
Gai Xiao-Ling, Zhang Bin, Li Xian-Hui, Xing Tao, Zhao Jun-Juan, Qin Qin
#355 A LOW FREQUENCY SOUND ABSORBER WITH MULTIPLE MAGNETIC NEGATIVE STIFFNESS CELLS .......................................................... 1300
Jonquen Zhao, Li Xinhui, Wang Yuewei, Wang Wenliang, Zhang Bin, Gui Xiaodong

#431 CHARACTERIZING AND MODELLING THE SOUND ABSORPTION OF WOOD WOOL CEMENT BOARDS (WWCB) .......................................................... 1305
Botteman Bram, Horniks Maarten, Doudart de la Gree Guillaume, Yu Qingliang, Brouwers Jos

#768 MODELING AND ANALYSIS OF ACOUSTIC FIELD IN IMPEDANCE TUBE USING CELLULAR AUTOMATA .......................................................... 1313
Zhang Bo, Wang Xingbo

#843 SOUND ABSORPTION PERFORMANCE OF OIL PALM EMPTY FRUIT BUNCH FIBERS .......................................................... 1321
Khai Hiee Or, Putra Azma, Mohd Nor Mohd Jaliqani, Selamat Mohd Zulkefli, Zhi Ying Lim

#965 ACOUSTICAL CHARACTERISTICS OF THE SOUND ABSORPTION STRUCTURE WITH DENSELY ARRAYED CAPILLARY TUBE BUNDLES .................. 1329
Xie Hai, Lyu Yadong, Yang Jun, Cheng Xiaohin

MATERIALS FOR NOISE CONTROL

#56 THE EFFECT OF PERIODICITY IN GAN NANOROD ARRAYS FOR HYPERSONIC IMAGING .......................................................... 1336
Sun Chi-Kuang, Yang Szu-Chi

#142 DESIGN AND CHARACTERIZATION OF ACOUSTIC POROUS METASURFACE .......................................................... 1340
Fang Yi, Zhang Xiu, Zhou Jie

#184 APPLICATION OF FINITE AMPLITUDE WAVE TO ACOUSTIC METAMATERIAL .......................................................... 1348
Gan Woon Siong

#225 ACOUSTIC RAINBOW TRAPPING THROUGH PERFORATED STRUCTURES .......................................................... 1354
Liu Two, Zhu Jie

#407 OPTIMAL DESIGN OF PHONONIC CRYSTALS USING HIGHER-ORDER BOUNDARY ELEMENTS AND A SWARM OPTIMIZATION SCHEME .......................................................... 1362
Iemma Umberto, Marchese Vincenzo, Serani Andrea, Palma Giorgio

EFFECTS OF NOISE AND VIBRATION TO HEALTH AND HUMAN RESPONSE

#345 ASSESSMENT OF NOISE POLLUTION EFFECTS ON MENTAL TASK .......................................................... 1370
Nassiri Parvin, Behzadi Mohammad Hassan, Majidnejad Leila

#362 INFLUENCE OF STARTING DURATION ON THE UNEASINESS TO ENGINE AUTOMATIC START SOUND OF HEV .......................................................... 1376
Yoshida Junji, Ueno Toru, Nitta Shogo

#611 THE DYNAMIC RESPONSE OF STEREOCILIA BY GRADIENT ELASTICITY MODEL .......................................................... 1384
Guanakopoulos Antonios, Triantafyllou Antonios

#800 SUBJECTIVE RESPONSE OF STANDING PERSON AFFECTED BY FREQUENCY CONTENTS OF WHOLE-BODY VIBRATION .......................................................... 1389
Shibata Nobuyuki

SPEECH COMMUNICATION

#291 FINE ELEMENT GENERATION OF VOWEL SOUNDS USING DYNAMIC COMPLEX THREE-DIMENSIONAL VOCAL TRACTS .......................................................... 1395
Arnela Marc, Dabaghchian Saeed, Gussch Orlol, Engwall Olov

#380 INVESTIGATION OF QUANTIZATION SIZE FOR SOUND QUALITY IMPROVEMENT OF BODY-COUPLED SPEECH USING DIFFERENCE CALCULATION .......................................................... 1402
Nakayama Masashi, Ishimizu Shinsuke

#688 AN EFFICIENT METHOD OF EXTRACTING SINGING VOICE INFORMATION USING ELECTROGLOTTOGRAPHIC SIGNAL .......................................................... 1408
Kehrakos Kostas, Chousidis Christos, KouzoupisSpyros

#697 ANALYSIS AND SYNTHESIS OF DEVANAGARI FRICATIVES .......................................................... 1416
Kahar Saurthb, Tiwari Nachiketa

#755 PERCEPTUAL RESTORATION OF INTERMITTENT SPEECH USING HUMAN SPEECH-LIKE NOISE .......................................................... 1424
Mezumachi Mitsunori, Imanaga Shouma, Hortichi Toshitaru

THE EU DIRECTIVE 2002/49/EC AND THE NEW COMMON NOISE ASSESSMENT METHODS (CNOSSOS-EU) FOR ROAD, RAILWAY, AIRCRAFT AND INDUSTRIAL NOISE

#568 THE MAIN NEW REQUIREMENTS OF THE COMMISSION DIRECTIVE 996/2015 .......................................................... 1430
Pavioti Marco, Kephalaopoulos Stylianos

#270 CONVERSION OF NATIONAL ROAD EMISSION DATA INTO CNOSSOS-EU .......................................................... 1435
Bartolomaeus Wolfrahm

#581 CONVERSION OF EXISTING RAILWAY SOURCE DATA TO USE CNOSSOS-EU .......................................................... 1443
Shilton Simon, Pavioti Marco, Jones Rick, Jones Nigel
#792 CONSISTENT IMPLEMENTATION OF DIRECTIVE EU 2015/996 ON CNOSSOS-EU IN SOFTWARE
UNDER ISO 17534.................................................................1451
Shilton Simon, Probst Wolfgang

STRATEGIC NOISE MAPPING & ACTION PLANS OF MAJOR URBAN AGGLOMERATIONS, AIRPORTS,
ROADS AND RAILWAYS IN GREECE

#552 STRATEGIC NOISE MAPPING IN URBAN AGGLOMERATIONS OF GREECE..............................1458
Psychas Kyriakos, Dalamagas Vassilios

#26_ STRATEGIC NOISE PLAN OF ATHENS - INTRODUCING A LARGE SCALE ACTION PLAN AT THE
HISTORIC CENTRE .................................................................1466
Vogiatzis Konstantinos, Antoniadis Charalampos

#580 STRATEGIC NOISE MAPPING AND NOISE ACTION PLANNING IN ATTICA TOLLWAY..............1474
Haikias Bill, Vogiatzis Konstantinos, Papadimitriou Aristofanis, Mandeliotis Dimitrios, Kolettis Nikolaos, Drimeris Konstantinos

#888 STRATEGIC NOISE MAP & ACTION PLANS FOR THE AGGLOM. M6 “PIRAEUS”
(2002/49/EC DIRECTIVE) .......................................................1481
Chorianaki Fotini, Dalamagas Vassilios, Haidarlis Marios, Zekkos Michalis, Dalamaga Dimitra

#578 ENVIRONMENTAL NOISE MAPPING IN THESSALONIKI GREECE ......................................1489
Panagopoulos Iannis, Bizakis Apostolos, Zisopoulou Dora, Karayannis Athanasios, Kolletis Nikolaos, Tzakakis Emmanuel,
Kassomenos Pavlos

#369 THE RELOCATION OF HERACLIION INTERNATIONAL AIRPORT. AN HOLISTIC
ENVIRONMENTAL APPROACH ..............................................1497
Kassomenos Pavlos, Vogiatzis Konstantinos, Paschalidou Anastasia

#648 STRATEGIC NOISE MAPPING OF THE GREEK MEDIUM SIZE URBAN AGGLOMERATIONS OF
CORFU (KERKYRA) AND AGRINIO ACCORDING TO THE EUROPEAN DIRECTIVE 2002/49/EU, WITH
EMPHASIS TO THE INT. AIRPORT OF CORFU ..................................................1504
Bekiaris Ioannis, Papageorgiou Spyros, Elion Nikolaos, Antoniadis Charalampos, Kolettis Nikolaos, Kontolemakis Ioannis

VOLUME 3

#995 MATHEMATICAL RELATIONSHIP BETWEEN LDEN AND NEF FOR AIRCRAFT NOISE......................1512
Mikroudis George, Vogiatzis Konstantinos

#452 STRATEGIC NOISE MAPPING AND ACTION PLANS ACCORDING TO THE EU DIRECTIVE
2002/49/EC - THE CASES OF SERRES AND KALAMARIA CITIES ........................................1520
Argyropoulos Demetris, Sakalis Antonios, Bendos Dimitris, Iliopoulos Constantinos

STRATEGIC NOISE MAPPING & ACTION PLANS OF MAJOR URBAN AGGLOMERATIONS, AIRPORTS,
ROADS AND RAILWAYS IN ITALY

#847 NOISE MAPPING AND PLANNING IN THE CITY OF FLORENCE ..................................................1528
Melloni Arnaldo, Pecchioni Giessca, Bellomini Raffaella, Luzzi Sergio

#463 NEW COMMON NOISE ASSESSMENT METHODS (CNOSSOS-EU) FOR AIRCRAFT NOISE:
COMPARISON WITH PREVIOUSLY AVAILABLE PROCEDURES AND TEST IN THE APPLICATIVE
CASE STUDY OF FLORENCE, ITALY ....................................................1534
Bartalucci Chiara, Borch Francesco, Carfagni Monica

#758 AN INNOVATIVE APPROACH FOR THE REALIZATION OF A NOISE ACTION PLAN: THE
EXPERIENCE OF VICENZA AGGLOMERATION .............................................1542
Schiavoni Samuele, D’Alessandro Francesco, Asdrubali Francesco

#605 THE IMPACT OF NOISE EXPOSURE ON CITIZEN HEALTH IN SOME TUSCANY CITIES: WHAT
DALY CAN SUGGEST TO LOCAL ADMINISTRATORS ........................................1550
Palazzuoli Diego, Licitra Gaetano, Ascari Elena

#722 THE EU DIRECTIVE 2002/49/EC IMPLEMENTATION IN ITALY: ANALYSIS OF CRITICAL
ASPECTS AND PROPOSALS .............................................................1557
Silvaggio Rosalba, Curcuruto Salvatore

STRATEGIC NOISE MAPPING & ACTION PLANS OF MAJOR URBAN AGGLOMERATIONS, AIRPORTS,
ROADS AND RAILWAYS IN PORTUGAL & SPAIN

#967 STRATEGIC NOISE MAPS IN EUROPE: STATE OF THE ART WITH A FOCUS ON SOUTHERN
EUROPEAN COUNTRIES ...........................................................1564
Blanes Nuria, Fons Jaume, Segues Fernando

#950 ON NOISE MAPPING AND ACTION PLANS IN PORTUGAL ..................................................1572
Coelho Jose Luis Bento, Alarcão Diogo
THERMOACOUSTICS AND ORIFICE ACOUSTICS

#817 RESPONSE OF SWIRL-STABILIZED PERFECTLY PREMINED FLAME TO HIGH-AMPLITUDE VELOCITY EXCITATIONS

Iurashev Dmitry, Campa Giovanni, Anisimov Vyacheslav V.

#857 EVALUATION OF TEMPERATURE EFFECTS ON PASSIVE ACOUSTIC DAMPERS WITH A FREQUENCY-DOMAIN LINEARIZED NAVIER-STOKES EQUATIONS SOLVER

Tourmadre Jonathan, Martinez-Lera Paula, Desmet Wim

#1002 TIME-DOMAIN REPRESENTATION OF A FLAME TRANSFER FUNCTION WITH GENERALISED \( n \) – LAW FEATURING A TIME-LAG DISTRIBUTION

Gopinathan Sreenath Malamal, Bigongiari Alessandra, Heckl Maria A.

FLOW DUCT ACOUSTICS AND MUFFLERS

#156 ONEDIMENSIONAL NONREFLECTIVE BOUNDARY AND COUPLING CONDITION FOR TRANSIENT SIMULATION OF FLUID-ENERGY-MACHINERY AND PIPING SYSTEMS

Linkamp Andreas, Brunner Andreas

#268 EFFECT OF FLOW DIRECTION ON ACOUSTIC LINER IMPEDANCE MEASUREMENT RESULTS

Boden Hans, Cordioli Julio A., Spillere Andre M.

#319 THE STUDY OF MUFFLER PARAMETERS INFLUENCE ON PRESSURE REGULATOR DYNAMICS AND ACOUSTIC CHARACTERISTICS

Igoözlen Alexander, Akisnawev Kirill, Shakhmatov Evgeny, Stadnik Dmitry

#372 A 3D LINEAR ACOUSTIC NETWORK REPRESENTATION OF MUFFLERS INCLUDING HIGHER-ORDER MODES

Veloso Rafael, Elsenrr Yasser, Girstmair Josef, Fairbrother Robert

#791 EFFECT OF MEAN FLOW SHEAR ON SOUND PROPAGATION IN UNIFORM CIRCULAR DUCTS

Weng Chensyang, Boj Susann, Hanifi Aradeshir, Bake Friedrich

PHYSICAL ACOUSTICS

#411 TIME-DOMAIN EDGE DIFFRACTION MODEL

Menounou Penelope, Nikolaou Petros

#474 REAL-TIME MEASUREMENTS OF LINEAR ALTERNATOR PERFORMANCE INDICES UNDER THERMOACOUSTIC-Power-CONVERSION CONDITIONS

Ibrahim Abdelmaged, Abdelwahed Ahmed Yassin, Abdou Moamen, Abdel-Rahman Ehab

#478 EXPERIMENTAL INVESTIGATION OF THE EFFECTS OF MECHANICAL STROKE ON THE ACOUSTIC IMPEDANCE OF LINEALTERNATORS UNDER THERMOACOUSTIC-POWER-CONVERSION CONDITIONS

Abdelwahed Ahmed Yassin, Ibrahim Essawey Abdelmaged, Abdel-Rahman Ehab

#490 PERFORMANCE OF LINEAR ALTERNATORS USING PASSIVE LINEAR AND NON-LINEAR LOADS UNDER THERMOACOUSTIC-POWER-CONVERSION CONDITIONS

Abdelwahed Ahmed Yassin, Ibrahim Essawey Abdelmaged, Abdel-Rahman Ehab

#485 SENSITIVITY ANALYSIS OF LINEAR ALTERNATOR PERFORMANCE INDICES UNDER THERMOACOUSTIC-POWERCONVERSION CONDITIONS

Ibrahim Abdelmaged Hafez, Abdelwahed Ahmed Yassin, Abdel-Rahman Ehab

#538 BOUNDARY ELEMENT METHOD IN REFRACTIVE MEDIA

Bergman David

MODAL & FINITE ELEMENT ANALYSIS FOR ACOUSTICS AND VIBRATION

#782 DEVELOPMENT ON SIMULATION OF SMALL STRUCTURE MODAL ANALYSIS METHOD USING PIEZOELECTRIC FILM SENSOR

Mohd Irmam Ramli, Mohd. Zaki Nuawi, Shahrum Abdullah, Mohammad Rasidi Mohammad Rasani, Kho Ko Seng, Muhamad Arif Fadli Ahmad
#883 VIBRATION ANALYSIS OF ROTATING TWISTED BLADES ................................................................. 1721
Oh Yutaek, You Hong-Hee

#89 THE OPTIMIZATION OF SEVERAL TECHNOLOGICAL PARAMETERS OF ULTRASONIC VIBRATION AIDED FLOWFORMING ................................................................. 1724
Zhu Chengcheng, Zhao Shengfeng, Meng De’an, Zhang Chao

MODAL ANALYSIS & ROTOR DYNAMICS SIMULATION

#238 FREE AND FORCED VIBRATION OF ROTATING CANTILEVER PLATE ................................................................. 1729
Prabakaran Annamalai, Abhijit Sarkar

#262 GEAR PUMP MODAL ANALYSIS ................................................................. 1737
Safin Arthur I., Rodionov Leonid V., Makaryants Georgii M., Prokofiev Andrey B.

#644 ON THE NON-LINEAR DYNAMIC PROPERTIES OF TRABOND 8.2 STRUCTURAL ADHESIVE ................................................................. 1744
Ben Felch Lussaud, Verfendre Olivier, Kourousis Georges, De Frayeter Christophe

#666 FREQUENCY DOMAIN DYNAMIC SIMULATION OF AN ELECTRICAL MACHINE ROTOR ................................................................. 1752
Clappier Marcel, Gaul Lothar

#839 A TRIAL OF ACOUSTICAL DISTANCE MEASUREMENT BASED ON PHASE INTERFERENCE USING AN ULTRASONIC SOUND ................................................................. 1760
Nakano Tomoyuki, Shinohara Toshitiro, Ueho Tetsuji, Masato Nakayama, Nakazato Noboru

NUMERICAL METHODS & SIMULATION FOR ACOUSTICS AND VIBRATION

#104 MEASUREMENT, SIMULATION AND SYNTHESIS OF TURBULENT-BOUNDARY-LAYER-INDUCED VIBRATIONS OF PANEL STRUCTURES ................................................................. 1768
Misael Malle, Algermissen Stephan, Hu Nan, Monner Hans Peter

#620 SOIL STRUCTURE INTERACTION OF SEISMIC ISOLATED BRIDGES ................................................................. 1776
Papathanasiou Spyridoula Maria, Tsopoulos Panos

#176 FREE VIBRATION ANALYSIS OF COUPLED CYLINDRICAL SHELL-PLATE SYSTEM WITH ARBITRARY ELASTIC BOUNDARY CONDITIONS ................................................................. 1784
Cao Yipeng, Wang Jiachao, Zhang Ranze

#181 POWER FLOW ANALYSIS OF A FLOATING RAFT VIBRATION ISOLATION SYSTEM LOCATED ON AN ELASTIC PLATE-CYLINDRICAL SHELL STRUCTURE ................................................................. 1792
Xu Yang, Yang Tiejun, Liu Zhigang, Dai Lu

#192 PARAMETRIC OPTIMIZATION IN DESIGNING RAIL-INDUCED VIBRATION ISOLATION BARRIER USING SIMPLIFIED FEM-BASED APPROACH ................................................................. 1800
Wang Liang, Wu Yu-bin, Song Rui-Xiang, He Lei, Gan Ling-Feng

#115 THE FINITE ELEMENT TECHNIQUE OF THE SOLVING NON-LINEAR NON-STATIONARY DIFFERENTIAL EQUATION SYSTEM OF THE COMPLEX CONFIGURATION PIPING SYSTEM DYNAMICS ................................................................. 1808
Mironova Tatiana, Prokofiev Andrey

#214 DESIGN OF TIMBER BEAM FLOORS AGAINST VIBRATIONS ................................................................. 1816
Zygouras Christos, Zygouras Vassiliki, Vougioukas Emmanouil

#275 COUPLED ANALYSIS OF TWO-DIMENSIONAL ACOUSTIC AND MEMBRANE VIBRATION BY CONCENTRATED MASS MODEL ................................................................. 1824
Ishikawa Satoshi, Kijimoto Shinya, Matsuo Atsuo, Akayama Yuta

#314 FINITE ELEMENT SIMULATION AND EXPERIMENTAL VALIDATION OF SOUND WAVE PROPAGATION IN DUCTS WITH MOVING BOUNDARIES ................................................................. 1832
Arnela Marc, Guatric Oriol, Blandin Remi, Van Hirtum Annemie, Pelorson Xavier

#990 AN EFFICIENT APPROACH TO ASSESS THE ACOUSTIC PERFORMANCE OF 3D SONIC CRYSTAL NOISE BARRIERS ................................................................. 1840
Karrimi Mahmoud, Croaker Paul, Kessissoglou Nicole

VIBRO-AcouSTIC HOLOGRAPHY AND VIRTUAL FIELD GENERATION

#150 VIBRO-AcouSTIC HOLOGRAPHY AND OPTIMIZATION OF LAMINAR FLOW IN A DIE-SHEET FORMING PROCESS ................................................................. 1847
Demirtsekin Bircan, Sarigil A. Salihde

#595 A MULTI-APERTURE ACOUSTIC HOLOGRAPHY METHOD FOR MOVING VEHICLES ................................................................. 1854
Miao Feng, Yang Diange, Wen Junjie, Zhang Kai, Lian Xiaomin

#596 SOUND SOURCE DETECTION USING A FAST MOVING TIME DIFFERENCE OF ARRIVAL METHOD ................................................................. 1861
Zhang Kai, Yang Diange, Miao Feng, Wen Junjie, Lian Xiaomin
PATTERN RECOGNITION FOR ACOUSTICS AND VIBRATION

#231 COMBINATION OF WAVELET TRANSFORM AND MUTUAL INFORMATION FOR VEHICLE RECOGNITION ..............................................................1869
Fan Jiuliang, Dan Jabi, Zheng Sifa

#601 CAPTURING SYSTEM DYNAMICS USING COMPLEX NETWORKS AND GRANGER CAUSALITY ANALYSIS: APPLICATION TO ENVIRONMENTAL DATA ..............................................................1874
Charakopoulos Avraam, Katsoulis Georgios, Karakasis Theodoros, Papunicolaou Panos

#711 DATA NORMALIZATION TECHNIQUE IN SHM UNDER ENVIRONMENTAL VARIATIONS USING ONE-CLASS SVM ..............................................................1882
Kumar Kandan, Biswas Prabir Kumar, Dharg Nityhar

#901 NOVEL GEAR DIAGNOSIS TECHNIQUE BASED ON SPECTRAL KURTOSIS ..............................................................1890
Chandra Harish, Gelmant Len

CONTROL OF NOISE AND VIBRATION AT THE WORKPLACES

#113 EXPERIMENTAL STUDY OF LOW FREQUENCY VIBRATION ISOLATOR WITH QUASI-ZERO STIFFNESS ......................................................1898
Valleev Anvar, Tashkhatov Radmir, Zotov Alexey

#239 THE STUDY ON FRICTION DAMPING TECHNOLOGY WITH CONSTRAINT FRICTION LAYER ..............................................................1905
Wang Joyuan, Chen Tianming, Wang XiaoFeng, Xi Yunbai

#393 WORKER QUESTIONNAIRE FOR AFFORDABLE OCCUPATIONAL NOISE EXPOSURE EVALUATIONS ..............................................................1913
Florentin Juliette, Kouroussis Georges, Verlinden Olicer, Brux Philippe

#513 EVALUATION OF NOISE EXPOSURE AND HEARING ABILITY IN OPERATORS OF CALL CENTERS ..............................................................1921
Pawlaczzyk-Luszczynska Malgorzata, Dudarewicz Adam, Rutkowska Paulina, Zaborowski Kamil

#721 STATE-SPACE APPROACH TO TRANSIENT STATISTICAL ENERGY ANALYSIS (SEA) TO CONTROL NOISE IN IMPACT TYPE MACHINES ..............................................................1929
Manik Dhawesh

#805 CONTROL OF ULTRASONIC NOISE AT WELDING WORKSTATIONS ..........................................................................................1937
Smagowska Bozena, Plehan Dariusz

#885 THE MODEL OF DOUBLE PANEL STRUCTURE FOR ACTIVE CONTROL OF NOISE TRANSMISSION THROUGH MACHINE ENCLOSURE ..............................................................1944
Morzynski Leszek, Krukowicz Tomasz

APPLICATIONS OF ACTIVE CONTROL

#27 A SMART ACTIVE NOISE CONTROL SENSOR BASED ON FLOATING GATE METAL OXIDE SEMICONDUCTOR FIELD EFFECT TRANSISTOR: CONTROLLER DESIGN ..............................................................1950
Yang Cheng, Mao Cheng, Ma Haowen, Bu Xiaofeng, Zhang Limin, Yan Feng

#92 VIRTUAL CEILING SYSTEMS FOR OPEN CEILING MEETING ROOMS IN OPEN PLAN OFFICES ..............................................................1957

#107 COMPARISON OF FEEDFORWARD, FEEDBACK AND HYBRID STRUCTURES ON AN ANC HEADPHONE .................................................................................................1965
Wa Lifu, Qiu Xiaojun, Ma Jin, Guo Yecai

#151 PROTECTIVE WINDSHIELD SYSTEM FOR PEDESTRIAN PROTECTION USING MR DAMPER .................................................................................................1974
Lee Tae-Hoon, Choi Seung-Bok

#226 A SMART ACTIVE NOISE CONTROL SENSOR BASED ON FLOATING GATE METAL OXIDE SEMICONDUCTOR FIELD EFFECT TRANSISTOR: DEVICE DESIGN ..............................................................1982
Ma Haowen, Bu Xiaofeng, Mao Cheng, Yang Cheng, Zhang Limin, Yan Feng

#242 STATIC AND DYNAMIC ANALYSIS OF ELECTRICALLY ACTUATED VISCOELASTIC MICROBEAMS BASED ON A MODIFIED COUPLE STRESS THEORY .................................................................................................1989
Li Lei, Zhang Jichang, Wang Wei

#389 DESIGN OF FRACTIONAL ORDER NON-LINEAR ACTIVE NOISE CONTROL SYSTEMS .................................................................................................1997
Patel Vinod, George V. Nithin

#408 EFFECT OF A REFLECTING SURFACE ON THE GLOBAL POWER REDUCTION PERFORMANCE OF MULTICHANNEL ANC SYSTEMS .................................................................................................2005
Tao Jiancheng, Qiu Xiaojun

#479 TOWARDS THE IMPLEMENTATION OF THE NOISE-CANCELLING OFFICE CHAIR: ALGORITHMS AND PRACTICAL ASPECTS .................................................................................................2013
Treyer Daniel, Gaulocher Sebastian, Germann Silvano, Curtiger Erwin

#557 ACTIVE EXHAUST SILENCER USING AN OSCILLATING BUTTERFLY VALVE .................................................................................................2021
Howard Carl, Leclercq Damien, Hunter Morgan

#586 ACOUSTIC FEEDBACK CANCELLATION OF ACTIVE NOISE CONTROL SYSTEMS WITH OPTIMIZED SECONDARY PATH .................................................................................................2029
Ma Haowen, Zhang Limin, Yan Feng

EVALUATION AND CONTROL OF ACOUSTIC PERFORMANCE OF BUILDING ELEMENTS

#94 CALCULATION OF THE SCATTERING COEFFICIENT OF SOUND DIFFUSERS USING AN IMPROVED BOUNDARY MESHLESS METHOD ........................................................................................................................................... 2242
Wang Haitao, Yan Shenggang, Zeng Xiangyang, Chen Kean

#304 ACOUSTIC AND THERMAL PROPERTIES OF BUILDING ENVELOPE WITH ETICS ........................................................................ 2250
Miskinis Kestutis, Dikavicius Vidmantas, Buskia Andrius

#475 EVALUATION OF THE INFLUENCE OF VENTILATION HOLES ON THE FACADES SOUND INSULATION ........................................................................................................... 2258
Martini Martino, Mastino Costantino Carlo, Baccio Roberto, Di Bella Antonino

VOLUME 4

ACOUSTICS OF HISTORICAL RELIGIOUS SPACES OF EASTERN AND WESTERN MEDITERRANEAN CULTURES

#199 MANUSCRIPT THE EVALUATION OF ACOUSTICAL PERFORMANCE OF THE AH SHAFETTIN (ASLANHANE) HERMITAGE AND MOSQUE ............................................................................................................................... 2266
Demirel Fusun, Iliula Gul Sebahat, Ozcinal Zuhal, Pektas Sumeyra, Seven Yusuf, Uysal Ezra

#296 DISCRETISATION OF CURVED SURFACES AND CHOICE OF SIMULATION PARAMETERS IN ACOUSTIC MODELING OF RELIGIOUS SPACES ................................................................................................................. 2274
Koutsouris George, Norgaard Andreas Kornelius, Christensen Claus Lyenge, Rindel Jens Holger

#607 PERCEIVED AUDITORY ENVIRONMENT IN HISTORIC SPACES OF ANATOLIAN CULTURE: A CASE STUDY ON HACI BAYRAM MOSQUE .................................................................................................................. 2282
Asun Volkan, Yilmazer Semih, Tahtezadeh Parulis

#693 ACOUSTIC MEASUREMENTS IN ORTHODOX CHURCHES OF THE MODERN GREEK PERIOD ........................................................................ 2290
Konstantopoulos Ioannis, Sotropoulos Alexander, Poulakos George, Panos Antonios, Karagiannis Ioannis

#826 ACOUSTICAL INFLUENCE OF DIFFERENT LOCATIONS OF THE CHOIR IN THE CATHEDRAL OF GRANADA FROM A SUBJECTIVE AND OBJECTIVE OVERVIEW ............................................................................. 2298
Alonso Alicia, Suarez Rafael, Sendra Juan J.

THE ACOUSTICS OF ANCIENT GREEK & ROMAN THEATRES

#386 THE MODERN MEASUREMENT AND EVALUATION TECHNIQUES ARE ABLE TO GIVE US MORE AND NEW EXPLANATIONS ABOUT THE ACOUSTICAL QUALITY OF ANCIENT THEATRES? .............................................................................................. 2306
Cocchi Alessandro

#429 CAPTURING ANCIENT THEATERS SOUND SIGNATURE USING BEAMFORMING ................................................................................ 2313
Navvab Mojtaba, Bisegna Fabio, Gaglianetti Franco

#439 ACOUSTIC CHARACTERIZATION OF THE ANCIENT THEATRE OF TYNDARIS: EVALUATION AND PROPOSALS FOR ITS REUSE ............................................................................................................................. 2321
Bo Elena, Kostantinou Eirini, Lepore Federica, Puglisi Giuseppina Emma, Shiroti Louena, Barkas Nikos, Mangano Basilio, Mangano Francesco, Astolfi Arianna
#477 PROJECT ANCIENT ACOUSTICS PART 3 OF 4: INFLUENCE OF GEOMETRICAL AND MATERIAL ASSUMPTIONS ON RAY-BASED ACOUSTIC SIMULATIONS OF TWO ANCIENT THEATRES ................................................................. 2329
Kopelias Pantelis, Vogiatzis Konstantinos, Eliou Nikos, Kepaptsoglou Konstantinos, Mandalozis Dimitris, Vogiatzis Konstantinos, Kopelias Pantelis, Kalfa Natalie

#482 PROJECT ANCIENT ACOUSTICS PART 1 OF 4: A METHOD FOR ACCURATE IMPULSE RESPONSE MEASUREMENTS IN LARGE OPEN AIR THEATRE.............................................................................................................. 2337
Hak Constant, Hoekstra Niels, Nicolai Bareld, Wenmaekers Remy

#487 PROJECT ANCIENT ACOUSTICS PART 4 OF 4: STAGE ACOUSTICS MEASURED IN THE ODEON OF HERODES ATTICUS AND THE THEATRE OF ARGOS ..................................................................................................................... 2345
Wenmaekers Remy, Nicolai Bareld, Hoekstra Niels, Hak Constant

#491 PROJECT ANCIENT ACOUSTICS PART 2 OF 4: LARGE-SCALE ACOUSTICAL MEASUREMENTS IN THE ODEON OF HERODES ATTICUS AND THE THEATRES OF EPIDAURUS AND ARGOS ........................................................................ 2353
Hoekstra Niels, Nicolai Bareld, Peeters Bas, Hak Constant, Wenmaekers Remy

#1004 PLUMED SERPENT SOUND ARTIFACT AT CHICHEN ITZA’S TEMPLE OF THE WARRIORS: ORIGINAL FEATURE OR ARTIFACT OF RECONSTRUCTION? ......................................................................................... 2361
Lubman David

RAILWAY NOISE AND VIBRATION

#71 ANALYSIS OF IMPACT OF LOW STIFFNESS AND TUNED DAMPER FASTENER ON TRACK SYSTEM .............................................................................................................................................................................. 2367

#79 RESULT AND CONSIDERATIONS OF THE SURVEY ON NOISE COMING FROM RAILWAY RUNNING IN URBAN AREA .......................................................................................................................................................... 2374
Patania Francesco, Gagliano Antonio, Nozber Francesco, Agrifoglio Antonio

#81 ANNOYANCE DUE TO RAILWAY TRAFFIC NOISE: ASSESSMENT OF THE EUROPEAN UNION DOSE-EFFECT RELATIONSHIPS AND OF THE ANNOYANCE EQUIVALENTS MODEL WHEN COMBINED WITH ROAD TRAFFIC AND AIRCRAFT NOISES .......................................................................................................................................................... 2382
Hussein Mohammed F.M., Costa Pedro A.

#101 DEVELOPMENT OF STRUCTURAL RAILWAY MONITORING SOLUTIONS USING FBG SENSORS ........................................................................................................................................................................... 2390
Kourousis Georges, Kinet Damien, Moeyaert Veronique, Dupuy Julien, Caucheteur Christophe

#220 INFLUENCE OF TRACK PARAMETERS ON THE GENERATION AND DEVELOPMENT OF RAIL CORRUGATION ..................................................................................................................................................................... 2398
Wang Anbin, Zhang Zheyu, Wang Zhiqiang, Xu Ning, Pan Zhang

#448 EFFECT OF GEOMETRY ON THE VIBRO-ACOUSTIC RESPONSES OF BEAMS UNDER MOVING POINT LOADS .................................................................................................................................................. 2406
Susheeth Kumar C. P., Sajitha C., Shankar K.

#472 LIGHT RAIL TRANSIT (LRT) SYSTEMS: HUMAN RESPONSE TO VIBRATION FROM CONSTRUCTION IN URBAN ENVIRONMENTS ......................................................................................................................... 2414
Waddington David, Wong-McSweeney Daniel, Woodcock James, Peris Eulalia, Moorhouse Andy, Macias Maria Dolores Redel

#524 IDENTIFICATION OF RAILWAY TRACK COMPONENTS AND DEFECTS BY ANALYSIS OF WHEEL-RAIL INTERACTION NOISE ........................................................................................................................................... 2422
Synodinos Athanasios

#640 HIGH SPEED RAILWAY NOISE PREDICTION FOR THE HS2 LINE IN THE UNITED KINGDOM ........................................................................................................................................................................ 2430
Parry Graham, Yates David, Ledbetter Mike

#4 MONITORING AND ASSESSMENT OF VIBRATION DURING CONSTRUCTION OF ATHENS METRO EXTENTION TO PIRAUEUS ................................................................................................................................. 2438
Profilidis Vasilios, Yogiatzis Konstantinos, Mouzakis Harris, Antoniadis Charalampos

#605 THE EFFECT OF END BEARINGS ON THE DYNAMIC BEHAVIOR OF FLOATING-SLAB TRACKS WITH DISCRETE SLAB UNITS ..................................................................................................................................... 2446
Hussein Mohammed F.M., Costa Pedro A.

#705 VIBRO-ACOUSTIC EVALUATION OF A LIGHT RAIL VEHICLE .................................................................................................................................................................................................................. 2454
Chudzikiewicz Andrzej, Czechyra Bartosz, Firlik Bartosz, Stelmach Anna, Wawrzyński Wojciech

#737 FREE DAMPED VIBRATIONS OF FRICTION PADS AS INFORMATION ABOUT THEIR WEAR ........................................................................................................................................................................ 2462
Sawczuk Wojciech

#756 AN APPROACH OF SOLVING MOVING LOAD PROBLEMS WITH APPLICATION TO AN EXPERIMENTAL CASE ......................................................................................................................................................... 2470
Wang Anbin, Zhang Zheyu, Huajiang Ouyang, Dan Shunchu

#894 THE IMPACT OF CHANGES IN THE DYNAMIC CHARACTERISTICS OF A TRAM WHEELS ON VIBROACOUSTIC EFFECTS GENERATED BY TRAM IN PASS-BY TEST ..................................................................................................................... 2480
Czechyra Bartosz, Komorski Paweł, Nowakowski Tomasz

POLICIES AND METHODS FOR TRANSPORTATION NOISE

#29 TRAFFIC MANAGEMENT ACTIONS IN THE FRAMEWORK OF STRATEGIC NOISE MAPPING TOWARDS A SUSTAINABLE ENVIRONMENT - THE CASE OF ATTICA TOLLWAY .............................................................................. 2485
Mandalačis Dimitris, Yogiatzis Konstantinos, Kapelanos Pantelis, Kalifa Natalia

#31 SUSTAINABLE ROAD ACOUSTIC ENVIRONMENT AND ECONOMIC RECESSION ......................................................................................................................................................................................................... 2493
Kapelanos Pantelis, Yogiatzis Konstantinos, Elion Nikos, Kepaptsoglou Konstantinos
CHARACTERIZATION OF SOUND POWER LEVEL OF SPEECH FROM RESTAURANTS IN OUTDOOR.............................................................................................................................................................................................................. 2641
Curcuruto Salvatore, Marsico Giuseppe, Betti Rinaldo, Mazzocchi Enrico, Atzori Delio, Silvaggio Rosalba, Carati Guido, Melocchi Carlotta, Franchi Valeria Romano

DRIVE-BY LARGE-SCALE TOMOGRAPHIC MAPPING OF ENVIRONMENTAL NOISE SOURCES.......................................................... 2649
Tuna Cagdas, Zhao Shengkui, Nguyen Thi Ngoc Tho, Jones Douglas L.

NOISE MAPPING AND NOISE CONTROL POLICIES IN URBAN AGGLOMERATIONS

SOUNDSCAPE & LAND USES MANAGEMENT AS COMPREHENSIVE ENVIRONMENTAL PROTECTION ACTION POLICY TOOL WITHIN THE STRATEGIC ENVIRONMENTAL NOISE MAPPING IN GREECE................................................................. 2657
Remy Nicolas, Yogiatisis Konstantinos

PUBLICATION OF STRATEGIC NOISE MAPS IN ON-LINE NOISE MAPS PLATFORMS ................................................................. 2665
Notario Antonio

RECREATIONAL NOISE ASSESSMENT IN MALAGA (SPAIN).......................................................................................................................... 2673
Asensio Cesar, de Arcas Guillermo, Gasco Luis, Lopez Juan Manuel, Alonso Jesus, Medina-Montoya Luis, Ruiz Antonio, Castillo Aitor, Herranz Cristiano

APPLICATION OF NOISE MAP IN THE MANAGEMENT OF ENVIRONMENTAL NOISE IN CHINA ............................................................ 2679
Zhang Lijuan, Zhang Bin, Liu Lei, Wu Rui

AIRCRAFT CABIN NOISE AND VIBRATION CONTROL

VIBROACOUSTIC BEHAVIOUR OF CLAMPED DOUBLE-WALL PANELS LINED WITH POROELASTIC MATERIALS................................................................. 2685
Daudin Camille, Liu Yu

TURBULENCE BOUNDARY NOISE EFFECT ON CABIN AND COCKPIT NOISE: FLIGHT TEST AND MODELING.................................................. 2693
Breard Cyrille, Sun Yifeng

MEASUREMENTS AND THEORETICAL PREDICTIONS OF SOUND TRANSMISSION THROUGH A CYLINDRICAL SHELL ................................................................................................................................. 2697
Taha Fatima E., Crocker Malcolm J., Guo Hui

AIRFOIL NOISE, PREDICTION AND CONTROL

THE SOUND OF AN ELASTIC AIRFOIL IN THE WAKE OF A VORTEX GENERATOR................................................................................. 2705
Avshalom Manela

ON THE EFFECT OF STRUCTURE PERMEABILITY ON THE SOUND OF AN AIRFOIL ..................................................................................... 2713
Weidenfeld Michael, Manela Avshalom

ACOUSTIC SCATTERING FROM SPHEROIDAL BODIES NEAR OBSTACLES ............................................................................................ 2721
Miloh Touvia

AVIATION NOISE

DETERMINATION OF AIRCRAFT NOISE VARIABILITY USING AN ACOUSTIC CAMERA ........................................................................... 2727
Merino-Martinez Roberto, Snellen Mirjam, Simons Dick G.

CAPABILITIES OF IESTA-CARMEN TO PREDICT AIRCRAFT NOISE.................................................................................. 2735
Sanders Laurent, Malbequi Patrice, LeGriffon Ingrid

EVOLUTION OF NOISE METRICS IN FUTURE AVIATION SCENARIOS IN THE UK .............................................................................. 2743
Torija Antonio J., Self Rod H., Flindell Ian H.

A NEW METHOD FOR ESTIMATING COMMUNITY NOISE CHANGES DUE TO AIRCRAFT TECHNOLOGY VARIATIONS.......................... 2751
Synodinos Athanasios, Self Rod, Flindell Ian, Torija Antonio

AN INVESTIGATION ON SCREECHING NOISE IN THE COCKPIT OF A COMMERCIAL AIRCRAFT ............................................................. 2759
Sun Yifeng, Yang Yi, Breard Cyrille, Li Qiang

MODAL ANALYSIS OF AN AIRCRAFT ENGINE FAN NOISE ............................................................................................................................. 2764
Gorodkova Natalia, Chursin Valeriy, Berevnev Yuly, Burdakov Rybak

ANALYSIS OF SYNTHETIC JETS INFLUENCE ON PRESSURE PULSATIONS AND FLOW IN THREE-DIMENSIONAL CAVITY FOR SUBSONIC AND SUPERSONIC EXTERNAL FLOW USING RANS/ILES METHOD .......................................................................................... 2772
Fedorenko Alena, Lyubimov Dmitry, Kakshinova Irina

DAMPING MATERIALS

FREE VIBRATION OF NANO-PLATE BASED ON THE NONLOCAL THEORY .............................................................................................. 2780
Hang Qianwen, Li Chenliang
#41 THE INFLUENTIAL FACTORS ON VIBRATION REDUCTION PERFORMANCE OF AUXETIC CELLULAR MATERIALS AND STRUCTURES ................................................................. 2787
Xiongwen Zhang, Deqing Yang

#153 A SHEAR MODE MAGNETO-RHEOLOGICAL DAMPER USING PERMANENT MAGNET ................................................................. 2795
Kim Wan Ho, Kaluvan Suresh, Park Jinha, Choi Seung-Bok

#287 A NEW HONEYCOMB HOLES MAGNETORHEOLOGICAL ELASTOMERS FOR VIBRATION ISOLATION ................................................................. 2801
Zheng Xing, Huang Haiying

#218 STIFFNESS AND DAMPING OF ORDERED FRICIONAL MESH MATERIAL ................................................................. 2808
Lord Charles, Rongang Jem

#340 FREE LATERAL VIBRATION ANALYSIS OF NANOBAMS BASED ON NONLOCAL ELASTICITY BY USING WAVE APPROACH ................................................................. 2815
Loghmani Masih, Haire-Yazdi Mohammad Reza, Nikkhah-Bahrami Mansour

#445 NON-LINEAR STRESS RELAXATION OF POLYMERS: EXPERIMENTAL EVIDENCES AND STRETCHEDEXPONENTIAL MODEL ................................................................. 2823
Schiavi Alessandro, Prato Andrea

#496 DESIGN OF A HIGHLY DAMPED FIBRE-REINFORCED LIGHTWEIGHT MAST FOR AUTOMATED STORAGE SYSTEMS IN LOGISTICS ................................................................. 2831
Filippatos Angelos, Dannemann Martin, Wohlfarth Daniel, Modler Niels, Schmidt Thorsten

#809 DYNAMIC CHARACTERISATION OF RUBBER MOUNTS ................................................................. 2839
Vangipuram Ravindra, Padmanabhan Chandramouli, Ravindran Parag

MATERIALS FOR NOISE CONTROL

#109 INVESTIGATION OF THE VIBRO-AcouSTIC BEHAVIORS OF LUFFA BIO COMPOSITES AND ASSESSMENT OF THEIR USE FOR PRACTICAL APPLICATIONS ................................................................. 2845
Gene Garip, Koruk Hasan

#280 STUDY ON DYNAMIC CHARACTERISTICS OF COMPOSITE MATERIALS ................................................................. 2853
Chen Changsheng, Zhong Yan, Zhou Pu, Zhang Yue

#842 STUDY ON NONSTRUCTURED THERMOSTABLE POLYURETHANE FOR PASSIVE DAMPING APPLICATIONS ................................................................. 2861
Castano Jose L., Arenas Jorge P., Awad Maris M.

#892 SOUND ABSORPTION OF OIL PALM TRUNK ................................................................. 2869
Danworpaphong Sorasak, Salach Adeena, Eudkhong Thammarong

OTOACOUSTIC EMISSIONS AND COCHLEAR MODELLING

#824 THE TRAVELING WAVE IN THE HUMAN INNER EAR STUDIED BY MEANS OF A FINITE-ELEMENT MODEL INCLUDING MIDDLE AND OUTER EAR ................................................................. 2877
Baumgart Johannes, Fleischer Mario, Steele Charles

#157 OBJECTIVE MEASUREMENT OF COCHLEAR TUNING FACTOR BY MEANS OF TIME-FREQUENCY ANALYSIS OF OTOACOUSTIC EMISSIONS ................................................................. 2883
Sisto Renata, Moleti Arturo

#302 THE TWO FUNCTIONS OF THE RETICULAR LAMINA ................................................................. 2891
Alves Alexandre, Verbalis Sarah, Puliki Ville

#714 ELLISOIDAL REFLECTOR FOR MEASURING OTOACOUSTIC EMISSIONS ................................................................. 2896
Epp Bastian, Heiskanen Vesu, Puliki Ville

BIOACOUSTICS

#48 SKIN SURFACE RESPONSE DUE TO ACOUSTIC RADIATION FROM STENOSED FEMORAL ARTERY ................................................................. 2902
Salman Huseyn Ines, Yazicioglu Yiigit

#342 ASSESSING THE ROBUSTNESS OF SOUNDSCAPE COMPLEXITY INDICES ................................................................. 2910
Kendrick Paul, Lopez Laura, Waddington David, Young Rob

#511 ANALYSIS AND INTERPRETATION OF A VOCAL SIGNAL IN FORENSIC FIELD: A CASE HISTORY ................................................................. 2918
Cerniglia Andrea

#537 POSSIBILITIES FOR THE DEVELOPMENT OF BIOACOUSTIC MONITORING OF MARINE SPECIES ................................................................. 2926
Nino Belman-Jahir Rodriguez, Monsalve Felipe Antonio Valles, Martinez Marcelo Herrara, Bermudez Lyliana Andrea Calderon

#677 CYCLOSTATIONARITY-BASED ANALYSIS OF NOCTURNAL RESPIRATION SOUND ................................................................. 2932
Kim Jaepil, Kim Taehoon, Kim Jeong-Wun, Lee Kyogu

ROOM ACOUSTICS

#173 THE ACOUSTICS OF MASJIDS, LOOKING FOR FUTURE DESIGN CRITERIA ................................................................. 2940
Elkhateeb Ahmed, Adas Adnan, Attia Maged, Batila Tasser
#204 SPATIAL VARIATION OF SOUND FIELD IN LARGE SPACES ................................................................. 2948
Wang Chao, Kang Jian, Ma Hai

#260 IMPROVED ROOM ACOUSTICS CALCULATIONS USING COMPLEX IMPEDANCE AND SPHERICAL WAVE REFLECTION & DIFFRACTION COEFFICIENTS .......................................................... 2954
Economou Panos, Charalampous Panagiotis

#261 AN IMPROVED USER-INDEPENDENT ALGORITHM FOR ROOM ACOUSTIC PARAMETERS CALCULATION .................................................................................................................... 2962
Charalampous Panagiotis, Economou Panos

#263 THE SEAT DIP EFFECT USING WAVE BASED GEOMETRICAL ACOUSTICS (WBGA) .................. 2970
Economou Panos, Charalampous Panagiotis

PSYCHOLOGICAL ACOUSTICS

#46 ENVIRONMENTAL SOUND CLASSIFICATION USING CENTRAL AUDITORY REPRESENTATIONS AND DEEP NEURAL NETWORKS .................................................................................................................. 2978
Chen Kean, Yang Luxue, Sang Zhiming

#357 LABORATORY STUDY ON EFFECTS OF DIFFERENT NOISE ON CHILDREN'S ATTENTION AND SHORT-TERM MEMORY .................................................................................................................. 2985
Zhang Lan, Ma Hai, Yu Boya

#636 PERCEPTION OF AUDITORY-VISUAL SIMULANEOITY CHANGES BY ILLUMINANCE AT THE EYES .............................................................................................................................. 2992
Hasegawa Hiroshi, Hatakeyama Shu

COMBUSTION DYNAMICS AND ACOUSTICS IN GAS TURBINES AND FURNACE

#43 TURBULENT COMBUSTION NOISE SIMULATION OF A CONFINED, SWIRL STABILIZED FLAME ........... 2998
Grimm Felix, Reichling Gilles, Ewert Roland, Dierke Juergen, Noll Berthold, Aigner Manfred

#249 EFFICIENT CALCULATION OF THERMOACOUSTIC MODES UTILIZING STATE-SPACE MODELS ................................................................................................................................. 3006
Meindl Max, Emmert Thomas, Polifke Wolfgang

#773 DISPERSION OF ENTROPY WAVES ADVECTING THROUGH COMBUSTOR CHAMBERS .............. 3014
Xia Ya, Duran Ignacio, Morgans Aimee S., Han Xingsi

#949 VALIDATION OF THE CROSS CORRELATION METHOD THROUGH LOCAL FLAME TRANSFER FUNCTION MEASUREMENTS ........................................................................................................... 3022
Luciano Ennio, Sobrino Alvaro, Ballester Javier

VOLUME 5

ULTRASOUND, ULTRASONIC MEASUREMENTS AND THEIR APPLICATION IN MEDICINE

#20 DETECTION AND DELINEATION OF LIVER FRACTURES FROM BLUNT TRAUMA WITH ULTRASONIC SHEAR WAVE IMAGING: A PROOF-OF-CONCEPT ................................................................. 3030
Yu Jiao, Nie Erwei, Kaczkowski Peter, Crum Lawrence, Mitchell Stuart

#521 PVDF TRANSDUCTION DEVICES FOR THE VISUALLY IMPAIRED POPULATION .................. 3038
Martinez Marcelo, Herrera Lyliana Andrea, Calderon Miguel Angel, Satapura Sotaquira

#544 DEVELOPMENT OF DOUBLE MATCHING LAYER FOR ULTRASONIC POWER TRANSDUCER .... 3044
Hwang Gunn, Youm WooSub, Lee Sung Q.

#723 THE EFFECT OF SUPERIMPOSED LOW-FREQUENCY VIBRATION ON TENSILE DEFORMATION OF LOW-CARBON STEEL ............................................................................................................ 3050
Meng De an, Zhao Shengdun, Zha Chengcheng

#846 STANDING SHEAR WAVES IN ANISOTROPIC GELATIN-BASED MEDIA .................................. 3058
Krí Tomíček, Andreev Valery, Demin Igor, Bushirov Ruslan

MUSICAL ACOUSTICS

#512 EXPERIMENTAL INVESTIGATION OF THE CONTRIBUTION OF RESONANT FREQUENCY TO TRUMPETER'S PERFORMANCE .............................................................................................. 3065
Foteinou Aglaia, Spencer Steven, Dalgleish Matthew

#548 A STUDY ON TIMBRE AND SOUND QUALITY OF AN ELECTRIC GUITAR BY SELECTION OF MATERIAL AROUND PICKUP ................................................................................................. 3071
Nishimura Kiminobu, Nishimura Keisuke

#583 INFLUENCE OF WOOD FINISHING PRODUCTS ON THE VIBRO-ACOUSTICAL PROPERTIES OF TROPICAL WOODS .............................................................................................................. 3079
Teles Ricardo Faustino, da Costa Alexandre, Florian, de Lima Lucas Bichara

#808 A STUDY ON NOISE REDUCTION OF AUDIO EQUIPMENT INDUCED BY VIBRATION - EFFECT OF MAGNETISM ON POLYMERIC SOLUTION FILLED IN AN AUDIO-BASE - ................................... 3087
Kita Masahide, Nishimura Kiminobu
PASSIVE NOISE AND VIBRATION CONTROL

#97 INFLUENCE ON VIBRATIONAL CHARACTERISTICS BY THE THICKNESS OF A CUSHION HAVING URETHANE WITHIN AN AIR CELL ............................................................. 3102
Nakamura Yuji, Ota Shinichiro

#162 EXPERIMENTAL INVESTIGATION OF SELF-EXCITED OSCILLATION IN SAFETY RELIEF VALVE ............................... 3110
Makaryants Georgy

#230 ACOUSTIC PERFORMANCE OF MICROPERFORATED PANEL ABSORBER ARRAY SUBJECTED TO HIGH INTENSITY SOUND .............................................................................................................. 3118
Chiang Yankei, Choy Yatze

#549 INFLUENCE OF THE STRUCTURAL DAMPING AND/OR THE EXTERNAL ACOUSTIC LOAD OF A GUIDED ACOUSTIC PLANE WAVE COUPLED WITH YIELDING WALLS ........................................ 3126
Meyer Virgile, Martin Vincent, Zelmar Philippe

#612 MEMBRANE-TYPE ACOUSTIC RESONATOR FOR SOUND CONTROL APPLICATIONS ...................................................... 3134
Yu Xiang, Lu Zhenbo, Cui Fangsen, Yan Sze Tiong, Yao Kai

#996 PERFORMANCE EVALUATION OF MOUNTING SYSTEM FOR HIGH-FREQUENCY VIBRATION ISOLATION OF ELECTRIC MOTOR .............................................................................................................. 3140
Xu Wei, He Lin

NUMERICAL METHODS & SIMULATION FOR ACOUSTICS AND VIBRATION

#916 MODEL UPDATING STRATEGIES IN FREQUENCY DOMAIN FOR DIFFERENT USE CASES .............................................. 3147
Rothe Sebastian, Blech Christopher, Langer Sabine Christine

#327 PREDICTING NOISE TRANSMISSION IN COMPLEX MULTI-LAYERS SYSTEMS COMBINING SEA AND TRANSFER MATRIX METHODS .............................................................................................................. 3155
Borello Gerard

#343 COMPARATIVE STUDY OF FINITE ELEMENT REDUCTION TECHNIQUES FOR DAMPING IDENTIFICATION IN DYNAMIC SYSTEM .............................................................................................................. 3163
Arora Vikas

#903 AN APPROACH TO EVALUATE THE MODEL QUALITY USING MODEL UPDATING TECHNIQUES .............................................. 3171
Ring Tobias, Blech Christopher, Langer Sabine C.

#433 EXTERNAL GEAR PUMP NOISE FIELD PREDICTION: SOUND INTENSITY ANALYSIS AND METHODOLOGY VALIDATION ......................................................................................................................... 3179
Miccoli Giuseppe, Pedrelli Francesca, Carletti Eleonora, Parisi Giorgio

#447 A STUDY OF CHAOS ANALYSIS IN A CLASS OF GENERIC NON-Z2 SYMMETRIC VIBRATION SYSTEM BASED ON EXTENDED PADE APPROXIMATION .............................................................................................................. 3186
Feng Jingjing, Hao Shuying, Zhang Kunpeng, Zhang Qichang, Wang Wei, Guo Ming

#486 RECENT DEVELOPMENTS IN DYNAMICAL ENERGY ANALYSIS FOR VEHICLE STRUCTURES .......................................................................................................................... 3194
Bajars Janis, Chappell David, Hartmann Timo, Tanner Gregor

#602 DECOUPLING SEVERITY AND LOCATION FROM CRACKED BEAMS .......................................................................................................................... 3200
De Los Rios Julian, Kennedy David, Hanno Siminah

#747 A VALIDATION METRIC OF FE MODEL FOR NOISE AND VIBRATION RESPONSES .......................................................................................................................... 3208
Lee Dooho, Ahn Tae-Soo, Kim Hyun-Seek

#633 RESONANCE VIBRATIONS FORMATION FEATURES OF REGULAR SYSTEMS WITH A BREATHEING CRACK .......................................................................................................................... 3214
Krut Vadym, Zinkovskii Anatoliy, Onyshchenko Yevheniia

#634 NUMERICAL MODELING OF ULTRASONIC EXCITED INSTRUMENT TIPS MADE OF FIBRE-REINFORCED POLYMERS FOR IRRIGATION IN THE ROOT CANAL .......................................................................................................................... 3219
Dannemann Martin, Kucher Michael, Gottwald Robert, Weber Marie-Theres, Medler Niels

#671 STUDY ON THE RELATIONSHIP BETWEEN THE IMBALANCE STATUS AND ITS VIBRATION RESPONSE IN BALANCING METHOD OF ROTORS .......................................................................................................................... 3227
Zhang Yan, Zou Donglin, Wei Qiao, Shao Min

#734 ON THE METHOD OF CORRECTION PROCEDURE VIA RECONSTRUCTION FOR NUMERICALLY SOLVING WAVE EQUATION .......................................................................................................................... 3235
Liu Gongmin, Lu Qinlin, Ming Pongjian, Zhang Wenping

#741 BI-STABLE CANTILEVERED PIEZOELECTRIC ENERGY HARVESTER USING SPRINGS .......................................................................................................................... 3243
Sim-Woo Jeong, Hong Hee Yoo

NOISE AND VIBRATION IN SMALL, MEDIUM AND LARGE INDUSTRIES

#1 TYPING PERFORMANCE OF THE SEATED SUBJECTS ON TABLET UNDER THE VERTICAL WHOLE BODY VIBRATION EXPOSURE .......................................................................................................................... 3249
Vikas Kumar, Saran Huzur Y
ACCORDING TO ISO STANDARDS & EUROPEAN DIRECTIVES

AUTOREGRESSIVE ANALYSES

ROLLING BEARING FAULT DIAGNOSIS USING RECURSIVE AUTOCORRELATION AND RACK UNDER MECHANICAL EXCITATION

VIBRATION RESPONSE ANALYSIS AND STRUCTURAL OPTIMIZATION OF A MULTISTORY STABILITY

#764 REDUCTION OF SHAFT VIBRATION BY PRESSURE CONTROL OF EXTERNALLY PRESSURIZED GAS JOURNAL BEARINGS WITH ASYMMETRIC GAS SUPPLY (EXPERIMENTS OF SINGLE DIRECTION CONTROL)..............................................................................................................................................3554
Ise Tomohiko, Imanishi Kazuya, Ueki Takemichi, Asami Toshihiko

#37 COMPARISON BETWEEN SOUND POWER LEVELS MEASURED BY THE DIFFERENT MICROPHONE POSITIONS...........................................................................................................................................................................3561
Niu Feng, Xu Huan, Zhong Bo, He Longbiao, Bai Ying, Feng Xinquan, Yang Ping, Zheng YunShan

#243 THE OPTIMIZATION DESIGN METHOD FOR POROUS HEADPHONE TRANSDUCER USING PARTICLE SWARM ALGORITHM ...........................................................................................................................................................................3566
Tsai Yu-Ting, Chen Jie-Ru, Huang Jin H.

#257 DESIGNING A COMPACT TEST BENCH FOR GEAR PUMP VIBROACOUSTIC PERFORMANCES RESEARCH .......................................................................................................................................................................................................3573
Rekazue Pavel, Rodionov Leonid, Rimin Olesya, Almurzin Prokhor

#308 A MEASUREMENT SYSTEM FOR SOUND PRESSURE LEVEL MEASUREMENTS WITH THE FOCUS ON MEASUREMENT UNCERTAINTIES ............................................................................................................................................................................................................................................................................3580

#332 INVESTIGATION ON FLOW INDUCED VIBRATION EXCITATION AND STABILITY OF AN ELASTICALLY MOUNTED CIRCULAR TUBE PLACED IN ROTATED SQUARE AND PARALLEL TRIANGULAR ARRAY .......................................................................................................................................................................................................3588
Annamalai Kumarasvamidhas Lakhmi, Karuppasamy Karthik Selva Kumar

#370 DEVELOPMENT OF METHODOLOGY FOR TESTING AEROSPACE EQUIPMENT SUBJECTED TO HIGH SOUND PRESSURE .............................................................................................................................................................................................................................................................................3594
Igolkin Aleksandr, Zvezdakov Roman, Troshkin Andrey, Safin Artur, Prokofiev Andrey, Zheljukov Andrey

#440 VIBRO-ACOUSTIC COUPLING ANALYSIS FOR HARMONIC SOUND PLATE.............................................................................................................................................................................................................................................................................3602
Wang Bor-Tsuen, Huang Chia-Hsien, Wu Ying-Hui

#505 IDENTIFICATION OF VIBRATION PROPERTIES OF HEAVY DUTY MACHINE DRIVELINE PARTS AS A BASE FOR ADEQUATE CONDITION MONITORING: TORQUE CONVERTER .............................................................................................................................................................................................................................................................................3610
Kallstrom Elisabeth, Lindstrom John, Hakansson Lars, Karlberg Magnus, Oberg Olof, Renderstedt Reza, Larsson Jonas

#522 USING GLOBAL OPTIMIZATION METHODS FOR ACOUSTIC SOURCE LOCALIZATION .............................................................................................................................................................................................................................................................................3618
Malgoezar Anwar, Snellen Mirjam, Sijtsma Pieter, Simons Dick

#525 IDENTIFICATION OF VIBRATION PROPERTIES OF HEAVY DUTY MACHINE DRIVELINE PARTS AS A BASE FOR ADEQUATE CONDITION MONITORING: AXLE .............................................................................................................................................................................................................................................................................3625
Kallstrom Elisabeth, Lindstrom John, Hakansson Lars, Karlberg Magnus, Renderstedt Reza, Larsson Jonas

#534 PERMANENTLY DEPLOYED SOUND PRESSURE LEVEL ARRAYS FOR PUBLIC SPACES .............................................................................................................................................................................................................................................................................3633
Maguire Daniel, Lago Thomas

#682 NOISE SOURCE IDENTIFICATION BY INVERSE BOUNDARY ELEMENT METHOD WITH INTERFERENCE NOISE .............................................................................................................................................................................................................................................................................3639
Xiao Youhong, Li Shaowei, Lv Guoxue

#746 COMPARISON OF SPECTRAL PROPERTIES OF THE VIBRATION SIGNALS AND LINE PRESSURE SIGNALS OF DTH DRILLS .............................................................................................................................................................................................................................................................................3647
Premaachandran Rammohan Kodakadath, Hakansson Lars

ANALYSIS, PERCEPTION AND RENDER OF 3D SPATIAL SOUND

#96 A COMPARISON BETWEEN THE TYPICAL HRTFS FROM CHINESE SUBJECTS AND THOSE OF KEMAR .............................................................................................................................................................................................................................................................................3655
Xie Bosun, Zhong Xiaoli

#111 AUDITORY CONSISTENCY OF HEAD-RELATED TRANSFER FUNCTIONS OF KEMAR FROM DIFFERENT DATABASES .............................................................................................................................................................................................................................................................................3662
Zhong Xiaoli, Xu Xiu, Xie Bosun

#141 A METHOD FOR BINAURAL SOUND REPRODUCTION WITH WIDER LISTENING AREA USING TWO LOUDSPEAKERS .............................................................................................................................................................................................................................................................................3669
Someida Keiichiro, Enamoto Akihiko, Nishimura Osamu, Hiraoka Takahiro

#202 VISUALIZATION OF JET NOISE WITH TDOAS ...................................................................................................................................................................................................................................................................3676
Dan Jiah, Zheng Sifa, Lian Xiaomin, Li Xiangyang

LRT AND HS RAIL NOISE AND VIBRATION MEASUREMENT AND CONTROL

#102 EFFECT OF EMBANKMENT CONDITIONS ON GROUND VIBRATIONS INDUCED BY HIGH-SPEED LINES .............................................................................................................................................................................................................................................................................3681
Olivier Bryan, Kouroussis Georges, Connolly David P., Alves Costa Pedro

#155 GROUND-BORNE NOISE AND VIBRATION TRANSMITTED FROM SUBWAY NETWORKS TO A TYPICAL ATHENIAN MULTI-STOREY REINFORCED CONCRETE BUILDING .............................................................................................................................................................................................................................................................................3689
Mouzakis Harris, Vogiatis Konstantinos
#515 LIGHT RAPID TRANSIT NOISE AND VIBRATION MODELLING: THE CASE OF THE CITY OF AARHUS IN DENMARK ............................................................................................................ 3697
Cerniglia Andrea, Pezzoli Paolo, Rocca Roberto, Medich Francesco Costa, Milocco Antonio, Bettari Roberto, Cerniglia Valentina

#651 RESEARCH DEVELOPMENT OF SUBWAY VIBRATION IMPACT ON ENVIRONMENT ......................................................... 3705
Yao Kun, Yu Hao-wei, Wei Dong

#927 LOW FREQUENCY NOISE AND PARASEISMIC VIBRATION IN USING OF CHOSEN TRAM TYPES AND DIFFERENT TYPE OF TRACK ............................................................................................................ 3713
Czechyra Bartosz, Nowakowski Tomasz

MEASUREMENT TECHNIQUES AND SENSORS

#54 FREE-FIELD RECIPROCITY CALIBRATION OF WS3F MICROPHONE UP TO 100 KHZ ................................................................. 3720
He Longbiao, Feng Xiaojian, Niu Feng, Yu Huan, Zhong Bo, Song Shiquian, Qiu Jianmin

#130 MEASUREMENT OF SOUND ABSORBING PROPERTIES UNDER A PLANE-WAVE SOUND FIELD REPRODUCED BY LINEAR LOUDSPEAKER ARRAY ............................................................................................................ 3726
Zhang Yankai, Tan Songbin, Kuang Zheng, Wu Ming, Yang Jun

#394 BASIC EXPERIMENTS OF DOUBLE NEARFIELD ACOUSTIC HOLOGRAPHY METHOD ............................................................................................................ 3734
Nagamatsu Masao

#526 ULTRASONIC DEFECT DETECTION IN BILLET USING TIME-OF-FLIGHT OF BOTTOM ECHO ............................................................................................................ 3742
Miyamoto Ryusuke, Mizutani Koichi, Ebihara Tadashi, Watatsuki Naota

#558 ASSISTIVE PEDESTRIAN AUDIO LOOP FOR VISUALLY IMPAIRED ............................................................................................................ 3747
Zahui Marcellin, Subedi Sabesh Chandra

ROOM ACOUSTICS

#264 ROOM RESONANCES USING WAVE BASED GEOMETRICAL ACOUSTICS (WBGA) ............................................................................................................ 3755
Economou Panos, Charalampous Panagiotis

#430 A MODAL APPROACH FOR REVERBERATION TIME MEASUREMENTS IN NON-DIFFUSE SOUND FIELD ............................................................................................................ 3763
Prato Andrea, Casassa Federico, Schiavi Alessandro

#492 ANALYSIS OF THE SEAT-DIP EFFECT IN AN OPERA HOUSE ............................................................................................................ 3771
Tahvanainen Henna, Patynen Jukka, Lokki Tapio

#665 STUDY ON ACOUSTIC PERFORMANCE OF FOOTBALL STADIUM ............................................................................................................ 3779
Prasetyo Iwan, Sarwono Joko, Natanael Hizkia, Tanjung Irham

VOLUME 6

#740 EFFECTS OF 3D MODEL SIMPLIFICATION ON ROOM ACOUSTICS IN OPEN-PLAN OFFICES ............................................................................................................ 3787
Din Nazli Che, Jalil Nurul Amira Abdul, Keumala Nila Inangda, Razak Asrul Sani

#754 PERCEPTUAL ASPECTS OF SOUND DIFFUSENESS IN CONCERT HALLS ............................................................................................................ 3795
Jeon Jin Yong, Kwak Ki Hwan, Jang Hyung Suk, Lim Hamsol

ROOM ACOUSTICS DESIGN AND EVALUATION

#171 ARE OUR MASJIDS SUFFERING EXCESSIVE REVERBERATION! ............................................................................................................ 3799
Elhakeeb Ahmed, Adas Abvan, Attia Magdy, Bula Ussier

#360 STUDY ON SUBJECTIVE PREFERENCE VALUES OF ACOUSTIC PARAMETERS FOR PEKING OPERA ............................................................................................................ 3807
Yang Lu, Ma Hui, Yang Jiaojiao, Yu Boya

#567 ACOUSTIC DESIGN OF THE AUDITORIUM IN THE CHURCH OF RISPESCLA ............................................................................................................ 3815
Luzzi Sergio, Busa Lucia

#691 SOUNDSCAPE CHARACTERIZATION IN AN INTENSIVE CARE UNIT AT A HOSPITAL IN YOGYAKARTA, INDONESIA ............................................................................................................ 3823
Utami Sentagi S., Adhawiyah Rabiah, Yanti Resy J., Sarwono Joko, Prasetyo Iwan

#694 SUBJECTIVE JUDGEMENTS IN ROCK CLUBS IN RELATION TO PHYSICAL ACOUSTIC PARAMETERS ............................................................................................................ 3831
Panos Antonios, Sotiropoulou Alexandra, Karagiannis Ioannis, Cambourakis George

#696 COMPUTER SIMULATION IN EXPLORING STAGE ACOUSTICS DESIGN ............................................................................................................ 3839
Karagiannis Ioannis, Sotiropoulou Alexandra, Georgiou Michalis, Xanthoulis George

STRUCTURE-BORNE AND IMPACT SOUND IN BUILDINGS

#152 PREDICTION OF STRUCTURE-BORNE SOUND FROM LARGE SERVICE EQUIPMENT USING ON-SITE CHARACTERIZATION ............................................................................................................ 3847
Bailleul Simon, Villot Michel, Depierre Clement, Picard Nicoas
MODES AND WAVES OF COUPLED ROOF OR FLOOR STRUCTURES IN HISTORICAL AND MODERN BUILDINGS

Auersch Lutz

STRUCTURE-BORNE SOUND SOURCES IN BUILDINGS: TOWARDS METHODS, STANDARDS AND DATA BASES

Gibbs Barry, Villot Michel

PREDICTION OF SOUND INSULATION

THE SOUND INSULATION OF PLYWOOD SHEETS

Davy John L., Wareing Robin R., Pearse John R.
