2nd Arabian Plate Geology Workshop 2010

Albian/Cenomanian/Turonian Carbonate-Siliciclastic Systems of the Arabian Plate

Abu Dhabi, United Arab Emirates
24 – 27 January 2010

ISBN: 978-1-5108-2852-0
# TABLE OF CONTENTS

- **Keynote - Plate Tectonic Models and Regional Structural Frameworks - Bridging the Gap by Paleo-Stress Inferences in the Middle East Region** .......................................................... 1  
  A. Koopman

- **Keynote - Sequence Stratigraphy & Depositional Systems in the Albian-Turonian of the Arabian Plate; Implications for Regional Exploration and Reservoir Description** .................................................. 2  
  R. Davies, M. Simmons

- **Albian to Turonian Chemostratigraphy of the Eastern Arabian Plate** ...................................................... 4  
  V. Vahrenkamp

- **Mid-Cretaceous Sequences of the Arabian Plate and their Global Expression** .............................................. 6  
  M. Simmons, R. Davies, A. Godet, P. Sharland

- **Sequence Stratigraphic, Facies & Reservoir Framework for the Bangestan Group, Lurestan, Zagros Mountains, Iran** .................................................................................................................... 8  

- **Tectonic Record of Ophiolite Obduction in the Sedimentary Sequence of the Pust-e-Kuh Arc, Simply Folded Belt, Zagros Mountains (Lurestan, Iran)** ........................................... 10  
  E. Saura, J. Verges, J. Embry, S. Homke, D. Hunt, I. Sharp

- **Sequence Stratigraphy of the Albian – Turonian Interval of Southwest Iran based on Outcrop and Subsurface Data** ...................................................................................................................................... 12  
  F. Buchem, D. Baghbani, L. Bulot, M. Caron, A. Hosseini, B. Vincent

- **Retreat of Shelf Margins in the Albian to Turonian of Northeast Arabia** .................................................... 14  
  A. Horbury

- **Keynote - The Middle Cretaceous: A Case for Special Treatment?** ............................................................. 16  
  B. Levell, H. Droste, V. Vahrenkamp

- **New Exploration Play in Basal Burgan 'Unnamed Clastics' Kuwait** ............................................................ 18  
  A. Ahmed, S. Thakur, A. Al-Darmi, M. Kumpass

- **Mid Cretaceous Stratigraphy, Facies and Carbon-Isotope Curves of Northwest-Qatar** .............................. 20  
  S. Lubeseder, J. Kuss, M. Zahran

- **Seismic Sequence Stratigraphy of the Wasia Formation, Rub’Al Khali Basin Saudi Arabia** .................... 22  
  D. Ternes, D. Taylor

- **Stratigraphic Framework of the Natih Formation in the Sultanate of Oman** ............................................. 25  
  H. Droste

- **An Outcrop Reference Model for the Late Albian-Turonian Carbonate Platforms of the Arabian Plate, Sarvak Formation, Iran** ........................................................................................................ 27  
  P. Razin, F. Taati, F. Buchem

  D. Taylor, G. Hughes, D. Ternes

- **Sedimentary and Stratigraphic Heterogeneities within 3rd Order Sequences in the Natih Formation (L. Albian-E.Turonian)** ............................................................................................................. 31  
  C. Grelaud, P. Razin, P. Homewood, V. Vahrenkamp, A. Schwab

- **3D Seismic Characterization of a Heterogeneous Cenomanian Carbonate Reservoir Containing "Channels"** ......................................................................................................................... 33  
  I. Takahashi, R. Matsui

- **Diagenesis of the Albian-Turonian Formations of the Middle East** .......................................................... 35  
  C. Hollis

- **Regional Unconformities in the Cenomanian and Turonian Limestone of Southwest Iran (Sarvak Formation) - Sub-aerial Exposures, Diagenetic Patterns & Impact on Reservoir Properties** 37  
  B. Vincent, R. Swennen, M. Jalili, D. Baghbani, F. Buchem

- **Diagenetic Patterns and Rock Properties of the Natih Formation in a Carbonate Oil Field, North Oman** ........................................................................................................................................ 39  
  C. Taberner, V. Vahrenkamp, C. Hollis, M. Esteban

- **Fracture-controlled Dolomite Reservoirs in Late Cretaceous Carbonates of the Sarvak Formation, Anaran Anticline, Islamic Republic of Iran** ................................................................. 41  
Fault & Fracture Development in Foreland Fold and Thrust Belts - Insight from the Lurestan Province, Zagros Mountains, Iran

North Oman Structural Characterisation From Regional to Bore Hole Scale - Natih Formation

Detection and Distribution of Thief Perm in the Late Albian Mauddud Formation, Sabriyeh and Raudhatain Fields, Kuwait: A Dual Porosity Dual Permeability Methodology for Model Implementation

Constrasting Transgressive & Regressive Constrained Reservoir Scale Heterogeneities Raudhatain Fields, Kuwait: A Dual Porosity Dual Permeability Methodology for Model Implementation

Regional Sequence Stratigraphic Correlation of the Burgan and Mauddud Formations (Lower Albian-Turonian Carbonate Ramp and Platform Evolution in the Al Shaheen Field, Offshore Qatar)

The Albian Sedimentary Record of Southeast Arabia - Facies, Sequence Stratigraphy and Depositional Environments

A Transition from a Passive to a Tectonically Active Margin and Foreland Basin Development in the Late Cretaceous of the Fars Area and Offshore (Zagros)

Sequence Stratigraphy of the Albian to Cenomanian Interval in the Northwest Fars Area (Southwest Iran)

The Albian-Cenomanian in the Middle-East - New Element for Carbonate Platform Stratigraphy

Constraints on Regional-Scale Stratigraphic Forward Modelling in the Upper Sarvak Formation, Lurestan, Iran

3D Forward Stratigraphic Modeling of the Rub Al Khali Wasia Formation - A Case Study

Eustasy and Tectonic Controls on the Sedimentary Patterns in the Albian-Cenomanian Succession in the Lurestan (Zagros)

Carbonate Platform High-Frequency Cycles, Natih Sequence I (E Member), Sultanate of Oman: Constrasting Transgressive & Regressive Constrained Reservoir Scale Heterogeneities

Reservoir Characterization of Emersion Surfaces and their Associated Diagenesis - Natih Formation, Cretaceous, Sultanate of Oman

Roles of Predicting Fracture Patterns in Fold and Thrust Belts - A Case Study from the Salak Arch, Sultanate of Oman

The Albian Sedimentary Record of Southeast Arabia - Facies, Sequence Stratigraphy and Depositional Environments

Albian-Turonian Carbonate Ramp and Platform Evolution in the Al Shaheen Field, Offshore Qatar

Regional Sequence Stratigraphic Correlation of the Burgan and Mauddud Formations (Lower Cretaceous), Kuwait

High-Resolution Lithofacies Analyses of Predominantly Organic-Rich Carbonates from the Natih-B Intraslab Basin, North Oman

The Effect of Bioturbation of Permeability and Water-Flood Recovery in a Natih Carbonate Sequence

Fracture Heterogeneity in the Natih Formation, Jabal Madar, Sultanate of Oman

Improving Carbonate Reservoir Models with Digital Outcrop Modeling - An Example from the Cretaceous Natih Formation, Sultanate of Oman

Reservoir Modelling from Interpretation of 3D Virtual Outcrops & Field Data - A Case Study from the Upper Sarvak Fm., Chenareh Gorge, Lurestan, Iran
Production Optimisation Through Simplification of the Well Patterns in a Fractured Carbonate Reservoir ................................. 80
  M. Darke, E. Follows, J. Sahuja, M. Lawati, K. Shuali, A. Busaidi

The Mid-Cretaceous Unconformity in the Souther Arabian Gulf ......................................................... 82
  T. Burchette, A. Suwaidi, E. Elsaid
