Geosynthetics, Forging a Path to Bona Fide Engineering Materials

Honoring Robert M. Koerner

Selected Papers from Geo-Chicago 2016

Geotechnical Special Publication Number 275

Chicago, Illinois, USA
14 – 18 August 2016

Editors:

Y. Grace Hsuan
Shobha K. Bhatia
Te-Yang Soong

Some format issues inherent in the e-media version may also appear in this print version.
# Contents

**Ph.D. Students and Post-Doctoral Fellows**

<table>
<thead>
<tr>
<th>Title</th>
<th>Authors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Evaluation of Geomembrane Destructive Seam Testing Frequencies and Risk Management</td>
<td>Kevin C. Foye, Glen W. Toepfer, and Te-Yang Soong</td>
</tr>
<tr>
<td>Monitoring Long-Term In Situ Conditions at Adjacent Dry and Wet MSW Landfill Cells</td>
<td>George R. Koerner</td>
</tr>
<tr>
<td>The Former Fort Gillem: A Unique Case History in Closed Army Base Redevelopment</td>
<td>Michael Monteleone</td>
</tr>
<tr>
<td>A Theoretical Analysis of the Maximum Load Transferred to the Junctions of a Geogrid Confined in Granular Soil</td>
<td>Robert H. Swan Jr. and Zehong Yuan</td>
</tr>
<tr>
<td>The Use of Geogrids for the Development of Mechanically Stabilized Layers</td>
<td>Mark H. Wayne</td>
</tr>
<tr>
<td>Effects of Carbon Black on the Depletion of Antioxidants in HDPE under Air and Water Conditions</td>
<td>Wai Kuen (Connie) Wong and Grace Y. Hsuan</td>
</tr>
</tbody>
</table>

**U.S. Academic Colleagues**

<table>
<thead>

<th>Title</th>
<th>Authors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Laboratory and Field Investigations of Separation Geotextiles</td>
<td>R. D. Holtz</td>
</tr>
<tr>
<td>Centrifugal Modeling of Reinforced Soil Retaining Walls Considering Staged Construction</td>
<td>Hoe I. Ling, Lei Xu, Dov Leshchinsky, James G. Collin, and Pietro Rimoldi</td>
</tr>
</tbody>
</table>
Limit Analysis of the Reinforced Soil and Modeling Strength of Solid Waste in Landfills Using the Concepts of Soil Reinforcement................................................106
Radoslaw L. Michalowski and Dimitrios Zekkos

A Preliminary Study of the Bentonite Self-Healing of Slits in a GCL upon Full Hydration.........................................................................................................116
R. Kerry Rowe and Tikang Li

Containment and Dewatering of Heavy Metal Contaminated Slurries Using Reactive Minerals and Cellulose Materials in Geotextile Tubes.........................126
Prabesh Rupakheti, Shobha K. Bhatia, and Erin K. Jackson

Exposed Geomembranes as a Sustainable Practice for Landfill Design and Operation ..........................................................140
Timothy G. Townsend, Pradeep Jain, and Justin Smith

Physical Modeling of Geosynthetics Using Geotechnical Centrifuges...........148
Thomas F. Zimmie and Anirban De

Evaluation of the Development of Capillary Barriers at the Interface between Fine-Grained Soils and Nonwoven Geotextiles ............................159
Jorge G. Zornberg, Marcelo M. Azevedo, and Chris B. Pickles

Friends from Industry and Government Agencies

Sam Allen and Richard Lacey

Rudolph Bonaparte, M. Zahirul Islam, Victor M. Damasceno, Stefanie A. Fountain, Majdi A. Othman, and John F. Beech

Recycled Cross-Linked Polyethylene Foam Used for Floating Covers ..........208
Archie Filshill and Craig R. Calabria

HDPE Geomembrane Stress Cracking: From There to Here to Where? ........216
Ian D. Peggs

Status of the Field Verification of GRI Laboratory Testing on Geosynthetic Ultraviolet Stability .....................................................................................226
Christopher M. Richgels
A Case Study: Geosynthetic Reinforced Soil–Integrated Bridge Structure (GRS-IBS) ................................................................................................................ 236
L. David Suits

Analysis of Stresses and Strains in Geomembrane Gas Bubbles That Occur in Surface Impoundments ................................................................. 244
Richard Thiel

International Collaborators and Friends

Four Pioneering Projects over the Last Twenty Years Using Innovative Georeinforcement Solutions ................................................................. 256
Dimiter Alexiew

On Site Behavior of PVC Exposed Geomembranes Used for the Upstream Face Rehabilitation of Dams in the Italian Alps ..................................... 266
D. Cazzuffi

Seismic Behavior of a Cohesive Backfilled Geosynthetic Reinforced Wall...... 284
Erol Guler, Ismail E. Kilic, and Cihan Cengiz

Shear-Resistant Geosynthetic Clay Liners—About 30 Years from Invention to Today .......................................................................................... 294
Georg Heerten

Rolled Erosion Control Products (RECPs) and Vegetation Soil Erosion Properties in Channel Flow and Rain Splash Tests ........................................ 305
Chiwan Hsieh, Shih-Hao Jien, Je-Chian Chen, and Mu-Ji Huang

Environmental Adaptability of Green Geosynthetics as Sustainable Materials for Civil Engineering Applications .................................................. 318
Han-Yong Jeon

Composite Filters of Geotextiles and Natural Materials for Critical Applications in Dam Engineering ................................................................. 326
K. R. Legge

A Study on High Oxygen Pressure Autoclave Testing for the Oxidative Resistance of Polyolefin-Based Geosynthetics ........................................ 332
Werner W. Müller and Andreas Wöhlecke
