17th Annual Meeting of the Special Interest Group on Discourse and Dialogue (SIGDIAL 2016)

Los Angeles, California, USA
13 - 15 September 2016

ISBN: 978-1-5108-3014-1
# Table of Contents

Towards End-to-End Learning for Dialog State Tracking and Management using Deep Reinforcement Learning
   Tiancheng Zhao and Maxine Eskenazi .......................................................... 1

Task Lineages: Dialog State Tracking for Flexible Interaction
   Sungjin Lee and Amanda Stent .......................................................................... 11

Joint Online Spoken Language Understanding and Language Modeling With Recurrent Neural Networks
   Bing Liu and Ian Lane ..................................................................................... 22

Creating and Characterizing a Diverse Corpus of Sarcasm in Dialogue
   Shereen Oraby, Vrindavan Harrison, Lena Reed, Ernesto Hernandez, Ellen Riloff and Marilyn Walker ................................................................. 31

The SENSEI Annotated Corpus: Human Summaries of Reader Comment Conversations in On-line News
   Emma Barker, Monica Lestari Paramita, Ahmet Aker, Emina Kurtic, Mark Hepple and Robert Gaizauskas ................................................................. 42

Special Session - The Future Directions of Dialogue-Based Intelligent Personal Assistants
   Yoichi Matsuyama and Alexandros Papangelis ................................................ 53

Keynote - More than meets the ear: Processes that shape dialogue
   Susan Brennan .................................................................................................. 54

A Wizard-of-Oz Study on A Non-Task-Oriented Dialog Systems That Reacts to User Engagement
   Zhou Yu, Leah Nicolich-Henkin, Alan W Black and Alexander Rudnicky ........ 55

Classifying Emotions in Customer Support Dialogues in Social Media
   Jonathan Herzig, Guy Feigenblat, Michal Shmueli-Scheuer, David Konopnicki, Anat Rafaeli, Daniel Altman and David Spivak ........................................ 64

Cultural Communication Idiosyncrasies in Human-Computer Interaction
   Juliana Miehle, Koichiyo Yoshino, Louisa Pragst, Stefan Ultes, Satoshi Nakamura and Wolfgang Minker ................................................................. 74

Using phone features to improve dialogue state tracking generalisation to unseen states
   Inigo Casanueva, Thomas Halin, Mauro Nicolao and Phil Green .................... 80

Character Identification on Multiparty Conversation: Identifying Mentions of Characters in TV Shows
   Yu-Hsin Chen and Jinho D. Choi ..................................................................... 90

Policy Networks with Two-Stage Training for Dialogue Systems
   Mehdi Fatemi, Layla El Asri, Hannes Schulz, Jing He and Kaheer Suleman .... 101

Language Portability for Dialogue Systems: Translating a Question-Answering System from English into Tamil
   Satheesh Ravi and Ron Artstein .................................................................... 111

Extracting PDTB Discourse Relations from Student Essays
   Kate Forbes Riley, Fan Zhang and Diane Litman .......................................... 117

Keynote - Modeling Human Communication Dynamics
Louis-Philippe Morency ......................................................... 263

On the Evaluation of Dialogue Systems with Next Utterance Classification
Ryan Lowe, Iljum Vlad Serban, Michael Noseworthy, Laurent Charlin and Joelle Pineau .... 264

Towards Using Conversations with Spoken Dialogue Systems in the Automated Assessment of Non-Native Speakers of English
Diane Litman, Steve Young, Mark Gales, Kate Knill, Karen Ottewell, Rogier van Dalen and David Vandyke ................................................................. 270

Measuring the Similarity of Sentential Arguments in Dialogue
Amita Misra, Brian Ecker and Marilyn Walker ........................................... 276

Investigating Fluidity for Human-Robot Interaction with Real-time, Real-world Grounding Strategies
Julian Hough and David Schlangen ........................................... 288

Do Characters Abuse More Than Words?
Yashar Mehdad and Joel Tetreault ........................................... 299

Towards a dialogue system that supports rich visualizations of data
Abhinav Kumar, Jillian Aurisano, Barbara Di Eugenio, Andrew Johnson, Alberto Gonzalez and Jason Leigh .................................................. 304

Analyzing the Effect of Entrainment on Dialogue Acts
Masahiro Mizukami, Kojihiro Yoshino, Graham Neubig, David Traum and Satoshi Nakamura 310

Towards an Entertaining Natural Language Generation System: Linguistic Peculiarities of Japanese Fictional Characters
Chiaki Miyazaki, Toru Hirano, Ryuichiro Higashinaka and Yoshihiro Matsuo .................. 319

Reference Resolution in Situated Dialogue with Learned Semantics
Xiaolong Li and Kristy Boyer ......................................................... 329

Training an adaptive dialogue policy for interactive learning of visually grounded word meanings
Yanchao Yu, Arash Eshghi and Oliver Lemon ........................................... 339

Learning Fine-Grained Knowledge about Contingent Relations between Everyday Events
Elaha Rahimtoroghi, Ernesto Hernandez and Marilyn Walker .................. 350

When do we laugh?
Ye Tian, Chiara Mazzocco and Jonathan Girzbg ........................................... 360

Small Talk Improves User Impressions of Interview Dialogue Systems
Takahiro Kobori, Mikio Nakano and Tomoaki Nakamura ........................................ 370

Automatic Recognition of Conversational Strategies in the Service of a Socially-Aware Dialog System
Ran Zhao, Tanmay Sinha, Alan Black and Justine Cassell ........................................... 381

Neural Utterance Ranking Model for Conversational Dialogue Systems
Michimasa Inaba and Kenichi Takahashi ........................................... 393

Strategy and Policy Learning for Non-Task-Oriented Conversational Systems
Zhou Yu, Ziyu Xu, Alan W Black and Alexander Rudnicky ........................................... 404
