Some format issues inherent in the e-media version may also appear in this print version.
TABLE OF CONTENTS

3D Offset Well Analysis in Petrel ................................................................. 1

King, Emma; Dwyer, Jean; Bet; Thomas; Houette, Olivier; Gunawan, Henny; Correa, Juan; Lepp, Becky;
Tawakol, Mohamed; Blasdale, Tim

Achieve Demanding Targets: Successful Well Placement With No Harm to the Environment. Case Study from Offshore Abu Dhabi ........................................... 7

Al-Jaberi, S. M.; Amer, M. M.; Marraud, J.; Yuliandri, Y.; Al-Braik, S.; Baca Espinoza, I.; Shokry, M.; Hammed,

Acid Stimulation Studies on a Special Cement-Based Pill for Use in Weak Production Zones ................................................................. 15

Jandhyala, Siva Rama Krishna; Patil, Sandip; Songire, Sumit; Singh, Sheetal

Advanced Geosteering Technology Promotes the Accuracy of Well Placement in the Thin Reservoirs of China Mature Oilfield .................................................. 23

Lo, Hongsheng; Xia, Guofeng; Xu, Ducuai; Li, Xuekai; Bronwyn, Calleja-Djefel; Liu, Youquan

An Advanced Workflow for Determining Fracture Geometry in Complex, Tight Oil Formations in the Sultanate of Oman ................................................................. 36

Atanayev, Askar; Nadezhdin, Sergey; Zeidi, Omar Al; Batmaz, Tamer; Karraide, Stavarius Dwi

Advancements in Well Conformance Technologies Used in a Major Field in Saudi Arabia: Case Histories ................................................................. 47

Al-Zain, Ahmed; Al-Amri, Mohammed; Al-Jandal, Ahmed; Al-Abdalmohsen, Ramli; Al-Ghaifi, Hashem

All-attitude Gyrocompass Tool Offers Significant Enhancement in Survey Accuracy over the Highest Performance MWD Magnetic Systems ................................................................. 57

Weston, John; Ledroz, Adrián

Application of MWD Survey Corrections in Real Time ................................................................. 69

Marr, Tyler; Schiermeier, Pete

Background to the Development of a Remote Controlled Drilling Blowout Preventer (BOP) Activation Technology for Surface BOP Applications ................................................................. 78

Affleck, Michael; Gilleland, Monty

Buoyancy Technology Used Effectively in Casing Running Operations: Case History of Record Length Two-Stage Production Casing String ................................................................. 92

Rogers, Hank; Shaikh, Alaa; Faraj, Omar A.; Hasan, Abdulaziz

Case Study for Real Time Stick/Slip Mitigation to Improve Drilling Performance ................................................................. 107

Vogel, Stephen K.; Creegan, Andrew P.

A Case Study: Impact of Completion on Multi-Stage Fracturing Performance of a Horizontal Well in a Thin-Interbed Reservoir, Tarim Basin, China ................................................................. 115

Liu, Huijeng; Yang, Xiangtong; Yuan, Xuefang; Liu, Jiangyu; Chen, Zhaowei; Tian, Shouceng

Characterization of Boreo-Based Nanomaterial Enhanced Additive in Water-Based Drilling Fluids: A Study on Lubricity, Drag, ROP and Fluid Loss Improvement ................................................................. 132

Krishnam, Shutesh; Abyat, Zahra; Chok, Calvin

Cluster Wells Applied in Wetland Environment in North Azadegan ................................................................. 140

Liu, Bingshan; Wang, Xi; Tu, Apen; Zhang, Shunyuan; Jiang, Zi; Fu, Jin

Coiled Tubing Conveyed Expandable INF Patch - A Cost Effective Solution to Wellbore Integrity Problems ................................................................. 150

Teasdale, Paul; Kvile; Richard; Friths, Jerry

Combination of Foam Assisted Lift & Gas Lift (FAGL) to De-liquefy Gas Wells ................................................................. 158

Tayyab, Imran; Uddin, M. Farouq M.; Ahmed, Qazi I.; Ibdat-ur-Rehman, M.; Azam, Qazi Syed Munawar

Combining Technology and Automation to Overcome Drilling Challenges and Deliver Longest Extended Reach Well in Kuwait: A Case History ................................................................. 169

Al-Ajmi, Hadi; Al-Ajmi, Abdullah; Al-Ajmi, Khaleed; Al-Bashoud, Abdulaziz; Farhi, Nadir; Noah, Walid; Samie, Mohamed

Computations of Perforating Shock on an Intelligent Completions Interval Control Valve with Test Validation ................................................................. 180

Harive, Kevin; Joubran, Jonathon; Butler, Zachary; Wight, Jim; Craddock, Gerald

Continuous Measurement-While-Drilling Surveying System Utilizing Low-Cost SINS ................................................................. 195

Chao, Daihong; El-Sheiny, Naser

Creating a Safety Culture: What it is and How to Get There ................................................................. 213

Wake, Daryl
Delivering Selective Interval Control: Electro-Hydraulic Intelligent Completion Enhances Reservoir Management for Multilateral Well ................................................................. 222
Garcia, Elias; Mathew, Manesh

Directional Casing While Drilling (CwD) Reestablished as Viable Technology in Saudi Arabia ........................................................... 241
Moham, German; Dhafeeri, Bader; Saggaf, Hatem; Shaaban, Hossam; Herrera, Delmar C.; Osman, Ahmed; Otarenwua, Locus

The Dynamic Underbalanced Drilling: A New Drilling Technique ........................................................................................................ 258
El Neiri, Mohamed H.; Dahab, Abdel Sattar A.; Abdulaziz, Abdulaziz M.

Enhanced Hydraulic Work-Over for Well Integrity Restoration ........................................................................................................ 278
Romero, Javier

Enhanced Sand Control of Multiple Branches Connected to a Single Wellbore ........................................................................................ 292
Durst, Doug G.

Equipment Optimisation to Reduce the Environmental Impact of Well Delivery ................................................................................. 317
Eddie, John; Pinkston, Nathan; Kilpatrick, William

Friction Component of Tube Move Calculations in Unconventional Completion Design ........................................................................ 322
Alexeyenko, A.; Faraj, O.; Adebiyi, I.; Bernard, Y.

High Build Up Rate Rotary Steerable System Leads to Revolutionize Onshore Horizontal Drilling in Western Desert of Egypt ................. 332

High Performance Water Base Fluid Improves Wellbore Stability and Lowers Torque .................................................................... 340
DeNinno, E.; Molina, M.; Shipman, J.; Dearing, H.; Arpin, F.; Bussaglia, L.

Implementing the Pressurized Mud Cap Technique to Drilling through Total Loss Zones: A Way to Improve Well Control while Drilling the Reservoir in Oil Well Re-Entries .................................................. 351
Al-Amri, Khalifah; Guezman, Julio C.; Al-Hashim, Abdulrhaman; Hassanen, Ali M.; Moussa, Ayoub H.

Improved Tight Oil Productivity Through Integrated Technology Deployment on a Multipad Horizontal Well Trial in Central China ................................................ 360
Liu, Peiwu; Liu, Hai; Xiao, Xufeng; Liu, Xiaoqing; Tang, Meirong; Ma, Bing; Huang, Yongjie; Judd, Tobias; Luo, Yin

Improved Validation Method for Annular Casing Packers .................................................................................................................. 379
Stair, Todd; Makowiecki, Gary

Incorporating New Knowledge Significantly Improves Outcomes for Nascent Shale Gas Drilling in Cooper Basin .................................................. 388
Yin, M.; Ross, A. I.; Healey, S.; Leedham, R.; Giuliani, M.

Innovative Rolling Cutter Technology Significantly Improved Footage and ROP in Lateral aand Vertical Gas Applications in Saudi Arabia ..................................................................................................................... 405
Platt, James; Valliyappan, Somasundaram; Karuppiah, Venkatesh

Integrated ERW Drilling Technologies for Weakly Consolidated Sandstone and Mudstone Formations ................................................................ 413
Fan, Baitao; Zhang, Xiaocheng; Xu, Jie; Zhong, Liguo; Yang, Qirong; Zhao, Shaowei; Zang, Ye; Chen, Gang

An Integration of Drilling/Completion Technologies for Maximizing Long-Term Productivity ................................................................ 423
Lim, J. C.; Cortes, Pierre; Smith, Lee

Liquid Weight Material for Drilling & Completion Fluids ..................................................................................................................... 433
Al-Bagoury, Mohamed; Steele, Christopher

Lost Circulation Management in Naturally Fractured Reservoirs ........................................................................................................ 446
Savari, Sharath; Whitfill, Donald L.; Walker, Jonathan

Managing Risks Around Rigs Using Autonomous Marine Vehicles ........................................................................................................ 453
Pai, Sudhir

Modeling and Control of Stick Slip and Bit Bounce in Oil Well Drill Strings ................................................................................ 461
Al Sairafi, F. A.; Al Ajeni, K. E.; Yigit, A. S.; Christoforou, A. P.

Modern Jack-up Design Solutions for Mature Markets ..................................................................................................................... 473
Baan, Ruiger; Remco, van der List

Multilateral TAML-4 and -5 Junctions Provide Consistent Results for Arabian Gulf Operator ........................................................................ 482
Glaser, Mark; Rosas, Eulalio; Rivera, Gilberto J Segovia

MWCNT for Enhancing Mechanical Properties of Oil Well Cement for HPHT Applications ................................................................. 494
Khan, W. A.; Rahman, M. K.; Mahmoud, M. A.; Sarmah, P.

NDC Rig Walking System: Pioneering Initiative Enabling Safer Rig Move in the Middle East ........................................................................ 506
Ali, Osama; Aba Elhamid; Kyaw, H.; AlRemeiti, A.; Elrefai, M.

A New Approach to the Feasibility Design in Development Fields ........................................................................................................ 512
Mukai, Nobuaki; Fujita, Kazuhiro; Al-Kasasbeh, Ameen; Karrani, Saud Mohamed; Al-Marzouqi, Adel
Remarkable Cost Reduction Journey

New Concentric Dual-Diameter Fixed-Cutter Technology Bit Drills 35% Faster and Saves Operator
Drilling Time Through Challenging Abrasive Sandstone in One of the Largest Reservoirs in the
Middle East

New Type of Oilfield Drill Bit Produces New Levels of Performance in Large Diameter Intervals

A Novel Strategy to Provide Extended Life for Offshore Wells by Restoring the Integrity of Surface
Casing Using Innovative Planning and Remediation Techniques

A Novel System for Controlling Pore Pressure Transmission, Inhibition, Stabilization and Targeted
Lubrication in Water-Sensitive Shales: Proof-of-Concept and Initial Field Results

Operational Benefits of Designing Acid-Soluble Drilling Fluids for Horizontal Wells in HTHP
Conditions

Optimization of Well Completion Method and Casing Design Parameters to Delay Casing
Impairment Caused by Formation Slippage

Optimized Approach in Cementing Tophole Sections through Very Hard Al Khalata Sandstone, in a
Deep Gas Field, Oman

Optimizing Multistage Hydraulic-Fracturing Design Based on 3D Continuum Damage Mechanics

Operational Mud Overbalance and ROP Limits for Managing Wellbore Stability in Horizontal Wells in a
Carbonate Gas Reservoir

Overcoming Challenges in the West Qurna-2 Drilling Campaign

Overcoming Open Hole Multistage Acid Fracturing Challenges in Saudi Arabian Carbonate

Reservoirs with Swellable Packers, Best Practices and Dynamic Evaluation

Pioneering Utilization of Fluid Cryogenics in Mimicking Shutoff Barrier Characteristics

Plasma-Based Milling Tool for Light Well Intervention

Proper Well Control & Decision Making While Drilling: A Case Study from an Onshore Carbonate
Reservoir in the UAE

Remediation of Severely Damaged wells using Mesophasic Technology: Case Histories, Saudi Arabia

Significance of Well Construction; Operational Efficiency in Remote Areas - Tullow Kenya’s
Remarkable Cost Reduction Journey

Stand Down For Safety; Powerful Tool in Enhancing Drilling Contractors Safety

Step Change in Drilling Efficiency

Strategically Increasing Completion Efficiency by Applying a Customized Filtercake Breaker
Solution

Study of an Oil Soluble Diverting Agent for Hydraulic Fracturing Treatment in Tight Oil and Gas
Reservoirs

Kunal; Patil, Bhushan
Meempat, Balu
Alah, Ahmed Daif
Lopez, Alfredo

Shen, Xinpui; Stanfield, William; Evans, Scott

Malik, Ataur R.; Leal, Jairo A.; Asiri, Mohammed A.; Ogundare, Tolulope M.; Soriano, Eduardo; Vega, Roberto; Lopez, Alfredo

Pioneer

Al-Otaibi, N.; Pinero Zambrano, N.; Al-Obaidi, I.; Mazzella, C.

Gajdos, Matus; Mostenicky, Ivann; Kocis, Igor; Kristofic, Tomas; Plichta, Michal; el Bannan, Gamal; Taha, Islam

Thakur, Parmaranand; Arwar, Mohamed; Al Arfi, Saif; El-Farouk, Omar; Moustafa, Hassan; Elkhol, Mohamed; Alah, Ahmed Daif

Addagalla, Ajay Kumar V.; Kosandar, Balraj A.; Lawal, Ishoq G.; Jadhav, Prakash B.; Irnan, Aqeel; El-Arabi, Mohamed S; Al Sager, Qassem R; Ansari, Adil; Pino, Rafael; Gad-Alla, Ahmed E; Oliwaresantunez, Tulio

Zhao, Xianzheng; Li, Yongjun; Cai, Bo; Hua, Shen; Shi, Yuanpeng; He, Chunming; Li, Shuai; Zhao, Anjun
