# TABLE OF CONTENTS

## VOLUME 1

### BIOMASS ADDED VALUE

**ADDITION OF BIOMASS HEMICELLULOSE TO HARDWOOD PULPS TO IMPROVE PROPERTIES**

Troy Runge, Anurag Mandalika ................................................................. 1

**BIOMASS SUPPLY CHAIN VALUATIONS - FEEDSTOCK TO CONVERSIONS TO END USE - FINANCIAL & ECONOMIC TRANSPARENCY**

Lawrence Sullivan, Carla M. Wood .......................................................... 13

**THE LIGNOCITY INITIATIVE**

Per Tomani ........................................................................................................ 22

### BIO PRODUCTS

**NEW ROUTES TO TRANSFORM LIGNIN MACROMOLECULES FOR SUSTAINABLE PRODUCTION OF MATERIALS, CHEMICALS & AVIATION FUEL**

Xiao Zhang ....................................................................................................... 28

**PRODUCTION OF ACETIC ACID IN KRAFT PULP MILLS USING BI-POLAR MEMBRANE ELECTRODIALYSIS**

Ravikant Patil, Adriaan Van Heiningen, Hemant Pendso, Joseph Genco ........ 30

**NEW APPLICATIONS - 3D MOLDINGS FROM CELLULOSE FIBERS**

René Kleinert, Harald Grossmann, Tilo Gailat ............................................. 44

### BIOREFINERY CORROSION

**IS THERE SULFURIC ACID IN FLUE GASES IN BIOMASS COMBUSTION? MEASUREMENT TECHNIQUES & RESULTS**

Emil Vainio, Nikolai Demartini, Honghi Tran, Mikko Hupa, Nazanin Orang .... 52

**CORROSION ISSUES IN PRODUCTION & PROCESSING OF BIO-OILS**

James Keiser ..................................................................................................... 62

### MANAGING CORROSION BY THE USE OF NON-METALLIC MATERIALS

**OVERVIEW OF NON-METALS IN PULP & PAPER FIXED EQUIPMENT APPLICATIONS**

Jason M. Hinely ................................................................................................. 72

**FOUR TASKS, TWO STRATEGIES WITH ONE GOAL - RELIABLE FIBERGLASS (FRP) EQUIPMENT**

Todd Bishop ...................................................................................................... 80

### RECOVERY BOILER MATERIALS & INSPECTION (CAREER DEVELOPMENT)

**TEN YEAR EXPERIENCE WITH SUSTAINABLE COMPOSITE TUBES IN SCA HIGH EFFICIENCY RECOVERY BOILER IN ÖSTRAND SWEDEN**

Urban Forsberg, Tony Puikkonen, Andritz Oy, Jan Wåle, Angela Philipp, Hanna Kraft, Timo Pelhola, Mikael Henriksson .......................................................... 97

**RECOVERY BOILER INSPECTION STRATEGY**

W. B. A. Sharp ................................................................................................. 107

**UNDERSTANDING LOW TEMPERATURE CORROSION IN KRAFT RECOVERY BOILERS - IMPLICATIONS FOR INCREASED ENERGY RECOVERY**

Nikolai Demartini, Emil Vainio, Henri Holmblad, Mikko Hupa .................... 127
INCREASED EFFICIENCY & OPERATIONAL AVAILABILITY OF RECOVERY BOILERS - RISK ASSESSMENT, DIAGNOSTICS & OPTIMIZATION ................................................................. 136
Rodrigo Prado, Ademir De Paula Souza, José Carlos Almeida, Pasi Niemelainen

POWER & RECOVERY BOILER ADVANCED CONTROLS

ENERGY EFFICIENCY & PROFIT OPTIMIZATION USING ADVANCED CONTROLS IN COGENERATION APPLICATIONS ............................................................................................................................. 159
Benoit Janvier

DEAD LOAD DETERMINATION USING ONLINE MEASUREMENTS (USING ONLINE FT-NIR MEASUREMENTS TO EVALUATE THE IMPACT OF DEAD LOAD ON THE KRAFT LIQUOR CYCLE) ................................................................. 165
John Porter

RECOVERY BOILER PERFORMANCE MODELING

CONTROLLING THE DROPLET SIZE & INITIAL VELOCITY OF FLASHING BLACK LIQUOR SPRAYS - INITIAL RESULTS FROM A MODELLING APPROACH ................................................................. 176
Mika Jävinen, Ari Kankkunen, Pasi Mikkulainen

EXPERIMENTAL VALIDATION OF A RECOVERY BOILER SUPERHEATER REGION CFD MODEL ............................................................................................................................. 185
Viljami Maakala, Mika Jävinen, Ville Vuorinen

ENERGY UTILIZATIONS

INDUSTRY ACQUISITIONS DRIVING STEAM TURBINE RE-OPTIMIZATION & UPGRADES ............... 209
Adam Noon

THE ROLE OF COMBINED HEAT & POWER (CHP) IN SUPPORTING EFFICIENT RELIABLE POWER FOR THE PULP & PAPER INDUSTRY ................................................................................................. 217
Dalia El Tawy

RECOVERY BOILER OPTIMIZATION

OPTIMIZE BLACK LIQUOR RECOVERY THROUGHPUT & INCREASE CAMPAIGN LIFE WITH CHEMICAL ADDITIVES ............................................................................................................................. 224
Ian Saratovsky, Christopher Smyrniotis, Heng Wang, Scott Bohlen

BLACK LIQUOR RECOVERY BOILER CONSUMED AIR OPTIMIZATION ................................................................. 242
William Poe

ALTERNATIVE FUELS MANAGEMENT

DISPOSING OF SECONDARY SLUDGE (BIOSLUDGE) IN THE RECOVERY BOILER ................................................. 253
Raymond Burelle, Andres Wernqvist, Kai Läder, Kristin Lindholm, Mats Norgren

COMBUSTION OF SOAP IN KRAFT RECOVERY BOILERS ................................................................................................. 259
Keijo Salmenoja, Andritz Oy, Ari Kankkunen

DRYING CHARACTERISTICS OF BIOSLUDGE FROM PULP & PAPER MILLS ................................................................. 268
Geanna Hovey, D. Grant Allen, Honghi Tran

POWER BOILER DESIGN & OPTIMIZATION (CAREER DEVELOPMENT)

GRATE FIRED POWER BOILER COAL TO BARK CONVERSION CASE STUDY ................................................................. 281
Clifford Green, Mark Lebel

EFFECTS OF FEEDSTOCK SIZE & SHAPE ON COMBUSTION IN BIOMASS BOILERS ................................................................. 291
Sara Eskandarifar, Cathy Chin, Honghi Tran
OPERATING PARAMETERS AFFECTING THE THERMAL PERFORMANCE OF BIOMASS BOILERS

Naz Orang, F. Donald McCabe, Andy Jones, Honghi Tran

SAFETY & RELIABILITY I

EQUIPMENT INSTALLATIONS WITH VIRTUAL PROCESS INTEGRATION - A NEW METHOD FOR REDUCING DOWNTIME & ELIMINATING CHANGE ORDERS

Tonya Dittman, Dan Bayer, Dan Goymerac

A RELIABILITY-BASED APPROACH TO LARGE OUTAGES

Donald R. Boyd

MANAGING PIPELINE DETERIORATION

Anthony Aderhold

SAFETY & RELIABILITY II

ADVANCED COGENERATION CONTROLS DESIGN & IMPLEMENTATION USING A FIRST-PRINCIPLES STEAM SIMULATOR

Benoit Janvier

UTILIZATION OF DATA FOR DIAGNOSTICS & PROCESSES TRANSPARENCY

Michael Gee

MAINTENANCE SOLUTIONS (CAREER DEVELOPMENT)

LOW-SPEED BEARING MONITORING - CHALLENGES & SOLUTIONS

Ed Bondac

PAPER MILL BOILER CHEMICAL CLEANING - WHY, WHEN & HOW

Dewey Johnson, David Kittel

OPERATIONS BEST PRACTICES

WORKING TOWARDS A SAFER RECOVERY BOILER OPERATION

Raymond Burelle, Dan Morrison, Pierre Borduas, Riley Hughes

BEST PRACTICES FOR OPERATOR ESSENTIAL CARE & EQUIPMENT INSPECTIONS A SIGNIFICANT SAVINGS OPPORTUNITY - OPTIMIZE YOUR PREVENTIVE MAINTENANCE

Christer Idhammar

INNOVATIVE TECHNOLOGY TRAINING STRATEGY FOR THE PULP, PAPER & CHEMICAL PROCESS INDUSTRIES

Christie Prout

WATER REUSE (CAREER DEVELOPMENT)

MULTIPARAMETER ANALYZERS FOR EFFICIENT MONITORING OF PULP & PAPER INDUSTRIAL WATERS

Lori Carey

WASTEWATER

BIOSTIMULANTS & BUFFERS FOR RAPID WASTEWATER TREATMENT SYSTEM UPSET RECOVERY

Shawn Whitmer, Heather Jennings

PROCESS & WASTE WATER MONITORING IN PULP & PAPER INDUSTRY BY ION CHROMATOGRAPHY

Shibu Paul, Ashley Wittig, Jay Gandhi
DISCOVER ACCURATE WASTEWATER EMISSIONS MODELING THROUGH TOXCHEMTM
4.3 ............................................................................................................................... 420
    Neel Kotra

AIR EMISSIONS

PORT TOWNSEND PAPER'S BOILER MACT SUCCESS STORY - PART 1 (COMBUSTION
SYSTEM UPGRADE) ........................................................................................................... 433
    Samit Pethe, Paul W. Cloninger, Kevin Scott, Ted L. Friedrich
PORT TOWNSEND PAPER'S BOILER MACT SUCCESS STORY - PART 2 (PARTICULATE &
ACID GAS EMISSIONS CONTROL) .................................................................................. 446
    Steve Jaasund

LIME KILN/CAUSTIC PLANT – PROCESS CONTROL & ANALYTICS

TIPS FOR IMPROVING TAPPI TITRATIONS FOR KAPPA NUMBER & VARIOUS PROCESS
LIQUORS ........................................................................................................................... 450
    Lori Carey
IMPROVE LIME MUD KILN OPERATION BY ACCURATELY SENSING & CONTROLLING
MUD MOISTURE ............................................................................................................. 457
    John Robinson, Roger Douglas

LIME KILNS & CAUSTIC PLANT – PERFORMANCE OPTIMIZATION I

DESIGN & PERFORMANCE OF CHAIN SYSTEMS IN ROTARY KILNS USED TO
REGENERATE LIME IN THE PULP & PAPER INDUSTRY .................................................. 469
    Peter Gorog
INCREASING LIME KILN THROUGHPUT BY ADDITION OF DUST RECOVERY CYCLONES
& FLASH DRYER SYSTEMS ............................................................................................ 484
    Kimmo Peltonen
LIME KILN SHELL CORRECTIVE CUTS, AN ALTERNATIVE TO KILN SHELL
REPLACEMENT "BUYING NEW KILN SHELL, WHY NOT TAKE A LOAD OFF, GRAB A
SLICE & RELAX INSTEAD?" ......................................................................................... 493
    Glenn M. Hanson, Lou Lovas, Mike Atwell
ELECTROLYSIS AND BIOMASS CONVERSION AS OPTIONS TO PRODUCE RENEWABLE
ALTERNATIVES FOR FOSSIL LIME KILN FUELS ............................................................ 502
    Katja Kuparinen, Esa Vakkilainen, Janne Kärki

NONWOOD FIBER PAPER MARKETING – DO'S & DON'TS TO AVOID GREEN WASHING
PANEL DISCUSSION

NONWOOD FIBER PAPER MARKETING - DO'S AND DON'TS TO AVOID GREENWASHING .......... 510
    Robert W. Hurter
GREEN' MARKETING - WHAT ARE THE RULES AND BEST PRACTICES ............................ 516
    Phil Riebel

NONWOOD FIBER PRODUCTION & USE

HYBRID FIBER COMPOSITIONS AND USES IN CONTAINERBOARD PACKAGING .................. 531
    Bo Shi, Brent Thompson, Mark Mlaziva
PILOT SCALE PULPING & BLEACHING OF MALAYSIAN OIL PALM EMPTY FRUIT BUNCH
- PART 2 ........................................................................................................................ 534
    Robert W. Hurter, Medwick V. Byrd
KINETICS OF SO2-ALCOHOL-WATER (SAW) PULPING OF SUGARCANE STRAW (SCS) ................................. 548
   Asif Sharazi, Adriaan Can Heiningen

R&D IN KRAFT PULPING & BLEACHING

GENERALIZED STEADY-STATE MODEL FOR CHLORINE DIOXIDE BRIGHTENING OF
HARDWOOD KRAFT PULPS ............................................................................................................. 572
   Brian N. Brogdon

PH TOLERANT XYLANASES PAVE THE WAY FOR 'SLOT-IN' BLEACH BOOSTING
APPLICATIONS WITHOUT ACIDIFICATION ............................................................................... 583
   Howard Kaplan

NEXT GENERATION TECHNOLOGY FOR ENHANCING PULP BLEACHING ................................. 586
   Philip Hoekstra

VOLUME 2

ONLINE QUALITY MEASUREMENTS ARE THE KEY TO UNDERSTANDING AND
OPTIMIZING YOUR FIBERLINE .................................................................................................... 597
   James Goldman

OPTIMIZING BROWN STOCK WASHING

UNDERSTANDING CONDUCTIVITY AND SODA LOSS .................................................................... 606
   Michael T. Brown, Peter W Hart

DETERMINING WASH LOSS LEVELS IN THE BROWN STOCK PULP WASHING LINE USING
DIFFERENT METHODS .................................................................................................................. 622
   Riku Kopre, Olli Dahl

THE ROLE OF DEFOAMER IN BROWN STOCK WASHING ................................................................. 628
   Robert Wilson

FIBER QUALITY & RECOVERY

OPPORTUNITIES FOR BOTH NEW AND EXISTING WOODYARDS AND CHIP MILLS TO
ACHIEVE INCREASES IN PRODUCTION AND CHIP QUALITY BY USING CHIPPER DISCS
THAT INCORPORATE A GREATER NUMBER OF KNIVES .................................................................... 644
   Mark Robinson, Jason Flint

IMPACT OF EUCALYPTUS BARK CONTAMINATION DURING PULPING OF MIXED
SOUTHERN HARDWOODS ............................................................................................................. 652
   Ricardo B. Santos, Peter W. Hart

BLEACH PLANT EFFLUENT FIBRE FILTERS ..................................................................................... 666
   Daniel Brouillette

ADVANCES IN HARDWOOD PULPING

HYBRIDS OF C. CITRIODORA AND C. TORELLIANA FOR KRAFT PULP PRODUCTION .................. 683
   Tiago E. S. Segura, Francides G. Du Silva

ENHANCEMENT OF EUCALYPT PULP YIELD THROUGH EXTENDED IMPREGNATION
COOKING ........................................................................................................................................ 692
   Jorge Colodette, Sabrina Burkhardt, Gustavo B. De Souza

PULPING ADVANTAGES OF ZIP-LIGNIN™ HYBRID POPLAR .......................................................... 704
   Troy Range, Eliana Gonzales-Vigil, Shawn D. Mansfield, John Ralph, Shengfei Zhou, Steven D. Karlen
ADVANCED KAPPA & FIBER QUALITY (CAREER DEVELOPMENT)

NEAR- INFRARED SPECTROSCOPY ANALYSIS OF WOOD PULPS FOR MULTIPARAMETER PREDICTION .......................................................... 717
Kyle Hollister

ADVANCED ATLINE KAPPA MEASUREMENTS WITH NIR-SPECTROSCOPY FOR FIBERLINE OPTIMIZATION ............................................. 727
Thanh Trung, Brady Conroy

IMPROVING SAFETY & BEST PRACTICES IN CIO2 GENERATION & STORAGE

ONLINE KAPPA MEASUREMENT STABILIZES PULP UNIFORMITY, INCREASES YIELD AND IMPROVES BOARD MACHINE RUNNABILITY .......................................................... 737
Jack Williamson, Jim Pittman, Sean Lee

ADVANCES IN PULP TECHNOLOGY

CLO2 GENERATOR BEST PRACTICES: TRADITIONAL MEASUREMENT AND NEW TOOLS FOR CONTROL .......................................................... 747
Thanh Trung

NEW AND OPTIMIZED PROCESS ANALYSIS TECHNIQUES FOR PULPING MONITORING .......................................................... 761
Hari Narayanan

NOVEL TECHNOLOGIES FOR ONLINE KAPPA NUMBER MEASUREMENT BRING OPPORTUNITIES FOR IMPROVED DIGESTER CONTROL .......................................................... 764
Niclas Andersson, Akhlesh Mathur, Jim Pittman

LEVERAGING THE SIMPLICITY OF POTENTIOMETRIC AND THERMOMETRIC TITRATION FOR EFFECTIVE PULP AND PAPER TREATMENT CHEMICAL MONITORING .......................................................... 777
Lori Carey

LIGNIN-REMOVAL, RECOVERY & REFINING

THE EFFECTS OF DELIGNIFICATION ON HEMICELLULOSE EXTRACTION FROM SWITCHGRASS, PINE AND POPLAR .......................................................... 787
Wenhui Geng, Joel J. Pawlak, Richard A. Venditti

LIGNIN RECOVERY SYSTEM AT WEST FRASER HINTON PULP .......................................................... 796
Jon Foan

THE EVOLUTION OF LIGNOBOOST TECHNOLOGY AND THE REFINING OF LIGNIN FOR END PRODUCT USES .......................................................... 809
Gene Christiansen, Kristin Lindholm, Randy Stern, Anders Littorin, Hanna Karlsson, Henrik Wallmo

ADVANCES IN BLEACH PLANT CONTROL

ADVANCED PROCESS CONTROL CHEMICAL COST SAVINGS FOR BLEACH PLANT .......................................................... 816
Ankur Mehrotra

NEW KAPPA QC ANALYZER WITH EMBEDDED BLEACHING CONTROLS .......................................................... 822
Kari Lampela

IMPACT OF DISSOLVED MATTER IN THE OXYGEN DELIGNIFICATION STAGE .......................................................... 830
Niclas Andersson, Caroline Wilke

PULP BLEACHING & EFFLUENT MONITORING

STANDARD BLEACHING SEQUENCES WITH MODERN OZONE TECHNOLOGY .......................................................... 841
Alexis Métais, Emil Germer
A NEW AUTOMATED METHOD FOR MACRO-CONTAMINANT ANALYSIS - INDUSTRIAL APPLICATIONS ................................................................. 986
Sylvie Ossard, Davy Soysouvanh, Pascal Borel, Patrick Huber, Thierry Delagoutte

DEINKING I

THE NOVEL METHOD TO DISTINGUISH POOR RECYCLABLE PRINTS FROM RECOVERED PAPERS BY USING ATR-IR ........................................................................................................... 996
Hirohiko Koizumi, Kazumasa Toyota, Moe Fukuoka, Shisei Goto, Takanori Otsuhata
REJECT RECOVERY BY ZRI PROCESS - AN INDUSTRIAL 'REFIBRE'-DEMONSTRATION ............... 1003
Dennis Voss, Utzenstorf Papier, Liisa Kotanen, Mika Körkkö, Haarla Oy

DEINKING II

DEINKING PROCESS WATER FLOTATION - AN INNOVATIVE SOLUTION TO IMPROVE DEINKING AND PAPER MAKING PROCESSES EFFICIENCY ................................................................. 1012
Thierry Delagoutte, Bruno Carre, Eliza Zéno
WEAK ALKALINE DEINKING USING CRYSTALLINE-LAYERED SODIUM SILICATE: FROM LAB EVALUATION TO MILL TRIAL ................................................................. 1023
Shisei Goto, Hiromichi Tsuji, Hisashi Iwabuchi, Yasuyuki Kamiyio

NEW TECHNOLOGY SHOWCASE (CAREER DEVELOPMENT)

IMPROVING THE ACCURACY AND REPEATABILITY OF PULP VISCOSITY MEASUREMENTS USING FITNIR’S NIR SPECTROSCOPY ANALYZER ................................................................. 1032
Cheryl Sewell
FOUR TASKS, TWO STRATEGIES WITH ONE GOAL: RELIABLE FIBERGLASS (FRP) EQUIPMENT .......................................................................................................................... 1037
Todd Bishop
EMULSION COOLED LIQUOR GUNS: SPLASH PLATE AND BEER CAN NOZZLES3 .................................................. 1053
Jason Miller
THE BENEFITS OF POWERHOUSE ADVANCED PROCESS CONTROL SOLUTIONS .................................................. 1056
David Eapen
IMPROVING ORGANIC REMOVAL IN BROWN STOCK WASHING PROCESS .................................................. 1062
Scott McLaughlin
QUIKTURN REFRACTORY CONCRETES ............................................................................................................. 1070
Chris Macey
CONTINUOUS PRECOAT RENEWAL FOR LIME MUD FILTERS, AND DRIVE UPGRADE FOR CPR SYSTEMS .................................................................................................................. 1077
Lindsay Brandino
TURNKEY INTEGRATED SERVICES FOR INFRASTRUCTURE REHABILITATION .................................................. 1086
Anthony Aderhold
RAPID UPSET RECOVERY SOLUTIONS FOR WASTEWATER TREATMENT SYSTEMS .................................................. 1090
Shawn Whitmer
SOLUTIONS BENEFITS OF ONLINE REDUCTION DEGREE MEASUREMENTS .................................................. 1101
Jeff Butler

NETWORKING DINNER PRESENTATIONS

ENABLING EFFICIENT OPERATIONS .................................................................................................................. 1107
Sandy Sharp
