Workshop on Structured Prediction for Natural Language Processing 2016

Held at the Conference on Empirical Methods in Natural Language Processing (EMNLP 2016)

Austin, Texas, USA
5 November 2016

ISBN: 978-1-5108-3150-6
Table of Contents

Inside-Outside and Forward-Backward Algorithms Are Just Backprop (tutorial paper)
   Jason Eisner ................................................................. 1

Research on attention memory networks as a model for learning natural language inference
   zhuang liu, Degen Huang, jing zhang and kaiyu huang ...................... 18

A Joint Model of Rhetorical Discourse Structure and Summarization
   Naman Goyal and Jacob Eisenstein ............................................ 25

Posterior regularization for Joint Modeling of Multiple Structured Prediction Tasks with Soft Constraints
   Kartik Goyal and Chris Dyer .................................................... 35

A Study of Imitation Learning Methods for Semantic Role Labeling
   Travis Wolfe, Mark Dredze and Benjamin Van Durme ....................... 44

Introducing DRAIL – a Step Towards Declarative Deep Relational Learning
   Xiao Zhang, María Leonor Pacheco, Chang Li and Dan Goldwasser ............ 54

Unsupervised Neural Hidden Markov Models
   Ke M. Tran, Yonatan Bisk, Ashish Vaswani, Daniel Marcu and Kevin Knight .......... 63
