TABLE OF CONTENTS

THE THEORY AND METHODOLOGY ON RISK ANALYSIS

Statistical Significance of Typhoon Risk and Calculation of the Risk per Year ......................................................... 1
 Chongfu Huang

Research on the Mutation Mechanism of Victim's Psychology and Behavior after Natural Disaster Based on
Catastrophe Theory .................................................................................................................................................. 10
Chenyang Song, Ren Zhang, Taiqing Hou, Chengzu Bai, Kefeng Liu, Qiang Long

Comparative Study on Risk Assessment System of New Chemical Materials of China and European Union ................. 20
Lang Huang, Chao Wu

Influence and Risk Assessment of Climate Change in Airport of China based on Hesistant Analytic Hierarchy

Process and TOPSIS .............................................................................................................................................. 26
Chenyang Song, Ren Zhang, Taiqing Hou, Chengzu Bai, Kefeng Liu, Qiang Long

The Weight Analysis of Northeast Passage Straits Index Based on AHP and Rough Set Theory ................................................. 32
Zhe Wang, Shaohua Ge, Ren Zhang, Mengqian Yang, Deliang Jiang

Risk Assessment Method of Coastal Erosion Disasters ................................................................................................. 38
Shiyong Wen, Fengshou Zhang, Xiang Wang, Xinxin Wang, Fei Li, Fei Wang, Ning Gao, Xuegong Xu

Assessment of West Liaohe River Basin's Ecological Vulnerability and Temporal-Spatial Distribution based on
Landscape Pattern ..................................................................................................................................................... 43
Feng Zhang, Jiqun Zhang, Yinan Chen, Qiyun Ma, Enliang Guo, Yongfang Wang

Research on Vulnerability Curve of Grassland Snow Disaster of Livestock on Historical Disaster Data in Xilingol .......... 49
Ji Ha, Jiqun Zhang, Zhenhua Dong, Xiangqian Li, Enliang Guo

Study on Influence Factors of Regional Flood Disaster Resilience Based on DEMATEL-ANP ........................................... 54
Xianfu Cheng, Hongwu Sun

The Generalized Extreme Value Model for Seismic Hazard Estimation of Potential Source Area based on
Maximum Information Entropy Principle .................................................................................................................. 59
Lucxuan Ren, Zhe Liu, Jianwei Tian

Evaluation of Flood Vulnerability of Typical Regions at Dongting Lake Area in China Based on Multi-source
Information Digging and Fusion ................................................................................................................................ 65
Dehua Mao, Jintu Wang, Xiaoshong Fu, Jinbai Li

Study on Hazard Factor Assessment Caused by Snow Disaster in Pastoral Areas of Inner Mongolia Grassland
Based on Multi-source Remote Sensing Data ............................................................................................................. 77
Chula Sa, Guixiang Liu, Mulan Wang, Yuhai Bao

Assessment of Water Resources Security in Semi Arid Area based on GIS-A Case Study in Naiman County, Inner
Mongolia ................................................................................................................................................................ 83
Xiangqian Li, Zhijun Tong, Zhenhua Dong, Si Ha, Feng Zhang, Pengda Liu

Risk Identification Model Based on System Theory and Its Implementation Technical Analysis .................................... 90
Huobo Zhang, Tiezhong Liu

The Review of Methods for Debris Flow Hazard Assessment ..................................................................................... 98
Hai Gao, Jifin Liu

Ecological Risk Assessment and its Spatiotemporal Variations of Northeast China based on Landscape Pattern .......... N/A
Lina Lina, Yulong Bao, Yinshun Yinshun, Chunsheng Mu, Yuhai Bao

Ecological Risk Assessment of HuBaoE Area in Inner Mongolia based on Ecological Footprint Analyses ..................... 105
Jianghong Zhen

On the Risk Assessment of Storm Surge Disasters in the Coastal Areas of Qingdao ....................................................... 111
Song Gao, Shan Zhong, Xihu Lian, Lingjuan Wu, Tao Bai, Yaru Li

On the Hazard Identification Method of Plastic Toys ................................................................................................ N/A
Xia Liu, Bixiong Liu, Qian Wu, Yu Li

The Risk Assessment of the Economic Interests of the Arctic and the Political Power Game Based on the Cloud
Model ................................................................................................................................................................. 117
Mengqian Yang, Shanshan Ge, Ren Zhang, Zhe Wang, Deliang Jiang

RISK ANALYSIS AND EMERGENCY MANAGEMENT OF NATURAL DISASTERS

Risk Analysis of Mongolian Erannis Jacobsoni Djak's Invasion into the Inner Mongolia Area .................................. 123
Xiaojun Huang, Yuhai Bao, Aitanchimeg D., Ren Bu, Miao Fu, Mei Yong

Early Warnings and Benefits Assessment for Disastrous Weathers during 2012 Typhoon ............................................. 130
Yanjun Zhou, Sha Wang

The Monitoring of a Severe Convective Case in Bohai Sea Area on August 31,2015 ......................................................... 136
Yanjiang Li, Yanjun Zhou

Forecast and Disaster Cause Analysis of Tropical Storm Damrey into the Gulf of Bohai .................................................. 141
Zhiming Yu, Shuang Wang, Xiaodong Zhang

Assessment of Rainstorm Disaster-causing Force of Flood Risk in Central and Eastern China .................................. 147
Dapeng Huang, Lei Zhang
Lessons of Mitigation from a Low Frequency Debris Flow Event .............................................................. 153
Flood and Water-Logging Disaster Risk Analysis and Research of Bazhong City ........................................ 158
Menghao Xi, Quikong Zhao, Ningcheng Yang
Risk Assessment of Typhoon Storm Surge Disasters in Guangdong Province Based on the Improved Fuzzy
Bayesian Network ........................................................................................................................................... 164
Chenggu Bai, Ren Zhang, Juanqi Zhang, Ting Wang
Regionalization of Flood Disaster Risk on the County Scale in Semiarid Region-in HeLinGe’Er Case .......... 171
Ningguang Liu, Ren Bu, Yulong Bao, Baosheng Wei
Evaluation of Eco-environmental Sensitivity in Xilingol Grassland .......................................................... 178
Li Mei, Shan Yin, Wula Du, Yuehao Bao, Shan Yu
The Response Characteristics of Xilingol Grassland to Uneven Distribution of Precipitation at Temporal and
Spatial Scale .................................................................................................................................................. 185
Qiaoqiao Zhang, Hongbo Yu, Guixiang Liu, Yuehao Bao
Characteristics and Sensitivity Analysis Division of Flood Disaster in Hohhot .............................................. 192
Na Zhu, Ren Bu, Fuying Qin
Evaluation of Typhoon Disaster Losses of Hainan Island Rubber Plantation ................................................ 198
Jingzhong Zhang, Haijing Huang, Xiaofen Che, Mingjie Zhang
The Application of the Hesistant Analytic Hierarchy Process in the Natural Risk Assessment of Overseas Support
Bases ......................................................................................................................................................... 204
Weilong Jiang, Ren Zhang, Zhe Wang, Mengjiao Yang
Copula-based Analysis of Spatial Distribution Characteristics of Drought in Songnen Grassland ............... 210
Rina Wu, Jianqiang Zhang, Quan Bai, Suiping Tong
Analysis of Anomalous Tropical Cyclone Activities over the Western North Pacific and the South China Sea in
2015 ............................................................................................................................................................ 217
Dandan Yu, Lishan Li, Lei Wan
The Application of Gray Model and BP Artificial Neural Network in Predicting Drought in the Liaoning Province 223
Xiaojing Liu, Yongpeng Song, Donglai Ma, Peng Chen
Study of Handan’s Urban Waterlog Risk Problem Based on Two-dimensional Information Diffusion Model .... 227
Shuqian Guo, Fanlei Zeng, Gu Wang, Gongwen Zhang, Jianwei Liu, Hongfang Wang, Wei Sun
Hohhot Earthquake Emergency Shelter Planning and Construction Situation Analysis and Suggestion ........... 233
Xiaoli Cui, Zhifen Sun, Narenmandula Narenmandula, Zhuojilun Zhouti, Jianzhong Zhang
Grey Forecasting of Flood Disaster and Characteristics of Summer Grading-precipitation in Togtoh County .... 239
Qimuge Qimuge, Buren Buren, Xiaojuan Huang
Disaster Risk of Landscape-Rockfall in Danxia Landform of Kongtong Mountain ..................................... 247
Yuant Ke, Shouyun Liang, Zhaow Chen
A Tentative Study on the Influence of Climate Variations for Clipping Pasture’s Straw Yield in Hulunbuir
Grassland With Chenbarag Banner for Example ....................................................................................... 253
Wei Yan, Huojingtia Huojinge, Narenmanlula Narenmanlula
Influence of Hydrothermal Condition and Topography on Dynamic of Vegetation Coverage in Inner Mongolia 259
Dingren Wen, Yuehao Bao, Shan Yan
Rainstorm Waterlogging and Prevention Measures in Urban Area of Hohhot City ...................................... 265
Wentong Li, Zhijun Sun, Narenmanlula Narenmanlula, Buren Buren, Yuehao Bao, Eerdannatu Jin
Method of Seismic Tsunami Hazard Estimate Effect Coupling Uncertainty of Magnitude and Focal Depth ....... 270
Zhe Liu, Jianwei Tian, Luchuan Ren
Risk Assessment of the Bureau Storm Disaster by the Application of Extension Theory in Sichuan .......... 276
Tianxing Xiao, Fengrong Jing, Yawen Zuo, Yuejie Fang, Wan Li
The Analysis of Natural Disasters in China from 1998 to 2016 based on Text Mining ................................. 282
Xiao Liu, Haixiang Guo, Yiying Li, Chunmiao Yang
Assessment of Earthquake Disaster Risk in Gansu Province ...................................................................... 290
Wendai Chen, Haijuan Pei, Congxuan Xi, Yanping Sun, Wen Li
Applicability Research of Drought Monitoring Indexes on Mongolia Plateau Based on the EOS/MODIS Time
Sequence ...................................................................................................................................................... 295
Duwula Duwula, Yushan Yushan, Narsiu Narsiu, Guixiang Liu
Research on Rainstorm Risk Evaluation System Construction in Sichuan Province .................................. 303
Ding Chen, Tianxiin Xiao, Fengrong Jing, Li Wang, Jialin Fan, Zhaoyu Zuo, Weiwei Gan, Zhaoxian Wang, Yajie Fang, Yawen Zuo
Analysis on Economic Impact of Flood Control and Disaster Mitigation—A Case Study of Togtoh County .... 308
Baotana Bautana, Buren Buren, Xiaojuan Huang
Risk Analysis and Strong Ground Motion Characteristics of Ludian Ms 6.5 Earthquake .............................. 315
Sen Qiao, Xueling Chen, Aiwon Liu, Zengying Wen, Xiaoqian Li, Zonghao Li, Tiefei Li
Research on the Application of AIRO Model in Indirect Economic Loss Assessment of Disaster ............... 321
Peng Zhang, Lichao Wu, Jing Xin, Jinq Liu
Seismic Moment-Rate and Longtoushan Records to Determine Seismogenic Fault Direction of Ludian Ms6.5
Earthquake .................................................................................................................................................. 327
Xueling Chen, Mengtao Guo, Shicheng Li, Jianwen Cui, Jingping Guo, Sen Qiao
Spatiotemporal Variations of Hydrologic Extremes and Response to Extreme Precipitation in Xiang River Basin 334
Linli Cheng, Juan Du, Yumeng Yang
The Return Period Analysis of Beijing Heavy Rainfall Based on Copula ..................................................... 342
Weihua Cao
RISK ANALYSIS AND EMERGENCY MANAGEMENT OF CATASTROPHE ACCIDENTS

The Correlation Analysis of Influencing Factors and Harmfulness of Expressway Traffic Accident .................................................. 348
Xiaoli Huang, Yaolong Liu, Jin Duan, Huaming Zhang

Study on the Risk Analysis and Emergency Management System of Major Accidents in Chemical Industry Park .......................... 353
Changxing Ren, Haihao Li, Ning Zhao, Xiongjun Yuan

Meteorological Risk Analysis of Port Crane Operations and Warning Managements .......................................................... 360
Feng Wang, Qiang Long, Chang Wang, Linlin Jiang

Fire Simulation and Evacuation Risk Analysis on Subway Train .............................................................................. 365
Xiaoya Song, Changxing Ren, Fan Wu, Qi Ni, Jun Jiang

Research on the Early Warning Demonstration System of Freak Wave .......................................................... 370
Peitao Zheng, Xiaotian Li, Shouhua Liu

Summary of Storm-induced Dam-break Hazard of Tailings Pond ........................................................................ 374
Qinghua Gong, Jun Wang, Jianxiang Zhang

THEORY AND METHODOLOGY ON CRISIS RESPONSE

Constructing the Training Mode of Public Security Fire Commanders Based on Competency Model .................................................. 380
Yi Hou

Prediction of Seawater Intrusion in Laizhou Bay Area under Groundwater Pumping Activities .................................................. 384
Xiankui Zeng, Dong Wang, Jichuan Wu

A Modeling Technology of Aircraft Landing Safety Prediction under the Extreme Weather Conditions in the Future Based on Cloud Theory ........................................................................ 388
Yangjun Wang, Ren Zhang, Shuang Shen, Zhenghua Wu

Study on Crisis Early-warning of Internet Rumors About Emergencies Based on BP Neural Network .................................................. 393
Ying Zhou, Peng Zhang, Yuexin Lan, Huoping Li

Study on Emergency Evacuation System of City Waterlogging Wargaming Rules of Residents .................................................. 400
Peng Chen, Jiquan Zhang, Yingzhe Su, Xinying Liu, Juqiu Liu

Study on the Warning of Giant Jellyfish Disaster in the Coastal Waters of Qingdao .................................................. 406
Lingxuan Wu, Tao Bai, Guiyuan Liu

Research on Rapid Assessment of Earthquake Death Toll Based on Neural Network .................................................. 411
Haowen Wang, Xinjun Wu, Hongwei Li, Yong Luo

Evolutionary Game Analysis and Simulations for Intra-Village Conflict of Collective Land Expropriation .................................................. 417
Haowen Wang, Qinxian Li, Haijun Bao, Yi Peng

RISK ANALYSIS AND CRISIS RESPONSE FOR PUBLIC HEALTH

Human Health and Ecological Risk Assessment of Two Common Antibiotics in Drinking Source Water .................................................. 425
Hanyu Ju, Jiquan Zhang, Caiyun Sun, Sijia Li

Researches on Welder's Pneumoconiosis Risk Assessment Methods Based on Logistic Regression .................................................. 431
Deqin Huang, Minyan Li, Mao Liu

Breast Cancer Risk Diagnosis Based on Random Forest Classification ........................................................................ 438
Li Li, Yuting Sun, Lei Xiao

Household Risk Factors and Intention of Safety Equipment Use among the Elderly: a Survey from Two Districts of Beijing .................................................................................. 445
Qiujie Zhang, Yingnan Mu, Wei Zhu, Xing Guo, Pengxia Zhao

The Application of CLEA Model in Accessing Health Risks of PAHs in Soil .................................................. 450
Deyin Zhang, Zhiqiu Jiang, Li Qiao, Hongbin Cao

Simulation of Spatial Distributions of Atmospheric Heavy Metals in Xinzhuang and Assessment of Their Health Risks .................................................. 456
Yanjiao Chen, Yaobin Meng, Hongbin Cao

Ecological and Health Risk Assessment of Persistent Organic Pollutants in Taihu Lake Basin .................................................. 462
Jieyu Zhu, Dong Wang, Yanzhan Wang, Luchun Wang, Wei Huang, Debiao Zeng, Lili Jiang, Dengfeng Liu

RISK ANALYSIS AND CRISIS RESPONSE FOR SOCIAL SECURITY

The Study on Evaluation of Outsize Flood Based on Flow Betweenness Centrality .................................................. 467
Jie Lin, Yaohua Xu, Bai Pan

Construction of the Social Impact Assessment Index System and Its Conceptual Framework of Grassland Drought Disaster Based on SD Model .................................................. 479
Zhenhua Dong, Jiquan Zhang, Zhijun Tong, A. Ron

Study on the Evolution Mechanism of Urban Flood Disaster Social Risk Based on the Model of Four Dimensions of Social Amplification of Risk ........................................................................ 485
Quan Sun, Xuemeng Yin, Jing Cao
RISK ANALYSIS AND RISK MANAGEMENT IN FINANCIAL INDUSTRY

Measure the Market Risk of the American Basket Options Based on the Least Square Monte Carlo Simulation Approach ................................................................. 493
Qiang Li, Xueling Zhu
Research on Credit Risk Early-Warning for Listed Companies in Chengyu Economic Zone Based on Best Fuzzy Support Vector Machine .................................................. 499
Kai Xu, Zongfang Zhou
Research on the Risk of Individual Stock Investment -- Take the Brokerage Sector as an Example .................................................. 505
Zhong Ma, Hongmei Zhang, Ziyuan Wang, Zhiqiang Chen
The Risk of Securities-based Crowd-funding in China and its Preventive Measures .................................................. 511
Ronggang Zhang, Runheng Wang
Construction of Risk Assessment Index System of P2P Net Loan Platform Based on ANP .................................................. 517
Junquan Ding, Yazhong Chen, Zhiqiang Chen, Hongmei Zhang
Decision Analysis of Entrepreneurial Company' Venture Leasing .................................................. 521
Meng Wang, Mu Zhang
On Application of KMV Model in Credit Risk Management of China's Securities Companies .................................................. 527
Guoqu Deng, Shujuan Kang, Kai Guo
Loan Risk Compensation Fund Stimulating Effect on SME Loans Inspection .................................................. 533
Qiaojun Pan, Chengyi Pu
Financial Agglomeration Level Domain Western Province Based on Principal Component Analysis Measurement .................................................. 538
Hongmei Zhang, Teng Li, Xiangrui Meng, Ziyuan Wang

THE INVESTMENT LOAN LINKAGE MODE AND ITS RISK ANALYSIS OF COMMERCIAL BANK

Risk Analysis and Risk Management in Financial Industry .................................................. 544
Qian Chen, Mu Zhang

RISK ANALYSIS AND RISK MANAGEMENT IN INSURANCE INDUSTRY

Premium Subsidies, Efficiency Loss and Externalities of Agricultural Target Price Insurance---A Theoretical Framework .................................................. 550
Liang Zhao, Lei Xu, Ningting Zhang
Design of the Insurance Contract Based on the Weather Indices of Chilling Injury in Litchi and Demonstration Application .................................................. 555
Chunyi Wang, Jinghong Zhang, Yajie Zhang, Haijing Huang, Xiafen Che
On the Actuarial Simulation of the General Pareto Distribution of Catastrophe Loss .................................................. 561
Xiaojun Pan, Chengyi Pu
Performance Evaluation of Planting Insurance Premium Subsidies in China-Based on the Dynamic DEA and the Three Stage DEA .................................................. 569
Jianzhong Ren, Shilen Li

RISK ANALYSIS AND MANAGEMENT IN SUPPLY CHAIN AND E-COMMERCE

Trade Credit and Lending Strategy of Supply Chain with Information Asymmetry .................................................. 575
Xiaofeng Xie, Ynag Yang, Zongfang Zhou

RISK ANALYSIS AND RISK MANAGEMENT IN CORPORATE FINANCIAL

The Research on SME's Equity Value with Stochastic Pricing Method .................................................. 580
Changbing Yang, Mu Zhang

RISK MANAGEMENT OF AGRICULTURAL CATASTROPHE

Eastern Jilin Province Rice Cold Damage Risk Vulnerability Curve Established Based on CERES-Rice Model .................................................. 586
Chuming Guo, Meng Zhu, Tiehua Cao, Juqian Zhang
Hazard Analysis of Drought and Flood Disaster for Maize in Xiliaohe Watershed .................................................. 592
Rui Wang, Xingqiong Liu, Juqian Zhang, Enliang Guo, Meng Zhu, Danjun Li
Spatio-temporal Characteristics Of Corn Drought Disaster in Jilin based on Yearly Growth Stage Data .................................................. 598
Qi Zhang, Juan Du, Juqian Zhang
Analysis on the Present Situation of Agricultural Catastrophe Risk Diversification in China .................................................. 604
Guoqiang Deng, Shujuan Kang, Kai Guo
Spatial-temporal Pattern of Water Requirement in Xiaioae Watershed .................................................. 613
Rui Wang, Juqian Zhang, Peng Zhang, Enliang Guo, Meng Zhu, Danjun Li
The Validity of Behavior Against Drought Disaster of Farm Households in Yunnan Mountain--Based on Different Body-temperature Angles .................................................. 619
Min Tian, Yimeng Cheng, Jianlan Li, Shiluang Hu, Xinhui Xu
Distribution and Ecological Risk Assessment of Polycyclic Aromatic Hydrocarbons in Agricultural Soil along Main Roadside in Changchun ................................................................. 627
Yinan Chen, Jiquan Zhang, Feng Zhang, Mo Zhou

Maize Drought and Flood Disaster Hazard Identification and Its Response to Climate Change in Jilin, China ......................................................... 633
Danjun Li, Jiquan Zhang, Enliang Guo, Rui Wang

Research on Temporal and Spatial Dynamic of Maize Drought Using Remote Sensing: A Case on Shuanghe Farm of Beijing ........................................ 638
Yanxiang Jin, Sijian Zhao, Wei Sun, Lei Xu, Qian Nie, Qiao Zhang

Research on Vulnerability Curve of Waterlogging Disaster for Maize Based on CERES-Maize Model in the Midst of Jilin Province ......................... 644
Guo Enliang, Jiquan Zhang, Yongfang Wang, Zhenhua Dong

A Study on Recognition and Assessment of Agricultural Weather-related Disaster Risk ................................................................. 650
Zhao Sijian, Zhang Qiao, Nie Qian

TERRORIST ATTACKS AND CRISIS RESPONSE

Spatial-temporal Distribution and Risk Analysis of Terrorist Attack Fires .......................................................................................................................... 659
Guohui Li, Cheng Wang, Lizeng Zhao, Weiping Han, Ying Wang

Emergency Disposal Strategy of Fire Fighting Forces Dealing with Dangerous Chemicals Disaster Accident Under the Background of Terrorism .................................. 665
Feng Zhang, Liwen Liu, Jiyong Wang, Xianqian Zhang

RISK ANALYSIS AND CRISIS RESPONSE IN THE PROCESS OF RAPID URBANIZATION

Life Water Demand Prediction and Water Security for West Liaohe River .............................................................................................................. 672
Danjun Li, Xingpeng Liu, Jiquan Zhang, Feng Zhang

Financing Risks in the Development of Urbanization in China -- Based on the Perspective of Rural Land Property ................................................................. 678
Jiao Yin, Hongmei Zhang

Development and Risk Analysis on Regional Construction-purposed Sea Use ........................................................................................................ 683
Shufen Liu, Jinyong Wang, Wei Xu

RISK ANALYSIS AND RISK MANAGEMENT IN THE CONSTRUCTION OF MAJOR INFRASTRUCTURE PROJECTS

The Identification and Prevention of the Risk from EPC Project Owner .............................................................................................................. 687
Hui Guo, Xiaohao Dong

The Seismic Hazard Estimate of the Manila Trench Subduction Zone based on the Generalized Pareto Distribution ................................................................. 692
Jianwei Tian, Zhe Liu, Luchuan Ren

DYNAMIC RISK ANALYSIS AND RISK MANAGEMENT

Dynamic Risk Analysis on City Waterlogging Disaster Based on Scenario Simulation ........................................................................................................... 698
Xilei Pang, Chongfu Huang, Yingfu Zhang

Temporal Dynamics of Vegetation NDVI and Its Response to Drought in Songnen Grassland ......................................................................................... 707
Qiyan Ma, Jiquan Zhang, Sujin Tong, Zhenhua Dong, Xuehai Nie, Yinan Chen

Vegetation NPP Changes in Horqin Sandy Land During 2000-2013 ............................................................................................................................... 713
Yinzhan Yinshan, Suriguga Bao, Yuhai Bao

Study on the Spatial-Temporal Coupling Relationship between Economic Development and Industrial Water Use in West Liaohe River Basin ...................... 719
Pengda Lin, Zhijun Tong, Jiquan Zhang, Zhenhua Dong, Xiangqian Li

The Research of the Interactive Relationship Based on the VAR Model between the Prices of Pork, Soybeans and Corn .................................................................. 725
Siyu Mo, Wen Han

Credit Index Research of Chinese Medicine Market --- Take a Chinese Medicine Market in Chengdu for Example ................................................................ 732
Binbin Yang, Zongfang Zhou

Progress on the Pest Risk Analysis of China ......................................................................................................................................................... 739
Jianwei Li, Xiaoyuan Zhang, Yibing Liang, Hao Wu

System Design of Loss Fast Evaluation for Grassland Drought Disaster Based on RS, GIS and GPS .............................................................................. 745
Qiyan Ma, Jiquan Zhang, Rui Wang, Si Ha, Meng Zhu, Danjun Li

Xuanxia Liu, Jingjing Li, Ning Zhou

Analysis of Drought Characteristic in Sunit Prairie Based on Precipitation Anomaly Percentage During 2000-2015 ................................................................. 757
Xiaodong Sun, Guixiang Liu, Yuhai Bao, Xiaode Zhang

Risk Analysis of Water Masses Degeneration in the Northern Gulf ............................................................................................................................. 763
Ye Yuan, Peinan Zheng, Zhouwen Xiao, Zhicheng Mao
