ACVS Surgery Summit 2016

Seattle, Washington, USA
6 - 8 October 2016

# TABLE OF CONTENTS

## KEYNOTE LECTURE

### Equine Upper Airway - Current and State Of The Art Information In Veterinary Surgery and Allied Medicine

Norm G. Ducharme, DMV, MSc, DACVS, Cornell University

---

### Management of Equine Joint Disease - Current Concepts

C. Wayne McIlwraith, BVSc, PhD, DACVS, DACVSMR, Orthopaedic Research Center

---

### The Role and Medical Management of Military Working Dogs in Combat

James T. Giles, III, DVM, MS, DACVS-SA, South Texas Veterinary Specialists

---

## EQUINE/LARGE ANIMAL

### AXIAL SKELETON

#### Impingement of the Dorsal Spinous Processes in Horses

Cliff M. Honnas, DVM, DACVS, Texas Equine Hospital

---

#### Head and Neck Surgery

Brett Woodie, DVM, MS, DACVS, Rood and Riddle Equine Hospital

---

#### Imaging of the Axial Skeleton

Sarah M. Puchalski, DVM, DACVR, Circle Oak Equine Sports Medicine and Rehabilitation

---

#### Rehabilitation for Back and Neck Pain

Melinda R. Story, DVM, DACVS-LA, DACVSMR, Colorado State University

---

#### Management and Outcome of Fractured Ribs in Foals

Robert J. Hunt, DVM, MS, DACVS, Hagyard Equine Medical Institute

---

#### What's New with Cervical Spinal Fusion

Nick Huggons, DVM, DACVS-LA, San Luis Rey Equine Hospital

---

## EQUINE ADVANCED PAIN MANAGEMENT

### Intra- and Post-Operative Continuous Rate Infusions for Analgesia

Lesley Smith, DVM, DACVAA, University of Wisconsin
Regional Blocks for Procedures of the Equine Head ................................................................. 37
Lessy Smith, DVM, DACVAA, University of Wisconsin

EQUINE CORNEAL SURGERY

Advancements in Equine Corneal Surgery and Reconstruction ................................................... 41
Brian Gilger, DVM, MS, DACVO, DABT, North Carolina State University

Advancements in Equine Corneal Therapeutics Designed to Avoid Surgery .............................. 46
Brian Gilger, DVM, MS, DACVO, DABT, North Carolina State University

Equine Corneal Procedures that Can (and Should) be Done in the Standing Horse .................. 48
Brian Gilger, DVM, MS, DACVO, DABT, North Carolina State University

When is Corneal Surgery Indicated in the Horse? ................................................................... 55
Brian Gilger, DVM, MS, DACVO, DABT, North Carolina State University

GASTROINTESTINAL SURGERY

Colon Displacements- Are We Cutting too Many or too Few? .................................................. 60
Sue Holcombe, VMD, PhD, DACVS, DACVECC, Michigan State University

How to Surgically Manage Adhesions After They Form ....................................................... 66
P.O. Eric Mueller, DVM, PhD, DACVS, University of Georgia

Post Operative Intensive Care- Does The Evidence Match the Cost? ................................. 71
Jarred M. Williams, DVM, DACVS-LA, University of Georgia

Large Colon Volvulus Below the Cecocolic Ligament ............................................................ 76
Brett Woodie, DVM, MS, DACVS, Rood and Riddle Equine Hospital

IMAGING AND LAMENESS

Advanced Ultrasound Techniques in Veterinary Medicine ....................................................... 78
Megann Lustgarten, DVM, DACVR, Friendship Mobile Veterinary Imaging

Bone Bruising - Manifestations, Diagnosis, Imaging, Management ....................................... 81
Micheal W. Ross, DVM, DACVS, University of Pennsylvania

Surgical Treatment for Hindlimb Proximal Suspensory Desmitis ........................................... 95
Matthew T. Brokken, DVM, DACVS-LA, The Ohio State University

Racing Performance of 47 Thoroughbred Racehorses Diagnosed with Palmar Osteochondral Disease via Magnetic Resonance Imaging ....................................................... 98
Paul Robinson, BVSc, DACVS-LA, The Hong Kong Jockey Club
ORTHOPEDIC SURGERY

Cell-Based Therapies for Joint Disease ................................................................. 101
   Kyla F. Ortved, DVM, PhD, DACVS-LA, New Bolton Center, University of Pennsylvania

Complex Injuries to the Ulna and Proximal Radius in Young Horses ..................... 106
   Alan J. Ruggles, DVM, DACVS, Rood & Riddle Equine Hospital

Evaluation of Digital Flexor Tendon Sheath & Associated Structures .................. 111
   Sarah N. Sampson, DVM, PhD, DACVS-LA, DACVSMR, Texas A&M University College of Veterinary Medicine

Fracture Management in the Foal ........................................................................... 114
   Alan J. Ruggles, DVM, DACVS, Rood & Riddle Equine Hospital

Fractures of the Proximal Phalanx Associated with the Collateral Ligament .......... 118
   Claude A. Ragle, DVM, DACVS, DABVP (Equine), Washington State University

Pastern Arthrodesis Complications ...................................................................... 121
   Larry D. Galuppo, DVM, DACVS, University of California, Davis

Management of the Post-Arthroscopy Joint .......................................................... 126
   Samantha L. Morello, DVM, DACVS-LA, University of Wisconsin-Madison

Standing Pastern Arthrodesis .............................................................................. 130
   Kelly D. Farnsworth, DVM, MS, DACVS, Washington State University

Subchondral Bone Disease in the Equine Athlete .................................................. 132
   Chris E. Kawcak, DVM, PhD, DACVS, DACVSMR, Colorado State University

Unconventional Orthopedic Infections ................................................................. 135
   Patricia M. Hogan, VMD, DACVS, Hogan Equine

STATE OF THE ART RESPIRATORY

Complications of Upper Respiratory Laser Surgery .............................................. 138
   Lloyd P. Tate, Jr., VMD, DACVS, DABLSM, MHF, North Carolina State University

Dynamic Endoscopy of the Sport Horse: Findings and Treatments ..................... 142
   Brett Woodie, DVM, MS, DACVS, Rood and Riddle Equine Hospital

How to Deal with Intra- and Post-Operative Complications ............................... 144
   Norm G. Ducharme, DMV, MSc, DACVS, Cornell University

No Coils or Plugs Available: Approach to Guttural Pouch Bleeds and Treatment .... 147
   Brett Woodie, DVM, MS, DACVS, Rood and Riddle Equine Hospital
Robotic Computed Tomography in Equine Upper Respiratory Diagnostics...............................149
John Pigott, DVM, MS, DACVS-LA, Cornell Ruffian Equine Specialists

Tips on Standing Surgery: Tie Back and Arytenoidectomy ........................................................152
Norm G. Ducharme, DMV, MSc, DACVS, Cornell University

WOUNDS AND BURNS

Biological Therapies for Wound Management: Pearls & Perils.......................................................155
Christine L. Theoret, DMV, PhD, DACVS, University of Montreal

Clinical Update on the Latest in Sarcoid Treatments .................................................................158
Kelly D. Farnsworth, DVM, MS, DACVS, Washington State University

Equine Wounds: What Dressing Would You Like with That?.....................................................160
Christine L. Theoret, DMV, PhD, DACVS, University of Montreal

Practical Tips and Case Discussions of Vac-Pak Therapy in Horses ............................................162
Yvonne A. Elce, DVM, DACVS, The University of Edinburgh

SMALL ANIMAL

ADVANCES IN LUMBOSACRAL SURGERY

Advances in Lumbosacral Surgery: Do We Treat Disc Pain, Compression or Instability? ........166
Björn Meij, DVM, PhD, DECVS, Faculty of Veterinary Medicine, Utrecht University

Biomechanics and Surgical Stabilization Techniques .................................................................173
Peter J. Early, DVM, DACVIM, North Carolina State University

Clinical Decision Making: Conservative vs. Surgical Management .............................................177
Peter J. Early, DVM, DACVIM, North Carolina State University

Lumbosacral Stenosis in Dogs: Where We've Been and Where We're Going .............................179
Nick Jeffery, BVSc, MSc, PhD, DECVIM, DECVS, FRCVS, Iowa State University

Minimally Invasive Approach to the Lumbosacral Spine ...........................................................182
Bianca F. Hettlich, DrMedVet, DACVS-SA, Vetsuisse Bern

ADVANCES IN URINARY SURGERY

Advances in Surgical Urology: The Human Medicine Perspective .............................................185
John L. Gore, MD, MS, University of Washington

Antegrade Ureteral Stenting ..............................................................................................................186
William T.N. Culp, VMD, DACVS-SA, University of California, Davis
Open Heart Surgery in Toy Breeds: How to Make it Work ........................................................224
  Masami Uechi, DVM, PhD, Nihon University

  Augusta Pelosi, DVM, DACVS-SA, Michigan State University

Surgical Treatment of Congenital Heart Disease: Update ...........................................................228
  Daniel J. Brockman, BVSc, CVR, CSAO, DACVS, DECVS FHEA, Royal Veterinary College

HEPATOBILIARY

Biliary Stenting in Dogs and Cats ................................................................................................234
  Allyson Berent, DVM, DACVIM, Animal Medical Center

Resection of Large Liver Tumors .................................................................................................236
  Carl R. Schmidt, MD, FACS, Ohio State University Wexner Medical Center

Microwave Ablation of Liver Tumors .........................................................................................238
  Carl R. Schmidt, MD, FACS, Ohio State University Wexner Medical Center

Shunt Morphology .......................................................................................................................240
  Laura L. Nelson, DVM, MS, DACVS-SA, Michigan State University

Hepatobiliary Section: Tumor Embolization and Other Therapies .............................................242
  Chick Weisse, VMD, DACVS, Animal Medical Center

MINIMALLY INVASIVE SURGERY
  SPONSORED BY: MEDTRONIC, AN ACVS INDUSTRY PARTNER

Feline Minimally Invasive Surgery: What Can be Achieved? .....................................................245
  Philipp D. Mayhew, BVMS, MRCVS, DACVS-SA, University of California, Davis

Minimally Invasive Surgical Oncology: What is the Evidence? ................................................248
  Philipp D. Mayhew, BVMS, MRCVS, DACVS-SA, University of California, Davis

Individualized Medicine; Do We Need to Consider Alternatives to Gonadectomy? ..............251
  Boel A. Fransson, DVM, PhD, DACVS, Washington State University

Serious Gaming and Laparoscopy: Current Innovations in Surgical Education in Minimally Invasive Surgery ..........................................................254
  Alexandra L. Winter, BVSc, DACVS, Chicago, IL
ORTHOPEDIC SURGERY: LIVING ON THE EDGE
SPONSORED BY: BIOMEDTRIX, LLC, AN ACVS PREMIER SPONSOR

Custom Orthopedic Implants: Design and Clinical Applications ................................................256
  Denis J. Marcellin-Little, DEDV, DACVS, DECYS, DACVSMR, North Carolina State University

Cutting-Edge Strategies in Infection Control ..............................................................................260
  Matthew Allen, DVM, University of Cambridge

New Developments in Elbow Disease ........................................................................................261
  Ursula Krotscheck, DVM, DACVS-SA, Cornell University

Overcoming Challenges in Canine Tissue Engineering: An Update ...........................................264
  Jennifer J. Warnock, DVM, PhD, DACVS-SA, Oregon State College of Veterinary Medicine

ORTHOPEDIC TRAUMA
SPONSORED BY: AOVET NORTH AMERICA, AN ACVS EDUCATIONAL PARTNER

Antimicrobial Selection/Resistance in Orthopedic Trauma Cases ..............................................266
  Duane A. Robinson, DVM, PhD, DACVS-SA, University of California, Davis

General Approach to Minimally Invasive Fixation in Orthopedic Trauma Patients ...................268
  Stanley E. Kim, BVSc, MS, DACVS-SA, University of Florida

How I Started MIO in My Practice ..............................................................................................271
  Katja Lin, DVM, DACVS-SA, Las Vegas Veterinary Specialty Center

Integrative Approaches to Pain Management in Orthopedic Trauma Patients ............................272
  Jamie Lynn Peyton, DVM, DACVECC, CVA, CVC, CCRT, University of California, Davis

MIPO Techniques and Case Examples in Orthopedic Trauma Patients ......................................274
  Katja Lin, DVM, DACVS-SA, Las Vegas Veterinary Specialty Center

Open Fractures and Treatment Approaches in Orthopedic Trauma Cases ..................................275
  Duane A. Robinson, DVM, PhD, DACVS-SA, University of California, Davis

REGENERATIVE MEDICINE IN ORTHOPEDICS
SPONSORED BY: ARTHREX VET SYSTEMS, AN ACVS PREMIER SPONSOR

Can Autologous Mesenchymal Stem Cell Injection Enhance Treatment of Partial Cruciate
  Rupture? .......................................................................................................................................279
  Peter Muir, BVSc, PhD, DACVS, DECYS, University of Wisconsin-Madison
Can Autologous PRP Hydrogel Treatment Enhance Management of Dogs with Partial Cruciate Rupture? .................................................................282
Peter Muir, BVSc, PhD, DACVS, DECVS, University of Wisconsin-Madison

Clinical use of Culture Expanded MSCs: What Have We Learned from the Horse? ............286
Ashlee Watts, DVM, PhD, DACVS-LA, Texas A&M University

Developing Adipose-Derived Mesenchymal Stem Cell Therapies for Clinical Use in Osteoarthritis .................................................................................292
Kristina M. Kiefer, DVM, PhD, CCRP, DACVSMR, University of Minnesota

Development of Equine MSC Treatments for Musculoskeletal Injuries: From Proof of Concept to Commercialization ..........................................................295
David D. Frisbie, DVM, PhD, DACVS, Colorado State University

Tissue-Derived Stem Cells: Who can Build a Better Tendon? ...........................................297
Jennifer G. Barrett, DVM, PhD, DACVS-LA, DACVSMR-EQ, Marion duPont Scott Equine Medical Center

Understanding the Complexities of Mesenchymal Stem/Stromal Cell Biology to Improve Clinical Outcomes .................................................................299
Susan W. Volk, VMD, PhD, DACVS-SA, University of Pennsylvania School of Veterinary Medicine

SOFT TISSUE POLYTRAUMA

ACVECC-VetCOT – Development, Use and Application of a Trauma Registry ................301
Kelly Hall, DVM, MS, DACVECC, ACVECC-VetCOT

ACVECC-VetCOT – Improving Trauma Patient Care .........................................................303
Kelly Hall, DVM, MS, DACVECC, ACVECC-VetCOT

Damage Control Laparotomy .......................................................................................305
Galina Hayes, BVSc, PhD, DACVS-SA, DACVECC, Cornell University

Image-Guided Interventions for the Trauma Patient ......................................................311
William T.N. Culp, VMD, DACVS-SA, University of California, Davis

Acute Traumatic Coagulopathy .....................................................................................313
Kelley M. Thiemann Mankin, MS, DVM, DACVS-SA, Texas A&M University

STIFLE SURGERY

Challenges With Intra-Articular CCL Repair .................................................................316
Randy Acker, DVM, Sun Valley Animal Center
Detecting Latent Meniscal Injury after TPLO ................................................................. 320
   Brian S. Beale, DVM, DACVS, Gulf Coast Veterinary Specialists

Multiligamentous Stifle Injuries .................................................................................... 322
   Reunan P. Guillou, DVM, DACVS-SA, Ohio State University

The Aetiopathogenesis of CCL rupture—What's New? .................................................. 325
   Eithne Josephine Comerford, MVB, PhD, CertVR, CertSAS, PGCertHE, DECVS,
   MRCVS, University of Liverpool

Tips and Tricks for Stifle Arthrodesis ........................................................................... 329
   Massimo Petazzoni, DVM, Clinica Veterinaria Milano Sud

Treating Advanced Stifle OA: Biologics vs. Resurfacing ............................................. 333
   Samuel Franklin, DVM, PhD, DACVS-SA, DACVSMR, University of Georgia

SURGICAL ONCOLOGY: CUTTING EDGE

Custom Endoprostheses for Bone Cancer ................................................................. 335
   Denis J. Marcellin-Little, DEDV, DACVS, DECYS, DACVSMR, North Carolina State
   University

Cutting Edge Advancements in Surgical Oncology ...................................................... 338
   Nicole Ehrhart, VMD, MS, DACVS, ACVS Founding Fellow (Surgical Oncology),
   Colorado State University

Surgical Oncology Cutting Edge: Limb Salvage with Stereotactic Radiosurgery ........ 340
   James Farese, DVM, DACVS, ACVS Founding Fellow (Surgical Oncology)
   VCA Animal Care Center of Sonoma County

Real-Time Surgical Margin Assessment ...................................................................... 342
   Laura Elizabeth Selmic, BVetMed, MPH, DACVS-SA, University of Illinois Urbana-
   Champaign

Tumor Ablation Technologies ..................................................................................... 343
   Michele A. Steffey, DVM, DACVS-SA, ACVS Founding Fellow (Surgical Oncology)
   University of California, Davis

SURGICAL ONCOLOGY: LIVING ON THE EDGE

How to Approach Cavotomy and Bilateral Adrenalectomy ....................................... 347
   Sarah E. Boston, DVM, DVSc, DACVS-SA, ACVS Founding Fellow (Surgical Oncology)
   University of Florida

Lower Urinary Tract Tumors ....................................................................................... 350
   Nicholas J. Bacon, VetMB, MRCVS, DACVS-SA, Fitzpatrick Referrals
Total Cystectomy ........................................................................................................................................352
   Giorgio Romanelli, DVM, DECVS, Clinica Veterinaria Lago Maggiore

Treatment of Hepatic Neoplasia ........................................................................................................355
   William T.N. Culp, VMD, DACVS-SA, University of California, Davis

Wide and Radical Sarcoma Resection in Dogs and Cats .....................................................................357
   Charles A. Kuntz, DVM, MS, DACVS, Southpaws Vet PTY LTD

TOTAL JOINT REPLACEMENT
   SPONSORED BY: BIOMEDTRIX, LLC, AN ACVS PREMIER SPONSOR

Detecting Trouble Before it Happens: What Increases Risk in Canine Total Hip Replacement? ........361
   Denis J. Marcellin-Little, DEDV, DACVS, DECVS, DACVSMR, North Carolina State University

Impingement after Hip Arthroplasty, The Root of All Luxations? .....................................................366
   Denis J. Marcellin-Little, DEDV, DACVS, DECVS, DACVSMR, North Carolina State University

Innovation in Cementless Total Hip Replacement ..............................................................................369
   Kei Hayashi, DVM, MS, PhD, DACVS-SA, Cornell University

Recognition, Prevention, and Management: Controlling Risk with the Zurich Cementless (Kyon) Hip
...........................................................................................................................................................372
   Jeffrey N. Peck, DVM, DACVS, Affiliated Veterinary Specialists

Use of the Titanium EBM Collared Femoral Stem for Risk Avoidance and Problem Solutions ..........376
   William D. Liska, DVM, DACVS, Global Veterinary Specialist

WOUNDS AND RECONSTRUCTION

Cases in Reconstructive Surgery of the Head .....................................................................................380
   Bernard Seguin, DVM, MS, DACVS, Animal Cancer Center

Part I: Melange of Reconstructive Surgical Techniques ....................................................................383
   Michael M. Pavletic, DVM, DACVS, Angell Animal Medical Center

Part II: Melange of Reconstructive Surgical Techniques ...................................................................385
   Michael M. Pavletic, DVM, DACVS, Angell Animal Medical Center

Part III: Melange of Reconstructive Surgical Techniques ...................................................................387
   Michael M. Pavletic, DVM, DACVS, Angell Animal Medical Center
SPECIAL SESSIONS

ACVAA - MIS ANESTHESIA

SPONSORED BY: MEDTRONIC, AN ACVS INDUSTRY PARTNER

Anesthesia Considerations for Thoracoscopy ................................................................. 389
Khursheed Mama, DVM, DACVAA, Colorado State University

Anesthesia for Minimally Invasive Surgery ................................................................. 399
Khursheed Mama, DVM, DACVAA, Colorado State University

ADVANCED MAXILLOFACIAL SURGERY

Mandibular Reconstruction ............................................................................................ 409
Boaz Arzi, DVM, DAVDC, DEVDC, University of California - Davis

Maxillofacial Lymph Node Staging .............................................................................. 412
Sarah E. Boston, DVM, DVSc, DACVS-SA, ACVS Founding Fellow (Surgical Oncology)
University of Florida

Recent Advances in Maxillofacial Fracture Repair ..................................................... 415
Frank J.M. Verstraete, DVM, BVSc, MMedVet, DAVDC, DECVS, DEVDC, University of
California - Davis

Recent Advances in Palatal Surgery ......................................................................... 418
Frank J.M. Verstraete, DVM, BVSc, MMedVet, DAVDC, DECVS, DEVDC, University of
California - Davis

Recent Advances in Temporomandibular Joint Surgery ............................................. 420
Boaz Arzi, DVM, DAVDC, DEVDC, University of California - Davis

The Use of 3D Imaging and Printing in Maxillofacial Surgery ..................................... 424
Frank J.M. Verstraete, DVM, BVSc, MMedVet, DAVDC, DECVS, DEVDC, University of
California - Davis

AMERICAN COLLEGE OF VETERINARY SPORTS MEDICINE AND
REHABILITATION

SPONSORED BY: NUTRAMAX LABORATORIES VETERINARY SCIENCES, INC.

Ultrasound-Guided Injections for Soft Tissue Injury .................................................. 426
Debra Canapp, DVM, CCRT, CVA, DACVSMR, Veterinary Orthopedic and Sports
Medicine Group

Effects of Gonadectomy on Orthopedic Disease and Cancer in Dogs ....................... 429
Kristin Kirkby Shaw, DVM, MS, PhD, DACVS-SA, Animal Surgical Clinic of Seattle
Effects of Laser Therapy on Regenerative Medicine .................................................................436
   Debra Canapp, DVM, CCRT, CVA, DACVSMR, Veterinary Orthopedic and Sports
   Medicine Group

Muscular Causes of Poor Performance in Horses and Dogs ....................................................439
   Erica McKenzie, BSc, BVMS, PhD, DACVIM, DACVSMR, Oregon State University

Objective Outcome Measures for Your Research .................................................................446
   Felix Michael Duerr, DMV, MS, DACVS-SA, DECVS, DACVSMR, Colorado State
   University

Orthotics and Prosthetics - Evidence & Experience ...............................................................451
   Felix Michael Duerr, DMV, MS, DACVS-SA, DECVS, DACVSMR, Colorado State
   University

Return to Sport After Injury – A Web-Based Survey of Owners of Agility Dogs .....................455
   Julia Tomlinson, BVSc, MS, PhD, DACVS, DACVSMR, Twin Cities Animal
   Rehabilitation and Sports Medicine Clinic

Partial Cranial Cruciate Ligament Tears Treated with Bone Marrow or Adipose Derived Stem
Cells with Platelet Rich Plasma in 36 Dogs a Retrospective Study ........................................457
   Sherman Canapp, DVM, MS, DACVS-SA, DACVSMR, Veterinary Orthopedic and Sports
   Medicine Group

   Felix Michael Duerr, DMV, MS, DACVS-SA, DECVS, DACVSMR, Colorado State
   University

Update on Cellular Mechanisms of Shockwave Therapy ..........................................................466
   Kristin Kirkby Shaw, DVM, MS, PhD, DACVS-SA, Animal Surgical Clinic of Seattle

AMERICAN COLLEGE OF VETERINARY SPORTS MEDICINE AND
REHABILITATION: EQUINE

SPONSORED BY: SOUND™

Injury Risk Related to a Hard Track in Trotters .................................................................471
   Nathalie Crevier-Denoix, DVM, PhD, DACVSMR, ENVA

Surface Management ..............................................................................................................473
   Susan M. Stover, DVM, PhD, DACVS, University of California, Davis

Biomechanical Effects of Hard Tracks-Trotters .................................................................476
   Nathalie Crevier-Denoix, DVM, PhD, DACVSMR, ENVA

Fetlock and Hoof Motion ......................................................................................................478
   Susan M. Stover, DVM, PhD, DACVS, University of California, Davis
The Use of Specific Dressage Exercises as Rehabilitation Technique in Horses with Spinal Pathology .................................................................481
Rob van Wessum, DVM, MS, DACVSMR, Equine All-Sports Medicine Center PLLC

Effects of Arena Surfaces in Sport Horses .................................................................484
Nathalie Crevier-Denoix, DVM, PhD, DACVSMR, ENVA

Comparative Imaging When Assessing DDFT Pathology in the Equine Foot......................487
Jose M. Garcia-Lopez, VMD, DACVS, DACVSMR, Tufts University Cummings School of Veterinary Medicine

Rehabilitation of Tendinopathies in English Sport Horses..............................................491
Jose M. Garcia-Lopez, VMD, DACVS, DACVSMR, Tufts University Cummings School of Veterinary Medicine

Update on Equine Myopathies......................................................................................496
Erica McKenzie, BSc, BVMS, PhD. DACVIM, DACVSMR, Oregon State University

DISSECTING SOCIAL MEDIA TRENDS

The Rise of Social Media Marketing .............................................................................499
Jolle Kirpensteijn, DVM, PhD, DACVS, DECVS, Hill’s Pet Nutrition

Marketing - How to Have Fun with Your Entire Team..................................................501
Eric Garcia, Simply Done Tech Solutions. LLC

Marketing - How to Have Fun with Your Entire Team..................................................503
Jolle Kirpensteijn, DVM, PhD, DACVS, DECVS, Hill’s Pet Nutrition

How Case Studies Enhance Marketing Efforts...............................................................505
Eric Garcia, Simply Done Tech Solutions. LLC

How to Implement a Social Media Calendar.................................................................507
Jolle Kirpensteijn, DVM, PhD, DACVS, DECVS, Hill’s Pet Nutrition

How to Implement a Social Media Calendar.................................................................509

EQUINE SURGICAL CRITICAL CARE

Best Practices for Treating/Preventing Sepsis .............................................................513
Julie E. Dechant, DVM, MS, DACVS, DACVECC, University of California, Davis
Can We Manipulate the GI Microbiome in the Post-Operative Patient to Improve Outcomes? .....................................................................................................................518
  Diana M. Hassel, DVM, PhD, DACVS, DACVECC, Colorado State University

Intraoperative Supportive Care ..................................................................................................................522
  Lesley Smith, DVM, DACVAA, University of Wisconsin

Optimizing Equine Recovery ....................................................................................................................526
  Lesley D. Smith, DVM, DACVAA, University of Wisconsin

Surgical Checklists: Can We Prevent Complications? ...........................................................................530
  Margaret C. Mudge, VMD, DACVS-LA, DACVECC, The Ohio State University

ETHICS IN SURGICAL DECISION MAKING

A Primer on Veterinary Ethics..................................................................................................................534
  Erik M. Clary, DVM, MA, PhD, DACVS, Carolina Veterinary Surgical Service

End-of-Life Medical Ethics (Part I): A Triperspectival Framework for Analysis..........................537
  Erik M. Clary, DVM, MA, PhD, DACVS, Carolina Veterinary Surgical Service

End-of-Life Medical Ethics (Part II): An Ethic of "Caring Only" ...................................................539
  Erik M. Clary, DVM, MA, PhD, DACVS, Carolina Veterinary Surgical Service

End-of-Life Medico-Ethical Decision-Making in Veterinary Oncology: Ethics in Surgical Decision Making ..........................................................542
  Alice Villalobos, DVM, DPNAP, Pawspice

Preventing Over Treatment at: Surgery & Emergency Cancer Referral Centers ..........................551
  Alice Villalobos, DVM, DPNAP, Pawspice

Veterinary Hospice Care: Theory and Practice: Ethics in Surgical Decision Making 2016 .......557
  Alice Villalobos, DVM, DPNAP, Pawspice

FARM ANIMAL

Beyond C-Section: Surgery of the Female Bovine Reproductive Tract ..........................................563
  Dwight F. Wolfe, DVM, MS, DACT, Auburn University

Beyond Flunixin and Meloxicam Management of Surgical Pain in the Ruminant ......................568
  Shannon Kelly Reed, DVM, MS, DACVS-LA, University of Missouri

Complicated Reproductive Surgeries in Farm Animals .................................................................570
  Dwight F. Wolfe, DVM, MS, DACT, Auburn University
INTRODUCTION TO SURGICAL ONCOLOGY

SPONSORED BY: ACVS FOUNDATION

Interpreting Histopathology Reports
Craig Andrew Clifford, DVM, MS, DACVIM (Med Onc), Hope Veterinary Specialists

Surgical Margins
Nicholas J. Bacon, VetMB, MRCVS, DACVS-SA, Fitzpatrick Referrals

Introduction to Surgical Oncology: Surgical Considerations
Laura Elizabeth Selmic, BVetMed, MPH, DACVS-SA, University of Illinois Urbana-Champaign

Multimodal Management: Chemotherapy
Craig Andrew Clifford, DVM, MS, DACVIM (Med Onc), Hope Veterinary Specialists

Preoperative Staging and Imaging
Craig Andrew Clifford, DVM, MS, DACVIM (Med Onc), Hope Veterinary Specialists

Radiation Therapy and Surgery—Indications and Interactions
Karri Meleo, DVM, DACVIM, DACVR, BluePearl Veterinary Partners

NEW OPTIONS IN ANESTHESIA

Obesity and Veterinary Anesthesia: The New Normal
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

Peri-Operative Management of Brachycephalics: Optimizing Success
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

Femoral/Sciatic Nerve Block: Technique and Drug Choices
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

Prevention of Peri-Operative Nausea and Vomiting: Why Should You Care?
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

NEW OPTIONS IN PAIN MANAGEMENT

SPONSORED BY: ZOETIS, AN ACVS PREMIER SPONSOR

EP4 Receptor Antagonism: Targeted Therapy for OA Pain
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

Long Acting Local Anesthesia: Liposomal Bupivacaine
Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University
The Caudal Epidural: Sweet Analgesia for a Sensitive Area ......................................................647
  Bonnie L. Hay Kraus, DVM, DACVS, DACVAA, Iowa State University

PRACTITIONERS PROGRAM: ORTHOPEDICS

Comprehensive Hindlimb Lameness Evaluation.................................................................652
  Matthew D. Johnson, DVM, MVSc, DACVS-SA, University of Florida

Advanced Lameness Case Discussion .....................................................................................656
  Jason Bleedorn, DVM, MS, DACVS-SA, University of Wisconsin

Comprehensive Forelimb Lameness Evaluation .................................................................658
  Jason Bleedorn, DVM, MS, DACVS-SA, University of Wisconsin

Growth Plate Deformities in Growing Dogs ........................................................................663
  Jason Bleedorn, DVM, MS, DACVS-SA, University of Wisconsin

Medical vs. Surgical Management of Hip Dysplasia..............................................................667
  Mauricio Dujowich, DVM, DACVS-SA, Capital Veterinary Specialists

Orthotics in My Orthopedic Practice ..................................................................................670
  Matthew D. Johnson, DVM, MVSc, DACVS-SA, University of Florida

Regenerative Medicine for OA ..............................................................................................673
  Matthew D. Johnson, DVM, MVSc, DACVS-SA, University of Florida

SMALL ANIMAL GAIT ANALYSIS

Collection and Interpretation of Gait Data for Research Projects .......................................677
  Bryan Torres, DVM, PhD, DACVS-SA, University of Missouri

Gait analysis: Setting Up a Lab for Kinetic Data ..................................................................680
  Gert J. Breur, DVM, MS, PhD, DACVS, Purdue University

Collection/Interpretation of Gait Data for Clinical Gait Analysis ..........................................683
  Gert J. Breur, DVM, MS, PhD, DACVS, Purdue University

Gait Analysis: Setting Up a Lab for Kinematic Data Collection and Analysis .......................686
  Bryan Torres, DVM, PhD, DACVS-SA, University of Missouri

Gait Analysis: What Do You Really Want to Accomplish ....................................................688
