34th International No-Dig Conference and Exhibition (NO-DIG BEIJING 2016)

Beijing, China
10 – 12 October 2016

ISBN: 978-1-5108-3291-6
# TABLE OF CONTENTS

## ASSET MANAGEMENT AND WORK PLANNING

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAMAGE ANALYSIS FOR SEWAGE PIPE</td>
<td>1</td>
</tr>
<tr>
<td>Shan He</td>
<td></td>
</tr>
<tr>
<td>THE SUCCESS OF A PROJECT IS BASED ON THE DESIGN QUALITY</td>
<td>9</td>
</tr>
<tr>
<td>Sergio Palazzo</td>
<td></td>
</tr>
<tr>
<td>CONDITION ASSESSMENT OF SEWER PIPELINES USING MULTI ATTRIBUTE UTILITY THEORY (MAUT)</td>
<td>15</td>
</tr>
<tr>
<td>Tarek Zayed</td>
<td></td>
</tr>
<tr>
<td>CONDUCTING SAFE EXTENDED OFF-TETHER MANNED ENTRY PIPELINE AND TUNNEL INSPECTIONS – THE EL MONTE RAW WATER PIPELINE INSPECTION</td>
<td>24</td>
</tr>
<tr>
<td>James Shelton</td>
<td></td>
</tr>
<tr>
<td>AUTOMATED DETECTION OF ANOMALIES IN SEWER CLOSED CIRCUIT TELEVISION VIDEOS USING PROPORTIONAL DATA MODELING</td>
<td>32</td>
</tr>
<tr>
<td>Tarek Zayed</td>
<td></td>
</tr>
</tbody>
</table>

## ASSOCIATED TECHNOLOGIES, TECHNIQUES AND EQUIPMENT

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>CASES STUDY ON APPLICATION OF RECTANGULAR SHIELD JACKING AND TBM MACHINE</td>
<td>39</td>
</tr>
<tr>
<td>Minmin Sun</td>
<td></td>
</tr>
<tr>
<td>THE EN ISO11295 FAMILY OF STANDARDS AND PE100+ NO-DIG GUIDE CONCERNING PIPELINE REHABILITATION USING POLYETHYLENE PIPES AND LINERS</td>
<td>50</td>
</tr>
<tr>
<td>Andrew Wedgner</td>
<td></td>
</tr>
<tr>
<td>WIRELESS TRANSMISSION GEOMAGNETIC NAVIGATION SYSTEM</td>
<td>59</td>
</tr>
<tr>
<td>Guo Jun Li</td>
<td></td>
</tr>
</tbody>
</table>

## CLOSE-FIT LININGS

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>REHABILITATION OF LARGE DIAMETER PRESSURE WATER MAINS IN HONG KONG – A CASE STUDY</td>
<td>67</td>
</tr>
<tr>
<td>Jinsong Wang</td>
<td></td>
</tr>
<tr>
<td>PRACTICE OF STAINLESS STEEL LINING REHABILITATION OF LARGE DIAMETER STEEL PIPE</td>
<td>73</td>
</tr>
<tr>
<td>Chengquan Wang</td>
<td></td>
</tr>
</tbody>
</table>

## COSTS AND ENVIRONMENTAL ISSUES

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>ON THE VIBRATION IMPACT INDUCED BY SHIELD TUNNELING</td>
<td>78</td>
</tr>
<tr>
<td>Keh-Jian Shou</td>
<td></td>
</tr>
</tbody>
</table>

## CURED IN PLACE PIPELINERS

<table>
<thead>
<tr>
<th>Title</th>
<th>Page</th>
</tr>
</thead>
<tbody>
<tr>
<td>INNOVATIVE USE OF CIPP SAERTEX-LINER® H2O – UV-CURED: A WAY FORWARD TO CONSERVE THE ECONOMIC SUSTAINABILITY OF POTABLE WATER PIPELINES</td>
<td>86</td>
</tr>
<tr>
<td>Hans Juergen Koonig</td>
<td></td>
</tr>
<tr>
<td>RENNOVATION INSIDE BUILDINGS USING INNOVATIVE CIPP TECHNOLOGY</td>
<td>94</td>
</tr>
<tr>
<td>Ian Ramsay</td>
<td></td>
</tr>
<tr>
<td>WHY IS CIPP FLEXIBILITY SO IMPORTANT?</td>
<td>109</td>
</tr>
<tr>
<td>Michael Roeling</td>
<td></td>
</tr>
<tr>
<td>THE ENGINEERING APPLICATION OF LIGHT CURING CIPP REHABILITATION TECHNOLOGY IN CHINA</td>
<td>120</td>
</tr>

LONG TERM PERFORMANCE OF CIPP.................................................................................................................... 125
William Wong

CHALLENGES IN THE REHABILITATION OF PRESSURE PIPE ................................................................. 134
Dec Downey

HORIZONTAL DIRECTIONAL DRILLING

SETTING UP THREE-DIMENSIONAL TRAJECTORY DATABASE OF THE TRENCHLESS COMPLETED PIPELINE.................................................................................................................... 143
Xiaoming Wu

THE APPLICATION AND PROSPECTS OF THE REMOTE CONTROL TECHNOLOGY ON THE CONSTRUCTION EQUIPMENT ........................................................................................................... 152
Xiarong Wang

TECHNOLOGY FOR SMALL AND MEDIUM-SIZED HDD DRILL ROCK ........................................................................... 159
Zhenghong Li

GREATNESS IN SIMPLICITY--THE NEW HDD MACHINE PUSH-PULL MECHANISM RESEARCH .............................................................................................................................................................................. 166
Zhiguang Jiang

TECHNOLOGY STATUS AND DEVELOPMENT TREND OF THE LARGE HDD MACHINE ................................................................. 172
Lihua Han

APPLICATION OF MULTI-FUNCTIONAL HDD MACHINE IN LARGE CROSSING PROJECT ................................................................. 178
Fenggang Chen

DESIGN AND RESEARCH OF DRILLING LIQUID PERFORMANCE FOR COMPLEX FORMATION IN HDD ............................................................................................................................................................................................... 185
Xiaoming Wu

STUDY ON HDD BORING MODEL BASED ON SINUSOIDAL BUCKLING STATE ............................................................................... 191
Yaxiang Huo

THE TRANSPORT OF SOIL PARTICLES DURING HORIZONTAL DIRECTIONAL DRILLING ......................................................... 195
Henk Kruse

NUMERICAL SIMULATION AND PARAMETRIC STUDY OF MAXIMUM MUD PRESSURE ASSOCIATED WITH HORIZONTAL DIRECTIONAL DRILLING ................................................................................................. 203
Samuel Ariaratnam

TRENCHLESS INSTALLATIONS ON THE LAKE OSWEGO-TIGARD PARTNERSHIP PROJECT: USE OF STEEL WATER PIPE AND STEEL CASING PIPE FOR HDD AND MICROTUNNELING ................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................. 212
Kim Staheli

AN EMPIRICAL STUDY ON THE MTO PRODUCTION MODEL OF HDD RIGS ......................................................................................... 222
Yan Qi He

CROSSING FINE SAND FORMATION INFILTRATED WITH SEAWATER USING HORIZONTAL DIRECTIONAL DRILLING ............................................................................................................................................................................................... 232
Jinxiao Xu

THE SELECTION OF THE ROCK REAMER AND APPLICABILITY ANALYSIS IN ROCK HDD ................................................................. 237
Gongxi Tong

STUDY OF LOW SOLID VEGETABLE GUM FLUSHING FLUID FOR QUICKSAND BY TRENCHLESS DIRECTIONAL FLUSHING ............................................................................................................................................................................................... 247
Zhu Jingyong

STUDY ON KEY CONSTRUCTION TECHNOLOGY OF DIRECTIONAL DRILLING PIPE LAYING IN RELATIVELY HARD LAYER OF BEIJING ............................................................................................................................................................................................... 252
Jiaxing Yu

LOCAL REPAIRS AND GROUTING

WHEN ENGINEERS, CONTRACTORS, AND MANUFACTURERS COLLABORATE – IMPROVEMENTS IN CHEMICAL GROUTING PRACTICES FROM THE SULLIVAN’S ISLAND CONSTRUCTION MANAGEMENT AT RISK PROJECT ................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................................. 260
James Shelton

NUMERICAL SIMULATION OF REINFORCEMENT METHOD USING LOOP-TYPE STEEL WIRE IN DOUBLE-DECK TUNNEL JUNCTION ............................................................................................................................................................................................... 269
Skhan Park
RESEARCH ON THE KEY CONSTRUCTION TECHNOLOGY OF LINING REHABILITATION OF DRAIN PIPELINE WITH SHORT PIPES IN BEIJING ................................................................. 273
  Jiaxing Yu

MICROTUNNELING AND PIPE JACKING

NUMERICAL ANALYSIS OF THE INFLUENCE OF BACKFILL ON PIPEJACKING ................................................................. 278
  Keh-Jian Shou

KEY TECHNIQUES OF STEEL CURVED PIPE JACKING ROOF CONSTRUCTION ................................................................. 288
  Baosong Ma

TUNNEL CROWN DEFORMATION GENERATED BY PIPE JACKING TECHNOLOGY IN WEAK ROCK UNDERGROUND COAL MINE ................................................................................................. 296
  Hideki Shimada

SURFACE DEFORMATION CONTROL IN PIPE JACKING CONSTRUCTION ................................................................. 308
  Wu Zhiguo

APPLICATION OF MICRO PIPE JACKING TECHNOLOGY IN GRAVEL LAYER ................................................................. 314
  Yuanfeng Wang

DESIGN AND CONSTRUCTION OF THE ELLIPTICAL SHAPE SHAFT USING THE REVERSE CONSTRUCTION METHOD ................................................................................................. 320
  Xin-Xiang Chen

FUNDAMENTAL STUDY ON DEVELOPMENT OF FILLING MATERIAL INTO TAIL-VOID SURROUNDED BY ACID SULFATE SOILS IN TROPICAL REGIONS ................................................................................................. 327
  Hideki Shimada

THE SETTLEMENT ANALYSIS OF LARGE-DIAMETER PIPE JACKING IN SOFT SOIL SUBGRADE ................................................................................................. 335
  Zhaoquan Wang

ANALYSIS OF PIPE JACKING SETTLEMENT AND APPLICATION IN THE YELLOW RIVER ALLUVIAL FORMATION ................................................................................................. 344
  Zong Tao Li

CALCULATION AND APPLICATION ANALYSIS OF PIPE JACKING RECTIFICATION ANGLE ................................................................................................. 350
  Qingzhou Lv

LONG HORIZONTAL CURVE PIPE JACKING CONSTRUCTION TECHNOLOGY IN CROSSING COMPLEX FORMATION ................................................................................................. 357
  Pi Qingyun

ANALYSIS OF JACKING FORCE FOR A CURVED JACKING PROJECT IN SILT AND SILTY CLAY ................................................................................................. 363
  Yong Chen

PIPE BURSTING AND SPLITTING

A MODIFIED PIPE BURSTING TECHNOLOGY DEVELOPMENT FOR PROFILED WALL PLASTIC SEWER PIPE REHABILITATION ................................................................................................. 370
  Jonghoon Kim

PIPE RAMMIMG AND IMPACT MOLE

HIGHWAY 1 CULVERT UPGRADE FROM 54 INCHES TO 108 INCHES USING PIPE SWALLOWING TECHNIQUE ................................................................................................. 377
  Alan Goodman

SITE SURVEY AND PREPARATION

APPLICATION OF PERISTALTIC CRAWLING ROBOT TO INSPECTING PRESSURE PIPELINE ................................................................................................. 383
  Nobuhiko Onoda

THE FRENCH ASTEE 3R2014 STRUCTURAL DESIGN FOR NON-CIRCULAR LINING UNDER GROUNDWATER PRESSURE ................................................................................................. 393
  Olivier Thepot
SPIRAL WOUND LININGS

SPIRALLY WOUND LINER FOR CIRCULAR AND NON-CIRCULAR CONDUITS................................................................. 400
Sean Lim

THE PRINCIPLE ANALYSIS OF DAMAGE TO CONCRETE DRAINAGE PIPE AND REHABILITATION COUNTERMEASURES.................................................................................................................. 406
Dawei Sun

SPRAY-ON LININGS AND COATINGS

THE APPLICATION OF COATING SYSTEM ON THE MAIN POTABLE WATER PIPES ............................................. 414
Li Xiaochuan

TESTING & ASSESSMENTS

SODIUM SILICATE-BASED GROUTING MATERIAL PERFORMANCES ON VARIOUS SOIL PARTICLE SIZE FRACTIONS UNDER ACIDID CONDITION................................................................. 423
Sugeng Wahyudi

CRACKS AND DEFORMATION OF CONCRETE SEWER PIPES AS THE CRITERION FOR THEIR PRIORITISATION IN TRENCHLESS REHABILITATION ................................................................. 432
Andrzej Kuliczkowski
