5th International Scientific Conference on Integration, Partnership and Innovation in Construction Science and Education 2016

MATEC Web of Conferences Volume 86 (2016)

Moscow, Russia
16 - 17 October 2016

Part 1 of 2

Editor:

V. Andreev

# TABLE OF CONTENTS

## PART 1

| Preface | Aleksey Adamtsevich | 1 |
| Geometrical Parameters Influence on Behavior of the Sandwich Plates with Corrugated Core | Djokovic Jelena M., Nikolic Ruzica R., Bujnak Jan, Zivkovic Katarina | 2 |
| Behavior of the Sandwich Beam Subjected to Bending as a Function of the Core Density | Nikolic Ruzica R., Djokovic Jelena M., Bujnak Jan, Zivkovic Katarina | 8 |
| The Measurement of Thermal Changes on Concrete Box Girder Bridge | Krkoska Lukas, Moravcik Martin | 16 |
| Synthesis of the Force and Displacement Methods of Structural Mechanics. The Planar Truss Case | Hetmanski Krzysztof | 23 |
| Calculation of Filtration of Polydisperse Suspension in a Porous Medium | Kuzmina Ludmila, Osipov Yuri | 30 |
| Numerical Algorithm for Solving of Nonlinear Problems of Structural Mechanics Based on the Continuation Method in Combination with the Dynamic Relaxation Method | Trushin Sergey | 35 |
| Experimental Investigation of the Deformability of Reinforced Concrete Slabs Under Punching | Filatov Valery, Babnov Eugene | 41 |
| The Analysis of Deflections and Cracking Resistance in Pre-Stressed Slabs of Off-Shuttering Formation | Panfilov Denis, Piskareva Irina, Fomina Julia | 46 |
| A Flexible Beam with Corrugated Web and Its Performance Under Bending: An Experimental Study | Shlyakhin Dmitry, Lukin Alexey | 51 |
| Semianalytical Analysis of Shear Walls with the Use of Discrete-Continual Finite Element Method. Part 1: Mathematical Foundations | Akimov Pavel, Aslami Mojtaba, Mozgaleva Marina, Mskhalaya Zhiali | 58 |
| Semianalytical Analysis of Shear Walls with the Use of Discrete-Continual Finite Element Method. Part 2: Numerical Examples, Future Development | Akimov Pavel, Aslami Mojtaba, Mozgaleva Marina | 66 |
| Modeling of Weighing and Filtration Forces in the “Dam-Foundation” System | Agakhanov Elephan, Agakhanov Murad | 74 |
| Experimental Assessment of Some Factors Affecting Concrete Strength in a Single Dynamic Exposure | Tsvetkov Konstantin, Bazhenova Alexandra | 80 |
| Concrete Strength Evaluation Using Fracture Mechanics Technology | Popov Valery, Popov Dmitry, Davidenko Anna | 87 |
| Viscoelastic Dynamic Models of Resilient Elements Used in Railway Tracks | Zhbicak Arthur, Kraskievicz Cezary, Oleksievicz Wojciech, Lipko Cezary | 92 |
| Plastic Deformations in Thin Rotational Shells | Astakhova Avgustina | 100 |
| Fundamental Principles of Earthquake Resistance Calculation to Be Reflected in the Next Generation Regulations | Mkrtychev Oleg, Dzhinchvelashvili Guram | 107 |
| Normative Approaches to Structural Design Calculations in a Non-Linear Framework | Mkrtychev Oleg, Dzhinchvelashvili Guram, Basalova Marina | 113 |
MATHEMATICAL SIMULATION OF TWO-PHASE GAS-LIQUID FLOW FOR JET AERATION STRUCTURES ................................................................. 121
Akhmetov Vadim, Akhmetova Valentina

EXPERIMENTAL AND THEORETICAL STUDIES OF STRENGTH AND STRESS-STRAIN PROPERTIES OF THE CONCRETE UNDER CONDITIONS OF COMPLEX STRESS-STRAIN STATES WITH PRESENCE OF TENSILE STRESSES FROM THE EFFECT OF A SINGLE-SHOT DYNAMIC LOAD OF THE GENERAL FORM ................................................................. 127
Potrowski Andrzej, Kowalewski Łukasz, Szczepańska Rudowola, Gajewski Marcin, Jemiolo Stanisław

BUCKLING RESISTANCE ASSESSMENT OF THIN-WALLED OPEN SECTION ELEMENT UNDER PURE COMPRESSION ................................................................................................................................. 135
Piotrowski Andrzej, Kowalewski Łukasz, Szczerba Rudowola, Gajewski Marcin, Jemiolo Stanisław

MATHEMATICAL MODEL OF INNOVATIVE SUSTAINABILITY “GREEN” CONSTRUCTION OBJECT ................................................................................................................................. 143
Slesarev Michail, Pankratov Evgeniy, Fedorov Viktor

METHOD OF CALCULATION OF STRESSES IN THE LAYERED ELASTIC-CREEPING ARRAYS ................................................................................................................................. 153
Bobyleva Tatiana N.

THE RESEARCH OF VIBRATIONS OF THE BEAM WITH THE ATTACHED SYSTEM OF MASS-SPRING-DAMPER USING FUNCTIONS TYMOSHENKO .............................................................................................. 159
Pavel Ivanov

THE ROD AS SUPER-ELEMENT OF THE SUBSYSTEM ................................................................................................................................. 164
Kovalchuk Oleg

BLAST LOAD ESTIMATION USING FINITE VOLUME METHOD AND LINEAR HEAT TRANSFER ................................................................................................................................. 170
Lidner Michal, Szcesniak Zbigniew

NUMERICAL SIMULATION OF FLUID-STRUCTURE INTERACTION BETWEEN ELASTIC THIN-WALLED STRUCTURE AND TRANSIENT FLUID FLOW ................................................................................................................................. 179
Bozynakov Evgeny I., Afanasjeva Irina N., Belostotsky Alexander M.

COMPARATIVE ANALYSIS OF ANALYTICAL AND EXPERIMENTAL RESULTS OF THE STRENGTH OF COMPRESSED REINFORCED CONCRETE COLUMNS UNDER SPECIAL COMBINATIONS OF LOADS ................................................................................................................................. 185
Tamrazyan Ashot, Avetisyan Levon

INFLUENCE OF STRIP BITE TIME IN WORK ROLLS GAP ON DYNAMIC LOADS IN STRIP ROLLING STANDS .................................................................................................................................................. 192
Artiukh Viktor, Mazur Vladlen, Pokrovskaia Elena

THE PROBLEM 4 OF PLACEMENT TRIANGULAR GEOMETRIC LINE FIELD ................................................................................................................................. 200
Travush Vladimir Ilijich, Antoshkin Vasiliy Dmitrievich, Erbovec Vladimir Trofimovich

THE PROBLEM 7 FORMING TRIANGULAR GEOMETRIC LINE FIELD ................................................................................................................................. 205
Travush Vladimir Ilijich, Antoshkin Vasiliy Dmitrievich, Erbovec Vladimir Trofimovich

OPTIMIZATION OF THE THIN-WALLED ROD WITH AN OPEN PROFILE ................................................................................................................................. 210
Andreev Vladimir, Barmenkov Elena

INTERNATIONAL STYLE INTERIOR IN THE HISTORICAL STEAM POWER PLANT IN ŽILINA .................................................................................................................................................. 217
Grúnová Zuzana, Borošová Michalčová Miloslava

THE REAL STATIC BEHAVIOUR OF HISTORIC BRIDGE IN TOWN KRÁSNO NAD KYSUČOU IN SLOVAKIA .................................................................................................................................................. 225
Strieška Miroslav, Kotč Peter, Bujnáková Petra

EXISTING BRIDGE EVALUATION USING DEFICIENCY POINT METHOD ................................................................................................................................. 232
Vican Josef, Repa Jaroslav, Kotč Peter

PRECONDITIONS OF EMERGENCE OF LARGE-SPAN BUILDINGS IN THE WORLD ................................................................................................................................. 238
Sysoeva Elena

“MARKHI” SPATIAL DESIGN STRUCTURE: NUMERICAL STUDY OF ITS WORK UNDER STATIC LOAD .................................................................................................................................................. 243
Alpatov Vadim

RESEARCH OF FLOW PARAMETERS IN A BLOW OFF OF A HYDRAULIC INSTALLATION .................................................................................................................................................. 248
Balzannikov Mikhail, Piyavsky Semyon, Karmananov Andrey

THE RELIABILITY CONTROL OF THE EXISTING BUILDINGS .................................................................................................................................................. 254
Frolov Alexander, Frolova Irina, Kotkova Olga
CORROSIVE WEAR FORECASTING OF STEEL ELEMENTS ON THE BASIS OF
MATHEMATICAL MODELING METHODS .................................................................................................................. 258
Soloviev Alexey, Rybakova Larisa, Kostakova Olga

RELIABILITY THEORY APPLICATION FOR BUILDING STRUCTURES RELIABILITY
DETERMINATION .................................................................................................................................................. 264
Chigunova Naulezhda

MODAL PROPERTIES OF SUSPENSION ELECTRICITY PYLONS ........................................................................... 271
Kozova Zofia, Dziedzik Slawomir

NUMERICAL ESTIMATION OF CONCRETE BEAMS REINFORCED WITH FRP BARS ........................................... 278
Prochenko Kovtiantsov, Mlodzik Krystian, Urbanski Marek, Szmiłera Elżbieta, Gąsieniec Andrzej

EXPERIMENTAL STUDY OF WIND LOADS ON UNIQUE BUILDINGS AND STRUCTURES IN RUSSIA ......................... 286
Poddaeva Olga, Churin Pavel, Dunichkin Ilya

DETERMINING SAFETY CRITERIA FOR REINFORCED CONCRETE STRUCTURES OF POWER PLANTS TAKING THE EXAMPLE OF A NUCLEAR POWER PLANT WITH RBMK ................................................................. 292
Nikolayev Valery, Nikolayev Dmitriy, Yaksheev Anton

ASPECTS OF DESIGNING CONSTRUCTION OF BALCONY PARAPETS WITH PHOTOELECTRIC CELLS ........................................................................................................................................................................... 298
Dunichkin Ilya

TRIAL DESIGN OF A DOME ROOF FOR AN CHURCH .......................................................................................... 306
Alpatov Vadim Yu., Veremeenko Oleg Yu., Sakharov Andrei A., Shirokov Vyacheslav S.

COFFERED SLABS AS A PERSPECTIVE TYPE OF THE REINFORCED CONCRETE STRUCTURES .................................................. 310
Kibkalo Anton, Volkov Mikhail, Vodolagina Anna, Margul Vera

THE PROBLEMS OF CALCULATING THE LOAD-BEARING STRUCTURES MADE OF LIGHT STEEL THIN-WALLED PROFILES ......................................................................................................................................................... 315
Roy Vera, Izvekova Ozana, Togo Issa

FEATURES TECHNOLOGIES CALCULATION OF CONSTRUCTIONS WITH CONCRETE-FILLED STEEL TUBES ......................................................................................................................................................................................... 323
Bolotova Ksenia, Lukichev Sergey, Margul Vera

DETERMINATION OF STRESS-STRAIN STATE OF THE WOODEN CHURCH LOG WALLS WITH SOFTWARE PACKAGE ........................................................................................................................................................................ 328
Chulkova Anastasia, Lukichev Sergey, Romanovich Marina

METAL STRUCTURAL ROOFING WITH A FLAT TRUSS WITH CONTINUOUS CHORDS AS AN ENLARGED ASSEMBLY UNIT ...................................................................................................................................................... 334
Alpatov Vadim

BAR OPTIMAL DESIGN WITH THE USE OF OUT-FORM .......................................................................................... 338
Alpatov Vadim Yu., Sakharov Andrei A., Veremeenko Oleg Yu., Lukin Alexey A.

THEORETICAL BASICS OF APPLYING THE ONE DIMENSIONAL PROBLEM OF SOILS COMPRESSION SEAL THEORY TO LARGE FOUNDATION PLATES CALCULATION ................................................................................................................. 346
Isaev Veniamin, Mal'tsev Andrei, Karpov Andrei

ALGORITHM DEVELOPMENT OF STRUCTURAL VARIABLES FOR SLOPE REINFORCEMENT OF HYDROTECHNIC STRUCTURES WITH SYNTHETIC MATERIALS ........................................................................................................................................ 352
Mikhasek Andrey, Rodionov Maxim, Seliverstov Vladimir, Senitsky Yury

MODELING OF FINE MIGRATION IN A POROUS MEDIUM .......................................................................................... 356
Galaguz Yuri, Saftina Galina

SUBGRADE STRENGTHENING OF ROADS AND RAILROADS AS PLANAR GEOTEXTILE REINFORCEMENT ................................................................................................................................................................................. 362
Grädkowski Krzysztof

THE MODERN EVALUATION METHOD OF FRACTURE TOUGHNESS OF BASALT PLASTIC LINING FOR ENGINEERING COLLECTORS .................................................................................................................................................. 368
Lyapidevskaya Olga, Shershnev Andrey

THE INFLUENCE OF HYDRODYNAMIC FACTORS, MEMBRANE SURFACE PROPERTIES AND CHANNEL GEOMETRIES ON MEMBRANE PERFORMANCE AND FOULING MECHANISMS .......................................................................................................................... 374
Pervov Alexey

RESEARCH DEDUSTING EFFICIENCY OF THE INERTIAL HUB WITH ADJUSTABLE PARAMETERS .............................................. 383
Sharapov Rashid, Kapyrin Pavel, Lozovaya Svetlana, Yadykina Valentina, Agarkov Aleksandr

NUMERICAL SIMULATION OF THE PROCESS OF GEOTHERMAL LOW-POTENTIAL GROUND ENERGY EXTRACTION IN PERM REGION (RUSSIA) ........................................................................................................................................ 390
Ponomaryov Andrey, Zakharov Alekssandr
EFFECT OF LIMESTONE AND GRANITE COARSE AGGREGATE ON DRYING SHRINKAGE OF A CONCRETE .............................................................. 521
Woyciechowski Piotr, Chilmon Karol, Sokolowska Joanna Julia
COST-EFFECTIVE DESIGN OF REINFORCED CONCRETE WITH USE OF SELF-TERMINATED CARBONATION MODEL .......................................................... 529
Woyciechowski Piotr, Sokolowska Joanna
METHOD OF CALCULATING HEAT TRANSFER IN FURNACES OF SMALL POWER ................................................................. 537
Khvanov Pavel
THE TECHNOLOGY OF HEAT TRANSFER ENHANCEMENT IN CHANNELS BY MEANS OF FLOW PULSATIONS .......................................................... 544
Tsynaeva Anna, Nikitin Maxim
ANALYZING SCREEN HEAT INSULATION AND ITS EFFECT ON ENERGY CONSUMPTION WHILE HEATING BUILDING ENVELOPES IN CONDITIONS OF INTERMITTENT HEATING .......................................................... 549
Vytchikov Yuri, Sapaev Mikhail, Chulkov Alexandr
PIPELINE WALLS HYDROPHOBIC PROPERTIES STUDY AND THEIR PROTECTIVE COATINGS USED IN TRENCHLESS TECHNOLOGIES .......................................................... 554
Orlov Vladimir
WOODEN FOUNDATIONS HISTORY AND PROSPECTS ..................................................................................................................... 562
Cherkasova Lyudmila
THE ANALYSIS OF THE METHODS OF RESEARCH THE INFLUENCE OF NONUNIFORM LOCAL STRESS ON A CRACK RESISTANCE OF PROTECTIVE COATING .......................................................... 568
Frishter Ludmila

PART 2

GREEN SULFUR-EXTENDED ASPHALT CONCRETE: MIX DESIGN OF THE COMPLEX BINDER ........................................................................................................... 573
Gladkikh Vitaliy, Korolev Evgeniy, Gladkikh Valentina
PROPERTIES OF SULFUR-EXTENDED ASPHALT CONCRETE ........................................................................................................... 579
Gladkikh Vitaliy, Korolev Evgeniy, Husid Dmitrij, Sukhachev Ilya
THE USE OF SANDWICH-PANELS AS A SAFETY AND EASILY THROWN OFF DESIGNS FOR INTERNAL EXPLOSIONS ........................................................................................................... 585
Gorev Vyacheslav, Salynova Evgeniya
INFLUENCE OF COMPOSITE FIBERS ON THE PROPERTIES OF HEAVY CONCRETE ........................................................................................................... 590
Nurdikov Marsel, Solovyev Vadim, Panchenko Alexander
INSULATION SYSTEMS OF THE BUILDING CONSTRUCTIONS ........................................................................................................... 595
Rumiantcev Boris, Zhukov Aleksey, Zelenshikov Dmitry, Chkunin Anatoliy, Ivanov Kazbek, Sazonova Yuliya
ANALYSIS OF HEAT LOSSES OF UNDERGROUND TUNNEL FOR ENGINEERING UTILITIES WITH AVAILABLE METHODS ........................................................................................................... 603
Brukhanov Oleg, Rynarow Andrey, Malyshova Anna, Titkov Dmitriy
EXPEDIENCY OF APPLICATION OF EXPLOSION-RELIEF CONSTRUCTIONS TO ENSURE EXPLOSION RESISTANCE OF PRODUCTION BUILDINGS ........................................................................................................... 608
Lyapin Anton, Korolchenko Anton, Meshalkin Evgeniy
ANALYSIS OF CAUSES OF COMBUSTIBLE MIXTURE EXPLOSIONS INSIDE PRODUCTION FLOOR AREAS ........................................................................................................... 615
Lyapin Anton, Korolchenko Anton, Meshalkin Evgeniy
GAS EXPLOSION IN A ROOM WITH A WINDOW AND PASSAGE TO AN ADJACENT ROOM ........................................................................................................... 621
Polandov Yuri, Korolchenko Aleksandr, Dobrikov Sergey
THE ROLE OF A TECHNICAL CUSTOMER IN ORGANIZATION OF INVESTMENT AND CONSTRUCTION ACTIVITY AT THE STAGE OF CONSTRUCTION OVERSIGHT ........................................................................................................... 628
Novikov Sergey
SURFACE THERMODYNAMIC PARAMETERS OF MODIFIED WOOD ........................................................................................................... 635
Pokrovskaya Elena, Portnov Fedor, Dolganov Andrey
ENVIRONMENTAL AND ECONOMIC ESTIMATION OF NEGATIVE IMPACT OF WATERPROOFING WORKS AND MATERIALS ON ENVIRONMENT AND ABILITY TO LIVE OF THE PERSON ........................................................................................................... 640
Velichko Evgeniy, Tshovrebov Edward, Semenov Vyacheslav
REDUCTION OF SMOKE-GENERATION ABILITY OF CONSTRUCTION TIMBER ........................................................................................................... 646
Pokrovskaya Elena, Portnov Fedor
THE SYSTEMS OF INSULATION AND A METHODOLOGY FOR ASSESSING THE DURABILITY ................................................. 652
Rumiantsev Boris M., Zhukov Aleksey D., Bobrova Ekaterina Yu., Romanova Irina P., Zelenshikov Dmitry B., Smirnova Tatiana V.

FORMATION OF NORMATIVE-METHODICAL MAINTENANCE OF QUALITY AND SAFETY OF CAMP SITES .............................................................. 658

INFLUENCE OF SPREADING STRUCTURE IN AN AQUEOUS SOLUTION-HYDROCARBON SYSTEM ON EXTINGUISHING OF THE FLAME OF OIL PRODUCTS .......................................................... 664
Korolchenko Dmitriy, Voevodin Sergey

FIELD STUDY METHOD FOR INDOOR AIR OF LINEAR UNDERGROUND FACILITIES ............................................. 671
Lushin Kirill, Pilyushchenko Natalia, Ananyev Aleksey

ANALYSIS OF THE EFFICIENCY OF THE GRINDING PROCESS IN CLOSED CIRCUIT BALL MILLS .................................................. 676
Telichenko Valery I., Sharapov Rashid R., Lazovaya Svetlana Y., Skel Vladimir I.

NUMERICAL INVESTIGATION OF SOME STATIONARY SOLUTIONS OF THE CARLEMAN SYSTEM ...................................................... 683
Vasil'eva Olga

CALCIUM HYDROXIDE SILYLATION REACTION WITH TRIMETHYLCYLOROSILANE ............................................. 689
Novoselov Anatoly A., Ustinova Yuliya V.

NANO-MODIFIED CONCRETES INITIAL STRUCTURING ................................................................. 697
Alimov Lev, Engovatov Igor

CRITERIA FOR EVALUATION OF BUILDING MATERIALS HAZARD BASED ON THEIR NATURAL RADIOACTIVITY IN RUSSIA AND IN THE EUROPEAN UNION COUNTRIES .................................................. 702
Buzina Duria, Engovatov Igor, Alimov Lev, Slesarev Michail

FINE-GRAINED CONCRETE WITH ORGANOMINERAL ADDITIVE ................................................................. 708
Solyov Vitaly, Sokolova Yulia

ANTIRIVERS AND THEIR ROLE IN THE BIOTECHNOSPHERE FORMATION ................................................................. 711
Suzdalev Antonina, Gur’ev Alin, Tkachev Valentin

STRUCTURING OF NANOMODIFIED CONCRETE CURED IN DIFFERENT TEMPERATURE AND HUMIDITY CONDITIONS ................................................................. 715
Voronin Viktor, Bobrov Yuriy

RELATIONSHIP BETWEEN GAS-DYNAMIC FLOWS AND IMPACTS OF EMERGENCY EXPLOSIONS INDOORS ................................................................. 719
Komarov Alexander, Bazhina Elena, Bobrov Yuriy

TO THE OPTIMAL USE OF TECHNOLOGICAL CAPABILITIES OF THE EXCAVATOR – DRAGLINE IN CONSTRUCTION ................................................................. 724
Khayrullin Rustam

MODERN EFFICIENT METHODS OF STEEL VERTICAL OIL TANKS CLEAN-UP ................................................................. 729
Nekrasov Vladimir

THE METHODOLOGY OF THE VIBRATIONAL SEPARATING MACHINES BEARING STRUCTURE RIGIDITY OPTIMIZATION AND THE ACTUATING MECHANISM PARTS DYNAMIC FORCES DETERMINATION ................................................................. 734
Piven Valeriy, Umanshaya Olga

OVERVIEW OF FIRE CURTAINS IN CONSTRUCTION ................................................................. 745
Nedryshkin Oleg, Gravit Marina, Lyapin Anton, Voronin Viktor

ESTIMATION OF EMISSIONS DURING MONITORING OF PIPELINES IN THE DYNAMIC MODE OF OPERATION ................................................................. 750
Zemenkova Maria, Zemenkov Yuri, Gladenko Alexey, Podorozhnikov Sergey

MONITORING OF PHASE DISTRIBUTION WHEN CONTROLLING SAFETY OF TRANSPORT PROCESSES AND HYDROCARBON STORAGE ................................................................. 756
Zemenkov Yuri, Zemenkova Maria, Gladenko Alexey, Zakirov Nikolay

TESTING OF BUS BAR CONTACT UNDER NON STATIONARY CURRENT IMPACTS ................................................................. 762
Bekbaev Amankeldy, Sarsenbayev Erald, Tikhov Vasily

INFLUENCE OF DISPERSION DEGREE OF WATER DROPS ON EFFICIENCY OF EXTINGUISHING OF FLAMMABLE LIQUIDS ................................................................. 767
Korolchenko Dmitriy, Voevodin Sergey

RELIABILITY OF BUILDINGS WITH INTERNAL NETWORK ................................................................. 774
Dolganov Andrey, Kaleev Denis, Malykh Galina, Shukurov Ilkhomzhon

INCREASE OF ROAD TUNNELS SAFETY USING TUNNEL TRAFFIC & OPERATION SIMULATOR ................................................................. 781
Jancarikova Eva, Danisovich Peter, Sramek Juraj
CONSTRUCTION OF A COMPLEX OBJECT .............................................................................................................. 788
Ol'eynik Pavel, Sinenko Sergey, Zhdanovsky Boris, Brodsky Victor, Kuzhin Marat

PROBLEMS AND PROSPECTS OF COTTAGE CONSTRUCTION IN RUSSIA .............................................................. 798
Kasyanov Vitaly, Landysheva Olga

RHEOLOGICAL PROPERTIES OF THE POLYMERIC BLENDS .................................................................................. 802
Matseevich Tatiana, Askadskii Andrey

AUTOMATED MANAGEMENT OF ENGINEERING INFRASTRUCTURE OF POOLS OF DIFFERENT FUNCTION ........................................ 810
Shirokov Lev, Chelyshkov Pavel, Romanenko Evgeny

THE ANALYSIS OF THE FUNCTIONALITY OF MODERN SYSTEMS, METHODS AND SCHEDULING TOOLS ............................................................................................................................... 816
Abramov Ivan, Poznakhirko Tatiana, Sergeev Alexandr

TEMPERATURE CONDITIONS OF HOTHOUSES DURING A WARM SEASON ............................................................ 821
Bodrov Valery, Bodrov Mikhail, Lushin Kirill

SOME ASPECTS ON IMPROVEMENT OF WATER RESISTANT PERFORMANCE OF GYPSUM BINDERS ................................................ 828
Fomina Ekaterina, Voitovich Elena, Brukhonov Oleg

RISK MONITORING FOR THE CITY IN GEOLOGICAL HAZARDS CONDITIONS ...................................................... 835
Ginzburg Alexander, Kachanov Sergey, Nigmetov Gennadii

ASSESSING TRANSACTION ENVIRONMENT CONDITIONS FOR INVESTMENT AND CONSTRUCTION ........................................ 840
Mishlanova Marina, Khritonov Vadim

METHOD OF SYSTEMATIC DETERMINATION OF SPECIFIC THERMAL CHARACTERISTICS OF BUILDING ...................... 847
Prokhorov Vitaliy

DEVELOPMENT OF MECHANISMS FOR INNOVATIVE PROJECTS MANAGEMENT BASED ON THEIR IDENTIFICATION AND RESULTS FORECAST IN THE RISK ENVIRONMENT ................................................................. 854
Okolelova Ella, Trukhina Natalya

THE QUALITY EVALUATION OF THE BALLASTLESS TRACK CONSTRUCTION IN THE AREA OF BRATISLAVA TUNNEL NO. 1 ................................................................................................................. 862
Izvolt Libor, Smal Michal, Malchová Jana

KASS V.2.2. SCHEDULING SOFTWARE FOR CONSTRUCTION ......................................................................................... 869
Krzeminski Michal

FUZZY SETS ON STEP OF PLANNING OF EXPERIMENT FOR ORGANIZATION AND MANAGEMENT OF CONSTRUCTION PROCESSES .............................................................................................................. 874
Lapidus Azariy, Makarov Aleksandr

RANKING OF ACTIONS TO REDUCE RISKS IN QMS OF CONSTRUCTION ENTERPRISES ........................................ 881
Ivanov Nikolay

INNOVATIONS IN CONSTRUCTION PERSONNEL EDUCATION ......................................................................................... 886
Nicic Aleksandar, Nowak Pawel, Rostóń Jerzy

METHOD OF STATISTICAL DATA PROCESSING SAFETY ECOLOGICAL MONITORING COMBINED HEAT AND POWER STATION IN THE MEGALOPOLIS TERRITORY ................................................................................. 894
Telichenko Valery, Slesarev Michail, Kazovkina Tatiana

CONSTRUCTION AUDIT AS A MODERN INSTRUMENT OF INVESTMENT AND CONSTRUCTION PROCESS MANAGEMENT ................................................................. 899
Didkovskaya Olga, Mamayeva Olga, Bocharov Alexey

STRATEGIC DIRECTIONS OF PERSONNEL POTENTIAL FORMING OF A BUILDING COMPLEX .................................................. 903
Simonova Marina, Shekhtova Natalia, Kolesnikov Sergei

SOME CRITERIA OF CRITICAL INFRASTRUCTURES STABILITY .................................................................................... 910
Vo'lkov Andrey, Shilova Liubov

NUMERICAL SIMULATION OF EXTENDED STRUCTURES AERODYNAMIC WITH HIGH LEVEL OF RESPONSIBILITY ................................................................. 917
Fedosova Anastasia, Gribach Yulia, Gribach Dmitry

FEATURES OF ENGINEERING SURVEYS FOR RECREATIONAL FACILITIES CONSTRUCTION IN HIGH-MOUNTAIN ENVIRONMENT .............................................................................................................. 922
Krinochkina Olga, Lavrusevich Andrey

SYSTEMATIZATION OF THE MAJOR STAGES OF THE CLIENT IN CERTAIN BRANCHES OF CONSTRUCTION PRODUCTION ................................................................. 927
Kazmina Tatiana, Cherebnichenko Nadezda
SPECIFICS OF SYSTEM OF EXTERNAL INFLUENCES ON THE LIFE CYCLE OF A CONSTRUCTION OBJECT .................................................. 975
Alekseenko Alexander, Shorshikov Sergey

STANDARDIZATION OF GREEN BUILDING TECHNOLOGIES FOR ENVIRONMENT DESIGN ........................................... 938
Bench Andrei, Orenburzova Ekaterina

COMPUTER MODULE FOR SCHEDULING OF TRANSPORTATION OF COMPOSITE BEAM BRIDGE STRUCTURES .......................... 943
Bozeiko Wojciech, Hejzdluzek Zdzislaw, Uchrowski Marian, Wodecki Mieczyslaw

ON THE SYSTEM OF MANAGEMENT PROCESS INDICES IN BUILDING SECTOR ENTERPRISES ........................................ 948
Chernov Roman, Shikina Svetlana

ASPECTS OF TRANSPORT TRANSIT HUBS CONSTRUCTION MANAGEMENT IN COORDINATION WITH OBJECT LIFECYCLE PROJECTING ........................................ 953
Danilina Nina, Vlasov Denis

THE MANAGEMENT OF PARK EQUIPMENT AND MACHINERY USED IN THE CONSTRUCTION INDUSTRY AND HOUSING SECTOR .................................................................................................................. 960
Khayrullin Rustam, Marichev Vitaly

INTENSIFICATION OF THE INVESTMENT PROCESS OF CONSTRUCTION .......................................................................................... 967
Oleinik Pavel, Kazmina Tatiana, Viktor Zenov

SPECIFICS OF SYSTEM OF EXTERNAL INFLUENCES ON THE LIFE CYCLE OF A CONSTRUCTION OBJECT .............................................................................................................................................. 980
Gorev Vyacheslav, Roitman Vladimir

GEO-ECOLOGICAL APPROACH TO EVALUATION OF ECOLOGICAL CONDITION OF WATER BODIES ................................ 988
Smetsanin Vladimir, Tsvetkov Ilya, Nasonov Andrey

MODELLING OF ORGANIZATIONAL AND TECHNOLOGICAL PARAMETERS OF THE INFORMATIONAL MODEL OF MUNICIPAL INFRASTRUCTURE FACILITIES SUBJECT TO REORGANIZATION ............................................................................................................................... 998
Kazina Olga, Pankratov Evgeniy, Tkachev Valentin

STRATEGY DEVELOPMENT MANAGEMENT OF MULTIMODAL TRANSPORT NETWORK .................................................. 1002
Nesterova Natalia S., Goncharuk Sergei M., Anisimov Vladimir A., Anisimov Aleksandr V.

COST REDUCTION ABILITY BY ELECTRICITY TARIFF SELECTION FOR CONSTRUCTION FACILITIES LOCATED IN NON-PRICE AREAS .......................................................................................................................... 1007
Makasheva Svetlana, Pinchukov Pavel

METHODOLOGY FOR ANALYSING CAPACITY AND LEVEL OF SERVICE FOR SIGNALIZED INTERSECTIONS (HCM 2000) ............................................................................................................................ 1012
Nedevska Ivana, Ognyenovic Slavoluk, Gusakova Elena

CONSTRUCTION OF DETOURS OF RAIL NODES, AS AN EFFECTIVE WAY TO INCREASE THE THROUGHPUT .......................................................................................................................... 1019
Kukleva Natalya

APPROACH TO ORGANIZATIONAL STRUCTURE MODELLING IN CONSTRUCTION COMPANIES .................................................................................................................................................. 1026
Il’in Igor V., Kninina Olga V., Leina Anastasia I., Ilashenko Oksana Yu.

THE ROLE OF THE CONCEPT OF LEAN MANAGEMENT IN MODERN BUSINESS ................................................................. 1034
Melovich Bohan, Mitrovic Slavica, Zhuravlev Andrey, Braila Natalia

WATER-RESISTANT GYPSUM BINDER .................................................................................................................................. 1038
Panchenko Alexander I., Kozylov Nikita

INTEGRATED APPROACH TO INDUSTRIAL SEWAGE WATER TREATMENT - A WAY OF WATER RESOURCES RATIONAL USE AND PROTECTION .................................................................................................................. 1044
Aleksheyev Evgeniy, Voloshanik Valery

IMPROVEMENT OF THE SYSTEM OF INORGANIC WASTE RECYCLING TO MAN-MADE SOILS ........................................ 1049
Chertes Konstantin, Tupitsynya Olga, Pystin Vitaliy, Saveliev Aleksey, Martynenko Elena

DEVELOPMENT OF ECOLOGICALLY SAFE TECHNOLOGY OF RECYCLING OF INDUSTRIAL WASTE IN THE PRODUCTION OF MODIFIED NON-AUTOCLAVE AERATED CONCRETE ........................................................................................................................................ 1056
Tkach Evgeniy
