2016 IEEE/ACM 8th International Workshop on Modeling in Software Engineering (MiSE 2016)

Austin, Texas, USA
16 – 17 May 2016
Table of Contents

Message from the Welcome Chairs ................................................................. vii
Committees ........................................................................................................ viii
Sponsors and Supporters .................................................................................. x

MDE Technologies and Model Quality

Featured Model Types: Towards Systematic Reuse in Modelling Language Engineering ................. 1
  Gilles Perrouin, Moussa Amrani, Mathieu Acher, Benoit Combemale, Axel Legay,
  and Pierre-Yves Schobbens
  — PReCISE, University of Namur, Belgium; University of Rennes I / INRIA, France;
  INRIA, France; IRISA/INRIA, Rennes, France

An End-to-End Domain Specific Modeling and Analysis Platform .................................................. 8
  Arman Shahbazian, George Edwards, and Nenad Medvidovic
  — University of Southern California, USA; Quandary Peak Research, USA

Model Level Design Pattern Instance Detection Using Answer Set Programming .......................... 13
  Gaurab Luitel, Matthew Stephan, and Daniela Inclezan
  — Miami University, USA

Transformations (Reverse Engineering, Derivations, Co-Evolution)

fREX: fUML-based Reverse Engineering of Executable Behavior for Software Dynamic Analysis ........ 20
  Alexander Bergmayr, Hugo Bruneliere, Jordi Cabot, Jokin Garcia, Tanja Mayerhofer,
  and Manuel Wimmer
  — Business Informatics Group (TU Wien), Austria; AtlanMod Team (Inria, Mines Nantes, LINA),
  France; ICREA - Open University of Catalonia, Spain

Architecture-Centric Derivation of Products in a Software Product Line ......................................... 27
  Cuong Cu and Yongjie Zheng
  — University of Missouri - Kansas City, USA

Examining the Co-evolution Relationship between Simulink Models and Their Test Cases ................ 34
  Eric J. Rapos and James R. Cordy
  — School of Computing, Queen's University, Canada
Domain-Specific Modelling and Analysis

Modeling Complex Air Traffic Management Systems ................................................................. 41
Neha Rungta, Eric G. Mercer, Franco Raimondi, Bjorn C. Krantz, Richard Stocker,
and Andrew Wallace
— NASA Ames Research Center, CA, USA; Brigham Young University, USA;
Middlesex University, United Kingdom of Great Britain and Northern Ireland

Model Driven Performance Simulation of Cloud Provisioned Hadoop MapReduce Applications ........ 48
Hanieh Alipour, Yan Liu, Abdelwahab Hamou-Lhadj, and Ian Gorton
— Concordia University, Canada

Model-Based Analysis of Java EE Web Security Configurations ...................................................... 55
Salvador Martínez, Valerio Cosentino, and Jordi Cabot
— AtlanMod team (Inria, Mines Nantes, LINA), France;
SOM Research Lab. ICREA - UOC, Spain

Analysis and Compliance

Modeling for Sustainability .................................................................................................................. 62
Benoit Combemale, Betty H.C. Cheng, Ana Moreira, Jean-Michel Bruel, and Jeff Gray
— IRISA, Université de Rennes 1, France; Michigan State University, USA;
Universidade Nova de Lisboa, Portugal; IRIT, France; University of Alabama, USA

Representing Hierarchical State Machine Models in SMT-LIB ......................................................... 67
Nancy A. Day and Amirhossein Vakili
— David R. Cheriton School of Computer Science, University of Waterloo, Canada;
University of Waterloo, Canada

Model Management for Regulatory Compliance: A Position Paper .................................................. 74
Sahar Kokaly, Rick Salay, Mehrdad Sabetzadeh, Marsha Chechik, and Tom Maibaum
— McMaster University, Canada; University of Toronto, Canada;
University of Luxembourg, Luxembourg

Author Index ....................................................................................................................................... 81
