14 – 15 May 2016

Table of Contents

Message from the Workshop Chairs....................................................................................................... vii
Committees............................................................................................................................................... viii
Sponsors and Supporters......................................................................................................................... ix

Requirements and Analysis

Aligning Healthcare Innovation and Software Requirements through Design Thinking......................... 1
Noel Carroll and Ita Richardson
— University of Limerick, Ireland

Specification and Analysis of Human-Intensive System Resource-Utilization Policies............................. 8
Seung Yeob Shin, Yuriy Brun, and Leon J. Osterweil
— University of Massachusetts Amherst, USA

A Language Based Model for Analysis of Communication Intensive Processes in Health Care............... 15
Simon Diemert, Fieran Mason-Blakely, Morgan Price, and Jens Weber
— University of Victoria, Canada; University of British Columbia, Canada

Clinical Systems

Closing the Gap — Enacting Knowledge Transfer between Engineering and Use of Healthcare Software................................................................................................................. 19
Jens H. Weber and Morgan Price
— University of Victoria, Canada; UBC, Canada

Patient-Centric Healthcare Service Systems: Evidence-Based Medicine as Architecturally Significant Requirement .................................................................................................................. 26
Patrick Letouze, Valeria Martins da Silva, and Jose I.M. de Souza Júnior
— Universidade Federal do Tocantins, Brazil; Universidade Federal do Rio de Janeiro, Brazil

An Empirical Investigation of the Evaluators’ Scoring of Vendors’ Responses to an RFP of a Large Healthcare System ........................................................................................................ 33
Syed Shariyar Murtaza, Ayse Bener, Jeremy Petch, and Muhammad Mamdani
— Ryerson University, Canada; Saint Michael Hospital, Toronto, Canada
Experience

Connected Health: From Rural Ireland to Rural India................................................................. 39
  Ita Richardson, Jerry O’Mahony, Paul Howarth, Patrick O’Connor, and Liam Glenny
  — Research Centre, University of Limerick, Ireland; Homesafe Care, Ireland; Akumen Ltd,
  United Kingdom; ADA-Security, Ireland

Mining Twitter Data for Influenza Detection and Surveillance.................................................. 43
  Kenny Byrd, Alisher Mansurov, and Olga Baysal
  — Carleton University, Canada

Healthcare Systems Quality: Development and Use................................................................... 50
  Ita Richardson, Louise Reid, and Padraig O’Leary
  — Lero - Irish Software Engineering Lero - the Irish Software Research Centre, Ireland;
  University of Limerick Hospital, Ireland; University of Adelaide, Australia

Performance Monitoring and Checklists

Smart Checklists to Improve Healthcare Outcomes................................................................. 54
  Stefan C. Christov, Heather M. Conboy, Nancy Famigletti, George S. Avrunin, Lori A. Clarke,
  and Leon J. Osterweil
  — Quinnipiac University, USA; University of Massachusetts, USA

Analytics for Mobile Applications

Coordinating Analytics Methods for Mobile Healthcare Applications ...................................... 58
  Pawan Chowdhary, Sunhwan Lee, John Timm, Heiko Ludwig, and Sarah Knoop
  — IBM Research, USA; IBM Watson Health, USA

Author Index .................................................................................................................................. 62
