Committees............................................................................................................................................... viii
Sponsors and Supporters .......................................................................................................................... x

Technical Session I: SoS Model-Based Engineering

Modeling and Analyzing Systems-of-Systems in the Multi-Attribute Prediction Language (MAPL) ............ 1
  Pontus Johnson, Robert Lagerstrom, Mathias Ekstedt, and Ulrik Franke
  — KTH Royal Institute of Technology, Sweden; Swedish Institute of Computer Science — SICS, Sweden

Modeling of Information Systems as Systems of Systems through DSM ..................................................... 8
  Paolo Salvaneschi
  — University of Bergamo, Italy

Modeling and Verification for Different Types of System of Systems Using PRISM ................................. 12
  Dongwon Seo, Donghwan Shin, Young-Min Baek, Jiyoung Song, Wonkyung Yun,
  Junho Kim, Eunkyoung Jee, and Doo-Hwan Bae
  — KAIST, The Republic of Korea

Technical Session II: SoS Architecture

Building Dynamic, Long-Running Systems ................................................................................................. 19
  Steven P. Reiss and Qi Xin
  — Brown University, USA

ITE Arbitrator: A Reference Architecture Framework for Sustainable IT Ecosystems ............................... 25
  Soojin Park and Young B. Park
  — Sogang University, The Republic of Korea; Dankook University, The Republic of Korea

Approaches for Integration in System of Systems: A Systematic Review .............................................. 32
  Iohan Gonçalves Vargas, Thiago Gottardi, and Rosana Teresinha Vaccare Braga
  — USP, Brazil; ICMC-USP, Brazil
