
Austin, Texas, USA
15 May 2016
7th International Workshop on
Emerging Trends in Software Metrics
(WETSoM 2016)

Table of Contents

Message from the Workshop Chairs................................................................. vii
Committees........................................................................................................ viii
Sponsors and Supporters.................................................................................. x

Data

Measuring High and Low Priority Defects on Traditional and Mobile Open Source Software .......... 1
   Marco Ortu, Giuseppe Destefanis, Stephen Swift, and Michele Marchesi
   — DIEE - University of Cagliari, Italy; Brunel University London, United Kingdom

Do Estimators Learn? On the Effect of a Positively Skewed Distribution of Effort Data on Software Portfolio Productivity ................................................................................................................. 8
   Hennie Huijgens and Frank Vogelezang
   — Ordina, Netherlands; Delft University of Technology, Netherlands

Source Code Metrics for Programmable Logic Controller (PLC) Ladder Diagram (LD) Visual Programming Language................................................................................................................... 15
   Lov Kumar, Raoul Jetley, and Ashish Sureka
   — ABB (Corporate Research), India

Statistics

A Statistical Comparison of Java and Python Software Metric Properties ........................................ 22
   Giuseppe Destefanis, Marco Ortu, Simone Porru, Stephen Swift, and Michele Marchesi
   — Brunel University London, United Kingdom; DIEE - University of Cagliari, Italy

Behavioral Complexity Quantification (Becom-Q) ................................................................................. 29
   Dionisio de Niz, Min-Young Nam, and Julien Delange
   — Carnegie Mellon University, USA

Metrics for Feature-Oriented Programming ........................................................................................ 36
   Ramon Abilio, Gustavo Vale, Eduardo Figueiredo, and Heitor Costa
   — Federal University of Minas Gerais, Brazil; Federal University of Lavras, Brazil
Metrics

A Case Study on the Relationship between Code Ownership and Refactoring Activities in a Java Software System

Matteo Orru and Michele Marchesi
— DIEE - University of Cagliari, Italy

On the Maintenance Complexity of Makefiles

Douglas H. Martin and James R. Cordy
— Queen’s University, Canada

A Metric Suite Proposal for Logical Dependency

Shirin Akbarinasaji, Behjat Soltanifar, Bora Çağlayan, Ayse Basar Bener, Andriy Miranskyy, Asli Filiz, Bryan M. Kramer, and Ayse Tosun
— Ryerson University, Canada; Turkcell Technology, Turkey; Istanbul Technical University, Turkey; Bogazici University, Turkey; Palomino Inc, Canada
