Message from the General and Program Chairs ................................................................................... vii
Committees ........................................................................................................................................ viii
Sponsors and Supporters ................................................................................................................ x

Session 1: Process Adaptation and Tailoring

Supporting the Co-adaptation of Process Properties ........................................................................... 1
   Djamel Eddine Khelladi, Reda Bendraou, Regina Hebig, and Marie-Pierre Gervais
   — Sorbonne Universites, France; Chalmers Gothenburg University, Sweden

Exploring the Impact of Situational Context — A Case Study of a Software Development Process for a Microservices Architecture ................................................................. 6
   Rory O’Connor, Peter Elger, and Paul M. Clarke
   — Dublin City University, Ireland; NearForm Ltd., USA

Critical Software Cultures - Analyses of Processes in Four Domains ..................................................... 11
   Christian R. Prause
   — DLR Raumfahrtmanagement, Germany

Session 2: Process Tooling and Simulation

How do Process and Team Interaction Depend on Development Technologies? ................................. 16
   Regina Hebig and Jesper Derehag
   — Chalmers Gothenburg University, Sweden; Ericsson AB, Sweden

Comparing Pre Commit Reviews and Post Commit Reviews Using Process Simulation ....................... 26
   Tobias Baum, Fabian Kortum, Kurt Schneider, Arthur Brack, and Jens Schauder
   — Leibniz Universitat Hannover, Germany; SET GmbH, Germany; T-Systems on Site Services GmbH, Germany

Towards Efficient Risk-identification in Risk-Driven Development Processes ........................................ 36
   Andreas Demuth, Markus Riedl-Ehrenleitner, Roland Kretschmer, and Alexander Egyed
   — Johannes Kepler University Linz, Austria
Session 3: Effort, Cost, and Measurement

Understanding and Improving Effort Estimation in Agile Software Development
— An Industrial Case Study ......................................................................................................................... 41
  Binish Tanveer, Liliana Guzmán, and Ulf Martin Engel
  — Fraunhofer IESE, Germany; SAP SE, Germany

Calibrating COCOMO(R) II for Projects with High Personnel Turnover ..................................................... 51
  Anandi Hira, Shreya Sharma, and Barry Boehm
  — University of Southern California, USA

An Exploratory Study on Functional Size Measurement Based on Code .................................................. 56
  Hennie Huijgens, Magiel Bruntink, Arie van Deursen, Tijs van der Storm, and Frank Vogelezang
  — Delft University of Technology, The Netherlands; Software Improvement Group, The Netherlands;
  Centrum Wiskunde & Informatica, The Netherlands; Ordina, The Netherlands;
  Centre for Mathematics and Informatics, The Netherlands

Session 4: Process Design and Improvement

  Philipp Diebold and Simon Andre Scherr
  — Fraunhofer IESE, Germany

CMMI Guided Process Improvement for DevOps Projects: An Exploratory Case Study ......................... 76
  Guoping Rong, He Zhang, and Dong Shao
  — NanJing University, China

A Complexity Theory Viewpoint on the Software Development Process and Situational Context ............. 86
  Paul Clarke, Rory V. O’Connor, and Brian Leavy
  — Dublin City University, Ireland

Session 5: System Evolution and Regulated Domains

Research Findings from an Industrial Trial of a Traceability Assessment and Implementation Framework ................................................................................................................. 91
  Gilbert Regan, Derek Flood, and Fergal McCaffery
  — Dundalk Institute of Technology, Ireland

Success Factors in Managing Legacy System Evolution: A Case Study ................................................... 96
  Hennie Huijgens, Arie van Deursen, and Rini van Solingen
  — Delft University of Technology, The Netherlands

Tailoring MDevSPICE® for Mobile Medical Apps ..................................................................................... 106
  Kitija Trektere, Fergal McCaffery, Marion Lepmets, and Grainne Barry
  — Dundalk Institute of Technology, Ireland; Salaso Health Solutions, Limerick

Author Index ............................................................................................................................................ 111
