2016 Third International Workshop on HPC User Support Tools (HUST 2016)

Salt Lake City, Utah, USA
13 November 2016
2016 Third International Workshop on HPC User Support Tools

HUST 2016

Table of Contents

Scope of Workshop .............................................................................................................................................iv

Workshop Papers

getexample: Reducing Barriers to Entry on Shared HPC Resources .................................................................1
  Dirk Colbry

Helping HPC Users Specify Job Memory Requirements via Machine Learning .................................................6
  Eduardo R. Rodrigues, Renato L. F. Cunha, Marco A. S. Netto, and Michael Spriggs

Managing Combinatorial Software Installations with Spack .............................................................................14
  Gregory Becker, Peter Scheibel, Matthew LeGendre, and Todd Gamblin

Sanity Tool: Lightweight Diagnostics for Individual User Accounts on Supercomputer Systems ......................24
  Si Liu, Robert McLay, and Doug James

Scientific Software Management in Real Life: Deployment of EasyBuild on a Large Scale System .................31
  Damian Alvarez, Alan O’Cais, Markus Geimer, and Kenneth Hoste

Author Index ......................................................................................................................................................41
