Risk-based Evaluation of the Geological Environment Carrying Capacity  
*Yao WANG, Maosheng ZHANG*  
84

The Research on Chinese Mining Corporate Social Responsibility  
*Boen LIU*  
99

Mineral Resource Utilization and Environment Protection in the View of Ecological Civilization - Case Study on Ankang, Shaanxi, China  
*Xin LI, Yudong LU, Yahui YANG*  
105

Application of Oxygen Isotope in Phosphate in Environmental Science  
*Chi ZHANG, Jun YAO, Mingzhe ZHAO*  
111

The Design of Anti-collision Mechanism in Rural Land Circulation  
*Jianying ZHAO, Chunsheng SUN*  
115

Evaluation on Green Mining in Economic Regions: Chenzhou-Hengyang Non-ferrous Economic Region as an Example  
*Xiaoxia LIN, Jinsheng ZHOU*  
125

Problems Analysis and Resolution Proposals on Management Institutions of Rural Residential Land in Beijing  
*Yanfeng YANG, Junqi XIE*  
131

---

**Chapter Three: General Mining Engineering**  
**Classification Code: 501 Exploration and Prospecting**

Study on Underground Solid Sylvite Deposit Mining Processes and Equipment Matching Technologies  
*Liang SHI, Wandong HAO, Zhendong ZHANG*  
137

Characteristics of Cretaceous Prototypic Basin and Lithofacies Paleogeography in Continental Margin of Eastern China  
*Zhu WEN, Lingyu LIU, Renchen XIN, Yang LIU*  
142

Cretaceous Red Bed and Danxia Landform in Shandong Province  
*Yuanxin PENG*  
148

Applied Schwarz-Christoffel Mapping to Analysis Closed Magnetic System  
*Mei YUAN, Dengyuan MO, Huiqing PENG, Di WU*  
152

Layout of Shaft Based on the Coupled Analysis of Stress Field  
*Jinan WANG, Yong ZHOU*  
158

Value Realization of Mineral Resources and Evaluation of Mining Rights  
*Huanpei LI, Rongge XIAO, Fan JUN*

Numerical Simulation of Lake Sedimentary Model - A Case Study of Qinghai Lake  
Lin FENG, Yuanfu ZHANG, Chenlin HU  

The Experimental Study on the Deposition Law of Tailing Ponds  
Shumei SUI, Long HAI  

Diabase Geochemical Characteristics and Indication Significance of Makeng Deposit in Fujian Province, Southern China  
Jinjun YI, Nan WANG  

Economic Reflections on Compensable Use of Natural Resources --- Discussion on Establishment of "Common but Differentiated" Compensable Use System of Natural Resources  
Qing ZHU, Lianjun WANG  

Application of High Precision Magnetic Measurement in Resources and Environment Protection  
Hao ZHANG, Jin YANG  

Researches on The Influence of Mined-Out Area on Surface Buildings and Its Controlling Methods  
Ping YANG, Shoubao XUE, Li SONG, Yueyuan LIU, Tao JIANG  

Chapter Four: Engineering Geology  
Classification Code: 480 Engineering Geology  

The Geological Significance Behind Cultural Heritage: A Case Study of the Mogao Grottoes, Dunhuang UNESCO Global Geopark, China  
Jinfang HAN, Fadong WU, Shihong GUO  

Geological Relics Assessment on E’man Volcanic Coast in Hainan Island  
Xiaohui HAN, Xuemu WANG  

Evaluation of Landscape Resources and Sustainable Development Strategies of The Cambra National Geopark in Qinghai Province  
Jinlin CHEN, Jianping ZHANG  

Characteristics and Resource Assessment of Karst Landscape of Yuhua Cave In Jiangle, Fujian Province, China  
Yongxiang CHI, Zhiqiang KANG, Liwei LIN  

Scientific Research and Science Popularization Value of Geoheritage in Alxa Desert UNESCO Global Geopark, Inner Mongolia, China  
Longlong ZHAO, Mingzhong TIAN, Ming BAO  

The Geological Relics Resources Influence Factors in Evaluating the Danxia Landform of North China- Case Study from Chengde Danxia Landform National Geopark, Hebei Province  
Sha ZHEN, Weiming GAO

Chapter Six: Coal Mines and Mining
Classification Code: 503 Coal Mines and Mining

The Application of Hazard Analysis and Critical Control Point Theory in Coal Mine Occupational Hazards Control
Peng ZHU, Chao ZHANG, Yuanbao ZHANG, Shichuan TANG

Monitoring the Roof Abscission Layer Base on Arm System
Quanzhu ZHANG, Wenshan ZHANG, Yonghong DENG, Yanxiang GE

Coupling Support Model of Narrow Coal Pillar Gob-Side Entry Driving and Engineering Application
Tong ZHANG, Xiaodong NIE

Application of Integrated Geophysical Prospecting Technology in Coal Mine Empty Area
Lei ZHANG, Lilei ZHANG, Junzhi WANG

Spatio-temporal Analysis of Ecological Carrying Capacity in Coal Mining Cities based on RS and GIS
Ling LIU, Jinsheng ZHOU

Chapter Seven: Coal Seam Gas and Renewable Energy
Classification Code: 525.1 Energy Resources

Studies on the Prevention Technique of Coal Seam Spontaneous Combustion in Hami Open-Pit Mine
Yu HAO, Longjun XU, Zhenghu WANG, Wei LU

Relationship of Supporting Force and The Support Stability in Steeply Inclined Coal Seam Extracted by Fully Mechanized Top Coal Caving
Pengzhao REN, Jinan WANG

The Role of China in the International Trade of Photovoltaic Devices
Fengbin XIE

Analysis of the Host Wall-rock Conditions of Natural Gas Hydrate in the Muli Coalfield of Qilian Mountain
Chulin XIA, Runmin PENG, Diange CONG, Wen ZHANG, Erfeng REN

Preliminary Study of Hydrogeochemical Characteristics of Yanqing Geothermal Field, Beijing City
Changhong FU, Lizhi WANG
Discussion on Metallogenic Material Sources of Mississippi Valley-Type Pb-Zn Deposits in Sichuan-Yunnan-Guizhou Area
Feng YUAN ................................................................. 476

Present Situation and Future Development Trend of Thallium Ore Resources
Chao LIU, Ting ZHAO ............................................................. 482

Source and Distribution Rule of Mercury in Natural Gas Reservoirs, China
Qituan YAN, Zhongxi HAN, Shuying WANG ........................................ 486

Metalogenic Regularity and Prosecting of Dalaimiao Cu-Mo Polymetallic Deposit in Inner Mongolia
Yanyun NAN, Xiaoguang YANG, Tao WANG ........................................ 494

Chapter Nine: Iron Ore
Classification Code: 504.4 Heavy Metal Mining; 545.1 Iron

Research on Exploitation and Application of a New Filling Cementing Material for Whole Tailings of Iron Mine
Peixin DONG, Zhiquang YANG, Qian GAO ........................................ 499

Research on Iron Element’s Quantitative Extracting from Granite by Reflection Spectrum
Zhichun WU, Linqing LIU, Fusheng GUO ........................................ 508

Underground Curtain Grouting near Orebody Technique for Water Control in Metal Mining and Its Applications: An Example from Xulou Iron Mine in Anhui Province
Jian CHEN, Yongbo TENG, Junxue MA ........................................ 514

Discussion on Tectonic Evolution and Structural System Ore-Controlling Role in The Ailaoshan Metallogenic Belt
Yaoyao ZHANG, Da ZHANG, Jun LIU, Xingjian LI, Xingchen BU ........................................ 524

The Evaluation System for Intensive Utilization of Mineral Resources and Empirical Study on Typical Iron Mining Area
Xuefeng WANG ................................................................. 528

The Fe Isotope Fractionation during Arsenic Removal by Fe Minerals in Water
Kunming WU, Lizhi WANG, Haiyang WANG ........................................ 539

Chapter Ten: Gold and Rare Earth
Classification Code: 504.4 Heavy Metal Mining; 547.1 Precious Metals; 547.2 Rare Earth Metals

Genesis of The Magmatic Rocks in Cishan Gold Deposit, Tongling, China: Evidence from Hornblende
Mingxuan LI, Yangsong DU, Qian DONG, Wei TU, Xiaoliang YU ........................................ 544

Distribution of Trace and Rare Earth Elements in Crude Oils from The Ordos Basin, NW China
Yan ZHAO, Chiyang LIU, Xiaochen ZHAO ........................................ 548
Chapter Eleven: Nonmetallic Mines and Mining
Classification Code: 505 Nonmetallic Mines and Mining

Research on Graphite Resources' Development and Utilization in China
Yilun DU, Xiaoli LEI, Fuliang ZHANG ................................................................. 571

Evaluation of Fluorite Resources and Suggestions for Industrial Development
Huihui CAI ............................................................................................................ 575

Researches on Slump Test for Fine Particle Paste Slurry
Zhishuang LIU, Yongwang WANG ....................................................................... 580

The Industrial Path to Comprehensive Utilizing Solid Waste of Phosphorus Industry in Hubei Province
Yongqing WANG, Laifeng WANG ....................................................................... 586

The Research on Frost-resistance of Recycled Concrete Mixed Sulfate Early Strength Agent
Zhigang ZHU, Yanping TU, Wenjun YU ................................................................. 593

Determination of Organophosphorus Flame Retardants and Plasticizers in Biological Samples by Gas Chromatography Tandem Mass Spectrometry
Ying ZHANG, Lifei WEI, Wei LIU ....................................................................... 597

Chapter Twelve: Petroleum Deposits and Engineering
Classification Code: 510 Petroleum Engineering; 512 Petroleum and Related Deposits

The Design of Oil Pipeline Laying
Qiming FENG ..................................................................................................... 603

Performance of Vertical Fractured Wells with Finite Conductivity in Channel-Type Reservoirs with Low Permeability
Fengqiang XU, Jiahang WANG, Wenxiu DONG, Xiaodong WANG ........................ 609

Analysis on The Cooperation of Oil and Gas Upstream Projects Between Russia and Asian Countries
Yina SU, Xuemei LJ ............................................................................................... 615

Research on Law of Gas Dynamic Disasters and Geological Structure in Majiagou Mine
Liming QI, Xukun ZHANG, Rong ZHAO .............................................................. 620
Research on the Prospects and Risks of Shale Gas Exploration in China  
Qing XIE, Kuan JIANG, Xingke YANG, Yuzhu DING

................................................................. 624

Mine Geological Environment Protection and Recovery Management in Huian Oil Field on Erdos Basin  
Kaizhu QIAN, Jingjing LV, Miwen GUO

................................................................. 629

CO2 and Rn Geochemical Characteristics of Fault Gas in Kouquan, Shanxi Province  
Jiang WANG, Lisen WANG

................................................................. 634

Radial Point Collocation Method (RPCM) for Solving Phreatic Flow over an Inclined Impermeable Bed  
Tian JIAO, Zhonghua TANG

................................................................. 641

Fine Structure Interpretation on Putaohua Oil Reservoir in the Fang 135 Block, Song Fangtun Oilfield  
Sijia CAO, Yejun JIN

................................................................. 648

Regional Assessment of Effect of Gas Hydrate Dissociation on the Submarine Slope Stability  
Chunjuan WANG, Dewen DU

................................................................. 654

Petrology, Petrochemical Characteristics and Geological Significance of Beitashan Group Volcanics from  
Eastern Tianshan Area, Xinjiang  
Ye WANG, Chao LIU, Yuanyuan XU

................................................................. 661

**Chapter Thirteen: Soil Mechanics**  
Classification Code: 483.1 Soils & Soil Mechanics

Landslide Prediction Based on RBF Neural Network  
Limin LI, Zongzhou WEN, Lu LI

................................................................. 665

The Function of Law and Morality in Appraisal of Real Estate  
Yanwen XU, Qiwu ZHANG

................................................................. 670

Influence of Soil Type on The Sorption of Cd(II) onto Biochar  
Xiuqing GAO, Junfeng LIU

................................................................. 675

Investigating The Precision of Discontinuous Deformation Analysis (DDA) to Deal with Tensile Failure of  
Rock Masses  
Wenjun GONG, Yunsheng WANG, Yonghong LUO

................................................................. 683

Study on Half-buried Corrosion Resistant Concrete Containing Nano-particles in Chlorine Saline Soil Area of  
Qinghai  
Zhengwei CHEN, Yang GAO

................................................................. 689

Analytical Fast Pyrolysis of Cellulose and Hemicellulose Isolated from Bamboo  
Chong ZHANG, Zhibo ZHANG, Minshu CUI, Qiang LU

................................................................. 695
Stability Analysis of Rock Slope Based on DDA Method
Zhengqi LEI, Guoxin ZHANG ........................................................................ 701

Evaluation of Chitosan Coated Nanoscale Zero-Valent Iron for Remediation of Cadmium Contaminated Soil
Junfeng LIU, Xiaoran ZHANG ........................................................................ 707

Research on the Application of 3S Technology in Soil Pollution Risk Management
Haijun WANG, Junhuan PENG ...................................................................... 714

Chapter Fourteen: Water Resources and Hydraulic Engineering
Classification Code: 444 Water Resources; 440 Water and Waterwords Engineering

A Reservoir Operation Research for Economic Benefit of Irrigation in Changma’s Irrigated Area
Yisong XIONG, Xu WANG, Xiaohui LEI, Jianshi ZHAO ................................................................. 718

Statistical Analysis of Total Dissolved Solids in Groundwater in Yaoba Oasis, China
Yifeng LUAN, Yudong LU ........................................................................... 728

Numerical Simulation of Low Permeability Reservoir Considering Threshold Pressure Gradient
Huan WANG, Bing WANG ............................................................................... 734

Calculation of Ecological Base Flow Based on Improved Tennant Method
Yuheng YANG, Shengle CAO, Yang LIU ........................................................................ 740

The Research of the Water Supply Cost in Large-scale Water Transfer Project
Shengle CAO, Yufei CHENG, Xiuling SUN, Cuisong YU ....................................................... 748

Experiment Studies on Membrane Behavior of the Clay in Inland Shallow Salt Water Leakage Process
Mintian XU, Liting XING, Hua XIANG ........................................................................ 755

Optimization of Dye Intermediate Wastewater Treatment by Fenton Process
Ying GUO, Honghan CHEN, Hui WANG ........................................................................ 761

Critical Area Identification of Non-point Source Pollution in Small Watershed
Yang LIU, Shengle CAO, Yuheng YANG ........................................................................ 767

Analysis of Threshold Value and Development Degree of River System in Qingjiang River Basin
Miao ZHANG, Yanbing YUAN, Xiaohui YUAN, Yula WANG ................................................... 774

Parameter Identification in Groundwater Flow Modeling Using Support Vector Machine
Jing YANG, Zhonghua TANG ............................................................................ 780

Research on Climate Change with Grain Size Analysis and C-M Diagram in Shiyang River, Hexi Corridor Region
Liyuan WANG, Jie CHENG, Diange CONG ........................................................................ 788

~ X ~
An Overview of Recent Developments in Parallel Solution for Partial Differential Equation of Groundwater Simulation
Linxian HUANG, Liting XING, Zhenghe XU

Solidification/Stabilization Treatment for Heavy Metals Polluted Sediments from Urban River
Qin LIU, Jinjun YI

Chapter Fifteen: Mine Safety and Disaster Mitigation
Classification Code: 914 Safety Engineering

Risk Evaluation of Chagutan Debris Flow in Minxian, Gansu Province
Peng LI, Xi WANG, Peng DU

The Methods of Prevention for Coal Spontaneous Combustion by Microbial Technology
Erxin GAO; Cancan ZHI; Mengjie DING

The Well-water-level Observation Network for Earthquake Precursory in Mainland China
Chunyan FAN, Yuanyuan GAO, Dali JIN

Technology and Application of Mining Gas Disaster Prevention in Mine by Roof High Location Directional Drilling
Jun FANG, Quanxin LI

Study on Rainfall Thresholds for Triggering Major Geological Disasters in Guangxi Province of China
Lijie ZHANG

Data Application of China Earthquake Monitoring Networks in Landslide Field
Chunguo LIU, Xiaoli CHEN, Junyi FAN, Zhigang TAO

Chapter Sixteen: Geopark
Classification Code: 454 Environmental Engineering

Danxia Landform Landscape and Tourism Image Promotion of Mount Maling in Tancheng City, Shandong Province
Gang LI, Yuanfang WU, Quanke ZHAO

Evaluation of Low-carbon Tourism in Xingwen World Geo-Park Based on DPSIR Model
Sisi LIU, Yali WEI

Estimation of Tourism Industry Carbon Emissions and Its Decoupling Effect on Economic Growth in Xianning City
Min ZHANG, Juncheng ZHU, Guosong HE

A Comprehensive Evaluation of Geoheritages in Dunhuang Yardang National Geopark, Gansu
Hao CHU, Fadong WU

Quantitative Evaluation of Geological Heritages in Qinghai Lake National Geopark
Lilei ZHANG, Fadong WU

~ Xi ~
Geoscience Popularization and Tourism Development Strategy of Jingyu Volcanic Mineral Spring National Geopark in Jilin Province

Hongyan LIU, Fuheng YAN, Limin YANG
