**Chapter One: Urban and Regional Planning**

A New Method for Vulnerability Analysis and Application in Rural Dwellings
XinQiang YAO, Feng SHAO, BaiTao SUN, Qiang ZHOU .................................................. 1
Classification Code: 403 - Urban and Regional Planning & Development

Based on System Dynamics of Low-Carbon Economic Policy Research
JunJie WU ....................................................................................................................... 6
Classification Code: 454 - Environmental Engineering

The Indoor Thermal Environment of Chinese Residential Buildings and Its Inspiration to Modern Architectural Design
HaiYan YAN, DaoYi LI ....................................................................................................... 12
Classification Code: 403 - Urban and Regional Planning & Development

Research on the Application of Green Building Energy Efficiency Technology for Architectural Design of High-rise Residential Building
Yong ZHOU, Bo YANG ........................................................................................................ 18
Classification Code: 403 - Urban and Regional Planning & Development

A Brief Discussion on the Issues Encountered by BIM in Transfer Process from Design to Construction
Da YAN, HuaYing DING, Jun WU ....................................................................................... 22
Classification Code: 403 - Urban and Regional Planning & Development

Analysis on the Factors Influencing the Construction Cost of Industrialized Building
ChengCheng ZHANG, YongSheng ZHAO .............................................................................. 29
Classification Code: 403 - Urban and Regional Planning & Development

Research on Investment Decision Risk of Green Building Based on FMAHP
DeKun DONG, Yan SHI, Chen HOU ..................................................................................... 34
Classification Code: 403 - Urban and Regional Planning & Development

Analysis on the Change of the Residential Area’s Floor Area Ratio - Taking Guangzhou as an Example
ChangYong CHEN ........................................................................................................... 40
Classification Code: 403 - Urban and Regional Planning & Development

**Chapter Two: Architecture Design and Structure Engineering**

The Researches on Ultimate Capacity of RHS and SHS Stub Columns
LiYa LI, ChenHao LIN........................................................................................................ 56
Classification Code: 408 - Structural Design

Calculation and Analysis of Resonance Effect in Non-Multi-DOF System
Gong CHEN, Ling LI, HongMei YANG, QuFu QI .................................................................. 61
Classification Code: 408 - Structural Design

The Researches on Nonlinear Static Analysis of RC Beams by Shooting Method
HongWei HOU, XiangLi FU, XueJiang NING ........................................................................ 66
Classification Code: 408 - Structural Design
Structural Damage Detection Based on Continuous Ant Colony Optimization under Temperature Variations
ShaoXi CHENG, MinShui HUANG, HaiLin LU, Ning WANG ................................................. 74
Classification Code: 408 - Structural Design

Competition Model Design of Long Span Roof Structure
YuanBing CHENG, JiHao CHEN ................................................................. 82
Classification Code: 408 - Structural Design

Study of Shear Properties of Clay-Pile Interface Based on Artificial Neural Network
Jin YANG, Lina XU, Zhu LIU ................................................................. 86
Classification Code: 408 - Structural Design

Application of a New Type of Room Dehumidifying Air Conditioner with Adjustable Temperature in Transitional Season
XiaoPing MIAO, Huan WEI, Yi ZHANG ......................................................... 92
Classification Code: 402 - Residences

Chapter Three: High Rise Building and Towers

Study on the Theory, Technology and Application of Wind Simulation in Green Building
Bo SU, JiaQi WU, TianXiang WANG, GuoJun YU ......................................................... 97
Classification Code: 402 - Buildings and Towers

An Improved Fuzzy Neural Network Applied to Evaluating Energy-saving Cost in Public Buildings
WenYu ZHANG, Chang LIU, Zhen HE ................................................................. 102
Classification Code: 402 - Buildings and Towers

The New Method Study on the Inclination Deformation Monitoring of Tower Building
LongFei DUAN, HuaYang DAI, SiCong GUO, JiaQi LI ......................................................... 109
Classification Code: 402 - Buildings and Towers

Comparative Study on Planar Model and Three-Dimensional Model for Venlo-Type Greenhouse Structures
Tong WANG, BiYing DENG, Feng LIN ................................................................. 116
Classification Code: 402 - Buildings and Towers

Identification of Wind Load on High-rise Buildings by an Inverse Method
DaTao YU, Pan YU ......................................................................................... 124
Classification Code: 402 - Buildings and Towers

Research on Green Transformation of Existing Public Buildings Based on Cloud Model–TOPSIS
Yun HE, XianGuo WU, LiMao ZHANG ................................................................. 129
Classification Code: 402 - Buildings and Towers

Model of Diversity of Compact Living Space Based on Floor Area Ratio
ChangYong CHEN ......................................................................................... 136
Classification Code: 402 - Buildings and Towers

Optimization Design of Super High-rise Frame-Core Tube Structure
PeiCheng GUO, RenBo QUE ............................................................................. 142
Classification Code: 402 - Buildings and Towers

Shear Lag Effect of Continuous Curved Box Girder under Multi-Dimensional Seismic Excitation
ZhiGang ZHU, HaiLin LU, Heng CAI ........................................................................ 146
Classification Code: 402 - Buildings and Towers
Chapter Four: Bridges Construction
Numerical Analysis on Characteristics of Acoustic Emission Signals in Bridge Cables Based on Semi-Analytic Finite Element Method
YaoHua YANG, LiMin SUN ................................................................. 151
Classification Code: 401.1 - Bridges

Study on The Response of Temperature to The End Displacement of Suspension Bridge
GuoPing HUANG, Shuai TAN ............................................................... 157
Classification Code: 401.1 - Bridges

Analysis on Stability of Continuously Concreting of Nanpanjiang Bridge with Fastening Stay Method
ChunJiao LIN, Xiang LI, Gang WEI ...................................................... 163
Classification Code: 401.1 - Bridges

Design of Preventive Maintenance Technique System of Hutong Changjiang River Bridge
ShuLi CHEN, WeiGang ZHAO, Hao ZHANG, Bin YAN ............................ 168
Classification Code: 401.1 - Bridges

Experimental Study on Friction Loss and Elongation of Circular Prestressing Tendon in Pylon Anchorage Zone of Long Span Cable-stayed Bridge
Lu SHEN, Ting PAN, WenLiang QIU ................................................... 175
Classification Code: 401.1 - Bridges

The Study on Bridge Semi-active Control for Pier-Beam Transverse Vibration with Variable Damper
JianGuo XU, SongLing YU, Bo WANG .................................................. 179
Classification Code: 401.1 - Bridges

Numerical Analysis on Pseudo-static Test of Segmental Box Girder Dry Joints
YaJun JIANG, XiaoBing SONG, HongLun CHEN .................................... 188
Classification Code: 401.1 - Bridges

Study on the Reasonable Valve Closing Procedure for the Two-stage Closing Butterfly Valves in a Long-Distance Water Pumping System
TianZhu YAN, YanHe ZHANG, XiaoZhou LI ...................................... 194
Classification Code: 446 - Water Works

Study On Simulation And Prediction Of Bridge Load Effect Based On The Rice Formula
JunPing ZHANG, HaiYun HUANG, WangXi XU, DeZhi HUANG .................. 204
Classification Code: 401.1 - Bridges

Traveling Wave Effect on Seismic Response of Cable-stayed Bridge under Long-period Ground Motion
BaiBen CHEN, ZhongRen FENG, HuiMin YOU .................................... 208
Classification Code: 401.1 - Bridges

Installation Accuracy Control Method of External Slanted Camber Composite Bridge
YunJie CHEN, ZhenLin CHEN, ChunFeng AO ...................................... 217
Classification Code: 401.1 - Bridges

The Calculation Method of Ship Collision Force for Single Pile Foundation Considering Pile and Soil Effect
JianBo LIU, YanHua YANG ................................................................. 225
Classification Code: 401.1 - Bridges

A in Situ Assessment Method for RC Bridges After Fatigue Damage
Ming ZHONG ................................................................. 231
Classification Code: 401.1 - Bridges
## Chapter Five: Tunnel and Underground Engineering

### Probabilistic Analysis of the Face Stability of a Shield Tunnel Using Random Field Theory
-HongZhan CHENG, Jian CHEN, JueHao HUANG-

Classification Code: 401.2 Tunnels and Tunneling

### Design and Research on Key Technology of Nanjing Weisan Road Underwater Tunnel across the Yangtze River
-YongFei TUO, Ying ZHU, Heng SHU, QingLong CUI-

Classification Code: 401.2 Tunnels and Tunneling

### Analysis of the Cracks Causes in the Frame Column and Roof of a Super-sized Underground Garage
-ShiFeng FU, TieChun LI, Kai FAN-

Classification Code: 454 - Environmental Engineering

### Study on Ground Vibration Induced by Subway Dynamic Loads with Indirect BEM
-Bo ZHANG, ZhanXue ZHOU, LiJun QIU-

Classification Code: 401.2 Tunnels and Tunneling

### Service Life of Subsea Tunnels under Interaction of Chloride Ion Corrosion and Carbonation
-QingLi ZHAO, LiMin LU-

Classification Code: 401.2 Tunnels and Tunneling

### Financing Risk Analysis of PPP Project of Pipe Gallery
-LiXin ZHANG, ShaSha LIU, YuXan DA-

Classification Code: 401.2 Tunnels and Tunneling

### Optimal Analysis of Construction Schemes for Tuanshan Small Clear-Distance Tunnel
-MeiFang SHEN, JunChao DUAN, XianGuo WU-

Classification Code: 401.2 Tunnels and Tunneling

### Deformation Analysis on Metro Shield Tunnel Under-crossing Railway Box Culvert
-Lei WANG, XiaoLei WANG-

Classification Code: 401.2 Tunnels and Tunneling

### Research on Initiation Stress of Jointed Rock Mass under Triaxial Compression Test
-Hang ZHAO, Qing DONG, XuHui YING-

Classification Code: 401.2 Tunnels and Tunneling

### Fire Evacuation of Subway Station Based on FDS and Pathfinder
-Bowen LI, XiangGuo WU, LiMao ZHANG-

Classification Code: 914.2 - Fires & Fire Protection

### Modeling for Thermal Inertia of Large Scale Heating Supply System under Peak Power Regulation
-QingSheng BI, DengChao LI, Kan ZHU, Xue HAN, LiShen CHU-

Classification Code: 402.3 - Residences

### Selection of Technical Scheme for Energy Saving Retrofitting of Public Buildings in Northern Heating Areas
-Jing LIU, Fang WANG-

Classification Code: 402.3 - Residences

### Application of a New Evaporative Cooling Tower in Underground Engineering
-Yi ZHANG, XiaoPing MIAO, ZiJie WEI-

Classification Code: 401.2 Tunnels and Tunneling

### Anti-Floating Anchor Monitoring and Load-Bearing Mechanism Analysis of Large Underground Engineering
-XuMing ZHAO, FenXu LI, Lei SHI, ZhenQi MA, ShiBo JIN, QuanBing YANG-

Classification Code: 401.2 Tunnels and Tunneling

---

*Classification Code:* 401.2 Tunnels and Tunneling
### Chapter Six: Road Construction

#### Based on the BP Neural Network Algorithm of Highway Engineering Cost Data Analysis
*HongChuan WANG, ZhiHai LANG, LiPing WU*

Classification Code: 406 - Highway Engineering

Page 331

#### Modelling the Creep-Recovery Behavior of Fly Ash Concrete
*Jian CAO, LiangFang LIU, XueBin JIA*

Classification Code: 406 - Highway Engineering

Page 338

#### Prediction of South Australian Road Fatalities for the Year 2020
*Xin ZOU, JingYu CHEN*

Classification Code: 406 - Highway Engineering

Page 343

#### Study for Method of Setting-Out Circular Curve in Space Constrained Condition
*LiJun QIU, Bo ZHANG, ZhanXue ZHOU*

Classification Code: 406 - Highway Engineering

Page 354

#### Investigation and Analysis on Asphalt Pavement applied in Long and Steep Longitudinal Slopes – Case Study from North-South Expressway Project, Algeria
*GanMing YI, XiaoZu TAN, BingQiang MA, Enkuan TANG*

Classification Code: 406 - Highway Engineering

Page 357

#### Automatic Light-pole Detection in Mobile LiDAR Point Clouds
*Liang ZHONG, Xuan TANG, HaiYan GUAN, YongTao YU*

Classification Code: 406 - Highway Engineering

Page 367

#### Real-Time Path Planning Application Development Based on The Android Platform
*Xi LEI, ShenPei ZHOU, ZeYu ZHU*

Classification Code: 406 - Highway Engineering

Page 373

#### The Advantages of PPP Model Application in The Highway Construction and Discussion and Research of The Management after The Expiration
*Wang YAN*

Classification Code: 406 - Highway Engineering

Page 378

#### Failure Fault Diagnosis Based on Polymorphic Bayesian Networks EPB Shield Cutter
*YanYu WANG, XianGuo WU, LiMao ZHANG*

Classification Code: 406 - Highway Engineering

Page 384

#### Analysis of Static Earth Pressure Acting on Road Shoulder’s Retaining Wall in Mountain Area Based on Excited Internal Friction Angle
*ZhongRun FU, HuiRu LUO*

Classification Code: 406 - Highway Engineering

Page 390

#### Damage and Fracture Simulation of Asphalt Mixture under Direct Tension with Mesoscale Model
*GuoWei ZENG, Fan BAI*

Classification Code: 411.1 - Asphalt

Page 396

#### An Improved TCP Timeout Retransmission Algorithm
*ChengQian MA, PengLin LV, Feng XIONG*

Classification Code: 432.4 - Highway Traffic Control

Page 401

### Chapter Seven: Railway and Subway Construction

#### Structure Performance Testing of the Precast Layered Assembled Noise Barrier Pillar
*Wei QI, Hao GENG, Na FU*

Classification Code: 420 - Building Materials Properties and Testing

Page 408
Experimental Study on Accumulated Plastic Strain of Ningbo Clay under Cyclic Loading in Partially Drained Condition
JueHao HUANG, Jian CHEN, HongZhan CHENG ................................................................. 416
Classification Code: 433 - Railroad Transportation

Experimental Study on Ground Vibration Induced by Freight Railway Operation
Jie DONG, HongYun CHEN, ChenChen JIA, ZhiHui WU ....................................................... 423
Classification Code: 433 - Railroad Transportation

High Temperature Deformation and Damage Mechanism of CRTS II Ballastless Track on High Speed Railway
Hu ZHAO, Li SUN, XuYi LIU ................................................................................................. 429
Classification Code: 433 - Railroad Transportation

Research of Ambient Temperature Control Method of Artificial Cultivation of Dendrobium Candidum
Lan LI, Peng LV, ZhiJun LI .................................................................................................... 434
Classification Code: 402.1 - Chemical Plants & Equipment

Research on the Benefit of Wagon Loading by Through Trains from the Place of Loading by Calendar
Bin ZHANG, Tao ZHU, SiJi HU ............................................................................................. 440
Classification Code: 433 - Railroad Transportation

Numerical Simulation and Measurement of Grouting Reinforcement Applied to Qingdao Metro Line 3 Passing Through A Mall
DongYang LI, ZAiAn ZHU, Qiang ZHANG, GuangHui LI, Han LI, YongWang LEI ...................... 449
Classification Code: 401.2 Tunnels and Tunneling

Research on Train Operation Plan and Recombining Wagons Flows Based on Technical Stations Formation Plan
ZhengQiang CHENG, Tao ZHU, SiJi HU ................................................................................ 455
Classification Code: 433.4 - Railroad Traffic Control

Research on the Capacity of the Escalator in Subway Station
Lu YU ..................................................................................................................................... 460
Classification Code: 433 - Railroad Transportation

New Steel Structure for Roof of East Hangzhou Railway Station
DeLiang ZHOU ...................................................................................................................... 464
Classification Code: 433 - Railroad Transportation

Chapter Eight: Power Plant and Electricity Transmission
Numerical Analysis of The Uplift Bearing Characteristics of The Hole Digging Foundations in Overhead Transmission Line Project
XiaoDong PAN, Nan ZHOU, HuaGang YUE ........................................................................ 470
Classification Code: 483.2 - Foundations

Field Measurement on Natural Frequencies of Gan-Type Transmission Tower Based on Ambient Excitation
WenPing XIE, PengYun LI, Deng YANG .............................................................................. 476
Classification Code: 706 - Electric Transmission and Distribution

Investigation on Frequency Sensitivity of Young’s Modulus of A Transmission Tower
Ming SI, HaiFeng CHENG, GuoHua CHEN ......................................................................... 481
Classification Code: 706 - Electric Transmission and Distribution

Cold and Hot Electricity Trigeneration Systems Controlled base on Internet of Things
QingSheng BI, DengChao LI, ZhengGuo JIA ......................................................................... 487
Classification Code: 706 - Electric Transmission and Distribution
Research on Seismic Ductility, Hysteretic Curve Characteristics and Horizontal Ultimate Bearing Capacity of Turbine Generator Foundation
XinJia ZANG, Dong AN, TieJun QU ................................................................. 492
Classification Code: 705.2 - Electric Generators

The Design of Electric Energy Improvement Integration System Based on Neutral Network Learning
WenLiang XIE, Jing CHEN, XingYu SONG ...................................................... 497
Classification Code: 706 - Electric Transmission and Distribution

Chapter Nine: Hydraulic Development, Water Resources and Ocean Engineering
The Construction of the Mechanics Constitutive Model of Ice
XiaoYu HAN, YingKui GUO .......................................................... 503
Classification Code: 441 - Dam and Reservoirs; Hydraulic Development

Study on Construction Technology and Quality Control of Abutment Slot Excavation in Wudongde Hydroelectric Power Station
Ming MING, Gang DING, Zhao LIU .......................................................... 510
Classification Code: 441 - Dam and Reservoirs; Hydraulic Development

Selection of Pipe Diameter for Long-distance Pumping Water Conveyance Project
JinMei CHANG, ManLin ZHU, XiaoMin WANG ........................................... 517
Classification Code: 446.1 - Water Supply Systems

Study on Slope Stability under Continuous Heavy Rainfall
LianYue RAN, XianGuo WU, JunChao DUAN .............................................. 524
Classification Code: 442.1 - Flood Control

Slope Seepage Field Simulation and Reliability Analysis under Heavy Rainfall Condition
Shu XIAO, Qiang LI, GuoDong LIU, Ran MAO, WeiBo WANG .................... 530
Classification Code: 442.1 - Flood Control

Dynamic Stability Analysis of Reservoir Slope Based on Water Weakening Effect
WeiDa NI, MiaoJun SUN ................................................................. 535
Classification Code: 441 - Dam and Reservoirs; Hydraulic Development

Design and Hydrodynamics Research of an Artificial Reef
ShaoJie JIANG, HaiDi LIU, Wei WU ....................................................... 542
Classification Code: 472 - Ocean Engineering

Structural Analysis of the Pile Foundation Construction Platform in Deep Water Torrent and Exposed Rock
Lei ZHANG, JianBo LIU ................................................................. 548
Classification Code: 472 - Ocean Engineering

Experimental Study on Wave Dissipation Coefficient for Semi-Submersible Flexible Floating Raft
WenJian DONG, ZiChang SHANGGUAN, YuHang LIU ............................ 555
Classification Code: 472 - Ocean Engineering

Deformation Evolution Characteristics of the GougeDian Landslide in the Three Gorges Area
MiaoJun SUN, WeiDa NI, MingYuan WANG, ZhiGang SHAN .................. 561
Classification Code: 441 - Dam and Reservoirs; Hydraulic Development

A Study on the Framework of Smart Construction Management System in Offshore Reef
QianKun WANG, Peng LI ............................................................. 566
Classification Code: 472 - Ocean Engineering
Chapter Ten: Energy Management and Mining

Technology Progress about the Prevention of Coexisted Hazards of Gas and Spontaneous Combustion
Yu HAO, LongJun XU, Wei LU, ZhengHui WANG ................................................................. 573
Classification Code: 525 - Energy Management

Study on Dynamic Performance of the Supporting Structure for Wind Power
Wen LIU, TingSheng ZHAO, Wei ZHOU ................................................................. 580
Classification Code: 615.8 - Wind Power

Finite Element Analysis of Luanxian - Laoting Fault in Gas Transmission
Jiang LI, HongLei WANG, QiuNa GUO ................................................................. 586
Classification Code: 525 - Energy Management

Numerical Simulation and Verification of The Loose Dumping Limiting Height
GaoMin LIU, YouLiang ZHANG, DengXue LIU ................................................................. 592
Classification Code: 500 - General Mining Engineering

Model Predictive Direct Power Control Strategy for PV Grid-Connected Inverter Based on Virtual Flux
ZiXin XIANG, Jing CHEN, Yi DENG ................................................................. 601
Classification Code: 615.2 - Solar Power

Analysis on Blasting Vibration Signal by Wavelet Transform and Hilbert-Huang Transform in Taishan Nuclear Power Station
YongQing ZENG, HaiBo LI, ChangBo WANG, Xiang XIA, YaQun LIU, Hong ZUO ........................................ 606
Classification Code: 613.2 - Nuclear Power Plant Equipment & Operation

Effects of Ultrasonic Irradiation on The Thermal Physical Properties of 1-Octadecanol/Graphite Additives Composite Phase Change Materials
Jun XU, XiaoMin CHENG, YuanYuan LI, GuoMing YU .................................................. 612
Classification Code: 616 - Heat Exchangers

Design and Research of a Large Span Dry Coal Shed
SiYu ZHU, JianLin ZHANG ................................................................. 618
Classification Code: 500 - General Mining Engineering

Chapter Eleven: Soil Mechanism and Foundation

Experimental Study on Vibration Characteristics and Dynamic Response of Spring Vibration Isolation Foundation on Site
Dong AN, YuLong LIU, TieJun QU ................................................................. 623
Classification Code: 483.2 - Foundations

Application of HS-Model in Deep Excavations in Shenzhen Soft Soil Area
LongLiang WU, HaiTao DUAN, Heng QIU ................................................................. 629
Classification Code: 483.1 - Soils & Soil Mechanics

Research on Seepage Volume Calculation of Foundation Pit with Drop Waterproof Curtain
XiaoLa FENG, JiaoJiao CAI, ZongHai XIONG ................................................................. 635
Classification Code: 483.2 - Foundations

Effect of Basalt Fiber on Compressive Strength of Cement Soil
JianLin HU, NaiFu CUI, YuDong ZHANG ................................................................. 643
Classification Code: 483.2 - Foundations

Research on Permeability Rule of Foundation Pit and Water Leakage with Drop Waterproof Curtain
XiaoLa FENG, ChengHong ZHENG, Zhen WANG .................................................. 648
Classification Code: 483.2 - Foundations
Proceedings of The 3rd Academic Conference of Civil Engineering and Infrastructure Research

The Research on Optimization Design of Deep Foundation Pit Support Distance Based on Numerical Simulation
Guishuai FENG, JingLei LIU, YiFeng WANG ............................................................... 656
Classification Code: 483.2 - Foundations

Research on Propagation Law of Stress Wave in Jointed Rock Mass under In-situ Stress
Qian DONG, Hang ZHAO, JiSong HONG ................................................................. 661
Classification Code: 483.2 - Foundations

Study on the Two-time Reinforcement Methods for Deep Foundation’s Excavation Based on the Space Effect
Lei WANG, XiaoLei WANG .................................................................................. 668
Classification Code: 483.2 - Foundations

Study on Forming Mechanism of Bored Piles Bottom Sediment Material and Measuring Method
ZengQiang HAN, ChuanYing WANG, Sheng HU, XianJian ZOU ................................ 676
Classification Code: 483.2 - Foundations

Experimental Study of The Application of Sodium Silicate in The Windbreak and Sand Fixation Engineering
HaiLong WANG, Jing SUN, LiQun ZHANG ................................................................. 683
Classification Code: 483 - Soils & Soil Mechanics

Theoretical Study on Coordinating Effect of Anti-sliding Pile with Prestressed Anchoring Cables
TaoYang SU, YaHui XIN, TengJun GAN .................................................................... 687
Classification Code: 483 - Soil Mechanics and Foundations

The Research on Bearing Behaviors of Single Pile in Calcareous Sands Foundation Based on Model Experiment
Chao YANG, SongHua MEI, Ren WANG .................................................................. 694
Classification Code: 483.2 - Foundations

A Constitutive Model of Principal Stress-stain of Rock and Soil
YingFa LU .............................................................................................................. 702
Classification Code: 483 - Soil Mechanics and Foundations

Chapter Twelve: Seismology Research and Disaster Mitigation

Seismic Responses Analysis of Parallel Composite Isolated Structure
ChenHui WANG, XiuLing CAO, Ying YUAN ............................................................ 712
Classification Code: 484 - Seismology

Research on Seismic Fragility of the Isolated Girder Bridge Base on Performance under Near-Fault Ground Motions
Qiang LIU, MiaoFang WANG ................................................................................... 717
Classification Code: 484 - Seismology

Numerical Analysis of H-Type Combined Anti-Sliding Pile
Shun YU, HaoFeng XING ...................................................................................... 722
Classification Code: 405.2 - Construction Methods

Experimental Seismic Performance Research on a New Assembled Monolithic Column Joints
YuLiang WANG, JinTao CUI ................................................................................... 727
Classification Code: 484 - Seismology

The Characters of Frequency-Spectra and Amplification Coefficient of Ground Motion Caused by Lushan Earthquake
YuZhu BAI ............................................................................................................ 732
Classification Code: 484 - Seismology

Classification Code: 431.4 - Airports  

Combination Application of FWD with GPR in The Detection and Evaluation of Airport Pavement  
JiXiang SU, Wen ZHANG .................................................................................. 898  
Classification Code: 431.4 - Airports  

Comparative Study on the Corrosion and Freeze-thaw Durability of Aircraft Deicer and Airfield Pavement Deicer  
DaoXun MA, Yan LIU, Xin SU, Yong LAI, Peng WANG .......................................... 905  
Classification Code: 902.1 - Engineering Graphics  

An Efficient Way for Indoor Localization with Content-based Image Retrieval Algorithm  
Yuan XIAO, ShengWu XIONG, Li LI ................................................................. 911  
Classification Code: 902.1 - Engineering Graphics  

Application of 3D Laser Scanning Technology In Engineering Project Based on BIM - A Case Study of Lenovo Wuhan R & D Center Project  
ShuQiang WANG, Jian CHEN, QiHui ZHOU ...................................................... 918  
Classification Code: 902.1 - Engineering Graphics  

Research on Structural Dynamic Performance Based on Fiber Optic Sensor Experiment  
JingNan YANG, XiongJun HE, JingJing XU .......................................................... 924  
Classification Code: 743.1 - Opticle Devices $ Technology  

Biogeography-based Optimization Algorithm Based on Crossover Operator of Genetic Algorithm  
YunJun WANG .................................................................................................. 929  
Classification Code: 405.2 - Construction Methods  

Research on the Vibration Control of Piezoelectric Intelligent Plate by using Spline Finite Point Method  
Lin DENG, Peng LIU, Dong CHEN .................................................................... 934  
Classification Code: 732 - Control Devices  

The Study about Large Air Cooled Condenser Platform Structure with Buckling Restrained Braces  
LiGai LING, XiangYu GAO, YangLong LI .......................................................... 944  
Classification Code: 405.2 - Construction Methods  

Chapter Fifteen: Airport Construction and Military Engineering  

Analysis of Overpressure Distribution behind HB Wall based on Autody  
ZhiGang ZHANG, HuanMin YAN, MingZhao LI ................................................ 949  
Classification Code: 404.1 - Military Engineering  

Prediction of Aircraft Accident Rate Based on GA - BP Neural Network  
YuanJin ZHANG, HuaWei WU, Feng LI ............................................................... 955  
Classification Code: 404.1 - Military Engineering  

The Dynamics Analysis of Suspension Missile Launching  
Han YAN, FengChao ZHANG, WeiDong CHEN, ShengZhuo LU, JingXin MA .... 961  
Classification Code: 404.1 - Military Engineering  

Resources Game between Risk Transmission Paths of Accident Network  
JianWei FENG ................................................................................................... 973  
Classification Code: 404.1 - Military Engineering
The Design and Implementation of Low-cost Two-axis Gimbal
Qiang WEN, Wei LIN ....................................................... 978
Classification Code: 652.3 - Aircraft Instruments & Equipment

Resilience Assessment of Critical Infrastructure Systems under Deliberate Attack
BingPing LIU, DongJun GUO .................................................. 983
Classification Code: 404 - Civil Defense and Military Engineering

Chapter Sixteen: Project Management
Hardware Trojan Detection Method Evaluation Based on The ROC Curve
Lu XU, XiongWei LI, Yang ZHANG ........................................ 990
Classification Code: 912.2 - Management

Calculation of Contribution Rate of Construction Technology Progress Based on Cobb-Douglas Production Function
ShuMing XU, Wen LIU, Wei ZHOU, JingJing TANG, TingSheng ZHAO ........................................ 1001
Classification Code: 912.2 - Management

A Model for Preventing Construction Project Collusion Tender Based on Clustering Analysis and Random Allocation
ShiLian ZHANG, YuHe WANG, YuXuan WANG, Xian WANG ........................................ 1007
Classification Code: 912.2 - Management

Analysis on Method to Extract Engineering Project Management Index
XueLiang HOU, Yuan WANG .................................................. 1012
Classification Code: 912.2 - Management

Study on BIM-based 5D Construction Management System of Urban Viaduct
Ming TANG, ZiQiao CHENG, HaiSong PENG ........................................ 1017
Classification Code: 912.2 - Management

Research on Collaborative Mechanism of Design and Construction Based on BIM Technology and Application of Typical Cases
JinSong TU, RuiXia LI, HaiYu GE .................................................. 1024
Classification Code: 912.2 - Management

Feasibility Analysis for IPD Principle in China Construction Industry
TingTing MEI, QianKun WANG, YaPing XIAO ........................................ 1031
Classification Code: 912.2 - Management

The Study on the Operation Mechanism of Prefabricated Construction Business Model Based on Industry Internet
Wan YOU, BinBin LU ............................................................ 1039
Classification Code: 912.2 - Management

Research on Lean Cost Management Model Based on Multi - Objective Constraint
Chun LIU, Nan CUI ............................................................. 1045
Classification Code: 912.2 - Management

Research on Spatio-temporal Representation of Social and Humanities Information under Multiple Perspectives
Ping FENG, MeiChun LIU ........................................................ 1051
Classification Code: 912.2 – Management
