Vol. 75, No. 18
Table of Contents

Preface

Chapter 1
Li Ion Batteries - Systems, Analysis and Modeling

Implementation of Unscented Kalman Filter-Based Online State-of-Charge Estimation in LiFePO₄ Battery-Powered Electric Vehicle Applications
B. Huang, C. Wang, Z. Zhu, Y. Shen, Y. Xiao

Chapter 2
Redox Flow Batteries

Fabrication and Characterization of Electrospun Electrodes for Flow Battery Electrodes
S. P. Liu, M. Kok, J. T. Gostick

Improved Performance of Ti/Mn Redox Flow Battery by Thermally Treated Carbon Paper Electrodes

Characterization of Carbon Materials for Redox Flow Battery Electrodes by Voltage-Step Coulometry
Y. Sato, A. Narita, Y. Kaneko, A. Negishi, K. Nozaki, T. Kato

Arrhenius Variation of Precipitation Time for V⁵⁺ in Vanadium Flow Batteries

Development Strategy and Comparison of a Novel Flow Field Design for Redox Flow Battery
D. Fofana, E. Roberts
Chapter 3
Air Batteries and Fuel Cells

Development of Aluminum-Air Battery Using an Ionic Liquid Electrolyte Solution
_T. Oguma, K. Azumi_

83

Chapter 4
Poster Session

Photo-Potential Property of TiO$_2$ Electrode Prepared by the Screen Printing Method
_F. Watanabe, S. Motoda, M. Morita_

93

Nitrogen-Doped Porous Carbon with High Degree of Graphitization Derived from Silk Cocoon for Lithium-Sulfur Batteries
_M. W. Xiang, H. Liu_

101

Development of Iron-Based Rechargeable Batteries with Sintered Porous Iron Electrodes
_K. Hayashi, Y. Maeda, T. Suzuki, H. Sakamoto, T. Kugimiya, W. K. Tan,
G. Kawamura, H. Muto, A. Matsuda_

111

Effect of Chloride on Anodic Dissolution of Aluminum in 4 M NaOH Solution for Aluminum-Air Battery

117

Characteristics of Double Layered TiO$_2$: Anode Assembling to Marine Microbial Fuel Cell
_S. Motoda, M. Morita, S. Tamura_

133

Chapter 5
Aqueous Systems

pH-Controlled Synthesis of Electrolytic Manganese Dioxide Materials for Alkaline MnO$_2$/Zn Batteries
_F. Nesvaderani, A. Bonakdarpour, D. P. Wilkinson_

147

Impact of BaSO$_4$ Additive on the Cycling Performance of MnO$_2$/Zn Alkaline Batteries
_A. Bonakdarpour, S. Mehta, W. Xi, G. Afonso, D. P. Wilkinson_

155
Chapter 6
Lithium Metal and Lithium/Sulfur

Electrochemical Properties of Porous V$_2$O$_5$/Sulfur/Carbon Composite Electrode Prepared Using a Combination of Aerosol and Powder Technologies
K. Long, I. Taniguchi
