10th International Conference
Interdisciplinarity in Engineering
(INTER-ENG 2016)

Procedia Engineering Volume 181

Tirgu Mures, Romania
6-7 October 2016

Part 1 of 2

Editors:

Liviu Moldovan               Adrian Gligor

ISBN: 978-1-5108-4017-1
# TABLE OF CONTENTS

## PART 1

**Foreword Innovative Green Engineering Solutions that Increase Technological Processes Efficiency** ................................................. 1  
Liviu Moldovan

**Green Engineering Solutions at Propulsion of Passenger Cars** ........................................................................................................... 4  
Csaba Blaga, Bence Eckl

**The Smart City Concept in the 21st Century** .............................................................................................................................................. 12  
Mircea Ermis, Lucian Toma, Mihai Sanduleac

**Technological Problems Regarding the Design and Execution of the New Bridge Over Cibin River in the City of Sibiu and the Bridge Impact in Reducing Pollution in the City Center Area** ............................................................................................................. 20  
Mihai Iliecu, Ştefan I. Gutiu, Catalin Moga

**The Assessment of the Probabilistic Burst of Honed Steel Pipes Based on Elastic Plastic Behavior** ...................................................... 28  
Siancia Mariana Dominica, Curtiu Ioan, Szasz Matyas

**Classification of the Elderly Foot Types Based on Plantar Footprints** .................................................................................................................. 36  
Marian Costea, Bogdan Sarghie, Aura Mihai, Elena Rezus

**Sustainable Development and Green Growth: Study of Lafayette Central Park Proposed Master Plan, USA** ............................................. 44  
Heczem Eldeeh

**Slope Stability of Railway Embankments** ............................................................................................................................................... 52  
Madafina Ciociaus, Gavril Kolto, Dorin Moldovan, Laviniu Muntean

**Study on the Stability of a Road Fill Embankment** ............................................................................................................................. 60  
Dorin-Vasile Moldovan, Andor-Csorgor Nagy, Laviniu-Elena Muntean, Madafina Ciociaus

**Influence of the Maintenance Work and Support Conditions on the Optimization Process of Railway Concrete Sleepers** ................................................................................................................... 68  
Stahdake Antila Killo, Antila Parkas, Gavril Kollo

**Assessment of Structural Foundation’s Contribution to the Stability of a Site Susceptible to Sliding** ...................................................... 76  
Ioan Tuns, Marius Muntelescu

**Comparative Multi-Criteria Risk Analysis Applied to both Conventional and Green Technologies** ...................................................... 84  
Olga Bucovetchi, Radu D. Stanciu, Roland Pulfer

**Major Causal Factors Influencing Footwear Construction Parameters for Elderly People** ............................................................................. 90  
Dana Corina Deselnicu, Elena Mirela Pantazi, Anca Alexandra Purcarea, Gheorghe Militaru

**Multi-Criteria Analysis of Biomechanical Parameters Used for Developing Innovative Products** ...................................................................... 96  
Deselnicu Dana Corina, Pantazi Elena Mirela, Costea Mariana, Purcarea Anca Alexandra, Militaru Gheorghe

**Life Cycle Assessment of Dredged Materials Placement Strategies: Case Study, Damietta Port, Egypt** .................................................... 102  
Mahmoud Shararen, Abdelazim Negm

**Study on the Optimization of Some Lime Based Mixing Binders’ Characteristics** ............................................................................ 109  
Mircea Rujani, Liviu Iordachia Ducoana, Dumit Traian Barbior, Liviu Groll, Diana Plian

**Urban Mobility and Road User Behavior Assessment** .................................................................................................................................. 116  
Mihaiela Condrat, Alina Mihaela Nicuta, Radu Andrei

**Environmental Impact of Road Transport Traffic. A Case Study of County of Iasi Road Network** .......................................................... 123  
Mihaiela Condrat, Alina Mihaela Nicolata, Radu Andrei

**Study on the Acoustic Rehabilitation of an Educational Building** ........................................................................................................... 131  
Constantin Munteanu, Daniela Roxana Tamas-Gavrea, Nicoleta Cobirzan, Claudiu Acius, Raluca Fernea, Luciana Demeter

**Improving Traffic Conditions on a Set of Three Intersections Using Microscopic Simulation Models** .................................................. 139  
Andrei-Florin Clitan, Mihai-Liviu Mihai, Liviu-Dragomir Ciociaus, Madafina Madafina, Ilusca-Mirela Becu, Gavril Hoda

**Kinetics Properties of Marine Chitinase from Novel Red Sea Strain of Bacillus** ..................................................................................... 146  
Radu Mihai, Valensin Saimin, Ioana Monica Sax-Boca, Mariana Tintelecan, Ioana Monica Sax-Boca

**Development of Helical Teethed Involute Gear Meshed with a Multi-Edge Cutting Tool Using a Mixed Gear Teeth Modeling Method** ................................................................................................................. 153  
Ferenc TolvaJos, Márton Maláos, Zoltán Forgó, Andráss Kakuscs

**Fatigue Assessment and Behavior of a Shell Steel Element Welded Joint** ............................................................................................... 159  
Dorin Radu, Teofili-Florin Galata, Daniel Tant

**Determination of Tangency Point Between the Cylindrical Sharp Stylus and a Helical Surface of the Cylindrical Worm** .......................................................................................................................... 167  
Cristian Albu

**Advanced Helioplot/Stratimat Composite Laminate Material Behavior under Cyclic Bending Loads** .................................................. 175  
Arina Modrea, Horatiiu Teodorescuc-Draghicescu, Ioan Sava, Renata Sava, Botond Galfi

**Comparative Anthropometric Study Regarding the Foot of Elderly Female Population** ........................................................................... 182  
Bogdan Sarghie, Aura Mihai, Mariiana Costea, Elena Rezus

**The Wire Drawing Process Simulation and the Optimization of Geometry Dies** .................................................................................. 187  
Ioana Monica Sax-Boca, Marius Tintelecan, Ioana Monica Sax-Boca, Dana-Adriana Ilisiu-Varvara, Adriana Maria Mihu

**The Influence of the Dies Geometry on the Drawing Force for Steed Wires** .......................................................................................... 193  
Marius Tintelecan, Ioana Monica Sax-Boca, Dana-Adriana Ilisiu-Varvara

**Pneumatic Vehicle, Research and Design** .............................................................................................................................................. 200  
Mihai Simon

</table>
Critical Assessment of CO₂ Emissions in an Inhabited Room on the Basis of the Stress Theory ................................................................. 425
Lucian Cîrcu, Paraschiva Miogean, Razvan Calota, Alina Grig, Anica Iliu

Artemisia annua L. Culture Technology in the Climatic Conditions in Transylvania .................................................................................. 433
Ioan Aurel Pop, Ioan Orisan, Iustina Lobontiu, Zuzsa Friss

Research on the Chemical Characterization of the Oily Mill Scale for Natural Resources Conservation .............................................. 439
Dana-Adriana Ilutiu-Varvara, Claudiu Acu, Elena Maria Pica, Cornel Sava

Comparative Study on Soil Stabilization with Polyethylene Waste Materials and Binders ................................................................. 444
Nicolea-Maria Iliu, Alexandra-Petru Circa, Andor-Csontor Nagy, Vlad-Costel Ciubotaru, Zsombor Kislafaladi-Bak

Raising Awareness on Waste Generation and Collection ................................................................................................................................. 452

Transient State of Transformers Modelling and Study ................................................................................................................................. 459
Katalin Agoston

Detection of Sugar Content in Citrus Fruits by Capacitance Method ........................................................................................................... 466
Ajit A. Bhosale

Evaluation of Experimental and Numerical Simulation of Triaxial Geogrid Reinforcement on the Strength of Road Structures ...................................................................................................................... 472

AI Technologies in Green Architecture Field: Statistical Comparative Analysis ................................................................................................................. 480
Ghada Eldhafie, Abdelazim Negm

Analysis of the Possibility to Implement ZigBee Communications in Road Junctions .................................................................................. 489
Razvan Andrei Gheorghiu, Valentin Iordache

A Novel Multiband Patch Antenna Array for Satellite Applications ........................................................................................................ 496
Khalid Haïti, Nizar Benhab, Abdelrah El Hajjaji, Hassam Asselam

Simulation Based Human-robot Co-working ........................................................................................................................................... 503
Szabolcs Szőti, Zoltán Forgó, Ferenc Tóth-Vályi-rosca

Computational Dynamics of the Rotational Heavy Loads Mastered by Hydrostatical Driving Systems .......................................................... 509
Laurentiu Cardumian, Silviu Nastac, Carmen Debelec, Mircea Modiga

On Path Oscillations Analysis of Mechanical Multi-body and Hydrostatics Driving Units Coupled System ................................................ 518
Laurentiu Cardumian, Carmen Debelec, Silviu Nastac

Design and Analysis of Different Shapes for Unit-Cell Reflectarray Antenna ......................................................................................... 526

Investigation on Selection of Optimal Mother Wavelet in Mode Shape based Damage Detection Exercise .................................................. 531
Naresh G. Jairwal, Deepak W. Pande

PART 2

Fractional Order Controllers Versus Integer Order Controllers .................................................................................................................................. 538
Mircea Dulau, Adrian Gligor, Tudor-Mircea Dulau

Web-based Wireless Sensor System for SCADA Environment ...................................................................................................................... 546
Traian Tarc, Adrian Gligor, Cristian-Dragos Dumitru

Analysis of a RBF Neural Network Based Controller for Pitch Angle of Variable-Speed Wind Turbines ........................................................................ 552
El-Kabir El Myahber, Abdelrah El Hajjaji, Abdelatif Khamlich

Optimization of Arm Manipulator Trajectory Planning in the Presence of Obstacles by Ant Colony Algorithm ........................................... 560
Fatima Zahra Baghi, Larbi El Bakkali, Yassine Lakhal

New Trends in Energy Efficient Electrical Machines ........................................................................................................................................ 568
Horia Gavrila, Veronica Manescu, Gheorghe Paltineanu, Gheorghe Scuraru, Ioan Peter

An Anthropomorphic Hand with Five Fingers Controlled by a Motion Leap Device .................................................................................. 575
Catalin Constantin Moldovan, Ionel Sterein

Multiscale Analyzing Methods in Electrocardiogram Signal Processing and Interpretation .................................................................................. 583
Zoltan German-Salio, Maria German-Salio

Monitoring and Control Platform for Homes Based on FPGA, SoC and Web Technologies .................................................................................. 588
Oana-Valentina Rusu, Adrian-Vasile Duka

PEMFC Two-Dimensional Modelling of Reactant Species Transport Through Membrane - GDL System ................................................................. 596
Viorel Ionescu

Generalization of String Transformation Rules using Optimized Concept Lattice Construction Method .............................................. 604
Ezlina Kovacs, Szabi Gabor

Algorithm for Determining the Optic Fiber Blowing Distance in Telecommunications Underground Networks ........................................ 612
Mircea Grogriuc, Marius Constantin Popescu, Romeo Dorin Bica

Unified Formal Model for Synchronous and Self-Synchronizing Stream Ciphers ..................................................................................... 620
Bogdan Crainicu

Robust Control of a Multivariable System .................................................................................................................................................. 626
Mircea Dulau, Stelian-Emilian Oltean, Adrian-Vasile Duka

Comparative Study between the Improved Implementation of 3 Classic Mutation Operators for Genetic Algorithms ......................................................... 634
Razvan Cazacu

Case Study Regarding the Conversion Efficiency of Small Horizontal Axis Turbines .................................................................................. 641
Carmen Maria Mirza, Georgiana Dorina Corsiu, Dana-Adriana Ilutiu-Varvara, Emilian Ceauc

Experimental Aspects of the Hydrogen Use at Diesel Engine ................................................................................................................................. 649
Constantin Pana, Nicolae Negurescu, Alexandru Cernat, Cristian Nitu, Ionel Mirica, Dina Fuiorescu
