TABLE OF CONTENTS

SESSION 2: PANEL: ROAD SAFETY: BASED ON STATISTICS, PLANNING THE JOURNEY IS EVEN MORE IMPORTANT THAN PLANNING THE JOB

The Carrot and the Stick of the Electronic Logging Device Mandate ................................................................. 1
J. Seidl
Six Essential Elements to Ensure Safe Driving in Oil & Gas ............................................................................. 6
P. Allen

SESSION 3: LEADING INDICATORS

Leading Indicators For Onshore Drilling HSE Outcomes .................................................................................. 12
C. Jablonowski
Getting Ahead of the Curve: Front End Loading HSSE Management Planning in Major Capital Projects ...................... 21
A. Wharton
Preventing Leaks Through RUL Prediction Modeling: Casing Integrity in HP/HT Environment ....................... 44
B. Das

SESSION 4: PANEL: MOVING TOWARDS HOLISTIC INDUSTRIAL HEALTH SURVEILLANCE: INTEGRATION OF EPIDEMIOLOGY, INDUSTRIAL HYGIENE, AND OCCUPATIONAL HEALTH

Working Together to Prevent Worker Exposures during Gauging and Sampling Activities ................................. 53

SESSION 6: AIR EMISSIONS: PREVENTION, REDUCTION, AND CONTROL

Utilization of Produced Gas for Improved Oil Recovery and Reduced Emissions from the Bakken Formation ................................................................. 68
The Efficacy of Market-Based Emission Control Systems: A System Dynamics Approach .............................. 80
M. Rafieisakhaei, B. Barazandeh
A Unique Approach to Comply with the New Source Performance Standards NSPS for Methane Emissions for Hydrocarbon Producing Wells ...................................................................................... 96
S. Smith, T. Denney
Pressure Transient Analysis for Leaky Well Characterization and Its Identification from Leaky Fault ............. 106
M. Mosaheb, M. Zeidouni

SESSION 7: OIL SPILL RESPONSE TECHNOLOGIES

Recent Technology Advances for Effective Oil Spill Response ........................................................................... 119
T. Coolbaugh, A. Chopra
Oil Spill Trajectory Simulation for the Clair Oilfield, Faroe Shetland Channel, United Kingdom Continental Shelf ................................................................................................................................. 140
C. Eke, B. Anifowose
Experimental Evaluation of Wellbore Flow Models Applied to Worst-Case-Discharge Calculations .................. 161
P. Waltrich, M. Capovilla, W. Lee, M. Zulqamain, R. Hughes, M. Tyagi, W. Williams, S. Kam, A. Archer, J. Singh,
H. Nguyen, J. Duhon, C. Griffith
SESSION 8: PREDICTING, MITIGATING, AND MONITORING SURFACE AND SUBSURFACE IMPACTS TO LAND

Technology and Innovation For Environmental Monitoring on Alaska's North Slope .................................................. 184
E. Febbo, K. Payne, B. Reep

An Analytical Model Predicts Pressure Increase During Waste Water Injection to Prevent Fracturing and Seismic Events ............................................................................................................................... 193
L. Jin, A. Wojtanowicz, J. Ge

Impacts of Inland Response Techniques on Plant Growth Field Test Study ................................................................. 212
T. Barston

Environmental Remediation Using Advanced Microbial Techniques .................................................................................. 218
R. Engler, G. Rome, R. Rainey, V. Deleon, M. Good

SESSION 9: IMPROVING SOCIAL RESPONSIBILITY THROUGH LEARNING AND CASE STUDIES

Social Responsibility and Petroleum Engineering Education: Lessons from Field-Based Education ................................... 230
N. Smith, J. Smith, L. Battalora, B. Teschner

Social Performance SP in Challenging Times: Lessons Learned Regarding Major Projects, Non-Technical Risk, and SP in the Lean Years ....................................................................................................... 248
E. Moore, A. Buchman

A Novel Approach to Cultural Resource Management, Historical Artifacts and Reciprocal Mitigation ................................ 256
E. Febbo, C. Wooley, J. Rogers, J. Reuther, B. Reep

Performance Framework for Evolving Sustainability Strategies .......................................................................................... 263
F. Moon, S. Theys

SESSION 10: EMERGENCY PREPAREDNESS AND RESPONSE SAFETY CONCERNS

Health and Safety Considerations for Extreme Weather Oil Spill Response ........................................................................ 271
B. Gove, K. Kriter, M. Simmons

Mitigating Downhole Vibrations in Bottom Hole Assemblies Using Finite Element Analysis ............................................... 277
A. Marquez, E. Omojuwa, C. Teodoriu

Numerical and Experimental Investigations of Gas Kick Migration During Casing While Drilling ........................................ 288
R. Guo, Y. Chen, R. Coutinho, P. Waltrich

SESSION 11: RISK MITIGATION THROUGH SYSTEMS AND TECHNOLOGY

Implementing an Effective Management of Change MOC System for Upstream Oil and Gas Industry ................................. 302
S. Laskar

Managing Risk Around Offshore Installations Using Autonomous Marine Vehicles While Conducting Exploration Activities ........................................................................................................................................ 311
S. Pai

Developing a Safety Culture for Remotely Piloted Aircraft Systems Operations: To Boldly Go Where No Drone Has Gone Before .................................................................................................. 318
T. Lamb

Managing Non-Technical Risk in Oil and Gas Operations: The Stakeholder Alignment Imperatives ...................................... 327
A. Adekoya

SESSION 12: WATER AND OUR SOCIAL RESPONSIBILITIES

Sustainability Aspects of Water Infrastructure ....................................................................................................................... 337
M. Dunkel

Water Use in the Oil and Gas Industries: An Evaluation of Best Practices for Communicating with Scientists, Policymakers, and the Public ........................................................................................................ 347
M. Cook, E. Grubert

Development of a Large Scale Water Recycling Program for the Delaware Basin, New Mexico ........................................ 361
K. Nichols, J. Sawyer, J. Bruening, B. Halldorson, K. Madhavan
## SESSION 14: LEARNING FROM INCIDENTS AND BARRIER ANALYSIS TO REDUCE INCIDENTS

Understanding Oil and Gas Extraction Worker Fatalities through the Fatalities in Oil and Gas Extraction Database ................................................................. 373  
S. Rid, K. Retzer

Quantitative Analysis of High Pressure Hazards in Oil and Gas Field Operations ................................................................. 383  
G. Feo, W. Williams

Enhancing Offshore Safety Culture Through Continuous Management of Barriers and Success Paths ................................................................. 396  
W. Nelson, A. Ahluwalia

## SESSION 15: REDUCING SOCIETAL IMPACTS THROUGH SOCIAL RESPONSIBILITY

Sustainability of Supply Chains and Human Rights ......................................................................................................................... 408  
M. Dionisio, I. Sanchez

Environmental Concerns and Quality of Life Following the Gulf Oil Spill: Factors Contributing to Behavioral Health ......................................................................................... 422  
H. Osofsky, T. Hansel, A. Speier, J. Osofsky, N. Savage

## SESSION 16: PROCESS SAFETY: TECHNICAL CONTROLS AND HUMAN FACTORS

Applying Risk-Based Process Safety to the Upstream Oil & Gas Industry ................................................................................................. 431  
J. Johnstone, M. Spangler, D. Hansen

Deploying Human Performance: Where Do We Start? ................................................................................................. 443  
M. Cook

A Holistic Approach to Sustainable Operational Risk Assessments in E&P Industry ................................................................................................. 451  
S. Laskar

## SESSION 17: WATER: NEW TOOLS AND MECHANISMS FOR EVALUATING AND REUSING WATER RESOURCES

K. Armstrong, J. Rogers, T. Burke, J. Ryan, J. Sherwood

Use of Remote Sensing Radar Techniques for Oil and Gas O&G Facilities Survey in Offshore Domain for Environment and Exploration: Oil Slicks Detection and Interpretation Seeps and Spill ................................................................................................. 471  
V. Miegebielle, D. Dubucq, C. Taillandier, S. Angéliaume

Utilization of Co-Produced Water from Oil Production: Energy Generation Case ................................................................................................. 480  
I. Akhamadullin

Processing and Recycling of Waste Flowback Fracturing Fluids in Tarim Basin, China ................................................................................................. 494  
H. Liu, X. Yang, H. Liu, K. Wang, Z. Yuan, R. Zhao, Y. Zhang

## SESSION 18: RISING TO A TOP TIER PERFORMER

Applying the Concept of Accelerative Learning for Design and Delivery of Process and Personnel Safety Leadership Programs in Oil & Gas Assets ................................................................................................. 507  
K. Israni, C. Watson

Changing the Safety Culture: Providing an Accident-Free Work Environment ................................................................................................. 515  
F. Simon

An Integrated Approach to Operational Risk Management – The Role of Process Safety Management ................................................................................................. 522  
M. Neill

## SESSION 19: EPOSTER WORLD CAFE I

CO₂ Plume Characterization Using Pressure Arrival Time ................................................................................................. 531  
N. Tran, M. Zeidouni
All-Natural Process for the Rapid Treatment and Recycling of Hydrocarbon-Contaminated Solid Wastes Offers a Cost-Saving and Environmentally-Green Solution for the Petroleum Industry ................................. 541
A. Miles

SESSION 20: EPOSTER WORLD CAFE II

The Effects of Oil Market Events on Carbon Emissions: A 2016 Case Study ................................................................. 550
M. Rafieisakhaei, B. Barazandeh

Next Generation Compliance for Organic Liquid Storage Vessels .......................................................................................... 562
M. McBrayer
