# TABLE OF CONTENTS

## VOLUME 1

### MST-01: MODELING AND SIMULATION OF AEROELASTICITY AND STRUCTURAL DYNAMICS

User Subroutine for Fatigue Modeling of Wing Structure of Flapping Micro Air Vehicle (AIAA 2017-0574) ................................................. 1  
*Hichem Abdelmoula, Mostafa Hassanalian, Abdessattar Abdelkefi*

Effects of Engine Placement on Nonlinear Aeroelastic Gust Response of High-Aspect-Ratio Wings  
(AIAA 2017-0576) ........................................................................ 11  
*Pezhman Mardanpour, Ehsan Izadpanahi, Siavash Rashkar, Dewey H. Hodges*

Modelling Framework for Handling Qualities Analysis of Flexible Aircraft (AIAA 2017-0577) ......................................................... 43  
*Vilius Portapas, Sezsy Y. Tussuf, Mohammad M. Lone, Etienne Coetzee*

Structural System Identification Using Degree of Freedom-based Reduction Method and Sensor Selection Algorithm (AIAA 2017-0578) ......................................................... 62  
*Heejun Sung, Seongmin Chang, Maenghyo Cho*

### MST-02: MODELING AND SIMULATION OF UNINHABITED AERIAL VEHICLES I

Longitudinal Aerodynamic Coefficients of Hydra Technologies UAS-S4 from Geometrical Data  
(AIAA 2017-0579) ........................................................................ 70  
*Marine Segui, Maxime Kuitche, Ruxandra M. Botez, Oliviu Sugar Gabor*

Modeling, Simulation, and Control of Modular Vertical Lift Air Vehicles (AIAA 2017-0580) ................................................................. 78  
*Brady Anderson, Jonathan Warner, Jonathan D. Rogers*

Modelling Wing Wake and Tail-Wake Interaction of a Clap-and-Peel Flapping-Wing MAV (AIAA 2017-0581) ........................................... 94  
*Sophie F. Armanini, Joao V. Caetano, Coen C. de Visser, Guido de Croon*

### MST-03: MODELING AND SIMULATION OF AIR TRAFFIC MANAGEMENT I

Evaluation of Airport Capacity Optimization Measures (AIAA 2017-0803) ........................................................................ 113  
*Christoph Schinwald, Kay O. Plötner, Mirko Hornung*

A EUROCONTROL Tower Simulator to Validate SESAR Routing, Guidance and Airport Safety Nets Concepts (AIAA 2017-0804) ........................................................................ 131  
*Mohamed Ellejmi, Marc Bonnier, Roger Lane, Stephane Dubuisson*

ATC Procedures Modeling for Capacity Estimation of Japanese Airspace (AIAA 2017-0805) ........................................................................ 144  
*Kota Kageyama, Kazuo Akinaga*

Human-in-the-Loop Simulation of Trajectory Based Operation Concept for Remotely Piloted Aircraft System Integration (AIAA 2017-0806) ........................................................................ 154  
*Jisoo Kang, Seonyoung Kang, Hyeju Oh, Keeyoung Choi, Hak-Tae Lee, Hyuntae Jung, Woo-Choon Moon*

### MST-04: MODELING AND SIMULATION OF UNINHABITED AERIAL VEHICLES II

New Methodology for Longitudinal Flight Dynamics Modelling of the UAS-S4 Ehecatl Towards its Aerodynamics Estimation Modelling (AIAA 2017-0807) ........................................................................ 168  
*Maxime Kuitche, Marine Segui, Ruxandra M. Botez, Georges Ghazi, Oliviu Sugar Gabor*

*Stéphane D’Urso, Jason N. Gross*

Model-based Implementation of an Onboard STANAG 4586 Vehicle Specific Module for an Air Vehicle (AIAA 2017-0809) ......................... 188  
*Markus Hochstrasser, Christoph Krause, Volker Schneider, Florian Holzapfel*

*Neil Cameron, Charles Patchett, Konstantin Vikhorev, Ken Lai, Louise Wong, David Bowman*
Dynamic Modeling and Hardware-In-Loop Simulation for a Tail-Sitter Unmanned Aerial Vehicle in Hovering Flight (AIAA 2017-0811) .................................................. 216
Jingxuan Sun, Boyang Li, Lu Shen, Chih-Keng Chen, Chih-Yung Wen

MST-05: AVIATION SIMULATION SCENARIO DEVELOPMENT I

Scenario Development Process at the Vertical Motion Simulator (AIAA 2017-1075) ................................................................. 228
Scott Reardon, Emily Lewis, Steven D. Beard
Using System Entity Structures to Model the Elements of a Scenario in a Research Flight Simulator (AIAA 2017-1076) ................................................................. 237
Umut Durak, Insa Pruter, Torsten Gerlach, Shafagh Jafer, Thorsten Pawletta, Sven Hartmann
Creating Scenarios for Airport Management Simulations Involving Independent Connected Simulators (AIAA 2017-1077) ................................................................. 245
Reiner Suikat, Tim Stelkens-Kobsh, Focke Stiekel, Helge Lenz
The Use of Data from Accident Investigations in Development of Simulator Training Scenarios (AIAA 2017-1078) ................................................................. 254
Dennis A. Crider

MST-06: HUMAN FACTORS, PERCEPTIOPN, CUEING I

Evaluation of a Steep Turn Spatial Disorientation Demonstration Scenario for Commercial Pilot Training (AIAA 2017-1079) ................................................................. 280
David H. Klyde, Amanda K. Lampton, Philip C. Schulze
Evaluation of a Missed Approach/Go-Around Spatial Disorientation Demonstration Scenario for Commercial Pilot Training (AIAA 2017-1080) ................................................................. 301
Amanda K. Lampton, David H. Klyde, Philip C. Schulze
Refinement of Objective Motion Cueing Criteria Based on Three Flight Tasks (AIAA 2017-1081) ................................................................. 323
Peter Zaal, Jeffery A. Schroeder, William W. Chu
An Objective Method to Determine the Fidelity of Rotorcraft Motion Platforms (AIAA 2017-1082) ................................................................. 343
Michael Jones
Experimental Evaluation of Haptic Support Systems for Learning a 2-DoF Tracking Task (AIAA 2017-1083) ................................................................. 366
Giulia D’Intino, Mario Olivari, Stefano Geluardi, Joost Venrooij, Lorenzo Pollini, Heinrich H. Buehloff
Assessing the Severity of Wake Encounters in Various Aircraft Types in Piloted Flight Simulations (AIAA 2017-1084) ................................................................. 376
Gerben Van Baren, Vincent Treve, Frédéric Rooseleeer, Peter Van der Geest, Bart Heesbeen

MST-07: MODELING AND SIMULATION OF AIR TRAFFIC MANAGEMENT II

Integrated Arrival-Departure-Surface-Enroute Air Traffic Optimization (AIAA 2017-1085) ................................................................. 392
Parikshit Dutta, Prasenjit Sengupta, Jason Kwan, Padmanabhan K. Menon
Severe-Weather Avoidance Using Bezier Curve-based Trajectory Planning for Arrival Air Traffic Management (AIAA 2017-1086) ................................................................. 411
Shusuke Izuta, Masaki Takahashi
Merging Optimization Method Application to Arrival Scheduling Algorithm for Parallel Runways (AIAA 2017-1087) ................................................................. 425
Daichi Torutani, Navinda K. Wickramasinghe, Eri Itoh
Feasibility Study on Constrained Optimal Trajectory Application in the Japanese Airspace (AIAA 2017-1088) ................................................................. 439
Navinda K. Wickramasinghe, Mark Brown, Hiroko Hirabayashi, Sakae Nagaoka

MST-08: AVIATION SIMULATION SCENARIO DEVELOPMENT II

Enhanced Scenario-Based Training for Unmanned Aircraft System Operational Missions (AIAA 2017-1309) ................................................................. 457
Kevin T. Rigby, Nickolas D. Macchiarella, Alexander Mirot
Harmonizing the Scenario Generation Process, Tools and Standards for Flight Simulators (AIAA 2017-1310) ................................................................. 467
Joris Field, Arno Gerretsen, Remco Meiland, Frederik Mohrmann
MST-12: MODELING AND SIMULATION OF SPACE VEHICLE DYNAMICS, SYSTEMS, AND ENVIRONMENTS

Microsatellite Simulation for Constellation Research (AIAA 2017-1553) .............................................................. 764
Kai Leidig, Jens Eickhoff

Characterization of Multi-Antenna GNSS, Multi-Sensor Attitude Determination for Stratospheric Balloon Platforms (AIAA 2017-1554) .............................................................. 777
Nathan Tehrani, Jason N. Gross

Interaction of a Robotic Servicing Vehicle with Satellite Flexible Modes During Capture (AIAA 2017-1555) ........................................................................................................ 793
Justin Brannan, Craig Carignan

An Open-source, Stochastic, Six-degrees-of-freedom Rocket Flight Simulator, with a Probabilistic Trajectory Analysis Approach (AIAA 2017-1556) ........................................... 806
Willem J. Eerland, Simon Box, Hans Fangohr, Andras Sobester

Modeling and Simulation of Aerobee-150A Sounding Rocket (AIAA 2017-1557) ............................................................. 821
Ugur Akcal, Burak Yasek, Nazim K. Ure

MST-14: MODELING AND SIMULATION OF UNINHABITED AERIAL VEHICLES III

Flight Testing, Data Collection, and System Identification of a Multicopter UAV (AIAA 2017-1558) .................................. 834
Subodh Bhandari, Paul Navarro, Alex Ruiz, Sung Cho, Andrew Rashid

Improving Model Fidelity For a Small Quadcopter Through Experimental Modeling (AIAA 2017-1559) ................................................................. 848
Peter R. Olejnìk, Bradley T. Burchett

Dynamic Modeling and Simulation of A Quadcopter with Motor Dynamics (AIAA 2017-1560) ........................................ 868
A Ram Kim, Prasanth Vivekanandan, Patrick McNamee, Ian Sheppard, Aaron Blevins, Alex Sizemore

Modeling and Flight Control Simulation of a Quadrotor Tailsitter VTOL UAV (AIAA 2017-1561) .......................................... 884
Fu Zhang, Ximin Lyu, Ya Wang, Haowei Gu, Zexiang Li

MST-15: MODELING AND SIMULATION OF AIR VEHICLE DYNAMICS, SYSTEMS, AND ENVIRONMENTS

Ventus - Towards a Cost-effective Phenomenological Post-stall Aerodynamic Model Add-on for Upset Recovery Training (AIAA 2017-1576) ................................................. 897
Manfred Roza, Rick Van der Ploeg, Martin Laban

A Tailless Fighter Aircraft Model for Control-Related Research and Development (AIAA 2017-1757) .............................. 905
Michael A. Nistrosy, Kenneth M. Dorsett, Katherine Markstein

Modeling of Flight Dynamics and Pilot’s Handling of a Hang Glider (AIAA 2017-1758) ................................................ 923
Yoshimasa Ochi

Aerodynamic Lateral-Directional Coefficients Modeling During Aircraft Design Phases (AIAA 2017-1759) ......................... 942
Adson A. de Paula, Fabricio M. Porto, Marcelo S. Sousa, Sebastiao Simoes de Cunha

A Four-Stage One-Dimensional Model for Rime, Mixed and Glaze Ice Accretion on Aerofoils (AIAA 2017-1760) .............. 974
Zaid Janjua, Barbara Turnbull, Stephen Hibberd, Kwing-So Choi

MST-16: MODELING AND SIMULATION IN EDUCATION/SPECIAL TOPICS IN MODELING AND SIMULATION

A Proposed Hardware in the Loop Gimbal Platform that Supports an Applied Graduate Controls Course (AIAA 2017-1761) ................................................................. 983
Monty Smith, James Reasoner, Robert Fithen

Design, Build and Integration of a Low-Cost Self-Erecting Inverted Pendulum Mechanism (AIAA 2017-1762) .................. 989
Kamran Turkoglu, Brian Graham

The Use of Modelling and Simulation to Give Students a HEADSTART into Aerospace Engineering (AIAA 2017-1763) .... 1010
Mark D. White, Christopher Dadswell, Thomas Fell, Roy Coates
**MST-17: MODELING AND SIMULATION INTEGRATION AND ARCHITECTURES**
