# TABLE OF CONTENTS

## VOLUME 1

### SESSION 001 – WASTE MANAGEMENT SYMPOSIUM 2017 PLENARY SESSION

- **Nuclear Energy Policy in Japan**
  Hirohide Hirai .......................................................... 1
- **Plenary Remarks**
  Greg Meyer .............................................................................................................................. 16
- **Sustaining Our Cleanup Momentum and Optimizing Our Program**
  Sue Cange ........................................................................................................................................... 23

### SESSION 003 – PANEL: FEATURED COUNTRY – NUCLEAR OVERVIEW & DEVELOPMENT IN JAPAN – NUCLEAR FUEL

- **Nuclear Development in Japan**
  Hirohide Hirai ....................................................................................................................................................................... 33
- **The Current Status and the Future of the Nuclear Fuel Cycle Business in JNFL**
  Haruka Watanabe ........................................................................................................................... 44
- **Japanese R & D on Reprocessing of Spent Nuclear Fuels**
  Tadafumi Koyama, Yasuji Morita, Takeshi Tsukada, Tsutomu Kotzumi ........................................................................................................... 57
- **Overview of U.S. – Japan Bilateral Civil Nuclear Collaboration**
  Sal Golub ................................................................................................................................................. 61

### SESSION 005 – PANEL: MANAGING SAFETY CULTURE DURING TIMES OF CHANGE

- **Managing Safety Culture During Times of Change**
  Jan Preston ........................................................................................................................................................ 65
- **Safety Culture Improvement Panel and Contract Transition**
  Matthew Moury ..................................................................................................................................................... 66
- **Waste Management 2017- Maintaining Safety Focus During Transition**
  Fred Hughes .............................................................................................................................................. 72
- **Creation of INL—12 Years Later**
  Chere Morgan ........................................................................................................................................................ 79
- **2017 WMS - When Safety Performance Declines**
  Rob De La Espriella ......................................................................................................................................... 81
- **Maintaining Safety Through Transition**
  Kevin Daniels ...................................................................................................................................................... 88

### SESSION 006 – INTEGRATION OF US DOE HLW TANK FARM ACTIVITIES

- **Integrated Salt Waste Processing at the Savannah River Site**
  Keith Harp, Sonitza Blanco .......................................................... 91
- **Long-Term Management of Mercury at the Savannah River Site Liquid Waste System**
  Richard Edwards, Vijay Jain, Hazem A. Shah, Terri Fellers, Bill Wilmurt, Christopher Bannochie .......... 100
- **Hanford’s Double-Shell Tank AY-102 Retrieval Project**
  Carl Hanson, Sebastien Guillet, Doug Greenwell, Jordan Fellet ............................................................................. 111
- **The Integrated Waste Feed Delivery Plan for the Direct Feed Low-Activity Waste Mission**
  Todd Wagnon, Jacob Reynolds, Benjamin Tardiff ...................................................................................... 128

### SESSION 007 – TECHNETIUM (TC) AND RUTHENIUM (RU) WASTE IMMOBILIZATION BEHAVIOR

- **Technetium Management Program Plan**
  Nicholas Machara, Richard Bonczek, Skip Chamberlain, Michael Cline, Miles Denham, Mark Freshley, Ben Harp, M. Hope Lee, Tatiana Levitskaya, Daniel McCabe, Reid Peterson, Patricia Suggs, Bill Wilmurt ........................................................ 138
- **Spectroscopic Characterization of Tc(I) Tricarbonyl Species Relevant to the Hanford Tank Waste**
  Tatiana Levitskaya, Syandeep Chatterjee, Gabriel Hall, Nancy Waskom, Eric Walter .................................................. 161
- **Fabrication and Properties of Advanced Ceramic Technetium Waste Forms**
  Thomas Hartmann, Rajivalakshmi Pataparty, Florian Wolke .................................................................................. 175
- **Ruthenium Volatilisation in Nuclear Waste Systems –Comparison of Ru(III) and Ru(III)NO(NO3)3**
  Sukhraaj Kaur Kohal, Colin Boxall, Carl Steele, Colin Gregson ........................................................................... 185
SESSION 008 – INTERNATIONAL EXPERIENCE WITH WASTE CERTIFICATION, ACCEPTANCE AND DISPOSAL FOA LLW/ILW

Development of New Type-B Containers and the “Alternative Approach” Disposal of a High-Activity Cs-137
- 17468

Sealed Source - 17385

Centeno Martín, Tomoko Tanpil, William Stewart

Conceptual Design for a Short-Lived Low- and Intermediate-Level Waste Repository at the Al Tuwaitha Nuclear
Center, Iraq - 17189

Bernt Haverkamp, Gerald Nieder-Westermann, Thilo Von Berlepsch, Ramon Gasull Anguera, Alastair Clark, Ramon Gasull

Is the 80 - 20 Principle a Friend or a Foe? Critical Remarks on the Dominant Flat Gradient - 17206

Felix Hommekus

SESSION 009 – ASSESSMENT OF WORLDWIDE DISPOSAL SYSTEMS, FACILITIES AND SITES FOR LLW/ILW – (1/2)

Challenges to Collection of High Quality Samples of Saltstone - 17468

Kent Rosenberger, Malcolm Smith

Analysis of Saltstone Cores Taken from Saltstone Disposal Unit Cell 2A - 17350

Marissa Beigel, Katie Hill, Ralph Nichols

Sub-Grid Model Improving Shrinking Core Simulations of Redox-Sensitive Technetium Release from Slag

Cement Waste Forms - 17295

Greg Flach

SESSION 010 – WORLDWIDE REGULATORY ISSUES ON PACKAGING AND TRANSPORTATION

Comparison of U.S. Special Permit/Exemption/Authorization Processes for Licensing Type B Radioactive Material

Packages - 17513

Jeff England, Edward Ketucky, Robert Watkins

DOE Progress on Implementing Recommendations of National Academy of Sciences for SNF Transportation - 17087

Kevin Connolly, Judith Holm

Qualification of Pre-existing Containers According to the Acceptance Criteria of the Repository Konrad - 17204

Christian Kuschke, Frank Wille, Viktor Ballheimer, Jens Sterfshaus, Andreas Apel

SESSION 011 – SUSTAINABLE REMEDIATION PROCESSES – GLOBAL INSIGHTS

Addressing Technical and Policy Challenges for Remediation of Metals and Radionuclides within Complex Vadose

Zone Environments - 17028

Dawn Wellman, Michael Truex, M. Hope Lee, Mark Freshley

Sustainability Index for Comparison of Environmental Remediation Technologies - 17492

Alexandra Kramer, Alexis Smoot, Sarah Bird

Removal of U(VI) in the Alkaline Conditions Created by NH₃ Gas - 17288

Yelena Katsenovich, Claudia Cardona, Jim Szecsody, Leonel Lagos

Chemistry and Engineering Aspects of the Application of Soluble Phosphates for Uranium Treatment in
Groundwater - 17255

Richard Murphy, Jeff Gillow, Patsy Moran, Shannon Ulrich, Lisa Weidemann, Mike Hay, Margaret Gentile

SESSION 012 – RADIOLOGICAL DISPERSION DEVICES AND WEAPONS OF MASS DESTRUCTION: DETECTION, RESPONSE, AND ROCOVERY

A Multiscale Bayesian Data Integration Approach for Mapping Air Dose Rates around the Fukushima Daiichi

Nuclear Power Plant - 17166

Integrated Wash-Aid, Treatment, and Emergency Reuse System (IWATERS) for Strontium Contaminations - 17390

Field Implementation of Nuclear Safeguards: ENEA’s Capability Projection - 17174
SESSION 013 – PANEL: GLOBAL SUPPORT FOR FUKUSHIMA DECONTAMINATION AND DECOMMISSIONING CLEAN-UP EFFORTS (2/8)

Current Status and Challenges at Fukushima Daiichi Decontamination and Decommissioning .........................................................409
Naohiro Masuda
Japan's Challenges for Fukushima Daiichi D&D .........................................................................................................................419
Shigeo Nomura
Global Support for Fukushima Decontamination and Decommissioning and Clean-up Efforts .......................................................428
Adrian Simper
IAEA Activities Supporting Fukushima Efforts on On-Site Decommissioning and Off-site Remediation .............................................433
Andrew Orrell
Global Support for Fukushima Decontamination and Decommissioning and Clean up Efforts .......................................................446
Monica Regalbuto

SESSION 014 – PANEL: FEATURED COUNTRY: JAPAN – PERSPECTIVES ON DECOMMISSIONING NPP IN JAPAN (3/8)

Decommissioning Situation of Nuclear Power Plant in Japan ...........................................................................................................454
Kazuhiro Suzuki
Decommissioning Technologies in Hitachi - GE Nuclear Energy Supporting the Japanese Nuclear Power Plants .........................464
Masanao Moriwaki
Activities of Toshiba for Decommissioning Nuclear Facilities in Japan ..........................................................................................471
Masamichi Obata
Sharing Our D&D Lessons Learned with Japan ............................................................................................................................476
Tim Carraway
EnergySolutions – Application of Past Experience for Nuclear Power Plant D&D Success ............................................................490
Colin Austin

SESSION 015 – PANEL: PROCUREMENT AND CONTRACTING OPPORTUNITIES WITH DOE, DOE PRIME CONTRACTORS, AND USACE FUSRAP PROJECTS

Small Business Procurement and Contracting Opportunities with the Office of Environmental Management .................................497
Norbert Doyle
Procurement and Coaching Opportunities with DOE, DOE Prime Contractors, and USACE FUSRAP Projects .............................512
William Badger
Engineering the Extraordinary ............................................................................................................................................................521
Lisa Tribuco-Leoung Tat
AECOM - Built to Deliver a Better World ........................................................................................................................................534
Joni Blizzard
U. S. Army Corps of Engineers - Formerly Utilized Sites Remedial Action Program (FUSRAP) ..........................................................538
Nick Fatherly

SESSION 016 – PANEL: ADDRESSING THE SMALL BUSINESS BARRIERS IN CONTRACTING WITH THE US DOE

Doing Business with US Department of Energy ...................................................................................................................................543
Paul E. Ross
Addressing Barriers for Small Businesses in Contracting with the DOE Office of Environmental Management ..........................552
Tamara Miles
Considerations for Business Strategies ..............................................................................................................................................558
Greg Gonzales
WAI Overview .....................................................................................................................................................................................564
Steve Moore

SESSION 017 – PANEL: LANL RECOVERY – RE-TREATMENT OF PROBLEM WASTE STREAM NITRATE SALTS

Remediates Nitrate Salt (RNS) Disposition .....................................................................................................................................572
Randall Erickson
WIPP Repository and National TRU Program Impacts from Nitrate Salts ......................................................................................584
J.R. Stroble
LANL Recovery- Regulatory Perspective ...........................................................................................................................................586
Katie Roberts
DOE Environmental Management Activities at the Los Alamos National Laboratory ..................................................................590
Douglas Hotze
SESSION 018 – PANEL: US DOE WIPP: LESSONS LEARNED AND RETURN TO OPERATIONS FOLLOWING 2014 OPERATIONAL INCIDENTS

National TRU Program and WIPP Waste Acceptance Criteria .......................................................... 595
J.R. Stroble

WIPP Facility Uniqueness .................................................................................................................. 600
Jim Blankenhorn

Reopening WIPP .................................................................................................................................. 606
Philip Breidenbach

WIPP Looking Forward Waste Management 2017 ............................................................................. 613
Todd Shrader

SESSION 019 – PANEL, LOW LEVEL WASTE FORUM, INC – HOT TOPICS IN US COMMERCIAL LLW MANAGEMENT

Discussion of GAO Report on NRC’s Materials Licensing Program .............................................. 620
Ned Woodward

Hot Topics in US Commercial LLW Management: Emerging Issues in NRC’s LLW Regulatory Program .............................................................. 627
John Tappert

SESSION 020 – SELECTED KEY TOPICS IN US COMMERCIAL MANAGEMENT

Innovative Solutions to Solve Complex Radioactive Waste Management Problems in the U.S. - 17609 ................................................................. 636
J. Scott Kirk

Characterization and D&D of PET Cyclotron and Radioisotope Production Facility - 17536 ................................................................. 656
Paul Jones, Jeff Slawson, Christopher Brandjes

Analysis of Cs-137 and Co-60 for a High Dose Rate Chemical Cleaning Tank - 17653 ....................... 665
Sean Stanfield, Marcel Villani, Bill Mussman, Kurt Dickhoff

SESSION 022 – PANEL: REMEDIATION OF THE UNITED KINGDOM – SELLAFIELD LEGACY PONDS AND SILOS

Remediation of the Sellafield Legacy Ponds and Silos: An Owner’s Perspective ........................................... 679
Adrian Simper

Legacy Ponds and Silos: Accelerating Risk Reduction ........................................................................ 683
Alan Parry

Office for Nuclear Regulation of Sellafield Ltd. ...................................................................................... 688
Paul Dick

The Environment Agency and Regulation of Legacy Facilities at Sellafield ................................................. 693
Stuart Page

Radioactive Waste Management ........................................................................................................ 698
Ann McCall

SESSION 023 – GLOBAL EXPERIENCE OF RECORDS, KNOWLEDGE AND MEMORY (RK&M) FOR NUCLEAR WASTE GEOLOGIC REPOSITORIES

Jean-Noël Dumont, Simon Wisbey, Stephan Hotzel, Anne Claudel, Arne Berckmans, Sofie Tunbrant, Abraham Van Luik, Pierre-Henri de la Cadre

Analysis of the Needs for Long Term Memory and Knowledge Preservation Relating to Radioactive Waste Disposal Facilities - 17213 ................................................................. 712
Jean-Noël Dumont, Simon Wisbey, Stephan Hotzel, Anne Claudel, Arne Berckmans

Knowledge Management in the Field of Nuclear Energy - How to Bridge the Gap between Retiring Workforce and Next Generations - 17101 .................................................................................................................. 723
Fabienne Anton, Gabriele Bandt, Michael Braun

SESSION 024 – PANEL: RECORDS, KNOWLEDGE AND MEMORY (RK&M) FOR NUCLEAR WASTE GEOLOGIC REPOSITORIES

Markers: What for and How? ............................................................................................................. 733
Jean-Noël Dumont
SESSION 025 – INNOVATIONS AND PERFORMANCE SOLUTIONS TO WORKPLACE MANAGEMENT

Blood, Sweat and Tears (of Joy): Lessons From an Unlikely Entrepreneur - 17499 ................................................................. 743
   Kelly Black

Implementation of Lessons Learned - 17406 ................................................................. 750
   John McCann, Paul Schumann, Mark Haagenstad, Shannon Goldberg, Lorrie Bonds Lopez

Savannah River National Laboratory Collaborative Innovation Pilot Team - 17560 ................................................................. 756
   Andrew Fellingher, Sheryl Ross Bush

Savannah River Remediation Liquid Waste Operations Making the Workplace Safer - Lean and HPI Initiatives - 17244 ................................................................. 765
   Laurene Bowell, Robert Gray, Patricia Allen

Strengthening How Teams and Organizations Work Together - 17014 ................................................................. 774
   Laurel Boucher

Web-Based Learning as a Tool for Public Education and Outreach - 17503 ................................................................. 786
   Colleen Brent, Andrew Wilcox, Margaret MacDonell, William Nutt

Value of Integrated Risk and Issue Management - 17516 ................................................................. 793
   William Jackson, Edgar Zimmerman

SESSION 026 – WORLDWIDE HLW, SNF/UNF AND LONG-LIVED ALPHA/TRU PROGRAMS AND POLICIES

A Bottoms-Up Model for Siting and Developing Consent-Based Disposal Solutions for SNF and HLW in the USA - 17532 ................................................................. 801
   George Dials, Jeff G Erickson

Near-Term Operational Planning at the Hanford Tank Farms: Link to Execution - 17091 ................................................................. 817
   Paul Ceria, Steven Ringo, Linda Eslin, Michele Wells

Reviewing Spent Nuclear Fuel Dry Cask Storage Programs to Identify Challenges for an Integrated Waste Management System - 17535 ................................................................. 822
   Christina Fischer, Daniel Oggi

Spent Nuclear Fuel Disposition at the Savannah River Site - 17153 ................................................................. 839
   Jay Ray, Virginia Magoulas, Jomaries Rovira, Edgardo DeLeon

US - Origin Nuclear Material Removal Program - 17027 ................................................................. 845
   Glen Jackson, Jeff Galan

SESSION 027 – EXPERIENCE IN PACKAGING AND TRANSPORTATION OF RADIOACTIVE MATERIALS

The Waste Factory at the East Tennessee Technology Park - 17424 ................................................................. 852
   Clint Mori, John Wrapp

Differing Approaches to the Same Destination: SRS vs. Hanford Transportation Safety Document and Onsite Transportation Program - 17142 ................................................................. 859
   Edward Kennedy, Jeff England, Robert Watkins, James Shuler

Does the Perfect Waste Package Exist? Development of a Decisional Tool Addressing this Challenge - 17053 ................................................................. 874
   Christine Lamouroux, Elisa Leoni, Jean-Michel Grygiel

SESSION 028 – WORLDWIDE ADVANCES IN PACKAGING FOR INTERIM STORAGE, TRANSPORT AND DISPOSAL

Legacy Waste Containers for Low and Intermediate Level Radioactive Waste in Germany – Actual Situation and Challenges - 17070 ................................................................. 890
   Matthias Dittrich, Eva Kasperek, Holger Völzke

The New CASTOR® geo - A Comprehensive Solution for Transport and Storage of Spent Nuclear Fuel, MOX and Damaged Fuel - 17202 ................................................................. 904
   Linus Bettermann

TN® MW - Multi Waste Package “All in One Solution” – Conditioning/Long term Interim Storage up to Final Disposal - 17196 ................................................................. 910
   Florence Lefort-Mary, Jay Thomas, Sandrine Toupiol, Christine Lamouroux, Benjamin Kerr

SESSION 029 – WORLDWIDE D&D OF NUCLEAR AND NON-POWER GENERATING FACILITIES BOTH LARGE AND SMALL

Remote Decommissioning of the Plutonium Experimental Extraction Facility, Sellafield - 17031 ................................................................. 923
   Richard Davey, Phil Starkie

Dismantling of HLLW Process Installations of (WAK) – Progress and First Experiences in Hot Application of Remote Techniques - 17083 ................................................................. 937
   Volker Engelschlecht, Daniel Friedrich, Klaus-Dieter Krug

Remediation of the FG MSP at Sellafield: The First Transfer of Bulk Sludge - 17133 ................................................................. 945
   Mark Ellison
SESSION 030 – ROBOTICS AND REMOTE SYSTEMS – NUCLEAR ENVIRONMENTS: HARDWARE – CURRENT USE & STATE OF PRACTICE-(1/5)

Modular Platforms for Advanced Inspection, Locomotion, and Manipulation - 17150 ......................................................................................................................................................................................................................................................................................................................................................................................1017

Brad Saund, Alexander Ansari, Julian Whitman, Howie Choset

Novel Serpentine Robot Combinations for Inspection in Hard-to-Reach Areas of Damaged or Decommissioned Structures - 17335 ......................................................................................................................................................................................................................................................................................................................................................................................1028

Praveen Abbaraju, Richard Voyles, Howie Choset, Alexander Ansari

LaserSnake2: An Innovative Approach to Nuclear Decommissioning - 17080 ......................................................................................................................................................................................................................................................................................................................................................................................1043

Adam Mallion, Craig Wilson, Rebecca Smith, Paul Hilton, Rhys Roberts, Geoff Ferguson

Towards a Remote Handling Toolkit for Fusion: Lessons Learned and Future Challenges - 17360 ......................................................................................................................................................................................................................................................................................................................................................................................1054

Robert Buckingham

Purpose-Built UAVs for Physical Sampling of Trace Contamination at the Portsmouth Gaseous Diffusion Plant - 17331 ......................................................................................................................................................................................................................................................................................................................................................................................1064

SESSION 031 – INTEGRATED PERFORMANCE AND RISK ASSESSMENTS, DECISION ANALYSES, AND RISK MANAGEMENT

Decision and Modeling Strategy for a Radiological Risk Assessment at Area G, Los Alamos, New Mexico - 17258 ......................................................................................................................................................................................................................................................................................................................................................................................1079

John Tausc, Paul Black, Bruce Crowe, Kelly Crowell, Stephanie Fitchett, Megan Higgs, Amy Jordan, Ryan Kelly, Robert Lee, Daniel Levitt, Kristen Lockhart, Gregory J. McDermott, Gregg Occhiogrosso, Ralph Perona, Michael Sally

Representation of Global Climate Change in Performance Assessment Models for Disposal of Radioactive Waste - 17183 ......................................................................................................................................................................................................................................................................................................................................................................................1090

John Tausc, Bruce Crowe, Paul Black, Paul Duffy, Robert Lee, Michael Sally

Simulated Impacts of Water Introduced into Pits 37 and 38 at Technical Area 54, Area G, Los Alamos National Laboratory - 17386 ......................................................................................................................................................................................................................................................................................................................................................................................1102

Philip Stauffer, Kay Birdsell, Sean French, Daniel Levitt, Rajesh Pawar, Adam Atchley, Zhenxue Dai, Shaoping Chu

Development of a Regional Groundwater Flow Model for the US DOE Oak Ridge Reservation: EarthVision® Conceptual Site Model - 17367 ......................................................................................................................................................................................................................................................................................................................................................................................1113

Robert Gelinas, Samantha Pack, Lynn Sims, Holly Clancy, Steve Haase, Richard Ketelle, Dennis Mayton, Alaudin Khan

Software Quality Assurance for LeachXS/ORCHESTRA as a Tool for Assessment of Waste Management Systems Performance - 17486 ......................................................................................................................................................................................................................................................................................................................................................................................1128

Kevin Brown, David Kosson, Hans van der Stoot, Paul Seignette, Johannes Meeussen

Problems Related to Temperature-induced Processes in Long-time Repositories of Nuclear Waste - 17514 ......................................................................................................................................................................................................................................................................................................................................................................................1141

Thomas Pick

Statistical Methods for Effective Spatial and Temporal Scaling in Support of Probabilistic Performance Assessments - 17340 ......................................................................................................................................................................................................................................................................................................................................................................................1157

Paul Black, Megan Higgs, Amy Jordan, Paul Duffy, Tom Stockton, Stephanie Fitchett, John Tausc

Superfund Update: Revisions to Risk and Dose Assessment Tools - 17302 ......................................................................................................................................................................................................................................................................................................................................................................................1177

Stuart Walker, Fred Dolslager

SESSION 32A – ANALYTICAL TECHNIQUES IN HLW

Separable Organic Evaluation: Waste Feed Delivery Impacts - 17563 ......................................................................................................................................................................................................................................................................................................................................................................................1184

Bryce Eaton

SESSION 032C – USED/SPENT NUCLEAR FUEL MANAGEMENT

Establishment of Master Plans on Spent Nuclear Fuel in Korea - 17097 ......................................................................................................................................................................................................................................................................................................................................................................................1196

Sangil Kim, Hojin Lee, Sangmyooe Ahn

Preliminary Concept of Operations for the Spent Fuel Management System - 17134 ......................................................................................................................................................................................................................................................................................................................................................................................1202

Josh Jarrell, Riley Cumberlend, Abaidun Adeniyi, Robert Howard, Robert Joseph, William Nutt

Computational Safeguards Analysis of PWR Spent Nuclear Fuel in Dry Storage - 17435 ......................................................................................................................................................................................................................................................................................................................................................................................1214

Wonyoung Jung, Sang-Woo Kwak, Heo Chul, Jong-Ho Yoon, Heejun Chung
Evaluation of Neutron Flux on the Surface of a PWR Dry Storage Cask - 17574
Kwang Pyo Kim, Jin Ho Park, Min Jun Kim, Woon Jin Kim, Hyejun Chung

SESSION 032D – DEEP GEOLOGICAL DISPOSAL FOR RADIOACTIVE WASTE/ USED FUEL

Sorption Behavior of Iodide Ions on Calcium Silicate Hydrate Formed under the Condition Saturated with Saline Water - 17069
Hirotaka Tago, Yuichi Niibori, Taiji Chida

Sorption Behavior of Cesium Ions on Calcium Aluminosilicate Hydrate under the Condition Saturated with Saline Water - 17096
Hirotaka Tago, Yuichi Niibori, Taiji Chida

Influence of Calcium Concentration on Permeability Changes in Flow-paths Altered by Highly Alkaline Groundwater - 17129
Wen-Sheng Lin, Chen-Wuang Liu, Suo-Yan Liang

Sorption Behavior of Cationic Radionuclides on Biotite Flakes at pH 5 - 17326
Taiji Chida, Tomoyuki Toyota, Yuichi Niibori

SESSION 032E – THEORY AND MODELING OF HLW

A Dissipation-Based Method for Improving the Accuracy of Computational Fluid Dynamics Simulations of High Level Non-Newtonian Waste - 17351
Dwayne McDaniel, Seckin Gokaltun, Ahmadreza Abbasi Baharanchi

Modeling of Coupled Thermo-Hydro-Mechanical-Chemical Processes for High-Level Radioactive Waste Repositories - 17361
Russ Shaffer, Nick Drucker, Stefani Werner

Savannah River Site HB-Line Plutonium Oxide Production Process Simulation Model - 17458
Russ Shaffer, Nick Drucker, Stefani Werner

SESSION 033 – STUDENT POSTERS: THE NEXT GENERATION – INDUSTRY LEADERS OF TOMORROW

Proposal of a Descriptive Modeling of Portland Cement Behavior under Radioactive Waste Repository Environment - 17267
Eduardo Ferreira, Júlio Takehiro Marumo, Roberto Vicente

High-Resolution Aerial Radiation Mapping for Nuclear Decontamination and Decommissioning - 17371
Peter Martin, John Fardoulis, Oliver Payton, Thomas Scott

Site Selection Parameters for Deep Boreholes and Use of Shotcrete in Waste Disposal Area in the Borehole. - 17400
Shashank Sekhar Kumar

Radiochemical Methodology Applied to Determination of Gamma Emitting Radionuclides in Waste Samples from IEA-R1 Reactor - 17265
Bianca Geraldo, Roberto Vicente, Marcos Maciel de Goes, Júlio Takehiro Marumo

The Importance and Impact of Public Engagement for the Nuclear Industry - 17602
Christopher Jones, Antonios Banos, Oliver Payton, Joseph Sutcliffe, Haris Parasekoulakos, Chong Liu, James Darnbrough, Oliver Stevens, Russ Springell, Keith Hallam, Mary Logan, Jamie Townes, Lewis Roberts, Kathryn Hutson, Oscar Yapp, Alex Donora, Stephen Huntley, Anna Adamska, Rebecca Smale, Richard Pancost, David Marshall, Hayley Shaw, Amanda Gray, Amanda Woodward-Hardy, Thomas Scott, Dong Liu

A Study of Geological Disposal Facility (GDF) Ageing Phenomena in Bentonite - 17605
Macarena Leal, Fiona Whitaker, Thomas Scott

Drying Simulated Advanced Gas Reactor Fuel: Proving the Concept - 17637
James Goode, David Harbottle, Bruce Hanson

Modeling of Radiolytic Production of Oxidants Relevant to Corrosion of a Used Fuel Container in DGR Environments - 17641
Ryan Marcro, Jitu Joseph, David Hall, David Shoemith, J. Clara Wren

TheGd Based Neutron Absorber for Spent Fuel Storage and Transport Cask - 17636
Mi Jin Kim, Hee-Jae Lee, Dong-Seong Sohn

SESSION 034 – PANEL: FUKUSHIMA DAIICHI NPP – FOCUS ON 1F ON-SITE DECOMMISSIONING WASTE MANAGEMENT –(4/8)

Introduction of Technical Challenge on Decommissioning of Fukushima Daiichi - 1340
Jun Matsumoto

Technologies for Contaminated Water Treatment and Remote Handling Systems - 1350
Tadashi Totsuyanagi

Fukushima Liquid Waste Treatment - 1359
James Braun
SESSION 042 – PANEL: YOUNG PROFESSIONALS IN NUCLEAR SCIENCE AND ENGINEERING AN INTERNATIONAL PERSPECTIVE

My Experience of the Nuclear Industry So Far
Hannah Paterson

Young Professionals in Nuclear Science and Engineering, An International Perspective
Christine Wipfli

Young Professionals in Nuclear Science and Engineering - A UK YGN Perspective
Michael Bray

SESSION 043 – STRATEGIES AND CONSIDERATIONS FOR SPENT OR USED NUCLEAR FUEL STORAGE

A Classification of Commercial Nuclear Reactor Sites and the Subsequent Impacts on Preparing Spent Nuclear Fuel for Shipment
Casey D Trail, Patrick Moses, William Nutt

Preliminary Evaluation of Removing Used Nuclear Fuel from Shutdown Sites – 2016 Update
Steven Maheras, Ralph Best, Steven Ross, Jeff England, L. Mel Massaro, Philip Jensen

Potential Cost Implications of an Interim Storage Facility for Commercial SNF
Josh Jarrell, Robert Joseph, Robert Howard, Riley Cumberland, Gordon Petersen, Mark Natt, Joe Carter, Thomas Cotton

Developments in the Regulatory Framework of Interim Storage of Spent Nuclear Fuel (SNF) in Germany
Christoph Gastl, Julia Palmes

Extended Storage Considerations for Dry Cask Storage Systems Using Welded Stainless Steel Canisters
Shannon Chu

Compact System for Operating and Decommissioned Reactor Used Fuel Management
Jayant Bondre, Ahmad Salih, Uwe Wolf

SESSION 044 – ISOTOPE SEPARATION: OPPORTUNITIES AND IMPROVEMENTS

Disposition of Options for Mk-42 Materials
Robert Jubin, Bradley Patton, Sharon Robinson

Processing and Disposition of Special Actinide Target Materials
Sharon Robinson, Bradley Patton, Mitin Du, Nicholas Quintero, Nicholas Bridges

Next Generation Spectrophotometer System for Enhanced in Process Pu Monitoring of Effluent Waste Streams
Jean Plummer, David Immel, Robert Lascola, Patrick O'Rourke, Edward Kyser III, Christopher Loyal

SESSION 045 – US DOE AND UK HLW TANK FARM PROPERTIES

Recent Progress in the Understanding of UK Highly Active Liquor Chemistry and Properties
Steven Thomson, Tracy Ward, Barbara Dunnett, Rachel Roberts, Jonathan Cheeswright

Estimating the Rate of Solids Accumulation in Double Shell Tanks
Chase Groves

Commissioning of a GeoMelt Vitrification Plant at the Central Laboratory on the Sellafield Site
Shannon Moulin-Ramsden, Brett Campbell, Eric Dysland, Kevin Finnegan, Severin Matt, Charlie Scales, Steve Woonley, Julian Roe

Novel Glass Formulations for Post Operational Clean out of Highly Active Storage Tanks
Hannah Paterson, Michael Ingrams

SESSION 046 – EMERGING TECHNOLOGIES FOR LLW/ILW WORLDWIDE

Treatment of Magnesium-Thorium Alloy Used in Military Defense Equipment by Separation of Thorium and/or Thermal Oxidation
Carl Österberg

The Innovative Universal Separation Process (USEP) for Disposal of Mixed Liquid Waste Via Unconditional Clearance Approach
Sriram Suryanarayan, Jude Gomez, Blair Sim

Treatment of Radioactive Sludge from Waste Water Treatment for Weight and Volume Reduction with FreezeTec-Technique
Keith Winer, Dewey Burbank, Lawrence Petkus, Ross Hamlett, Stephan Moen

Hanford WTP LAW Melter Startup and Tuning Feed Development
Carl Österberg, Jens Eriksson
SESSION 047 – ADVANCES IN THE MANAGEMENT OF NUCLEAR POWER PLANT DRY WASTE FROM AROUND THE WORLD

EPRI Research Results: The EPRI Implementation Guide for the NRC BTP on Concentration Averaging and Encapsulation - 17488..........................................................................................................................................................................................1769
Karen Kim, Thomas Kalinowski, Lisa Edwards
Measuring, Cutting and Sorting Irradiated Control Rods to Limit the Volume of Intermediate Level Long-lived Waste - 17001..........................................................................................................................................................................................1788
Sylvain Janski
Testing and Starting up of the Plasma Melting Facility for Industrial Treatment of Radioactive Waste - 17362.................................................1799
Jon Deckers, Eduardo Andree
Recent Advancements in Tomographic Gamma Scanning for Non-Destructive Assay - 17321 .................................................................................1808
Sasha Phillips, Dante Nakazawa, John Kirkpatrick, Susan Smith, Lionel Tondut, Patricia McClay, David Petroka, Marcel Villani, Xavier Ducoux, B. Oginni

SESSION 048 – PERSPECTIVES ON MANAGEMENT OF NUCLEAR POWER PLANT LIQUID AND WET WASTE

A Tritium Management Tool for Light Water Detritiation - 17320 .........................................................................................................................................................1820
Jeremy Whitcomb, Dave Carlson, Nicephore Bonnet
Treatment of Activated Carbon, PVC, and Other Wastes using the THOR process – Pilot Plant Test Summary - 17399.................................................................................................................................................................................................................1828
Adam Fester, Howard Stevens, W. Scott Roese
Use of Layered Double Hydroxide (LDH) Sorbents to Remove Radioactive Iodine Species - 17178 .................................................................................1839
Jaehyuk Kang, Woonyor Um
Pilot Plant Test of Removal of Co-60 and Cs-137 from the Evaporator Concentrates of Forsmark Unit 3 - 17158 ..........................................................1846
Jussi-Matti Mikki, Leena Malinen, Hans Daniels

SESSION 049 – ENVIRONMENTAL REMEDIATION PROGRESS TOWARD CLOSURE OF CONTAMINATED SITES AROUND THE WORLD

Analysis of Past Leaks from Waste Management Area C, Hanford, Washington - 17525.................................................................................................................................................................................1853
Matthew Kasak, Ameena Mayonna, Marcel Bergeron, Jim Field, William McMahon
Characterization and Remediation of the Hanford 618-10 Burial Ground Vertical Pipe Units - 17121.................................................................................................................................................................................1869
Sylvina Di Pietro, Hilary Emerson, Yelena Katsenovich
Ammonia Gas Treatment for Uranium Immobilization at US DOE Hanford Site - 17067.................................................................................................................................................................................1877
Characterization and Well Remediation Strategies for Improved Long-term Pump and Treat System Injection Well Performance - 17272 .................................................................................................................................................................................1890
Brady Lee, M. Hope Lee, Mark Carlson, James Geiger, Danielle Saunders, Kevin Brul, Elsa Cordova, Mike Niebauer, Beren Christiansen
Implementing an Alternative Modeling Strategy for Closure of the Rainier Mesa Corrective Action Unit at the NNSF - 17481.........................................................................................................................................................1905
Andrew Tompson, Kenneth Rehfildt
Stakeholder Involvement in the Revegetation of the 92-Acre Area - 17152 .................................................................................................................................................................................1919
Richard Arnold, Tiffany Lantow, Alissa Silvays, Reed Poderis
Dounreay Site’s Interim End State–Environmental Safety Strategy - 17509.................................................................................................................................................................................................................1924
Ella Feist, Roger Wilmut, Graeme Morgan

SESSION 050 – INNOVATIVE FIELD MONITORING FOR ENVIRONMENTAL REMEDIATION

Solving Complex Radioactive Decay Chains for Future Assessment and Cleanup Decisions - 17046 .........................................................................................1943
Fred Dolislager, Stuart Walker, Leslie Galloway, Michael Bellamy, Kathryn Bohus
Coupling Big Data Analytics and Reactive Transport Modeling for Cost-effective Groundwater Monitoring - 17163 .................................................................................................................................................................................................................1949
Haruka Wainwright, Boris Faybishenko, Sergi Molins, George Pau, Miles Denham, Mark Amidon, David Moulton, Konstantin Lignskov, Vicky Freedman, Mark Freshley, Carol Edy-Dilek
Innovative Data Management System in Support of Remedial Actions for Legacy Radioactive Contamination - 17280.................................................................................................................................................................................................................1960
Douglas Chambers, Gerd Wiatzka, Ron Stager, Monica Dupre, John Benson, Erwin Santiago, Walter van Veen
Stuart Walker, Fred Dolislager
Cynthia Tabor, Ryan Childress, Marcel Bergeron, Trevor Budge, Julie Robertson, Chris Kemp, John Young, Travis Hammond
Chaotic Advection and Unsteady Flow in Groundwater Remediation - 17237 .................................................................................................................................................................................................................2000
David Mays, Roxanne Neupauer
Installing Deep Groundwater Monitoring Wells in a Volcanic Dominated Rift Basin: Los Alamos National Laboratory, New Mexico - 17594
Mark Everett, Danny Katzman, David Braxton, Stephen White

SESSION 051 – ROBOTICS AND REMOTE SYSTEMS – NUCLEAR ENVIRONMENTS: HARDWARE – NEXT GEN SYSTEMS-(2/5)

Automation Toward Tetherless Robotic Operations in Nuclear Facilities - 17474
William Whitaker, Heather Jones, Sebastian Scherer, Joseph Bartels, Warren Whitaker, Matthew Hanzeor, Michael Lee, Weihun Zhen

Human-Centered Exoskeleton: Upper Extremity Strength Augmentation in Occupational Settings - 17297
Donald Peterson, Simon Kudernatsch, Takafumi Asaki

VOLUME 4

Robotic Grasp Assistance for Decontamination and Decommissioning Tasks – Initial Applications with RoboGlove - 17310
Thomas Sugar, Sangram Redkar, Joseph Hitt

Towards Cooperative Control of Humanoid Robots for Handling High-Consequence Materials in Gloveboxes - 17291
Taskin Padir, Holly Yanco, Robert Platt

High-Dexterity Robotics for Safety and Emergency Response - 17104
Jared Worley, Michael McClellan, Reed Young, David Handelman, Rodrigo Ramundo, Matthew Johannes, Christopher Dohopolski

Ensuring NQA-1 Compliance with Nuclear Next Gen Technologies Performing a Safety Function Associated with Autonomy or Remote Systems - 17549
Teo Grochowski

SESSION 052A – LLW, TENORM, NORM TREATMENT TECHNOLOGIES

Development of Microwave Technology for TENORM Waste Treatment - 17377
Roberto Vicente, Ricardo Naifel Toledo, Ricardo Bezende, José Claudio Dellamano, Julio Takehiro Marumo

Studies on Oxidation Treatment of Spent Ion Exchange Resin (2) - 17330
Toshiaki Sugimori, Seiichi Murayama, Yumi Yaita, Shinya Miyamoto, Yu Yamashita, Masaaki Kaneko, Masumitsu Toyohara

SESSION 052B – WASTE CHARACTERIZATION AND MEASUREMENTS OF LLW/ILW

Effect of Natural Organic Matter on Radionuclide Partitioning in Nuclear Fuel Storage Ponds - 17136
Hollie Ashworth, Sarah Heath, Nick Bryon, Liam Abrahamsen, Simon Kellet

Estimation of Cs Migration Under an Unsaturated Condition by Parallel-plate Experiments and 2D Advection-dispersion Model - 17188
Takumi Nemoto, Yuichi Nishi, Taiki Chida, Takenori Ozatsumi

Safe Packaging of Chemically Reactive Radioactive Waste – Addressing the Data Needs - 17487
James Borrelbach, Elizabeth Raines, Martin Piva

Self-Absorption Corrections for Plutonium Measurements with the Tomographic Gamma Scanner - 17325
John Kirkpatrick, Donte Nakazawa, Patricia McClay, David Petroka, Marcel Villani, Xavier Ducoux, Sasha Philips, Susan Smith, Lionel Tondut, Babatunde Ogunni

Streamlining and Transparently Automating Complex Waste Determinations at Los Alamos National Laboratory (LA-UR-16-26220) - 17286
Nita P Patel, Stanislav Marczak, Sean Sandorghi

Validation Testing of Radioactive Cesium Measurement in Decontaminated Waste with the Scattering Gamma Equivalent Method - 17238

Development of Estimation Method of Radioactivity Concentration Distribution of Radioactive Wastes in a Box-shaped Container - 17034
Yasuaki Nagumo, Takahiro Tadokoro, Yuichiro Ueno, Yoshikatsu Tsukiyama, Hideki Yamai, Takashi Kitahara

Radon Vapor Intrusion Screening Level Calculator - 17041
Stuart Walker, Fred Dolslager, Leslie Galloway

Evaluation and Interpretation of Properties for Saltstone Cores Extracted from an SDU - 17344
Steven Sinners, Marissa Reigel

The Micro-Optical Ring Electrode: A Sensor for Multiple Actinide Ions Monitoring - 17586
Gary Linnett, Fabrice Andrieux, Nick Aliberton, Xavier Poteau
SESSION 052C – LLW/ILW SOLIDIFICATION & MACRO-ENCAPSULATION

Geopolymer Solidification of Intermediate Level Waste - 17078 ............................................................................................................ 2221
Kanae Matsuyama, Hirofumi Okabe, Chiaki Shimoda, Shinya Miyamoto, Masaaki Kameko, Miechiaki Sato, Masamitsu Toyohara

Proven Technologies for the Solidification of Liquid Radwaste; Global Case Studies of Applications and Disposal Options - 17084 ............................................................................................................ 2230
Dennis Kelley, Artem Gelas

Immobilization in Cement of Rice Husk used as Biosorbent of Radionuclides Present in Radioactive Liquid Waste - 17225 ............................................................................................................ 2240
Eduardo Ferreira, Julio Takehiro Marumo, Rafael Vicente de Padua Ferreira

Solid Secondary Waste Form Testing Activities for the Integrated Disposal Facility Performance Assessment Support - 17567 ............................................................................................................ 2248
David J Swanberg, Elvie Brown, Ralph Nichols, Roger Seitz

SESSION 052D – ASSESSMENTS OF LLW DISPOSAL SYSTEM

Chemical Compatibility of Geosynthetic Clay Liner to Aggressive Low-Level Radioactive Waste Leachate - 17296 ............................................................................................................ 2260
Kuo Tian, Craig Benson

The Status of LILW Complex Disposal Facility Construction in Korea - 17123 ............................................................................................................ 2270
Young-Lim Shin, Young-hoon Kim

Project Basis for Automation of a Quality Assurance System in Radioactive Waste Management - 17317 ............................................................................................................ 2285
Ricardo Smith, Roberto Vicente

SESSION 053 – NUCLEAR POWER PLANT (NPP) WASTE MANAGEMENT - POSTERS

Reuse of Ion Exchange Resins for Reduction of Spent Radioactive Resins - 17125 ............................................................................................................ 2294
Sung Paal Yim, Cheo Kyung Lee, Se Yup Lee

Development of a New Clearance Monitor for Exemption of NPP Radioactive Wastes and its Performance Test - 17200 ............................................................................................................ 2300
Kidoo Kang, Younggiu Lee, Missung Lee

Subdrain Water Treatment Facility for Reduction of Accumulated Waste Water Amount at the Fukushima NPS Site - 17572 ............................................................................................................ 2315
Tosan Ohashi, Yuka Kami, Yasuo Yoshii, Fumio Takaahashi, Takashi Asano, Kenji Nishita, Yasuke Kita moto, Ken Yamaguchi, Kei Kobayashi, Yuichi Kurosaki, Mitsuaki Yamazaki

SESSION 054 – PANEL: FEATURED COUNTRY JAPAN: DOING BUSINESS IN JAPAN – (6/8)

Don't Compromise Your Culture and Learning Process ............................................................................................................ 2322
Yohei Iwasaki

How to Communicate Successfully in Japan ............................................................................................................ 2325
Akira Ohno

Utilizing the Strengths of Two Cultures to Make a World of Difference ............................................................................................................ 2329
James Brown

Doing Business in Japan - Understanding and Responding to Cultural Differences ............................................................................................................ 2332
Robert Bonner

Recognizing the Differences, Adapting to the Japanese Approach to Business ............................................................................................................ 2336
Colin Austin

Fukushima Revitalization after 6 years - On the Ground ............................................................................................................ 2341
Taisuke Sakurai

Present Situation of Reconstruction and Revitalization in Damaged Area after the Great East Japan Earthquake Disaster at 2011.03.11 and Accidents of Fukushima Daiichi NPS ............................................................................................................ 2348
Yoshitomo Ozawa

Activity of National Institute of Technology, Fukushima College ............................................................................................................ 2356
Shigeaki Suzuki

JAEA Commitment to Revitalization of Fukushima ............................................................................................................ 2372
Shinichi Nakamasa

Fukushima - Daiichi Revitalization of the Local Areas and Economy ............................................................................................................ 2378
Rick McLeod
SESSION 062B – PANEL: NUCLEARIZED ROBOTICS – INTERNATIONAL ON USE AND NEED CONTINUED

WM Needs and Uses - Land, Air, Underground, Underwater ..................................................2542
William Whitaker

Wearable Robots for Worker Assistance .................................................................................2549
Thomas Sugar, Sangram Redkar, Joseph Hitt

Nuclearized Robotics - Lessons Learned and Perspectives ..................................................2554
Shinji Kawatsuna

Nuclearized Robots Perspectives on Use and Need ...............................................................2558
Robert Buckingham

Science of Safety Enabling a Next Generation Workforce ....................................................2561
Philip Heermann

Development of Robotic & Remote Systems for Difficult to Access Environments .............2565
Thomas Nance

Wrap-Up ................................................................................................................................2569
Rodrigo Rimando

SESSION 063 – DEVELOPMENTS IN DEEP BOREHOLE DISPOSAL AROUND THE WORLD

Deep Borehole Disposal Research in the United States - 17427 ........................................2571
Timothy Gunter, Geoff Freeze

Conceptual Design of the Package Handling System for the Deep Borehole Engineering Demonstration - 17064 ..........................................................2578
Frederick Perretz, Abidun Adeyi, Paul Noguchi, Ernest Hardin

Terminal Sinking Velocity for Waste Packages Falling in a Deep Borehole - 17063 ............2594
Elena Kalinin, Ernest Hardin

Overview of Features, Events, and Processes Affecting the Postclosure Performance of a Deep Borehole Disposal Facility - 17168 .................................................................2604

Ceramic Plugs for Deep Borehole Seals - 17316.................................................................2618
William Lowry, Ken Coates, Kenneth Wollete, Sandra Dunn, Andrew Douglas, Bill Arnold, Edward Patena, Lori Groven

Determining Salinity Recharge Time for Deep Borehole Disposal - 17480 ....................2633
Karl Travis, Fergus Gibb, David Burley

Probabilistic Performance Assessment for Deep Borehole Disposal of Cs/Sr Capsules - 17143 ..........................................................2644
Geoff Freeze, Emily Stein, Kristopher Kuhlman, Glenn Hammond, Jennifer Frederick

SESSION 064 – US DOE HANFORD DIRECT FEED LOW ACTIVITY WASTE-(1/3)

Implementing a Low Activity Waste Direct Feed Capability in the Hanford Waste Treatment Plant - 17277 ..........................................................2659
Jason Young, William Hamel, Jeffrey Bruggeman

Design, Fabrication and Start-up of Test Facilities for the LAWPS Full-Scale IX Column Test and Engineering Scale Test - 17418 ..........................................................2664

Paul Townson, Matt Landon, Tracy Barker, Dena Notaras, Darren Shank

Low Activity Waste Pretreatment System (LAWPS) Technology Maturation Program and Scaled Testing - 17408 ..........................................................2677
Matt Landon, Kevin Ard, Sahid Smith, Clark Carlson

Low Activity Waste Pretreatment System Bench-Scale Testing: Supporting Integrated Testing and Facility Safety Analyses - 17171 ..........................................................2694
Philip Schonewill, Renee Russell, Richard Daniel, Heather Colburn, Sam Bryant, Philip Gauglitz, Scot Rassat, Clark Carlson, Matt Landon, Kevin Ard, Paul Cavanah

Data Quality Objectives for Direct LAW Feed Acceptance and Qualification - 17122 ............2709
Aruna Arakali, Stuart Ams, Tom Beam, Peter Benson, David Blumenkranz, Mary Burundi, Brenda Christie, Robert Henkel, Duc Nguyen, David Raineman, Jacob Reynolds

Direct-Feed Low-Activity Waste: First Feed Flowsheet - 17108 .............................................2715
Laura Cree

Technology Basis for Savannah River Tank Closure Cesium Removal Project - 17448 ..........2726
Randy Duncan, Thomas Gammon, Mark Beck

SESSION 065 – HIGH LEVEL RADIOACTIVE WASTE FORM STUDIES

Effect of Silica Particle Size on Nuclear Waste-to-Glass Conversion - 17319 ......................2734
Derek Dixon, Derek Cutforth, Brad VanderVeen, Michael Schweiger, Pavel Hrma
VOLUME 5

The Effect of 85Kr Decay to 85Rb on Waste Forms – 17105

Robert Juhin, Stephanie Brogley, Barry Spencer, Denis Strachan

SESSION 066 – HLW INSPECTIONS AND SAMPLING

Video Camera Improvements to Support Hanford Tank Farms - 17141

Benjamin Andros

Development and Testing of Robotic Inspection Tools for the High-Level Waste Double Shell Tanks at Hanford - 17292

Michael DiBono, Dwayne McDaniel, Yew Teck Tan, Anthony Abrunhao, Ryan Sheffield

Failure Evaluation of Savannah River Site High-Level Waste Evaporator 242-2SH – Part I - 17366

Thomas Yamamoto

Optimization of Low Level Waste Disposal Policy, Strategies and Techniques - 17201

Kapila Fernando, Peter Ormai, Michel Dutzer, John Shevelan, Felicia Niculita Dragoleici, Jiri Faltejsek, Lisa Almkvist

A Hybrid Approach to the Use of Safety Functions with Features, Events, and Processes (FEPs) in Performance Assessment - 17524

Matthew Kozak, Marcel Bergeron

Radon Fluxes from Two Earthen Barriers Over Uranium Mill Tailings After Two Decades of Service - 17234

Kuo Tian, Craig Benson, William Albright, Mark Fuhrmann, William Waugh, William Likos, Nicholas Stefani, Morgan Williams

SESSION 067 – ASSESSMENT OF WORLDWIDE DISPOSAL SYSTEMS, FACILITIES AND SITES FOR LLW/ILW-(2/2)

Development and Testing of a High Level Waste Slurry Sampling Technique to Support Hanford Waste Processing - 17164

Steven Kelly

SESSION 068 – PLANS FOR AND EXPERIENCE IN TRANSITIONING FROM OPERATIONS TO DECOMMISSIONING

EPRI Guidance for Transitioning from Operation to Decommissioning at Nuclear Power Plants - 17438

Richard Reid, Richard McGrath, Phuong Tran

Radioactive Contamination Tenacity on Building Substrate - 17417

Chris Hutson, Liam Payne, Thomas Scott, Alex Jenkins

Deployment of Diamond-Based Radiation Detector for Very High Dose Rate Measurements - 17042

Hiroshi Seki, Mitsuaka Ianuma, Takashi Kitahara, Atsuko Enomoto

Improved Decommissioning Success Using the Tool of Virtual Reality; Increasing Worker Safety and Project Schedule Stability - 17193

Hubert Hafen, Jean-Michel Wagner, Wolfgang Metzger

Consolidated Nuclear Security, LLC Excess Facility Disposition Program - 17289

Ken Harranwood, Durand Carmany, Jim Blair, Kevin Lancaster, Dirk Van Hoesen, Rebecca Rogers

SESSION 069 – US DOE EM RISK-INFORMED PERFORMANCE BASED DECISION MAKING

Decision Analyses for Groundwater Remediation - 17051

Velnimir Vesselinov, Dan O’Malley, Danny Katzman

Applications of the Advanced Simulation Capability for Environmental Management (ASCEM) - 17253

Vicky Freedman, Mark Freshley, David Moulton, Haruko Wainwright, Sergi Molins, Kay Birdsell, Dylan Harp, Ziming Lu, Edward Kwikits, Velnimir Vesselinov, Dan O’Malley, Danny Katzman, Konstantin Lpinskov, Erin Barker, Paul Dixon

Risk Assessment and Management of Uranium Mill Tailings Legacies - 17508

Maria de Lurdes Dinis, Antonio Pinza
SESSION 070 – ENVIRONMENTAL REMEDIATION IN URBAN AND SUBURBAN ENVIRONMENTS – EXAMPLES FROM AROUND THE WORLD

Uranium and Beryllium Decontamination and Decommissioning in a Developed Neighborhood - 17494
John Hunt, Nelson Walter, Rod Pendleton, Jason Provencorh

Radiological Surveys of 1600 km of In-Use Roads in Ichinoseki City, Japan Following the Fukushima Dai-ichi Reactor Accident - 17467
Jeffrey Lively, Steve Rima

Remediation of Residential Properties Contaminated with LLRW as Part of the Port Hope Area Initiative - 17456
Stuart Bailey, David Raymond, Erwin Santiago

The Port Hope Area Initiative’s Port Granby Project: From Planning to Execution - 17451
Steve Rima, Stuart Bailey, Everett Wexner, Mark Galanter

SESSION 071 – PRESERVATION OF CULTURAL RESOURCES/ARTIFACTS AND THE USE/DEVELOPMENT OF VISITOR CENTERS AND MUSEUMS

The Evolution of Community Engagement Through the Ongoing Services Provided by the Fernald Preserve
Visitors Center - 17402
Susan Smiley, Penny Borgan, John Homer

Heritage Center Cleanup/Closure/Revitalization - 17426
Sherry Browder, Kenneth Rueker, Jay Mullis, Lawrence Young

SESSION 072 – DECISION MAKING TOOLS AND FRAMEWORKS THAT ENHANCE COMMUNICATION FOR ERL CLEANUP PROGRAMS

Waste Information Management System with 2016-17 Waste Streams - 17246
Walter Quintero, Himanshu Upadhyay, Leonel Lagen, Peggy Shoffner, David Roelant

Peer Review Lessons Learned – DOE and Regulator Perspectives - 17140
Irene Farnham, Christine Andres, Charles Russell, Bill Wihm

A Good Decision is Based on Information, Not on Numbers – A Process for National Strategic Decision Making - 17203
Alan Paulley, Helen Cassidy, Hannah Kozich, David Collier

An IAEA Initiative to Provide Stakeholder Support Services for International Decommissioning and Environmental Remediation - 17341
Paul Black, Peter Orr, Christine Gelles, Horst Monken Fernandes, Patrick O’Sullivan, Keira Armstrong

SESSION 073A – PACKAGING, TRANSPORTATION, AND STORAGE – QUALIFICATIONS/EDUCATION & TRAINING - POSTERS

U.S. Department of Energy/Argonne National Laboratory Training Courses for Packaging, Transportation, and Storage of Radioactive Material - 17269
Roberta Briel, Zenghu Han, Ronald Pope, Yong Liu, James Shuler

Personnel Qualification and Certification Program in Pressure Decay Leak Testing on the RT-100 Type (B) Cask - 17229
Abdulsalam Shukhatrech

SRNL Training Courses for Packaging, Transportation, and Storage of Radioactive Material - 17597
Jeffrey Lively, Jeff England, Edward Ketucky, James Shuler

DOE Training Courses for Packaging, Transportation, and Storage of Radioactive Material - 17607
James Shuler, Jeffrey Coughlin, Jeff England, Edward Ketucky

SESSION 073B – PACKAGING, TRANSPORTATION, AND STORAGE – ADVANCES AND DEVELOPMENTS - POSTERS

The SAVY 4000 Container Storage Program at Los Alamos National Laboratory - 17313
Paul Smith, Timothy Stone, Tristan Karns, Kirk Reeves, Jude Oka, Kirk Veirs, Tresa Yarbrough, Robin Cunningham, Eric Weis, Murray Moore, Laura Worl

Developments of the Versa-Pac to Expand Use for the Industry - 17475
Tanya Storna, Andy Langston, Charlie Murphy, Philip Sewell

Routing Options for Transporting Commercial Spent Nuclear Fuel in the Continental United States - 17504
Colleen Brent, Michael Goforth, David Cunningham, Andrew Wilcox, James Headen, David Saxton, Cloee Grainger, William Nutt, Erica Bickford

A Study of Korea’s Experience in Regulating the Transport of Low and Intermediate-level Radioactive Wastes - 17182
Jeheon Bang, Yoon-Ji Lee, Sungil Kim, JaeYoung Park, Sangmyeon Ahn
SESSION 074A – ENVIRONMENTAL REMEDIATION ANALYSIS, TECHNOLOGY AND TREATMENT SYSTEMS

An Integrated, Systems-based Approach to Mercury Research and Technology Development - 17252 .................................................................3178
Mark Peterson, Scott Brooks, Teresa Mathews, Melanie Mayes, David Watson, Alex Johns, Tonia Melihorn, John Dickson, Charlie Mansfield, Elizabeth Phillips, Eric Pierce

Modeling and Analysis of Coupled Flow Through Packed Beds as a Diagnostic Tool for Packed Bed Reactor Health - 17172 .................................................................3187
Keith Wither, Thomas Zemanian

SESSION 074B – ENVIRONMENTAL REMEDIATION FIELD UNVESTIGATION AND REMEDIATION

Use of Test Beds to Facilitate Implementation of Innovative Technologies at Complex Sites - 17147 .................................................................3202
Carol Eddy-Dilek, Kevin Kostelnick

Exposure Assumptions Underlying Cleanups to Industrial Versus Unrestricted Uses: Comparison of State and Federal Approaches - 17228 .................................................................................................................................3214
Michael Gochfeld, Joanna Burger, David Kosson

FUSRAP Maywood Site – Remediation of a Residential Property at 61 Trudy Drive, Lodi, NJ - 17533 .................................................................3228
Andrew Mills, James Moore, William Koliar, David Hays, Ann Ewy

Mitigation of Radioactive Waste By Sampling and Analyzing The Affected Area and Efficient Use of Different Detectors - 17139 .................................................................................................................................3241
Shashank Sekhar Komar

Alauddin Khan, Steve Haase, Richard Ketelle, Holly Clancy, Lynn Sims, Samantha Pack, Dennis Mayton, Robert Gelinas

Legacy Sludge Removal and Treatment from Y-12 Storage Tank - 17585 .................................................................................................................................3265
Pat Hopper, Joe Hawk, Mark Kent

SESSION 075 – COMMUNICATIONS, INVOLVEMENT, EDUCATION AND TRAINING – POSTERS

URS/WTP Future Leaders Program and AECOM Early Career Professional Technology Exchange - 17239 .................................................................3274
Arsine Baghdasarian, Trevor Kilgannon

Ecological Resource Value, Remediation Options, and Impacts: Functional Remediation at Hanford Site - 17226 .................................................................................................................................3280
Joanna Burger, Michael Gochfeld, Amoret Bunn, Janelle Downs, David Kosson, Taryn Pittfield, Christian Jeitner, Jennifer Salisbury

Application of Structured Decision Making to Hanford Site Radiological Air Monitoring - 17294 .................................................................................................................................3294
Ralph Perona, Paul Black, Randall Ryt, Tom Stockton

Risk to Ecological Resources from Delayed Decommission and Waste Management: Case Studies from the Hanford Site - 17156 .................................................................................................................................3307
Joanna Burger, Michael Gochfeld, Christian Jeitner, Taryn Pittfield, David Kosson, James Clarke

Savannah River Remediation Liquid Waste Operation Lifecycle Savings Through a Lean Business System at the Savannah River Site - 17245 .................................................................................................................................3320
Laureen Rowell, Zachaery Todd

SRR’s “Next Step” in the Lean Journey – Taking Lean to the Workforce - 17247 .................................................................................................................................3327
Laureen Rowell, Robert Gray

SESSION 076 – PANEL: DISPOSAL OF GREATER-THAN-CLASS C AND TRANSURANIC WASTE: WHAT HAPPENS NEXT

Status of Greater-Than-Class C Low-Level Radioactive Waste Disposal .................................................................................................................................3337

NRC’s Activities Related to GTCC and Transuranic Waste Disposal .................................................................................................................................3341
Gregory Sauer

GTCC & TRU: What’s Next for WCS? .................................................................................................................................3346
Michael Ford

Disposal of GTCC Waste What Happens Next .................................................................................................................................3352
John Greaves

GTCC Waste Streams From Nuclear Power Plants .................................................................................................................................3354
Thomas Kalinowski

SESSION 077 – PANEL: DEALING WITH PROBLEMATIC US DOE MIXED WASTE STREAMS AND POLICY CHANGES

Solving Waste Disposition Challenges at the West Valley Demonstration Project .................................................................................................................................3357
Scott Anderson

Perma-Fix’s Transition of M&E Capabilities .................................................................................................................................3365
Tammy Monday
Waste Disposition at Hanford ................................................................. 3373
Connie Simiele

Waste Management/Disposition at East Tennessee Technology Park ................................................................. 3379
John Wrapp

DOE Waste Management Successes ................................................................................................................... 3387
Matthew LaBarge

SESSION 078 – REGULATORY AND PROGRAMMATIC ISSUES AND SOLUTIONS FOR LLW/ILW WORLDWIDE

EPRI Research Results: International Nuclear Power Plant Waste Classification - 17444 ................................................................. 3394
Karen Kim, Lisa Edwards

The Port Hope Areas Initiative’s Port Granby Project: Radiation Protection Program - 17446 ................................................................. 3412
David Cole, Brandyn Leager

Feedback of the Dutch Historical Waste Management Program - 17085 ................................................................. 3417
Gael Menard, Jaap Hart, Bas Janssen, Sander Nievaart, Aliki Van Heek

Recent Developments in Radioactive Waste Management in the Federal Republic of Germany - 17450 ................................................................. 3428
Barbara Freund

Risks of Hazardous Substances in Radioactive Waste for the Konrad Repository in Germany - 17522 ................................................................. 3432
Joseph Hoelscher, Martin Ast, Inna Harrne, Volker Bieling

Integrated Disposal Facility Performance Assessment: Modeling Consistency to Support Regulatory Decision Making at Hanford - 17398 ................................................................. 3441
Kearn Lee

VOLUME 6

A French Industrial Management plan for Very Low Level Radioactive Wastes (VLLW) at the CIRES Facility - 17012 ................................................................. 3458
Patrick Landais, Frederic Legee, Michel Dutzer

SESSION 079 – PANEL: CHALLENGES AND LESSONS LEARNED IN RADIOACTIVE WASTE PACKAGING, TRANSPORTATION, COMPLIANCE, AND RECEIPT

Relationship of Characterization, Packaging, Transportation, and Disposition ................................................................. 3470
Scott Dempsey

Challenges for Transportation & Compliance Related to Electronic Logging Devices (ELD’s) ................................................................. 3478
Robert Strang

Other Challenges ................................................................................................................................. 3486
Michael Snyder

SESSION 080 – PANEL: CHALLENGES IN PACKAGE CERTIFICATION – INTERNATIONAL PERSPECTIVES

WNTI Challenges in Back End Transport Area ........................................................................................................ 3491
John Mulkern, Henry-Jacques Neau

SESSION 081 – PANEL: DEEP BOREHOLE DISPOSAL OF RADIONUCLIDES (FOCUSED ON SNF AND HLW)

Addressing Technical Challenges of Deep Borehole Disposal ........................................................................................................ 3498
Mary Lou Zoback

Deep Borehole Disposal Concepts for Spent Fuel and HLW ........................................................................................................ 3505
Karl Travis

Deep Borehole Disposal International Drivers ........................................................................................................ 3512
Andrew Orrell

Deep Borehole Disposal Isolation Strategy ........................................................................................................ 3521
Ernest Hardin, Kris Kuhlman, Jason Heath

Deep Borehole Disposal - a Solution for HLW in Germany? ........................................................................................................ 3528
Frank Chartier, Bruno Thomasanke, Guido Bracke, Axel Liebscher, Frank Schilling, Thomas Rockel

A Concept of Disposal Canister and Handling System for DBD ........................................................................................................ 3542
Jong-Youl Lee

Deep Borehole Disposal, the Retrieve-ability Conundrum ........................................................................................................ 3550
Rod McCullum
SESSION 082 – WM2017 SELECT PAPERS OF FEATURED COUNTRY – JAPAN-(8/8)

Access Hatch Used for Debris Retrieval of the Fukushima Damaged Reactors - 17094 ..................................................................................................................3556
Tatsuya Nakane, Kengo Suzuki, Ikuro Sasaki

NitroJet’s Basic Characteristics and Decontamination Performance for Concrete Seabbling - 17025 ........................................................................3567
Tomoko Yamamoto, Akito Yamasaki, Jun Maeno, Yuichi Takahama

Water Sealing with NOH2O on the Fukushima Site - 17477 .................................................................3574

Side Access Procedure for Debris Retrieval of the Fukushima Damaged Reactors - 17127 .........................................................................................3589
Yuichi Takahama, Manabu Kishimoto, Hiroshi Takashige

Performance of Zeolite, Silicotitanate, CsTreat® and SrTreat® Ion Exchange Materials in Fukushima Clean-up - 17114 ..................................................................................................................3602
Risto Koivula, Risto Harjula, Esko Tusa

SESSION 083 – WORLDWIDE REGULATORY AND OVERSIGHT FOR WASTE MANAGEMENT AND DISPOSAL

From Dealing with Legacy Waste to Avoiding It - 17432 ..................................................................................................................3609
Oliver Rabe, Jörg Gebauer, Fabienne Anton

Recent Developments in the United Kingdom Geological Disposal Facility Programme - 17558 ..................................................................................................................3618
Jessica Ellis, Tom Wintle

The U.S. DOE-EM International Program - 17411 ..................................................................................................................3628
Jay Roach, Benjamin Rivera, Ana Han, Rosa Elmetti

Challenges in the UK Generic Design Assessment Process - 17062 ..................................................................................................................3649
Ron Crawford

SESSION 084 – PANEL: US DOE PROCUREMENT AND CONTRACTING TRENDS AND OPPORTUNITIES

US DOE Procurement and Contracting Trends and Opportunities ..................................................................................................................3660
Ralph Holland

Doing Business with The National Nuclear Security Administration ..................................................................................................................3669
Greg Gonzales

SESSION 085 – GEOLOGIC DISPOSAL OF HLW, SNF/UNF AND LONG-LIVED ALPHA/TRU

A Cable Car Transfer System for the Cigéo Access Ramps - An Original Approach - 17035 ..................................................................................................................3679
Raphaële Neeveu, Jean-Michel Bongrain, Jean-François Herve

Compressible Arch Segments for the Cigéo Access Ramps, Drifts and Vaults - A Field Test - 17011 ..................................................................................................................3692
Jean-Michel Bongrain, Gilles Armand, Jean Simon

There Are Safe Limits for Radioactivity – Does WIPP Need to Filter its Exhaust Air? - 17165 ..................................................................................................................3703
Panum Thakur, Russell Hardy, Brant Lemons, Hnin Khaing

High Level Waste in Salt Repositories: Experiments and Simulations of Evaporation in the Underground - 17167 ..................................................................................................................3712
Suzanne Bourret, Shawn Otto, Peter Johnson, Douglas Weaver, Hakim Boudhelfa, Philip Stauffer

Flow Rate Dependency of Permeability Changes with the Deposition of CSH under the Highly Alkaline Ca-rich Condition - 17175 ..................................................................................................................3723
Daiki Kurata, Yuichi Nibori, Taiji Chida

Performance Assessment of a Generic Repository for Defense-Related HLW/SNF in Fractured Crystalline Host Rock - 17059 ..................................................................................................................3731
David Sevougian, Emily Stein, Glenn Hammond, Paul Mariner, Jennifer Frederick, Michael Gross

SESSION 086 – HANFORD DIRECT FEED LOW ACTIVITY WASTE-(2/3)

Melter Downtime Impacts on DFLAW Glass Production and Process Efficiency - 17117 ..................................................................................................................3749
Rod Gimpel, Yueying Deng, Kevin Jenkins

Use of Uncertainty in Modeling DFLAW Treatment at Hanford - 17115 ..................................................................................................................3759
Rod Gimpel, Yueying Deng, Kevin Jenkins

Transitioning from Construction to Startup for the Waste Treatment and Immobilization Plant’s Low-Activity Waste Facility - 17284 ..................................................................................................................3770
Jason Young, William Hamel, Robert Gilbert

SESSION 087 – HANFORD DIRECT FEED LOW ACTIVITY WASTE-(3/3)

Current Efforts in Immobilized Low-Activity Waste Glass Testing to Support the Hanford Site Integrated Disposal Facility - 17119 ..................................................................................................................3776
David J Swanberg, Jim Neeway, Joseph Ryan, Nikollia Quafoku, Matthew Arnesen, Benjamin Parruzot, Gary L. Smith, Elvie Brown, Steven Kelly
SESSION 088 – INTERNATIONAL EXPERIENCE IN WASTE OPTIMIZATION/MINIMIZATION AND HARMONIZATION DURING D&D

Preliminary Study on Recycling and Reuse of Metals from Decommissioning in Construction of Disposal Vaults in Slovakia - 17217 ........................................................ ........................................................ .............. 3822
Christopher McKenney

Innovative Approach to the Management of Waste Arising from the Decommissioning of a Redundant Plutonium Processing Facility - 17081 ........................................................................................................................................ 3833
Richard Davey, Colin Pether, Nick Davidson, Robert Turnbull, Will Turnbull, Michael Hoberon

In Situ Disposal to Optimize Decommissioning Waste Management - 17455 ................................................................................................................................. 3846
Paul Hunt, Mike Pearl, Anna Clark

SESSION 089 – PANEL: STATUS AND UPDATE OF DECOMMISSIONING POWER REACTORS AND MATERIAL FACILITIES AND ISSUES

20 Years of the License Termination Rule: Status and Update of Decommissioning Power Reactors and Material Facilities and Issues ........................................................................................................................................ 3856
Bill Barley

Status and Update of Decommissioning Power Reactors and Material Facilities and Issues .................................................................................................................. 3862
Bill Barley

Some International Perspectives on Decommissioning Trends & Challenges ........................................................................................................................................ 3867
Simon Carroll

SESSION 090 – THE STAKEHOLDER'S VOICE – THE IMPACT OF CITIZENS AND REGULATORS ON RADIOACTIVE WASTE ISSUES

Engaging the Public on Complex Issues: Communication Challenges and Solutions - 17521........................................................................................................................................ 3872
Yvonne Levardi

Geographic Information Systems as an Opportunity for Engagement in Environmental Data Analysis for Nuclear Waste Management - 17505 ........................................................................................................................................ 3877
Arthi Nadhan, W. Sam Nutt, Kyra Dvorak, Cloee Grainger, Margaret MacDonell

Creating a Dynamic Advisory Board Public at the Savannah River Site Citizen Advisory Board Meetings - 17054 ........................................................................................................................................ 3883
Nina Spinelli

Controversial Projects and Potential Implications for the Consent-Based Siting of Nuclear Waste Management Facilities - 17345 ........................................................................................................................................ 3908

Considerations for Involving Citizen Science in an Integrated Waste Management System - 17506 ........................................................................................................................................ 3923
W. Sam Nutt, Arthi Nadhan, Margaret MacDonell, William Nutt, Jay Jones

A Comparison of Social and Economic Engagement Approaches: Lessons from Recent International Radioactive Waste Projects - 17478 ........................................................................................................................................ 3934
Sean White, Eric Knox, Rachel O'Donnell, Marvin Stemeroff, Cip Wingrove

The Radiation Unit is Difficult to the General Public to Understand – An Easier Alternative Unit is Required - 17223 ........................................................................................................................................ 3946
Kidoo Kang, Yuho Weon

SESSION 091 – ER POST CLOSURE CHALLENGES AND LONG TERM STEWARDSHIP/LEGACY MANAGEMENT – (1/2)

Long-Term Stewardship at Hanford - 17023 ........................................................................................................................................ 3967
Rick Moren

Radionuclide Migration at a Plowshare Program Site: The Gasbuggy Underground Nuclear Test Site, San Juan County, New Mexico - 17019 ........................................................................................................................................ 3979
Clay Cooper, Jenny Chapman, Rex A. Hodges, Julena Dayvault

Post-Closure Environmental Sampling and Inspection at the Amchitka Island, Alaska, Site - 17251 ........................................................................................................................................ 3994
Paul S. Darry, Mark Kautsky

Terrace Geochemistry at the Shiprock, New Mexico, Disposal Site - 17232 ........................................................................................................................................ 4005
Mark Kautsky, David Miller, Anthony Ranalli, David Dander

Long-Term Stewardship at a Former Uranium Mill Tailings Site in Riverton, Wyoming - 17090 ........................................................................................................................................ 4020
Bill Dam, April Gil, Raymond H. Johnson, Sam Campbell, John Bargar, Mary Picel
SESSION 092 – CHARACTERIZATION AND REMEDIATION TECHNOLOGIES FOR COMPLEX AND COMINGLED CONTAMINANTS

Removal of Technetium-99 on Ion Exchange Resin – A Case Study at 200 West Pump and Treat - 17303 ................................................................. 4057
Bill Barrett, Mark Carlson, Jennifer Kersh, Andrew Esparza, Greg Bergquist

High-Resolution Characterization of Co-mingled Contaminants in the Deep Vadose Zone, Hanford Site, WA - 17387 ................................................................................................................................................................................. 4070
Sarah Springer, Bruce Williams, Farah Elloy, James Hanson

Iodine Speciation Across the Length of the Hanford 200-UP-1 Operable Unit Radioiodine Plume and Biogeochemical Drivers of Speciation - 17270 ................................................................................................................................................................. 4083
Brady Lee, M. Hope Lee, John McDonald, Shelby Brooks, Michael Trues, Nikolla Qafoku, Jim Szecsody

SESSION 093 – D&D - POSTERS

CdZnTe Detector Using for Characterization MR Water Cleanup System Before Dismantling, - 17005 ................................................................. 4097
Alexey Stepanov, Iuri Simirskii, Ilia Semin, Anatoly Volkovich, Yacheslav Stepanov, Victor Potapov

Graphite Research Reactor (RFT) Spectrometric Investigation During Dismantling, - 17006 ................................................................. 4103
Iuri Simirskii, Alexey Stepanov, Ilia Semin, Sergey Smirnov, Anatoly Volkovich

Lessons Learned From Implementation of International Structure for Decommissioning Costing (ISDC) of Nuclear Installations - 17198 ................................................................................................................................................................................. 4110
Vladimir Danitska, Matej Zachar

The Reactor Graphite Handling - Problems and Solutions - 17208 ................................................................................................................................................................................. 4121
Yury Pokhliotnov, Mikhail Kirsin

Code eOMEGA – Decommissioning Costing of Nuclear Facilities Based on the ISDC - 17230 ................................................................................................................................................................................. 4128
Tomas Hrncir, Matej Zachar, Vladimir Danitska, Dusan Danitska, Peter Zucbak

Waste Minimization of HyBRID Decontamination Process - 17060 ................................................................................................................................................................................. 4137
Sang Yoon Park, Hui-Jun Won, Man-Soo Choi, Seon Byeong Kim, Wang-Kyu Choi, Jeikwon Moon

How Useful Are Imaging and Remote Sensing Technologies in Decontamination & Decommissioning? - 17363 ................................................................................................................................................................................. 4146
Alexey Stepanov, Oleg Ivanov, Anatoly Volkovich, Victor Potapov, Yacheslav Stepanov, Vitaly Lukyanov

Assessment on Transport of Radioactive Species from Nuclear Facilities - 17079 ................................................................................................................................................................................. 4157
Byung-Seon Choi, Kwan-Seong Jeong, Seon Byeong Kim, Jeikwon Moon, Byung-Youn Min, Jin-Myeong Shin

VOLUME 7

SESSION 094 – SPECIAL TOPICS AND TRACK CROSS CUTTING TECHNOLOGY TOPICS - POSTERS

Proposal of a Categorization of Disused Sealed Radioactive Sources with a View to Safety - 17285 ................................................................................................................................................................................. 4162
Paloma Suzanne Cabrera, Eduardo Ferreira, Julio Takehiro Marumo, Roberto Vicente

Department of Energy Training Institute Improves Delivery of Training - 17040 ................................................................................................................................................................................. 4170
Ted Giltz

A Practical Application of Integrated Systems Engineering and Project Management on a Complex EPC Project - 17207 ................................................................................................................................................................................. 4176
Anthony Prodhomme, Frank Curtolo

Test Methods for Cementitious Seal Materials for Borehole Disposal - 17352 ................................................................................................................................................................................. 4190
Christine Langton, Michael Williams, Eduardo Ferreira, Julio Takehiro Marumo, Roberto Vicente, A. J. Duncan

Effective Elastic Coefficients for Reinforced Composite Material - 17029 ................................................................................................................................................................................. 4203
Cheo Kyung Lee, Sothee Lun, Sang Paul Yi

Calculation of Permeability for Granular Porous Media - 17030 ................................................................................................................................................................................. 4214
Cheo Kyung Lee, Seang Se Be

Thermal Modeling Study for Geologic Borehole Conceptual Design - 17148 ................................................................................................................................................................................. 4223
Christine Langton, Si Lee, Christopher Verst, Julio Takehiro Marumo, Roberto Vicente, Eduardo Ferreira

SESSION 095 – PANEL: WEDNESDAY – US DOE FEATURED SITE: WEST VALLEY NEW YORK

West Valley Demonstration Project ................................................................................................................................................................................. 4239
Bryan Bower

Vitrification Facility Demolition ................................................................................................................................................................................. 4249
Craig Rieman

Demolition of the Main Plant Process Building at the West Valley Demonstration Project ................................................................................................................................................................................. 4259
Scott Anderson
The Future of the West Valley Demonstration Project ................................................................. 4267
Bryan Bower

The Seneca Nation ...................................................................................................................... 4272
Anthony Memmo

SESSIONS 096 – PANEL: KOREAN SPECIAL CHALLENGES AND OPPORTUNITIES: A PROBLEM SOLVING & MATCH-MAKING SPECIAL SESSION

Decommissioning Plan for Kori Unit 1 - RV/RVI Segmentation .................................................. 4274
Young Hwan Hwang

Waste Management Issues on Korean NPPs ............................................................................. 4282
Ji-Hoon Lee

Heavy Components Dismantle Technology and Replacement Experience in Doosan for the Preparation of Kori#1
Decommissioning ...................................................................................................................... 4296
Hee-Dong Suh, K. S. Park, W. J. Han, H. W. Kim, H. S. Je, S. H. Lee, C. S. Kong, J. G. Byeon

SESSION 097 – PANEL: PROGRESS ON DEEP REPOSITORY PROGRAMS AROUND THE WORLD

Update on Implementing Geological Disposal in the UK .......................................................... 4309
Bruce McKirdy

Progress on Deep Repository Programs Around the World ....................................................... 4315
Andrew Griffith

Repository Program in Finland ............................................................................................... 4317
Sami Hautakangas

Progress on Deep Repository Programs Around the World. The Swedish Case. ..................... 4321
Carl Reinhold Brakenhielm

ANDRA Update ...................................................................................................................... 4325
Patrick Landais

SESSION 098 – GLOBAL INSIGHTS INTO HLW/ USED FUEL DISPOSAL SITE SELECTION AND DEVELOPMENT

Site Selection Restart in Germany – Results of the Site Selection Commission - 17017 ................ 4335
Bruno Thomsaske, Frank Charlier

The Proposed Operations Master Plan of Cigéo - 17013 ...................................................... 4343
Patrick Landais, Pascal Leverd, Frederic Launeau

End of the (Fuel) Cycle: What can South Australia Learn From the World? - 17047 .............. 4352
Peter Palmato, Magnus Nydén

SESSION 099 – PANEL: CHALLENGES IN DOE HLW TANK MANAGEMENT: MAKING PROGRESS UNDER Differing Stakeholder and Regulatory Environments

Challenges in DOE HLW Tank Management .......................................................................... 4361
Kenneth Picha, Karthik Subramanian

West Valley Demonstration Project Guide to Successful Waste Shipments ............................ 4363
Daniel Sullivan

Making Progress Under Differing Stakeholder and Regulatory Environments ......................... 4370
Jean Ridley

Progress in High Hazard Risk Reduction @ Sellafield ............................................................ 4374
Graham Jonsson

Idaho's Experience with Tank Waste Management .................................................................... 4379
John Zimmerman

SESSION 100 – SPENT OR USED NUCLEAR FUEL: APPROACHES AND TECHNOLOGIES

A Proposed Path Forward for Standardization - 17131 .......................................................... 4385
Josh Jarrell, Robert Joseph, Riley Cumberland, Robert Howard, William Nutt

Extended Storage of High Burn-up Fuel Cask R&D Project - 17145 ........................................ 4398
Don McGee, Gary Clark

Material Investigation and Long-term Sealing Behavior of Helicoflex® Metal Seals Used in Containers for Spent Nuclear Fuel - 17135 ................................................................. 4409
Tobias Grelle, Dietmar Wolff, Ulrich Probst, Matthias Jaunich, Holger Völzke

Integrated Solutions for Interim Used Fuel Management: From Pool Unloading to Safe Delivery to Recycling or Repository Facilities - 17235 ............................................................. 4417
Jayanti Bondre, Catherine Shelton, Dennis Lang
SESSION 101 – GLOBAL USE OF CEMENTITIOUS WASTE FORMS FOR LLW/ILW

The Effect of Ettringite on Cementitious Waste Form Development for Low-Activity Waste - 17170
Sarah Saslow, Woonyoung Um, Gary L. Smith, David J. Swanberg, Rahul Sahajpal

Preparation, Performance and Mechanism of Tc and I Getters in Cementitious Waste Forms - 17124
Matthew Asmussen, Carolyn Pearse, Amanda Lawler, Brian Miller, Jim Newday, Bethany Lawler, Gary L. Smith, Jeffrey Serne, Nikolla Qafoku, David J. Swanberg

Solidification/Stabilization of Liquid Oil Waste in Metakaolin-based Geopolymer - 17209
David Lambertin, Fabien Frizon, Arnaud Poulesquen, Vincent Cantarel, Fabrice Leroux, Guillaume Renaudin

Retention of Cr in Metakaolin-based Geopolymeric Materials Under Oxidation and Carbonation - 17453
Offra Klein-BenDavid, Janelle Branch, Feng Zhang, Gabriela Bar-Ness, Michiel Arbel-Haddad, Rossane Delapp, David Konson

Selection of Binders for a Reactive Metal (Tungsten) Encapsulation - 17211
David Lambertin, Céline Cau dit Coumes, Fabien Frizon, Christelle Decanis, Charly Lemoine

The Pretreatment and Immobilization Test on the Greater than Class C Spent Ion Exchange Resins from Taiwan
Wei Hsiang Lin, Chun Ping Huang, Wan Fen Huang

Applications of Cementitious Materials Within the DOE Complex - 17548
Devon McClane, Elizabeth Hoffman, Amy Ramsey

Low Temperature Waste Form for Supplemental Immobilization of Hanford Low Activity Waste - 17485
David J. Swanberg, Alex Cuzzi, Nikolla Qafoku, Matthew Asmussen

SESSION 102 – RADIOACTIVE TRANSPORT PACKAGING DESIGN

Development of Type A Special Form Transport Packages - 17073
Sharon Robinson, Bradley Patton, Kevin Felker, Mitch Ferren, Steve Sherman, Angela McGee

Thermal Analysis of a Pipe Over-pack Container with a Combustible Waste Matrix for Los Alamos National Laboratory - 17307
Jude Oka, Timothy Stone, Paul Smith, Mike L. Caviness, Mark P. Croce

Aspects of Assessment of Packages with Wood Filled Impact Limiters During Fire Tests - 17191
Martin Feldhamp, Marina Erenberg, Markus Nehrig, Claus Bletzer, Andre Musolf, Thorsten Schönfelder, Frank Wille

Using FENOSOL™ Phenolic Foam as a Shock Absorber for Type B Packaging - 17256
Jared Bower, Thomas Garnier, Alain Joudou

Hydrophobic Filter Material for Nuclear Material Transportation and Storage Containers - 17518
Kirk Reeves, Tristan Karns, Brian Scott, Paul Smith

Development of a New 48 Inch UF6 Cylinder Overpack - 17476
Tanya Sloma, Philip Sewell, Andy Langston, Arvegne Wegahita

Use of Ductile Iron for Radioactive Waste Packaging and Shielding in the United States - 17278
Michael Snyder, James Georgeff

SESSION 103 – KEY ASPECTS OF D&D OF NUCLEAR POWER PLANTS - WORLDWIDE

International Developments on Uncertainties in NPP Decommissioning Costs and Planned Work on Benchmarking at the OECD-NEA - 17074
Simon Carroll

EPRI Report: Guidance in the Use of Robotics and Automation for Decommissioning Nuclear Power Plants - 17440
Richard Reed, Richard McGrath, Phang Tran

Use of Nuclear Divers in Decommissioning of Spent Fuel Pools/Ponds in the United Kingdom - 17431
Allen Neiling

Strategic Aspects on Waste Management in Decommissioning - 17224
Arne Larson, Gunnar Hedin, Niklas Bergh, Per Lidar, Thom Rannemalm, Sofia Eliasson

Vattenfall Decommissioning Planning in Sweden - 17544
Gunnar Wikmark, Lars Björnkvist, Veronica Wegahita, Magnus Reinsjö, Henrik Stridsman

Upfront Update on Barsebäck 1-2 Reactor Internals Segmentation Project - 17382
Joseph Boucau, Per Sejerud, Stefan Fullstrom
SESSION 104 – FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM (FUSRAP) AND US ARMY CORP OF ENGINEERS PROJECTS

Phytoscreening for Volatile Organic Compounds in a Clay-based Glacial Till at the Niagara Falls Storage Site, New York - 17372 .................................................................4688
William Fredericke, Shaina Souder, Matthew R. Masset, Neil Miller

Overcoming Vicinity Property and Ground Water Challenges at the FUSRAP Middlesex Sampling Plant Project - 17529 .................................................................4699
Helen Edge, David Hays, Ann Ewy, Dan Kennedy

A Retrospective Assessment of Correlation Between Occupational & Public Radiation Protection Programs

Performance Metrics at a FUSRAP Site - 17546 .................................................................4713
Michael Winters, Nick Berliner, David Hays, Jough Donakowski

Formerly Utilized Sites Remedial Action Program - Program Update - 17530 .................................................................4719
Ann Ewy, David Hays, Nicki Fatherly

A Comparison of Select USDOE and USEPA Risk and Dose Assessment Tools Utilized at Two FUSRAP Projects - 17388 .................................................................4723
David Hays, Ann Ewy, Jough Donakowski

Statistical Tools and Lines of Evidence Used to Differentiate FUSRAP/Non-FURAP Related Material at an Inactive Landfill - 17553 .................................................................4734
AmyMarie Accardo-Dey, Ann Ewy, David Hays, Richard Califano, Ed Dudek, Theodore Rahon

FUSRAP Maywood Site-Remediation of Redstone Park, Lodi, NJ - 17534 .................................................................4748
James Moore, Andrew Mills, William Kolinar, Ann Ewy, David Hays

Considerations and Lessons Learned from the Use of Gamma Spectrometry Systems at FUSRAP Project Sites - 17459 .................................................................4762
Brian Tucker, Michael Winters, David Hays, Doug Black

SESSION 105 – GLOBAL EXPERIENCE OF RECORDS, KNOWLEDGE AND MEMORY (RK&M)

Re-evaluation of Waste Isolation Pilot Plant’s Passive Institutional Controls Program - Status - 17116 .................................................................4768
Russell Patterson, Thomas Klein, Mindy Toothman

Ethical Considerations in Determining the Societal Investment in Warning Future Generations about Latent Long-term Risks from Radioactive Waste Disposal Facilities - 17058 .................................................................4775
Thomas Klein, Robert Watson, Russell Patterson, Abraham Van Luik

Launching a Research Archive for FUSRAP Site Records - 17057 .................................................................4789
Ed Parks, Bob Walker

Practical Considerations for the Implementation of a World Information Library (WIL) - 17112 .................................................................4799
Robert Watson, John Callicot, Russell Patterson

SESSION 106 – PANEL: ENGAGING THE PUBLIC THROUGH INTERPRETATION AT LEGACY SITES

US Department of Energy Grand Junction, Colorado Office Past, Present, and Future: From the Manhattan Project to the Atomic Legacy Learning Center .................................................................4805
April Gil, Jalena Dayvault, Padraic Benson, Sam Marutzky

Engaging the Public Through Interpretation at Legacy Sites: Visitors Center at Fernald Preserve and Mound Cold War Discovery Center .................................................................4815
Susan Smiley

Manhattan Project National Historical Park .................................................................4828
Tracy Atkins

The Manhattan Project National Historical Park: Engagement and Interpretation in the Energy Communities .................................................................4837
Amy Fitzgerald

Overview of the Carnegie Mellon University Robotics Institute DOE Traineeship in Environmental Management - 17493 .................................................................4848
William Whitaker, Nathan Michael, Martial Hebert

ROS-DOE: Leveraging Open Source Robotics Software for the DOE-EM Mission - 17181 .................................................................4855
Mitch Pryor, Paul Hvass, Paul Wood, Morgan Quigley

The Future of Robotics/Remote Handling Solutions for the Nuclear Industry - 17347 .................................................................4870
Marc Rood

Advanced Teleoperation and Shared Autonomy for Nuclearized Robotic Systems - 17333 .................................................................4879
Geoffrey Hollinger, Camille Palmer, Todd Palmer, William Smart

VOLUME 8
Telerobotics Requirements for Remote Handling in Nuclear Facilities - 17538
Manuel Ferre, Sofia Coloma, Jose Breñosa, Luis Rubio

SESSION 108 – NUCLEAR POWER PLANT WASTE CHARACTERIZATION ONSITE SNF/UNF STORAGE AND FAILED FUEL HANDLING

Westinghouse Quiver – A Simple and Safe System for the Complete Handling and Storing of Failed BWR and PWR Fuel Rods and Fragments - 17049
Holger Lapp

Swedish Solution for Reconditioning, Transport, Interim Storage and Final Disposal of Failed Fuel - 17024
Anna Wikmark

Optimization Scheme for Establishing Queues for Shipment of UNF from Shutdown Reactor Sites - 17554
Sven Bader

Dry Storage of Encapsulated Defective Fuel Rods at Doel 1&2 in Belgium - 17581
Vanesa Vo Fan, Anne Boogaerts, Inge Suls, Nathalie Allmann, Kay Muenchow

SESSION 110 – PANEL: THURSDAY AM – US DOE FEATURED SITE – PPPO LEXINGTON, KY (PORTSMOUTH & PADUCAH)

Portsmouth/Paducah Project Office
Robert Edwards

SESSION 111 – PANEL: CONSOLIDATED INTERIM STORAGE OF USED NUCLEAR FUEL – A DRAFT DOE SITING PROCESS AND HOW PRIVATE FUEL STORAGE CAN CONTRIBUTE

Interim Storage of Used Nuclear Fuel - A Draft Siting Process and How Private Fuel Storage Can Contribute
Andrew Griffith

WCS Consolidated Interim Storage Facility: How WCS Contributes
Michael Ford

HI-STORE: A Consolidated Interim Storage Facility for Used Nuclear Fuel and HLW
Joy Russell

Long-Lead Planning for a Future Spent Nuclear Fuel Transportation Campaign
Erica Bickford

Radioactive Waste from 100 to 100000 Years in 10 Minutes
Jan Boelen

Management of Nuclear Fuel in the UK: Past, Present and Future
Tim Tinsley

SESSION 112 – PANEL: THE FUTURE OF CONSENT-BASED DISPOSAL SITING DISCUSSION OF THE ALTERNATIVES

The Future of Consent-Based Disposal Siting and Discussion of the Alternatives
Andrew Griffith

Consent-Based Disposal Siting in the UK
Tom Wintle

Disposal of High-Level Radioactive Waste in Germany - Lessons Learned from a Federal Approach to Organize a Non-Biased Site Selection Process
Stefan Wenzel

Consent-based Siting for the Long-Term Storage of Used Nuclear Fuel in Canada
Bob Watts

SESSION 113 – HLW IMMOBILIZATION PROCESSES AND FACILITIES

SRS’s Defense Waste Processing Facility – The Nation’s Only Operating Facility – Completes 20 Years of Radioactive Operations - 17407
Vijay Jain, Mark Schmitz, Thomas Foster

Implementation of Glycolic Acid Flowsheet in the Defense Waste Processing Facility (DWPF) - 17348
Aaron Staub, Spencer Isom

Progress Updates for the Hanford Waste Treatment and Immobilization Plant Project - 17275
Joanne Grindstaff, William Hamel

Direct Feed Options for Hanford High Level Waste Vitrification - 17318
Ian Pegg, Keith Matlack, Wing Kot, Innocent Joseph

Nuclear Liquid Wastes Calcination: The High-Level French Experience - 17184
Régis Didierlaurent, Alain Ledoux, Catherine Veyer, Sophie Schuller, Anaabela Rodrigues

Mixed Metallic and Organic Transuranic Waste Incineration / Vitrification - 17539
Christophe Girol, Patrice Charvin, Isabelle Hugon, Sabah Ben Lagha, Stephane Catherin
SESSION 114 – HLW TREATMENT PLANTS: STARTUP AND OPTIMIZATION

Resolution of Technical Issues at the Waste Treatment and Immobilization Plant Pretreatment Facility - 17281 .......................................................... 5134
  Langdon Holton, William Hamel, Isabelle Wheeler

Full-scale Vessel Testing of the Standard High Solids Vessel for the Hanford Waste Treatment Plant Pretreatment Facility - 17282 .................................................. 5140
  Michaela Trenidad, William Hamel, Langdon Holton, David Kosson, Craig Myler, Russell Daniel, Scott Monson, Lincoln Griswold, Nathan McAdams, David Dickey, Richard Calabrese

Actinide Removal Process Modified Flowsheet Demonstration: Filter Only Operation - 17415 .......................................................... 5146
  Azadeh Samadi, Taylor Demeter

SESSION 115 – MECHANICAL EXAMINATIONS IN SUPPORT OF US DOE TANK FARM OPERATIONS

Evaluation of Nonmetallic Components in the Hanford Waste Transfer System - 17287 .......................................................... 5153
  Dwayne McDaniel, Amer Awwad, Jose Rivera

Comparison of Exhibited Wear in Tefzel®, Kynar®, and UHMWPE Valve Seats Exposed to Cyclic Operations with Abrasive Slurry - 17519 .......................................................... 5162
  Harold Adkins Jr, Yaohui Li, Current Stolar, Katherine L. Winter

Integrity Assessment of Hanford 242-A Evaporator Facility E-A-1 Reboiler Vessel via Fluorescein Liquid Tracer Test Methods - 17357 .......................................................... 5177
  Zabrina Smith, Jennifer Kadinger

Failure Evaluation of Savannah River Site High-Level Waste Evaporator 242-25H – Part II - 17353 .......................................................... 5189
  Charles Keilers, Bruce Wiersma, John Schwenken, Thomas Yamamoto

SESSION 116 – ROUNDTABLE: WASTE MANAGEMENT ENERGY FACILITIES CONTRACTOR OPERATING GROUP (EFCOG)

Waste Management Working Group FY2017 EFCOG Winter Workshop .......................................................... 5202
  Sonny Goldston

Proposed Technical Standard for Dry Active Waste Characterization .......................................................... 5213
  Daniel Dilday

Update P&T Working Group .......................................................... 5216
  James Portsmouth

Safely Delivering DOE’s Vision for the East Tennessee Technology Park Mission .......................................................... 5220
  Daniel Macias

Hanford Site - Plateau Remediation Project Update - March 2017 .......................................................... 5222
  Connie Simiele

EFCOG Waste Management Working Group Update .......................................................... 5226
  Scott Anderson

Waste Management Challenges at the East Tennessee Technology Park .......................................................... 5228
  John Wrapp

SESSION 117 – NEW DEVELOPMENTS IN CHARACTERIZATION SYSTEMS AND EQUIPMENT FOR LLW/ILW

Developing High-Energy Laser-Driven Bremsstrahlung Radiation Sources for Imaging and Analysis of Nuclear Waste Packages - 17300 .......................................................... 5232
  Christopher Jones, Ceri Brenner, Camilla Stitt, Chris Armstrong, Seyed Mirfayzi, Hamad Ahmed, Nicholas Butler, Adam Higginson, Haris Paraskevoulakos, Anna Adamska, John Jewsey, Paul McKenna, Satyabrata Kar, Thomas Scott

Materials Identification System for 200 liter/55 Gallon Waste Drums Using Computer Tomographic Techniques - 17162 .......................................................... 5249
  Stephen Halliwell, Joe Harvill, Shelly Martinez, Dan Schneberk

High Resolution Scanning Configurations for the Canberra Tomographic Gamma Scanner - 17323 .......................................................... 5277
  John Kirkpatrick, Dante Nakazawa, Patricia McClay, David Petroke, Marcel Villani, Xavier Ducoux, Sasha Philips, Susan Smith

The Impacts of Source Location in Tomographic Gamma Scanning - 17324 .......................................................... 5290
  Sasha Philips, John Kirkpatrick, Dante Nakazawa, Patricia McClay, David Petroke, Marcel Villani, Xavier Ducoux, Susan Smith, Lionel Tondu

Second Validation Testing of Canberra-Obayashi Mobile Type TruckScan Pre-production Unit - 17214 .......................................................... 5306
  Frazier Bronson, Atsuo Suzuki, Masaru Noda, Naoya Takada, Keizo Yamasaki, Kazuaki Yoshimoto

A Collimated CZT Detector for Quantitative Gamma Assays - 17250 .......................................................... 5319
  Frazier Bronson, Wilhelm Muller, Jim Zichyosse, Cedric Herman
Performance Assessment of a New Gamma Spectroscopy Toolkit: Peak Doctor and the Spectral Nondestructive Assay Platform (SNAP) - 17397

Mathematical Calibration of Modular Plastic Scintillators for Various Assay Applications - 17322

SESSION 119 – CROSSCUTTING SUBSURFACE MASS TRANSPORT AND ENVIRONMENTAL ASSESSMENT OF GEOLOGICAL DISPOSAL SYSTEMS

Realistic Geochemical Parameter Uncertainty for Performance Assessment Modeling - 17066

Understanding Uranium Binding Mechanisms and Speciation on Stainless Steel - 17462

Evaluating the Impacts of Reactive Gas (Carbon Dioxide and Oxygen) Ingress on Leaching from Cementitious Waste Forms - 17482

SESSION 120 – PANEL: INTERAGENCY COMMUNITY OF PRACTICE IN PERFORMANCE AND RISK ASSESSMENT

Interagency Community of Practice in Performance and Risk Assessment

IAEA Safety Assessment Framework: MODARIA II Program Overview

Challenges for DOE LLW Disposal Performance Assessments

Development of a Stakeholder Engaged Structured Decision Making Framework

SESSION 121 – CHALLENGES AND OPPORTUNITIES IN TRANSPORTATION AND STORAGE OF SNF

Adapting Community Impact Assessment for Nuclear Waste Transportation

Development of Rail Accident Rates for Spent Nuclear Fuel Rail Shipments

Update on Development of a U.S. Rail Transport Capability for Spent Nuclear Fuel and High-Level Waste

Section 180(c) Policy Implementation Exercise: Multiple Views

SESSION 122 – RADIOACTIVE CONTAINMENT VENTILATION-(1/2)

An Efficient Tool-Set for Modeling Containment Ventilation in Very Complex Facilities

Evaluating the Performance Envelope of Axial Flow HEPA Filter Designs

Development of High Strength HEPA Filters for Use in Demanding Air and Gas Streams

SESSION 123 – APPLICATIONS OF INNOVATIVE D&D TECHNOLOGIES

Applying State-of-the-Art Tools for Safety-Optimized D&D

Long History of Cl-36 Assessment of Graphite Waste by EDF Engineering and the Latest Suggested Developments

Diamond Dose Rate Detector Testing at KURRI- A Joint UK-Japan Research Project

Decontamination of Irradiated Nuclear Graphite Using High Temperature Molten Salt
VOLUME 9

Pile Fuel Cladding Silo Deflector Plate Removal Project Using Long Reach Tooling and Suspended Water Jet Cutting System - 17497 ................................................................. 5568
Shannon Callahan, John Redkie

Benefits From Developments in the Field of Decommissioning for Fukushima Daiichi Fuel Debris Retrieval:
Remote-Controlled Laser Cutting Process - 17110 ................................................................. 5577
Christine Georges, Damien Rouet, Christophe Journeau, Christophe Chagnot, Emmanuel Porcheron, Gaetan Cannean, Samuel Blanchard

SESSION 124 – TECHNICAL INNOVATIONS IN ENVIRONMENTAL REMEDIATION AND SITE CLOSURE

Research and Technology Development Activities to Address the DOE-EM Environmental Mercury Challenge - 17497 ................................................................. 5583
Erze Pierce, Mark Peterson

Uranium Sequestration – Field Test to Remedial Action - 17151 ................................................................. 5591
Patrick Baynes, Randy Hermann, Virginia Rohay, Farah Elloy, Sunil Mehta, Gene Ng

EPRI Report: Review of Geostatistical Approaches to Characterization of Subsurface Contamination - 17442 ................................................................. 5603
Richard Reid, Richard McGrath, Phung Tran

The Impact of Soil Vapor Extraction at Material Disposal Area L, Los Alamos National Laboratory - 17155 ................................................................. 5613
Emily Snyder, Stanislaw Marczuk, Larry Salazar, Gerald Fordham, Shaoping Chu, Dan Strobridge, Kay Birdsell, Kent Rich, Philip Stauffer

Iron Behavior in Microcosms Simulating Bioreduction at Savannah River Site Sediments - 17389 ................................................................. 5630
Yelena Katsenovich, Aref Shehadeh, Miles Denham

Cleaning Up Large Groundwater Plumes to Drinking Water Standards: Dynamic Groundwater Recirculation at Reese Air Force Base - 17248 ................................................................. 5645
Kelly Houston, Scott Potter, Sathan Suthersan

SESSION 125 – PANEL: US DOE OAK RIDGE: A COMPREHENSIVE, INVESTMENT WORTHY APPROACH TO CLEANUP

Oak Ridge: Successful Cleanup of the Oak Ridge Reservation ................................................................. 5660
Jay Mules

Oak Ridge’s Plan to Address Excess Facilities ............................................................................. 5668
Alan Stokes, Ken Harravwood, Ron Slotke

Oak Ridge’s Approach to Managing Capital Asset Projects ................................................................. 5676
Brian Henry, Daniel Macias, Michael A. Gearhart

Innovative Solutions to Material Disposition ............................................................................. 5682
Brian DeMonia, John Wrapp

S&M and Life Extension: Making the Tough Decisions ..................................................................... 5687
William McMillan, Ron Slotke

Oak Ridge’s Comprehensive Groundwater Strategy ............................................................................. 5694
David Adler, Samantha Pack

SESSION 126 – THURSDAY TOPICAL SESSION – INTERNATIONAL MANAGEMENT OF USED NUCLEAR FUEL: PRESENT AND FUTURE

US Management of UNF: Present and Future ............................................................................. 5701
Andrew Griffith

WCS Consolidated Interim Storage Facility - What Have We Learned? ................................................................. 5703
Michael Ford

CSFSF (Ukraine) & HI-STORE (U.S.): Consolidated Interim Storage Facilities for Used Nuclear Fuel and HLW ............................................................................. 5712
Joy Russell

Spent Fuel Interim Storage and Disposal in Europe - Various Experience of Westinghouse ............................................................................. 5722
Yves Brachet

Status of the Spent Fuel Management Program at U. S. Nuclear Regulatory Commission ............................................................................. 5728
Andrea Kock

SESSION 128 – LLW/ILW CHARACTERIZATION METHODS AND DATA EVALUATION

Further Development of an ISOCs – Based Advanced In Situ Gamma Spectrometry Services Tool for Waste Measurements - 17452 ................................................................. 5733
Patrick Chard, Blanche Vendittozzi, Xavier Ducoux, Gabriela Ilie, Henrik Jäderström, Tom Kirk, Wilhelm Mueller

Challenges and Recent Developments of Neutron Non-Destructive Assay with UO2F2-Bearing Materials - 17336 ................................................................. 5748
Marcel Villani, Brent Montgomery

Updated Radiological Inventory of G1 Reactor Thanks to a Strengthened Data Processing - 17271 ................................................................. 5763
Yvon Desnoyers, Myriam Da Costa, Magali Magnin, Vincent Lerat
Facile Separation of 90Sr, 55Fe, 94Nb, 59/63Ni with Large Amount of Ca by Controlled pH Precipitation - 17190
William King, David Hobbs, Mark Layton

Radionuclide Release From Savannah River Site Tank 18 Waste Residual Solids Under Conditions Anticipated
Jong Bo Yoo, Kyungyoon Sah, Hye Ju Lee, Hong Joo Ahn, Kwang Yong Lee

Following Tank Closure - 17540

Novel Gamma Attenuation Methods Utilized for Waste Characterization of UO2F2-Bearing Materials at the Paducah GDP - 17327
Marcel Villani, Brent Montgomery, Greg Herrndon, Sean Stanfield, Brian Eells

Radiological Characterization of Selected Thermal Centres Based on Indoor Radon Dosimetry - 17507
Maria de Lurdes Dantas, Ana Sofia Silva, Alcides Pereira, Antonio Fiuza

SESSION 129 – RADIOACTIVE CONTAINMENT VENTILATION-(2/2)

Water Cleaning System for the Exhaust Pipe of HLW Glass Melter (LFCM) - 17180
Masataka Hiruta, Toshiki Fukai, Atsushi Yumazaki, Tetsuro Ookubo, Hiroshi Kobayashi, Takeshi Mimura, Hidemitsu Hara

Control Decision and Control Development of Hanford Tank Farms First Two ISA-84 Safety Instrumented Systems - 17370
Todd Brown

HEPA Filter Waste Management at Select Department of Energy National Laboratories - 17022
Kip McDowell, Mark Ellefson, Tim Forbes, Craig Loll, Mike Moore, Mark Saunders

SESSION 130 – OPERATING EXPERIENCE IN THE TREATMENT AND STORAGE OF LLW/ILW A GLOBAL PERSPECTIVE

Achieving Leak Tightness in New Savannah River Site Saltstone Disposal Units - 17454
Charles Keilers

Radioactive Waste Management in a Treatability and Optimisation Perspective - 17527
Gregor Krause, Arne Larsson, Maria Lindberg, Jean-François Rives, Jérémy Buttin

The Legacy of Taiwan Lanyu LLW Interim Storage Site - 17491
Hongnian Jow

Andrej Samoylov, Sergey Ukhan, Igor Linge, Marina Fedorenkova, Mikhail Sarvin, Alexander Dorojev, Alexander Abramov

Tritium Recovery From Mixed Waste - 17004
Robert Shmayda, John Cruz, Walter Shmayda

Modular Caustic-Side Solvent Extraction Unit (MCU) Improved Solvent Quality and Processing Results - 17496
Christina Santos, Annah Garrison, Phoebe Fogelman

Current Problems and Solutions for the Long-term Storage of LLW in Germany - 17512
Joerg Markhoefer, Joachim Blasch

Opportunities and Limits of Decay Storage Based on Dismantled Materials in Nuclear Power Plants - 17650
Tim Thomas, Olaf Kittel, Safetec  Daniel Blumenrit

SESSION 131 – D&D OF US DOE FACILITIES

Fixatives Used for Decommissioning and Maintenance of Radiological Facilities - 17537
Rick Demmer, Don Fox, Stephen Reese, Anthony Banford, Jonathan Doods

The Road to 2020: Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA):
Cleanup of the East Tennessee Technology Park - 17425
Kenneth Baeter

Demolition of the K-27 Building at the East Tennessee Technology Park (ETTP) - 17423
Kenneth Baeter

Remediation of 130 Sv/hr. Soil Contamination Under a Hot Cell - 17301
William Kirby

Update on Demolition Strategy and Progress at Hanford's Plutonium Finishing Plant - 17161
Tom Bratvold

SESSION 132 – ER POST CLOSURE CHALLENGES AND LONG-TERM STEWARDSHIP/LEGACY MANAGEMENT – (2/2)

Evaluation of Story Maps to Enhance Public Engagement and Communication at Legacy Management Sites - 17334
Carl Young, Rebecca Roberts, Darina Castillo, Cliff Carpenter

Changes in Cleanup Strategies and Long-Term Monitoring Costs for DOE FUSRAP Sites - 17241
Carl Young, Rebecca Roberts, Darina Castillo, Cliff Carpenter

Challenges and Lessons Learned Performing Subsurface Investigations at a Radioactively Contaminated Site in an Urban Area - 17391
Jough Donakowski
Effects of Rangeland Evapotranspiration on Groundwater Recharge, Discharge, and Flow at the Tuba City, Arizona, Disposal Site - 17159 ................................................................. 6035

SESSION 133 – INTERNATIONAL EXPERIENCE IN COMPLEX SITE CHARACTERIZATION AND REMEDIATION TECHNOLOGIES

Vapor Intrusion Mitigation Beneath an Occupied Industrial Building at the Young – Rainey Science, Technology, and Research Center Largo, Florida - 17463 ................................................................. 6050
Joe Daniel, Julian Caballero, Charles Tabor, Scott Sarovchak, Mel Madril
Emerging Contaminants: Investigation and Remediation of Poly- and Perfluoroalkyl Substances in the Environment - 17339 ................................................................. 6057
Jeff Burdick, Ian Ross, Kelly Houston, Frank Lenzo
Algal Sorbents for Treatment of Multiple Metals and Recovery of Rare Earths in Simulated and Actual Wastewater - 17098 ................................................................. 6072
Zainab Birungi, Evans Chirwa

SESSION 134 – GROUNDWATER REMEDIATION PROJECTS

Using Water-Level Models to Conceptualize Groundwater-Flow Systems: Examples From the Nevada National Security Site - 17044 ................................................................. 6083
Tracie Jackson
ER-20-12: A Case-Study of Corrective Action Investigation in a Challenging Environment - 17236 ................................................................. 6095
Charles Russell, Irene Farnham, Nicole Devost, Jeffrey Wurtz
Large-Scale Implementation of Recirculation Systems for In-Situ Treatment of Hexavalent Chromium in Groundwater in Hinkley CA - 17338 ................................................................. 6110
Margaret Gentile, Frank Lenzo, Kevin Sullivan, Iain Baker
Influences on Effective Decay Rates of Radionuclides in Groundwater: F-Area Seepage Basins, Savannah River Site - 17149 ................................................................. 6123
Miles Denham, Carol Eddy-Dilek

SESSION 135 – COMMUNICATION OF TECHNICAL ISSUES: WORLDWIDE EXPERIENCES

Building the Future Nuclear Workforce Through Regional Partnerships - 17219 ................................................................. 6137
Mindy Metz, Pete Yerace
Recruiting and Retaining Talent Within the Global Waste Management and Decommissioning Industry - 17192 ................................................................. 6147
Callum Thomas, Thomas Thor
Utilizing the Shift Technical Engineer Pipeline to Develop the Next Generation of Engineers - 17354 ................................................................. 6155
Jay McCravy, Kent Fortenberry
Upskilling and Reskilling for the Nuclear Industry - 17276 ................................................................. 6161
Paul Gilchrist

SESSION 136 – GLOBAL MANAGEMENT OF SPENT/USED RADIOACTIVE SEALED SOURCES, HEU, AND ORPHAN MATERIALS AND CONTROLS

End of Life Management for Disused Sealed Sources - 17343 ................................................................. 6170
Megan Barlow
Indonesian Highly Enriched Uranium-Bearing Waste Elimination - 17393 ................................................................. 6173
Glenn Pfennigwerth, Jessica Jagmin Brokkins
Burnt Mountain Alaska RTG Extraction, Transport and Disposal Project - 17359 ................................................................. 6183
Belinda Morris, Joanne Poling, Leroy Duran, Janet Appenzeller-Wing
The Off-Site Source Recovery Program Capabilities in Recovering Transuranic Sealed Sources - 17599 ................................................................. 6189
Ioana Witowski, Justin M. Griffin, Katherine Drypolcher, Temeka Taplin, Becky Coel-Roback

SESSION 137 – ROBOTICS AND REMOTE SYSTEMS – NUCLEAR ENVIRONMENTS: INTERNATIONAL APPLIED D&D OPERATIONS-(5/5)

Application of Robotics Technology to D&D - 17249 ................................................................. 6197
Mitch Pryor
Mobile Manipulation and Survey System for H-Canyon and Other Applications Across the DOE Complex - 17309 ................................................................. 6203
Mitch Pryor
Operator Evaluation of Mobile Robotic Systems for Inventory, Inspection, and Contamination Survey Tasks in D&D Environments - 17314 ................................................................. 6219
Mitch Pryor
