TABLE OF CONTENTS

Advancing Models of Facies Variability and Lacustrine Source Rock Accumulation in Rifts: Implications for Exploration ................................................................. 1
Scholz, Christopher A.

Africa Petroleum Fiscal Evolvement and Impacts on Foreign Investment: Illustrations from Nigeria ................................................................. 5
Li, Huimin

Annular Barrier as an Alternative to Squeezes in Challenging Wells: Technology Review and Case Histories ........................................................................................................... 8
Bagal, Joseph; Onadeko, Ghenga; Hazel, Paul; Dagestad, Vihjarn

Application of Analytic Hierarchy Process to Identify the Most Influencing Human Factors (HFs) and Performance Influencing Factors (PIFs) in Process Safety Accidents .................................................... 16
Theophlus, Stephen C.; Akbikoye, Olajinka G.; Arewa, Andrew O.; Ifelebugs, Augustine O.; Esenowo, Victor

Appraising Carbon Geological Storage Potential in Unconventional Reservoirs Using Well-Testing Method: Engineering Parameters Analysis ............................................................. 33

Bottom Hole Pressure Management in a Highly Permeable and Narrow Margin MPD Operation ................................................................................................. 44
Osene, Ugochukwu; Awe, Sunday; Ama, Ohionna; Eze, Ademola; Adekeye, Ibrahim; Oke, Timothy; Roes, Vincent

A Case Study of the Successful Deployment of Tractor Conveyed Perforation in Highly Inclined Well ........................................................................................................ 54
Isehunwa, Olortunoba; Adeyemi, Olusegun; Opara, Jimmy; Aka, Allen

Comoros - New Evidence and Arguments for Continental Crust ................................................................................................................................. 69
Milsom, John; Roach, Phil; Toland, Chris; Riaboh, Don; Budden, Chris; Houmadi, Naolidne

A Cost Effective, Fit-for-Purpose Single Well Producer-Injector Completion Strategy for Improved Recovery of Oil: Case Study in Niger Delta ................................................................. 80
Dubey, Pranav; Okpere, Adrian; Sanni, Gideon; Onyekwara, Ifeanyi

Cost Reduction Strategies in Workover operations in the Face of Low Oil Price: The Agbada Workover Project ................................................................................................. 96
Eze, Joy; Onakomayi, Olawarotimi; Adeyemi, Olusegun; Opara, James; Timibitei, Fred; Ideh, Matthew

Cost-Effective Directional Drilling and Logging-While-Drilling Operational/ Maintenance Model Aids an East Africa Operator to Deliver Its Remote Location Exploration Campaign ........................................................................................................ 104
Lunney, Iain

Deeper Re-completions Exploited Bypassed Oil in Massive Heavy Oil Reservoir: Case Study ................................................................................................. 108
Tang, Xueqing; Dou, Lirong; Wang, Rufeng; Garb, Alsadig Mohmoud; Musa, Mouiz Hamza

Diversification of Africa’s Energy Portfolio: Economic Outlook a Case Study of Kenya ................................................................................................. 118
Lutta, Nelson

Drill Cuttings and Fluid Disposal; A Kenyan Case Study ................................................................................................................................. 123
Lilian, Simiyu E.; Esther, Mburu; Allan, Rukunga

Early-Stage Extension in the Southwest East African Rift: Integration of New Seismic Reflection Data ........................................................................................................ 128
Scholz, Christopher A.; Wood, Douglass

Efficacious Use of Simple and Cost Effective Acoustic Flow Analyzer Measurement to Enhance Recovery and Improve Life Cycle of Wells ........................................................................................................ 129
Alaref, Omar; Saada, Mahmoud; Abdelmoula, Mongi; Rourke, Marvin

Field Evaluation of Improved Oil Recovery Methods in a Libyan Oilfield ................................................................................................................................. 137
Ifelebugs, Augustine O.; Zidan, Zidan H.

Forecasting the Domestic Utilization of Natural Gas in Nigeria (2015-2020) ................................................................................................................................. 144
Adaji, J. J.; Onolemhen, R. U.; Isehunwa, S. O.; Adeyemi, A.

The Greater Etom Area (GEA); A New Phase of Exploration in the South Lokichar Basin, Turkana County, Northern Kenya ................................................................................................................................. 162
Christopherson, Kevin

High Expansion Technology Opens the Way for Enhanced Recovery ................................................................................................................................. 166
Masson, Grahm

Hydrocarbon Generation Indication From Source Rock to Reservoir Rock: Case Studies of Anambra and Abakaliki Basins South-Eastern Nigeria ................................................................................................. 170
Salafia, Samuel; Onolemhen, Rita; Isehunwa, Sunday

Impact of Data Quality on Well Operations: Case Study of Work-over Operations ................................................................................................................................. 189
Enyekwe, Alfred; Urubuis, Osaenon; Yekini, Raufu; Azoom, Iorkam; Isehunwa, Olortunoba
Increasing Operational Efficiency in Extended Reach, Offshore Wells - A Case Story from Middle East
MacLeod, Anthony

Increasing Plug and Abandon Efficiency in East Africa: Challenges and Solutions
Joneja, Galen; Awalt, Michael; Johnson, Carl; Bogaerts, Martijn; Alsam, MHD Tareq

Innovations in Carbon (iv) Oxide Capture and Sequestration for Operations, Engineering and Technology
Lilian, Simiyu E.; Konez, Sandra

Innovations of Gas Lift in Prolific, Long-perforations, and Multilayered Wells, Case Study in Sudan
Tang, Xueqiong; Dou, Li; Li, Jingang; Wang, Rui; Li, Lian; Gao, Yun; Niu, Shutian; Shi, Junhui

Integrated Geophysical Interpretation of Kerio Valley Basin Stratigraphy, Kenya Rift
Osukuba, Godfred; Masinde, Abiud; Adero, Bernard; Wanjala, Edmond; Ege, John

Lessons Learned: How to Produce More Hydrocarbons from Blowout Wells
Tang, Xueqiong; Dou, Li; Li, Jingang; Wang, Rui; Li, Lian

Liner Hanger Installation in Challenging Offshore Well Conditions
Luna, David; Elizalde, Roberto; Diwaku, Wantudhi

Akinsete, Oluwatoyin; Is惠hua, Sunday

Mozambique Natural Gas Condensate Analysis: Offsetting Production Royalties with Production By-Products
Mazula, Nelia

New Insights in the Evaluation of Reserves of Selected wells of the Pletmos Basin Offshore South Africa
Elamri, Samir; Opuwari, Mimomitu

A New Tool-less Layered Fracturing Technology and Its Pilot Application in Deep Thick Formations
Wang, Daohong; Zhou, Fuqian; Gu, Hongkui; Liu, Xiongfui; Zlatui, Sergiu; Shi, Yang; Yang, Xiangtong; Yuan, Xuefang; Li, Xiuhe; Tan, Yanxin; Liu, Tingting

New Viewpoint on the Geology and Hydrocarbon Prospectivity of the Seychelles Plateau
Granath, James; Rango, Rolf; Emmet, Pete; Ford, Colin; Lambert, Robert; Kasli, Michael

Novel Well Flow-Control Valve for Flexible Well Completion and Application in Commingled Production of Oil and Gas in West Africa
Bogal, Joseph; Hallot, Maxamillion; Hazen, Paul

Nuclear Magnetic Resonance Logging While Drilling in Complex Lithology - Solution for a Glaucenitic Sandstone Reservoir
Abouzaid, Ahmed; Thoren, Holger; Said, Mohamed; ElSaqq, Mohammad; Elbastaweys, Mohamed; Ghozlan, Sherin

Numerical Simulation of Thermal Stress on Entrapped Pressure of Deepwater and Further Research on Anti-thermal-stress Casing Tools
Kan, Changbin; Yang, Jin; Yu, Xiaoxing; Meng, Wei; Hu, Nanding; Zhou, Bo; Zhang, Bailing; Hu, Zhiqiang

Petroleum Exploration Potential on Abu Gabra Formations in Fula Sub-basin, Muglad Basin, Sudan
Wei, Ke; Guangyu, Zhang; Aixiang, Liu; Yonglin, Zheng; Yongjun, Yu

Petroleum Geochemistry of the Loperot-1 Well in Lokichar Basin, Kenya
Katthi, David M.; Opar, David O.

Petroleum Potential of Rift Basins in Northern Somalia - A Fresh Look
Witte, Jan; Trümpe, Daniel; Meßner, Jürgen; Babies, Hans Georg

Practical Experience in Rig Move and Workover Operations in an Amphibious Terrain: A Case Study of Escravos Beach Rig Move and Workover Operations
Eze, Joy; Okonkwoya, Olawarotimi; Ogunjinde, Ademola; Adegbuyega, Olu SEGUN; Wopara, James; Timibiti, Fred; Ideh, Matthew

A Preliminary Assessment of the Hydrocarbon Potential of Kerio Valley Basin: Gravity and Magnetic Interpretation
Masinde, Abiud; Simiyu, Cleophas; Murunga, Innocent; Muia, George; Waswa, Aaron; Barongo, Justus

Pre-Messinian Petroleum Systems and Trap Style in the Offshore Western of Nile Delta; An Integrated Geological and Geophysical Approach
Monir, Mostafa; Shenkar, Omar

Production Optimization in a Marginal Field through Established Reservoir Management Techniques - A Case Study
Tolase, Williams; Okolo, Victor; Martey, Amadu

Prospects and Challenges of Developing Unconventional Petroleum Resources in the Anambra Inland Basin of Nigeria
Onuoha, K. Musto; Dim, Chidozie I. P.
Regional Geological Study and Potential Prediction of the Rio Del Rey Basin (RDR), Offshore Cameroon .......................................................... 376
Altayeb, Khalid O.; Yushan, Su; Shixiang, Wu; Zhankun, Chen
Regionally Connected Structural Systems: The Power of the Big (Continental-Scale) Picture ................................................................. 379
Granath, James; Dickson, William
Research on the Tectonic Evolution of the North Africa from Morocco to Libya as the Controlling Factor on the Petroleum Basins’ Hydrocarbon Accumulation ................................................................. 391
Liping, Xiong; Yandi, Liu; Dann, Shi
A Review of the Leading Technologies that Can Make a Difference in the Search for and Production of Hydrocarbons .............................................. 394
Engelder, Terry; Zhou, Yaaneng
Rock Compressive Strength: A Correlation from Formation Evaluation Data for the Niger Delta ................................................................. 402
Salawu, Babatunde; Sanace, Reza; Onabanjo, Olumayowa
The Role of Neo-Tectonics in Oil Migration, Lake Turkana Region, Kenya ................................................................. 408
Witte, Jan; Trümpy, Daniel; Babies, Hans Georg
Sequence Stratigraphic, Structural and Reservoir Analyses: An Integrated Approach to Exploration and Development of the Eastern Coastal Swamp Cluster, Niger Delta Basin................................................................. 414
Dim, C. I. Princeton; Onuoha, K. Mosto; Okeugo, C. Gabriel
Shale Oil and Gas in East Africa (Esp.Tanzania) with New Ideas on Reserves and Possible Synergies with Renewables ........................................... 422
Duyverman, Henk J.; Msaky, Emma
Significant Production Improvement of UltraLow Permeability Granitic Reservoirs to Develop Heavy Black Oil, Utilizing Channel Fracturing Technique ................................................................. 427
Kortam, Mostafa Mahnoud; Siso, Samir; Abbas, Nelly Mohamed; Salah, Ahmed; Hasem, Atef; Cilli, Andrea; Kamar, Ahmad; Khafagy, Fatma Elzahraa
Slim-hole Drilling - De-risking Exploration in Remote Locations .................................................................................................. 455
Soquar, Emmanuel; van der Westhayzen, Chris
Solar Power for Sustainable Offshore Petroleum Exploration and Production in Africa .................................................................................. 459
Tawiah, Samuel; Majo, Solomon Adjet; Benah, Daniel Jr.
Source Rocks of Somalia - A Regional Assessment .................................................................................................. 467
Trümpy, Daniel; Witte, Jan; Weber, Immanuel; Da Ponte Souza, João P.
A Steady-State Approach for Surge and Swab Pressures Calculation of Herschel-Buckley Fluids in Directional/Horizontal Wells ................................................................. 473
Jiang, Wenlong; Fan, Houchai; Ji, Rongyi; Tian, Deqiang; Wen, Zixiang; Gao, Yuan; Dai, Rui; Han, Fuxin; Sun, Yizhen
Structural Inversion, Reactivation and Extensional Detachment and Their Influence on the Formation and Preservation of Hydrocarbon Accumulations in Northern Western Desert of Egypt .................................................................................. 481
Sun, Ziming
Successful Application of Clusterization Development Strategy for Small and Scattered Fields .................................................................. 487
Wang, Ruijiong; Xiaoling, Yi; Xintao, Yuan
Underbalanced MPD Technology Proved to be Effective in Drilling of Fractured Granitic Basement ................................................................. 492
Chen, Peng; Wang, Xi; Wu, Meng
United States Experience Regulating Unconventional Oil and Gas Development .................................................................................. 501
Allison, Edith
Water Influx Predictions in Reservoirs with Aquifer Drive Using the Two-Phase Reservoir Integral Type Pseudo-Pressure with Applicability in Gas Hydrate Reservoirs .................................................................................................. 506
Kome, Melvin; Amro, Mohd
Well Design and Successful Field Installation of Openhole Sand Control Completions with Acid Stimulation in a Highly Deviated Well in Vietnam .................................................................................................. 523
Vu, Hung; Tran, Son; Nguyen, Trang; Kham, Bharathwaj; Tran, Khoa; Nguyen, Thong
Wellbore Strengthening in Narrow Margin Drilling .................................................................................................. 532
Benyeogor, Ogochukwu; Awe, Sunday; Amah, Obinna; Ugochukwu, Oseme; Erinle, Aideyemi; Akinfolarin, Ayodele
West Africa Lacustrine Pre-Salt Carbonates: How Interaction of Tectonics and Diagenesis Produced Different Reservoir Facies .................................................................................................. 541
Ronchi, Paolo; Gattolin, Giovanni; Frixa, Alfredo; Margiulo, Chiara
What Will it Take to Commercialize Petroleum Resources in the East Africa Region; The Case of Developing Oil Refinery in Uganda .................................................................................................. 546
Abeinomugisha, Dscith; Batebe, Irene; Ario, Benjamin
