SPE/DGS Saudi Arabia Section
Technical Symposium and Exhibition 2010

Al-Khobar, Saudi Arabia
4 - 7 April 2010

ISBN: 978-1-5108-4681-4
TABLE OF CONTENTS

Analysis of Capillary Pressure and Relative Permeability Effects on the Productivity of Naturally Fractured Gas-Condensate Reservoirs ......................................................... 1
Al Ghamdi, Bander N.; Ayala, Luis F.
The Application of Precision Ultrasonic Technologies to Diagnose and Identify Crossflow between Formations, Flow behind Pipe and Casing Leaks ......................................................... 13
Zakaria, Mahmoud; Al-Shehri, Ayedh; Tammar, Hassan
Associtative Polymer Usage as Stimulation Diversion System for Multilayered Reservoirs: Case Study of its Effectiveness for Stimulation Tight Layers in Khuff Carbonate Formation from Saudi Arabia's Gharaw Field ............................................................... 29
Al-Harbi, Abdulaziz; Al-Maliki, Bandar; Al-Haddad, H.M.; Vieina, Jose
Automate the Process of Managing Well Logs Data .................................................. 39
Al-Ghamdi, Turki A.; Zahdan, Ghassan O.; Ali, Hussein A.; Nahwi, Ibrahim M.
Azimuthal AVO in Coal Beds, Western Canadian Basin: A Promising Method for Characterizing Fractures in Unconventional Gas Reservoirs ......................................................... 44
Al-Duhailan, Mohammed A.; Lawton, Don C.
Best Practices in Khurais Complex Development .................................................. 75
Al-Mulhim, Waleed A.; Al-Ajmi, Fahad A.; Al-Shehab, Mahdi A.; Pham, Tony R.
A Comparative Study Between Empirical Correlations and Mechanistic Models of Vertical Multiphase Flow ............................................................... 84
Yahaya, Anes Usman; Al Gubani, Abdallah
A Decision Support System for Cost-effective Assessment of Sand Production Risk and Selection of Completion Type ............................................................... 92
Rahman, Khalil; Khaksar, Abbas; Kayes, Toby
Determination of Reservoir Rock Wettability by Thin Layer Wicking Approach ......................................................... 102
Yildiz, Hasan O.; Ozturun, F. Bahar; Sirkeci, Ayhan A.
Dielectric Response of Carbonate Core-Plugs - Influence of Heterogeneous Rock Properties on Permeittivity ............................................................... 112
Zhang, Tianhua; Ligueur, Patrick; Nicot, Benjamin; Pairoys, Fabrice; Akbar, Mahmood
Effect of Borehole Inclination, Annular Clearance, on the Hole Cleaning Efficiency for Water Based Drilling Muds ............................................................... 128
Al-Mulhim, Waleed A.; Al-Ajmi, Fahad A.; Al-Shehab, Mahdi A.; Pham, Tony R.
Effect of Temperature and Pressure on Interfacial Tension and Contact Angle of Khuff Gas Reservoir, Saudi Arabia ............................................................... 134
Okasha, Taha M.; Al-Shiwaish, Abdul-Jalil A.
Effective Crude Oil Export Sales Management Towards A Robust Economy ............................................................... 145
Siddiqui, M. Hameed; Rodricks, Franklin
Enhanced Coiled Tubing Intervention Practices on Extended-Reach Open-hole Completion in a Field in Saudi Arabia ............................................................... 153
Al-Meshal, Fahad; Sabat, Bangkong; Bawaked, Waleed; Beheiri, Faisal; Al-Mabaitri, Abdulrahman
Ensemble Methods for Reservoir Life-Cycle Optimization and Well Placement ............................................................... 161
Leeuwenburgh, Olviijn; Egberts, Paul J.P.; Aribbon, Oscar A.
Evaluation of Triazine-Based H2S Scavengers for Stimulation Treatments ............................................................... 169
Al-Duailiej, Yaser K.; Al-Mataairi, Saleh H.; Al-Humaidain, Adel Y.
Field Application of Composite Reservoir Model on Non-Unit Mobility Flow ............................................................... 185
Al Gubani, Abdallah; Yahaya, Anes Usman
Flow Simulation in Inflow Control Valves Using Lattice Boltzmann Modeling ............................................................... 196
Qahtani, Abdallah M.
Improving Seismic Whitening and Seismic Inversion Workflows Using Frequency Split Structurally Oriented Filters ............................................................... 203
Helmore, Steven; Martin, Iain
Innovative Approach to Stimulate Horizontal Gas Well Using DTS Technology Combined with Coiled Tubing in Saudi Arabia ............................................................... 208
Garzon, Francisco; Solares, J. Ricardo; Amoroclo, Jose Ricardo; Al-Mulhim, Abdulmohsin; Kharrat, Wassim; Hamed-Naji, Iyad; Brown, George; Nova, Vidal
Ariwodo, I.; Al-Belowi, A.R.; BinNasser, R.H.; Kuchinski, R.S.; Zainuddin, I.
Maximizing Recovery of Attic Oil from Highly-Fractured Crestal Area Using Horizontal Skimmers:
A Case Study ................................................................. 225
Al-Julaih, Ali; Fischbuch, Brett; Pinero, Nelson; Al-Zahrani, Tareq
Moving the Immovable: Practical Offshore Appraisal Testing of Heavy and Sour Oil .................................................. 236
Al-Ajaji, Abdalaziz A.; Al-Nahi, Abdul-Hakim; Gill, Harmohan; Omidya, Abdur-Rasheed
A Novel Command Activated Sandface Valve To Improve Wellbore Productivity ................................................................. 244
Adam, Malcolm; Coul, David
A Novel Fracture Characterization Approach: Mini-DST Using a Wireline Formation Tester ................................................. 253
Widjaja, Danang R.; Alhuthali, Ahmed; Guerrero, Rodolfo Phillips; Lyngra, Stig; Rourke, Marvin
Optimization of Multilateral Well Design and Location in a Real Field Using a Continuous Genetic Algorithm ................................................................. 260
Bukhamisin, Ahmed Y.; Farshi, Mohammad Moravvej; Aziz, Khalid
Optimized Field Development of an Offshore Carbonate Reservoir in Saudi Arabia .................................................. 276
Dismuke, Carl T.; Jokhio, Safrax A.; Mubarak, Hassan K.; Shuaibi, Anas A.
Optimizing Horizontal Well Configurations for Effective Drainage of Thin Oil Zones Overlying Productive Formations under Strong Water Drive .................................................. 284
Fischbuch, D. B.; Taibah, O. A.; Al-Zahrani, T. M.
An Overview of Geomechanical Engineering Aspects of Tight Gas Sand Developments ........................................ 293
Addis, M. A.; Yasir, N.
Post-Stimulation Results and Analysis of Highly Successful Multi-Stage Acid Fracturing Campaign
Performed in Tight Gas Carbonate Formations in Saudi Arabia ................................................................. 303
Franco, C. A.; Solares, J. R.; Al-Shammari, N. S.; Al-Harbi, M. M.; Al Abbad, E. A.; Bukovac, T.
Practical Application of Surface-Wave Methods to Estimate a Near-Surface Velocity Model at Spring Coulee
Dulaijan, Khaled Al; Stewart, Robert R.
Prediction of Hole Cleaning Efficiency Using a Simple, User Friendly and Better Performing Simulation Model ................................................................. 327
Qahtani, Abdulilah M.; Amanullah, Md.
Pressure Transient Analysis: Characterizing the Reservoir and Much More ................................................................. 337
Al-Harbi, Badr M.; BinAkresh, Saud A.; Al-Ajaji, Abdalaziz A.; Forero, Edgar J. Pinilla
Production Optimization of Multi-Lateral Wells Using Passive Inflow Control Devices .................................................. 353
Hembling, Drew; Berberian, Garo; Al-Mumen, Adib; Simonian, Sam; Salerno, Giovanni
Remote Operations at Shell – A Case History From the Giant NAM Groningen Gas Field in the Netherlands ................................................................. 358
Douwes, Brugt; Meijeren, Wim Van
Successful Exploitation of Khuff-B Low Permeability Gas Condensate Reservoir through Optimized Development Strategy ................................................................. 372
Rahim, Zillur; Al-Anazi, Hamoud; Al-Kanaan, Adnan; Aziz, Asly Abdul
Successful Isolation of a Water Contribution Zone Using Fiber Optic Telemetry Enabled Coiled Tubing Conveyed Inflatable Packer Capped with Cement (Case Study) ................................................................. 380
Shawly, Alaa M.; Dashashe, Alaa A.; Khateeb, Bander F.; Muhammad, Ahmad H.; Bugrov, Yevdolod; Kharrat, Wassim; Bolarinwia, Simeon
Successful Selective Stimulation of Open Hole Dual Lateral Gas-Condensate Producers with a Coiled Tubing, Hydra Jetting Tool and New Isolation Sleeve in Saudi Arabia ......................................................................................... 390
Garzon, Francisco; Franco, Carlos; Al-Saeed, Hussain A.; Al-Omair, Wael M.; Ginest, Noel H.; Sierra, Leopoldi; Surjaatmadja, Jim; Izquierdo, Guillermo
Tectonic Escape (Indentation) in Central Saudi Arabia, Possibility and Exploration Potential ................................................................. 412
Khalil, Mahrab; Mazbahy, Emad; Hmoud, Khalil; Ismail, Luay
Three-Dimensional Inversion of Borehole Gravity Measurements for Reservoir Fluid Monitoring ................................................................. 415
Hadji-Sassi, Khaled; Donadille, Jean-Marc
Unlocking the Low Frequencies for Improved Relative Impedance Inversion ......................................................................................... 428
Martin, Iain; Helmore, Steve
Using Inter-Volume Similarity Measures as a QC Tool for Seismic Data Processing ................................................................. 437
Dossary, Saleh A.; Al Garni, Khalid; Cunningham, George; Al Saad, Riyadh
Value of 3D Geomechanical Modeling in Field Development - A New Approach Using Geostatistics ................................................................. 441
Holland, M.; Brudy, M.; Van Der Zee, W.; Persamilla, S.; Flinders, T.
