## TABLE OF CONTENTS

### VOLUME 1

#### SESSION 1: STATIC RESERVOIR MODELLING INNOVATIVE MULTI-DISCIPLINARY APPROACHES

**CHALLENGING RESERVOIR MODELING CASE STUDY FOR NATURALLY FRACTURED HIGH-PRESSURE-HIGH-TEMPERATURE GAS SAND RESERVOIR**

Zhenbiao Wang, Haiying Wang, Qinqi Li, Xiaofei Cui, Xuri Huang, Asnul Bahar, Mohan Kelkar

- Page 1

**OPTIMIZED GRIDS FOR ACCURATELY REPRESENTING GEOLOGY IN GEOMECHANICAL SIMULATIONS**

Emmanuel Gringarten, Jean Daniel Lecuyer, Elsa Villarubias, Camille Cosson, Wan-Chiu Li

- Page 27

**INVESTIGATION OF FAULTS GEOMECHANICAL ACTIVITY AND ITS APPLICATION TO DEVELOPMENT PROGRAM OPTIMIZATION IN KELASU GAS FIELD IN TARIM BASIN**

Tongwen Jiang, Haiying Wang, Guoqing Yin, Fang Yuan, Zhimin Wang

- Page 40

**A NOVEL APPROACH TO DEVELOPING AND CONDITIONING PART FIELD MODELS FOR A COMPLEX FLUVIO-DeltaIC RESERVOIR: AN EXAMPLE FROM THE VARA FORMATION IN THE GREATER BURGAN FIELD**

- Page 64

**SEQUENCE STRATIGRAPHY AND SEDIMENTARY ENVIRONMENT IDENTIFICATION BASED ON PALYNOLOGICAL ANALYSIS**

- Page 85

**USE OF EXPERIMENTAL DESIGN FOR UNCERTAINTY ASSESSMENT IN DEEP OFFSHORE GULF OF MEXICO**

T. Ait-Ettajer, G. Whiteley, G. Abrarova, S. Fontenla Alvarez, Y. Dong, C. Fujardo, R. Cendrowski, F. Giannangeli

- Page 101

**INTEGRATED ANALYSIS OF RESERVOIR ARCHITECTURE AND QUALITY FOR EFFECTIVE PRODUCTION: A LOW PERMEABILITY RESERVOIR IN LOWER JURASSIC SANDSTONES, WEST SIBERIAN BASIN**

O. A. Gorbovskaia, A. V. Pishchuleva, B. V. Belozerov

- Page 110

**SEQUENCE STRATIGRAPHIC CHARACTERISTICS OF FLUVIAL FACIES IN THE GUANQING FORMATION OF SOUTH GENTLE SLOPE BELT, HUANGHEKOU SAG**

Rongtao Chen, Chengmin Niu, Qingbin Wang, Xunlei Shi, Xuyang Guo, Feilong Wang, Xinwu Liao, Runsen Qin, Zhongbo Xu

- Page 128

#### SESSION 2: ADVANCED TECHNOLOGIES AND INTERPRETATION IN PRODUCTION MONITORING

**INVERSION OF DOWNHOLE TEMPERATURE MEASUREMENTS IN MULTISTAGE FRACTURE STIMULATION IN HORIZONTAL WELLS**

Shuang Zhang, Ding Zhu

- Page 141

**A NEW COMPREHENSIVE NUMERICAL MODEL FOR FRACTURE DIAGNOSIS WITH DISTRIBUTED TEMPERATURE SENSING DTS**

He Sun, Wei Yu, Kamery Sephrnoti

- Page 160

**EVALUATION OF PRESSURE-TRANSIENT BEHAVIOR OF UNFRACTURED VERTICAL, VERTICALLY FRACTURED, AND HORIZONTAL WELLS IN A COMPOSITE RESERVOIR WITH AN ACTIVE AQUIFER AND MOVING FLUID INTERFACES**

Bobby D. Poe, Donald G. Hender

- Page 182

**CHARACTERIZATION OF PRODUCTION THROUGH A FRACTURE CELL USING ACOUSTIC DATA**

Julia Pakhotina, D. Zhu, A. D. Hill, Rodolpho Santos

- Page 238

**DOWNHOLE MULTIPHASE FLOW MONITORING USING FIBER OPTICS**

Onur Fidaner

- Page 256

**SUBSEA SAND DETECTION IN DIGITAL OIL AGE: CASE STUDY OF AN INNOVATIVE VIRTUAL EROSION PROBE TECHNIQUE**

Sebastien Perrier, Licinio Martins

- Page 268
SESSION 3: WELL INTERVENTION: BEST PRACTICES AND CASE HISTORIES

RETRIEVABLE INFLATABLE BRIDGE PLUG USED AS SOLUTION PRODUCT FOR THROUGH TUBING INTERVENTION IN DEEPWATER GOM ................................................................. 295
Lawrence Rammuth, James Pocza, Andrew Reynolds

HORIZONTAL WATER INJECTION TO SUSTAIN PRODUCTION IN A LOW OIL PRICE ENVIRONMENT ............................................................................................................................... 310
Katherine Pettengell, Berna Hascakir

10 YEARS OF CONTINUOUS TECHNOLOGY DEVELOPMENT AND FIELD APPLICATION OF A COILED TUBING TELEMETRY SYSTEM: PAST, PRESENT AND FUTURE ........................................... 319
Silvia Livescu, Tom Watkins, Jeyhun Najafov

INTERVENE WITH INTELLIGENCE: LEADING TO MAXIMIZED EFFICIENCY, REDUCED RISKS AND OPTIMIZED PRODUCTION ................................................................. 338
Lei Fang, Stuart Murphy, Erik Nordenstam

SUCCESSFUL SAND BLOCKAGE REMOVAL FROM SEALINE USING AN INNOVATIVE PLASTIC COILED TUBING ............................................................. 354
M. Pelucchi, D. B. Mantica, M. Piemontese, G. Restuccia, H. Mackenzie

IMPLEMENTATION OF ESPCP TECHNOLOGY TO DECREASE WELL INTERVENTION INDEX IN CASABE FIELD ................................................................................................. 364
Cristhian C. Tello Bahamon, Carlos Reyes Hill, Carlos Santana, Ricardo Artola, Fernando Lapania, Jorge Doval

SESSION 4: SAND CONTROL

NEW SAND SCREEN INCREASES THE RELIABILITY OF SAND CONTROL IN WATER INJECTION WELLS BY MITIGATING COMMON FAILURE MECHANISMS ................................................................. 370
Jack Charles, Steven Fipke

IMPACT OF SCREEN GEOMETRY ON EROSIONAL RESISTANCE OF DIRECT WIRE-WRAP SCREENS ................................................................................................. 387
C. Dalton McKeon, Seth M. Nelson, Federico Gallo, Christian Mayer

THE ROLE OF ELASTO-PLASTICITY IN CAVITY SHAPE AND SAND PRODUCTION IN OIL AND GAS WELLS ................................................................................................. 399
Haotian Wang, Mukul M. Sharma

BEST PRACTICES FOR SUSTAINED WELL PRODUCTIVITY: A LOOKBACK IN TO DEEPWATER FRAC-PACK COMPLETIONS ................................................................. 413
Mark Knobles, Kenyon J. Blake, Michael J. Fuller, Karim Zaki

LESSONS LEARNED FROM EVALUATION OF FRAC-PACK FLOW PERFORMANCE BEFORE AND AFTER FULL CLEAN-UP FOR SUBSEA WELLS IN HIGH-PERMEABILITY GAS RESERVOIRS ................................................................................................. 434
M. Nozaki, R. C. Burton, V. J. Pandey, K. Furui

NEW APPLICATIONS OF MULTIDETECTOR PULSED NEUTRON TECHNOLOGIES IN GRAVEL PACK COMPLETIONS ................................................................................................. 450
Xiaogang Han, Manasi Scott, Virginie Schoepf, Maryam Mousavi, Carlos Stewart, Adrian Zett

SUCCESSFULLY COMPLETING AND PRODUCING A DEEPWATER GULF OF MEXICO WELL WITH NO CEMENT BEHIND PIPE ................................................................................................. 460
Tim S. Hopper, Joseph B. McCutcheon, Pavel Shaposhnikov

DEVELOPMENT AND FIELD TESTING OF A NOVEL TECHNOLOGY FOR EVALUATING GRAVEL PACKS AND FRACTURE PACKS ................................................................................................. 478
Jeremy Zhang, Harry D. Smith, Harry D. Smith

REAL TIME DOWNHOLE MEASUREMENTS DURING DEEPWATER FRACPACK COMPLETIONS IN THE GULF OF MEXICO ................................................................................................. 498
Andy Hawthorn, Sergio Aguilar

EFFECT OF FLUID TYPE AND MULTI-PHASE FLOW ON SAND PRODUCTION IN OIL AND GAS WELLS ................................................................................................. 503
Haotian Wang, Deepen P. Gala, Mukul M. Sharma
SESSION 5: FLUIDS

DRY LIQUIDS ON SILICA AS SECONDARY EMULSIFIERS FOR DRILLING MUD APPLICATIONS ................................................................. 517
V. Lifton, J. Gorka, D. Parrish, J. Davidson

DESIGNING LOW-ECD DRILLING FLUIDS FOR SUPERIOR HYDRAULICS AND SAG PERFORMANCE: A RHEOLOGICAL APPROACH ............................................................... 529
Sandeep D. Kulkarni, Robert Williams, Phillip W. Livane, Dale E. Jamison, Timo F. Kohlb

DRILLING MUD LOSS IN NATURALLY FRACTURED RESERVOIRS: THEORETICAL MODELLING AND FIELD DATA ANALYSIS ............................................................... 541
Omid Razavi, Hunjoo P. Lee, Jon E. Olson, Richard A. Schultz

AN INNOVATIVE ORGANOPIHILIC CLAY-FREE INVERT EMULSION FLUID OCF-IEF FACILITATES THE SUCCESSFUL RUNNING OF THE LONGEST 6 5/8-IN. LINER IN THE WORLD ............................................................... 567
Mena Nasrallah, Mohamed Gaber

THE SUCCESSFUL APPLICATION OF CUSTOMIZED FLUIDS SYSTEM TO EFFECTIVELY BRIDGE ACROSS EXTREME OVERBALANCE CONDITIONS – CASE HISTORIES FROM SAUDI ARABIAN FIELD ............................................................... 580
Iain Maley, Prakash Judhav, Ian L. Everhard, Ajay Addagalla, Mohammad Omran Hassan, Balraj Kosandar

TOWARDS A COMPLETE REMOVAL OF BARITE WEIGHTED WATER AND OIL BASED-DRILLING FLUIDS IN SINGLE STAGE ............................................................... 599
Mohamed Mahmoud, Salaheldin Elkatatny

SETTLING VELOCITY OF PARTICLES IN VISCOELASTIC FLUIDS: A COMPARISON OF THE SHEAR VISCOSITY VS ELASTICITY EFFECT ............................................................... 613
Sumanth Kumar Arnipally, Ergun Kuru

A ROBUST MODEL TO ESTIMATE THE MUD LOSS INTO NATURALLY FRACTURED FORMATIONS ............................................................... 637
Mariia Bychina, Gevargis M. Thomas, Ravi Khandelwal, Robello Samuel

SESSION 6: FRAC MODELING: FROM INJECTION TEST TO TREATMENT SIMULATION

FRACTURE CLOSURE STRESS: REEXAMINING FIELD AND LABORATORY EXPERIMENTS OF FRACTURE CLOSURE USING MODERN INTERPRETATION METHODOLOGIES ............................................................... 649
D. P. Craig, R. D. Barree, N. R. Warpinski, T. A. Blasingame

AGGRESSIVE FRACTURING TREATMENTS IN HORIZONTAL WELLS: BENEFITS AND PITFALLS ............................................................... 676
Ali Daneshy

AFTER-CLOSURE IDIOSYNCRASIES OF FRACTURE CALIBRATION TEST ANALYSIS IN SHALE FORMATIONS ............................................................... 688
Matteo Marongiu-Porcru, Albertus Retnanto

A COST/BENEFIT REVIEW OF COMPLETION CHOICES IN THE WILLISTON BASIN USING A HYBRID PHYSICS-BASED MODELING/MULTI-VARIATE ANALYSIS APPROACH ............................................................... 707
Michael Mayerhofer, Oludapo Oshiba, Karin Agarwal, Howard Melcher, Ely Lolon, Jenn Bartell, Leen Weijers

NUMERICAL MODELING OF PROPPANT TRANSPORT IN COMPLEX HYDRAULIC FRACTURE PROPAGATION ............................................................... 728
Ghazal Izadi, Tobias Hoetink, Leonardo Cruz, Dylan Copeland

PROPPANT TRANSPORT IN FRACUTRES WITH FOAM-BASED FRACTURING FLUIDS ............................................................... 741
Songyang Tong, Robin Singh, Kishore K. Mohanty

NEW MODEL FOR DFIT FRACTURE INJECTION AND FALLOFF PRESSURE MATCH ............................................................... 756
G. Liu, C. Ehlig-Economides

NEW VARIABLE COMPLIANCE METHOD FOR ESTIMATING IN-SITU STRESS AND LEAK-OFF FROM DFIT DATA ............................................................... 769
Hanyi Wang, Mukul M. Sharma
SESSION 7: DECISION MAKING AND PORTFOLIO

ELIMINATE DECISION BIAS IN FACILITIES PLANNING ................................................................. 809
Z. Cristea, T. Cristea

CRITICAL DRIVERS IN OPTIMIZING UNCONVENTIONAL Portfolios THROUGH
RIGorous RIG YEAR CONCePT ........................................................................................................ 820
Caitlan Capps, Bari Ghosi

BALANCED SCORECARD AND STRATEGIC MAP APPLIED TO PORTFOLIO
MANAGEMENT ................................................................................................................................ 826
Fernando Luis Cresus

QUANTITATIVE ASSESSMENT OF THE IMPACT OF SPARSE DATA AND DECISION BIAS
ON RESERVOIR RECOVERY FORECASTS ..................................................................................... 843
W. S. Meddaugh, W. Meddaugh, B. McCray

SESSION 8: WELL TESTING AND MODELLING

ESTIMATION OF NON-UNIFORM PRODUCTION RATE DISTRIBUTION OF MULTI-
FRACTURED HORIZONTAL WELL THROUGH PRESSURE TRANSIENT ANALYSIS: MODEL
AND CASE STUDY .......................................................................................................................... 854
Jiazheng Qin, Shiqing Cheng, Youwei He, Le Luo, Yang Wang, Naichao Feng, Tianjian Zhang, Guan Qin,
Haiyang Yu

ESTIMATING ULTRA LOW PERMEABILITY AT MULTIPLE LOCATIONS USING
SIMULTANEOUS IMPULSE TESTS: A FIT FOR PURPOSE PRESSURE TRANSIENT
SOLUTION AND ITS FIELD APPLICATION .................................................................................. 876
Lang Zhan, Phil S. Fair, Robert J. Domrowski, Edwin N. Quint, Richard Cao

MONITORING AND IMPROVEMENT OF WATERFLOODING SWEEP EFFICIENCY USING
PRESSURE PULSE TESTING ........................................................................................................... 899
Mahmood Shakiba, Seyyed A. Hosseini, Kamy Sepehrnoori

SUCCESSFUL APPLICATION OF WELL TESTING AND ELECTRICAL RESISTANCE
TOMOGRAPHY TO DETERMINE PRODUCTION CONTRIBUTION OF INDIVIDUAL
FRACTURE AND WATER-BREAKTHROUGH LOCATIONS OF MULTIFRACTURED
HORIZONTAL WELL ......................................................................................................................... 920
Youwei He, Shiqing Cheng, Jiazheng Qin, Jianwen Chen, Yang Wang, Naichao Feng, Haiyang Yu

EXTENSION OF CAPACITANCE-RESISTANCE MODEL TO TRACER FLOW FOR
DETERMINING RESERVOIR PROPERTIES .................................................................................. 950
Nuntha Naudomsup, Larry W. Lake

ANALYTICAL DEVELOPMENT OF A DYNAMIC IPR FOR TRANSIENT TWO-PHASE FLOW
IN RESERVOIRS ............................................................................................................................. 973
Pedro Cavalcanti De Sousa, Artur Posenato Garcia, Paulo J. Waltrich

RECURRENT NEURAL NETWORKS FOR PERMANENT DOWNHOLE GAUGE DATA
ANALYSIS ........................................................................................................................................ 987
Chuan Tian, Roland N. Horne

SUCCESSFUL INTEGRATION OF DRILLSTEM TESTING, CLOSED CHAMBER TESTING,
AND WIRELINE FORMATION TESTING: A DEEPWATER CASE HISTORY .................................. 999
Mehdi Azari, Waqar Khan, Hani Elshahawi

ANALYZING GAS WELL PRODUCTION DATA THROUGH THE APPLICATION OF THE
CONNECTED RESERVOIR STORAGE MODEL .............................................................................. 1023
D. Childers, X. Wu

SESSION 9: PVT AND GAS EOR

MAXIMIZING CO₂ ACCUMULATION IN STORAGE RESERVOIRS: INTERPLAY BETWEEN
PERMEABILITY RETARDATION AND CAPILLARY TRAPPING OF RISING CO₂ ................................ 1039
Bo Ren, Jennifer M. Delaney, Larry W. Lake, Steven L. Bryant
GAS INJECTION FOR GOM DEEPWATER WILCOX TREND FIELDS DEVELOPMENT: CHALLENGES AND RECOVERY POTENTIAL .......................................................... 1060
Andrew Oghena, Dengen Zhou, Robert Fitzmorris, Adwait Chawathe, Julio De La Colina, Jose Orribo, Michael Gentry

HIGH PRESSURE TERTIARY-CO2 FLOODING IN A FRACTURED CHALK RESERVOIR ............................................................ 1072

EFFECT OF CONFINEMENT ON BUBBLE POINT TEMPERATURE SHIFT OF HYDROCARBON MIXTURES: EXPERIMENTAL INVESTIGATION USING NANOFLODNIC DEVICES .......................................................................................................................... 1099
Mehrdad Alfi, Hadi Nasrabadi, Debjyoti Banerjee

IMPACT OF PORE CONFINEMENT ON PRODUCTION BEHAVIOR AND GOR PROFILES OF UNCONVENTIONAL RESERVOIRS ........................................................................................................................................................................ 1111
T. Calisgan, E. Oztan, T. Firincioglu, H. Sarak, C. Ozgen

AN EXPERIMENTAL STUDY OF NON-EQUILIBRIUM CO2-OIL INTERACTIONS .............................................................................................................................. 1131
Mahmoodo Reza Yassin, Ali Habibi, Sara Eghbali, Ashkan Zolfaghari, Hassan Dehghanpour

REVISITING THOMSON EQUATION FOR ACCURATE MODELING OF PORE SCALE THERMODYNAMICS OF HYDROCARBON SOLVENTS .............................................................................................................................. 1152
Ilyas Al-Kindi, Tayfun Babadagli

EFFECT OF NANOPARTICLES ON FLOW ALTERATION AND SATURATION DURING CO2 INJECTION AND POST FLUSH .............................................................................................................................. 1174
Xing Zhang, Fa-Guo Tian, Hong Zhou, Hong-Ling Du, Chao Ding, Jing Wang, David A. Dicarlo

SESSION 10: FLOW ASSURANCE

IDENTIFICATION OF OPTIMUM CLOSURE RELATIONSHIPS FOR A MECHANISTIC MODEL USING A DATA SET FROM A LOW-LIQUID LOADING SUBSEA PIPELINE .......................................................... 1181
David Roullier, Mack Shippen, Pablo Adames, Eduardo Pereyra, Cem Sarica

INVESTIGATING THE PERFORMANCE OF PARAFFIN INHIBITORS UNDER DIFFERENT OPERATING CONDITIONS .................................................................................................................................................. 1191
Anshul Dubey, Yuandao Chi, Nagu Daraboina, Cem Sarica

PRESSURE EFFECTS ON PRESSURE GRADIENT AND LIQUID HOLDUP IN TWO-PHASE OIL-GAS LOW-LIQUID-LOADING FLOW IN HORIZONTAL PIPES .......................................................... 1211
Duc H. Vuong, Cem Sarica, Eduardo Pereyra, Abdelsalam Al-Sarkhi

NEXT GENERATION POUR POINT DEPRESSANTS BASED ON NOVEL POLYMER MODIFICATIONS .............................................................................................................................. 1240
Sabine Scherf, Dr. Albert Boddien

HYDRATE PLUG REMEDIATION IN DEEPWATER WELL TESTING: A QUICK METHOD TO ASSESS THE PLUGGING POSITION AND SEVERITY .............................................................................................................................. 1251
Yang Zhao, Zhiyuan Wang, Jing Yu, Shaowei Pan, Jianbo Zhang, Baojiang Sun

A NEW APPROACH TO DETERMINE ASPHALTENES STABILITY .............................................................................................................................. 1263
Berna Hascakir

SESSION 11: PETROLEUM EDUCATION AND METHODS

FACT-BASED ENERGY EDUCATION FOR NON-TECHNICAL STUDENTS .............................................................................................................................. 1272
John R. Fanchi

INTEGRATING HUMAN FACTORS INTO PETROLEUM ENGINEERING’S CURRICULUM: ESSENTIAL TRAINING FOR STUDENTS .............................................................................................................................. 1281

THE CHANGING SHAPE OF PETROLEUM ENGINEERING EDUCATION .............................................................................................................................. 1295
Iraj Ershaghi, Donald L. Paul

INNOVATIONS IN ENGINEERING GRADUATE COURSE DELIVERY FOR OIL AND GAS PROFESSIONALS .............................................................................................................................. 1306
Kelly Goatia, Iraj Ershaghi

TESTING TUTORIAL-LECTURE SWAPPING TECHNIQUE IN RESERVOIR ENGINEERING COURSE TO ENHANCE STUDENTS’ LEARNING EXPERIENCE .............................................................................................................................. 1311
Faroqan Hassani, Peter Neal

AN ANALYSIS OF CLASSROOM INVERSION IN THE CORPORATE ENVIRONMENT .............................................................................................................................. 1322
Analise J Thompson, Daniel V Flores, Ralph Pauls
Y. M. Ermel, A. L. Espinel Diaz, S. Yi, T. Lehmann

SESSION 12: DRIVING SUSTAINABLE VALUE FROM DIGITAL ENERGY REVOLUTION

IDENTIFYING COST-EFFECTIVE WATERFLOODING OPTIMIZATION OPPORTUNITIES IN MATURE RESERVOIRS FROM DATA DRIVEN ANALYTICS .................................................................................................................. 1347
Andres Yrigoyen, Luigi Saputelli, Alejandro Chacon, Jorge Chegin

CREATING VALUE BY IMPLEMENTING AN INTEGRATED PRODUCTION SURVEILLANCE AND OPTIMIZATION SYSTEM – AN OPERATOR’S PERSPECTIVE .......................................................................................................................... 1380
Satish Sankaran, David Wright, Huan Gamblin, Dhiril Kumar

APPLYING DATA MANAGEMENT AND VISUALIZATION TO OPEX REDUCTION AND IMPROVED ASSET INTEGRITY PROGRAMS .......................................................................................................................... 1398
B. V. Arciero, H. Ismail

A META-DATA FRAMEWORK FOR TRANSPARENCY IN RATE OF PENETRATION CALCULATIONS .......................................................................................................................... 1411
Kyle Goncalves, Pradeepkumar Ashok, Martin Cavanaugh, John Macpherson, Michael Behounek, Brian Nelson

IMPROVING GOVERNANCE OF INTEGRATED RESERVOIR AND INFORMATION MANAGEMENT LEVERAGING BUSINESS PROCESS MANAGEMENT AND WORKFLOW AUTOMATION .......................................................................................................................... 1429
Alvaro Escorcia, Richard Mohan, Luigi Saputelli

A NEW APPROACH TO HARNESS DATA FOR MEASURING INVISIBLE LOST TIME IN DRILLING OPERATIONS .......................................................................................................................... 1460
Vikrant Lakanpal, Robello Samuel

ARTIFICIAL LIFT APPLICATIONS FOR THE INTERNET OF THINGS .......................................................................................................................... 1470
William G. Elmer

NEW APPROACH TO QUANTIFY PRODUCTIVITY OF FISHBONE MULTILATERAL WELL .......................................................................................................................... 1484
Amjed Hassan, Abdulazeez Abdulraheem, Salaheldin Elkatatny, Musa Ahmed

SESSION 13: NEW TECHNIQUES TO BETTER KNOW YOUR RESERVOIR

FRACBOT TECHNOLOGY FOR MAPPING HYDRAULIC FRACTURES .......................................................................................................................... 1495
Abdallah A. Al-Shehri, Ian F. Akyildiz, Jesus M. Felix Servin, Howard K. Schmidt

ON-DEMAND RESERVOIR INFLOW MONITORING FOR IMPROVING RESERVOIR MANAGEMENT DECISIONS .......................................................................................................................... 1508
Brock Williams

MODELING OF CO2 LEAKAGE FROM CCS INTO OVERLYING FORMATIONS - QUEST CCS MONITORING EVALUATION .......................................................................................................................... 1518
Jeff Duer

A NOVEL APPROACH TO REJUVENATE BROWN FIELD BY VALIDATING DYNAMIC MODEL RESPONSE WITH NEAR-WELLBORE SATURATION MONITORING .......................................................................................................................... 1530
Shubham Mishra, Kartik Kumar Natarajan, Akshay Aggarwal, Aditya Ojha, Alexander Rincon, Isha Khamba, Ajit Kumar, Gaurav Agraval, Pankaj Kakoty, Neelimoy Baruah, Sanjay Kumar Dhiraj

PROGNOSIS FOR SAFE WATER-DISPOSAL-WELL OPERATIONS AND PRACTICES BASED ON RESERVOIR FLOW MODELING AND REAL-TIME PERFORMANCE ANALYSIS .......................................................................................................................... 1538

POST-COMBUSTION CO2 FOR DEVELOPMENT IN A MATURE OIL FIELD: MODEL CALIBRATION USING A HIERARCHICAL APPROACH .......................................................................................................................... 1561
Feyi Olalotiti-Lawal, Tsubasa Onishi, Akhil Datta-Gupta, Yusuke Fujita, Kenji Hagiwara

CASE STUDY: MULTIRATE MULTIZONE PRODUCTION LOGGING AND TESTING PROVIDES REAL-TIME RESERVOIR INSIGHT FOR STIMULATION TREATMENT OPTIMIZATION IN DEEPWATER GOM .......................................................................................................................... 1581
Waqar Khan, Mehdi Azari, Farrukh Hamza, Hamid Hadibeik, Sandeep Ramakrishna

ELEMENTAL COMPOSITIONAL ZONING USING RESERVOIR FORMATION WATER SAMPLES FOR OILFIELD APPLICATIONS .......................................................................................................................... 1596
I. A. Jimoh, E. G. Søgaard, J. Muff, M. Yahaya Kano
PREDICTING DEAD-END PORE-VOLUME IN A RESERVOIR FROM SINGLE TRACER EXPERIMENT ............................. 1613
Jyoti Phirani, Shantanu Roy, Harish J. Pant

INJECTION AND REMOTE REAL-TIME MONITORING: SLURRY INJECTION CASE STUDY, ONSHORE USA ................................................................. 1623
Y. Guo, I. M. Mohamed, O. Abou-Sayed, A. Abou-Sayed

SESSION 14: INTEGRATED SIMULATION TECHNOLOGY - NOVEL TECHNIQUES, WORKFLOWS, AND APPLICATIONS

A GENERALIZED DERIVATIVE-FREE RATE ALLOCATION OPTIMIZATION FOR WATER AND GAS FLOODING USING STREAMLINE-BASED METHOD .................................................................................................................. 1636
Shusei Tanaka, Dongjie Kam, Jiang Xie, Zhiming Wang, Xian-Huan Wen, Kaveh Dehghani, Hongquan Chen, Akhil Datta-Gupta

METHODOLOGY TO SYSTEMATICALLY REDUCE UNCERTAINTY ASSIMILATING QUANTITATIVELY 4D SEISMIC AND WELL DATA IN A PROBABILISTIC AND MULTI-OBJECTIVE HISTORY MATCHING ............................................. 1661
Forlan La Rosa Almeida, Alessandra Davolio, Denis José Schiozer

SIMULATION OF HYDRAULIC FRACTURING-INDUCED PERMEABILITY STIMULATION USING COUPLED FLOW AND CONTINUUM DAMAGE MECHANICS ...................................................................................... 1683
M. Samnejad, F. Aminzadeh, B. Jha

ADAPTIVE HOMOGENIZATION FOR UPSCALING HETEROGENEOUS POROUS MEDIUM .................. 1699
Gurpreet Singh, Yerlan Amanbek, Mary F. Wheeler

GENERALIZED MULTISCALE COUPLING OF TRIPLE-CONTINUUM MODEL AND DISCRETE FRACTURE NETWORK FOR CARBONATE RESERVOIR SIMULATION ........................................ 1718
Min Wang, Chenji Wei, Hongqing Song, Yalchin Efendiev, Yuhe Wang

FIELD STUDY: EMBEDDED DISCRETE FRACTURE MODELING WITH ARTIFICIAL INTELLIGENCE IN PERMIAN BASIN FOR SHALE FORMATION ............................................................... 1735
Song Du, Baosheng Liang, Lin Yuanbo

A NOVEL BAYESIAN OPTIMIZATION FRAMEWORK FOR COMPUTATIONALLY EXPENSIVE OPTIMIZATION PROBLEM IN TIGHT OIL RESERVOIRS ............................................................ 1747
Shaohua Wang, Shengnan Chen

SYSTEM DENSITY OF OIL-GAS MIXTURES: INSIGHTS FROM MOLECULAR SIMULATIONS ............. 1764
Mohamed Mehana, Mashhad Fahes, Liangliang Huang

PHASE BEHAVIOR IN SHALE ORGANIC AND INORGANIC NANOPORES FROM MOLECULAR SIMULATION ........................................................................ 1780
Bikai Jin, Hadi Nasrabadi

THE DEVELOPMENT OF A COUPLED GEOMECHANICS AND RESERVOIR SIMULATOR USING A STAGGERED GRID FINITE DIFFERENCE APPROACH ......................................................... 1797
C. Guo, K. E. Gray

SESSION 15: ADVANCES IN DIRECTIONAL DRILLING INNOVATIONS

ACTIVE ACOUSTIC RANGING TO LOCATE TWO NEARBY WELLBORES IN DEEPWATER GULF OF MEXICO .......................................................................................... 1818
Benny Poedjono, Samer Alatrach, Albert Martin, Roger B. Goobie, William T. Allen, Eugene Sweeney

WELL COLLISION AVOIDANCE - SEPARATION RULE .............................................................. 1834

REAL-TIME BIT WEAR PREDICTION USING ADAPTIVE DATA ANALYTICS ......................................... 1855
Vikrant Lakhanpal, Robello Samuel

LEAN SYSTEM AIDS IN THE SELECTION OF AN ENGINEERED ELASTOMER/STATOR CONFIGURATION LEADING TO IMPROVED DOWNHOLE PERFORMANCE AND FIELD ECONOMICS .................................................................................. 1865
J. Gauffier, M. Grimes, J. E. Rebillon, A. Brown

THE EFFECT OF SURVEY STATION INTERVAL ON WELLBORE POSITION ACCURACY ....................... 1880
J. Codling
NEW WIRELESS ACOUSTIC TELEMETRY SYSTEM ALLOWS REAL-TIME DOWNHOLE DATA TRANSMISSION THROUGH REGULAR DRILLPIPE

Andy Hawthorn, Sergio Aguilar

SOLID STATE GYRO WHILE DRILLING TECHNOLOGY PROVIDES ACCURACY AND ROBUSTNESS

R. Lovdon, Juei Igarashi, Doruk Sargin

DEPLOYMENT OF A SELF-ADJUSTING BIT TO SOLVE TODAY'S DRILLING VIBRATION CHALLENGES AND OPTIMIZE PERFORMANCE

Anthony Phillips, Thomas M. Stefanik

IMPROVED AUTODRILLER PERFORMANCE WITH DIRECT DRILLSTRING MEASUREMENTS IN THE DRAWWORKS CONTROL LOOP

I. M. Soukup, M. S. Boudreaux, R. Ramirez, J. R. Anderson, J. Shim

SESSION 16: FRACTURING FLUID AND PROPPANT TECHNOLOGY

PROPPANTS—WHAT 30 YEARS OF STUDY HAS TAUGHT US

MONO & THIN LAYER PERFORMANCE OF SMALL MESH SIZE PROPPANTS PLACED IN HORIZONTAL WELL FRACTURE MATRICES

Raphael Herskovits, Ian Kidd, Tihana Fuss-Dezelic, Jingyu Shi, Craig Wilcox, Todd Kaul

A MULTIFUNCTIONAL COATED PROPPANT: A REVIEW OF OVER 30 FIELD TRIALS IN LOW PERMEABILITY FORMATIONS

Amr Radwan

RE-VISIT IMPACT OF HIGH TEMPERATURE CONDITIONS >150 °C ON SULPHATE SCALE DISSOLVER PERFORMANCE

J. Lu, A. Gabrysch, S. Gao, M. Yadav, J. Lee, J. Lepage, B. Daigle, R. Tomson, P. Gurauieb, C. Yan

DEVELOPMENT OF A SMART FRACTURING FLUID FOR TIGHT AND UNCONVENTIONAL RESERVOIRS

Marwan N. Mohammed, Mohamed Mahmoud, Salaheldin Elkatatny

LABORATORY EVALUATION OF A NATURAL GAS–BASED FOAMED FRACTURING FLUID

Griffin Beck, Craig Nolen, Kevin Hoopes, Charles Krouse, Melissa Foerner, Albad Phatak, Sandeep Verma

IMPROVED METHOD TO EVALUATE FLOWBACK ADDITIVES FOR FRAC FLUIDS USED IN UNCONVENTIONAL RESERVOIRS

Ron Humes, Me Lissa Lansford, Robert Duenckel, Jeffrey Snider

FLOW PERFORMANCE OF PROPPANT IN HYDRAULIC FrACTURES BELOW 2LB/FT2

D. Milton-Taylor

SESSION 17: HEALTH, SAFETY AND SECURITY INNOVATION

API RP 67 RECOMMENDED PRACTICE FOR OILFIELD EXPLOSIVES SAFETY: DEVELOPMENT OF PROPOSED CHANGES TO THE THIRD EDITION

David Ayre, James Barker

CARBON MONOXIDE HAZARDS FROM PERFORATING DURING PLUG AND ABANDONMENT OPERATIONS

Thomas Burky, G. G. Craddock, Justin Mason, Federico Rios, Kevin Harive

MITIGATING RESPIRABLE CRYSTALLINE SILICA WITH NO ENGINEERING FOOTPRINT

John Jackson, Jeff Hicks, Jamie Robinson

IMPROVING FABRICATION SITE CONSTRUCTION SAFETY WITH INDUSTRY STANDARDIZATION

N. Popat, B. Perkins, N. Vassiliev, O. Reyes Valdes, C. Hawkes, M. Carvalho

IMPROVING MALARIA PREVENTION WITH INNOVATIVE BIOTECHNOLOGY INTEGRATION

SHIFT WORK FATIGUE IN THE PETROLEUM INDUSTRY: A PROACTIVE FATIGUE COUNTERMEASURE

Koos Meijer, Martin Robb, Jasper Smit

A NOVEL NETWORKED CHECK POINT SYSTEM KEEPS TRACK OF HUMAN AND VEHICLE FLOW IN AND OUT OF OILFIELD LOCATIONS

Marc Haci, Arturo Quezada
### SESSION 18: NEW AND INNOVATIVE WELL LOGGING TECHNOLOGIES

NOVEL MATHEMATICAL MODELS TO PREDICT PREFORMED PARTICLE GEL PLACEMENT AND PROPAGATION THROUGH FRACTURES ................................................................. 2419
Sherif Fakher, Baojun Bai, Abdulmohsin Imqam, Yanling Wang

FURTHER INSIGHTS INTO THE MECHANISM OF DISPROPORTIONATE PERMEABILITY REDUCTION ............................................................................................................................ 2436
Bin Liang, Hanqiao Jiang, Junjian Li, R. S. Seright, Larry W. Lake

A NEW THREE-PHASE MICROEMULSION RELATIVE PERMEABILITY MODEL FOR CHEMICAL FLOODING RESERVOIR SIMULATORS ............................................................................................................................ 2455
Hamid R. Lashgari, Gary A. Pope, Mohsen Tagavifar, Haishan Luo, Kamy Sepehrnoori, Zhitao Li, Mojdeh Delshad

ON THE KLINKENBERG EFFECT OF MULTICOMPONENT GASES ............................................................................................................................... 2470
Shihao Wang, Zhengfu Pan, Juncheng Zhang, Zhennzhou Yang, Yonghong Wang, Yu-Shu Wu, Xiaopeng Li, Alexander Lukyanov

INTERACTION OF NON-DARCY FLOW REGIMES COUPLED AND PORE VOLUME COMPACTION IN SHALE GAS FORMATIONS ............................................................................................................................... 2483
Davud Davudov, Rouzbeh Ghanbarnezhad Moghanloo

SESSION 20: MID-CAREER PROFESSIONAL DEVELOPMENT

DEVELOPMENT OF A TECHNOLOGY TRANSFER MODEL IN THE 2020 ERA FOR THE OIL AND GAS INDUSTRY ............................................................................................................................... 2505
J. C. Viscomi, L. G. Schoeling, T. E. Williams

DELIVERING BETTER BUSINESS OUTCOMES WITH SOFT SKILLS ............................................................................................................................... 2517
C. Susan Howes, Lori Dalrymple, Jon Nelson, Greg Solomon

MEMBERS IN TRANSITION: CAREER PLANNING, JOB SEARCH, ENTREPRENEURSHIP AND INNOVATION ............................................................................................................................... 2546
C. Susan Howes, J. Roger Hite, Daniel De Clute-Melancon

COACHING: AN EFFECTIVE LEARNING TOOL TO FILL COMPETENCY GAPS-A CASE STUDY OF AN UPSTREAM OIL & GAS COMPANY ............................................................................................................................... 2575
Eesa Al-Daihani, Arun Kumar Nandi, Syed Mohammad Razaa, Shereen Usmani

INNOVATIVE SOLUTIONS TO CREATING AN ACCELERATED TRAINING & DEVELOPMENT PROGRAM FOR TECHNICAL FIELD PERSONNEL ............................................................................................................................... 2585
Seth Robert, William Fiffick, Robert Guillory

EMPOWERING TECHNICAL PROFESSIONALS WITH EFFECTIVE SOFT SKILLS LEADS TO A MORE SUCCESSFUL BUSINESS ............................................................................................................................... 2599
Lori Rene Dalrymple, Eldon Dwyann Dalrymple

KEEPING QUALIFICATION AND COMPETENCE SIMPLE ............................................................................................................................... 2615
Kent R. Nuttall

EMERGING LEADERS ALLIANCE - THE APPLICATION OF SALIENT LEARNINGS IN CORPORATE ORGANIZATIONS ............................................................................................................................... 2622
Y. Pradhan, A. Sturrock, M. Kotenev, N. Nunn

SESSION 21: ADVANCES IN MULTIPHASE FLOW MODELING OF WELLBORES AND PIPES

EXPERIMENTAL STUDY OF THE MULTIPHASE FLOW OF SAND, VISCOUS OIL AND GAS IN A HORIZONTAL PIPE ............................................................................................................................... 2628
Panav Hulsurkar, Ohadare O. Awoleke, Mohabbat Ahmadi

TRANSIENT OPERATIONS AND INSTABILITIES IN DIFFERENT PRODUCTION SCENARIOS: MODELING AND VALIDATION ............................................................................................................................... 2653
Fahad Almudairis, Hong-Quan Zhang

A FAST AND ROBUST COMPOSITIONAL, MULTI-PHASE, NON-ISOTHERMAL WELLBORE HYDRAULICS MODEL FOR VERTICAL WELLS ............................................................................................................................... 2678
V. B. Putcha, T Ertekin

DYNAMIC MODELING TO SUPPORT THE SUCCESSFUL START-UP OF A CHALLENGING WELL ............................................................................................................................... 2703

SHIFTING TURNER’S PARADIGM: GAS WELLS CAN PRODUCE IN SLUG FLOW ............................................................................................................................... 2713
M. Marino, W. Schifferli, C. A. M. Veeken, J. Smith
UNDERSTANDING THE DEVIATION OF HORIZONTAL WOLFCAMP WELL GOR FROM TYPE-CURVE GOR IN THE GAS-CONDENSATE REGION OF THE PERMIAN BASIN ........................................ 2727
Abhishek Gaurav

CFD SIMULATION OF CRITICAL SAND DEPOSITION VELOCITY FOR SOLID-LIQUID SLURRY FLOW ........................................................................................................... 2738
Ramin Dabirian, Ram S. Mohan, Ovadia Shoham

A FULLY-COUPLED WELLBORE-RESERVOIR MODEL FOR TRANSIENT LIQUID LOADING IN HORIZONTAL GAS WELLS ............................................................... 2752
Hewei Tang, A. Rashid Hasan, John Killough

SESSION 22: VALUE IN RESERVES AND RESOURCES

DEVELOPMENT OF NATURAL GAS ASSETS IN FRONTIER OFFSHORE AREAS UNDER CHALLENGING TECHNICAL AND ECONOMIC ENVIRONMENT - A PROJECT FINANCE WITH REAL OPTIONS APPROACH ................................................................. 2771
Wilson Aliaga, Victor Huerta

MAXIMIZATION OF MAJOR OIL&GAS PROJECT VALUE AT IDENTIFICATION/ACCESS STAGE BY REFRAMING OF EXPLORATION STRATEGY ........................................ 2794
V. Orlov, R. Oshmarin, A. Bochkov, Y. Masalkin, S. Yakovlev, V. Ulyanov, M. Danilin

PEOPLE AND PROCESS: INTEGRATION OF TECHNOLOGY AND ORGANIZATIONAL ALIGNMENT FOR SUCCESSFUL IMPLEMENTATION OF A STRATEGIC CAPITAL INVESTMENT PORTFOLIO ................................................................. 2804
David S. Fulford, Gregory P. Starley, Michael Berry, Derrick W. Turk, James R. Dubois

CHANGE CULTURE, COMPETE ON COSTS & DELIVER: A SUCCESS STORY ON ADAPTING A WORLDWIDE INTERNATIONAL OIL COMPANY ORGANIZATION TO A CHALLENGING LOW OIL PRICE ENVIRONMENT .................................................. 2818
Stéphane Saintpere, Kevin Hannaford, Simona Ludoxan, Adoulaye Ndiaye, Edouard Baldy, Frank Cousin

COMPARISON BETWEEN PRODUCTION AND ECONOMIC INDICATORS IN THE PRODUCTION STRATEGY SELECTION FOR POLYMER FLOODING ............................................. 2839
V. E. Botechia, D. J. Schiozer

SESSION 23: COMPLETION OPTIMIZATION

STOP, DROP AND CIRCULATE; AN ENGINEERED APPROACH TO COILED TUBING DRILLOUTS ...................................................................................................................... 2851
Charles Pope, Alistair Charlton, Josh Inscore, Ryan Epperson, Blaine Sumner

DIVERSION - BE CAREFUL WHAT YOU ASK FOR ................................................................................. 2869

ELECTRONIC SLIDING SLEEVE FOR UNLIMITED ZONE MULTISTAGE COMPLETION SYSTEM ..................................................................................................................... 2889
Matt Merron, Zachary Walton, Michael Fripp

UNCONVENTIONAL COMPLETIONS OPTIMIZATION IN THE UPPER AND THE LOWER MONTNEY FORMATIONS, CANADA ................................................................. 2899
Omar Q. Mohammed, Rashid Kassim, Larry K. Britt, Shari Dunn-Norman

MODERN COMPLETION OPTIMIZATION IN THE HAYNESVILLE SHALE ................................................................................................................................. 2917
R. J. Cadotte, Andrew Whitsett, Melford Sorrell, Ben Hunter

EVOLVING COMPLETION TECHNOLOGIES MITIGATE PROPPANT FLOWBACK ............................................. 2930
C. Swain, J. Powell, Stadnyk

PROVEN HYDRAULIC FRACTURING FIELD APPLICATIONS FOR REAL-TIME VISUALIZATION AND MONITORING SYSTEM ......................................................................... 2937
Barry T. Hlidek, Charlie Lee

FULLY DISSOLVABLE FRACTURING PLUG FOR LOW-TEMPERATURE WELLBORES ............................................... 2945
Michael Fripp, Zachary Walton, Tyler Norman

AN ENGINEERED APPROACH TO DESIGN BIODEGRADABLES SOLID PARTICULATE DIVERTERS: JAMMING AND PLUGGING ....................................................................... 2957
Mojtaba P. Shahri, Jian Huang, Clayton S. Smith, Francisco E. Fragachán
SESSION 24: DRILLING CHALLENGES AND SOLUTIONS

MEETING THE LARGE-DIAMETER DRILLING CHALLENGES AND SECURING SUSTAINABLE PERFORMANCE GAINS USING HYBRID BIT TECHNOLOGY IN DEEPWATER GULF OF MEXICO .......................................................... 2989
Ashabikash Roy Chowdhury, Ryekman Callais, Wayne Rodrigue, Carlos H Alferez, Mark Anderson, Ivaylo Terziev, Magdiel Angeles

CHALLENGES AND LESSONS FROM IMPLEMENTING A REAL-TIME DRILLING ADVISORY SYSTEM .......................................................... 3001
Benjamin J. Spivey, Gregory S. Payette, Lei Wang, Jeffrey R. Bailey, Derek Sanderson, Stephen W. Lai, Behtash Charkhand, Aaron Eddy

CONTINUOUS HIGH FREQUENCY MEASUREMENT IMPROVES UNDERSTANDING OF HIGH FREQUENCY TORSIONAL OSCILLATION IN NORTH AMERICA LAND DRILLING .......................... 3045

ENHANCING PERFORMANCE AND OPERATIONAL SAFETY OF ARGENTINEAN VACA MUERTA SHALE WELLS BY DRILLING HIGH PRESSURE FORMATIONS USING MANAGED PRESSURE DRILLING .................................................. 3060
Mariano Pozo, Fabian Torres, Jorge Bedoya, Jean Christophe Leroy, Julio Montilva

THE ORIGIN AND MECHANISM OF SEVERE STICK-SLIP ............................................ 3081
Yuelin Shen, Zhengxin Zhang, Jie Zhao, Wei Chen, Mohammad Hamzah, Richard Harmer, Geoff Downton

ACHIEVING DIRECTIONAL CONTROL AND RATHOLE ELIMINATION WHILE UNDER-REAMING DEPLETED FORMATIONS WITH A ROTARY STEERABLE SYSTEM ................................................. 3101
Jeremy A Greenwood

BUCKLING OF CONCENTRIC STRING PIPE-IN-PIPE .................................................. 3110
Changning Li, Robello Samuel

A NEW WELL POSITIONING TECHNIQUE: ACCESS-INDEPENDENT RANGING SOLUTION FOR PROVIDING ACCURATE WELL COMPLETION .................................................. 3132
Hsu-Hsiang Wu, Sean Hinke, Yijing Fan

SESSION 25: RE-FRACTURING AND ACID STIMULATION

THE ROLE OF PORE PRESSURE DEPLETION IN PROPAGATION OF NEW HYDRAULIC FRACTURES DURING RETRACTURING OF HORIZONTAL WELLS .................................................. 3141
Ali Rezaei, Mehdi Rafiee, Fahd Siddiqui, Mohamed Soliman, Giorgio Bornia

PROPOSED RE-FRACTURING METHODOLOGY IN THE HAYNESVILLE SHALE .................................................. 3159
Tao Xu, Garrett Lindsay, Jason Bahlly, Efe Ejofodomi, Raj Malpani, Dan Shan

ENHANCED ACID FRACTURING WITH IMPROVED FLUID LOSS CONTROL AND NEAR WELLBORE DIVERSION INCREASES PRODUCTION IN KUWAIT .................................................. 3171
Elizabeth McCartney, Mohammad Al-Othman, Anwar Alam, Andrea Nino-Penaloza, Alexander Pirogov, Malvika Nagorkoti, D. V. Satya Gupta, Alfredo Mendez

REACTION RATE OF A NOVEL IN-SITU GENERATED HCL ACID AND CALCITE .................................................. 3192
Emre Arslan, Khatere Sokhanvarian, Hisham A. Nasr-El-Din, Nicole Shimek, Kern Smith

UNIQUE DESIGN AND PERFORMANCE OF A HIGH TEMPERATURE VISCOCOLASTIC DIVERTER PILL FOR SANDSTONE ACID YIELDS BETTER DIVERSION RESPONSE AND INCREASED PRODUCTION .................................................. 3205
Marty Usie, Paul Carman, Kevin Langlinais, Andrea Nino-Penaloza, Elizabeth McCartney

VOLUME 5

SESSION 26: ENVIRONMENT AND SUSTAINABILITY

TOWARDS GEOCHEMICALLY ACCURATE MODELING OF CARBONATE ACIDIZING WITH HCL ACID .................................................. 3226
Mohamed Mahrous, Abdullah Sultan, Eric Sonnenthal

OFFLINE TEMPORARY ABANDONMENT, DEEPWATER DVA .................................................. 3248
C. Hosli, S. Shannon, R. Boyle, D. Stein
APPLICATION OF INNOVATIVE LEACHING AND RESOURCE UTILIZATION TECHNOLOGY TO TREAT OILY DRILLING CUTTINGS ON THE HARMLESSIZATION HANDLE IN THE TIAN MOUNTAIN FRONT BLOCK IN WEST CHINA .......................................................... 3269
Li Long, Yin Da, Li Lei, Yang Yuping, Xu Xiangguang, Zhang Jie

INNOVATIONS ON REDUCING ENVIRONMENTAL FOOTPRINT OF AN EOR PROJECT .................. 3282
Jie Xiao

FRESH WATER NEUTRAL: MANAGING WATER USE AND GIVING BACK TO THE ENVIRONMENT ............................................................................................................................... 3291
R. Greaves, R. Hartstein, D. Linicome, P. Beck, M. Booshe, K. E. Olson

A RESOURCE-ORIENTED METHOD OF OILY SLUDGE DISPOSAL IN ASP FLOODING PRODUCTION ............................................................................................................................... 3318
Zhihua Wang, Zhenhua Rui, Xinyu Lin, Mengmeng Xu, Ye Bai, Jiaqi Luo

DESIGN AND IMPLEMENTATION OF A FIELD TEST FOR BIOLOGICAL BASED VOC EMISSION CONTROL FOR AN OIL AND GAS PRODUCTION FACILITY IN EAST TEXAS .................. 3333
Shooka Khoramfar, Kim D. Jones, James Boswell, George E. King

EMPLOYING EFFECTIVE WATER TREATMENT IN WEST TEXAS TO MITIGATE SURFACE EQUIPMENT FAILURES ............................................................................................................................... 3346
Sarkis Kakadjian, Marvin Solomon, Raymond Nwachukwu

SESSION 27: FLUID PHASE BEHAVIOR AND APPLICATIONS

COMPARISON OF PR-EOS WITH CAPILLARY PRESSURE MODEL WITH ENGINEERING DENSITY FUNCTIONAL THEORY ON DESCRIBING THE PHASE BEHAVIOR OF CONFINED HYDROCARBONS ............................................................................................................................... 3355
Yueliang Liu, Zehuai Jin, Huazhou Andy Li

MODELING OF THE INTERACTION BETWEEN ASPHALTENE AND WATER FOR MULTIPHASE RESERVOIR FLUIDS BY USE OF CUBIC-PLUS-ASSOCIATION EQUATION OF STATE ............................................................................................................................... 3374
Wenlong Jia, Ryosuke Okano

MULTI-SCALE FLUID PHASE BEHAVIOR SIMULATION IN SHALE RESERVOIRS BY A PORE-SIZE-DEPENDENT EQUATION OF STATE ............................................................................................................................... 3398
Sheng Luo, Jodie L. Lustenhaus, Hadi Nasrabadi

A QUANTITATIVE STUDY ON THE EVOLUTION OF THE ASPHALTENE DISTRIBUTION DURING GAS CHARGE PROCESSES ............................................................................................................................... 3420
Julian Y. Zuo, Shu Pan, Kang Wang, Oliver C. Mullins, Hani Elshahawi, Jesus A. Canas, Li Chen, Hadrien Dumont, Vinay K. Mishra, German Garcia, Richard Jackson

A STATISTICAL MECHANICS MODEL FOR PVT BEHAVIOR IN NANOPORES ............................................................................................................................... 3433
Y. B. Coskuner, X. Yin, E. Ozkan

RESERVOIR FLUID CHARACTERIZATION PROCEDURE FOR PC-SAFT EQUATION OF STATE ............................................................................................................................... 3445
Peter Tybjerg, Karen S. Pedersen, K. Schoe Pedersen

DEVELOPING EQUATIONS OF STATE FOR UNCONVENTIONAL SOURCE ROCK FLUIDS ............................................................................................................................... 3460
A. Allouache, R. Harrison, E. Turek

EXPERIMENTAL VERIFICATION OF CHANGING BUBBLE POINTS OF OILS IN SHALES: EFFECT OF PREFERENTIAL ABSORPTION BY KEROGEN AND CONFINEMENT OF FLUIDS ............................................................................................................................... 3476
Manas Pathak, Raul Velasco, Palash Panja, Milind D. Deo

UNCERTAINTY QUANTIFICATION AND REDUCTION IN CAPILLARY PRESSURE AND IN-PLACE VOLUME MEASUREMENTS ON TIGHT ROCKS ............................................................................................................................... 3486
Shreeang S. Chhatre, Hemant Sahoo, Keili Vidal, Robert Longoria, Prateek Patel

SESSION 28: CHEMICAL EOR

IMPROVED HYDROCARBON RECOVERY USING MIXTURES OF ENERGIZING CHEMICALS IN UNCONVENTIONAL RESERVOIRS ............................................................................................................................... 3503
Kishore K. Mohanty, Songyang Tong, Chunmii Miller, Matt M. Honarpour, Edward Turek, Doug D. Peck

A NOVEL MECHANISM OF ALKALINE FLOODING TO IMPROVE SWEEP EFFICIENCY FOR VISCIOUS OILS ............................................................................................................................... 3524
Rong Xiao, Gary F. Teletzke, Michael W. Lin, Rodney C. Glotzbach, Almas Aitkulov, Mohsen Yeganeh, Aditya Jaisakhar, Jessica Hegner
IMPROVING ASP PERFORMANCE IN CARBONATE RESERVOIR ROCKS USING HYBRID-ALKALI ................................................................. 3537

NANOPARTICLE-STABILIZED FOAMS FOR HIGH-TEMPERATURE, HIGH-SALINITY OIL RESERVOIRS .................................................................................................................................................. 3562
Robin Singh, Kishore K. Mohanty

NEW METHOD TO REDUCE RESIDUAL OIL SATURATION BY POLYMER FLOODING ............................................................... 3577
Mehmet Z. Ertucik, Pengpeng Qi, Matthew T. Balhoff, Gary A. Pope

A COMPREHENSIVE EVALUATION OF ALKALINE SURFACTANT POLYMER FLOODING AND HYBRID PROCESS FOR ENHANCED OIL RECOVERY .......................................................................................................................... 3598
Cuong Dang, Long Nghiem, Ngoc Nguyen, Zhangxin Chen, Chaodong Yang, Wisup Bae

REPEATABLE STEADY-STATE FOAM EXPERIMENTAL DATA AND INVESTIGATIONS OF FOAM HYSTERESIS IN A SAND PACK ........................................ 3638
O. M’Barki, K. Ma, G. Ren, K. Mateen, G. Bourdarot, D. C. Morel, Q. P. Nguyen

CUSTOMIZING POLYMER RHEOLOGY FOR APPLICATION IN COMMERCIAL SCALE POLYMER FLOODS .......................................................................................................................... 3654
R. Fortenberry, R. Hernandez, Z. Li, M. Delshad

THE STUDY OF GEL CONFORMANCE CONTROL EFFECT WITHIN CARBONATES WITH THIEF ZONES BY ADVANCED NMR TECHNIQUE ....................................................................................................................... 3674
Amar J. Alshehri, Jinxun Wang, Hyung T. Kwak, Abdulkarim M. Alsofi, Jun Gao

SESSION 99: STUDENT PAPER CONTEST

A ROBUST FINITE ELEMENT SIMULATOR FOR BLACK-OIL AND FULLY COMPOSITIONAL COMPRESSIBLE FLOW IN HYDROCARBON RESERVOIRS ................................................................. 3689
Mohammad Amin Amooie

GEOCHEMICAL MODELING OF THE INTERPLAY BETWEEN POTENTIAL DETERMINING IONS DURING BRINE-DEPENDENT RECOVERY IN CARBONATE ROCKS .................................................................................... 3714
Adedapo Awolayo

AN ENHANCED PSEUDO-3D MODEL OF HYDRAULIC FRACTURE IN MULTI-LAYERED FORMATION .......................................................................................................................... 3735
Semen Budennyy

APPLICATION OF PRESSURE TRANSIENT CONCEPTS FOR IMPROVED UPSCALING OF GEOLOGIC MODELS ................................................................. 3751
Krishna Nunna

IMPROVED METHOD OF MOMENTS TO DETERMINE MOBILE PHASE SATURATIONS WITH SINGLE WELL CHEMICAL TRACER TEST ............................................................................................................... 3770
Wei Tian

PORE-SCALE EXPERIMENTAL STUDY OF MATRIX-FRACTURE INTERACTIONS DURING TERTIARY GAS INJECTION IN CARBONATES USING X-RAY MICROTMOTOMOGRAPHY .................................................................................. 3783
Mohammad Sabti

IMPACT OF ALKALI-SILICA REACTION ASR ON STRUCTURAL INTEGRITY OF LIGHT-WEIGHT WELLBORE CEMENT .......................................................................................................................... 3796
Dylan Albers

RHEOLOGY, REGAIN FRACTURE CONDUCTIVITY AND VISCOUS FINGERING PHENOMENON FOR PROPPANT SUSPENSION IN CMC HYDRAULIC FRACTURING FLUID .................................................................................. 3806
Abdulmumin Omeiza Aliu

AN INVESTIGATION ON QUALITATIVE ANALYSIS OF HYDRAULIC FRACTURE SIMULATION FOR FIELD DEVELOPMENT PLANNING ..................................................................................................................... 3824
Niranjan Bhore

IDENTIFYING THE OPTIMUM ZONE FOR REDUCING DRILL STRING VIBRATIONS ...................................................................................... 3833
Etaje Darlington Christian

A NEW APPROACH FOR PREDICTING DRILLSTRING VIBRATION IMPACT ON WELLBORE STABILITY .......................................................................................................................... 3845
Mohamed Shafik Khaled

APPLICATION OF ARTIFICIAL NEURAL NETWORK TO ESTIMATE PERMEABILITY FROM NUCLEAR MAGNETIC RESONANCE LOG .......................................................................................... 3856
Teslim Olayiwola
DETERMINING THE RESISTIVITY ANISOTROPY OF HIGH-RESISTIVITY SEDIMENTS, BASED ON LATERAL LOGGING SOUNDING DATA FROM VERTICAL WELLS .................................................. 3866

Aleksei Petrov

USE OF AN ITERATIVE ENSEMBLE SMOOTHER METHODOLOGY IN A HISTORY MATCHING AND UNCERTAINTIES ASSESSMENT PROCESS .................................................................................................................. 3873

Ricardo Vasconcellos Soares

IS WATERFLOODING THE CLEARFORK VIABLE? USING RESERVOIR SIMULATION AND ANALOG DATA TO OVERCOME HIGH UNCERTAINTY ........................................... 3888

Sara Edwards

INVESTIGATION OF THE OPTIMUM PRODUCTION STRATEGIES FOR THE ECONOMIC RECOVERY OF GAS CONDENSATE RESERVOIRS WITH DIFFERENT AQUIFER STRENGTH .................. 3898

Farah Fawzy

IMPACT OF RESERVOIR MIXING ON SURFACTANT SLUG SIZE OPTIMIZATION ........................................... 3908

Evan Galimberti

FORMATION FLUID SAMPLING TECHNIQUE ALLOWING TO CONTROL PHYSICAL PROPERTIES OF SAMPLING MEDIUM .................................................................................................................. 3921

Roman Gutman

PROFITABILITY CALCULATIONS OF ABANDONED MINE METHANE PRODUCTION IN THE UPPER SILESIAN COAL BASIN .................................................................................................................. 3930

Wojciech Labuda

SINGLE-PHASE FLOW OF AQUEOUS POLYMER SOLUTIONS USED IN ENHANCED OIL RECOVERY: AN EXPERIMENTAL AND NUMERICAL APPROACH .................................................................................................................. 3946

Marjohny Lorene Long

PORE STRUCTURE ANALYSIS USING SUBCRITICAL GAS ADSORPTION METHOD ........................................... 3961

Manju Pharkavi Murugesu

BOTTOMHOLE ASSEMBLY SMART GENERATOR .................................................................................................................. 3979

Khaled Shabara

GOR AND WATER CUT ALLOCATION OF WELLS IN A COMPLEX RISER TEST SYSTEM USING ANALYTICAL TECHNIQUES .................................................................................................................. 3988

Edidiong Thompson

MICROBIAL PROFILE MODIFICATION MPM: A NOBLE APPLICATION OF BIOTECHNOLOGY IN IMPROVING OIL RECOVERY .................................................................................................................. 4001

Aman Gaurav

SESSION 29: PROJECTS, FACILITIES AND SYSTEM DESIGN

BRIDGING THE GAP BETWEEN SUBSURFACE AND SURFACE DISCIPLINES - A TOOL FOR THE MODERN FACILITIES ENGINEER .................................................................................................................. 4009

Z. Cristea, T. Cristea

SUBSEA SPARES ANALYSIS: USING RELIABILITY, PRODUCTION IMPACT AND COST DATA TO DELIVER OPTIMUM VALUE .................................................................................................................. 4022

C. Bonini, Y. Clarke

VOLUME 6

COLLABORATIVE WORK ENVIRONMENT IMPLEMENTATION STRATEGY FOR MARGINAL FIELD OPERATORS .................................................................................................................. 4029

Emmanuel Udofia, Benjamin Obong, Ray Zhenhua Rui

DEMONSTRATION OF PROCESSING CAPACITY ENHANCEMENT ON AN OFFSHORE FACILITY THROUGH SYSTEMATIC FIELD TRIALS .................................................................................................................. 4036

Neil Rodrigues, Nikhil Joshi, Ricky L. Jagneau, Kashyap P. Kapadia

CHALLENGES OF DELIVERING CAPITAL PROJECTS IN FAST GROWING INDIGENOUS OIL AND GAS COMPANY NOC: THE SEPLAT EXPERIENCE .................................................................................................................. 4044

Adekola Oladipo

DESIGNING SUBSEA PRODUCTION SYSTEMS FOR EFFICIENT STARTUP TO MITIGATE COSTLY TOPSIDE DOWNTIME .................................................................................................................. 4056

Cedric Chidiac, Robert Sauvé, Sarah Kunz
ENHANCED OIL RECOVERY - POLYMER FLOODING: SURFACE TRANSFER FACILITY DESIGN, GRAPHICAL APPROACH FOR HYDRAULICS AND TACKLE INDUCED VIBRATIONS

Shagun Jain, Bharat Parekh

HYDRATE INDUCED VIBRATION IN AN OFFSHORE PIPELINE

M. M. Jujuly, M. A. Rahman, A. Maynard, Matthew Addy

SESSION 30: PETROLEUM ADVANCED ANALYTICAL METHODOLOGIES FOR WELL AND RESERVOIR OPTIMIZATION

APPLYING SUPPORT VECTOR REGRESSION TO REDUCE THE EFFECT OF NUMERICAL NOISE AND ENHANCE THE PERFORMANCE OF HISTORY MATCHING

Papers In Zhenyu Guo, Guohua Gao, Jeroen Vink

FROM FACE DETECTION TO FRACTURED RESERVOIR CHARACTERIZATION: BIG DATA ANALYTICS FOR RESTIMULATION CANDIDATE SELECTION

Egbadon Udegbe, Eugene Morgan, Sanjay Srinivasan

STREAMLINE ROCK FACES CLASSIFICATION WITH DEEP LEARNING COGNITIVE PROCESS

Mohamed Sidahmed, Atish Roy, Anjum Sayed

PERFORMANCE PREDICTION FOR ADVANCED WELL STRUCTURES IN UNCONVENTIONAL OIL AND GAS RESERVOIRS USING ARTIFICIAL INTELLIGENT EXPERT SYSTEMS

Chukwuka Enyioha, Turgay Ertekin

A MACHINE LEARNING APPROACH TO OPTIMIZE SHALE GAS SUPPLY CHAIN NETWORKS

COMPARISON OF SHALE OIL PRODUCTION FORECASTING USING EMPIRICAL METHODS AND ARTIFICIAL NEURAL NETWORKS

Anuj Suhag, Rahul Ranjith, Fred Aminzadeh

TECHNICAL POTENTIAL: A HIGHLY EFFECTIVE TOOL FOR NATIONAL OIL COMPANIES TO DRIVE AND MANAGE BUSINESS PLANS – A REAL CASE STUDY AT PETRONAS MALAYSIA

Vipin Prakash Gupta, Satyajit Dwivedi, Razelf B. Roslan, Rahim Masoudi, W. Aziz Razali

USING DATA ANALYTICS ON DIMENSIONLESS NUMBERS TO PREDICT THE ULTIMATE RECOVERY FACTORS FOR DIFFERENT DRIVE MECHANISMS OF GULF OF MEXICO OIL FIELDS

Gowtham Talluru, Xingru Wu

DEEP LEARNING FOR STEAM JOB CANDIDATE SELECTION

Chung Ming Cheung, Palash Goyal, Arash Saber Tehrani, Viktor K. Prasanna

SESSION 31: UNCONVENTIONALS

A RIGOROUS SOLUTION TO THE PROBLEM OF PHASE BEHAVIOR IN UNCONVENTIONAL FORMATIONS WITH HIGH CAPILLARY PRESSURE

Sajjad S. Neshat, Ryosuke Okuno, Gary A. Pope

EFFECT OF WATER IN TRANSPORT AND STORAGE OF NON-AQUEOUS SPECIES IN KEROGEN

Mohammad Kazemi, Ali Takbiri-Boroujeni, Mahdi Mansouri-Boroujeni, Ting Sun

PHASE BEHAVIOR CHANGE DUE TO ROCK DEFORMATION IN SHALE RESERVOIRS: A COMPOSITIONAL MODELING APPROACH

Ilkay Uzun, Erdinc Eker, Hossein Kazemi, Jeffrey M. Rutledge

SEISMIC INVERSION BASED SRV AND RESERVES ESTIMATION FOR SHALE PLAYS

Saurabh Sinha, Kurt J. Marfurt, Deepak Devegowda, Rafael Pires De Lima, Sumit Verma

A SIMPLE PHYSICS-BASED MODEL PREDICTS OIL PRODUCTION FROM THOUSANDS OF HORIZONTAL WELLS IN SHALES

Tadeusz W. Patzek, Wardana Saputra, Wissem Kirati

DISTANCE OF INVESTIGATION FOR UNCONVENTIONAL RESERVOIRS COULD BE MISLEADING

S. Hamed Tabatabaie, Mehran Pooladi-Darvish, Louis Mattr

CASE HISTORY - CONTINUED DIAGNOSTIC TECHNOLOGY INTEGRATION WITH COMPLETIONS IN HORIZONTAL WOLFCAMP SHALE WELLS IN THE DELAWARE BASIN.................................................................................. 4780
Justin E. Parker, Van P. Tran, Lucas W. Bazan, Jonathan Thomas, Arden Renze

EVALUATION AND MANAGEMENT OF STIMULATION PLACEMENT CONTROL IN CEMENTED SLEEVE COMPLETIONS .................................................................................................................. 4803
Paul Huckabee, Dustin Ellis, Brian Keable, Varun Gouthaman, Gustavo Ugueto, Dave Nasse, Jordan Sawyer

APPLICATION OF PIN-POINT SAND JET PERFORATING ANNULAR FRACTURING IN MULTIPLE COAL SEAMS UNLEASHING CLEAN ENERGY IN SOUTHWEST CHINA.................................................. 4822

VOLUME 7

HAYNESVILLE SHALE HORIZONTAL WELL COMPLETIONS: WHAT HAS BEEN LEARNED THROUGH POST-STIMULATION COMPLETION DIAGNOSTICS AND HOW THESE LEARNINGS CAN BE EMPLOYED TO MAKE BETTER WELLS........................ 4841
Mark N. Warren, Swathika Jayakumar, Robert A. Woodroof

SESSION 35: 3 FS OF RESERVOIR GEOLOGY & GEOPHYSICS: FLUIDS, FAULTS AND FRACTURES

SATURATION MAPPING IN THE INTERWELL RESERVOIR VOLUME: A NEW TECHNOLOGY BREAKTHROUGH.......................................................................................................................... 4863
Alberto F. Marsala, Stig Lyngra, S. Mark Ma, Sarah F. Alsaif, Ping Zhang, Moemen Ramadan, Wael Abdallah

RESERVOIR IMPLICATIONS OF A SPILL-FILL SEQUENCE OF RESERVOIR CHARGE COUPLED WITH VISCOITY AND ASPHALTENES GRADIENTS FROM A COMBINATION OF WATER WASHING AND BIODEGRADATION............................................................................. 4873
SESSION 36: ADVANCES IN RESERVOIR CHARACTERIZATION AND DESCRIPTION

RAPID AND CONSISTENT IDENTIFICATION OF STRATIGRAPHIC BOUNDARIES AND STACKING PATTERNS IN WELL-LOGS - AN AUTOMATED PROCESS UTILIZING WAVELET TRANSFORMS AND BETA DISTRIBUTIONS
Shin-Ju Ye, Robert W. Wellner, Paul A. Dunn

CHARACTERIZATION OF RESERVOIR FLOW UNITS BASED ON A POWER-LAW EQUATION OF PERMEABILITY OBTAINED FROM AN INTERACTING BUNDLE OF LEAKY TUBES MODEL
Faruk Civan

STRESS-INDUCED DAMAGE EVOLUTION IN UNCONVENTIONAL SHALE MONITORED BY ACOUSTIC EMISSION

DATA DRIVEN ASSESSMENT OF ROTARY SIDEWALL CORING PERFORMANCE
Vladislav Torlov, Clovis Bonavides, Ali Belowt

REAL-TIME FORMATION EVALUATION AND CONTAMINATION PREDICTION THROUGH INVERSION OF DOWNHOLE FLUID SAMPLING MEASUREMENTS
Morten Kristensen, Nikita Chugunov, Adrianna Gisolf, Mario Biagi, Francois Dubost

LOGGING FACIES CLASSIFICATION AND PERMEABILITY EVALUATION: MULTI-RESOLUTION GRAPH BASED CLUSTERING
Xinlei Shi, Yunjiang Cui, Xiaoyang Gao, Hongwei Yang, Rongqiao Chen, Ting Li, Ruijuan Li, Ruisheng Wang, Jian Wang, Li Meng

RATE-TRANSIENT ANALYSIS BASED ON POWER-LAW BEHAVIOR FOR PERMIAN WELLS
W. Chu, N. Pandya, R. W. Flumerfelt, C. Chen

SESSION 37: NEW ADVANCES IN UNCONVENTIONAL TRANSPORT AND EOR

HINDERED TRANSPORT IN NANOPOROUS UNCONVENTIONAL RESERVOIRS AND ITS IMPLICATIONS ON IOR AND STIMULATION
Jamila Huseynova, Erdal Ozkan
THE IMPACT OF SURFACTANT IMBIBITION AND ADSORPTION FOR IMPROVING OIL RECOVERY IN THE WOLFCAMP AND EAGLE FORD RESERVOIRS ................................................................. 5155
J. O. Alvarez, I. W. R. Saputra, D. S. Schechter

CHARACTERIZING PORES AND PORE-SCALE FLOW PROPERTIES IN MIDDLE BAKKEN CORES ............................................................................................................................... 5180
Somayeh Karimi, Hossein Kazemi

RELATIVE PERMEABILITY AND RESIDUAL SATURATION ESTIMATES FOR ORGANIC-RICH SHALE SAMPLES FROM BAKKEN, WOLFCAMP, EAGLE FORD AND WOODFORD FORMATIONS ................................................................................................. 5203
Shiv Prakash Ojha, Siddharth Misra, Ankita Sinha, Son Dang, Ali Tinni, Carl Sondergeld, Chandra Rai

EFFECT OF POREOELASTICITY, PORE CONFINEMENT, MOLECULAR-TO-INERTIAL TRANSPORT, AND THRESHOLD PRESSURE ON FLOW OF GAS THROUGH HYDRAULICALLY-FRACTURED SHALE-GAS RESERVOIRS ................................................................. 5220
Faruk Civan

KNUDSEN-LIKE SCALING MAY BE INAPPROPRIATE FOR GAS SHALES ............................................................................................................................... 5241
Tadeusz W. Patzek

ROCK-ON-A-CHIP APPROACH PROVIDES NEW INSIGHT FOR WELL INTERFERENCES IN LIQUIDS-RICH SHALE PLAYS ............................................................. 5265
Kai He, Liang Xu, Paul Lord, Martin Lozano, Shakes Kenzhekanov, Xiaolong Yin, Keith Nevees, Tao Huang

MODELING AND SIMULATION OF TRANSPORT PHENOMENA IN ORGANIC-RICH MARCELLUS SHALE ROCK MATRIX ..................................................................................... 5275
Jan Goral, Ilija Miskovic, Milind Deo

PHENOMENOLOGICAL CORRELATION OF PRESSURIZATION/DEPRESSURIZATION HYSTERESIS OF STRESS-DEPENDENT POROSITY AND PERMEABILITY OF SHALE RESERVOIRS ............................................................................................................................... 5283
Faruk Civan

SESSION 38: PROCESS AND MONITORING

EVALUATION OF FIELD AND LABORATORY ACOUSTIC SAND MONITOR DATA IN MULTIPHASE FLOW PRODUCTION ............................................................................................................................... 5294
B. S. McLaury, S. A. Shirazi

EVALUATION OF PIPELINE SAND SAMPLING PRACTICES IN PETROLEUM INDUSTRY ............................................................................................................................... 5308
H. Arabnejad, Y. Leng, B. S. McLaury, S. A. Shirazi

EVALUATION OF SOFTWARE-BASED EARLY LEAK WARNING SYSTEM IN GULF-OF-MEXICO SUBSEA FLOWLINES ............................................................................................................................... 5321
C. J. Thiberville, Y. Wang, P. Waltrich, W. C. Williams, S. I. Kam

DEGASIFICATION BY ABSORPTION-BASED GAS STRIPPING ............................................................................................................................... 5358
Steve Crawford, John Korpiel, Oscar Velastegui

AUTOMATIC FLARE STACK MONITORING ............................................................................................................................... 5367
R. Janssen, N. Sepasian

PARTIAL PROCESSING: PRODUCED WATER DEBOTTLENECKING UNLOCKS PRODUCTION ON OFFSHORE THAILAND MOPU PLATFORM ............................................................................................................................... 5375
C. H. Rawlins

SESSION 39: PRODUCTION OPTIMIZATION

SECURING LONG-TERM WELL PRODUCTIVITY OF HORIZONTAL WELLS THROUGH OPTIMIZATION OF POSTFRACTURING OPERATIONS ............................................................................................................................... 5387

SPATIAL AND TEMPORAL RELATIONSHIPS BETWEEN PRODUCED GAS AND WATER IN MARCELLUS THROUGH DATA MINING ANALYSIS ............................................................................................................................... 5410
Q. Zhou, J. Y. Wang, Y. Xiao, A. Kleit

PREDICTION OF FINES MIGRATION THROUGH CORE TESTING ............................................................................................................................... 5426
Oya Karazincir, Wade Williams, Peggy Rijken

INTEGRATED RESERVOIR-NETWORK SIMULATION IMPROVES MODELING AND SELECTION OF SUBSEA BOOSTING SYSTEMS FOR A DEEPWATER DEVELOPMENT ............................................................................................................................... 5460
Gaurav Seth, Ernesto Valbuena, Soong Tam, Will Da Sle, Hemant Kumar, Brian Arias, Troy Price
PRODUCTION OPTIMIZATION OF SHENZI FIELD IN THE DEEPWATER GULF OF MEXICO

P. Ashton, D. Cooper, C. Akajagbor, J. Politte, S. Lo

SELF-ASSEMBLING NANOPARTICLES: A UNIQUE METHOD FOR DOWNHOLE SAND CONSOLIDATION

Rajendra Kalgoonkar, Frank Chang

CHOKE MANAGEMENT UNDER WELLBORE, COMPLETION AND RESERVOIR CONSTRAINTS

Emmanouil Karantinos, Mukul M. Sharma

MODELING OF PRODUCTION DECLINE CAUSED BY FINES MIGRATION IN DEEP WATER RESERVOIRS

Yunhui Tan, Yan Li, Ruting Wu, Peggy Rijken, Karim Zaki, Oya Karazincir, Wade Williams, Bin Wang

SESSION 40: ARTIFICIAL LIFT: APPLICATIONS AND CASE HISTORIES

INVERTED ESP CHANGING THE GAME IN WATER CONING CONTROL IN WATER DRIVE RESERVOIRS - NORTH KUWAIT CASE STUDY

E. Anthony, S. Elaila, N. Al-Maqseed, M. Areekat

INTELLIGENT LONGEST STROKE RECIPROCATING PUMPING SYSTEM FOR PRODUCTION AND COST OPTIMIZATION

Mohamed Ghareeb, Dave Kennedy, Alvin Woo

SMART ALARMING FOR INTELLIGENT SURVEILLANCE OF ELECTRICAL SUBMERSIBLE PUMP SYSTEMS

Moradeyo Adesanwo, Oladele Bello, Sony Lazarus, Tommy Denney

ADVANCED ELECTRIC SUBMERSIBLE PUMP ALTERNATIVE DEPLOYMENT TECHNOLOGY: AN OVERVIEW AND CASE STUDY

Brian A. Roth, J. J. Xiao, Thosse Windtarto, Naif Al-Hadrami, Nasser F. Al-Qubani, Yahya Sarawaq

HIGH PRESSURE GAS-LIFT: IS INDUSTRY MISSING A POTENTIALLY HUGE APPLICATION TO HORIZONTAL WELLS?

D. Elmer, W. Elmer, L. Harms

CASE STUDIES OF OPTIMIZING THE ARTIFICIAL LIFT STRATEGY FOR REACTIVATING ABANDONED WELLS IN A MATURE FIELD

Katherine Escobar Patron, Paola Martinez Villarreal, Jorge Luis Villalobos Leon

DEVELOPMENT OF A SOLAR-ESP BASED WELLHEAD SYSTEM FOR REMOTE WELLHEAD OPERATIONS IN MARGINAL OILFIELDS

Francis Enejo Idachaba, Esther Wokoma

SESSION 41: FLOW CONTROL AND MEASUREMENT

ON/OFF ICD WELL PERFORMANCE ASSESSMENT BELOW AN ESP USING INTELLIGENT CHEMICAL INFLOW TRACER TECHNOLOGY IN A BROWN FIELD IN KUWAIT

VOLUME 8

MULTI-ZONE CASED HOLE FRAC-PACKS AND INTELLIGENT WELL SYSTEMS IMPROVE RECOVERY IN SUBSEA GAS FIELDS

INFLOW CONTROL DEVICE INJECTION AND PRODUCTION DYNAMIC INTEGRITY TESTING – BEST PRACTICES

M. S. Jackson, C. S. Mayer, C. E. Shuchart, S. D. Dornic, G. L Taylor

DETECTING POOR CEMENT BONDING AND ZONAL ISOLATION PROBLEMS USING MAGNETIC CEMENT SLURRIES

Sriramya D. Nair, Tadeusz W. Patzek, Eric Van Oort
COMBINING PASSIVE AND AUTONOMOUS INFLOW CONTROL DEVICES IN A TRI-LATERAL HORIZONTAL WELL IN THE ALVHEIM FIELD ................................................................. 5694
Kåre Langaas, Emile Jeurissen, Kebede Abay Hailu

NOVEL USE OF APPLICATION-SPECIFIC INTEGRATED CIRCUITS IN QUARTZ-BASED PERMANENT DOWNHOLE GAUGES INCREASES RELIABILITY ESTIMATES IN HIGH-TEMPERATURE APPLICATIONS ......................................................... 5711
Quanling Zheng, Elias Garcia, Aswin Balasubramanian

SESSION 42: ZONAL ISOLATION / WELLBORE INTEGRITY

REDUCING BOP TESTING COSTS DURING WIRELINE LOGGING CAMPAIGNS ................................................................. 5717
J. Stroud, R. Basu

ADVANCED WELL CONTROL USING RAPID CROSS-LINKING POLYMERS ................................................................. 5722
Tim Nedwed, Kaustubh Kulkarni, Rachna Jain, Doug Mitchell, Bill Meeks, Daryl P. Allen, Brian Edgecombe, J. CRCe Christopher

THE STUDY ON EXPANDABLE TUBULARS COLLAPSE PERFORMANCE AND THE DEVELOPMENT OF RISK BASED DESIGN COLLAPSE STRENGTH ................................................................. 5731
X. Long, S. M. Roggeband, H. Pasaribu, M. Jabs, F. J. Klever

REAL TIME CEMENT DISPLACEMENT TRACKING USING DISTRIBUTED FIBER OPTIC SENSORS ................................................................. 5759
Qian Wu, Marjorie Dinninger, Sriramya Nair, Eric Van Oort, Artur Guzik, Kinzo Kishida

APPLICATION OF NEW INTERPRETATION WORKFLOWS THAT IMPROVE CEMENT EVALUATION IN PRESENCE OF MICROANNUlus ................................................................. 5771
Yerlan Issabekov, Ram Sander Kalyanaraman, Taha Ben Hanaa, Hani Benaicha, Olivier J. Goa

QUANTIFICATION OF IN-SITU CEMENT CONTAMINATION BY ELECTROMAGNETIC ACOUSTIC TRANSDUCER TECHNOLOGY: AN INTEGRATED APPROACH TO IMPROVED ZONAL ISOLATION ................................................................. 5784
D. Khatri, A. Bottiglieri, R. Das, D. Patterson

DEPLOYMENT OF A REMOTELY ACTIVATED LINER HANGER SYSTEM TO IMPROVE DRILLING AND WELL CONSTRUCTION EFFICIENCIES ................................................................. 5805
Amnar A. Munshi, K. O’Connor, S. McMahon, M. Carmody

FULL-RANGE QUANTITATIVE CEMENT BOND EVALUATION WITH LWD SONIC: THE RIGHT WAY OF APPROACH USING A HYBRID OF AMPLITUDE AND ATTENUATION ................................................................. 5811
W. Izuhara, H. Yamamoto, M. Bllyth, E. Suez

ENHANCING CEMENT INTEGRITY IN STEAM INJECTION APPLICATIONS WITH HIGH TEMP SWELLABLE TECHNOLOGY ................................................................. 5832
Travis Clark, Tim Davis, Derek Hance

SESSION 43: ENHANCED OIL RECOVERY (EOR) MECHANISMS

3-D VISUAL EXPERIMENTS ON FLUID FLOW BEHAVIOR OF WATER FLOODING AND GAS FLOODING IN FRACTURED-VUGGY CARBONATE RESERVOIR ................................................................. 5837
Ming Qu, Jinjie Hou, Fenglan Zhao, Zhaojie Song, Shixi Ma, Qian Wang, Meng Li, Meng Yang

INTERPRETATION OF INTERWELL CHEMICAL TRACER TESTS IN LAYERED HETEROGENEOUS RESERVOIRS WITH CROSSFLOW ................................................................. 5850
Tong Shen, Rouzbeh Ghanbarnezhad Moghanloo, Wei Tian

IMPROVING CHEMICAL EOR SIMULATIONS AND REDUCING THE SUBSURFACE UNCERTAINTY USING DOWNSCALING CONDITIONED TO TRACER DATA ................................................................. 5867
Victor A. Torrealba, Hussein Hoteit, Adwait Chawathe

A COMPREHENSIVE MODEL FOR INVESTIGATION OF CO2-EOR WITH NANOPORE CONFINEMENT IN THE BAKKEN TIGHT OIL RESERVOIR ................................................................. 5880
Yuany Zhang, Yuan Di, Wei Yu, Kamy Sepehrnoori

IMPACT OF RELATIVE PERMEABILITY HYSTERESIS ON WATER-ALTERNATING-GAS WAG INJECTIVITY: MODELING AND EXPERIMENTAL STUDY ................................................................. 5899
Yuguang Chen, Stanley Wu, Degen Zhou, Adwait Chawathe, Art Inouye

CHARACTERIZATION OF RESERVOIR HETEROGENEITY FOR SAGD AND ES-SAGD: UNDER WHAT TYPE OF HETEROGENEITY IS ES-SAGD MORE LIKELY TO LOWER SOR? ................................................................. 5919
Arun Venkat Venkatramani, Ryusuke Okuno
COMPARATIVE STUDY OF OIL DILUTION CAPABILITY OF DIMETHYL ETHER DME AND HEXANE AS STEAM ADDITIVES FOR SAGD
Kwang Hoon Baek, Kai Sheng, Francisco J. Argüelles-Vivas, Ryosuke Okuno

SESSION 44: NOVEL APPLICATION OF GEOPHYSICAL TECHNIQUES TO MONITOR RESERVOIR PERFORMANCE

PROXIMITY SENSING: A NOVEL APPROACH TO RESERVOIR SATURATION MONITORING USING HIGH FREQUENCY ELECTROMAGNETIC PULSES
Jesus M. Felix S., Erika S. Ellis, Howard K. Schmidt

HISTORY MATCHING OF FREQUENT SEISMIC SURVEYS USING SEISMIC ONSET TIMES
AT THE PEACE RIVER FIELD, CANADA
Gill Hetz, Hyunmin Kim, Akhil Datta-Gupta, Michael J. King, Justyna K. Przybyysz-Jarnut, Jorge L. Lopez, Donald Vasco

ANALYTICAL METHOD FOR VOIDAGE REPLACEMENT RATIO CALCULATION IN RESERVOIRS WITH QUASICRITICAL FLUIDS
O. Rosario, J. C. Fernandez Hernandez, A. I. Korabelnikov, L. Albornett

RESEVEROIR SURVEILLANCE WITH 4DVSP - A CASE STUDY IN A KUWAIT EOR STEAM FLOOD PROJECT
Amal Al-Mutairi, Hamad Al-Haqqan, Zu Biao Ren, John Tinnin, Santi Randazzo, Antoine Pare

IMPROVED MONITORING SYSTEM FOR HEAVY OIL SAGD WELLS
Christopher Baldwin

SESSION 45: LATEST DEVELOPMENTS IN FORMATION TESTING

A NOVEL WELL TESTING METHOD FOR CHARACTERIZATION OF NON-DARCY FLOW BEHAVIOR IN LOW PERMEABILITY RESERVOIRS
Le Luo, Shiqing Cheng, Haiyang Yu, Youwei He, Yang Wang, Jiacheng Qin, Guan Qin

PRESSURE TRANSIENT ANALYSIS FOR A UNIQUE SHALE GAS CONDENSATE WELL, ACTUAL FIELD CASE
M. Ibrahim, C. Pieprzica, E. Vosburgh, A. Dubral, O. Olayinka, S. Larsen

IN-SITU ESTIMATION OF RELATIVE PERMEABILITY AND CAPILLARY PRESSURE FROM THE JOINT INVERSION OF ARRAY RESISTIVITY AND FORMATION TEST DATA
Lin Liang, Jianmin Zhu, Fan Wang, Jie Chen, Tarek M. Habashy, Aria Abubakar

USING WIRELINE FORMATION-TESTER DATA FOR RESERVOIR CHARACTERIZATION AND CONNECTIVITY DETERMINATION IN ULTRADEEPWATER AND HIGH-PRESSURE WILCOX FORMATION IN GULF OF MEXICO
Mehdi Azari, Hamid Hadibek, Sami Eyuboglu, Venkat Jambunathan, Waqar Khan, Sandeep Ramakrishna, Joshua Haack, Connie Bargas, Mashiur Khan

DYNAMIC DATA ANALYSIS WITH NEW AUTOMATED WORKFLOWS FOR ENHANCED FORMATION EVALUATION
M. A. Proett, S. M. Ma, N. M. Al-Musharfi, M. Berkane

THE CRITICAL ROLE OF ASPHALTENE GRADIENTS AND DATA INTEGRATION IN RESERVOIR FLUID GEODYNAMICS ANALYSIS
INTEGRATION OF PRESSURE AND RATE TRANSIENT ANALYSIS FOR TRANSVERSE AND LONGITUDINAL MULTISTAGE FRACTURED HORIZONTAL FIRST UNCONVENTIONAL GAS WELL IN EGYPT ............................................................................................................................... 6219
Mazher Ibrahim, Mohamed Salah

SESSION 46: CHALLENGING ROCK-FLUID SYSTEMS

EXPERIMENTAL INVESTIGATION OF ASPHALTENE INDUCED FORMATION DAMAGE DUE TO PRESSURE DEPLETION OF LIVE RESERVOIR FLUIDS IN POROUS MEDIA ............................................................................................................................... 6234
Omid Mohammadzadeh, Shawn David Taylor, Dmitry Eskin, John Ratulowski
INCREASED ASPHALTENES SURFACE AIDS FUEL FORMATION WITH THE PRESENCE OF CLAYS DURING IN-SITU COMBUSTION ............................................................................................................................... 6264
Norasyikin B. Ismail, Berna Hascakir
A MECHANISM STUDY OF WETTABILTY AND INTERFACIAL TENSION FOR EOR USING SILICA NANOPARTICLES.................................................................................................................................................. 6281
Renfeng Jiang, Kewen Li, Roland Horne
ASSESSING SINGLE EOS PREDICTABILITY USING PVT PROPERTIES OF A WET-GAS RESERVOIR ON A COMPOSITIONAL SIMULATOR............................................................................................................................... 6298
Bander N. Al Ghamdi, Cesar Pardo Tacha
DESIGN AND OPERATIONAL EXPERIENCE WITH HORIZONTAL STEAM INJECTORS IN KERN RIVER FIELD, CALIFORNIA, USA ............................................................................................................................... 6314
CHEMICAL FLOODING IN LOW PERMEABILITY CARBONATE ROCKS ............................................................................................................................... 6338
Pinaki Ghosh, Himanshu Sharma, Kishore K. Mohanty
SMART WATER FLOODING IN BEREA SANDSTONE AT LOW TEMPERATURE: IS WETTABILTY ALTERATION THE SOLE MECHANISM AT PLAY? ............................................................................................................................... 6360
Mohamed Ibrahim Mohamed, Vladimir Alvarado
AN EXPERIMENTAL AND MODELING STUDY OF SOLVENT-BITUMEN PHASE BEHAVIOR AT ELEVATED TEMPERATURES USING COLD LAKE BITUMEN ............................................................................................................................... 6378
Sara Eghbali, Hassan Dehghanpour
NON-EQUILIBRIUM SOLVENT INJECTION SIMULATION VIA PORE SCALE HEAT CONDUCTION AND DISPERSION.................................................................................................................................................. 6408
Bita Bayestehparvin, S. M. Farouq Ali, Jalal Abedi
