Statistical Methods and Safety Data and Analysis

Transportation Research Record: Journal of the Transportation Research Board Volume 2659 (2017)

ISBN: 978-1-5108-5462-8
# TABLE OF CONTENTS

Methodology to Backcalculate Individual Speed Data Originally Aggregated by Road Detectors ................................................... 1
Catani, Lorenzo; Tremblay, Jean-Michel; Bassani, Marco; Cirillo, Cinzia

Traffic Conflict–Based Before–After Study with Use of Comparison Groups and the Empirical Bayes Method ........................................ 15
Reyad, Passant; Sacchei, Emanuele; Ibrahim, Shewkar; Sayed, Tarek

Developing Macrolevel Collision Prediction Models to Evaluate Bicycle Safety in Vancouver, British Columbia, Canada ........................................ 25
Popescu, Bianca; Sayed, Tarek

Evaluating the Impact of Socioeconomics, Land Use, Built Environment, and Road Facility on Cyclist Safety .......................................................... 33
Osama, Ahmed; Sayed, Tarek

Impact of Congestion and Traffic Flow on Crash Frequency and Severity: Application of Smartphone-Collected GPS Travel Data ...................................................... 43
Stipancic, Joshua; Miranda-Moreno, Luis; Saunier, Nicolas

Investigation of Different Geometric Representations of Road User Volume and Their Impact on Postencroachment Time .................................................. 55
Mohamed, Mohamed Gomaa; Saunier, Nicolas

Incorporating a Safety Index into Pathfinding ................................................................. 63
He, Zhaoxiang; Qin, Xiao

Assessing Safety of Signalized Intersections: Influence of Geometric Attributes and Regionality on Traffic Accident Risk ................................................... 71
Shiomi, Tashiro; Watanabe, Kazuki; Nakamura, Hideki; Akahane, Hirokazu

Can Data Generated by Connected Vehicles Enhance Safety? Proactive Approach to Intersection Safety Management .................................................. 80
Kamrani, Mohsen; Wali, Behram; Khattak, Asad J.

Using Naturalistic Driving Data to Develop a Typology of Speeding Episodes ................................................................. 91
Richard, Christian M.; Brown, James L.; Atkins, Randolph; Divekar, Gautam

Factors Affecting Classification of Road Segments into High- and Low-Speed Collision Regimes ...................................................... 98
Gargoum, Suliman; Li, Yang; El-Basyouny, Karim; Kim, Amy

Network-Based Point Pattern Analysis of Bicycle Accidents to Improve Cyclist Safety: Case of Vienna, Austria ......................................................... 106
Kaygiziz, Ömür; Hauger, Georg

Evaluating Influence of Neighboring Structures on Spatial Crash Frequency Modeling and Site-Ranking Performance .................................................. 117
Gill, Gurdijot Singh; Cheng, Wen; Xie, Meiquan; Vo, Tom; Jia, Xuadong; Zhou, Jiao

Comparative Assessment of Safety Indicators for Vehicle Trajectories on Highways ................................................................. 127
Mullakkal-Babu, Freddy Antony; Wang, Meng; Farah, Hanieen; Van Arem, Bart; Happee, Riender

Analysis and Validation of Surrogate Safety Measures by Types of Lead and Following Vehicles ................................................ 137
Zhao, Peibo; Lee, Chris

Exploring Vehicle–Pedestrian Crash Severity Factors on the Basis of In-Car Black Box Recording Data ...................................................... 148
Song, Tai-Jin; So, Jaehyun (Jason); Lee, Jisun; Williams, Billy M.

Evaluating Aging Pedestrian Crash Severity with Bayesian Complementary Log–Log Model for Improved Prediction Accuracy ...................................................... 155
Kitali, Angela E.; Kidando, Emmanuel; Sando, Thobias; Moses, Ren; Oszgaven, Erem Erman

Examining Injury Severity of Not-At-Fault Drivers in Two-Vehicle Crashes ................................................................. 164
Pennetsa, Praveena; Pulugurtha, Srinivas S.; Duddu, Venkata R.

Mixed Effects Logistic Model to Address Demographics and Neighborhood Environment on Pedestrian Injury Severity ...................................................... 174
Guo, Rui; Xin, Chunfa; Lin, Pei-Sung; Kourtellis, Achilles

Preliminary Investigation of the Effectiveness of High-Visibility Crosswalks on Pedestrian Safety Using Crash Surrogates ...................................................... 182
Sarwar, M. Tanjif; Fountas, Grigorios; Bentley, Courtney; Anastasopoulos, Panagiotis C.; Blatt, Alan; Pierowicz, John; Majka, Kevin; Linoges, Robert

Predicting Day and Night Traffic Volumes on Rural Roads for Statistical Road Safety Modeling ...................................................... 192
Musunuru, Anusha; Wei, Ran; Porter, Richard J.
Accounting for Driver Distraction and Socioeconomic Characteristics in a Crash Risk Index: Naturalistic Driving Study ........................................................................................................................................................................... 204
Ye, Mengqiu; Osman, Osama A.; Ishak, Sherif

Thomas, Libby; Lan, Bo; Sanders, Rebecca L.; Frackelton, Alexandra; Gardner, Spencer; Hintze, Michael

Investigation of the Effect of Super Sharrows on Cyclist and Vehicle Behavior ........................................................................................................................................................................... 224
Kassim, Ali; Ismail, Karim; Woo, Suzanne
