TABLE OF CONTENTS

Comparing Crowdsourced Near-Miss and Collision Cycling Data and Official Bike Safety Reporting ..................... 1
Branion-Calles, Michael; Nelson, Trisalyn; Winters, Meghan

Where Do Bikeshare Bikes Actually Go? Analysis of Capital Bikeshare Trips with GPS Data ................................. 12
Wergin, Jon; Buehler, Ralph

Bicycle Backlash: Qualitative Examination of Aggressive Driver–Bicyclist Interactions .................................. 22
Piatkowski, Daniel P.; Marshall, Wesley; Johnson, Aaron S.

Low-Stress Bicycle Network Mapping: The District of Columbia’s Innovative Approach to Applying Level of Traffic Stress ............................................................................................................................... 31
Semler, Conor; Sanders, Meredith; Buck, Darren; Graham, James; Pochowski, Aleks; Dock, Stephanie

Cycling in Toronto, Ontario, Canada: Route Choice Behavior and Implications for Infrastructure Planning ............................................................. 41
Li, Jenny H.; Sh, Wei

Impact of Bike Facilities on Residential Property Prices .......................................................................................... 50
Liu, Jenny H.; Shi, Wei

Enhancing Cycling Safety at Signalized Intersections: Analysis of Observed Behavior ........................................ 59
Casello, Jeffrey M.; Fraser, Adam; Mereu, Alex; Fard, Pedram

Dwelling Type Matters: Untangling the Paradox of Intensification and Bicycle Mode Choice .......................... 67
Ledsham, Trudy; Parber, Steven; Wessel, Nate

How Do People Cycle in Amsterdam, Netherlands? Estimating Cyclists’ Route Choice Determinants with GPS Data from an Urban Area ................................................................................................. 75
Ton, Danique; Cats, Oded; Duval, Dorine; Hoogendoorn, Serge

Mind the Gap: Assessing the Impacts of Bicycle Accessibility and Mobility on Mode Share in Washington, D.C. ........................................................................................................................................ 83
Perez, Benito O.; Buck, Darren; Ma, Yiwei; Robey, Taylor; Lucas, Kimberly

Observations of Public Bikesharing: Experiences from Ningbo, China .................................................................. 93
Lu, Chenxi; Xu, Feifei; Dong, Sheng; Bie, Jing

Keep 'Em Separated: Desire Lines Analysis of Bidirectional Cycle Tracks in Montreal, Canada .......................... 102
Wexler, Michael Seth; El-Geneidy, Ahmed

Classification Criteria and Application of Level of Service for Bicycle Lanes in China ........................................ 116
Chen, Xiaohong; Fang, Xueli; Ye, Jianhong; Luttinen, Tapio

Typologies of Urban Cyclists: Review of Market Segmentation Methods for Planning Practice ........................ 125
Felix, Rosa; Moura, Filipe; Clifton, Kelly J.

The Reach of Bicycling in Rural, Small, and Low-Density Places ...................................................................... 134
McAndrews, Carolyn; Okayama, Kent; Litt, Jill S.

Investigation of Alternative Bicycle Pavement Markings with the Use of a Bicycle Simulator .......................... 143
Brown, Henry; Sun, Carlos; Qin, Zhu

Existence and Use of Low-Pollution Route Options for Observed Bicycling Trips ............................................... 152
Broach, Joseph; Bigazzi, Alexander Y.

Current Efforts to Make Bikeshare More Equitable: Survey of System Owners and Operators ....................... 160
Howland, Steven; McNeil, Nathan; Broach, Joseph; Rankins, Kenneth; Macarthur, John; Dill, Jennifer

Impacts of Level of Traffic Stress on Bikeshare Ridership in the Case of Capital Bikeshare in Montgomery County, Maryland ..................................................................................................................... 168
Prabhakar, Ranjani; Rixey, R. Alexander
