## Session 1: Modeling, Simulation and Application of Emergent Technologies

Performance Evaluation of CoDel Queue Mechanism and TFRC Transport Protocol when Using VoIP Flows .......... 1  
*Touseef Javed Chaudhery (Effat University)*

Performance Analysis of PID and State-Feedback Controller on the Depth Control of a Robotic Fish .............. 7  
*Subhan Khan (COMSATS Institute of Information Technology Lahore),*  
*Salman Javed (COMSATS Institute of Information Technology),*  
*Noman Naeem (COMSATS Institute of Information Technology Lahore),*  
*and Irfan Ali (COMSATS Institute of Information Technology Lahore)*

Modelling and Simulation of Resource constrained Vaccination Strategies and Epidemic Outbreaks ............. 12  
*Bushra Zafar (National Textile University),*  
*Rehan Ashraf (National Textile University),*  
*Mudassar Ahmad (National Textile University),*  
*and Muhammad Asif Habib (National Textile University)*

## Session 2: Computer & Communication Networks and Cloud Computing

User Association Techniques in Future Heterogeneous Networks ................................................................. 18  
*Khush Bakht (University of Gujrat),*  
*Haji M. Furqan (Istanbul Medipol University),*  
*Zain Ali (COMSATS Institute of Information Technology),*  
*and Guftaar Ahmad Sardar Sidhu (COMSATS Institute of Information Technology)*

Multi-feature Enterprise Traffic Characterization in OpenFlow-based Software Defined Networks ............ 23  
*Taimur Bakhshi (National University of Computer & Emerging Sciences)*

*Naeem Mirza (Comsats Institute of Information and Technology) and Ali Nawaz Khan (Comsats Institute of Information and Technology)*

On Physical Layer Security of Two Way Energy Harvesting Relays .......................................................... 35  
*Furqan Jameel (COMSATS Institute of Information Technology),*  
*Faisal Khan (COMSATS Institute of Information Technology),*  
*M. Asif Ali Haider (COMSATS Institute of Information Technology),*  
*and Asim Ul Haq (COMSATS Institute of Information Technology)*
Session 3: Software Engineering

Creating Domain Non-functional Requirements Software Product Line Engineering Using Model Transformations ................................................................. 41
  Fatima Khalique (National University of Sciences and Technology), Wasi Haider Butt (National University of Sciences and Technology), and Shoab Ahmad Khan (National University of Sciences and Technology)

Modeling of Sewerage System Using Internet of Things for Smart City ................................................................. 46
  Saba Latif Latif (COMSATS Sahiwal), Hamra Afzaal Afzaal (COMSATS Sahiwal), and Nazir Ahmad Zafar (COMSATS Sahiwal)

A Fault Based Approach to Test Case Prioritization ........................................................................................................... 52
  Faiza Farooq (Capital University of Science and Technology) and Aamer Nadeem (Capital University of Science and Technology)

Evaluation of Team Expertise in Software Development Organizations ........................................................................... 58
  Muhammad Qasim Riaz (National University of Science & Technology (NUST)), Muhammad Abbas (National University of Science & Technology (NUST)), and Sufian Irshad (National University of Science & Technology (NUST))

Session 5: Web, Application Development & Data Mining

Implementation and Analysis of Novel Clustering Algorithm Without Initial Value Selection for Software Architectural Styles Data Set ......................................................................................................................... 64
  Qadeem Khan (National University of Sciences and Technology), Usman Qamar (National University of Sciences and Technology), Wasi Haider Butt (National University of Sciences and Technology), and Saad Rehman (National University of Sciences and Technology)

Automatic Topic Modeling for Single Document Short Texts ........................................................................................................... 70
  Anamta Sajid (University of Engineering and Technology Peshawar (Mardan Campus)), Sadaqat Jan (University of Engineering and Technology Peshawar (Mardan Campus)), and Ibrar A. Shah (University of Engineering and Technology Peshawar (Mardan Campus))

GPS based Public Transport Arrival Time Prediction ........................................................................................................... 76
  Muhammad Umar Farooq (UET Lahore), Aamna Shakoor (UET Lahore), and Abu Bakar Siddique (UET Lahore)

Resolving Class Imbalance and Feature Selection in Customer Churn Dataset ........................................................................... 82
  Aamer Hanif (Air University) and Noor Azhar (Air University)

Session 6: Image Processing, Computer Vision & Pattern Recognition

Ligature Analysis-based Urdu OCR Framework ........................................................................................................... 87
  Zaheer Ahmed (COMSATS Institute of Information and Technology), Khalid Iqbal (COMSATS Institute of Information and Technology), Irfan Mehmood (Sejong University, Seoul), and Muhammad Adnan Ayub (COMSATS Institute of Information and Technology)
Classification of Urdu Ligatures using Convolutional Neural Networks — A Novel Approach .......................... 93
Nizwa Javed (Institute of Space Technology), Safia Shabbir (Bahria University), Imran Siddiqi (Bahria University), and Khurram Khurshid (Institute of Space Technology)

Human, Object and Scene Centric Image Retrieval Engine to Enhance Image Management ................................. 98
Humza Naveed (KICS UET Lahore), Gulraiz Khan (KICS UET Lahore), Saira Jabeen (KICS UET Lahore), Zeeshan Khan (KICS UET Lahore), and Muhammad Usman Ghani Khan (KICS UET Lahore)

Session 7: Signal Processing and Communications

An Ultra Low Power, 3-Wire Serial Interface Design for Data Converters in Pin-Constrained Applications with 180 nm CMOS Technology ................................................................. 104
Imran Ali (Sungkyunkwan University), Muhammad Riaz Ur Rehman (Sungkyunkwan University), Sang-Yun Kim (Sungkyunkwan University), Nabeel Ahmad (Sungkyunkwan University), and Kang-Yoon Lee (Sungkyunkwan University)

EEG Brain Connectivity Analysis to Detect Driver Drowsiness Using Coherence ............................................. 110
Muhammad Awais (University of Bologna), Nasreen Badruddin (Universiti Teknologi PETRONAS (UTP)), and Micheal Drieberg (Universiti Teknologi PETRONAS (UTP))

Various Meteorological Parameters Effect on GSM Radio Signal Propagation for a Moderate Area .................... 115
Luqman Ali (Bahria University), Intiaz Alam (Bahria University), Syed Asim Ali Shah (Bahria University), and Muneeb Yaqoob (Bahria University)

Session 11: Smart Grid and Electronics

A Novel High Gain Bidirectional Multiport DC-DC Converter to Interface PV, Battery, and Ultracapacitor with Microgrid System ................................................................. 121
Muhammad Arif (COMSATS), Abdul Majid (COMSATS), Jawad Saleem (COMSATS), Qamar Abbass (COMSATS), Naseer Khan (COMSATS), and Zahid Mahmood (COMSATS)

Joint Power Management of Telecom Exchanges and Electric Vehicles Using Hybrid AC-DC Microgrid ............. 127
Ahsan Nadeem (COMSATS Institute of Information Technology), Muhammad Nadeem Rafiq (COMSATS Institute of Information Technology), Muhammad Bilal Qureshi (COMSATS Institute of Information Technology), and Muhammad Jawad (COMSATS Institute of Information Technology)

Sum-of-the-Parts Valuation-Based Scheduling of Parallel Applications over Global Grid .................................. 133
Aroosa Hameed (Quaid-i-Azam University) and Muhammad Usman (Quaid-i-Azam University)

State and Disturbance Observer Based Control for a Class of Linear Uncertain Systems .............................. 139
Nihad Ali (COMSATS Institute of Information Technology), Waqar Alam (COMSATS Institute of Information Technology), Ateeq Ur Rehman (COMSATS Institute of Information Technology), and Mahmood Pervaiz (COMSATS Institute of Information Technology)
Session 12: Image Processing, Computer Vision & Pattern Recognition

Real Time Translator for Sign Languages ................................................................. 144
Zulfiqar Ali Memon (National University of Computer and Emerging Sciences (NUCES-FAST)), Muhammad Uzair Ahmed (National University of Computer and Emerging Sciences (NUCES-FAST)), S. Talha Hussain (National University of Computer and Emerging Sciences (FAST-NUCES)), Zahid Abbas Baig (National University of Computer and Emerging Sciences (FAST-NUCES)), and Umer Aziz (National University of Computer and Emerging Sciences (FAST-NUCES))

Evaluating Effect of Block Size in Compressed Sensing for Grayscale Images ........................................ 149
Muhammad Abdur Rehman Hashmi (Pakistan Navy Engineering College) and Rana Hammad Raza (Pakistan Navy Engineering College)

A Holistic Approach for Recognition of Complete Urdu Ligatures Using Hidden Markov Models ............ 155
Israr Uddin (Bahria University Islamabad), Imran Siddiqi (Bahria University Islamabad), and Shehzad Khalid (Bahria University Islamabad)

Ensemble of SVM Classifiers for Automated Multi-Modality Segmentation of White-Matter Lesions ........ N/A
Yousra Asim (COMSATS Institute of Information Technology), Ahmad Kamran Malik (COMSATS Institute of Information Technology), Basit Raza (COMSATS Institute of Information Technology), Anas Bilal (COMSATS Institute of Information Technology), and Lal Hussain (University of Azad Jammu and Kashmir)

Session 13: Software Engineering

Optimized Software Product Line Architecture and Feature Modeling in Improvement of SPL ................. 167
Atif Zahoor Chohan (University Institute of Information Technology PMAS- Arid Agriculture university Rawalpindi), Abida Bibi (University Institute of Information Technology PMAS-Arid Agriculture University), and Yaser Hafeez Motla (University Institute of Information Technology PMAS-Arid Agriculture University)

FIG based Quality Assurance in Software Product Lines ........................................ 173
Nazish Yousaf (National University of Sciences and Technology (NUST)), Rida Sheikh (National University of Sciences and Technology (NUST)), and Muhammad Abbas (National University of Sciences and Technology (NUST))

Addressing Ambiguities in Software Team's Roles and Responsibilities: Minimizing Accountability Problems ................................................................. 178
Abdul Jabbar (National University of Computer & Emerging Sciences Lahore) and Ali Afzal Malik (National University of Computer & Emerging Sciences)

A Methodology for Impact Evaluation of Refactoring on External Quality Attributes of a Software Design ................................................................. 183
Raja Sehrab Bashir (University of Malaya Kuala Lumpur), Sai Peck Lee (University of Malaya Kuala Lumpur), Chong Chun Yung (School of Information Technology Monash University Salangor), Khubaib Amjad Alam (University of Malaya Kuala Lumpur), and Raja Wasim Ahmad (Comsats Institute of Information Technology Abbottabad)
Session 14: Computer & Communication Networks and Cloud Computing

Towards Moisture Sensing Using Dual-Polarized Printable Chipless RFID Tag ........................................ 189
Nimra Javed (UET Taxila), Ayesha Habib (UET Taxila), Yasar Amin (UET Taxila), and Hannu Tenhunen (University of Turku)

Existing Load Balancing Algorithms in Cloud Computing ................................................................. N/A
Irsa Naz (University of Lahore)

Provision of Security in Vehicular Ad Hoc Networks through an Intelligent Secure Routing Scheme .......... 200
Kashif Naseer Qureshi (Bahria University), Faisal Bashir (Bahria University), and Abdul Hanan Abdullah (University Teknologi Malaysia)

Achieving Load Balancing in High-Density Software Defined WiFi Networks ........................................ 206
Ze Chen (Huazhong University of Science and Technology), Sohaib Manzoor (Huazhong University of Science and Technology), Yayu Gao (Huazhong University of Science and Technology), and Xiaojun Hei (Huazhong University of Science and Technology)

Session 15: Web, Application Development & Data Mining

Regression Analysis for ATM Cash Flow Prediction .................................................................................. 212
Akber Rajwani (NUCES), Tahir Syed (NUCES), Behraj Khan (NUCES), and Sadaf Behlim (NUCES)

Combining Co-citation and Metadata for Recommending More Related Papers ..................................... 218
Shahbaz Ahmad (Capital University of Science & Technology) and Muhammad Tanveer Afzal (Capital University of Science & Technology)

Adding Temporal Dimension in Social Network by Using Link Analysis ............................................... 223
Farhad Muhammad Riaz (Sir Syed Science College for Boys), Rashid Abbasi (Anuhi University Hefei), and Zahid Mahmood (University of Science Technology Beijing)

Multivariate Covariance using Principal Component Analysis for Reconstruction of Bidirected Gene Regulatory Networks ................................................................................................................. 229
Mehrosh Khalid (National University of Sciences and Technology (NUST)), Sharifullah Khan (National University of Sciences and Technology (NUST)), Jamil Ahmad (National University of Sciences and Technology (NUST)), and Muhammad Shaheryar (Capital University of Science and Technology (CUST))

Session 17: Software Engineering

Compliance Checking of Shipment Request by Utilizing Process Mining Concepts: An Evaluation of Smart Auditing Framework ................................................................................................................... 235
Faiza Allah Bukhsh Bukhsh (University of Twente) and Hans Weigand Weigand (University of Tilburg)

Eliciting Theory for Software Maintenance SLA Management Framework ........................................... 241
Syed Irtiza Hassan (The University of Lahore) and Ahmad Salman Khan (The University of Lahore)
Session 18: Image Processing, Computer Vision & Pattern Recognition

Features Selection and Optimized Neural Network Architecture for Modelling Flows in Solar Collectors ........................................... 247
Shahzad Yousaf (College of Electrical and Mechanical Engineering), Imran Shafti (College of Electrical and Mechanical Engineering), and Jamil Ahmad (Abasyn University Islamabad)

Density Based Clustering Using Modified PSO Based Neighbor Selection ................................................. N/A
Xu Huarong (Xiamen University of Technology China), Muhammad Irfan Khattak (University of Engineering and Technology Peshawar), and Ejaz Ul Haq (University of Engineering and Technology Peshawar Pakistan)

Session 22: Signal Processing and Communications

An Efficient Security Method Based on Exploiting Channel State Information (CSI) ......................................................... 288
Jehad M. Hamamreh (Istanbul Medipol University), Haji M. Furqan (Istanbul Medipol University), Zain Ali (COMSATS Institute of Information Technology), and Guftaar Ahmad Sardar Sidhu (COMSATS Institute of Information Technology)
Enhancing the Security Performance of OSTBC Using Pre-Equalization coding
Jehad M. Hamamreh (Istanbul Medipol University), Haji M. Furqan
(Istanbul Medipol University), Zain Ali (COMSATS Institute of
Information Technology), and Guftaar Ahmad Sardar Sidhu (COMSATS
Institute of Information Technology)

Proposing Optimal ARMA Based Model for Measurement Compensation in the State Estimation
Naeem Khan (UET Peshawar) and Syed Abuzar Bacha (UET Peshawar)

Session 29: Computer & Communication Networks and Cloud Computing

Efficient Routing Strategy for Congestion Avoidance in MANETs
Nousheen Akhtar (College Of EME, NUST), Muazzam A. Khan Khattak
(College Of EME, NUST), Ata Ullah (National University of Modern
Languages (NUML)), and Muhammad Younas Javed (HITEC University)

Reconfigurable Cluster Head Selection Protocol for Heterogeneous Wireless Sensors
Qazi Ali (Telecommunication Engineering Department), Malika Bakhtawar
(Telecommunication Engineering Department), Omama Sohail
(Telecommunication Engineering Department), Daim Hussain
(Telecommunication Engineering Department), Sadia Siddiqa (Electrical
Engineering Department), Ibrar Shah (Computer Software Engineering
Department), and Shakeel Waqas (Telecommunication Engineering
Department)

AAGV: A Cluster Based Multicast Routing Protocol for Autonomous Aerial and Ground Vehicles
Communication in VANET
Waqar Farooq (National University of Sciences and Technology (NUST)),
Muazzam A. Khan (National University of Sciences and Technology
(NUST)), Saad Rehman (National University of Sciences and Technology
(NUST)), Nazar Abbas Saqib (National University of Sciences and
Technology (NUST)), and Muhammad Abbas (National University of
Sciences and Technology (NUST))

Shadow Encoding Scheme: A Smart line Coding Scheme for Network Communication
Abdul Rasheed Rizwan (Virtual University of Lahore) and Tariq Ali
(Comsat Sahiwal Campus)

Session 32: Smart Grid and Electronics

A Comparative Study of Electric Vehicles Concerning Charging Infrastructure and Power Levels
Salman Habib (Shanghai Jiao Tong University), Muhammad Mansoor Khan
(Shanghai Jiao Tong University), Khurram Hashmi (Shanghai Jiao Tong
University), Muhammad Ali (Shanghai Jiao Tong University), and Houjun
Tang (Shanghai Jiao Tong University)

Design and Analysis of 15-level Asymmetric Multilevel Inverter with Reduced Switch Count using
Different PWM Techniques
Malik Qamar Abbas (COMSATS Institute of Information technology
Abbottabad), Abdul Majid (COMSATS Institute of Information technology
Abbottabad), Jawad Saleem (COMSATS Institute of Information technology
Abbottabad), and Muhammad Arif (COMSATS Institute of Information
Technology Abbottabad)
Session 33: Computer & Communication Networks and Cloud Computing

Towards a Process Model for Service-Oriented Development of Embedded Software Systems .......................... 339
  Muhammad Waqar Aziz (CECOS University of IT and Emerging Sciences)

Secrecy Analysis of Relay Assisted Device-to-Device Systems under Channel Uncertainty ......................... 345
  Furqan Jameel (COMSATS Institute of Information Technology), Faisal
  Khan (COMSATS Institute of Information Technology), M. Asif Ali Haider
  (COMSATS Institute of Information Technology), and Asim Ul Haq
  (COMSATS Institute of Information Technology)

Session 35: Image Processing, Computer Vision & Pattern Recognition

Gaussian Cellular Automata Model for the Classification of Points Inside 2D Grid Patterns ....................... 350
  Mammona Qudsia (Capital University of Science and Technology (CUST))
  and Mehreen Saeed (National University of Computer and Emerging
  Sciences (FAST-NU))

Machine Learning with Abstention for Automated Liver Disease Diagnosis ............................................ 356
  Kanza Hamid (Pakistan Institute of Engineering and Applied Sciences),
  Amina Asif (Pakistan Institute of Engineering and Applied Sciences),
  Wajid Abbasi (Pakistan Institute of Engineering and Applied Sciences),
  Durre Sabih (Multan Institute of Nuclear Medicine and Radiotherapy),
  and Fayyaz-ul-Amir Afsar Minhas (Pakistan Institute of Engineering and
  Applied Sciences)

Performance Evaluation of Advanced Deep Learning Architectures for Offline Handwritten Character
  Recognition .................................................................................................................. 362
  Moazam Soomro (Pakistan Navy Engineering College, NUST-PNEC), Muhammad
  Ali Farooq (Pakistan Navy Engineering College, NUST-PNEC), and Rana
  Hammad Raza (Pakistan Navy Engineering College, NUST-PNEC)

Sparsity of Magnetic Resonance Imaging Using Slant Transform ............................................................... 368
  Usama Riaz (Superior University), Fuleah A. Razzaq (Superior
  University), Amna Khan (Superior University), and M. Talha Gul
  (Superior University)

Author Index .................................................................................................................................................. 373
