2018 IEEE/ACM 2nd
International Workshop on API
Usage and Evolution (WAPI 2018)

Gothenburg, Sweden
2 June 2018
Table of Contents

Message from the ICSE 2018 General Chair vii .................................................................
Message from the WAPI 2018 Chairs x ..........................................................................
Organizing Committee for WAPI 2018 xi .................................................................
Program Committee for WAPI 2018 xii .................................................................
ICSE 2018 Sponsors and Supporters xiii .................................................................

Keynote

The Changing Landscape of Refactoring Research in the Last Decade: Keynote of the 2nd International Workshop on API Usage and Evolution (WAPI’18) 1 ........................................

Danny Dig (Oregon State University)

API Evolution

Non-Atomic Refactoring and Software Sustainability 2 ......................................................

Titus Winters (Google)

On Software Modernisation due to Library Obsolescence 6 ........................................

Simos Gerastimou (University of York), Maria Kechagia (Delft University of Technology), Dimitris Kolovos (University of York), Richard Paige (University of York), and Georgios Gousios (Delft University of Technology)

Exploring API/Client Co-Evolution 10 ........................................................................

Anna Maria Eilertsen (University of Bergen) and Anya Helene Bagge (University of Bergen)

Discovering API Usability Problems at Scale 14 ......................................................

Emerson Murphy-Hill (North Carolina State University), Caitlin Sadowski (Google), Andrew Head (University of California), John Daughtry (Google), Andrew Macvean (Google), Ciera Jaspan (Google), and Collin Winter (Google)
API Learning & Analysis

Web APIs - Challenges, Design Points, and Research Opportunities: Invited Talk at the 2nd International Workshop on API Usage and Evolution (WAPI ’18) .18..............................................................
   Erik Wittern (IBM T.J. Watson Research Center)

Where Does Google Find API Documentation? .19..............................................................
   Christoph Treude (University of Adelaide) and Mauricio Aniche (Delft University of Technology)

Extending Existing Inference Tools to Mine Dynamic APIs .23..............................................................
   Ziyad Alsaeed (University of Oregon) and Michal Young (University of Oregon)

Author Index 27  . ..........................................................................................................................
