Smart Contracts

Ethereum Query Language 1
Santiago Bragagnolo (Inria Lille - Nord Europe), Henrique Rocha (Inria Lille - Nord Europe), Marcus Denker (Inria Lille - Nord Europe), and Stéphane Ducasse (Inria Lille - Nord Europe)

SmartCheck: Static Analysis of Ethereum Smart Contracts 9
Sergei Tikhomirov (University of Luxembourg), Ekaterina Voskresenskaya (SmartDec), Ivan Ivanitskiy (SmartDec), Ramil Takhaviev (SmartDec), Evgeny Marchenko (SmartDec), and Yaroslav Alexandrov (SmartDec)

NECTAR: Non-Interactive Smart Contract Protocol Using Blockchain Technology 17
Alexandra Covaci (nChain), Simone Madeo (nChain), Patrick Motylinski (nChain), and Stéphane Vincent (nChain)

Blockchain and Applications (1)

Evaluating Complexity and Digitizability of Regulations and Contracts for a Blockchain Application Design 25
Pradeepkumar D S (Accenture Labs), Kapil Singi (Accenture Labs), Vikrant Kaulgud (Accenture Labs), and Sanjay Podder (Accenture Labs)

SHARVOT: Secret SHARe-Based VOTing on the Blockchain 30
Silvia Bartolucci (nChain), Pauline Bernat (nChain), and Daniel Joseph (nChain)

Towards Analyzing the Complexity Landscape of Solidity Based Ethereum Smart Contracts 35
Péter Hegedus (University of Szeged)
Blockchain and Applications (2)

How Much Blockchain Do You Need? Towards a Concept for Building Hybrid DApp Architectures 44
   Florian Wessling (paluno/University of Duisburg-Essen), Christopher Ehmke (paluno/University of Duisburg-Essen), Marc Hesienius (paluno/University of Duisburg-Essen), and Volker Gruhn (paluno/University of Duisburg-Essen)

Proof-of-Property - A Lightweight and Scalable Blockchain Protocol 48
   Christopher Ehmke (University of Duisburg-Essen), Florian Wessling (University of Duisburg-Essen), and Christoph M. Friedrich (University of Applied Sciences and Arts Dortmund)

Preliminary Steps Towards Modeling Blockchain Oriented Software 52
   Henrique Rocha (Inria Lille - Nord Europe) and Stéphane Ducasse (Inria Lille - Nord Europe)

Author Index 59
