# TABLE OF CONTENTS

**USING SUPPORT VECTOR MACHINE TO IMPROVE ULTRASONIC PULSE VELOCITY TEST FOR CONCRETE**  
Loan Ngo Tu Quynh, Wang Yu-Ren ................................................................. 1

**ANALYSIS OF MASONRY ARCHES REINFORCED WITH FRP SHEETS: EXPERIMENTAL RESULTS AND NUMERICAL EVALUATIONS**  
Galassi Stefano ........................................................................................................ 8

**ECONOMIC-ENGINEERING DESIGN FOR LOGISTICS INFRASTRUCTURE ROUTING**  
Namboonruang Weerapol, Andee Noppadon, Suphadon Nuthanan, Krisonsri Boontham ................................................................. 13

**A REVIEW ON EARLY AGE AND LONG-TERM COMPRESSION STRENGTH OF HIGH-VOLUME FLY ASH CONCRETE**  
Li Mu ......................................................................................................................... 18

**PEAK DISCHARGE AND HYDROGRAPH ASSESSMENTS INDUCED BY HEAVY RAINFALL EVENTS USING TANK MODEL**  
Hsu Yen-Kun, Peng Szu-Hsien, Tsai Chiao-Wen ..................................................... 22

**CORRECTION AND ACCURACY IMPROVEMENT OF NON-PARALLEL SHEAR ZONE MODEL**  
Wang Yaoke, Kou Meng, Dong Wei, Ma Huan, Xiong Liangshan ......................... 28

**DESIGN AND ANALYSIS OF OVERHEAD CRANE FOR MAINTENANCE WORKSHOP**  
Sinthipong Siva, Meengam Suppachai, Towatana Prawit ......................................... 36

**DESIGN AND ANALYSIS OF A WIND TURBINE BLADE WITH Dimples TO ENHANCE THE EFFICIENCY THROUGH CFD WITH ANSYS R16.0**  
Rajaram Narayanan M., Nallasamy S., Ragesh Sathivan M. .................................... 41

**STRUCTURAL FAILURE TRENDS OF THE ASSEMBLY WELDING FIXTURE FOR THE FRONT SIDEWALL ON THE BASIS OF FINITE ELEMENT ANALYSIS**  
Sun Duo, Guan Tianmin, Lei Lei ................................................................................ 46

**KINEMATICS ANALYSIS OF MULTI-LINK MECHANISM FOR MINIATURE SERVO PRESS BASED ON MATLAB**  
Lu Xinjian .................................................................................................................. 50

**RESEARCH ON SEVERAL TOOL CHUCK TECHNOLOGY IN HIGH SPEED MILLING**  
Zhao Zhenyu, Xu Xiaomei, Zhou Yongquan, Xiao Haihong .................................... 55

**FINITE ELEMENT ANALYSIS OF CYLINDRICAL RUBBER FENDER**  
Tan Chung-Ming, Chang Mao-Yiu ............................................................................ 59

**DESIGN AND ANALYSIS OF UPTILTED AERIAL LADDER FOR FIRE TRUCK FORMAT**  
Tian Zhi-Jian, Han Xiang-Qin, Xu Lei, Yan Li-Juan, Wei Chong-Yi, Li Jie, Hou Zhi-Song, Jiang Wen-Guang ................................................................. 63

**A STUDY ON LASER MICROMACHINING**  
Muhammad Sajjad, Joy Jithin Ambarayil, Jung Dong Won .................................... 67

**T-PHASE FORMATION AND ITS EFFECT ON MECHANICAL PROPERTIES OF AL-CU-MN ALLOYS**  
Dar Sobanmuddassir, Liao Hengcheng, Li Guangjing ............................................. 71

**MODELLING OF MACROSEGREGATION WITH MESOSEGREGATES IN A BINARY METALLIC CAST BY THE DIFFUSE APPROXIMATE MESHLESS METHOD**  
Mramor Katarina, Hatic Vanja, Mavric Boštjan, Sarler Božidar .................................. 76

**A ROLLING SIMULATION SYSTEM FOR REVERSING ROLLING MILLS**  
Haroglu Umut, Sarler Božidar ................................................................................ 83

**USE OF WEB TECHNOLOGIES TO CREATE AN INFORMATION PROCESSING SYSTEM OF PRESSURE METAL FORMING PROCESSES**  
Osadchy Valentin A., Osadchy Alexander V., Savin Valeriy V., Savina Lyudmila A., Novoseltcev Nikolai V. ................................................................. 89

**NOVEL MATERIALS SYNTHESIZED FROM RED MUD, BAGASSE, AND BENTONITE FOR GAS TREATMENT BY CO₂ ABSORPTION**  
Hoc Thang Nguyen, Luong Ngoc Nguyen Hoang, Thi Nha Uyen Vo, Trung Kien Pham ................................................................. 93

**PERFORMANCE ANALYSIS OF THE BUMP BEAMS MADE OF HIGH STRENGTH STEEL AND CARBON FIBER REINFORCE PLASTICS**  
Yao Yi, Yuan Quan, Fu Sihuan ................................................................................ 97

**A STUDY ON PROPOSAL OF FLANK WEAR CRITERION BY USING A BUILT-IN CURRENT SENSOR WHEN MANUFACTURING THE MOLD MATERIALS IN A SMART MACHINE TOOL**  
Baek Seung-Yub, Jung Sung-Taek, Park Dae-Yu .......................................................... 102
STUDY OF FEATURE EXTRACTION METHOD OF MULTI-INFORMATION SOURCE FOR CONTINUOUS CASTING PROCESS PARAMETERS ................................................................. 106
Liang Xianqi, Lei Zhuzhen, Su Wenbin, Fali Zhong, Zhao Hang, Zheng Yanni, Ding Mingjie

DEVELOPMENT AND APPLICATION OF LIGHTWEIGHT HIGH STRENGTH ORGANIC MATERIALS ................................................................. 112
Zhang Yong

DEVELOPMENT AND APPLICATION OF LIGHTWEIGHT HIGH-STRENGTH METAL MATERIALS .................................................................................................. 116
Pan He

EFFECT OF IMPACT ENERGY ON WEAR BEHAVIOR OF HIGH CHROMIUM WHITE IRON PRODUCED BY LIQUID DIE FORGING ............................................................. 120
Qiu B, Xing S M, Dong Q, Liu H

RESEARCH ON MULTIDIMENSIONAL LOADING DEVICE OF MATERIAL MECHANICAL TEST ........................................................................................................... 125
Zhao Guohua, Wang Dan, Liu Liangbao, Fanand Rui, Mi Rukun

RESEARCH ON CAPABILITY EVALUATION SYSTEM FOR ELEVATOR INSPECTOR ..................................................................................................................... 131
Fei Kexi, Zhou Qiniao, Huang Kai

SAFETY EVALUATION FOR BRIDGE CRANE BASED ON FTA AND AHP .............................................................................................................................. 135
Fei Shuai, Li Xiangdong, Fan Yali

INVESTIGATION OF TRIBO-MECHANICAL PROPERTIES AND STRUCTURE OF SPECIMENS OBTAINED BY SELECTIVE LASER MELTING OF STAINLESS STEEL POWDERS ........................................................................................................... 139
Belyaev Leonid, Zhdanov Aleksey, Morozov Valentin

THE HOT FLOW BEHAVIOR OF AL-2WT.%%CU-1WT.%%MN ALLOY BASED ON GLEEVE-3800 HOT COMPRESSION SIMULATION ................................. 143
Chen Jilong, Liao Hengcheng, Xu Heting

MAGNETIC PROPERTIES OF SILICON STEEL SHEET CORE WITH DIFFERENT PROCESSING STRESS .......................................................................................... 149
Matsui Toshiki, Yum Kyuool

A NEW METHOD OF D-TDOA TIME MEASUREMENT BASED ON RTT .............................................................................................................................. 153
Zhou Junjie, Shen Liangjie, Sun Zhenlong

INVESTIGATION ON DAMPING CAPACITIES OF SPHERICAL MG2SI MAGNESIUM MATRIX COMPOSITES PREPARED BY SUPER-GRAVITY METHOD .................................................................................. 158
Wang Yan-St, Niu Ru-long, Yan Fang-Jia, Duang Dong-Ping, Yang Xue-Min

DEEP DRAWING OF A NI-TI SHAPE MEMORY ALLOY SHEET .............................................................................................................................. 162
Fann Kaung-Jau, Chang Chuan-Hao

SYNTHESIS AND CHARACTERIZATION OF THE NOVEL COLOR-TUNABLE EU/TBBPA/3PHEN COMPOSITES ........................................................................................................... 167
Xie Guangbo, Zhang Zijun, Zhang Jingting

DESIGN AND FABRICATION OF FRICTION STIR WELDING MACHINE .............................................................................................................................. 172
Ambarayil Joy Jithin, Sajjad Muhammad, Jung Dong-Won

SURFACE MODIFICATION OF CR-MO STEEL BY NEW TECHNOLOGY USING HIGH SPEED JET IN WATER UNDER ULTRASONIC IRRADIATION .................................................................................. 181
Ijiri Masataka, Yoshimura Toshihiko

EFFECTIVE RECYCLING OF SPENT AUTO CATALYTIC CONVERTERS BY USING ELECTROCHLORINATION METHOD .......................................................................................... 186
Samataev Nikolay, Antonov Andrey, Tsarev Grigory, Tietz Andreas

INTEGRATED PRODUCT AND PROCESS DEVELOPMENT OF CLUTCH FRICTION MATERIAL USING QUALITY FUNCTION DEPLOYMENT PROCESSES .................................................................. 190
Yan Zhengfeng, Tu Guangping, He Jiajun

THE FAC EXPERIMENTAL RESEARCH ON VAPOR-WATER TWO-PHASE FLOW PIPING SYSTEM OF CAPI1400 SECONDARY LOOP .................................................................................. 196
Zhai Shenhui, Pang Simin, Zhao Jie, Zhu Hongqing, Zhang Xian, Liu Pengfei

NEW NANOCOMPOSITE THERMAL INTERFACE MATERIALS BASED ON GRAPHENE FLAKES, MESOSCOPIC MICROSPHERES AND POLYMERS .................................................................................. 204
Dmitriev Alex A, Dmitriev Alex S, Mikhailova Inna

LASER MICROMILLING TECHNOLOGY AS A KEY FOR RAPID PROTOTYPING SMD CERAMIC MEMS DEVICES .................................................................................................................. 208
Samataev Nikolay, Obhlov Konstantin, Ivanova Anastasia

PROBLEMS OF SODIUM USING IN PULSATING HEAT PIPE MADE FROM FUSED SILICA .................................................................................................................. 212
Nosek Radovan, Liptáková Tatiana, Ťiško Libor, Kočková Zuzana, Malcho Milan, Kiiljan Anna
WELDING PROCESS OPTIMIZATION OF WELDOX960 HIGH STRENGTH STEEL ........................................ 216
Hu Min

HORIZONTAL WELDING QUALITY CONTROL OF THE CO2 GAS SHIELDED WELDING .................. 220
Wang Zhi-Ling

ANALYSIS AND STUDY ON THE THERMODYNAMIC PERFORMANCE OF S-CO2 SIMPLE BRAYTON CYCLE ................................................................................................................. 224
Sun Lei, Tao Lin, Xie Yonghui, Dang Yuanjian, Wang Yongqing

THE THERMAL HYDRAULIC PERFORMANCE OF WAVY PCHE WITH DIFFERENT MATERIALS AND GEOMETRIC PARAMETERS ...................................................................................... 229
Li Yanzhu, Xie Yonghui, Zhang Di

INVESTIGATION OF VIBRATION CHARACTERISTICS FOR BLADED-DISKS WITH DRY FRICTION NONLINEARITY ........................................................................................................... 234
Liu Tianyuan, Xie Yonghui, Zhang Di
