
E3S Web of Conferences Volume 56 (2018)

Khabarovsk, Russia
25 – 27 September 2018

Editors:

I. Rasskazov
S. Kornilkov
S. Tkach

ISBN: 978-1-5108-7254-7
# TABLE OF CONTENTS

INFLUENCE OF DYNAMICS OF DEVELOPMENT OF OPEN MINING ON TECHNOLOGICAL FEATURES OF BLASTING BREAKING ................................................................. 1
Zharikov Sergey, Kutuev Vyacheslav

SIMULATION AND STUDY OF STRENGTH PROPERTIES OF ROCKS BY MEASURING CHARACTERISTICS DURING THE BLAST HOLES DRILLING ........................................... 8
Regotunov Andrey, Sukhov Rudolf

ESTIMATION OF INFLUENCE OF EXPLOSIVE CHARACTERISTICS OF EMULSION EXPLOSIVES ON SHOTPILE WIDTH ................................................................. 15
Sinitsyn Victor, Menshikov Pavel, Kutuev Vyacheslav

MAIN FACTORS DETERMINING POTENTIAL QUALIFIED APPEARANCE OF PEBBLE AND EFFEL DUMPS OF DEPLETED ALLUVIAL GOLD DEPOSITS .............................. 20
Mirzekhanov Gadzhi, Mirzekhanova Zoya

THE TECHNOLOGY OF DEVELOPMENT OF RESIDUE OBJECTS OF PRECIOUS METALS PLACER DEPOSITS ................................................................. 26
Litvintsev Viktor, Alekseyev Vladimir, Krainykh Irina

IMPROVING PROCESSES AND NATURAL PRODUCTION MINERALS RECYCLING ................................................................. 33
Khrusina Natalia, Cheban Anton

THE TECHNOLOGIES OF APPLICATION AND DESIGN FEATURES OF LAYER BY LAYER MILLING MACHINES ................................................................. 39
Cheban Anton, Khrusina Natalia

TRANSPORTATION OF STEAM-WATER MIXTURE DURING DEVELOPMENT OF STEAM-WATER FIELDS ................................................................. 44
Shalyapin Alexander, Varlamova Natalia

THE TASKS OF HYDRAULICS OF STEAM-WATER WELLS IN THE DEVELOPMENT OF STEAM-HYDROTHERMAL FIELDS ................................................................. 50
Chermoshentseva Alla, Shalyapin Alexander

THE SYSTEM OF MAIN CATEGORIES OF INTEGRAL ASSESSMENT OF MINING TECHNOLOGIES ................................................................. 57
Sekisov Gennadii

MODELLING THE DEVELOPMENT OF DRILLING OPERATIONS IN IRON ORE QUARRIES (BASED ON KACHKANAR MPP) ................................................................. 65
Regotunov Andrey, Antonov Vladimir

MEGALOPOLISES GEOTECHNICS ................................................................. 71
Makarov Vladimir, Makishin Valery

CONCERNING THE PRINCIPLES OF DEVELOPMENT OF MINERAL RESOURCES IN THE POLAR ZONE OF RUSSIA BY SMALL ENTERPRISES ................................................................. 77
Gavrilov Vladimir, Khoyutanov Yevgeniy, Batugina Natalia

INTERNAL FORCES ANALYSIS OF GAS PERMEABLE SHELTER WITH EMPHASIS ON SHORT-DELAY BLASTING ................................................................. 83
Leshchinskii Aleksandr, Shevkun Evgeniy, Lovtsov Aleksandr, Kostuniina Olga

PARTICULARITIES OF SOLVING THE PROBLEM OF SUSTAINABLE DEVELOPMENT OF CHROMITE UNDERGROUND MINING AT DEEP HORIZONS BY MEANS OF COMBINED GEOTECHNOLOGY ................................................................. 90
Kaplunov David, Bekbergenov Dosanbay, Djungalova Gulnar

CONCERNING THE CAPABILITY OF MONITORING THE CONDITION OF COAL BED BY TOMOGRAPHY BASED UPON THE REPRESENTATION OF OBJECT MODEL USING CHEBSYCHEV POLYNOMIALS ................................................................. 97
Nazarova Larisa, Nazarov Leonid, Protasov Maxim, Panov Anton, Konichek Petr

GEOPHYSICAL SUPPORTING OF GEOTECHNOLOGIES ................................................................. 103
Alechina Viktor

CHOOSING THE METHOD OF EXCAVATING VEIN RESERVES AND MINERALIZED ZONES ON THE BASIS OF SIMULATION MODELING ................................................................. 107
Strukov Konstantin, Nikiforova Irina, Lavenkov Vladimir, Iun Yuri

THE REASONING OF MINING METHODS PARAMETERS TOWARD DEVELOPMENT OF THE APATITE-NEPHELITE ORE DEPOSITS BASED ON RESULTS OF FORECAST OF MASSIF STRESS STATE ................................................................. 114
Bagaiddinov Ilya, Kuranov Anton, Belyakov Nikita, Streshnev Anatoly
MULTIFRACTAL ANALYSIS OF ELECTRON IMAGES OF FOSSIL COAL SURFACE ........................................ 120
Malinnikov Vasiliy, Zakharov Valeriy, Uchaev Denis, Uchaev Dmitriy, Malinnikova Olga

ESTIMATION OF THE THERMO-HYDRODYNAMIC PARAMETERS OF THE COOLANT IN
THE KOSHELEV GEOTHERMAL SYSTEM .................................................. 126
Mamanev Dmitry

METHOD OF PLACER MINING BY DIRECTIONAL WELL DRILLING .................................................. 132
Bogaceev Viktor, Valsev Niyaz, Koksare Konstantin, Startsev Vasily

COMBINED METHOD OF OPENCAST AND UNDERGROUND MINING OF VALUABLE ORE ............ 137
Valsev Niyaz, Berkovich Vyacheslav, Propp Vladimir, Kokarev Konstantin

DEVELOPMENT OF AN ELECTRONIC CONTROL MODULE AND RESEARCH OF DYNAMIC
AND POWER CHARACTERISTICS OF AN ELECTROMAGNETIC HAMMER FOR
DESTRUCTION OF BOULDERS............................................................... 144
Vasin Konstantin, Erygenov Yerik, Aldiyarov Nakhybek, Yoronin Vladimir

HYDRAULIC BOREHOLE MINING METHOD POSSIBLE APPLICATION AT MIDDLE LARBA
ALLUVIAL GOLD FIELD ...................................................................... 149
Roev Viktork

PRINCIPLES OF THE NON-EUCLIDIAN MODEL APPLICATION TO THE PROBLEM OF
DISSIPATIVE MESOCRACKING STRUCTURES OF HIGHLY COMPRESSED ROCK AND
MASSES MODELLING ........................................................................... 155
Gazev Mikhail, Makarov Vladimir

PROGNOSIS OF LITHOLOGICAL VARIABILITY OF THE WATERBLOCKING STRATA
BASED ON THE RESULTS OF COMPLEX INTERPRETATION OF SEISMIC AND
ELECTRICAL DATA.................................................................................. 162
Sanfirov Igor, Stepanov Yuri, Baybakova Tatiana, Tavnitskiy Alexander

NONLOCAL CRITERIA FOR BRITTLE AND QUASI-BRITTLE FRACTURE OF
GEOMATERIALS AND ROCKS............................................................... 167
Susnev Sergei

IN-SITU ROCK MASS STRESS-STATE MEASUREMENTS IN SCALES OF MINERAL
DEPOSITS: PROBLEM-SOLVING .............................................................. 174
Balek Alexander, Sashourin Anatoly

MANAGEMENT OF GEOMECANICAL PROCESSES - THE BASIS FOR SELECTING THE
OPTIMAL TECHNOLOGIES FOR THE DEVELOPMENT OF MINERAL DEPOSITS ..................... 181
Kozhev Anatoliy, Fedotova Iuliya, Kaspyaryan Edvard

THE ASSESSMENT METHODOLOGY OF CHAMBER MINING SYSTEM ELEMENTS
SUSTAINABILITY ................................................................................. 187
Asanov Vladimir, Evseev Anton, Toksarov Valeriy, Beltiukov Nicholas

CRITICALLY STRESSED AREAS OF EARTH’S CRUST AS MEDIUM FOR MAN-CAUSED
HAZARDS ............................................................................................ 194
Batugin Andrian

DETERMINING DISPLACEMENT PARAMETERS OF “KLETEVAYA” SHAFT AXIS OVER
MINED-OUT SPACE ............................................................................. 201
Zubkov Albert, Sentialsic Sergey, Selin Konstantin

EXPERIMENTAL SUBSTANTIATION OF ACOUSTIC METHOD FOR DETERMINATION OF
“COAL BED - COUNTRY ROCK” CONTACT RELATIONS BASED ON BOUNDARY INVERSE
PROBLEM SOLUTION ........................................................................... 208
Shkuratnik Vladimir, Nikolenko Petr, Nazarova Larisa, Nazarov Leonid

THE ROLE OF MODERN GEODYNAMIC MOVEMENTS IN THE FORMATION OF
GEOMECHANICAL PROBLEMS IN SUBSOIL USE ........................................ 215
Sashourin Anatoly, Panzhin Andrey, Konvalovala July, Rukhin Vladimir

THE ASSESSMENT OF THE IMPACT OF NATURAL AND ANTHROPOGENIC FACTORS ON
THE CURRENT STRESS-STRAIN STATE OF ROCK MASSIF OF BURST-HAZARDOUS ORE
DEPOSITS IN THE EAST OF RUSSIA ...................................................... 222
Rasskazov Igor, Saksin Boris, Usikov Vitaly, Sildyar Alexander

SOFTWARE AND HARDWARE IMPROVEMENT FOR THE STRELTSOV ORE FIELD
GEODYNAMIC TESTING AREA ............................................................... 229
Gladyr Andrey, Miroshnikov Vladimir, Konstantinov Alexander

JUSTIFICATION OF SAFE AND EFFECTIVE WORKING CONDITIONS FOR PIT RESERVES
OF “PIONER” GOLD DEPOSIT ............................................................... 236
Potapchuk Marina, Kursakin Gennady, Krakov Viktor, Lomov Mikhail

GEOMECHANICAL JUSTIFICATION OF SECURITY MEASURES IN THE DEVELOPMENT
OF THE SOUTH KHINGAN DEPOSIT OF MANGANESE ORE ........................................ 243
Rasskazov Maksim, Potapchuk Marina, Kursakin Gennady, Tsoy Denis
THE EVALUATION OF THE INFLUENCE OF TECTONIC STRUCTURE OF NIKOLAYEVSKY DEPOSIT ON ROCK-BURST HAZARD OF ROCK MASS.................................................................................................................. 250
Sidliar Aleksandr, Saksin Boris, Anikin Pavel, Lomov Mikhail

Migunov Dmitry, Grunin Alexey

EVALUATION OF GEOMECHANICAL CONDITIONS AT MAGNEZITOVAYA MINE WHEN UNDERMINING NATURAL AND ANTHROPOGENIC OBJECTS .................................................................................................................. 264
Krinitsyn Roman, Avdeev Arkady, Khudaykov Sergei

THE RESEARCH OF REMOTE EARTHQUAKES IMPACT ON THE INTENSITY OF GEOMECHANICAL PROCESSES IN BURST-HAZARDOUS ROCK MASSIF .................................................................................................................. 271
Lupovoi Vladimir, Rasskazov Igor, Tsoi Denis, Rasskazov Maksim, Sidliar Aleksandr

ROCK BURST HAZARD ASSESSMENT OF APATITE MINES ON KOLA PENINSULA BY MEANS OF LOCAL ACOUSTIC EMISSION METHOD.................................................................................................................. 278
Rozanov Alexander, Tereshkin Andrei

IDENTIFICATION METHOD DEVELOPMENT OF FOCAL ZONES BASED ON SEISMIC MONITORING RESULTS.................................................................................................................. 285
Gladyr Andrey, Miroshnikov Vladimir

EXPRESS ASSESSMENT OF ROCKBURST HAZARD IN “NIKOLAEVSK” AND “INTERNATIONAL” MINES BY GEOACOUSTIC METHOD .................................................................................................................. 292
Tereshkin Andrey, Anikin Pavel, Migunov Dmitry

GEODYNAMIC ROCK CONDITION, MINE WORKINGS STABILIZATION DURING PILLAR RECOVERY AT THE LEVEL +320 M OF THE YUKSPOR DEPOSIT OF THE Khibiny Massif .................................................................................................................. 298
Zhukova Svetlana, Korochak Pavel, Streshnev Anatoly, Salnikov Igor

INVESTIGATION OF REGULARITIES OF BRITTLE FRACTURE FORMATION AROUND MINE WORKINGS IN OVERSTRESSED ROCKS AT THE MINES OF KIROVSK BRANCH OF JSC «APATIT» .................................................................................................................. 304
Korochak Pavel

DEVELOPMENT OF MULTI-CHANNEL PORTABLE IMPACT CONTROL DEVICE FOR LOCAL ASSESSMENT OF THE STATE OF THE EDGE PARTS OF THE ROCK MASSIF .................................................................................................................. 311
Konstantinov Alexander

THE GEOMECHANICAL STATE OF THE MINE «MNOGOVERSHELNOE» LOWER LEVELS MONITORING.................................................................................................................. 317
Avdeev Arkady, Sosnovskaya Elena, Krinitsyn Roman

THE CAPABILITY OF DETAILED STUDY OF COAL- AND OREBEARING STRUCTURES USING ELECTRICAL RESISTIVITY TOMOGRAPHY (ERT) BY MEANS OF “WELL BORESURFACE” OBSERVATION SYSTEM .................................................................................................................. 324
Shkabarnya Nikolai, Shkabarnya Grigory, Gorelov Petr, Korneeva Svetlana

THE PROBLEMS OF MONITORING THE DEFORMATION PROCESSES IN THE INTEGRATED DEVELOPMENT OF THE UNDERGROUND SPACE OF METROPOLITAN CITIES .................................................................................................................. 331
Neguritsa Dmitry

FACTORS INFLUENCING THE CHARACTERISTICS DEPENDENCE OF ZONAL STRUCTURE ROCK FAILURE AROUND LINED OPENING .................................................................................................................. 337
Ksendzents Lyudmila

RESEARCH OF THE GEOLOGICAL FACTORS OF COAL DEPOSITS IN THE SOUTH OF THE FAR EAST BY ELECTRICAL EXPLORATION METHODS .................................................................................................................. 344
Shkabarnya Nikolay, Shkabarnya Grigory, Nechaeva Evgenia, Korneeva Svetlana

SELECTIVE DESINTEGRATION AND CONCENTRATION: THEORY AND PRACTICE .................................................................................................................. 350
Aleksandrova Tatjana, Nikolaeva N., Lieberwirth Holger, Aleksandrov Alexander

PROMISING DEPOSITS OF COMPLEX IRON ORE RAW MATERIALS OF URALS AND ITS PROCESSING NEW TECHNOLOGIES .................................................................................................................. 357
Kornilov Sergei, Dmitriev Andrei, Pelevin Aleksei

THE TECHNOLOGY OF GOLD-CONTAINING CONCENTRATES RECOVERY FROM THE COAL COMBUSTION PRODUCTS OF THE YERKOVETSKOE BROWN COAL DEPOSIT (THE AMUR REGION, RUSSIA) .................................................................................................................. 364
Sorokin Anatoly, Ageev Oleg

PROCESSING OF REFRACTORY GOLD SULPHIDE CARBONBEARING ORES BY MEANS OF THEIR PRE-OXIDATION WITH WATER-AND-GAS EMULSIONS PREPARED IN ELECTROCHEMICAL AND PHOTOCHEMICAL REACTORS .................................................................................................................. 371
Sekisov Artur, Korpi Paul, Rasskazova Anna, Litvinova Natalia, Konareva Tatiana
THE PROSPECTS FOR SECONDARY PROCESSING OF TAILINGS REMAINED AFTER THE BENEFICIATION OF FLUORITE ORES OF PRIMORYE KRAI USING A HIGHLY SELECTIVE COMBINATION OF REAGENTS .............................. 378
Ivannikov Sergei, Voronova Olga

IRON MANGANESE ORES COMPREHENSIVE PROCESSING ................................................................. 385
Garman Margarita

BENEFICIATION AND HYDROMETALLURGICAL PROCESSING OF GOLD-CONTAINING SLUDGE .......... 391
Ivanovikov Sergei, Ageev Oleg, Bratskaya Svetlana, Medkov Michael, Shamrai Evgeniy, Yudakov Aleksandr

PRELIMINARY ESTIMATION OF THEIR WASHABILITY .............................................................. 398
Samatova Luiza, Shepeta Elena

SKARN-SCHEELITE ORES BENEFICIATION STIMULATION USING ULTRASONIC TREATMENT ............................................................... 404
Shepeta Elena, Samatova Luiza

INFLUENCE OF AGITATION LEACHING CONDITIONS TO THE BEHAVIOR OF GOLD IN SOLUTION ................................................................. 410
Prokhorov Konstantin

SUBSTANTIATION OF FIELD OF APPLICATION OF COMBINED (TRADITIONAL AND PHYSICAL-AND-CHEMICAL) GEOTECHNOLOGIES FOR THE DEVELOPMENT OF GRAVEL AND SECONDARY GOLD DEPOSITS ................................................................. 415
Sekisov Artur, Russakova Anna, Lavrov Alexandr, Bogomyakov Roman

POSSIBILITY OF IMPLEMENTATION OF DRY TECHNOLOGY OF GOLD-BEARING ORES ROUGHING: CASE STUDY OF “GURBEY” DEPOSIT ................................................................. 422
Matveev Andrey, Lebedev Ivan, Lvov Evgeniy, Osiyov Diulustan, Gavriliev Dmitriy, Sleptsova Ekaterina

SYNTHESIS SCHEELITE CONCENTRATE ELECTROSLAG REMELTING FOR RECEIVING TUNGSTEN STEEL ................................................................. 429
Kaznichiev Evgeniy, Nikolenko Sergey

SORTING OUT OF GUSEVOGORSK DEPOSIT TITANIFEROUS MAGNETITE ORE BY TECHNOLOGICAL TYPES BY METHODS OF GEOPHYSICAL MODELLING AND PRELIMINARY ESTIMATION OF THEIR WASHABILITY ................................................................. 436
Kornilov Sergey, Kantemirov Valery, Yakovlev Andrey, Titov Roman

STUDY OF PROMISES FOR THE USE OF ULTRASOUND IN THE TECHNOLOGY OF SECONDARY BENEFICIATION OF PROCESSING WASTES ................................................................. 443
Voronova Olga, Kienko Lidija

EFFICIENCY OF CENTRIFUGAL FLOTATION DURING THE REFINING OF GOLD-BEARING ENRICHMENT PRODUCTS ................................................................. 448
Salomatova Svetlana

STRATEGIC APPROACHES OF COMBINED ELECTROTHERMAL PROCESSING OF COAL AND CARBONATE MINERAL RAW MATERIALS FOR OBTAINMENT OF HIGHLY EFFICIENT SYNTHETIC ENERGY CARRIERS AND NON-FUEL PRODUCTS ................................................................. 452
Zhukov Anatoliy

BROWN COALS OF FAR EAST – NATURAL RESOURCE FOR MULTIPURPOSE INDUSTRIAL PROCESSING ................................................................. 459
Salomatova Svetlana

COMPLEX PROCESSING OF TITANIFER-RARE METAL RAW MATERIAL ................................................................. 464
Medkov Mikhail, Krysenko Galina, Epov Dantiy, Sitnik Pavel, Avramenko Valentin

INTEGRATION OF FIBER LASERS IN PROCESSES OF MINERAL RAW MATERIAL PROCESSING ................................................................. 471
Leonenko Nina

OBTAINING SORBENTS FROM BROWN COALS SAMPLES OF KHARANORSKOE COAL DEPOSIT BY WAY OF ELECTROMAGNETIC MICROWAVE RADIATION EXPOSURE ................................................................. 478
Vorsina Elena, Moskalenkov Tatiana, Mikhail Valerie

MECHANICAL-CHEMICAL ACTIVATION USING SOLUTIONS CONTAINING ACTIVE OXYGEN SPECIES ................................................................. 485
Aleksandrov Aleksandr, Liutinova Natalya, Komareva Tatiana, Bogomyakov Roman, Lavrik Natalya

EXPERIMENTAL RESEARCH ON THE FORMATION OF MINERAL-RICH AREAS IN RESIDUE GOLD PLACER DEPOSITS ................................................................. 492
Alexeev Vladimir, Banschikhova Tamara

PROSPECTS AND POSSIBILITIES OF USING ASH AND SLAG WASTES OF POWER ENTERPRISES OF PRIMORSKY KRAI AS TECHNOGENIC MINERAL RAW MATERIALS ................................................................. 498
Ivanovikov Sergei, Shamrai Evgeniy, Taskin Andrey, Yudakov Aleksandr
PLATINUM MINERALIZATION COMPARATIVE CHARACTERISTICS OF THE SOME FAR EAST DEPOSITS ................................................................. 638
  Lavrik Natalya, Litvinova Natalya, Aleksandrova Tatyana, Stepunova Valentina, Lavrik Alexandra

QUALITY OF MINERAL WEALTH AS A FACTOR AFFECTING THE FORMATION OF REFUSE OF ORE MINING AND PROCESSING ENTERPRISES ................................................................. 645
  Chrykhalova Svetlana

LOCAL SEISMICITY ALTERATIONS IN THE SOUTH YAKUTIA MINING REGION DUE TO THE TECHNOGENIC IMPACT ON ITS GEOLOGICAL ENVIRONMENT ................................................. 651
  Grib Nikolay, Imaev Valery, Grib Galina, Imaeva Lyudmila, Kolodeznikov Igor

GEODYNAMIC AND STRUCTURAL FACTORS OF PORPHYRITIC OBJECTS LOCALIZATION IN SIKHOTE-ALIN ......................................................................................................................... 658
  Nevstruyev Viktor, Kozlova Olga

MINING TECHNOLOGICAL HOMOGENEITY AND ITS COMPOSITION ............................................................................................ 663
  Sekisov Gennady, Yakimov Alexey

ECOLOGY AND MINING INDUSTRY DEVELOPMENT IN HIGH-MOUNTAIN AREAS (THE INNER TIEN SHAN) ................................................................................................................................. 669
  Aleshin Yurii, Aitmatov Ilgiz, Torgoev Isakbek, Chukin Bektur

ASSESSMENT OF TECHNOLOGICAL PREPAREDNESS COAL DEPOSITS TO A RATIONAL INDUSTRIAL DEVELOPMENT ............................................................................................................. 676
  Pisarenko Marina

GEOLOGICAL STRUCTURE AND COAL CONTENT OF THE YTYMDZHIKSKAYA CAVITY OF THE GONAMSK COALBEARING REGION IN THE SOUTH YAKUT COAL BASIN .............................................. 682
  Rukovich Aleksandr

PROBLEMS OF MODERN TECHNOLOGICAL AUDIT OF MINING ENTERPRISES .................................................................................. 688
  Golovyryin Sergei, Kovalev Mikhail, Lezhin Mikhail, Makarov Vladimir
