TABLE OF CONTENTS

PART 1

USE OF AMORPHOUS ALUMINOSILICATES AS MODIFYING ADDITIVE IN FORMULATIONS OF LIME MORTARS .............................................................................................................. 1
K V Zhegera

DEVELOPMENT OF COMPOSITIONS OF MODIFIED CONCRETE WITH IMPROVED WATER-REPELLENT PROPERTIES FOR UNDERGROUND PARTS OF BUILDINGS ........................................... 7
V D Tukhareli, A V Tukhareli, T F Cherednichenko

CONTEMPORARY METHODS OF PRODUCTION OF PIGMENTS OBTAINED FROM NON-FERROUS INDUSTRIAL WASTE .................................................................................................................. 13
A V Vyboishchik, I L Kostiunina

CONTEMPORARY METHODS OF PRODUCTION AND APPLICATION OF PIGMENTS OBTAINED FROM TITANIUM DIOXIDE .................................................................................................................. 18
A V Vyboishchik, I L Kostiunina

USE OF IRRETRIEVABLE WASTE FLAX AND COTTON FOR PRODUCTION OF HEAT-INSULATING PLATES ................................................................................................................................. 24
A M Ibragimov, T N Yakhchina, I V Shtoeva

POSSIBILITY FOR OBTAINING CELLULAR CONCRETES BASED ON SERPENTINE MATERIALS ................................................................................................................................. 28
A A Orlov, N Ye Nikitenko, A A Gilevich

FORMATION OF OPTIMAL STRUCTURE OF CELLULAR CONCRETE .................................................................................. 35
G A Zimakova, V A Solonina, D S Bayanov

COMPOSITION AND SYNTHESIS DEVELOPMENT OF BUILDING GLASS ON THE BASIS OF NON-STANDARD RAW MATERIALS .............................................................................................. 39
I Albaeva, S Vlasova, F Kapustin

INTRODUCING POZZOLANIC ADMIXTURE TO IMPROVE FROST RESISTANCE OF PAVEMENT CONCRETE ................................................................................................................................. 45
L Ya Kramar, A I Kedyakov, K V Shuldyakov

CEMENT STONE MODIFIED WITH COMPLEX OF POLYCARBOXYLATE SUPERPLASTICIZER AND SILICA FUME ......................................................................................................................... 50
K V Shuldyakov, B Ya Trofinov, L Ya Kramar

COMBINED CEMENTS WITH NON-SHRINKING PROPERTIES USING SULFOFERRITE CLINKER ................................................................................................................................. 56
I N Borisov, A A Grebeniuk, V I Dyukareva

INFLUENCE OF WATER SATURATION ON STRENGTH OF MODIFIED GYPSUM-ALUMINA EXPANDING CEMENT AT STAGE OF DELAYED HARDENING ........................................................................... 67
S A Udodov, O A Bychkova

ON USE OF BLAST-FURNACE GRANULATED GROUND SLAG IN CONSTRUCTION ................................................................................................................................. 75
M M Surovtsov, Y N Novoselova, L R Slobozhankina

MICROSTRUCTURE STUDY OF LIME-SLAG CEMENT STONE AFTER THERMAL TREATMENT AT VARIOUS TEMPERATURES ......................................................................................................................... 81
R R Akhryamov, B Ya Trofinov, R A Zhivtsova

MATHEMATICAL MODEL OF POLYSTYRENE CONCRETE STRUCTURE FOR DESIGN OF ITS STRENGTH CHARACTERISTICS ......................................................................................................................... 87
V S Rusov, V A Belyakov, E S Gerasimova

INFLUENCE OF AGGREGATE TYPE ON THERMAL RESISTANCE AND 4 % LOAD STRESS TEMPERATURE OF HEAT-RESISTANT LIME-SLAG CONCRETE ......................................................................................................................... 92
R R Akhryamov, B Ya Trofinov, D F Bogusевич

ANISOTROPY OF STRENGTH PROPERTIES OF ALUMINATE CEMENT AFTER EXPOSURE TO SINGLE-AXIS LOADING AT EARLY STAGE OF HARDENING ......................................................................................... 97
Yu Yu Galkin, S A Udodov

RESEARCH OF STRUCTURING PROCESSES OF NON-AUTOCLAVE FOAM CONCRETE WITH INTRODUCTION OF MINERAL ADDITIVES ......................................................................................................................... 104
N Mashkin, E Bartenjeva

DEVELOPMENT OF SULFATE-RESISTANT CONCRETE BASED ON SLAG PORTLAND CEMENT ................................................................................................................................. 109
M D Butakova, K S Drushkina
